

The Plymouth Advertiser.

VOL. 64.

PLYMOUTH, OHIO, SATURDAY, APRIL 21, 1917

NO. 20

Ripley Items.

Three more weeks of school after this week. Frank Wallace will administer the Roberts estate.

Dr. Scarle removed a cataract from the eye of Henry Luteman last week.

Mrs. C. B. Wilkinson was in Shiloh last Monday, consulting Dr. Saunders.

Mrs. V. M. Atyeo was hostess to the W. F. M. S. in an all-day session last Saturday.

F. C. Young did a splendid job scraping our road weekend Friday. He has our thanks.

Beginning next Sunday, the morning services will be inaugurated, preaching followed by Sunday School.

D. J. Stuckey, road superintendent, is busy getting our good mud roads in better order for spring travel.

Jane Scokey, who lives at the home of Mr. and Mrs. the writer, has been sick for nearly two weeks with a severe cold.

W. J. Wilkinson and wife, and H. D. Fessenden, wife and daughter, of Fairfield, were recent guests of relatives in Ripley.

J. W. Pettit suffered a serious loss in the burning of his cider mill last week; by the activities of the bucket brigades.

Mrs. Wm. Simmons is confined to her home and bed with rheumatism. Her daughter Helen, a trained nurse of Bowling Green, is caring for her.

Word comes from our son, W. C. Catlin, Viola, Wyo., that snow was so deep March 26 that they had to shovel it away to get light into the windows.

J. A. McCullough came out of an accident in the Shelby tube works last Wednesday with a crushed nose and broken cheek bone; others were also hurt.

Along towards the last of May the Kipley household S. S. association will hold its 48th annual meeting, on Sunday afternoon and evening, date announced.

The Evangelical League of the Delphi church meets regularly bi-weekly. Next Sunday evening, April 22, will be the next meeting. Topic, Courtesy and Christian Grace.

Mrs. Nedra Devarler of Tiro, and David Casman of Shelby, were guests of the former's father, David Truxell of Delphi. Mr. Truxell has passed his 100th birthday and is yet around and care for himself.

All taxpayers in Ripley will find their bills at W. H. Hawkins' Ripley assessor, where they can view their personal and be sworn, free of charge, and otherwise helped by the assessor. The assessor will be paid 10¢ for each by the county.

C. C. Bevier and wife, who spent the winter in Florida, arrived home last Friday. They are getting acclimated by riding in the recent bracing Ohio atmosphere, greeting friends and viewing the scenic places in the best township in the world, the township of Ripley.

On Sunday evening, May 6, the W. F. M. S. will hold its annual entertainment and benefitting exercises; for which we have gleaned from reports this session will be featured with some very interesting and instructive exercises, as well as several selections of music, by some of our known soloists. Every body invited.

Two weeks more with the present will close another very successful year's work in the Ripley centralized schools. We have a splendid enrollment with a good average attendance, while the number of children have not missed a day during the year. The bacalaureate address will be delivered by Rev. A. R. Brown in the Congregational church Sunday evening, May 29. Graduation exercises in the Ripley church on Tuesday evening, May 30. The following are the members of the class of 1917: Mabelle Gleason, Berneice Leak, Vera Baker, Clarisse Tooker, Elsie Young, Allen Fidler.

STRONG EVIDENCE.

Is the Statement of This Shelby Woman.

Backache is often kidney ache; a common warning of serious kidney ills.

"A Stitch in Time Saves Nine"—Don't delay, use Doan's Kidney Pills. Profit by this nearby resident's experience.

Miss George Walker, 9 Earl avenue, Shelby, says: "I had dull, nagging backaches and I suffered from headaches and dizzy spells. I was restless and mornings I had no strength or energy. When I read about Doan's Kidney Pills, I took them. In a few days I was relieved of the aches and pains in my back, and I felt better in every way. Others of my family have taken Doan's Kidney Pills for similar troubles and have been benefited."

Price 50c. at all dealers. Don't miss this chance. Kidney remedies get Doan's Kidney Pill—the same that Mrs. Walker had. Foster-Milburn Co., Proprietary, Buffalo, N. Y.

In Memoriam.

TO OUR CLASSMATE—GERALD HOWELL.
Now fades the last long streak of snow.

Now burgons every maze of quick About the flowering squares and thick.

By a single root the violet blaw.

The flocks are whiter down the vale.

And milkier every milk salt

On winding stream or distant sea;

Where now the seamens pi's and dives

In yonder greening gleam, and fly

The happy birds, that change their sky.

To build and brood, that live their lives.

From land to land; and in our breasts

Are the seeds of joy and regret

Becomes an April violet.

And buds and blossoms like the rest;

Is it then regret for buried time?

That keenler in sweet April wakes,

And attracts the year, and gives and takes.

The colors of the crescent prime?

Not all; the songs, the stirring air,

The life re-oriented out of dust,

That which made the world so fair.

Not all regret; the face will shine

While we muse alone,

And that dear voice, we once have known,

Still speaks to us and ours.

Yet less of sorrow lies in us.

For days of happy communion dead,

Less regret for the past dead,

Than some strong bond which is to be.

CLASSE OF '17.

Lutheran Church.

The usual worship and sermon on Lord's Day morning. The subject will be a patriotic one. Just now it is well for every person to think and speak fearfully of the great matters that are engrossing the attention of the American people. Let us come together and help them over in the spirit of true patriotism.

Sunday school at 9:30.

The Lutheran League will meet at 6 o'clock and the subject will be "The Church's Care of the Sick."

The meeting last Sunday evening was a splendid success. Many people received as new members.

We are greatly gratified with the interest the young people are taking in this good work.

Come in next Sunday evening and learn something about Christ's way of regarding the sick. This is surely something practical.

Methodist Notes.

