

**Obituary.**

Mrs. Alina Wrenndt Shutt, was born in Plymouth, Ohio, July 19, 1848 and departed this life at noon, Feb. 21, 1917, aged 73 years, 7 months and 2 days.

She was united in marriage to Mr. Luther Shutt in Plymouth, Jan. 17, 1878. The marriage was performed by the Rev. S. F. Breckenridge, D. D., late professor of Theology in the Hamma Divinity School at Springfield, Ohio. Thus they journeyed together 44 years.

Their home was blessed with four children, Mrs. Kathryn Sloan who passed her reward Oct. 19, 1911, Miss Lena Shutt, Mrs. Mary Swanger, and Mr. Harry W. Shutt. To Mrs. Shutt her home was her kingdom, in which she ruled with love and justice and with a ministry both untiring and unselfish, thus leaving to her loved ones, as wife, mother and friend, the sacred treasure of a blessed memory.

Mrs. Shutt was a member of the Lutheran church for twenty-one years and to the day of her death remained a faithful and content member. Death to her was but an entrance into a better and more perfect life. Mrs. Shutt was like a quiet, still stream whose serene and gentle waves passed through time and now has entered upon her eternal rest. This day is her hope lost in religion.

Funeral services were held from her late home on Friday afternoon, conducted by her pastor, Rev. G. C. Smith, the fitting requiem of the "Believers Hopes" suggested by the clearly expressed assurance of Mrs. Shutt's testimony as the possessor of that "hope," her faithful and loving friends and family were present to comfort and to the sorrowing hearts.

Interment was made in Greenlawn cemetery beside the loved daughter who awaited her coming in the joy and better home.

**NOTE:**—The silent tribute of love and esteem expressed in the many beautiful flowers, the helpful kindness of neighbors and friends, serving during sickness, the comforting words of Pastor Smith, the beautiful singers, the generous contributions of conveyances to the cemetery, were all expressions of a sympathy, love and comfort to a bereaved family for which they untidely and publicly wish to express their appreciation.

**Obituary.**

Mrs. Emma Cockburn, wife of David W. Cockburn, passed away at her late home here, Sunday morning at 8:00 o'clock, following a lingering illness of cancer. Mrs. Cockburn has been ill for many months and during that period of time every means was used to prolong her life. Numerous trips to the hospital were of no avail and it is a plain fact that death only would relieve her of her sufferings. During her entire illness she has borne her sufferings with the patient endurance of a true Christian, always cheerful and hopeful.

Emma Cockburn was born near Plymouth, September 21, 1855, and she was one here February 12, 1917, aged 61 years, 5 months and 27 days. Her younger days were spent in that community until she was united in marriage to David Cockburn, Dec. 24, 1877. She then moved here, where she resided up to the time of her death. To this union were born three children, David, George and Shelby, and the two others having died in infancy. She is survived by her husband and daughter, one sister, Mrs. Wellington Miles of Milan, and four brothers, Peter, Henry, Edward and Ned, all of Plymouth, besides a host of other relatives and friends.

Mrs. Cockburn united with the Lutheran church here over 21 years ago and has been a faithful member ever since. Her life has always been one of a true and earnest Christian. She was pure in life and sweet in disposition, amiable, kindly, good natured. She was a devoted wife, a loving and devoted mother and an exemplary neighbor and friend. Her passing will be greatly missed by her friends, and she will leave to all, and a nobler woman never lived.

The funeral services were held from the Mt. Hope Lutheran church here Tuesday at 2 o'clock p. m. with Rev. Ross Miller in charge. Interment was made in Mt. Hope cemetery.—Shiloh Review.

**Coe-Dick Wedding.**

On Wednesday evening, Feb. 28, '17, at the home of Mr. J. O. Coe occurred a pleasant wedding with the daughter, Edna M. Coe, was married to Winfield S. Dick, both well known young people of this community. Willing hearts and hands made every general and minute arrangement about the house conducive to the happiness of the occasion.

The near relatives of both parties witnessed the simple and impressive ceremony as Rev. W. Helmuth officiated and declared them husband and wife in the holy bonds of matrimony. Evan Coe and wife, with Edgar Coe and wife, stood with the couple during the service.

The bride was adorned in white silk, so neat and becoming. The groom wore the conventional black.

The numerous presents sent and brought gave evidence of the high esteem in which the newly married couple are held by many friends.

The table was laden with the delicacies and wholesome edibles to tempt the appetite and allay the hunger. The bride and groom, as well as only domestic experience can prepare.

For their honeymoon the couple take a short trip to friends at Perryville and will return to the farm a short distance from Plymouth. All friends wish them a long and prosperous life.

**Methodist Notes.**

The protracted meetings began March 20th.

The duplex envelopes have now been used for two months in our Sunday School. For the month of February 37 students have been set a best record in their use; 85 per cent of those present for the month contributed in the benevolent end of the collection. Mrs. Cole's class came second with 84 per cent.

The Memorial service for Miss Mary Sibbitt, held in the church Wednesday afternoon was largely attended. One hundred and fifty of her former day school pupils passed the casket, each laying thereon a beautiful carnation.

Next Sunday morning the pastor will continue the series of sermons on the general theme of The Kingdom of Christ to His People. With subject, Christ, a King. The theme announced for the evening will be omitted because of the coming of Mrs. S. W. Eddy, a returned missionary from India and a former teacher in Baldwin University, who will speak at that time. The pastor knew Mrs. Eddy in Baldwin University and can assure all that she will be a most interesting speaker.

The W. H. M. S. announce a special meeting on next Tuesday evening, to which the whole church and all friends of the church are invited. The same will be held by practicing a number of nights this week and will present a program which will be of exceptional interest to all.

