DEATH'S HARVEST.

Three Removed from the Same Family Within Ten Days.

HENRY ANDREW SMITH.
Henry Andrew, son of William and Mary A. Smith, was born in New Haven township, Dec. 8, 1878. After a brief illness of less than a week, he passed away on Dec. 24, 1916, at the age of 38 years and 16 days.

He was the fourth of a family of five brothers. Those who mourn his departure are his aged father and mother and three brothers, George W. John H., and Albert J., respectively.

Mr. Smith resided with his parents during the entire 38 years of his life. He was always a kind and dutiful son. He was a well known and highly respected citizen, and his illness and sudden death will bring sorrow to his many friends.

Servicess were held on Wednesday at 10:30 at the house, one and one-half miles north of New Haven, Rev. W. F. Neff of New Haven, officiating.

The death of a member of the family is at all times an occasion of sorrow and grief, and especially is this true at the Smith home. Since the death of their son the aged father and mother have taken seriously sick and were unable to leave their beds during the entire period of sorrow, the father suffering from a complication of diseases and infirmities of old age; the mother suffering from the effects of two strokes of paralysis.

MARY ANN SMITH.

Mary Ann, daughter of Solomon and Catherine Gruber, was born in Greenfield township, O., April 2, 1841; died in New Haven township, Dec. 28, 1916, aged 75 years, 8 months, and 26 days.

On Feb. 27, 1868, she was united in marriage to William Smith. To this union were born five sons, Geo. W., John H., Albert J., and Henry, deceased. She leaves to mourn her death, three sons, 9 grandchildren, one brother, one sister, and many relatives and friends.

Mrs. Smith was a kind, patient mother, and her kind words of counsel and comfort to her home will ever be a cheering memory to her family and friends.

Funeral services were held at the home of the deceased on Sunday at 10:30, interment in Maple Grove cemetery, New Haven, Rev. W. F. Neff officiating.

WILLIAM SMITH.

William, son of William and Mary Ann McLean Smith, was born at Greencastle, in Donegal county, Ireland, about the year 1833, and passed to his reward on Dec. 31, 1916, in New Haven township, Huron county, O., having passed the age of four score.

Mr. Smith was united in marriage to Jane Thompson; to this union were born two sons, Thomas J., who died in childhood, and William L. The wife and mother passed to the spirit world when the second son was about one week old. About a month after the death of the wife and mother, Mr. Smith and his infant son started for America. Mr. Smith's father, mother, a sister and her family with other relatives, and him arrived to this country.

Their arrival in Ohio was in March, 1850, to New Philadelphia, where Mr. Smith and a brother worked at the mason trade. Two years later he purchased the farm in New Haven township where he lived the remainder of his life.

On Feb. 27, 1868, he was married to Mary Ann Gruber. To this union were born five sons, Geo. W., John H., Albert J., who now survive and mourn the loss of their father, Richard J., and Henry A., deceased.

William L., son of the first marriage, has also preceded the father in death.

Beside the three sons, there are 9 grandchildren, 3 great-grandchildren and other relatives and many friends who feel the loss of a friend.

Mr. Smith was a member of the M. E. church for many years.

Funeral services were held at the Smith home on Tuesday, at 10:30, conducted by Rev. W. F. Neff, interment in the Maple Grove cemetery, New Haven.

CARD.

We desire to thank the neighbors and friends for their help and sympathy during the sickness and after the death of our dear father; those who kindly offered their automobiles; also Rev. Neff for his comforting words, and the singers for their beautiful hymns.

If They Could Keep It Up. There we have him again. Wall street who did all the work themselves, who attended to every minute item; who were from Missouri in regard to every point in any proposition put up to them. One of these marvels was among the very greatest financial companies ever seen, but he didn't last long, and there have been few others like him. If a man with the first order of brains and ability could only keep it up, there is nothing to prevent his owning the United States. If E. H. Harriman could have kept on 15 or 20 years longer, at the time he was going he would have gone down all the railroads in sight, and he was just getting a strangle hold on the big banks. He conquered every square foot of territory as he went along. There was no force on earth to stop him except premature death—and now he is almost forgotten.—A. W. Atwood in the Saturday Evening Post.

"Certainly. But how am I going to do that?"

READY FOR SPRING**SMART SPORTS SUITS ALREADY BEING PREPARED.**

Many Features and the Materials of Last Season Are Retained, Since They Could Not Well Be Improved On.

For men and women the smart little sports suits now being prepared, to be shown in the shop in a very few weeks and featured for southern wear during the winter. Silk Jersey cloth will probably be just as popular during the coming season as it was during the two or three seasons past. No new material has been introduced which would quite take its place. One of the strong features of the coming season will be the vivid color effects produced. High shades will be extremely popular, and odd color combinations will undoubtedly be seen.

The little early spring sports suit is shown in the sketch. It is made of corn-colored Jersey silk with trimming of purple taffeta. Of course this color blending or combination may be varied to suit the individual taste and complexion, but purple and corn color have been approved by Dame Fashion; and at the southern resorts colors are used so freely in design and coloring may be worn.

The suit illustrated is simple in design, the skirt being three yards wide,

Sports Suit for Early Spring Wear.

gathered in at the waistline and finished with a belt of taffeta, continued into strap ends which button to the belt in front giving a decorative touch to the otherwise plain suit.