The Communion Service will be held Sunday morning. This is one of the most important services of the church. Every member ought to be present. In the evening a union temperance meeting will be held in the Lutheran church to be addressed by Attorney Jarvis of Mansfield.

The combined second and third yearly conferences will be held Monday morning, April 24, at nine o'clock. Every official member of the church is urged to be present.

The District Conference and the Efficiency Conference for this sub-district will be held at Collins, Ohio, Tuesday and Wednesday, May 1 and 2.

The officials of the churches are urged to attend these efficiency conferences. They are planned especially that every church may be fitted.

The parcel post sale and social has been postponed probably to Tuesday evening, May 1st, in order that you might be informed about it and have time to make plans for that evening.

Therefore it is suggested to make plans to be present. Every woman of the church is asked to furnish the articles, each valued at 10 cents or more. Do it now, rather than wait till May 1.

Clear Your Skin in Spring.

Spring house cleaning means cleaning inside and outside. The dull, pimply skin is an aftermath of winter intimacy. Flush your intestines with a mild laxative and clean out the accumulated wastes. Do not drink beer, do not smoke. Dr. King's New Life Pills will clear your complexion and brighten your eye. Try Dr. King's New Life Pill tonight and throw off the sluggish winter shell. At drug-gists, 25¢.

How to Escape Potato Bugs.

"Potato bugs do not become really active until we have had several days of real warm weather," says H. James King, who is well known as authority on Michigan bugs.

Hence, if the season is late and the ground cold, like the season of 1916, potatoe should be planted late. If this is done, there will be little loss from potato bugs," continues Mr. King.

This is a great tendency this year to plant potatoes before the ground really warms up.

Potatoe are apt to rot or to be eaten by late frosts when planted in cold ground. Potato seed at \$3.00 or 40¢ a bushel is too valuable to plant in cold ground. Wait until the ground is 6 to 8 inches deep in a well prepared, well manured and fertilized soil.

Henry and Joanna Joldersma to Frank Buurma, 32 acres New Haven, \$1,000.

W. H. Gaskill to Laura Gaskill, lot 142 74 acres, New Haven, \$7,000.

W. H. Gaskill to H. A. and Sarah Knight, lot, Plymouth, \$3,500.

Smith and Harriet Lofland to Andrew Myers, 33.35 acres, Ripley, \$1,600.

Harry S. and Frances J. McLaughlin to Murry C. Hunter, 40 acres

Henry and Joanna Joldersma to Frank Buurma, 32 acres New Haven, \$1,000.

W. H. Gaskill to W. H. Gaskill, 32 acres, Plymouth, \$3,500.

A Feminine Friday Function.

"Friday the Thirteenth" will no more have terror for at least one young woman in Plymouth.

This young woman is Mrs. Paul Hedrick (nee Fern Shepherd), for on Friday evening, the 13th of April, one of the happiest events of her life occurred.

Mrs. Spear and Mrs. Fleming invited a company of about thirty neighbors and friends to participate in a neighborhood shower, at their home in honor of Mrs. Hedrick, and right smartly did every one respond, each carrying a mysterious bundle something for the new home in Monroeville, Ohio.

A gay social time with music was followed by the opening of the packages by Mrs. Hedrick, who was a little excited and very happy.

The gift basket, very nice—fit to grace a wedding—goes without saying and that Mrs. Hedrick holds an enviable place in the hearts of "home folks" is quite evident.

Her absolute cheerfulness and thoughtful outlook on life are traits best known to those who have longest known her, and she goes to her new home and new field of action in no wavering and unprepared way, and leaves not the least apprehension behind her.

Mrs. Fleming served light refreshments, amidst floral decorations and wedding bells and a delightful episode closed.

Automobile Kills Bull.

Mr. R. Fenner, bookkeeper at the J. E. Weis garage in making a lively trip to Attica Monday, at 1:30 noon with a head-on collision when a bull was on the public highway when a bull ran into his light Buick six at the farm of Emory Crum about four miles north of New Washington.

Fenner stopped at the wheel, driving at his usual rate of speed, and approaching the Crum farm noticed a boy driving the animal to its place in a yard, where it had previously made its escape, and not exceeding 100 feet, turned about into the road as it did a moment ago, making a dash for the car. Mr. Fenner at once applied the brakes on his machine, and slid the car for 69 steps, and struck the animal on its left side, breaking its two rear legs, after which it fell and laid dead.

It came to a standstill. It was then decided to back the car off the beast so that its throat could be cut, after which it was immediately taken to the butcher, Wm. Kissel.

Mr. Fenner, the driver, miraculously escaped injury, excepting that he witnessed the best seat of his life brought forth by a creature of this kind.

Mr. Fenner is a member of the church.

The District Conference and the Efficiency Conference for this sub-district will be held at Collins, Ohio, Tuesday and Wednesday, May 1 and 2.

The total number of deaths in Richland county in 1916 was 669. In 1915 the number was 671. The average death rate for the county during the past three years is slightly less than that of the state.

Total births in 1916 was 1076, as compared to 919 in 1915. This is also slightly less than that of the state.

The rate of illegitimate births for the past three years is shown to be 40 per cent less than the rate for the entire state.

The report of the examiner speaks highly of the efficiency and methods of the county registrar and records as maintained are held to be second to none in the state.

Real Estate.

Cemetery trustees to J. P. Bevier, lot 2, Plymouth, \$45.

U. B. Mickey, executor, to Lowe Holt, 90 acres, Plymouth, \$1.

Died of Premature Old Age!

How many times we hear of comparatively young persons passing away when they should have lived to be 70 or 80 years of age? The work is mainly attributed to the kidneys, and when the kidneys degenerate, it causes auto-intoxication. The more injurious the poisons passing thru the kidneys the quicker will those noble organs be degenerated, and the sooner they will die.