Our Epworth League announces the following: Sunday, March 4th, Institute Night. Our League will present, "The Institute Picture" on Wednesday evening at 7:30. A lecture hour of 6:15. An invitation is extended to all young people to be present. Our meetings are interesting, profitable and are being held as pleasantly surprised. Our regular Institute offering will be taken at that time.

**Old Records Will be Bound.**

Ray W. Pusback, manager of the Prompt Binding Co. of this city, this morning received from Clerk of Courts Clark Blackman, six small packets of court records, which are carefully preserved and guarded in the court clerk's vaults as the earliest records of court proceedings in this county.

"Handle these with care," was Mr. Blackman's admonition to the bindery man, as he passed over the old, colorful records, which are several instances, notably the old letter "S" which was written in the modern letter "F" when used in succession.

The oldest packet is also the largest. It contains a record of a May term of court in 1817, and after the usual list of names of the judges, George Todd president; Stephen Meeker, Ezra Strazee and Jabez Wright, associates.—Normal Reflector.

**METALLIC COMPANY WINDS UP BUSINESS.**

**Dividends Announced to Stockholders Who Remain With Shiloh Concern.**

When the stockholders of the defunct Shiloh Manufacturing company received notice Feb. 12 of a small dividend that had been declared in their favor on each share of stock the last note of that once enterprising company had been struck. The passing of the company bears with it a grievance of the town and community as it held the only hopes for establishing permanently, a factory in Shiloh. By its insolvency, the stockholders have lost close to \$20,000.

When the Shiloh Metallic Company was formed, it was comprised of 133 stockholders, and their holdings in the company showed \$23,380. The company was under operation for over a year, but it was plainly evident that it was running at a loss. Finally a receiver was asked for and the Shiloh Metallic Company was sold at a receiver's sale Aug. 2, 1916. Eighty-seven stockholders of the former company, all that would take any further chances, bought themselves into the Shiloh Manufacturing company and bought the plant at the receiver's sale for \$10,281. The plant was run under that name for a short time and then was sold to Messrs. Hughes and Frundlich of Mansfield.

The stockholders who held 340 shares of stock and did not go into the Shiloh Manufacturing company, received as a settlement 14 cents on the share or a total of \$47.40. The 87 stockholders who belonged to the Shiloh Manufacturing company and who held 1998 shares of stock received as a settlement Feb. 12, \$1.15 on the share or a total of \$2411.08. The trustees of the company held out a small amount to take care of any unsettled accounts that might arise. A final small dividend will be declared about Aug. 1 of this year. It will be remembered that the stock originally sold for \$10 per share.

**How to Make Wax to Graft Fruit Trees.**

Orchardists who expect to graft apple trees this spring will find the following formula for grafting wax recommended by the Ohio Experiment Station, satisfactory: Melt together until thoroughly mixed four pounds of resin, two pounds of beeswax and one pound of tallow. Pour this mixture into a vessel of cold water. Grease the hands with tallow, and when the wax is cool pull it into strips until it becomes light and smooth. It may then be shaped into balls or sticks, and will keep indefinitely in a cool place. Paraffine substitutes for tallow make a much harder as well as a cheaper wax.

Taking cathartics is simply a habit brought on through the influence of that very unnecessary evil, constipation.

Why not break away from cathartics? You can if you wish. Cathartics tear the bowels and simply compel you to take more and more all the time. Isn't it true? You know it is. A small dose answers very little effect, but you soon find a larger dose necessary, which in the course of time loses its effect.

The up-to-date method is entirely new and safe. Instead of hurting the bowels this new method "loosens them." It works in an entirely different manner from cathartics, very laxative. It does its work through the stomach.

Most all bowel trouble is caused by undigested food. Pepsin, this new method, starts right in and takes care of the food as soon as it enters the stomach. Pepsin, thoroughly digests every particle of food, thereby preventing indigestion, bowel-clogging, stuff entering the bowels.

Why not try this new method and cure your trouble. Ask your druggist for a small test packet bottle. It will cost you twenty cents and will last you for a week or ten days. The Neuro-Pharmaceutical Company, Wapakoneta, Ohio.

Strong Drinks Irritate
Strong drinks like beer, whiskey, tea and coffee, irritate the kidneys and habitual use tends to weaken them. Daily backache, with head-ache, nervousness, dizzy spells and a rheumatic condition should be seen as a warning of kidney trouble. Cut out, or at least moderate, the stimulant, and use Doan's Kidney Pills. They are fine for weak kidneys. Thousands recommend them.

An Ohio Case
H. B. Kline, 238 Kenna St., Columbus, Ohio, says: "I had a constant ache across the small of my back. My kidneys were restless and kept turning 'round on one side to the other, getting hardly any sleep. My kidneys acted so free-ly and the kidney secretions were highly colored. Doan's Kidney Pills cured me and I have not been bothered by my back or kidneys since. I am now enjoying the health."

A DIFFERENCE IN THE INVESTMENT

The Western Canada Farm Profits Are Away in Excess.

Mr. George H. Barr, of Iowa, holds seven sections of land in Saskatchewan. These he has fenced and rented, either for pasture or cultivation, all paying good interest on the investment.

Mr. Barr says that farm land at home in Iowa is held at \$100 per acre. These lands are in a high state of cultivation, with splendid improvements in houses, barns, stables and silos, and yet, the revenue returns from them are only from two to three per cent per annum on investment.

Last year, 1915, his half share of crop on a quarter section in Saskatchewan, wheat on new breaking, gave him 95 per cent on the capital invested—\$25,000 an acre. The crop yield was 35 bushels per acre. This year the same quarter-section, sown to Red Fife on stubble gave 3,200 bushels. His share, 1,643 bushels of 1 Northern at \$1.50 per bushel, gave him \$2,543.08.