Buttons are long, carrying the purple color farther down the neck. The upper collar may be of corn color and the lower one of purple or vice versa, according to choice.

White and high-colored fannels will be developed in early spring sports suits, and these will be trimmed with soutache braid, leather bands or embroidery.

New Fashionable Shadow. It's a bothersome thing to keep changing, isn't it? And yet, if you must be considered smart, you must have a shadowable shadow. Now that the season is here, remove the hoop from your evening gown, and let the full draperies just flare enough of themselves to keep a "slinking" or "directive" look while your silhouette showed several years ago.

In your afternoon gown, the silhouette is more rounded, more rounded, no bonface here. But when it comes to the topcoat, you have some fare again—not too much, because topcoat materials are soft and cannot stand stiffly upright.

If you indulge in furs you will find a decided improvement in shoulder line in the results, while the chin which disappeared last winter in the folds of the collar how peeps forth again to view a cold but admiring world.

High Turbans of Fur.

The high cylindrical turbans of fur or silk the crown comes up impressively on the head, and are among the all-too-few becoming shapes of the season so far. One seen in a shop was of white plush and had an oblong metal buckle posed toward the right side of the front. Such a hat is meant to word down on the head-right down to the eyebrows. It is expected to be worn with those new high Spanish coiffures that make the other hats stand too far up on the

High Crowns of Jet.

Enchanted little hats in the new mushroom shape have come up in high crowns made entirely of jet requiring and kinds of black netting and various layers of the net shirred on light wires. The whole hat is light and dainty in effect, for the jet crown is made of net also, with wafer-thin veiling swirled closely together.

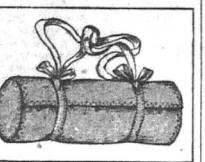

Not New, but a Little Different. The French silk and velvet corsage flowers which have been used for a couple of seasons now have come up in miniature sizes, have returned in the same or even darker tones with ribbons buncheted at the sides, and there is a difference in the flowers. The heart of each tinted rose or orchid holds a tiny vanity case with all its appointments.

HANDY FOR ANY OCCASION

Girl Will Find Work Case Described Here as Useful as Well as of Much Value.

A case of this shape is very handy for carrying knitting or crochet, as well as other kinds of work; the length renders it suitable for knitting pins or long hook. It is made from lines of rather dark color, such as brown, olive green or blue; it may be lined with edges with cross-stitch, simple embroidery, or with a line of feather-stitch. The model from which our sketch was taken was in brown lines worked with blue in a very simple cross-stitch pattern.

The case is 11 inches long and 10 inches wide; this piece is turned in all round with a narrow hem, then the

Work Case.

pattern is worked along the two 10-inch ends and one of the 11-inch. It is then turned round to form a cylinder, the embroidery end wrapping a little of the plain. Circles of double lines are made between the hemmed round and the outer edge is worked with a single line of cross-stitch; these are placed in ends of cylinders and are joined from the plain end to top of cylinder, leaving the rest unjoined for the work to go in. Three loops are worked at edge of the end that overlaps and fasten to buttons sewed below.

PROPER TREATMENT OF HAIR

Thorough Cleansing After Exposure to Dust is of Prime Importance—Don't Wash It Too Often.

To begin with, a thorough cleansing of the hair is the most important after railroad or motor trip. For this it is well to begin the night before the shampoo, if possible, and rub either olive oil or petroleum derivative jelly thoroughly into the scalp. This will soften the scalp and any dust or dandruff lodges on it. Any favorite soap or shampoo will do, but one which contains fine salkai may be chosen for the shampoo, but whatever is used should be thoroughly rinsed out before drying the hair. If possible, the drying process should be done in the sun, rubbing the scalp gently upward with a rough cloth and brushing the hair with a clean, clean off cloth.

The hair is split at the ends, it will be well to clip it or have it clipped. For the next month it may be well to keep off the rubbing of oil into the scalp and shampooing each week although under ordinary circumstances it is not wise to wash the hair oftener than once in three or four weeks.

PAY HIGH PRICES FOR FURS

Women Desiring Popular Garments Find They Have to Open Their Purses to Get Them.

Wholesalers dealers in furs sell only at retail the manufactured products say that the price of the raw skins goes up to such an extent that they can now sell pieces made up earlier in the season for less than they would charge for the skins alone at the present time, says the New York Times. Fox, although it has been popular for the last four years, is still the fur to pay for, the only thing remaining in all colors and available to all classes of people—those being, however, all classes of fox. Ermine, the fur, is strong, usually made tailless, or with a bunch of the tails as an ornament. Muskrat, or Hudson Seal, is strongest in coats and goes well for the fur coat, the only thing neophyte should do is to let it alone during these days. Real seal has comparatively little size. It is expensive to breed, needing frequent repairs, and a garment cannot be remade for less than \$100.

The observatory of the Ohio State University at Columbus announces that there will be a total eclipse of the moon early in the morning of Jan. 8. The moon is nearly full on the evening of the 7th. The eclipse is scheduled to be just before 1 o'clock and will last until 2:29 o'clock in the morning.

When the electric bulb is just a trifling glowing, or if it shines too brightly in a bare room where a soft glow is desired, just try slipping a plain manila envelope of business size over the bulb. The fact that you have to press the envelope at the ends to make it gather enough to be slipped over the bulb, gives it enough resistance to keep it in place. Of course this is not a sightly shade, but it answers the purpose when a soft light is required in a hurry.