It is this the wisest policy, to prevent premature old age and promote long life, to lighten the work of the kidneys. This can be done by drinking plenty of pure water all day long, and occasionally taking Arctic double strength tablets. These tablets can be obtained at almost any drug store. You will find Auriac more potent than Lithia for it dissolves uric acid as water does sugar.

A Buffalo Woman Advises Mothers

Buffalo, N. Y.—"During expectancy I took Dr. Pierce's Favorite Prescription and found nothing to hold me as it did. It kept me well all of the time. I was well advised, all prospective mothers to use Dr. Pierce's Favorite Prescription."

MRS. M. MEIER, 282 W. 23rd Street, New York City, writes: "I take Dr. Pierce's Favorite Prescription with great benefit. It has been a favorite with women for nearly fifty years because it contains no alcohol or any narcotics. It is put up in both small and tablets and may be found in almost any drug store."

If not obtainable at your dealer's send \$1.00 to Dr. Pierce, Invalids' Home, 200 W. 11th St., and he will mail large packages of the tablets, or send fifty cents for smaller size.

**INFLUENZA**

Catarrhal Fever
Pink Eye, Shipping Fever, Epizootic

All and diseases of the horses affecting the heart, lungs, kidneys, colts and horses in stable, kept from having them by using Speck's Distemper Compound, 2 to 6 doses daily. The compound is also good for brood mares, colts, stallions, all ages and conditions. Baby colts, stallions, all ages and conditions, 10 to 12 doses. Any druggist or dealer can supply you with Speck's Distemper Compound.

Academically Defined.

The practice of mathematics in the college had been made difficult by the problem of subsistence upon a small salary beset him sore. He and his wife put into effect all sorts of economies and efficient methods to make ends meet.

"Did your wife help you to save?" a friend inquired.

"Indeed she does," replied the professor. "In fact, I might call her my co-efficient."

Right.

Teacher—What is the capital of France?

Johnnie—Guess they haven't got any.

Dad says they're in debt to beat the cars.

A fish diet may not strengthen the brain, but a little fishing trip invigorates the imagination.

Makes Hard Work Harder

A bad back makes a day's work twice as hard. Backache usually comes from weak kidneys, and if headache, dizziness, ulcers, diarrhea, etc., are added don't worry—help before the kidney disease takes a grip—before dropsy, gravel, kidney disease sets in. Dean's Kidney Pills have brought relief and new strength to thousands of working men and women. Used and recommended the world over.

A New York Case

S. E. Mason, 125 W. 57th Street, New York City, writes: "I think heavy kidney trouble brought on a spell of backache. I hardly 'slept up' on account of the pain that struck me in the small of my back. My kidneys were sorely and the kidney secretion was bad. Dean's Kidney Pills have relieved my backache and I am very grateful."

HOME BEAUTIFUL
Flowers and Shrubs
Their Care and Cultivation

Plant Grapevines.

PLANT GRAPEVINES FOR BEAUTY

To me the wild grapevine produces the sweetest odor of any plant in existence. The wild grapevines hardly vines growing with scarcely any attention. It can be made to cover a side fence as a dense hedge, or trained over a trellis or up trees.

Young plants may be secured in almost any wood or along bushy fence rows. Wild vines are easily trained or woven in with other vines.

Grapevines of every description are attractive, however. The blue grape with its wealth of luscious fruit should find a place on the home grounds.

FOR THE AMATEUR GROWER

By LIMA R. ROSE.

Flowers should have a reliable, very fertile soil in which to grow. They often make a brave display in rather poor soil, but they appreciate care.

Do not plant flower plants too close together. Verbenas should be at least 18 inches apart; petunias the same; zinnias 12 inches; marigolds 2 feet; impatiens 10 inches. If flowers are too close in the bed they will not thrive for growth nor will the flowers be large and plentiful.

Keep flower beds out of the center of the lawn. They show better effect if used as borders for walks and paths on the sides of the lawn.

Do you want a soft, thick turf on your lawn? If so, now often with a lawn mower and let the clippings where they fall. They will soon settle in the grass and after awhile they will make a cushiony soft coat, which keeps the soil from drying out too much and fertilizes it as they grow.

If the lawn is little bare, fill in depressions a little at a time with a fine garden soil. Put half an inch of soil on at a time, and let the grass grow through it before putting on any more. In this way a lawn can be made quickly, the course of a season or two without being torn up and lying bare for months.

Do not plant shade trees too near the house. Give the air a chance to circulate round and through the house. Set the trees so as to shade windows during the hottest hours, if you want them shaded, but never close enough

to prevent the air from entering the windows freely.

It is a mistaken idea that ivy vines keep the house damp. They keep it dry, as the little suckers, which cling to the walls, suck the moisture from the walls instead of attracting it to them.

Young plants may be secured in almost any wood or along bushy fence rows. Wild vines are easily trained or woven in with other vines.

Grapevines grow very easily from seeds as do most plants. Place the seed in very fine soil in a box, covering the box with glass, or better, yet muslin stretched over a frame. Give the little plants plenty of air as soon as they begin to throw out the third leaf. Most interesting varieties may be grown in this way.

I like to see flowers about a house and doorway. I do not remember to have ever seen an anarchist wearing a buttonhole bouquet or a very busy citizen whose house and yard contained flowers.

Balsams show to best advantage with their sides exposed. Pinch off every side branch, and the single stalk left will be completely covered with a mass of bloom.

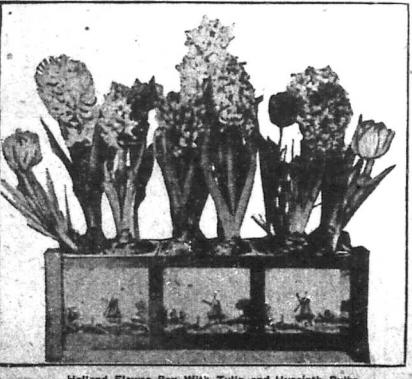

All flowers keep in bloom much longer and the flowers are larger, if not allowed to form seeds. Pinch them off soon as it begins to fade. This is especially true of sweet peas and pansies.

