

New Haven.

Mrs. O. E. Bevier is improving in health quite rapidly.

Wm. Long has been quite sick for several weeks with stomach trouble.

Mrs. Mariett Woodworth was the over Sunday guest at the home of Mr. and Mrs. J. H. Sigel.

Mrs. F. C. Stevens of Newark, has been spending several days with her sister, Mrs. G. W. Smith and Mrs. P. J. Dodd.

Miss Earhart and little granddaughter of Mrs. Adah Earhart of Cincinnati, are visiting at the home of Miss Jennie DuBois.

Miss Cora Watts on Tuesday evening entertained a number of school mates friends in honor of her birthday. Ice cream and otherainties were served.

The daughters of A. J. Mills of Cleveland, have been spending some time at the home of their grandmothers, Mrs. J. H. Mills and Mrs. E. R. Skinner, and other relatives.

Mrs. W. A. Garrett and her cousin, Mrs. N. Kiser, spent Monday afternoon in Fairfield at the home of Delano P. Barnes, father of the latter, who is seriously ill with cancer on his face.

Mrs. Clara Cline of Newark, visited at the home of her father, F. H. Long, over Sunday, with her little daughter, who is suffering here on account of an epidemic of measles and scarlet fever in her home town.

Ripley Items.

Come to the Ripley Fair, September 6 and 7.

Mrs. J. Pettit, wife and nephew, Ed. Cole, attended the state fair Wednesday.

J. H. Gleason will be in the near future visit for a month with friends in Ohio, Michigan and Indiana.

Gay Bodine and wife were a part of an auto load to the Carpenter family reunion at Haverville last Saturday.

G. A. Hassinger, wife and daughter, Elma, and Ed. Cole and wife, attended the Dick family reunion at Bascom, O., last Saturday.

Fred Ravdahl, who has been working for the past two years near Monroeville, is spending some time with his family here.

W. B. Ross, wife, daughter, and Mrs. Goldie Ankrum Tallman, of New London, and F. P. Boardman and wife were an auto party to the state fair Thursday morning.

The duplex church system was adopted by the Delphi church at the last meeting of the officials held at the home of F. P. Boardman. The new plan will begin next Sunday.

The sixth Bible Study class was adjourned at W. B. Ross' this week Thursday eve for one week at the same place, on account of so many people at the state fair. Mrs. Susie Simmons is the leader. Topic, "The Arrest of Paul." Everybody invited.

The Ripley musicians were in annual session at the Congregational church last Tuesday night. Mrs. Wolever of Shiloh, has been their instructor many years, and great credit is due her for the splendid accomplishments of our young people.

The only fair of Huron county will be at Ripley Cent Sept 6 and 7. Superintendents of the various departments are active in their efforts to present the best exhibits and cover a wide range of exhibits. Horses racing, ball games, horses, cattle, sheep, dogs, goats, poultry, fruit, grains, and many more will be awarded 1st, 2nd and 3rd premiums.

The Ripley Township S. S. Convention as usual was still better than before. The reports of the Ohio State S. S. convention by Mrs. C. H. Silliman, state delegate from Huron county, made our people feel as if we were all at the great convention. Mrs. Silliman is an expert in gathering and noting facts to the edification of her hearers. The names, Miss Clara Donaldson on Sunday School work in the government schools was a classic. The address by Rev. C. M. Crabbe of Chillicothe and by the Hon. Ralph U. Smith, were stirring and uplifting. Everybody said the music was grand.

Fred Darr Weds Miss Dora Linder.

A number of friends of the young couple will be interested to learn of the marriage of Miss Dora Linder of Monroeville and Mr. Fred J. Darr of Akron, formerly of this city, which took place at the English Lutheran parsonage Monday evening at 6:30 o'clock. The ceremony was performed by Rev. C. G. E. Smith and the attendants were Lena Loxton and Mr. A. Langeneamp of Plymouth.

Mr. and Mrs. Darr will reside in Akron where the groom holds a responsible position with one of the rubber factories. -Newark Reflections.

Both the young people are quite well known in Plymouth and their friends extend hearty congratulations.

Killed Two Cub Bears.

The following, taken from the Stockton, Calif., Daily Evening Record of Aug. 24, gives the experience of a hunting party in California, of which Harry Murphy, of Mr. and Mrs. Jas. Murphy, of West Broadway, was one: "Laden with trophies of the chase, George Steele, a retired cattleman of this city, and a party consisting of Alex. Briones, H. B. Morby and John Greenan, have returned from a delightful outing in the high Sierras. They came home with a real 'bar' story and they have the evidence to prove it.

Johnny Steele, the twelve-year-old hero of the battle with an infuriated bear and her two cubs, remained in the mountain for a little more of the touch of real life.

The Steele party, which included Mr. Steele's son and Ed McCanley, of Angeles Camp, spent 17 days at the Steele range, a large cattle range on the Stanislaus river, 13 miles above Dorington and in the vicinity of Bloods. They brought back the antlers of three big deer and the skins of three bears.

"The first day the deer season opened we killed our first big buck," says Steele. Briones, the Stockton clothier, in telling the Record about the experiences of the party. "The next day we got the venison to our camp. The bear started after me this year and those killed in the Dorington country are few fellows. The horns still bear the velvet."

But the exciting story concerns the killing of the bear. One day while the party were out after deer, Mr. Murphy jumped a huge bear and two cubs just as all of the hunters were meeting at a common point, Mr. Murphy shot at the bear and missed. The bear darted after Mr. Steele, who turned his dog loose and then climbed a high boulder for safety. He broke one of the bear's hind legs with a bullet. The bear then turned her attention to the boy, Johnny Steele, but the dog saved the situation, leaping on the infuriated brute and giving battle. The boy shot and killed the bear within a few feet of him.

Mr. Murphy killed the two cubs with a .300. Briones, the Stockton tinker that was a whopper. Mr. Murphy bagged a four-pointer and his. Murphy killed the other forked horn.

The party also brought home the skin of a five-foot rattlesnake of the largest snakes reported killed in the Sierras this season.

Amundson Reunion.

The twenty-third reunion of the Amundson family was held at the home of Mr. and Mrs. C. O. Light near Steuben, Saturday, August 19, 1916. The day was ideal except for a few minutes. Tables were spread under the beautiful old trees and that the dinner was ideal was proved by the fact that although it was one left his post. The day was spent happily.

After dinner Uncle James Amundson, 87 years of age and the oldest member, made his annual speech. Then the regular business meeting was called. Officers for the following year were elected as follows: Pres., Frank Ashley; Vice Pres., Chalmers Loudon; Sec. and Treas., Louis Grove. It was decided to hold the next meeting in the Methodist churchyard at Delphi, the third Wednesday in August, 1917.

Million School Children in Ohio.

School bells next week will call more than 1,000,000 youngsters back to their books. H. D. Swygart, statistician in the state school superintendent's office, made this estimate. The total enrollment last year reached 990,000 grade school and high school pupils.

Clang of school bells also, will bring more than 31,000 teachers back to their desks in 12,400 school buildings.

Here are the figures, cited by Swygart on the opening of school next month and Ohio's school system generally:

More than 100,000 youngsters will start to school.

More than 5000 new teachers will go to work this year.

The pay roll for Ohio teachers will be close to \$18,000,000 for the year. The value of school buildings and properties in Ohio is close to \$100,000,000.