One potato every three days to each person in the United States instead of one potato every day is the limit allowed by the 1916 potato crop, according to European "Potato King," owner of extensive potato lands near Carbondale, Colo. His figures are based upon an average of 100 potatoes per bushel and a total production of 250,000,000 bushels which means one bushel and a peck or 128 potatoes this year for each American.

That over 800 country newspapers had suspended publication in the United States during the winter after paper began advancing shortly before the beginning of the European war, was asserted Saturday before the California Press Association. It is practically impossible for a country publisher to advance his price to promotion to the increased cost to him, and he can't sell it when he was hardly able to get along or were, perhaps, making a small profit two years ago, are now unable to exist. If you owe anything on subscription, either to this paper or to any other, pay it as soon as possible. You may be sure the publisher needs the money.

Huron county is furnishing the stone that is being used in the government parliament buildings in the Dominion of Canada, at Ottawa. The quarries of the Cleveland Stone Co. at Wakeman, are producing the stone. The Canadian government has sought far and wide for the exact shade of stone they desired in erecting the structures that were almost ready to be completed but about three years ago, and it was not until samples of the Wakeman sandstone were shown that they were satisfied, and at once placed their order. Because of the freight charges, however, the order was not filled by great ocean blocks which are shipped to Ottawa, and there trimmed and finished in the proper sizes.

Must Settle.

All persons knowing themselves indebted to M. Rogers on book account MUST make settlement between this and January 15, or same will be left for collection after above date. This is no idle threat, and now that I have accommodated you reciprocate by squaring up on or before the above date.

How to Check That Cold.

When it is painful to breathe and fever sends chills up and down your back, you are in for a cold. A timely dose of Dr. Bell's Pine Tar Honey lotion will stop the sneezes and sniffles. The pine balsam loosens the phlegm and clears the bronchial tubes, the honey soothes and relieves the sore throat. The antiseptic qualities kill the germ and the congested condition is relieved. Cough, whooping cough and chronic bronchial affections quickly relieved. At all drug-gists, ZC.

For Sale or Rent.

The ceilings in my brick Broadway house are low, the lower rooms repapered, and houses put in good condition, with good well, inside city and cistern water. Will sell, and equip with bath, lavatory and toilet, if purchaser desires. No better residence in town.

1120 N. Main, Plymouth street house with bath, ice box, lavatory, hot and cold water, gas. House in good condition. Am offering these properties for a short period on long time, to suit purchasers. If not sold soon they will be for rent.

A Golden Wedding.

On Christmas day, Mr. and Mrs. Ezra Kochenderfer celebrated the fiftieth anniversary of their marriage. They were assisted in their festivities by their immediate family, and Rev. and Mrs. Mott. A most bountiful dinner was served, which all unite in saying was only another expression of the hospitality this home has always shown.

Children, grandchildren and great-grandchildren to the number of thirty-two, and fifteen brothers and sisters of the bride and groom, lent their hearty congratulations. It is a grand day. Many substantial gifts will always remind this couple of the love and esteem of their family and friends.

It is not the privilege of many to pass so many years together, and their friends congratulate them, and wish them many more years of happiness.

Can Celebrate Their Weddings.

The following couples, if still living according to the Michigan court probate court records, can celebrate their twenty-fifth wedding anniversaries during the coming year. Those of this immediate vicinity are as follows:

HIGH SCHOOL ENTERTAINMENT.

The Helen May Abbott Company.

On the 10th of January the Helen May Abbott Company will give an entertainment in the Methodist church for the benefit of the High School Library.

The company consists of three ladies, each a specialist in her line.

Helen May Abbott, Reader, heads the company. She is a reader of unusual ability, rendering both serious and humorous selections with grace and skill.

Rena Hilton, soprano and pianist, is a thorough and capable musician of broad and varied experience. Her voice is clear, sweet, resonant and expressive and she sings with expression and grace.

Hazel Hartman, violinist, is a pupil of Henry Shradieck, the world's celebrated composer for violin and teacher of Max Powell. She has every qualification that good training and natural ability can produce. Miss Hartman is a popular favorite at every appearance.

Do not fail to hear this great company of entertainers.

Conley has been deputy Clerk under Judge Cummins and thoroughly acquainted with every department of the work which will make him a valuable man for the incoming judge.

The public school will open Monday morning for the winter term, after a two weeks' holiday vacation, which has been enjoyed to the fullest by teachers and pupils alike. The coming months, like those past, will be given over to studies, and during the year ends it will be worked by a very successful year for the pupils of Plymouth Public Schools.

Sheriff Carl Bleile, Prosecutor Frank Carpenter, Coroner C. L. Bell, and County Engineer H. L. Paul Starbird formally took charge of their respective offices at the court house Monday, when they were sworn in by Clerk Clark Burman. F. C. Bleile, of Chicago Junction, and at one time conductor on the S. N. & M. has been appointed as Sheriff Bleile's deputy.

The last day of 1916 was about as perfect a day as one could wish, being warm and bright, and as a result the editor feasted on fish for his New Year breakfast, caught by one of our local men, and the editor, who is hereabouts, something very rare in the state of Ohio at this time of the year. New Year was ushered in dark and gloomy, with a drizzling rain, a notable contrast between it and the last day of 1916.