Mr. Barr was instrumental in bringing in a number of acres of fine wheat in Saskatchewan in 1915. He referred to one of them, Geo. H. Kerton, a tenant farmer near Hanley. He bought a quarter-section of improved land at \$25,000 and sold it to Mr. Kerton. Mr. Barr asked him a few questions. "Well, George, what shall I tell my friends down here about you?" The reply was: "Tell them I shall never go back to be a tenant for any man." Another man, Charles Haight, realized \$18,000 in cash for his wheat crop in 1915 and 1916.

Mr. Barr when at home devotes most of his time to raising and dealing in live stock. On his first visit of inspection to Saskatchewan, he realized the opportunity there was here for grazing cattle. So his quarter-section, not occupied by a tenant, and rented as pasture lands to farmers adjoining. His creed is: "Let nature supply the feed all summer while the stock is growing, and then in the fall, take them to the home range, finished for market. There is money in it."—Advertisement.

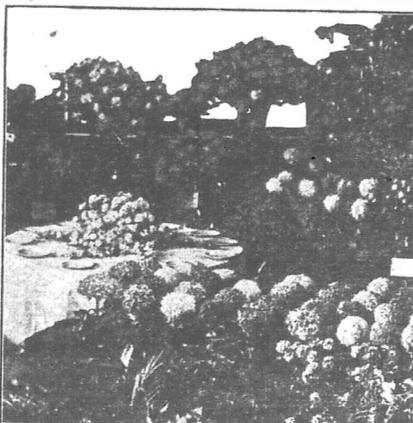

Matter of Taste.
Jones leisurely took his ticket at the office of a suburban railway station, and on hearing the train approaching, made more haste than some of the platform. When nearly at the top of the steps leading to the platform, his slipper, his silk hat wobbled onto his brow, and his hand and bag betook themselves one to the right and one to the left, but he manfully retained these possessions by holding them secure on the steps in a gasp-sport of fashion.

Whist thus on all four, Jones meekly looked up at the official at the gate regarding him.
"Is this the way to get to the Victoria train?"
"Yes, sir, was the unsympathetic reply, "but you come that way if you wish." And Jones felt still more lowly-minded.

IS CHILD CROSS, FEVERISH, SICK
Look, Mother! If tongue is coated, give "California Syrup of Figs."
Children love this "fruit laxative," and nothing else cleans the tender stomach, liver and bowels so nicely. A child simply will not stop playing to empty the bowels, and the result is they become tightly clogged with waste. Liver gets sluggish, stomach sour, then your little one becomes cross, half-sick, feverish, don't eat, sleep or act naturally, breath is bad, system full of cold. Has sore throat, stomach-ache or diarrhoea. Listen, Mother: See if tongue is coated, then a teaspoonful of "California Syrup of Figs." and in a few hours all the constipated waste, sour bile and undigested food passes out of the system, and you have a well child again. Millions of mothers give "California Syrup of Figs." because it is perfectly harmless; children love it, and it never fails to act on the stomach, liver and bowels.

Send 10c to Dr. Pierce, Invalids' Hotel, Buffalo, for large trial bottle of Syrup for kidney-cures backache.—Adv.

The HOME BEAUTIFUL
Flowers and Shrubs
Their Care and Cultivation

John D. Rockefeller and Many of the Richest Men and Women in the World Exhibited Their Flowers at the Tarrytown (N. Y.) Flower Show.

THE FLOWER OF THE RICH
It is to be doubted if any flower has received so much attention and care from persons of great wealth this year as has the chrysanthemum. John D. Rockefeller is supposed to be the richest man in the world. He has never spared any expense to produce perfect flowers, however exacting he may be in matters of corporation economy. He was one of the exhibitors at the recent flower show at Tarrytown, N. Y. And the man with a billion dollars raise the best flowers at that. A woman had what comparatively little money had the honor of getting the palm for the most beautiful chrysanthemum.

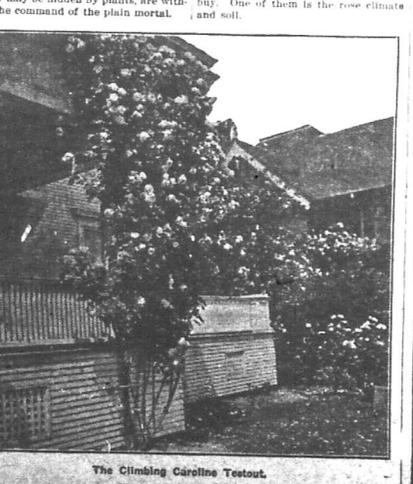

When unstrapping and uncovering trees, bushes and plants which have had winter protection, examine carefully to see if insects or fungi have done any damage. Be sure to burn the wrappings if any traces of pests are found, and apply such remedies as may be needed to root the insects.

Flower Hints
Seedlings grown in the house hotbeds or cold frames need hardening off before planting in the open. Give them plenty of air and during the month only lower the shades at night, when the weather is cold and stormy. Much trouble and disappointment would be avoided if tender seeds and indoor plants were not set out too soon. As a good general rule, which obtains throughout the country, such plants should not be set out, or seeds sown, until over-planting time.

Be sure to thin plants that come up too thickly. If allowed to grow too closely together they will be spoiled for life.

REMARKABLE CLIMBING ROSES
If anyone who had not seen them, undertakes to tell the story of the rose beauties of Portland, Ore., the average man would never believe the stories as they are unfolded in print. But the stories do not do full justice to the wonderful rose belt of the Pacific coast. The picture shows a climbing Caroline Testout, which had reached magnificent proportions. There are millions of these roses along the coast and a little comparative study of the size of the tree and that of the house will serve to give an idea of the glorious production. What do you suppose an eastern millionaire would give to have such an ornament at his door?