At least 7,000 men and women will start college work this fall, bringing the total college and university enrollment up to 20,000.

To teach these 20,000 college students, more than 1500 professors, instructors and tutors will be required.

Methodist Notes.

Worship renews the spirit as sleep renews the body. Our souls as well as our bodies get drained, now and again of available energy. We go stale. Worship is the self-conscious part of the natural recovery of value in life when it has grown stale.—From What Men Live By, Richard C. Cabot.

During the Sunday evenings of August the evening preaching service has been combined with the Epworth League service and has given great satisfaction. Mr. W. M. Johns led the meeting and presided at the service.

Opportunity will be given next Sunday for any to unite with the church by letter or on probation. The pastor will preach morning and evening. Two Sundays remain before conference.

The first Sunday of September ought to see a rallying to the fall work of the church. How Associations, summer months and summer vacations are over.

RECORD OF THE PAST.

No Stronger Evidence Can Be Had in Plymouth.

Look well to their record. What they have done many times in years gone by is the best guarantee of future results. Anyone with a bad back, any reader suffering from urinary troubles, from kidney ills, should find comforting words in the following statement.

W. H. Fetters, machinist shop, Bell street Plymouth, says: "I have used Doan's Kidney Pills for years for backache and other kidney troubles, and have always had benefit. Others of my family have also had good results from Doan's Kidney Pills. (Statement given November 24, 1911.)"

Over a year later Mr. Fetters said: "I still use Doan's Kidney Pills occasionally and always find them just as re-assuring."

Price 50c., at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Fetters has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y.

For Sale.

My property on Partner street, consisting of large, roomy house and all modern conveniences, among which are bath and hot water heat. Plenty of fruit, also lot and barn adjoining. For price and particulars call on Mrs. D. F. Nixon.

Don't Neglect Your Cold

Neglected colds get worse, instead of better. A stuffed head, a tight chest must be relieved at once. Dr. Bell's Pine-Tar-Honey is Nature's remedy. Honey and glycerine heal the irritated membrane, antiseptic tar loosens the phlegm, you breathe easier and your cold is broken up. Pleasant to take. Dr. Bell's Pine-Tar-Honey is an ideal remedy for children as well as grown-ups. At your Druggist, 25c.

Legal Notice.

Notice is hereby given that Harvey S. Myers of Plymouth, Ohio, has been duly appointed and qualified as Executor of the last will and testament of Peter Myers, late of Plymouth, Richland County, Ohio, deceased.

DATED 9/1/16. PROBATE JUDGE OF RICHLAND COUNTY, OHIO.

Date Aug. 31, 1916.

OHIO NEWS CUT TO THE QUICK

Warrensville voted wet, 88 to 53.

Youngstown is to have a halt millionaires' ball.

Perryburg's centennial celebration was a notable success.

Four auto handbills shot and killed Patrolman Lanfatta at Columbus and escaped.

Automobile clubs of Licking, Muskingum and Fairfield counties held a joint picnic at Buckeye, Licking county.

Fire damaged the plant of the Standard Brewing company, Cleveland, to the extent of \$50,000.

Donald Smith, thirty, Stonebenville, sustained a fractured skull when his auto went over an embankment.

Presbyterian Church.

Owing to the work progressing in the church it is impossible to hold services there, so we will have preaching services at the Lutheran church Sunday at 10:30 and at 7:00; the C. E. meeting will be held there at 6:00 p. m.

Clear Bad Skin From Within

Pimply, muddy complexions are due to impurities in the blood. Clear up the skin by taking Dr. King's Life Pills. These mild laxative pills remove the poisons from the system and brighten the eye. A full, free, non-ripping bowel movement in the morning is the reward of a dose of Dr. King's New Life Pills the night before. At your Druggist, 25c.

Burning Barbs Worth Millions.

Ohio's loss from barn fires is a million a year.

Ten years ago the loss on barn buildings was half as much more than the loss on their contents. Now, the value of the contents is greater than that of the building. The great increase in the loss on contents depends upon the increased value of farm products, and especially upon the fact that since the farm hand has run away to town and the farm girl has followed him, the farmer must have a machine for everything from mowing to milking. These machines stored in the barn are lost, for a barn fire seldom leaves anything of value but the foundation. In most cases there is no fire department within call.

Game Laws as Applied to Ohio.

Following is a brief synopsis of the Ohio game law: Wild duck, wild geese, brant or other water fowl may be killed from Sept. 1, to Dec. 4. Such shooting is prohibited on Sundays and Mondays. Rail coot or mudhen, Sept. 1, to Nov. 30.

Black breasted and golden plover, Wilson or jacksnipe, greater and lesser yellowlegs, Sept. 1 to Dec. 15. Woodcock, Oct. 1 to Nov. 30. Squirrel, Sept. 15, to Oct. 20. Fox, Oct. 2, to Jan. 9. Raccoon, Nov. 1 to Mar. 1. Muskrat, Jan. 1, to April 1. Skunk, Nov. 15, to Feb. 1. Rabbit, Nov. 1, to Jan. 1. Rabbits may be killed by the owner, tenant or tenant of premises or by a bona fide employe of such owner, manager or tenant, at any time except Sunday and in any manner when found injuring property.

Notice of Sale of Bonds.

The Trustees of the Sinking Fund of Plymouth Village offer for sale at private sale, to and including Sept. 11, 1916, the following bonds of Plymouth Village: Nine bonds of \$120.00 each, issued in 1915 to provide a fund for the payment of the Village's portion of Sandusky Street, paving improvement. Said bonds bear interest at 5 per cent per annum, payable semi-annually March 1 and September 1 of each year during the term of each bond. The first bond due March 1, 1917 and one bond due each year thereafter till March 1, 1925, on which date the last bond is due. E. K. THAYERS, Clerk of Sinking Fund Trustees

Personal Mention.

Mr. and Mrs. Herman Thomas visited Norwalk friends this week.

Rev. S. S. Kaufman of Chicago, Ill., is the guest this week of Mrs. I. A. Ruby.

Miss Helen Hildreth of Collinwood, O. was a Sunday guest of Mrs. C. H. Russell.

Mrs. E. E. Rogers returned home last Saturday evening from a month's outing at Lakeland.

Maurice Spear of Pittsburg, has been the guest of his parents, Mr. and Mrs. Sol Spear, this week.

Miss Clamela Constable of Cleveland, is a guest of her uncle and aunt, Mr. and Mrs. S. L. Abbott.

Frances Dronberger of Cleveland, is spending his week of vacation with his sister, Miss Willa Dronberger.

Frank Ramsey and daughter, Myrtle, and son, Edward, and Ruth Bell were Sunday guests of Bolter friends of the hamlets and assume a part of the responsibility.

Dr. and Mrs. C. S. Miller and son, Stanley, of Toledo, were calling on Plymouth friends Friday afternoon.

Miss Grace Hanick is in Cleveland this week attending the opening of the advanced styles in Fall millinery.

Miss Verda Trauger leaves today (Saturday) for Martins Ferry, to resume her school work for another year.

Mr. and Mrs. J. M. Bell of Mansfield, are guests at the home of his daughter, Mrs. Frank Ramsey and husband.

Mr. and Mrs. Marquis Bistline and son, returned home the first of the week, having spent the summer with relatives at Dover, Mass.

Mr. and Mrs. Chas. McDonough and son, of Cleveland, are spending the week with their parents and taking in the chautauqua sessions.