Flowers keep in bloom much longer and the flowers are larger, if not allowed to form seeds. Pinch them off soon as it begins to fade. This is especially true of sweet peas and pansies.

Plant the tulips root in this and plant in the tub; fill with water until it is two or three inches deep over the root. When the growth commences and the leaves appear, water may be added from time to time until the tub is full. Never change the water, simply replace that which evaporates.

As a locomotive puffs, the ear can count up only to ten a second—that all that is heard is a continuous roar.

An exhibitor of Italian design fits on the edge of the breakfast plate,

Holland Flower Box With Tulip and Hyacinth Bulbs.

He's telling her that nothing he received from home brought more joy, longer-lasting pleasure, greater relief from thirst and fatigue, than

WRIGLEY'S
THE FLAVOR LASTS

She slipped a stick in every letter and mailed him a box now and then.

Naturally he loves her, she loves him, and they both love WRIGLEY'S.

CHEW IT AFTER EVERY MEAL**Three of a kind****Keep them in mind****Life Preservers Improved.**

Submarine warfare has resulted in numerous improvements in life preservers and the buoys. The passengers on any ship that sails the Atlantic today are likely to find themselves in a position to be rescued by a life preserver or buoy.

It is a common idea that ivy vines keep the house damp. They keep it dry, as the little suckers, which cling to the walls, suck the moisture from the walls instead of attracting it to them.

Young plants may be secured in almost any wood or along bushy fence rows. Wild vines are easily trained or woven in with other vines.

I like to see flowers about a house and doorway. I do not remember to have ever seen an anarchist wearing a buttonhole bouquet or a very busy citizen whose house and yard contained flowers.

Balsams show to best advantage with their sides exposed. Pinch off every side branch, and the single stalk left will be completely covered with a mass of bloom.

All flowers keep in bloom much longer and the flowers are larger, if not allowed to form seeds. Pinch them off soon as it begins to fade. This is especially true of sweet peas and pansies.

Do you want a soft, thick turf on your lawn? If so, now often with a lawn mower and let the clippings where they fall. They will soon settle in the grass and after awhile they will make a cushiony soft coat, which keeps the soil from drying out too much and fertilizes it as they grow.

If the lawn is little bare, fill in depressions a little at a time with a fine garden soil. Put half an inch of soil on at a time, and let the grass grow through it before putting on any more. In this way a lawn can be made quickly, the course of a season or two without being torn up and lying bare for months.

Do not plant shade trees too near the house. Give the air a chance to circulate round and through the house. Set the trees so as to shade windows during the hottest hours, if you want them shaded, but never close enough

to prevent the air from entering the windows freely.

Better be selecting our May Queen.
Sweet music at Judson's Drug store.

Bulk garden seed at Judson's Drug store.

Would you believe it? April three-fourths gone.

Kids will soon be looking up the old swimmin' hole.

Base Balls, Bats, Gloves, Mitts, etc. at Judson's Drug store.

Eggs are keeping neck and neck with wheat and hogs.

Cheer up—war is sometimes the shortest road to peace.

Isn't it about time to look after that annual spring clean-up?

Weather reports do not make interesting reading these days.

Rather discouraging for those who wanted to make early garden.

A few warm showers now would hasten along the wheat and grass.

The early bird has been getting a pretty cool woorr these mornings.

Born—To Mr. and Mrs. John Noble of Ripley, Monday, April 16, a son.

Floyd Major has gone to Cleve-land, where he has taken a position.

Garden seeds are in great demand, dealers reporting sales the largest ever known.

Twenty-one days of April have been counted out. Most of 'em were shivery ones, too.

This begins to feel a little more like it. But we would advise you not to shed 'em yet.

For Sale—An excelsior motorcycle, must be sold by 1st day of May. Enquire of Earl Shely.

The weather warms up the attendants shrub school along the banks will increase.

If its true that children get their growth while asleep, it's no wonder some babies grow so slowly.

The Music and Study Club will meet Tuesday evening May 1st, at the home of Mrs. A. E. Willett.

Harold Ruckman was here last week and packed his household goods to East Akron, where he holds a railroad position.

To Rent—Lower rooms in my residence property on Broadway, and which also includes large lot. Enquire of Mrs. C. P. Hunkamer.

Shade and fruit trees are beginning to put forth their buds and in a few days more their naked limbs will be arrayed in a new garment.

A. C. Hass and family have moved to the new residence property on Broadway to the Harold Ruckman property in the Cuykendall addition.

So far as far as we can see, they have been conspicuous by their absence upon our streets for the past week, all hustling to get in their spring crops.

The graduating class of boys of the New Washington high school will appear in National colors on graduation night. They selected red ties, blue coats, and white trousers.

You only have eight days more, with which to pay off your personal property tax list. Otherwise, you may not get your exemption and be liable to the 5 cent per cent penalty.

Mr. Poultry Raiser—Let me brood those chicks of yours for 30 days without one cent of expense to you. Write or phone C. L. Beal, 110 South St., Shelby, Ohio, phone 438X.

"Burr" Kappenberg is wearing a patch over his left ear, not as a result of an encounter with any person, but rather from every day bram-bush which had the misfortune to run in his eye.

Bert Anderson, who holds a position with the B. & O. at Zanesville, was here last week and packed his household goods for shipment to the above place, where he and his family will make their future residence.

Twenty members of the Masonic order from this place and seven from Shiloh awoke to North Fairmont Saturday morning, having been witnessed inspection and were afterward treated to a chicken pie supper.