Caroline Matilda Bear, well known to many hereabouts, died at her home in the city of Toledo, Ohio. She was born at New Washington, O., October 8, 1853, and at the time of her death had reached the age of 68 years, 2 months and 7 days. She spent her whole life in this immediate vicinity and can be truthfully said that she won a very enviable reputation, a spotless character, a lovely disposition, and was a faithful friend to all those privileged to know her.

If one brags on the place he came from, people will ask why he didn't stay there. If he knocks it, they ask what he did that he had to leave. It's best and safest to spare one's breath boasting for the place he is living in.

An overheated furnace at the home of Mrs. C. J. Smith on Plymouth street about 10 o'clock Tuesday evening was the cause of a alarm which was sent in, to which the department responded promptly. However, their services were not needed as the heat from the furnace had not communicated with any part of the wood-work about the house.

Owing to a leak sprung in the water tank at the lower Thursday evening of last week about 8 o'clock, darkness for the balance of the night.

The water poured out and down over the electric light lead,

and to forestall further trouble the current was shut off until the following day, when repairs were made to the water tower.

A petition for a brick pile on the corner of Main and Shady Hill has been filed with the Richland county commissioners. Some of the farmers are objecting to the brick improvement, as they claim they cannot afford such a big addition to their houses. While the improvement is really needed, and is desired by farmers, there is considerable opposition as to just what kind of an improvement should be made.

Ladies will have a chance to display their Easter hats and bonnets much earlier in 1917 than they did last year for Easter, will fall much earlier than yesterday. Ash Wednesday, the beginning of Lent, will fall on Feb. 21; All Fools Day will occur on Sunday, April 1; Good Friday falls on April 6 and Easter Sunday on April 8. Easter is to be an old sign still. Easter presents in early spring and many are honoring the signs will prove true in 1917.

A house-party given by Miss Gladys Gaskill at her home on North street, was one of the jolliest social events of the New Year. Those who enjoyed the good time were Misses Alice Martin, Mrs. Margaret Teagarden, Gertrude Willett of Plymouth, Messrs. Clarence Pike and Lawrence Gaskill of this city, Clay Lots of Mansfield, Earl Heath and Lawrence Gaskill of Toledo, and Dr. May Slavyashoff of Toledo, and Dr. Gaskill, acting in the capacity of chaperons, were pleasantly entertained.

A wedding in which two popular young Plymouth people were the central figure, and which occurred just previous to the holidays, and we could not chronicle last week on account of the heavy issue of the Advertiser, was that of William A. Channing and Miss Grace Sloane, which took place at Mansfield on Wednesday, December 20th, Rev. S. P. Long officiating.

At the time of their wedding their grandfather, Mr. J. R. Channing, who they are receiving the congratulations of their many friends,

Owing to the great success of the entertainment given by the Chicago Junction Choral Society at the Temple Theatre in the above town last week, and due to the fact that many persons who attended the performance will be repeated Tuesday evening, Jan. 9th. People from here are enabled to attend this entertainment and have ample time to return on the late car in seasonable time. The admission price is 25¢ with no reserved seat, and many persons over the way are hopeful of seeing many Plymouth people in the audience.

The J. D. Fife Co., shipped three of their industrial locomotives to South American ports last week, one of which was knocked down and boxed so it could be taken into the interior of that country. The demand for these locomotives is increasing daily and the company are taxed to their utmost in order to keep up with the demands, at the present time being thirty-two behind in their orders. The Plymouth locomotive is recognized the country over as being equal to any of this kind now being manufactured. It readily accounts for the great demand, as both strength and durability and simplicity are in its make up.

Starting this (Friday) evening, and for twenty weeks thereafter, the first serial of the great picture drama, "Liberty," will have its first showing at the Deisler Theatre. It will be a magnificent continuous 20-foot scroll of oil painting which should be seen. The scenes are laid on the Mexican border and are thrilling from start to finish. If you see the first serial you will want to see them all. In nearly all places where "Liberty" has been shown it has been booked for a return engagement, and Plymouth people are to be congratulated over the fact that they can be privileged to witness this wonderful production. Remember the first serial will be shown tonight (Friday).

Samuel Ray Lutz, residing just northeast of Plymouth, outside the corporate limits, passed away suddenly about 5 o'clock Wednesday evening from heart trouble. He had an excellent record of health, though not bad but was about as usual. Suddenly Wednesday evening he took a turn for the worse and a doctor was summoned, but, however, he passed away before the doctor's arrival. He had an excellent record with year of his age and is survived by his wife and daughter aged about six years, who have the sympathy of the entire community in their bereavement. Funeral services will be held from the Methodist church Saturday afternoon at 2 o'clock, interment to be made at the Mt. Hope cemetery Shiloh.

Effective with the beginning of the new year a new passenger rate will be in effect, and the rates will be as follows: All stations stops north of New Haven, and hereafter it will cost 5¢ more to points north of this place. For instance, the rate from here to Chicago Junction has been 10¢, or next stop, 15¢, etc. Under the new rate it will be 15¢ one way and 25¢ for round trip. The rate to Norwalk will be 50¢ on way, or 95¢ for the round trip. The rate between here and Shiloh remains the same as before the change. A minimum charge of 25¢ will be made on all baggage and no express charges will be allowed on first class tickets over the road. It is said the raise is due to the European war and the high cost of living.