There are hundreds of men in the East that would not let price be a consideration. But then the cost has the consolation of knowing that it has many things that even money cannot buy. One of them is the rose climate and soil.

Too Sick To Work

Many Women in this Condition Regain Health by Taking Lydia E. Pinkham's Vegetable Compound.

Convincing Proof of This Fact.
Ridgway, Penn.—"I suffered from female trouble with backache and pain in my side for over seven months so I could not do any of my work. I was treated by three different doctors and was getting discouraged when my sister-in-law told me how Lydia E. Pinkham's Vegetable Compound had helped her. I decided to try it, and it restored my health, so I now do all of my housework which is not as if I have a little boy three years old."—Mrs. O. M. RUMBLE, Ridgway, Penn.

Mrs. Lindsey Now Keeps House For Seven.
Tennille, Ga.—"I want to tell you how much I have benefited by Lydia E. Pinkham's Vegetable Compound. About eight years ago I got in such a low state of health I was unable to keep house for three in the family. I had dull, tired, dizzy feelings, cold feet and hands nearly all the time and could scarcely sleep at all. The doctor said I had a severe case of ulceration and without an operation I would always be an invalid, but I told him I wanted to wait awhile. Our druggist advised my husband to get Lydia E. Pinkham's Vegetable Compound and it has entirely cured me. Now I keep house for seven and work in the garden some, too. I am so thankful I got this medicine. I feel as though it saved my life and have recommended it to others and they have been benefited."—Mrs. W. E. LINDSEY, R. R. 3, Tennille, Ga.

What Is Uric Acid?
Everyone has uric acid in the system, but naturally in small quantities. Excessive amount is caused by eating too much meat and foods that ferment in the stomach. The kidneys, being the filters of the blood, are supposed to separate and throw the poisons out of the system. Weak, tired and overworked kidneys fail to do this, hence the uric acid accumulates and the uric acid is carried by the blood to the solid tissue structure, causing backache, lameness, rheumatism, dropsy, drowsiness, and tired feeling.

To overcome the trouble is only a matter of toning up the kidneys, and this is best done by a treatment with Anuric three times a day. Anuric is a recent discovery of Dr. Pierce of Buffalo, N. Y., and can be obtained at any drug store. Experience taught Doctor Pierce that Anuric is a more powerful agent than lithia in dissolving uric acid, and it is then carried out of the system.

After hearing from representatives of the Guardians of Liberty and Junior Order of American Mechanics, the Senate Committee on Education killed the bill by Senator Palmer allowing each school district a majority vote to install free text books.

House members Tuesday promptly passed the Baker bill prohibiting the hunting of rabbits at night, when Representative Fleming, Youngstown, warned that the Easter egg production in crabs danger of being curtailed. The Baker bill also provides for a bag limit of ten rabbits for each hunter and shortens the season 15 days.

If the General Assembly approves the Mansfield bill, reported favorably to the house of representatives, divorcees in Ohio will be harder to obtain. This measure provides that a year shall elapse between the granting of the decree and the entering of the same upon the journal. Within that time parties may apply for a dissolution.

Between 25,000 and 30,000 bushels of potatoes are buried in pits in Erie county. Nearly one-third of these are on what is known as the "Potato Smith farm" one mile west of Huron. Nearly 3,000 bushels of potatoes are buried on the Gus Hemminger farm near Bogart. According to Hemminger, farmers are making no effort to dispose of their potatoes due to cold weather and the car shortage.

Although not generally known, peddlers are required by the Ohio law to procure a county license from the auditor at a cost of \$12 a year or \$2 for three months or less, if the peddler carries his stock on his back. If, however, he has a horse and wagon, he pays slightly higher, and if two horses, the fee is larger; it being that the use of animals makes the amount of invading a peddler's territory may do into the home merchants' territory. In practically every town and city there is an ordinance requiring a comparatively small fee for peddlers.

The people of the United States are apparently using more sugar than ever before, for the increase in consumption has been greater than the increase in population. According to figures in Bulletin 473, recently prepared by the bureau of Crop Estimates of the United States Department of Agriculture, the total consumption of sugar in this country for the decade ending with the fiscal year 1912-13 was 42.9 per cent greater than the consumption for the preceding decade, while the population for the same period only shows an increase of 21 per cent.

Now just stop and take a moment. Listen do not forget the date. It will be this (Saturday) night. Remember March third will be right. It will tell all what is to be done. With a very, very small sum. So do not miss this one display. You'll see it on that very day. When around the square you go. You can get miss it we well know.

**Hit Potatoes' Holders.**

The Rev. J. T. LeGar prefaced his sermon at the First Methodist church last evening with a sermon termed a sermon editorial, in which he touched on the food riots caused by the high prices.

"I have been told that thousands of bushels of potatoes are being held in Richland county for \$5 a bushel. I am just wicked enough to wish that these people who would speculate in food prices, would lose their potatoes by frost," declared the Rev. Mr. LeGar. He closed his food speculator with the highway man.

"It is just such acts as this which cause the people to drift to socialism," continued the speaker. He said he would not condemn a man who holds his real estate for the highest price, but he would condemn the people who hold foodstuffs when people are starving.—Mansfield News.

**"The Cub."**

"The Cub," a five reel feature, starring Martha Hedman and Johnnie Hines will be shown at the Delta Theatre Wednesday evening of the coming week. It is a clean, rollicking comedy built around the exploits of a cub newspaper reporter, played by the inimitable Johnny Hines, who is sent into the mountains in Kentucky to cover a feud story. A girl whose relatives are fighting on one side of the feud falls in love with him, while his heart is won by another girl whose family is fighting on the opposite side. The mess is finally cleared up by the militia.