Mrs. James Ward and son, Lloyd, leave Friday evening for Cleveland, where they will be week-end and over Labor Day guests of friends.

Clarence Shield of Pittsburg, has been here this week guest of his parents, Mr. and Mrs. Louis Shield, and attending the chautauqua session.

Mrs. Mary Wilson of Thornville, O., and Mrs. Homer Cochran of Lovellville, O., were over Sunday guests of their parents, Mr. and Mrs. Geo. Andrews.

Mr. and Mrs. H. L. Haberkost of Akron, after spending the past week with their uncle and aunt, Mr. and Mrs. C. H. Russell, returned home Sunday evening.

Mr. and Mrs. Jackson Bevier left Wednesday morning for Columbus, where they will attend the state fair, going from there to Delaware, where they will spend the week end.

Mr. and Mrs. Geo. Sauer and Mrs. Chas. McClintchey left Sunday noon for Kansas City, where they will attend the G. A. R. Encampment and will visit various points in that section.

Mrs. Magrie Houng of Seattle, Wash., arrived last week Friday for a lengthy visit with her Plymouth relatives, this being her first visit back here in upwards of sixteen years.

Miss Ruth Seaton of Omaha, Neb., who has been spending the past week with her uncles, Dr. F. P. Russell of Akron, and C. H. Russell of Plymouth, left for home Saturday morning at 7:00 o'clock.

Miss O'Neil of Cleveland, for fifty years a nun of the order of The Ladies of the Sacred Heart, and stationed at St. Joseph's Orphan Asylum, is the guest of her cousin, Mrs. D. Hanick.

Rev. and Mrs. R. H. Balmer, who have been in Cleveland, attended their daughter in Cleveland, motored through this far on their homeward journey Tuesday afternoon and spent the evening and following day with their Plymouth friends.

Mr. Henry Bachrach, accompanied by his nephew, Moses Bachrach, were called to Logansport, Ind. Sunday to attend the funeral of his sister, Mrs. Carrie Sterns, who was quite well known to many in this place. Out of several children in the family, Mr. Bachrach is the only surviving member, he being the oldest of the family.

The Chautauqua.

The Colt-Alber Chautauqua Co., opened up their second engagement here Tuesday afternoon under very favorable circumstances. The weather has been ideal and notwithstanding numerous other dolings over the country this week the attendance has been very good, however the sale of tickets was not sufficient to put the guarantors on the safe side of the ledger. The small deficit has been met by the guarantors and we have our chautauqua just the same, due to the liberal heartedness of the guarantors, who are entitled to all praise in bringing this great feast of all good things to our town, their only disappointment being that the people did not stand at their back and see this most worthy enterprise pushed over to a financial success. If another chautauqua is held in Plymouth it is very evident the knackers will have to lay aside their hammers and assume a part of the responsibility.

The program thus far has been very meritorious, entertaining and much appreciated and only words of compliments are heard of each attraction.

The Junior Chautauqua, a new feature this year, is taking immensely with the little folks, over 125 being enrolled, and is under the supervision of Miss Josephine Wilson, who certainly is doing a wonderful work, the results of which can be seen as the prelude to the Saturday afternoon session.

Mr. Miller, superintendent of the chautauqua, is certainly handling the affairs of the chautauqua in a very capable manner, a pleasing gentleman to meet, as are also the other attaches of the chautauqua.

We still have two more big days before us, the last number closing Saturday evening, at which Leonid Samoiloff, world-famous Russian tenor and assisting artists will appear.

Stop The First Cold.

A cold does not get well of itself. The process of wearing out a cold wears you out, and your cough becomes serious if neglected. Hacking coughs drain the energy and sap the vitality. For 47 years the happy combination of soothing antiseptic balsams in Dr. King's New Discovery has healed coughs and relieved congestion. Young and old can testify to the effectiveness of Dr. King's New Discovery for coughs and colds. Buy a bottle today at your Druggist, 50c.

Some folks talk so much about what the city ought to do to prevent the spread of disease that they never get around to cleaning up their own back yards.

Several weeks ago an editor advertised the fact that he had lost an umbrella and requested the finder to keep it. He now reports that the umbrella has done so. It pays to advertise.

Do your chickens pay? Our farmer readers will find some specially good reading in the "Holders' Making the Farm Pay" article, which we have put in this issue of the Advertiser.

Painters started in the first of the week, painting the Presbyterian church, both inside and out, and during this process the church will be closed, or at least while the interior is undergoing this work.

Lyman Ashley, a pioneer resident of Greenfield township, and widely known throughout this section, died at his home in Chicago Junction, Sunday morning, having passed his 84th milestone by seven months.

E. G. Gregory of Norwalk, republican nominee for sheriff of Huron county, was a Plymouth visitor Wednesday. Ed. is a good campaigner and expects to keep on the job from now on until election time.

The grading work on the North street improvement is practically completed and is now awaiting the arrival of the material for the concrete base, which when finished the work of brick laying will be a short job.

The case of Mitchell A. Gebert et al. vs. the incorporated village of Plymouth, has been brought to a common pleas court. The defendant is ordered to recover its costs of the plaintiffs, who are to pay their own costs. The injunction granted in the case has also been dismissed.

The Deisler Theatre will be open to the public every night in the week, beginning Sept. 4th, Labor Day. On Friday, Sept. 8th, we will show the episode of the greatest serial ever produced, "Fog of the Ring," featuring Grace Cunard, Francis Ford and Ruth Stonehouse.

H. A. Daek of Cahoon, Ill., in remitting to the Advertiser says: "The weather is awful hot this month. The corn crop looks fine and dandy and pasture first class, due to the frequent rains. Hay crop was exceedingly large. The oat crop is light while wheat was nearly a failure."

For the benefit of those who need the services of an optician or having trouble with their eyes, Dr. R. C. Price will be here at his father's place of business, Monday, Sept. 4, for the purpose of examining eyes and fitting glasses. Make your calls as early in the day as possible as he will be here for the day only.

Today (Sept. 1) marks the opening of the 1916 hunting season in Ohio for certain classes of game and in anticipation of the opening, many hunting licenses have been obtained. On Sept. 1, the season will open for hunting wild duck, wild goose, brant or other wild water fowl. The open season for shoreland waterfowl begins Sept. 15 and closes Oct. 20.

Several years ago the Prohibition party in Ohio fell down in the votes cast and lost its place on the ballot. It has not since polled enough votes to get back but the law permits it to be placed back by petition. Such a document was circulated in Norwalk this week by J. N. Watrous and he secured more than 112 signatures and sent it to the headquarters at Columbus.

Born—To Mr. and Mrs. Harry Dawson, on Tuesday, August 22, a son.

Monday will be Labor Day. That's the day nobody labors, excepting the boys in the army.

The Unity Bible class will meet with Mrs. P. P. Willst Wednesday evening, Sept. 6th.

Quite a number of fans are flourishing on going over to Cedar Point Monday to witness the Kilbane Chase.

About seventy-five tickets were sold out of here Wednesday morning over the B. & O. to excursionists to the state fair at Columbus.

Mrs. J. C. Terry, who has been ill the past several weeks, is much improved and is able to be up and around the house.—Sheiny Globe.

Now that the hunting season has opened, remember it is essential to get consent of the property owner before entering his premises.

The Ladies' Aid Society of the Presbyterian church will meet Wednesday, Sept. 6, at the home of Mrs. L. Hess on Broadway. Let all members be present.