The new home of Mr. and Mrs. C. J. Smith, on Shady Hill, has been filled with the Richland county commissioners. Some of the farmers are objecting to the brick improvement, as they claim they cannot afford such a big addition to their houses. While the improvement is really needed, and is desired by farmers, there is considerable opposition as to just what kind of an improvement should be made.

THREE MORE PEACE NOTES RECEIVED

Norway, Sweden and Denmark Declare Their Sympathy With President's Efforts.

TIME FOR U. S. TO ACT

Senator Stone Says America Must Take Hand in European Situation; 'Neutrals Filled With Weariness of It All.'

Washington D. C. — A joint peace note from Norway, Sweden and Denmark arrived here.

The Norwegian note, with which those from Denmark and Sweden are identical, follows:

"It is with the most lively interest that the Norwegian government has learned of the proposals which the president of the United States has just made with the purpose of facilitating measures looking toward the establishment of a durable peace while at the same time seeking to avoid any interference which could cause pain to legitimate feelings."

"The Norwegian government would consider itself failing in its duty towards its own people and towards all humanity if it did not express its deepest sympathy with all efforts which could contribute to put an end to the ever increasing suffering and the ever increasing losses. It has every hope that the intervention of President Wilson will arrive at a result worthy of the high purpose which inspired it."

'Time for U. S. to Act'

As chairman of the foreign relations committee of the senate, Senator George W. Stone of Missouri, in a formal statement said the time has come for the United States to inject itself into the European situation.

"The European war is America's business," said Senator Stone. "We can no longer be patient with the European states who say to America 'This is not our affair.' It is our affair and it becomes more so. There has been much in the conduct of both sides that was evaporating to that nation. I need not specify. Anyone who has followed the news of the recent rise of neutrals has been trampled upon and that condition that became that is being aggravated rather than improved."

"America and the neutral nations have borne all this with remarkable patience, but they now are filled with a feeling of weariness of the war. That is why when it is not important for us to do what we desire to discuss the war with the fighting nations. We have the right, not of concession or request, to say something affirmative to the belligerents."

Cannot Help Helpless.

"Of course, from a humanitarian standpoint, we are justified in sympathizing with the victims of the war. Not the people of the fighting nations, so much, but with the people of prostrate countries—Belgium, Poland, Armenia, Galicia. I'd vote today to give the American Red Cross the right of sending through America distributing agents, but we are denied the privilege even of helping the helpless and starving."

"And so from every view the war has become our business. We have every right to ask as to the prospects of ending the slaughter and suffering and the interference with the rights of neutrals."

WILL LAST FOR 138 YEARS

STANDARD OIL EXPERT SAYS PETROLEUM IS BEING SLOWLY EXHAUSTED.

Chicago, Illinois.—A note of alarm as to the gasoline supply of the country was sounded at the convention of the Society of Agricultural Engineers last week by Dr. E. Bransky of the Standard Oil Co.

He declared that production was not keeping pace with consumption and that exhaustion of the supply was drawing near. The tension was considerably relieved, however, when it was learned that the total estimated remaining supply of crude oil, visible and invisible, 7,269,000,000 barrels in all, would last 138 years longer at the 1916 rate of consumption of 55,000,000 barrels.

Petroleum Varnish on Fire, Dying. East Liverpool, Ohio.—William Carbone, age 17, of Shippensburg, Pa., is believed to be dying in the City hospital here of burns suffered in the Pittsburgh Crucible Steel plant at which he had been working. He was a fireman by trade, having worked upon the flames following a streetcar fire. Flames followed a streetcar fire, the liquid to the car in his hand, igniting his clothing.

Fast Undersea Boat.

Washington, D. C.—Great Britain has constructed a large number of powerful submarines since the outbreak of the European war. The latest report which has reached government officials here is that the British have evolved a 35-shot submarine of 4,000 tons displacement.

In the opinion of naval experts the British boat must be a submarine destroyer rather than a submarine. The largest German submarine known to naval officers does not begin to approximate this size or speed.

MEXICAN SITUATION NO NEARER SOLUTION

The Year Has Not Brought Any Particular Change in Relations Between Countries.

Washington, D. C.—The concluding hours of 1916 found the Mexican problem no nearer solution so far as the diplomatic relations between that revolution ridden country are concerned, than they were 366 days ago. With what may be due credit to the final meeting of the joint Mexican-American joint commission scheduled for Tuesday in Washington the question as to whether the present relations shall continue or whether an abrupt change in the international status is imminent remains as acute as ever.

The American members of the joint commission impatience sorely tried by the delays and repeated demands for "time to consider" are disposed to stand firmly against further discussion of the questions at issue. But from sources close to the president it has been stated that he is still disposed to leave time and grasp almost any opportunity presented by the Mexicans to put off the close of the present temporary diplomatic arrangements under which the commissioners have been proceeding.

The Mexican government would consider itself failing in its duty towards its own people and towards all humanity if it did not express its deepest sympathy with all efforts which could contribute to put an end to the ever increasing suffering and the ever increasing losses. It has every hope that the intervention of President Wilson will arrive at a result worthy of the high purpose which inspired it."

NOTED AUTHOR IS DEAD

HAMILTON WRIGHT MABIE SUCUMBS TO HEART FAILURE AND OTHERAILMENTS.