The Woman's Home Missionary Society of the M. E. church will meet with Mrs. Ames Wednesday noon, April 25. All members are requested to bring their mite boxes, this is the annual mite box opening.

An important piece of legislation just now through in Ohio is the changing of the time of granting liquor licenses from October until May. This, it is claimed will remove the saloon a little further from politics by not having the granting time so near the fall elections.

The old saying of "when goes up must come down," will really hold good in the present time, as food still keeps soaring upward and all indications are that it will keep on going up, and if it ever does drop it will be so deliberate as to be hardly noticeable.

While preparing a tire to put in a wheel, I experienced a pain just after dinner Wednesday. Frank Caldwell had the misfortune to cut a deep and lengthy gash in his left hand just back of the thumb and first finger, requiring the services of Dr. S. S. Hill and a few stitches. The knife was one of those pointed affairs and as it slipped from the tube caught his hand, with the above result.

A pretty girl never needs to look in her mirror. The bald heads tell her the story.

Coop & Lenf's Enormous Show is billed to start at Norwalk Thursday, May 10.

Fostoria Rug Man wants your old carpet to ship next Wednesday Phone Advertiser office.

We ought to see one of those old fashioned Saturday night crowds at the wind up of the week.

This office is under obligations to F. D. Gainsulus for a copy of the St. Petersburg (Fla.) Daily Times.

Will pay highest market price for old lead delivered at our factory.

THE J. D. FATE CO.

Bakers of Mansfield have discontinued baking the five cent loaf and the price of the ten cent loaf has been raised to twelve cents.

At the union remembrance meeting to be held at the Lutheran church Sunday evening T. B. Jarvis of Mansfield, will deliver the address.

I will sell my square piano for \$20. It can be used for practice for years to come. A bargain for some one.

Jean Stewart Seville.

You might begin to look up your last season's discarded straw hat. No doubt but what they have gone away up in price as so many were used over in the trenches.

The advertiser was misinformed last week in regard to Sam Cain and family taking up their residence with his mother. The occupancy is portion of the Faile Case residence.

The folks in front of the Taylor seed store and the Balston Hardware store, which had become very much out of alignment, have been taken up and relaid, making a very decided improvement.

Lester Pickering left Monday for Silwell, Oklahoma, where he will assume charge of the merry-go-round of the Hotel Greater 14 car show, which will tour the western and northern states this coming summer.

W. W. Starr, for twelve years foreman at the steel works, resigned, to be effective May 1. He will head the police department of the Tube Co. at Shelby. Floyd Tucker will succeed him as policeman of Shelby.

Chas. West, assessor of Plymouth township, precinct "B," will be at Clark Bros. grocery (today) Saturday evening at 8:30 o'clock from injuries sustained in collision with an automobile in Shelby at 4:35 o'clock Saturday afternoon until May 1 to meet the taxpayers of said precinct, in regard to making out tax returns.

David Earl Jones, aged 29 years of Shelby, employed at the tube works, died at the Good Samaritan hospital in Marion, Saturday evening at 8:30 o'clock from injuries sustained in collision with an automobile in Shelby at 4:35 o'clock Saturday afternoon until May 1 to meet the taxpayers of said precinct, in regard to making out tax returns.

As one of the war preparations "town folks" are asked to spend their vacation on the farm and assist in the work. All right, the editor does not know whether he can hitch up a horse, milk a cow, plow or pitch hay, but he can ring the dinner bell and live on chicken, ham and eggs.

Our forefathers could not afford to give up again, this is no place for them. High prices would bankrupt them, political rotteness would stagger them, the greed of gold would nauseate them. No, this is no place for our forefathers, good, honest soul's that were.

Mrs. Sarah Burritt, who died at her home in Huron, will be brought here over the B. & O. at 3:25 this Friday afternoon for interment in Greenlawn cemetery. Deceased was a sister of the late Mrs. Daniel Kirkpatrick, and made Plymouth her home for a great number of years.

The Ohio winter wheat crop is up to record, though not record breaking, to a report of the Department of Agriculture. The Ohio winter wheat crop is rated at 80 on April 1, as against a ten-year average of 80.

That this year's crop is much better than last is accounted for by the fact that the growing of the Ohio crop on April 1, 1916, was only 66.

Thirty-five years ago Thursday, April 19, words were pronounced which united Mr. and Mrs. M. Rogers in the bonds of matrimony, and to celebrate the event they invited a few of their near relatives, friends, neighbors and others. William Brewster of Cleveland, and Mr. and Mrs. Joe Osker of Mansfield, to a family dinner to help commemorate the occasion.

Farmers hereabouts make no apology for their deficiency in the knowledge of political science, leaving that department to professors who know less than they do about it.

Well informed with the Federal Bureau of Investigation, the supply of foodstuffs for the year 1917, and all hope the war in Europe will end before the whole world goes mad with the desire to increase human slaughter.

The Sandusky, Norwalk & Mansfield electric line will have a new schedule operative between Shelby and Huron, effective April 1. The first car will leave Shelby at 5 o'clock in the morning, the next at 6:30, and then every two hours until 10 o'clock at night. The Mansfield & Shelby line will not be affected, but there will not be very much of a wait according to the schedule as it has been arranged.

Laundry for Sale—On account of health and advice of physician am obliged to give up the work, and therefore will sell what is known as the "Banner Laundry." Will give those same to whom I can trust them to buy. HARRY J. HENNING.

Tax blanks for that part of Plymouth village lying in New Haven township, can be secured at Shadis, the assessor, at the electric depot.

Also with each blank there is a sheet of instructions which will tell how to fill out the blank.

For that part of Plymouth town blank and instructions can be obtained at the Clark Bros. Co. Grocery.