If you are going to be sick better stay away from Crestline, for beginning September 1st the doctors of that town have boosted prices for their prescriptions and professional calls.

Frank Kotz, accompanied by Dr. J. L. Busby will leave tomorrow afternoon for Columbus, where Mr. Kotz will have his tonsils removed at the St. Clair hospital, Friday morning.—Shelby Globe.

Mrs. C. H. Russell gave an informal tea at her home Thursday afternoon to the number of twenty ladies of her village. Mrs. Henry Haberlost of Akron, and Miss Ruth Seaton of Omaha, Neb.

Mrs. Lucy White Caykendall, a native of Auburn township, and well known to many hereabouts, died at the home of her niece, Mrs. Clara Daugherty, in Tiro, Monday morning, aged 55 years and 7 months.

Elderberries are very plentiful and as a pie and appetite filler are hard to excel. Then, too, as they can be used for the gathering they will help some to reduce the high cost of living, but not much if land and flour keeps on soaring.

Infantile paralysis, the dreaded disease scourging the country, has broken out in Monticello, where Rudolph, the young son of Mr. and Mrs. Rudolph Petzel, superintendent of the Meister Piano Co., as the victim. This is the first case so far reported in Huron county.

During this dry spell, people should be careful about extinguishing fires after burning rubbish. A little gust of wind striking a bed of coals or a pile of brush will kindle, causing considerable damage—and you know water is getting to be a scarce article. So do be careful.

The personal effects of the Honey Creek Poultry Co., which were purchased by R. Nimmans, and stored in the Briggs room on Broadway, will be sold at private sale, beginning Saturday, Sept. 2, by the vendor, R. H. Nimmans. Goods are on display and in charge of salesman. Bargains await you.

A quiet and happy wedding occurred at the Methodist parsonage Tuesday evening of this week when Evan G. Coe and Florence A. Thiel were united in the holy bonds of matrimony by the pastor of the bride, the Rev. Chas. F. Mott. Both are respectable young people and have the sincere best wishes of a large circle of friends.

Some sort of an epidemic has struck the horses in this section, and in nearly every instance has proved fatal, several having already died. Among those having lost animals are Ben Boardman, Harry Lyons, Frank Rogers, Lewis Patterson, all residing northeast of Plymouth, while the little cream pony, which has been the pet of the Chappell family for years, succumbed to the disease Friday of last week.

Jack D. Shekler, assistant state fire marshal, was in Plymouth last week Friday and while here made the Advertiser a very pleasant call and likewise paid our little city a very nice compliment, stating that with one or two exceptions our town was in excellent shape from fire traps and that he did not know of another town that kept its streets and out streets as free from combustibles as Plymouth. He likewise commended the work of Fire Chief Dick for the manner in which he kept after things here and safe-guarding property from fire.

With the exception of about forty additional seats, which at the last moment were found necessary, everything is in readiness for the opening of our public schools Monday morning. The teaching force, which has been supplemented by Miss Ruth Rowan, who will preside over the second grade, is now up to its full quota. Miss Rowan is one of our home town girls, a graduate of the 1916 class of our High School, and a young teacher of promise. Many new faces will be found in the school rooms at the beginning of the fall term, not only in our city, but beyond its well. Indications are the coming year will be a very successful one for our schools, and parents can have faith to do with this if they will lend their encouragement and visit the schools occasionally.

Preliminary reports by experts of the federal trade commission, who are investigating the news print paper situation with a view to learning whether the shortage in white paper supplies is actual or fictitious, and whether higher prices are the result of increased cost of manufacture or of combination and collusion between manufacturers hold out little hope of early relief from either the shortage or the high prices.

Mr. and Mrs. Matt Dallas entertained the following guests Sunday last, honoring Mrs. Dallas' birthday, this being her 47th anniversary: Mr. and Mrs. Walter Hurshel, son and daughter, Dale and Ethel, Mrs. C. L. Carpenter and three sons, and Mrs. Sherman Tilton, Attie; Mrs. Laura VanAedel, Mr. and Mrs. Clarence Eavin, Plymouth. The day was enjoyably spent by all present and the fine dinner was in keeping with the excellent menus for which Mrs. Dallas is noted.

When a newspaper gives you a lot of free advertising in order to secure some concert or entertainment in which you are interested, keep track of the lines that are printed each week and multiply that number by the regular advertising rates of the paper. Compare the results with the actual money value of any favor you get from any other business concern. Then take into consideration the fact that advertising and circulation are the only two things that a newspaper has to sell when in these days of high prices, how much do you think it ought to give away?

Young men of today who are comfortably settled on the farm, or are just completing their education preparatory to a life career, should remember right where they are and never leave the green fields of the country. The great cities will offer them white lights and dissipation and debauchery and failure in nine cases out of ten, and death will find them wishing they had never strayed from the comforts of the old fireside. But not so the country. It offers them a life of freedom and manhood and usefulness, with plenty to eat and to wear, and health, happiness and a clear conscience.

The call has been issued by Col. C. P. O'Connell, president, and Capt. R. W. Pool, secretary, for the fifty-first annual reunion of the 55th regiment, O. V. V. 1, at Norwalk Thursday, Sept. 21. Capt. Pool, whose home is in Nevada, Ohio, has sent out the call and also reports that 21 members have been "mustered in" before the great commandant during the year 1916—an unusually heavy harvest. He appeals for "comrades to close up the depleted ranks," and the response will doubtless be a large gathering of the boys who went out from Norwalk when the call came early in the 60's. Tommy Taylor's bugle always fills their hearts with cheer.

DEISLER THEATRE

Saturday Night

Men's and Boys' Up-To-Date Outfitters.

Announcing

A Money Saving Service to All Auto Owners.

There has opened up in Plymouth a shop where any kind of a pneumatic tire—in almost any condition can be put back in running order—for more miles of hard road service.

And if the tire last year's worth repairing, we tell you so—if it is—and we fix it—that repairs it

Unconditionally Guaranteed

The plant which we have installed is the best make that money can buy—it is designed to repair successfully any "fixable" injury on any kind of tire—from 2 1/2-in. motorcycle to 3 1/2-in. auto tires. And our workmen have learned the tire repair business in the local shops of the manufacturers. The best equipment that we can get and the best practical training to be had, put us in a position to produce the best tire work that can be done.

Remember! We guarantee every nickel's worth of work we do:

Come to Us With Your Tire Troubles

OFFICER CHARGING SHOOTERS

Shaker Heights Deputy Marshal Murdered While in Pursuit of Three Boys.

LATER HELD BY AUTHORITIES

Green Hat Only Claim So Far Frazed; Woman in the Auto is Guined by Bullet From One of the Boys' Guns.

Cleveland, O.—Death of a deputy in a wood northeast of the corner of Buckeye and Center roads, followed immediately after one of three boys had sent a rifle bullet through the wind shield of a passing automobile, causing the marshal and two other men to chase the three into the wood.

Protest Innocence. — Protesting innocence, two boys, one 15, the other 16, both with 22-caliber rifles, who were arrested just after the shooting, were held by Shaker Heights authorities. A third boy, 16, was arrested here later.

The problem that confronted Shaker Heights, Cleveland Heights and city police, all of whom were working on the case, was whether the shots that killed the deputy marshal were fired by one of the three boys or by a fourth person, a man whom two of the boys said they saw enter the woods.