Summit, N. J.—Hamilton Wright Mabie, the noted author and editor, is dead at his home here. As associate editor of the Outlook, he had been told to the office of the magazine three weeks ago. Since his condition became very much worse and he never rallied, a week ago, he died.

Prof. Mabie was graduated from Columbia University in 1889. In 1899 he received the degree of LL. B. from Princeton. He was a lecturer in all parts of America and other countries. As an editor he assisted in producing the Outlook.

Moonsheen Whisky Higher. Atlanta, Ga.—Graham-Mobilian of the Piedmont Georgia Power Co., Tennessee and the Carolinas are not so slow. They have taken advantage of the high cost of living arguments put forth by the city manufacturers and as a result moonshine liquor that used to sell for 75 cents a gallon now commands \$4 a gallon.

Woman Railroad President.

Buffalo, N. Y.—Mrs. Joseph H. Tones, widow of Capt. Jones, has been elected president of the Gulf & Ship Canal Co. to succeed her husband, who is announced here. Capt. Jones died a month ago, leaving an estate of more than \$15,000,000 to his wife and daughter.

Artist's Model Slain.

Philadelphia, Pa.—Grace Roberts, a young artist's model, was shot and killed by a man who had been advertising on photographs advertising Onyx hostess and Klosfot petticoats and whose face and figure were familiar, through these photographs, to millions of Americans. She was found murdered in her room, an exclusive apartment house.

Her throat had been cut and she had been terribly beaten. A man's shirt bearing the mark of a New York manufacturer, was found in the room. This is the only clue found.

Roosevelt Going to Fiji.

New York City.—Col. Roosevelt has changed his vacation plans once more, this time definitely, his friends say. He has abandoned his trip to the West Indies and instead will take the trip he originally planned through the Islands of the south Pacific.

The colonel and Mrs. Roosevelt will start Feb. 7 for Honolulu. The colonel plans to charter a steamer and spend the next four months cruising about the sunny seas where Robert Louis Stevenson spent his last days.

Swims River; Held as Burglar.

East Liverpool, Ohio.—Shortly after New Year's day, a man who had been the coming of a new year, Lucy Lovell, 21, son of a wealthy retired farmer, was discovered in the office of the Holman garage, in Wilshire, and it is alleged that he gained admission by removing a glass from the door.

He was held swimming across the river and when he was brought ashore drying his clothes in a shanty.

Charged with burglary, he waived examination, and is in jail pending grand jury action.

BUTLER COUNTY MAN IS HEAD

Greater Financial Aid Is Urged for
Butter County Schools in Resolu-
tions Adopted.

Western Newspaper Union Service.

Columbus, O.—With the adoption of resolutions, the Ohio Teachers' Association convention came to a close. The demand for additional revenue is based on the theory that education is the best way to strengthen rather than weaken the demands of the cities for greater taxes, resulting in the need of liberalization of the tax limitations in other directions.

C. S. Barrett, principal of the South High School, Columbus, was elected president of the association. C. E. Prose, of Zanesville, was chosen first vice-president. R. G. Kinckle, of Columbus, was re-elected president of the Elementary School, and Miss Mand Bond, of Scio, was elected secretary.

The new president of City Superintendents, S. W. Anderson, of Springfield, was elected. R. W. Sullivan, of the Postoria schools, H. R. McVay, superintendent of Sidney schools, was elected secretary.

John Schwartz, of Hamilton, superintendant of the Butler county schools, was elected president of the County and District Superintendents' Department. H. E. Hall, of Bowling Green, was chosen vice-president; H. H. Murphy, of Barnesville, secretary, and H. L. Kasy, of Glenford, member of the Executive Committee.

The recommendations to the Legislature, drafted to provide additional relief to the public schools of the state, probably stood out among the resolutions introduced at the final session.

One calls on the state greatly to increase its aid to city and village school districts. The other urges that boards of education be given the right to exact a five-mill tax levy.

CHILDREN NEED TREATMENT

Hospital Care for Indigent Cripples of Cleveland Schools.

Cleveland, O.—Based upon a recent survey of crippled children in a Cleveland land, it is estimated by the State Commission, which is preparing data for the legislature with a view to establish a state institution for the treatment of infants and crippled children, that there are approximately 700 children in the state who should be treated in such a hospital.

The Cleveland survey showed 969 crippled children under 16 years of age in Cuyahoga county. Estimated at \$5,000 per child, the amount of money which would be required to establish this would be \$4,850,000.

Return 50 per cent of the automobile income money to the cities and the political subdivision where paid.

Return 50 per cent of the state liquor license tax to the municipality where paid.

These recommendations have been placed in the hands of a committee to be submitted to the state meeting of the chamber of commerce here, to see if an agreement may be reached between the two organizations to work for the legal changes both are seeking.

The first two recommendations are identical with those of the Ohio League of Municipalities, the mayors are told so that organization may be counted on to lend aid in seeking to put the changes through the legislature.

If the State Association of Chambers of Commerce finds the recommendations agreeable, the hope is that these two groups may develop co-operation in trying to put the changes through the assembly.

The plan is to get the measure in legal form and have it introduced early in the session so full study may be made of the situation and the best conditions obtained for getting the law passed.

The proposition is to have the liquor license and automobile funds turned back to the municipalities with the opening of 1917, that addition being enough, so that it was stated, to tide over easily most of the smaller municipalities of the state.