Virgil N., the twenty-year-old son of Mr. and Mrs. Edward Ross, residing in Ripley township, recently was a victim of tuberculosis, died at the family home Tuesday. Funeral services were held from the home Thursday afternoon at 1:30 o'clock, conducted by Rev. Charles Mott, in the burial ground in Greenlawn cemetery. The sorrowing friends and other relatives have the sympathy of many friends.

Numerous flour mills over the country have been obliged to close down on account of not being able to get wheat, even at the advanced price of \$1.50 a bushel, to keep the mills in operation.

Flour, too, is advancing by leaps and bounds, and bakers soon will have a hard time keeping a ten cent loaf from failing through the hole in delivery baskets. And yet the secret of agriculture tells us there is no food surplus.

Norwalk is to have a new modernly equipped high school which will take its place among the finest to be found in any city of its size in the United States, and one that will take care of the educational needs of the city for years to come. This was the opinion of Mr. W. H. Nichols, president when a special election was held to determine whether or not bonds to the amount of \$160,000 should be issued for the purpose of improving the school system.

Thousands of acres west of Perryville, which a rival gas company had under lease for a term of years and which had been held by the Logan company about two years ago and is now proving to be the best gas-producing field in Ohio. A well was drilled in on the Oswalt farm in that locality last week, which is reported to have over 1,000,000 cubic feet daily. The Logan company has drilled about a dozen wells in that field, all of which have a capacity of from \$3,000,000 to 10,000,000 feet. On some of the farms there are three good wells and the company has not struck a dry hole in the entire territory.

An announcement has been received from Boston to the effect that a receiver has been appointed for the supreme council of the Royal Arcanum by the federal courts. The receiver is Thomas J. Boynton, former attorney general of Massachusetts and a member of the Boston bar, a past president of the Boston Bar Association.

As one of the war preparations "town folks" are asked to spend their vacation on the farm and assist in the work. All right, the editor does not know whether he can hitch up a horse, milk a cow, plow or pitch hay, but he can ring the dinner bell and live on chicken, ham and eggs.

Our forefathers could not afford to give up again, this is no place for them. High prices would bankrupt them, political rotteness would stagger them, the greed of gold would nauseate them. No, this is no place for our forefathers, good, honest soul's that were.

Sprains and Strains Relieved.

Sloan's Liniment quickly takes the pain out of strains, sprains, bruises, and all muscle soreness. A clean, clear liquid easily applied, it quickly penetrates the skin, and Sloan's Liniment does not stain clothes. It also clogs the pores like many plasters or ointments. For chronic rheumatic aches and pains, neuralgia, gout and lumbago have this well known remedy handy. For the pains of grippe following strenuous work, it gives quick relief. At all druggists. 25c.

Men's and Boys' Up-To-Date Outfitters.

Announcing
A Money Saving Service to All Auto Owners.

THERE has opened up in Plymouth a shop where any kind of a pneumatic tire—in almost any condition can be put back in running order—good for more miles of hard road service.

And if the tire isn't worth repairing, we tell you so—if it is and we fix it—that repairs it.

Unconditionally Guaranteed

The plant which we have installed is the best make that money can buy—it is designed to repair successfully any "fixable" injury on a kind of tire from 21-in. motorcycle to 54-in. auto tires. And our workers have learned the tire repair business in the local shop of the manufacturer. They boast that we can get and the best practical training to be had, put us in a position to produce the best tire work that can be done.

Remember! We guarantee every nickel's worth of work we do:

CLEAR ALL SHIPPLANES

Open Course of German Submarine Menace.

Plans Are Laid at Joint Meeting of United States and Allied Officials to Combat Common Foe.

Washington, D. C.—"Clear the greatest banks of the German submarine menace," was the course determined upon after the first joint war council since the United States entered the war. A British and French admiral came to Washington and with the heads of the American navy they planned a campaign to be made by which if the fleet of the United States will aid the entente navies against the common enemy. Details of the naval operations, shrouded behind a deep veil of secrecy, will not come out publicly until after the war is over for several days. America's part in the naval end of the war, it was announced at the navy department, will be to aid in keeping the ocean highways clear as possible for the continuous flow of men and supplies to the British and the fighting forces in Europe.

The British and French admirals brought their staff officers to Washington with them and they conferred with Secretary of the Navy Daniels, Admiral Sims, other high officials and Commander Pohl of the state department. They spent the day going over American naval plans and they reviewed the coast patrol arrangements with Capt. H. D. Wilson, charge of the coast and harbors division, charged with patrolling the waters and coast line along the Atlantic. The visiting admirals worked out a complete plan of naval co-operation, which will include the relief of entente naval ships now on patrol duty on the side of the Atlantic by American ships.

MEN ENLIST, THEN ARE KISSED BY THREE GIRLS

Cincinnati, O.—C. J. Hudson of 114 West North street, Covington, Ky., became a member of the First Ohio field hospital Thursday at noon. His friends did not consist of being tossed in a blanket or running the gauntlet.

Hudson had an entirely different sort of entry into military life. A resounding smack full upon his lips was delivered by three girls who had been sent from the application blank. The smack was the first shot in a charge led by three pretty young women, Misses Evelyn Des Roches, Jane Ebert and Gertrude Douglas.

Miss Des Roches won the race and planted the initiant kiss upon the blushing Hudson. J. N. Syders of State avenue signed his name so quickly thereafter that the recruiting officer wondered what had happened. Miss Ebert bestowed her reward, and as they came and signed and were kissed.

The young women are members of a theatrical company. They wanted to "do their bit," they said, and arranged with the recruiting agent at the Field hospital to have them appear between 12 and 1 p. m.

OHIO GERMAN SOCIETY SUSPENDS ACTIVITIES

Toledo, Ohio.—The German Historical Society of Toledo has voted to suspend all further meetings and activities indefinitely, because of the state of war between the United States and Germany.