**FRIDAY, APRIL 13,**  
Is Designated as Arbor Day by Governor Cox.

"World events have caused a perversion of feeling by which the sensibilities of nature are apt to be dulled unless real care is exercised in their behalf," said Gov. Cox Tuesday in his proclamation fixing Friday, April 13, as Arbor Day.

"Now, as never before, is it worth while to stimulate the practical ends of sentimental thoughts of healthfulness," said the governor. He suggested that all pupils in institutions of learning be instructed on that day concerning the planting of trees, the value of the growth and maintenance of forests and the protection of bird life.

Jealousy is said to have been the cause of a double tragedy at Summerville, Noble county, when Dr. J. H. Williams, sixty, killed his wife, fifty-two, and fatally shot himself.

**TURPO**  
THE TURPENTINE OINTMENT

The Turpo which you buy ready-mixed at your Druggist's is better than the turpentine-and-lard you mix at home. Better because the lard is replaced by a clean-looking, clean-smelling base of mineral origin. Better because it has camphor and menthol added, in just the right proportions. You know that turpentine-and-lard loosens colds. Do you know that Turpo—in addition—cleanses wounds, quiets pain and hastens the healing of cuts, burns, bruises and sprains? It does. It's also splendid after shaving. Buy Turpo of your Druggist.

 Here it goes again. Users of scrap tobacco had better conserve their favorite brand, if they wish to be kept supplied these days. Congestion of freight and embargoes by the different railroads has resulted in the supply of different brands being down to the lowest point. Most of the scrap tobacco comes from eastern points, where the freight congestion just now is the heaviest.  
 Owing to a change in their film service the Déslair Theatre is unable to give their program for the coming week, however special features will be shown Wednesday, Saturday and Sunday evenings. Regular announcement will be resumed later.  
 Mrs. Caroline Regar, 70, dropped dead during the midst of the service at St. John's German Lutheran church at New Washington, Sunday morning, her trouble was a congestion of heart death. While the pastor, the Rev. John Doeber, was in the midst of his sermon, Mrs. Walter suddenly became ill. She left her seat and walked to the front of the church, falling to the floor. She was taken to the vestibule, but a dead before a physician could reach the church.  
 The fourth number of the winter lyceum course given by the Crawford Adams company at the Presbyterian church last week Thursday evening was quite largely attended and was one of the finest entertainments held in Plymouth in a long time. This was the second time this company had appeared before a Plymouth audience within the past few months, and on each occasion made good and it is to be hoped that they may make up many more visits, as their ability to please and entertain is par excellence.  
 After an illness extending over many months, Miss Mary Sibbett passed away at her home near Boughtonville Sunday morning, the end coming as a great shock to her large circle of friends, as she was a lady widely known throughout this section, loved and esteemed by all. The greater part of her life was given over to education, having for twenty-nine years been the primary teacher in the school in her own city where she endeavored herself to pupils and pupils alike. Funeral services were held from the D. J. Phillips church at 11 o'clock Wednesday forenoon at which the remains were brought to this place where a memorial service was held at the Methodist church, the same being held in its district by loving friends who had gathered to pay their last respects to this much loved lady. Burial was made in Greenwood cemetery. A full biography will be published in our next issue.

Fred L. Sheppy, 170 N. Halsted Street, Chgo., Ill., General Sales Manager of the largest concern of its kind in the world, wants three or four men in this county and several men in adjoining counties, to work for him spare time or all the time. He can use only those who have a rig or auto. Work is pleasant and no previous selling experience is necessary. Work consists of leaving a wonderful new household necessity in the homes on free trial. Tests at more than thirty of the leading Universities and the Government Bureau of Standards show this article to be four times as efficient as article now in general use in this section. Article is needed in every rural home and benefits every member of the household, bringing cheer, comfort and happiness into the home. Not necessary to be away from home nights. Pay from \$6.00 to \$15.00 per day according to ability and number of homes visited. In writing Mr. Sheppy, mention what townships will be most convenient for you to work in; what your regular occupation is; your age; married or single; how long you have lived in this community; what kind of a rig or auto you have; whether you wish to work spare time or steady; how much time you will have to devote to the work; when you can start, and about how many homes are in first class of you in each direction. This is a splendid opportunity for several men in this county and counties adjoining to make good money, working steady or spare time. Some of the field men earn \$300.00 per month; one farmer earned \$1,000.00 working spare time only. No investment or bond necessary. A few lines to Mr. Sheppy will bring full particulars. Adn.

PROVIDES FOR UNIVERSAL TRAINING

Plan of General Staff of Army is Submitted to Congress by President Wilson.

Washington, D. C. — The universal training plan of the general staff of the army has just been submitted to congress by President Wilson. It carries merely "a letter of transmittal" from Secretary of War Baker. Neither the president nor Secretary Baker expressed any form of recommendation. War department officials say the plan, if put into effect, would raise and train an army of 500,000 men every year.

The resume of the bill as prepared by Maj. McCall of the staff reads: "The plan calls out all able-bodied male citizens in their 19th year for 11 months continuous training, to be followed by two repetition courses of two weeks each, one in their 20th year and one in their 21st year."

"It is proposed that the following classes be exempted: (1) Those permanently physically or mentally unfit for service of any kind to be permanently rejected; (2) Those temporarily physically or mentally unfit to be temporarily rejected to be re-examined each year until they reach the age of 25, when they are permanently assigned to the universal reserve; if in any year, during this period, they are found fit for service they will be called out for training in peace and service in war with the classes of that year."

"Those who are the sole support of destitute dependents will be exempted for the year, and then called out to year, until they reach the age of 25, when their liability to training ceases and they are assigned permanently to the universal reserve. If the last mentioned cease to be the sole support of destitute dependents before they reach the age of 25, they will be called out for training and service with the class of that year."