The boys, one of whom, police said, admitted shooting through the auto windshield, all denied shooting at the deputy marshal in the wood. Their story was supported by the facts that the shots which killed the officer were from a 22-caliber automatic pistol, and that a green hat was found lying near the three or four shells which were discovered in the wood.

Grazed Woman's Head. — A bullet from the rifle of one of the boys went through the machine of C. A. Sealey, who was driving the car in which the deputy marshal was killed, and grazed the head of his mother and shattered the windshield. Sealey stopped and asked the boys whom, police said, the policeman took up the chase and was killed.

The boys declared, police said, that from where they were sitting in the car going into the wood wearing a green hat such as was found at the scene, dressed in a blue suit and tan shoes. They said, police stated, that immediately after this man passed them they heard shooting in the wood, and that they went out to the road.

The boy picked up late in the evening at Scovill avenue and 14th street admitted, according to detectives, being with the two boys who had the rifles, but denied shooting.

ITALY DECLARES WAR AGAINST FOREIGNERS

Break With Germany Brings End to One of Strangest Situations in History.

Rome, Italy. — The official announcement of Italy's declaration of war on Germany as given out here follows: "The Italian government declares in the name of the king that Italy considers herself to be in a state of war with Germany as from Aug. 28, 1914, and with the government which conveys this information to the imperial German government."

Italy's declaration of war on Germany brings to an end one of the strangest situations recorded in the history of nations—the mysterious and unnatural retention of peace between two countries which has lasted ten years after the outbreak of the European conflict which burst the triple alliance and which resulted on May 23, 1915, in an open break between Italy and Austria-Hungary.

Through throw into the maelstrom of a war against a world in arms by her Hapsburg ally, Germany has not been officially at war with Italy until that country now has made the long-looked-for move.

Italy's action does not come as a surprise. It has been predicted, promised, threatened and even unofficially announced as often as a Rumanian intervention on the Austro-Hungarian side, too, is now expected to become an accomplished fact before many days have passed.

The course the Italian-Romanian relation has taken since Aug. 1, 1914, and the inevitable which came was marked and foreshadowed by the following outstanding events:

PRINCE MAHDEL

Prince Mahdel of Rumania, brother of the king of Slavia, who has come to the United States to study sanitation for the purpose of improving health conditions in his own country.

ROUMANIA FIGHTING ON SIDE OF ALLIES

Declares War on Austria-Hungary; Germany Recalls Her Representatives.

Amsterdam, Holland.—Rumania has cast the die and is at war with the central powers.

Acting by the diplomacy of the allies, Bukharin, brother of the king of Slavia, who has come to the United States to study sanitation for the purpose of improving health conditions in his own country.

The first clashes between troops of Rumania and the central powers occurred in southeastern and eastern frontier mountain passes of Hungary, says an official statement given out in Vienna. The Rumanian attacks are described as "treacherous."

Berlin officially verifies this announcement. After the Austro-Hungarian minister to Bucharest had received his passport and the Rumanian minister to Vienna had called for the papers that should accompany a passport given out in Vienna, Berlin gave out the following statement:

"After Rumania, as already reported, indignantly broke treaties concluded with Austria-Hungary and Germany, she declared war yesterday against our ally."

The importance of the news to Rumania has received instructions to request his passports and to declare to the Rumanian government that Germany now likewise considers herself at war with Rumania."

STRIKE FEARED RESPIRE IN CONGRESS

President Appeals to Legislators to Enact Laws Which Will Avert Trouble.

MAY PASS EIGHT-HOUR LAW

Head of Conductors' Brotherhood Says Eight-Hour Law Will Stop Strike; The Presidents Decline to Accept Plans.

Washington, D. C.—Congress, as a result of President Wilson's personal appeal to both branches, is more reasonably certain, will enact an eight-hour basic day law for the engineers, firemen, conductors and brakemen of the railroads of the country.

What kind of a law it will be none of the leaders of the house and senate is as yet at all certain.

President Garrison of the conductors' brotherhood, and spokesman for all the trainmen, said: "An eight-hour law by congress will head off a strike."

The prospect for the early passage of this law, despite the fact that constitutional questions are involved in any attempt to legislate, is the direct result of President Wilson's appearance before the assembled branches of congress.

Just before the president went to address congress it became known the strike leaders had positively called the strike for Labor day unless a favorable settlement was made before, and that the negotiations between managers and men had been broken off.

The committee of railway presidents made a public statement of their position, declining to accept President Wilson's plan and giving their reasons. President Wilson consumed just 21 minutes in delivering his address. He recommended: Enlargement and administrative reorganization of the interstate commerce commission to consider what just increase in freight rates the railroads would be entitled to, if any, due to the eight-hour day.

While the actual motion for the militia officer, she declined to make any statement. Mrs. Adams was turned over to civil authorities who placed her in the county jail.

Guardians at the camp said the woman reached there shortly before noon and she was directed to Capt. Sprattling's tent. She asked the officer if he were Capt. Sprattling, and on being told that he was, she showed him a letter with a picture of the militia officer. She declined to make any statement.

"My wife complained of some nervous trouble and thought she should call a nerve specialist. She went to Dr. Sprattling's office. He never came to the house to give her treatment. Last Thursday she told me that she had been to the doctor, but for some reason she remained. I did not know she had gone to Macon."

Report Submarine Captured. — New York City.—The story that the German submarine merchantman Bremen has been captured by the British, reported by passengers arriving on the Baltic and a week ago on the Florida, is generally accepted as true in German official circles here.

While men close to the German embassy deny any official news of the capture has been received, they say the Bremen is many weeks overdue and they believe she has been either captured or sunk. The submarine her commander, who was taken to New London Sunday day is the America, they admitted.

A British officer here on admiralty service stated on his arrival on the Baltic that the Bremen was caught in a steel net in the Straits of Dover on Aug. 2. He declined to permit the use of his name, but Capt. Finch, commander of the Italian gunboat, he, too, had heard the news in Liverpool.

According to the officer's story, the Bremen was when passing the danger zone in the Straits of Dover. Her propeller became entangled in a steel net and her stern sank, forcing her to stop. The net was caught in the Straits of Dover, but in that position she was sighted by a British patrol boat, which ran alongside and took off the 33 men of the crew who were still alive. Two were dead.

EUGENE BRIEUX

Eugene Brieux, the noted playwright, urges the establishment throughout France of efficient matriculation bureaus to help in quickly repopulating the country after the war.

GEORGIA GUARDSMAN SLAIN BY WOMAN

Militia Captain Shot Down as He Sits Before Tent; Husband Justifies Shooting.

Macon, Ga.—Capt. E. J. Sprattling, Co. F, 8th infantry, national guard of Georgia, was shot and killed in front of his tent at the state mobilization camp near here.

Mrs. H. C. Adams of Atlanta was arrested on the statements of several officers at her residence, that she shot the militia officer. She declined to make any statement.

Mrs. Adams was turned over to civil authorities who placed her in the county jail. Guardians at the camp said the woman reached there shortly before noon and she was directed to Capt. Sprattling's tent.

While the actual motion for the militia officer, she declined to make any statement. Mrs. Adams was turned over to civil authorities who placed her in the county jail.

Guardians at the camp said the woman reached there shortly before noon and she was directed to Capt. Sprattling's tent. She asked the officer if he were Capt. According to the officer's story, the Bremen was when passing the danger zone in the Straits of Dover. Her propeller became entangled in a steel net and her stern sank, forcing her to stop. The net was caught in the Straits of Dover, but in that position she was sighted by a British patrol boat, which ran alongside and took off the 33 men of the crew who were still alive. Two were dead.