The proposition is to have the liquor license and automobile funds turned back to the municipalities with the opening of 1917, that addition being enough, so that it was stated, to tide over easily most of the smaller municipalities of the state.

The Cleveland survey showed 969

crippled children under 16 years of age in Cuyahoga county. Estimated at \$5,000 per child, the amount of money which would be required to establish this would be \$4,850,000.

Return 50 per cent of the state liquor license tax to the municipality where paid.

Return 50 per cent of the automobile income money to the cities and the political subdivision where paid.

These recommendations have been placed in the hands of a committee to be submitted to the state meeting of the chamber of commerce here, to see if an agreement may be reached between the two organizations to work for the legal changes both are seeking.

The first two recommendations are identical with those of the Ohio League of Municipalities, the mayors are told so that organization may be counted on to lend aid in seeking to put the changes through the legislature.

If the State Association of Chambers of Commerce finds the recommendations agreeable, the hope is that these two groups may develop co-operation in trying to put the changes through the assembly.

The plan is to get the measure in legal form and have it introduced early in the session so full study may be made of the situation and the best conditions obtained for getting the law passed.

Seven Free Labor Exchanges Oper-
ated in Ohio—Many Requests
From Employers.

Western Newspaper Union News Service.

Columbus—A total of 347,992 persons, or a daily average of 1,141, sought employment through the Free Labor Exchanges of Ohio during the year ending June 30, 1916, according to a report issued by George F. Miles, chief statistician of the Industrial Commission. Employers registered a daily average of 674 persons for positions open. An average of 565 a day were referred to these positions and a daily average of 463 were reported as employed.

There are at present seven of these free labor exchanges, located in Cleveland, Cincinnati, Columbus, Toledo, Dayton, Youngstown and Akron.

During the year ending June 30, 1916, the exchanges experienced a considerable growth in efficiency of service and volume of work done. This was accompanied by a complete change from a predominant demand for jobs by applicants to a predominant demand for suitable applicants by employers. Beginning in March, 1916, a record was kept of all permanent placements at \$15 a week or more for men, and a week or more for females. In the four months, two men were placed in positions paying \$2,400 a year and 18 men were placed in positions paying a salary of \$1,200 a year or more. Nine women during the same four months were placed in positions paying \$800 a year or more.

Compensation is Awarded.

The following awards in death claims were granted by the State Industrial Commission: Mrs. Margaret Lavey, widow of Dr. John L. Lavey, Ninth street, Cincinnati, \$2,000 on account of the death of their husband and father, Philip Lavey, fatally injured when he fell from a ladder October 17 while in the employ of F. Wrennwall's & Son, at Cincinnati; Mr. Edward J. Hartman, 1215 Main street, Cincinnati, \$3,744; Mrs. Mollie Haley, 3719 Wayne avenue, Cincinnati, \$3,744 for the death of her husband, Otto N. Haley, a sheet metal worker, in the employ of Thomas Lee, at Cincinnati; Mrs. Elizabeth Givens, Connersville, W. Va., \$3,123.36, for the death of her son, Mack Price and three children, Lafayette, Ind., \$2,867.28, on account of the death of the husband and father, Mack Price, killed in a boiler explosion at Sidney; Mrs. Adda Little and son Huland, Meigs county, \$2,944.64, for the death of her husband, James Little, crushed to death by a fall of slate at Rutland.

New Common Pleas Judges.

The new judges of common pleas courts who will take office next week as the result of recent elections, are as follows: Carroll, Harry J.; Harter, J. Eddy; Oberholser, Elmer; Middleton; Clark, F. M. Geiger; Clinton, Frank M.; Clevenger; Columbiana, J. C. Moore; Cuyahoga, Charles J.; Estep, M. A. Foran and H. G. Powell; Hamilton, Robert Z.; Buchwiler; Hancock, William F.; Duncan, Henry J.; Reiger, Hockaday; Egan, William; Miller, Morris; Mohr, Robert C.; Patterson; Pickaway, Clarence Curtis; Preble A. C. Risner; Shelby, J. D. Barnes; Stark, Robert H.; Summit; Wm. J. Ahern, long term; E. D. Fritch, short term; Van Wert, Henry W.; Blachly, long term; Edward C. Stitz, short term; Washington, Edward B.; Voblett; Williams, Charles A. Bowersocks.

Bonds Subject to Taxation.

The state tax commission has called attention of County Auditor Valentine of Franklin Co. to his failure to list for taxation deposits of funds with foreign insurance companies with the state superintendent of insurance in Columbus, amounting to \$1,750,000, the taxes on which amount to \$25,700. Attention of Hamilton to the taxing authorities is called to the fact that domestic insurance companies there have real estate mortgages in place of bonds, as well as bonds amounting to \$405,560, which are subject to taxation. The United States supreme court held that such bonds were taxable, but subsequently the Ohio law was amended requiring that such bonds be returned for taxation. Former Attorney General Hogan, in a ruling, held that the amendment was unconstitutional.

Ask Permanent Bureaus.

Ohio should have a permanent bureau of employment, one which would be sufficient to secure a competent staff, adequate equipment and a building in which to conduct its work. This is the opinion of the Central Philanthropic Council. At a meeting recently, it approved the suggestion of George W. Lathrop, president of the College of Education of Ohio State University, to be carried out at the coming session of the legislature. Dr. Thomas H. Halter, director of the bureau is working under great handicaps due to lack of equipment and funds.