ROY GEORGE WARNS BRITISH PREMIER IN FLOOD

British Premier Admits German U-Boat Warfare is Beginning to Pinch England.

London, England. — The first official admission that Germany's submarine warfare is beginning to strangle England was made by Premier Lloyd George in the House of Commons. Unless the submarine menace is removed, declared the premier, disaster will overtake the allies. He warned that prompt and resolute measures must be taken. German submarines must be hunted from the seas before the allies can hope for victory, he said.

The premier announced drastic reduction in imports, chiefly in meats and fruits.

The stocks of food at present in Great Britain are lower than they ever have been, Lloyd George declared.

Enormous sacrifices were necessary from the British public, he said. He called on the government to take prompt and resolute measures to dispense with all non-essential imports to save tonnage.

COUPLE SEPARATED AT SEA EIGHT YEARS AGO MEET AGAIN

St. Louis, Mo. — Separated eight years ago in a shipwreck, Herman Jacobs, 37, and his wife and child were reunited in the city here. The circumstances surrounding the rescue were marvellous. The Jacobs were married in Germany 10 years ago. They started for America several years ago. The ship was wrecked. The wife and baby went away in one lifeboat and Jacobs in another. They never met again until Feb. 23. Each thought the other lost.

Entering the union station, Jacobs saw a little girl standing near the supply stand, looking intently at the array of sweets. He bought her a sack of candy and was putting it in her hand when a woman pushed up. "Here's my baby," she cried, and threw herself into his arms.

In tears the wife told Jacobs she had married a man named "O'Connor" several years ago. She promised to leave the marriage annulled.

LINER CARRYING 31 AMERICANS, IS SUNK

Largest Single Victim of Unrestricted U-Boat Warfare Since Its Inauguration.

London, Eng. — The Cunard Line liner, carrying 76 passengers, six babies, was sunk without warning by a German submarine off the Irish coast.

There were 25 native born Americans among the crew of 216.

Thirteen persons are reported missing. Two American women, said to be Mrs. and Miss Hoy, lost their lives, according to survivors who landed here.

The Laconia, an 18,000-ton vessel, is the largest single victim of unrestricted U-boat warfare since its inauguration on Feb. 1.

She was en route from New York for Liverpool, having left New York Feb. 18. She carried 5,000 sacks of wheat, 5,000 cases of brass rifle cartridges, unloaded, 2,843 bags of cotton, 1,400 cases of fruit, 1,000 bars of silver and 500 tons of staple proteins.

The Laconia was equipped with one 10-inch gun, the regulation 4.7-inch piece mounted on all Cunard liners.

She was manned by British officers and a British crew. Her captain is W. R. D. Irvine.

TO COMBAT OATS SMIT Solution to Overcome Trouble Is Given by Experts.

Wooster, Ohio. Treating seed oats with formaldehyde solution to prevent loose or head smut has been shown by the Ohio experiment station to be highly profitable for the time so spent. One pint of a solution of 40 per cent formaldehyde, sold at drug stores as formalin, mixed in 40 gallons of water will be sufficient to treat 40 bushels of seed oats.

TRAIN RUNS INTO ROCK Passenger Locomotive and Car Overturns; None Hurt.

Chicago Junction, Ohio. — A B. & O. passenger train, the Wheeling-Chicago limited, struck a rock at Gleno, turning the engine and baggage car on their side. No one was injured except Engineer William Glenn of Newark, O., who was slightly bruised about the head.

The line was obstructed several hours. Heavy rains caused the rock to slide down a steep embankment to the track and the weather was so foggy the engineer did not see the obstruction.

Freed of Murder Charge. — Fremont, Ohio. — Joshua Kiser is free. It took the jury in his case two hours to decide he did not poison his wife, Martha Kiser. Four ballots were necessary for a verdict. The first ballot stood 10 to 2 for acquittal.

What President Wilson Told Congress

I am not now proposing or contemplating war or any steps that need lead to war. War can only come by the willful acts and aggressions of others. I must ask for your supporting authority in the most general terms. We must defend our commerce and the lives of our people with discretion but with clear and exacting purpose. I request that you will authorize me to supply our merchant ships with defensive arms and that before they start they be equipped with the most modern and to employ any other instrumentalities or methods that may be necessary and effective to protect our merchant ships and peaceful pursuits on the seas. I request a sufficient amount to enable me to provide adequate means of protection, where they are lacking, including adequate insurance against present war risks.

I feel that I ought to obtain from you full and immediate assurance of the authority which I may require. I already possess that authority by law. I am not now proposing or contemplating war or any steps that need lead to war. War can only come by the willful acts and aggressions of others. I must ask for your supporting authority in the most general terms. We must defend our commerce and the lives of our people with discretion but with clear and exacting purpose.

ARMED NEUTRALITY'S PRESIDENT WILSON'S VIEW

Full Authority to Take Fateful 'Next Step' is Demanded by Wilson of Congress

Washington, Feb. 27. — Full and complete authority to take the fateful "next step" in the German crisis was demanded of congress by President Wilson. A grimly silent joint session of the Senate and House of Representatives listened intently as the president demanded the power to place the United States on a basis of "armed neutrality" to meet the German campaign of submarine warfare. Declaring that he did not propose or contemplate war, the president asked the ominously attentive representatives of the people of the United States to do these things.

What President Seeks. "That you authorize me to supply our merchant ships with defensive arms and that before they start they be equipped with the most modern and to employ any other instrumentalities or methods that may be necessary and effective to protect our merchant ships and peaceful pursuits on the seas."

"That you will grant a sufficient amount to enable me to provide adequate means of protection where they are lacking, including adequate insurance against the present war risks."