RECALL DEBATED

Officers Confident That the Regiment Will Be Best Equipped That Has Struck Border

Soldiers Leave Fearing no Epidemic for They Have Been Vaccinated Against Smallpox and Inoculated Against Typhoid Fever.

Special Western Newspaper Union Service.

Officers felt the Fifth regiment will go into Texas in better condition than any national guard regiment which has yet struck the border. They do not say this because the men were better when the president issued his order because they have been made better by eight weeks of drill and because they have been well equipped. The Ohioans leave here fearing no epidemic for they have been vaccinated against smallpox and inoculated against typhoid fever.

Capt. Clark Resigns. — President Wilson has accepted the resignation of Capt. Thirde E. Clark of Company K, 9th regiment, Dayton, as the adjutant general's department was officially advised by the adjutant general.

Capt. Clark is in the employ of the Ohio State Telephone Co. and is leaving the service of the federalized guard for business reasons. Formerly he was chief clerk in the adjutant general's office and was assigned that position to enter the employ of the telephone company. He troops were ordered at Dayton in his home. Maj. John B. C. Eckstrom of Columbus, on duty with the Seventh regiment as surgeon, went to Camp Perry, Ohio, Monday, and will arrive in camp there 15 days. The Ninth battalion, Maj. John C. Fulton commander, also went into camp at the same time as the other period. The First regiment, Col. William C. Cooper, proctor of Cincinnati commanding, is entering upon the second week of its annual encampment at Camp Perry.

Because of the shortage of both pup tents are used by the soldiers of these three organizations. Col. Ed. J. Sprattling, adjutant general, has returned from the encampment of the camp of the First regiment, Acting Adjt. Gen. Ben W. Hough has been serving the Fifth for several days obtaining reports on the condition of the men which has shown marked improvement under its rejuvenation.

At Last. — The Fifth regiment, commanded by Colonel G. Zimmerman, is now on its way to the border. The regiment loaded its equipment Monday night at Camp Perry and spent Monday night in pup tents. "I've long and for what ultimate purpose the men do not know, nor do I know. They are much satisfied in the fact that they are going. In one day's time headquarters of the Fifth were dismantled and the men were ordered to their homes. The men of the Fifth give their commendable credit for bringing about the success of the Fifth. The men in camp with the Fifth accompanied the regiment, as orders were issued for men who had applied for discharge to be sent to the border until the Chicago office had decided their cases. It appeared that Cleveland will be represented in the next contingent of Cleveland soldiers, and other trade center at those times. The program states that all the tariff ever did was to kill business by driving its merchant to the sea."

Rounded Up at Fremont. — Capt. A. Otto Baumann of Company K, Sixth regiment, accompanied by Sgt. Wm. Sheldon and Corporal Keller came to Fremont from Camp Willis and rounded up 13 of the 19 members of the company, who absented themselves from the unit, after they were placed in fall here until the hour of leaving.

Camp Perry has been converted into a place of much activity and with the arrival of the 400 soldiers of the First regiment under command of Col. Wm. Cooper.

Company K of the Eighth, Canton, which has been ordered to Camp Willis in Columbus, with headquarters at the state house, has been recalled to Fremont, and Company F, Third regiment, will be ordered to do so.

Groups, whose members are active of wealthy Cleveland families, has been detailed for this duty.

Some Good Camp Stories

Even though out of hearing of church bells, the boys at camp go to church Sunday. Not a church with a white-haired pastor, with rich hangings and sacred ornaments, but in the open wood. Troop leaders act as teachers. Each group has its own group. The largest class was under the instruction of Art Brown.

The teeth of the boys of the second section at camp are in far better condition than the first time they were in camp. That is, if the investigation of Dr. T. S. Shaw, Toledo dentist, proves anything. More than half of the boys' teeth were in "good" condition. "Fair" mouths amounted to 40 per cent. There remained only 10 per cent to be considered "bad" and as a menace to their oral health. The boys have a series of talks on the care of their teeth. Methods of brushing, rinsing and typical cases were shown practically from the camp stage platform.

LUTHERANS PLAN TO HOLD THE FORT

COMMITTEE OF SEVENTY-FIVE MAKE RECOMMENDATION TO THE OHIO SYNOD.

DISCUSS \$250,000 FUND

With Which to Aid Small Parishes That Are in Need—250 Ministers in Attendance.

Western Newspaper Union News Service. Sandusky, O.—The executive committee of 75, continuing its sitting, recommended to the Ohio Synod of the Lutheran Church action tending to the establishment of an old people's home for aged Lutherans who have nowhere else to go, and recommended that a location in or near Springfield, Minn., is desirable. A suitable hospital was also proposed. The synod, in session, considered this and other recommendations, but no action was taken. The advisability of creating a fund of \$250,000 and using the interest derived therefrom to extend aid to small churches that find it hard to make both ends meet, was also discussed. Many of the members were of the opinion that better results might be obtained by distributing the fund. Action was deferred. A sentiment in favor of beginning a mission campaign in Missouri at the present embryo in an end, was apparent. Nearly 250 Lutheran ministers from all parts of the United States and Canada are attending the synod session.

WILL PREPARE FOR STRIKE

Cincinnati Dealers Arrange to Handle Milk Supply.

Cincinnati, O.—If a strike is called among the railroad employees the members of the milk exchange of the Chamber of Commerce have arranged to handle the milk after the Cincinnati, said Edward P. Mangold, president of the milk exchange. Of the 15,000 quarts of milk consumed here daily fully 70 per cent being received from the farmers within a radius of 60 miles, through railroads. Mr. Mangold said the members of the exchange have arranged to handle the milk brought into Cincinnati by auto truck service and through the interurban lines. He further said that, although this would not meet the needs of the dairymen, the dealers would not increase the price.

TRAINS TO MOVE TROOPS

Columbus, O.—The full quota of railroad equipment to move the Ohio National Guard to its new quarters arrived. Colonels of every infantry regiment and majors of every battalion of auxiliary troops have now in their hands a complete train schedule for the transportation of their commands. In view of these schedules reassured the officers that the Ohio Guard will go to the border instead of back home, probably as soon as the general railroad menace is cleared up. Each regiment will move in three trains, the number of cars in each section depending upon the size of the regiment. Not less than 40 cars of various descriptions are in Columbus waiting to carry the Ohio troops and their equipment. The soldiers will be accommodated with tourist sleepers.

CINCINNATI JUNIOR CONVENTION.

Next Meeting of Girls O. U. A. M. Will Be Held There.

Cleveland, O.—Cincinnati was selected as the city to hold the 1922 year's convention at the final business meeting of the forty-fourth annual convention of the Ohio Junior Order of United American Mechanics in session here. Officers were elected as follows: State councilor, E. A. Llewellyn, Cincinnati; vice councilor, George W. Hoffman, Tiffin; treasurer, Dr. H. L. Wenng, Tiffin; conductor, Ed M. Snyder, Canton; warden, Charles W. Haines, Hillsboro; chaplain, Ezra Orlin Harbert, national representative, W. A. Clark, Paris; E. B. Goodlin, Toronto; H. E. Houck, Gallipolis, and Charles F. Reuter, Cincinnati.

CITY EMPLOYEES ON HALF PAY.