TYPHOID BEING REDUCED.

CINCINNATI.—Of the 200,000 of Ohio's population in earnest, 100,000 are infected, according to a bulletin of the State Board of Health. Cincinnati is cited as an example of the salutary effects of pure water, it being pointed out that typhoid fever is now a rarity there.

HOPES FOR PEACE REST ON MEDIATION

Diplomatic Washington Is Con-
vinced Direct Negotiation
Is Impossible.

DEPENDS SOLELY ON WILSON

Only the Most Skillful Handling of
Situation by United States Can
Bring Slaughter in Europe
to an End.

Washington, D. C.—Hope for peace in Europe rests solely on President Wilson's mediation, as the world greeted the new year 1917. Diplomatic Washington was convinced that direct negotiations between the two groups of belligerent European nations is impossible, and that only the most skillful handling of the situation by the United States can bring the slaughter to an end.

Will Be Secret Negotiations.

Diplomatic circles here were pre-
pared to find the secret negotiations
more difficult than the dark and mysteri-
ous depths of secret diplomatic. It
was predicted, however, that these secret
negotiations, properly conducted,
will bear fruit ultimately, and one well
informed diplomat declared that the
peace terms would come to the surface
in two weeks. The secret negotiations
with the direct peace negotiations
would be closed incident and attention
centered on the attitude to be assumed
by the entente powers toward the
belligerents' embassies here.

"Germany's proposal for peace, and
the reply of the entente allies have made
it clear by their tone that there is no hope for direct negotiations for
peace." The exchanges show that the
two sides have no common ground
upon which they can agree, except
the mutual compromises which must
mark the final peace negotiations.
Neither side is willing to make the
preliminary motions which must pre-
cede formal discussion of peace terms.

"Mediation—by a strong, neutral
power—is the only other means of
settling the war. It is the best method
by their closer proximity to the con-
flict and their patent interests in its
outcome, are plainly barred from
effectual work in the direction of medi-
ation.

Consequently, the United States, the
greatest neutral of all, is in a position to
make itself effectively heard above the
din of the struggle. The president's
peace proposals already under way
will be the basis of the final negotia-
tions for peace.

Confidential negotiations will be carried
on in secret. Following the expected
reply of the entente allies to the pres-
ident's peace note, it is to be expected
that opportunities will develop for the
preliminary confidential communica-
tion of peace terms by both sides to
the president's note. These negotia-
tions will necessarily be tortuous and
slow, but the peace movement can be
expected to take definite diplomatic
form in about two months. Through
the actual and skillful diplomatic con-
duct, the United States can bring the
two belligerents into the open in about
that time."

Watchful Waiting Period.

Confronted with this situation, the
administration settled down to period of
diplomatic "watchful waiting." The
"wait" was extremely tight in both
the White House and the State Depart-
ment. Secretary of State Lansing de-
clared emphatically that he would not
discuss the peace situation, and that
the diplomatic decks were cleared for
the confidential negotiations. Repre-
sentatives of the entente allies de-
clined to talk with him until the final
answer of their governments to the
president's note had been received.

H. Myers. He has been made lieu-
tenant colonel and Capt. Isadore H.

been promoted to the rank of major.

Modified Credit Lease.

City Soldier Charles A. Groom, of
Cincinnati, was able to take with him
to the Queen City a copy of the new
canal lease signed by Governor Frank B. Wilson under the provisions of the
Pork act of 1915. The new lease is a
modification of the original Johnson
lease suggested by matters which
have since arisen. The rental will be
the same as under the former lease,
\$32,000 a year.

we can not put the state in the
"very front rank of the educational
systems of the country," says W. M.

Shot by Sweetheart.

Lima, Ohio.—Eugene Callahan,
16, in a hospital ward, with his
back as a rest for a new year's
celebration. Police say his sweetheart,
Miss Ruth Hoover, 18, of Galion, fired
the shot. The shooting is said to have
been accidental.

Callahan had started home and the
boy was holding his revolver which
they had used in marking the birth of
the new year. As the boy stepped
through the door he pulled the trigger,
believing the weapon empty. He
will recover.

Snow in Getting Start.

According to Dr. Simon N. Patten,
leading statistician of the University
of Pennsylvania, only 25 per cent of the
graduates in law at that institution
follow the practice of law after they
leave the university. The statistics
also show that 75 per cent of the law
students, after the long course and at
heavy expense, go into other lines of

"It requires ten years for a college
man to be as much as the untrained
man of business," Doctor Patten added.

to get on their feet, the high school
graduates often enter directly into a

overlooked that the trained man far
overlooks his untrained competitor at

Druggists Convicted.

Dr. J. Howard King and Charles Nichols, proprietors of the Ashland Drug store, were found guilty of the unlawful sale of intoxicants in the first trial of the Ashland druggists arrested recently in the campaign to ban the illegal sale of intoxicating liquors.

The trial, which was held before Police Judge Corrington at Ashland, continued over several days and was watched with interest as it was believed that this case would give an example to all others on that of the other druggists who have trials in the next few days. The decision of the judge also came somewhat of a surprise, as he swayed all technicalities at the beginning of his remarks and based his decision entirely on the frequency of the sales to one person. He held that the frequency of the sales, even with a prescription, should have told the druggists that the physician issuing them had not done so in good faith but for personal purposes.

Each was fined \$100, \$25 of which was suspended.