To these demands the president's leaders in hurried conference sought to start legislation conferring on the president the authority he sought in his message.

The net result in the chaotic state of congressional sentiment which followed the president's appeal was the introduction of a resolution in the House by Chairman Flood of the house foreign affairs committee. The resolution carried all of the authority for the president and the appropriation of \$100,000,000 to be used in his discretion. It was referred to the foreign affairs committee.

In a quiet, calm voice, the president told of the sinkings of the American ships Lusitania and Lyman. "The case of the Lyman," he said, "is a clear case of grave condemnation, but was accompanied by no circumstances which might have been expected in the light of connection with the use of the submarine by the German government has used it."

The declaration that the situation was unchanged from that when Germany declared her relentless campaign, "except for the thing you are proposing in your own ports because of the unwillingness of our merchants to do business with you without insurance or adequate protection, and the very serious congestion of our commerce which is being done in a congestion which is growing rapidly more and more serious."

No Veto Act Yet. "This in itself," he continued, "might present a possibility in effect what the German submarine orders were meant to accomplish, so far as we are concerned. We can only say, therefore, that the veto act, which I have ventured to hope the German commanders would avoid, has not occurred."

Declaring the situation "fraught with the most serious possibilities," the president asserted that it would be most undesirable to be surprised by the approach of the expiration of congress and the difficulty of calling an extra session to make the immediate action necessary to vest him with authority to handle the situation.

"No doubt," he declared, "I already possess that authority by law. I am not now proposing or contemplating war or any steps that need lead to war. I merely request that you will accord me the authority which I may require to enable me to provide adequate means of protection where they are lacking, including adequate insurance against the present war risks."

"I hope I can continue to see. I need give no further proof and assurance increasing in effect what the German submarine orders were meant to accomplish, so far as we are concerned. We can only say, therefore, that the veto act, which I have ventured to hope the German commanders would avoid, has not occurred."

"There may be no recourse but to armed neutrality," he said, "and it is necessary for protecting American lives and commerce, which we shall endeavor to maintain as long as there is abundant American product."

Still a Confusion of Ideas. "I need give no further proof and assurance increasing in effect what the German submarine orders were meant to accomplish, so far as we are concerned. We can only say, therefore, that the veto act, which I have ventured to hope the German commanders would avoid, has not occurred."

"There may be no recourse but to armed neutrality," he said, "and it is necessary for protecting American lives and commerce, which we shall endeavor to maintain as long as there is abundant American product."

New York City. — Latest news tells of greater progress for British's arms and at least 100,000 on any other day since the war began. Under cover of heavy mists and masked by the continuous fire of a few scattered British Crown Prince Rupprecht evacuated his positions along the Ancre. British patrols are still, as this is written, engaged in a cautious reconnaissance, but the British have definitely line to which the Trenches have retreated.

British troops have captured from the Turkish army 11 machine guns long and in places two miles deep, along the Ancre river, according to an official bulletin issued by the British war office.

In addition to the ground won on the Ancre, the British scored a significant victory following a series of operations which have been going on in Mesopotamia. The capture of Kut-el-Amara is announced, and British cavalry are hanging onto the flank of the Turkish army near Tikrit. The town named, it is evident that a British force succeeded in cutting off their better line of retreat along the north bank of the Tigris river. The British past Scheim Schadjie to Kowit and Bagdad.

EDWIN GOULD, JR., IS ACCIDENTALLY KILLED

Heir to \$30,000,000 Is Fatally Shot While on Hunting Trip With Companion.

Brunswick, Georgia. — Edwin Gould, Jr., aged 22, son of Edwin Gould, president of the St. Louis Southwestern railway, was accidentally killed near Key Island, the millionaire resort near here. Young Gould, with a companion, was on a moon hunting trip. While punching at a coon with his gun he was hit by the muzzle, the gun was accidentally discharged and Gould was shot. He died within 10 minutes.

Gould and his brother, Frank Miller Gould, 2nd, who is a few years his junior, were the only two children of Mr. and Mrs. Edwin Gould. The late Mr. Gould was a prominent heir to the vast wealth of his father, which is estimated at considerably above \$30,000,000. Being the son of the late J. Edgar Gould, the railroad builder and financier.

Recent figures show that 250 ships of American registry are engaged in transatlantic traffic. It is estimated that not more than 100 would apply for guns and take the risk of crossing the German submarine zones.

INTEREST IN BILL SHOWING IN OHIO

URGENT EARLY CLOSE. Acting in unison in accordance with a program the majority in the House of Representatives took long strides toward preparing the adjournment of the General Assembly.

FAIR SUBMISSION OF ISSUE

Is Permitted Due To the Disposal of "Bootlegger" Question—Discloses That Opposition Came From Distiller's Pool of Ohio Newspapers.

Western Newspaper Union News Service. Columbus.—Thousands of citizens of Ohio have read with ill-concealed pleasure of the passage in the National House of Representatives of the Read amendment making all prohibition states "bone dry." Having seen the amendment through both branches of the House, it is now to be submitted to the people and a settlement is for the time being on clear terms. To Ohioans the greatest meaning of the Read amendment is that it takes the bootleggers out of the so-called "bootlegger's vote."

Of course, the bill is not at present the subject of a full and fair submission of the prohibition issue to the people and a settlement is for the time being on clear terms. To Ohioans the greatest meaning of the Read amendment is that it takes the bootleggers out of the so-called "bootlegger's vote."

Administration Bill Passes. One of the foremost administration bills, that recognizing the State Board of Agriculture with an executive secretary and a State Advisory Agricultural Commission, was passed by the House of Representatives by a vote of 74 to 26.