District Step Taken So City of Toledo May Meet Difficulties.

Toledo, O.—Finance Director Diemer announced that all city employees paid out of the general fund are to be put on half pay, in addition to cuts already made, so the city can struggle along until November 1.

OHIO ORDER OF ELKS' REUNION

Cedar Point, O.—The attendance of the Ohio Elks at the annual reunion here numbered more than 3,500, the most in the history of the state meetings. An exemplification of the ritual by officers and team of Columbus Lodge was given. Ten candidates were initiated into the Sandusky Lodge. The annual ball also was held. The Lorain Lodge, recently organized, had the largest delegation next to Cleveland.

MONKEY'S PLEA IS SELF-DEFENSE. Cleveland, O.—On a plea of self-defense, an effort is being made to save a monkey from the stigma of maliciously attacking a boy. In answer to a suit for \$5,000 damages brought in behalf of Harry Graham, 11, alleging that the boy was bitten by a monkey while carrying water for the elephant in a circus here, the proprietors allege the boy was "teasing the monkeys until one was compelled to bite in self-defense."

WILL OPEN NEW SPEEDWAY

Record Breaking Crowd Expected at Auto Races Labor Day.

Cincinnati, O.—(Special).—Record breaking crowds of automobilists are expected at the opening of the Cincinnati Speedway Labor Day. Automobile experts are anticipating some new speed records. The fastest time made in licensed races of the A. A. A. Contest Board on specially built tracks now is held by courses having a wood surface, the best example of this style of construction being the Chicago Speedway and the Sheepshead Bay track, Long Island City, N. Y. The Cincinnati Speedway, the promoters of that enterprise combined all the best and safest features of the two other prominent tracks, and added to them such advanced ideas as were suggested by drivers and other experts who had had experience on the other big speedways of the country. The result is that the Cincinnati Speedway is better equipped and more perfectly constructed than any course in America. This superiority making certain great speed with less danger than now can be attained on any of the other courses in the "Big Speedway Circuit."

HAMILTON IN GALA ATTIRE

City Observing 125th Anniversary of Its Founding.

Hamilton, O.—Hamilton began a week's celebration of the one hundred and twenty-fifth anniversary of the founding of the city with a great industrial exposition commemorating the growth of the city from the pioneer Fort Hamilton of Indian war days to the present. Various days during the week will be given to interesting activities when large delegations from southwestern Ohio will take part in the celebration.

GOVERNORS INVITED TO RACES.

City Asks Heads of Eight States to See Cincinnati Speedway.

Cincinnati, O.—Invitations to the governors of eight states and their lieges will be the guests of the Business Men's Club at the anticipated 6 cents a race of the new Cincinnati Speedway Labor Day were sent out by President George M. Morris of the Cincinnati Business Men's Club. The invited states include Ohio, Kentucky, Indiana, Illinois, West Virginia, Michigan, Tennessee and Pennsylvania.

BUCKEYE NEWS NOTES

Chillicothe, O.—Dr. Edward Maggenhofen, well known physician, of Ross county, was killed instantly when his auto turned turtle into the old Ohio and Erie canal bed.

Perryburg, O.—Historic Perryburg, formerly Ft. Meigs, is celebrating its centennial anniversary with a town's development, was a big feature.

Cleveland, O.—Dr. Geo. V. Hogan, of Columbus, national secretary of the American Insurance Union, was unanimously elected president of the secretariat section of the national fraternal congress.

Bowling Green, O.—One of the largest oil deals made in this territory for many years was consummated when Isaac Shuler, of this city, purchased all of the stock of the Belmont Oil Co. in Oklahoma for \$275,000.

Chillicothe, O.—One hundred and forty helpers and laborers at the Baltimore, Md., steel works went on strike when the company rejected 6 cents an hour increase. The men were getting from 16 to 21 cents an hour.

Zanesville, O.—Edward Dowling, of Toledo, was elected president of the Ancient Order of Hibernians in convention here. Miss Margaret Flinn, of Cincinnati, was elected president of the Ladies' Auxiliary of the order.

Port Clinton, O.—First car lots of the peach crop started for the city markets. It is expected 3,000 cars will be shipped from Ottawa county this season. Many pears, plums and apples also will be shipped this week.

Marion, O.—Receiver Charles L. Justice, of the Marion Manufacturing Co., has sold out to aggregating the city markets. It is expected 3,000 cars will be shipped from Ottawa county this season. Many pears, plums and apples also will be shipped this week.

Marion, O.—Miss Anna Bell Mosser, 18, daughter of Common Pleas Judge Grant B. Mosser, was married to James G. Palmbach, capitalist, married to Windsor, Canada, and was eloped, according to a telegram from them, by their parents.

ROOPS STRIKE AT ONCE Form Junction With Russians and Are Attacking Austrians in Carpathians.

EXPECTS GREECE TO JOIN

Weather Conditions Continue to Hamper Operations on Verdun Front British and French Report Additional Gains.

London, England.—Military developments here have been rapid following the announcement of Rumanian's entrance into the war. Rumanian troops are striking against Hungary at three points, according to news reaching here. King Ferdinand has gone to the front to join the general staff at main headquarters, having before his departure from Bucharest issued an order mobilizing all arms of the service.

Have Formed Junction.

On the frontier of Bukovina, Rumanian and Russian troops already have effected a junction and are attacking the Austrians in the Carpathian foothills under the direction of the Russian, Gen. Letichy. Preparations also are being made, it is stated in the Petit Parisien of Paris, for the junction of Russian and Rumanian corps on the Danube. In the Carpathian Alps the Rumanians are fighting on Austro-Hungarian soil, but owing to the nature of the ground and the fact that the main force has not yet come into battle, no important result has yet been attained. The objectives of the Rumanian attack are three strongly fortified positions—Rothenthurm, Torenburger and Toemes, seizure of which would open the road to the important industrial cities of Kronstadt and Hermannstadt to the Rumanians.

Scarcely had the premiers of the entente nations welcomed into their councils the premier of their latest ally before word came from Berlin that the German government had practically given up hope of preventing Greece from joining the entente.

Confidence is expressed in Berlin that Bulgaria will declare war on Rumania in the near future and strike immediately along Rumanian's southern border. From other sources, however, comes information diametrically opposed to this belief.

Bad Weather Hampers Operations. Heavy thunderstorms continued to hamper operations on the Somme front, precluding any action on a large scale. The big guns of both sides, however, boomed steadily during the last 24 hours, battering the opposing positions to prevent the consolidation of new positions and paving the way for an infantry attack as soon as the weather permits. Despite the inclement weather, the British succeeded in gaining additional ground. They captured a German machine gun, a Delville and Faureux woods and made further progress east of Thiépval.

"Appreciable progress" is claimed by the French on the Verdun front. Before beating off two German attacks on the village of Fleury and Fort Four, the French forces won considerable advance southeast of the Thiépval front work.

CRUISER MEMPHIS DRIVEN ON ROCKS

Ground Swell Wrecks Vessel in Santo Domingo Harbor; Number of Crew Lost.

Santo Domingo, Haiti.—The United States cruiser Memphis, formerly the Tennessee, was driven on the rocks of the outer harbor here by a great and sudden ground swell. It is believed that many lives have been lost. The vessel was literally hurled from the waters and onto the rocks.