William Renz, member of the society, said:

"It is now a question of being pro-German or American. And of course members of the German Historical society are American, and stand ready to prove their loyalty to our side."

Boy Admits Applying Torts.

Alliance, O.—"I heard the people saying they wanted a new school building, so I tried to help them by burning the old one," said William Scott, 20, son of Thomas Scott, founder of the Scott Aircraft Company, by Deputy State Fire Marshal William B. Matthews. Matthews says the boy seamed wood in oil and placed it under the Fairmount school and ignited the blaze which soon extinguished it.

British Red Cross Beats Sun.

London, England.—The British hospital ship Gloucester Castle was torpedoed without warning in the English Channel March 30, and April 10 the hospital ship was sunk. Four sailors in the crew were killed and suffering from exposure, were picked up by the steamer. The captain and the cook died in an open boat.

All the wounded on the Gloucester

Castle were saved. There were no survivors of the crew.

A German wireless dispatch of April 11 says the Gloucester Castle was torpeded by a German submarine.

MRS. HORACE M. TOWNER

The Congressional club of Washington, connected with the House of Representatives, has elected Mrs. Horace M. Towner of Iowa, whose husband is a member of the House, president of the club to succeed Mrs. Charles Pommeroy. Mrs. Towner is one of the most popular matrons in the congressional art.

LENS FALLS TO BRITISH

Pride of France's Coal Industry Captured.

First Great Material Blow Germans, Capture of City Following a Terrific Clash of Arms.

London, Eng.—Lena, the pride of France's coal mining industry, has fallen to the British.

Soon after dawn Sunday morning the Canadians ushered in the seventh day of the terrible battle of Arras by crushing the Teuton defenses guarding the city in St. Douglas Haig's nutcracker. Its loss means the first great material blow to the Germans who, since October, 1914, had extracted from the "black country" as the English call it, some 100 million tons of coal, tiding the fatherland over the gravest economic crisis in the early stages of the war.

Fall of Lena came as a climax of a double defeat of the Teutons. For after a terrific all-night drum fire launched a formidable assault upon a front more than six miles, astride the Bapaume-Cambrai railroad.

It was a furious, though vain, attempt to hold back the irresistible tide of the British.

France has sprung to the side of Great Britain and buried every ounce of long-accumulated strength and a world of embittered determination into a drive that is to clear the republic's soil of the invader.

More than 14,000 prisoners have been taken by the British since the beginning of the new drive a week ago. Among the booty taken are 194 guns.

YOUNGEST BROTHER OF JOHN D. IS DEAD

Cleveland, Ohio.—Frank Rockefeler, youngest brother of John D. Rockefeller, died yesterday in the Hollenden hotel in this city.

Death was due to exhaustion which followed slow convalescence from an operation performed at Charity hospital several months ago.

Frank Rockefeler's life was his polished hat for his multimillionaire brother. From the beginning of the estrangement in 1898 until his dying moment, he never tolerated a charitable thought for John D.

American Schooner Is Sunk.

Halifax, Nova Scotia.—Radio messages received here from an oil tank steamer said the American schooner H. H. Moore had been sunk. Four sailors in the crew were killed and suffering from exposure, were picked up by the steamer. The captain and the cook died in an open boat.

The steamer reported she was bringing the survivors to this port, but gave no information concerning the cause of the sinking.

Steaming reports show that the schooner left Perth Amboy, N. J., March 23, for St. John, N. B.

CALLS ALL TO U.S. AID

Executive's Proclamation to American People.

President Says: 'The Supreme Test of the Nation Has Come; We Must All Speak, Act and Serve to Protect.'

PRESIDENT WILSON CALLS WHOLE NATION TO WAR SERVICE.

To do this great thing worthily and successfully we must devote ourselves to the service without regard to profit or material advantage.

These are the things we must do and do well besides fighting—the things without which we could not be successful.

We must supply abundant food for ourselves and for a large part of the nation whom we have now made causes.

We must supply ships by the hundreds to carry to the other side of the sea, supplies and medicines, what will every day be needed there.

Our industries on the farms, in the shipyards, in the mines, in the factories must be made more prolific and more efficient than ever.

The industrial forces of the country must be mobilized, must be made national, a great international service army.

The supreme need of our own nation and of the nations with which we are co-operating is an abundance of supplies and especially of foodstuffs.

Upon the failure of this country in large measure rests the fate of the war and the fate of the nations.

The industrial forces of the farmers of the south to plant abundant foodstuffs as well as cotton.

The government of the United States and the governments of the several states stand ready to co-operate.

There shall be no unwarranted legislation or regulation imposed by those who handle it on its way to the consumer.

To the merchant I urge the greatest possible profits and quick service.

Every one who creates or cultivates a garden helps.

Every housewife who practices strict economy must save the ranks of those who serve the nation.

The supreme test of the nation comes now.

"We must all speak, act and serve together."

The president declared that while the war is not yet over, the great offensive war footings and a great army is about to be created and equipped.

"And the supreme need for American men is emphasized by the president, who declared that they must be supplied not only for the United States and its allies but also for a large part of the world.

MAN POWER ON FARM EXPEDITED

BY ORGANIZATION OF STATE FOR FOOD SUPPLY—CONSERVATION IS URGED.

STATE FOOD COUNCIL NAMED

Threatened Starvation Must Be Met—Cox's Proclamation Call on Consumers in Each Ohio County To Choose a Conservator.

Western Newspaper Union News Service.

Columbus.—First steps in setting up the state organization which is to work with agricultural interests in bringing about a large food production have just been taken by state authorities. Plans for process of execution are the most important, and they have been tried in the state and embraced all lines of activity relating to industry in food production and conservation.