Amendments to the bill were proposed, but the majority of the House rejected them. The bill was passed by a vote of 74 to 26.

At the time the amendments were proposed, the bill was passed by a vote of 74 to 26. The amendments were rejected by a vote of 74 to 26.

Pay of Jurors Raised. Adding largely to the already heavy cost of government is a bill by Representative Myers of Cuyahoga, which passed the House by a vote of 74 to 26.

The bill provides for an increase in the pay of jurors from \$2 to \$3 a day and limits one man to serve every three years. It is designed to raise the quality of the jury and abolish the "court house loafers" serving continuously on juries.

Fair Play Promised. Among other things, while in the House, the House voted to accept the invitation of the city of Cleveland to hold its reunion there next summer.

County Auditor, Chief Assessor. The special taxation committee is to report a new tax bill. The bill will make the county auditor the assessing official. A new tax bill will be reported by the committee.

Accepts Cleveland's Invitation. Among other things, while in the House, the House voted to accept the invitation of the city of Cleveland to hold its reunion there next summer.

Physicians Win Fight. The contest between the physicians and the osteopaths terminated in a victory for the physicians when the Senate Committee on Public Health amended the Miller bill to prevent osteopaths practicing major surgery.

Backed By Fishermen. Backed by the State Association of Fishermen is a bill by Senator I. M. Apple, of Darke, which forbids municipalities advertising any measure, criminalizing against a traction engine and declares they shall have the same rights as drivers of other vehicles.

For Parole Extension. It probably will pay second and third term prisoners in the penitentiary to go free. If the house is of the same mind as the senate, they will be eligible for parole.

May Delay Building. Although W. E. Skinner, secretary of the National Dairy Show Association, sent word to his association that Columbus will be ready to entertain the dairy show in November, 1917, the matter is still in doubt.

School Savings Favored. By unanimous vote the House Committee on Schools recommended the passage of a bill by Representative Harry Ederman, of Cincinnati, authorizing the formation of systems of school savings banks.

HIGHER PASSENGER RATES DISCUSSED

TRAFFIC MANAGERS ASSEMBLE IN COLUMBUS AND LAY PLANS FOR MEASURE.

Western Newspaper Union News Service. Columbus, O.—Gathered in this city in response to the call of Col. Samuel Moody, of Pittsburgh, chairman of the Railway Advisory Committee, a large delegation of railway traffic managers met both to discuss the matter of presenting to the General Assembly of Ohio a bill to increase passenger fares from two to two and one-half cents.

Another matter discussed was the proposed intrastate freight rates upon the roads. It was estimated that by providing that the former shall never exceed the latter, while aimed at alleviating its general application can be met.

STONG ARGUMENTS PREPARED TO BE PRESENTED TO BUCKEYE LAW MAKERS—EFFORT TO PLACE INTRASTATE AND INTERSTATE FREIGHT RATES ON THE SAME LEVEL—QUICK ACTION IS URGED.

Western Newspaper Union News Service. Columbus, O.—Gathered in this city in response to the call of Col. Samuel Moody, of Pittsburgh, chairman of the Railway Advisory Committee, a large delegation of railway traffic managers met both to discuss the matter of presenting to the General Assembly of Ohio a bill to increase passenger fares from two to two and one-half cents.

Another matter discussed was the proposed intrastate freight rates upon the roads. It was estimated that by providing that the former shall never exceed the latter, while aimed at alleviating its general application can be met.

"GASCOGNET'S" SLEGGISH BOWELS

No sick headache, sour stomach, biliousness or constipation by morning.

Get a 10-cent box now. Turn the rascals out—the headache, biliousness, indigestion, the sick, sour stomach, and foul gases—turn them out to-night, and keep them out with Cascarets.

Millions of men and women take a Cascaret now and then and never know the misery caused by a lazy liver, clogged bowels or an upset stomach.

Don't put in another day of distress. Let Cascarets restore your stomach, remove the sour fermenting food; take the excess bile from your liver and carry out all the constipated waste matter and poison in the bowels. Then you will feel great.

A Cascaret to-night straightens you out by morning. They work while you sleep—no 10-cent box, no foul breath, no sweet stomach and clean, healthy liver and bowel action for months. Children love Cascarets because they never give or sicken. Adv.

Stinging Retort. There was a grin, determined look in little Jones' eye as he walked into the optician's imposing premises. "I want a pair of glasses immediately," he demanded. "Good, strong ones!"

The assistant glanced significantly at the door labeled "Sight-Testing Room" and then returned to the optician, frowning slightly. "I want a pair of glasses immediately," he demanded. "Good, strong ones!"

"Yes; strong ones!" affirmed Jones. "I was out in the country yesterday and made a painful blunder." "Ah!" the assistant rubbed his hands together. "I mistook a stranger for a friend, perhaps?"

"No," came the blunt rejoinder; "mistook a bee for a violet." ACTRESS TELLS SECRET. A well known actress gives the following recipe for gray hair: To half pint of water add 1 oz. Bay Rum, a small box of Barbo Compound, and 1/2 oz. of glycerine. Apply frequently to the hair. Wash with milk at home at very little cost. Full directions on each box of Barbo Compound. It will gradually darken straggled, faded gray hair, and restore the natural color. It does not color the scalp, is not sticky or greasy, and does not rub out. Adv.

Important to Mothers. Every mother should have a bottle of CASTORIA. That famous old remedy for infants and children, and see that it bears the signature of J. C. Watson, Dr. J. C. Watson, Children Cry for Fletcher's Castoria.

In the Same Fix. "Ah," said we, reading the headline, "Mrs. Lloyd-George, wife of the English premier, is a fighter, too." "Aw, well," replied the Missourian, "her husband got m'ith on the on that score—so 's mine!"—Exchange.