The vessel was beneath the boiler when the sea beneath the boiler was extinguished, and the sunken vessel water. This left her at the mercy of the sea. The United States gunboat Canby escaped a similar fate by putting in to the wharves.

The two warships were units in the cruiser squadron of Rear Admiral Charles F. Pond. The squadron has been in the waters east here for months due to the unsettled internal conditions in Haiti. The Memphis was the flagship of the squadron.

There had been serious weather disturbances throughout the West Indies for the past few days.

Washington, D. C.—The navy department has received advice from Santo Domingo stating that the cruiser Memphis is a total loss and that 30 of the crew were drowned.

Bandits Wreck Banks. Champlain, Ill.—Six men in an automobile descended on Hoan, a small village 15 miles east here, and blew the safes in two banks, escaping with \$12,000.

Before setting off the charges of nitro glycerine cut out all telegraph and telephone connections out of the town except the Illinois traction system wire, over which Sheriff Evans of Hoan was summoned. The interior of both banks were wrecked. Silver money was scattered in the vaults and the banking rooms.

MAKING THE FARM PAY By PROF. F. G. HOLDEN, Former Dean of the Iowa Agricultural College.

Flock of Purebred Youngsters.

POULTRY AND EGG CROP

Almost every farmer keeps some poultry. The trouble is he doesn't make the poultry keep him. Too many of them are roosters. A lot more are old hens that lay but a few eggs and then want to see. Whenever the price of eggs gets high, the old hens go on a strike. They lay in the henhouse when they should be in the yard to provide fresh eggs and a toothsome roast or fry. But after all, this "side issue" branch of the farming business, poultry, nets an annual return in the United States of over \$600,000,000 or enough money to build two Panama canals every year. The Panama canal has been written in the pages of history as one of the greatest achievements of modern times. In its construction our greatest minds in the science of engineering, art and medicine were employed. Yet the farmer with little or no care closes her yearly account with a balance of more than half a billion dollars. Only a very small portion of this vast sum of money is earned by the well-cared-for commercial hen. Ninety per cent of it goes to the credit of the much neglected flocks ranging at liberty on the farms of the country.

Hen Not Appreciated. None of us half appreciate the money-making possibilities of the hen. For example, the cotton growing states during a recent slump in the cotton market due to the European war, failed other cotton producing states in an appeal to congress for federal aid to tide them over the financial difficulty. The appeal was for \$100,000,000 to be distributed in the South through the medium of the federal reserve banks. If these one-crop states had reckoned with the farm hen they would have saved themselves the humiliation of asking Uncle Sam for help.

Production of Eggs. Sixty per cent of the eggs are produced in March, April and May. Then the number drops gradually until only 10 per cent is produced in November. Production remains low during January.

Chums. evaporating through the shell. The higher the temperature and the more circulation of air there is the faster the evaporation takes place. Eggs grow stale in warm poultry houses, in hot kitchens, on the farm or in the cupboards of the consumer. Egg dealers, 10 per cent of the fertile eggs are equal to a rotten egg and pay accordingly.

Other your eggs daily and keep the price high. Market them as often as possible—at least once a week—better twice a week.

\$15,000,000 Annual Loss. Two years ago the United States government conducted an experiment in Kansas to compare the loss from fertile and infertile eggs.

How Experiment Was Conducted. Ten thousand eggs, collected from different farms, were used in the experiment. Half were fertile and half were infertile, and every egg was absolutely fresh when it entered the experiment.

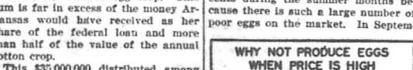

Results of Experiment. While on the farm 20 per cent of the fertile eggs were spoiled for food, as compared with only 15 per cent of the infertile ones. On the way to market 40 per cent of the fertile eggs were spoiled as compared with 9 per cent of the infertile. This makes a total of 48 per cent of the fertile eggs unfit for food as compared with only 25 per cent of the infertile ones—a difference of 23 per cent. Notice that the greatest loss in both fertile and infertile eggs is on the way to market.

Fresh air is as good for hens as it is for people. If you have an open front or a partly open front poultry house you need not worry about the ventilation.

Fresh air does not hurt hens, but drafts are injurious. The north-east wind, especially, is so cold that it is difficult to prevent drafts.

Get the habit of cleanliness and you need not fear lice and poultry diseases.

WHY NOT PRODUCE EGGS WHEN PRICE IS HIGH

Let us not overlook this opportunity. Any farmer can have poultry. He can make more clear profit out of poultry than the commercial poultry can make.

First, the care of poultry fits well into the other farm work; the investment is small; feed is cheap; the chickens convert the waste products of the farm into profits. During the greater part of the year the chickens live on grass, surplus garden stuff, gleanings from the grain fields, litter about the barn and feed lots, and more important than all else, they consume weed seeds, insect enemies to crops and other pests.

Two years ago the Ohio experiment station made a study of the profits in farm poultry. Records of 18 typical farm flocks were carefully kept from 30 to 370, some were purebreds; others were mongrels. They were kept, fed and tended just as the farmer had been caring for them before the experiment station asked him to keep a record.

Why not take better care of your hens and have them working for you more of the year than by keeping them at a loss during this period?

You can produce winter eggs. Put your hens in a warm, comfortable, well-ventilated henhouse, give them nutritious food and furnish water, grit and oyster shell.

Of course, it will be some trouble to increase your egg production. Don't expect results if you go at things spasmodically, doing one or two things and letting the rest go.

For a good animal protein food. Bugs and worms furnish this in the summer; buttermilk and beef scrap make good substitutes in the winter.

This chart gives the results of an Ontario experiment. Two weeks before receiving buttermilk in their ration made \$11 profit in eight months; a similar flock fed beef scrap made \$10 profit, while a flock receiving no meat or milk was kept at a loss of \$3.

A similar experiment in Indiana shows that hens fed skim milk or beef scrap made a profit of \$1 per hen annually, while those receiving neither beef scrap or milk were kept at a loss of four cents per hen.

If you feed beef scrap, get good quality, testing 60 or 65 per cent protein. Be careful not to feed too much.

Very few people understand that eggs are almost as perishable as meat or fish. They belong to the same class of food, but just because they are inclosed in a hard shell, people think they will stand almost any kind of treatment.

Government experts estimate a loss of \$45,000,000 every year from bad eggs. This loss can be prevented by better handling and marketing.

Loss From Shrinkage. Five per cent of the eggs in the United States are lost through shrinkage. The shell of an egg is porous. It is made this way so the developing chick can get air during the incubation period.

Seventy-four per cent of an egg is water. Whenever an egg is in a temperature above freezing, this water is

One hundred hens are worth a hundred dollars—just about the price of a good dairy cow. Records of the competing association in Iowa show that the average dairy cow makes a profit of \$33. Which would you rather do—milk two or three cows or take care of a hundred hens?

Most of us fail to realize that poultry is profitable—the wife pays the grocery bills and the grocery man then gets a new piece of furniture or a new dress with the "chicken money."

Probably not one farmer in a thousand has ever sold just how much his chickens are paying.

You probably have about a hundred hens—that's the average size of the poultry business in the United States. How much more do they produce or how many above the average or below? Any you getting \$247 or \$159?

Produce Eggs When Price is High. Sixty per cent of the eggs are produced in March, April and May. Then the number drops gradually until only 10 per cent is produced in November. Production remains low during January.

Chums. evaporating through the shell. The higher the temperature and the more circulation of air there is the faster the evaporation takes place.