The formulation of an organization which will supply the farmer the man power which is needed so badly was put under way yesterday, and the asked the Boards of County Commissioners in every county in the state to name a man who is to be a food commissioner to work with other agencies. These county men will, in turn, select a conservator who will have the benefit of state aid and supervision. The headquarters of the organization will be in the rooms occupied by the State Budget Commissioner in the Capitol. The Budget Commission will be transferred to the office which will be occupied by the State Oil Inspector.

With the organization of the state down to the township and with the activities of all sorts of associations, the bringing of man power to the task will be expedited. A farm and industrial commission will be established, with branches in various districts, which are being laid out with special reference to industrial and commercial relations.

There also is to be named by the Governor a special Food Council, which will co-operate with the Federal commission in its work. Later in the summer, after the crops are under way, the Food Council will be asked to take charge of a propaganda for preservation of foods. One of the suggested means is a campaign for canning by housewives on an extent hitherto unequalled in the history of the state.

State Master Taber, of the Grange, issued a statement as an appeal to the Grangers to respond with all their power in assisting in bringing about a large planting campaign, and also urged that young men on the farm be exempted from conscription in the event that it is resorted to.

OPINION WILL BE SOUGHT

From Attorney General Regarding Effect of Blunder in Printing of Road Act.

Columbus.—Atty. Gen. Joseph McGhee will be asked to render an opinion as to the effect of the printer's blunder in printing the 1917 White-Red road act, which, it is feared, may have the effect of abolishing the State highway Department. The matter was given careful study by attorneys, including Charles H. Duncan, counsel for the Ohio Good Roads Federation.

During the time he had found decisions of courts covering the same case and said he did not doubt what would sustain the present act, because it is very easy to ascertain the intent of the General Assembly.

Through the publication of the error in the White-Red road act, search was instituted in the state for mistakes. The net result was the discovery of an error in the act providing for financial relief for cities.

FOR 100,000 IN RED CROSS.

Cleveland Seeks To Have Largest Chapter in World.

Cleveland.—As a part of the Cleveland Chamber of Commerce campaign for 100,000 Red Cross members, giving Cleveland the largest Red Cross chapter in the world, Cuyahoga county's Democratic organization has started a movement to obtain 10 Red Cross members in each of the 469 city precincts. A year's membership in the Red Cross is \$1.

Farming Declines Post.

Columbus.—Judge H. L. Fernandes of Dayton has declared the position of assistant Judge Advocate general of the Ohio National Guard, which recently was offered him, and he will remain in his position as appellate judge.

George Ewing Named.

Columbus.—First of the long list of post-legislative appointments which were to be made came forth when Gov. James M. Cox named George Ewing, of Lancaster, former member of the State Board of Pardons, as member of the State Civil Service Commission to succeed Samuel D. Webb, of Athens, county, who was one of the original active workers in the True Democratic Party. The Republican appointment has not yet been "made," but gossip continues that Representative A. O. Flamm will get the place.

WHEAT OUTLOOK NOT GOOD

Improve Some in State, But is Much Below an Average Crop Prospects Also Hit.

Columbus.—Conditions of wheat in Ohio was far from encouraging according to the state board of agriculture which just issued its statement. With regard to the prospects for the food purchases are very sorry. The present condition is only .8 per cent of a ten-year average, and if the crop matured on that basis the production would be only 10 bushels per acre, or less than per cent of the 1916 crop is in production hands. The fruit prospects are 77 per cent. The board's summary of rural conditions is as follows:

"As stated in previous reports wheat seeding was very late owing to the continued drought. When it was sown in winter it was found that the plant had not attained strong set and sufficient growth to withstand the rigid winter. However, the winter on the whole was quite favorable. While there was no doubt some killing by being frozen over, there was no alternate freezing and thawing to upheave the wheat roots, and there was a fair amount of snow protection during the needed periods. The wheat roots remained in the ground and while it is too early to show early green and strength, there may be sufficient root vitality to bring out fields that now are brown and seem winter killed."

"On March 1, from general appearance, the wheat condition was estimated at 72 per cent of an average, but it was believed then that under fair weather conditions an improvement would be shown in the next two months."

"The fruit buds winter killed apparently wholly to peach plums and cherries, and the condition of the remnant of correspondents varies somewhat. No doubt there has been some killing of the fruit buds, but the extent can not be fully determined at this time because conditions vary greatly even in immediate localities."

GOVERNOR GRANTS PARDONS

To Prisoners After Hearing Stories From Lips of Men Upon Visit to Penitentiary.

Columbus.—Governor James M. Cox visited the Ohio penitentiary to hear the stories of the applicants who had been recommended by the wardens for pardon. In all, 100 inmates were given an opportunity to tell their cases in person to the governor. The result was several condition pardons and two rejections. Joseph F. Curl, Greene county, homicide, serving since 1901, was pardoned on condition of abstaining, staying off, and no resort to weapons. A conditional pardon was likewise given to Edward Hine, a Columbia county prisoner, who tearfully asserted his innocence. He must return to care for his aged parents who still live near him. In the case of Colomer Basile, who has served seven years for second-degree murder, arrangements were made for his return to his family in Italy.

The three refused clemency were Joe Harrison, Montgomery county, serving 10 years for robbery; William Cooper, Franklin county burglar, and Harry Howard, Toledo pickpocket. Columbus.—Approval was lent by William Jennings Bryan to the state Democratic Red Dry Foundation that its war measure, the Federal Government close all saloons and prohibit the manufacture of alcoholic beverages. This was done in an address just previous to the closing of the session, which was made up of about 100 dry workers.

This was done in an address just previous to the closing of the session, which was made up of about 100 dry workers.

Davton.—Manufacturer of aeroplanes is the purpose of a company incorporated at Columbus by Dayton capitalists, among whom are E. A. Davis, W. E. Talbot, Charles F. Kettering Jr., and Orville Wright. Recently there was a visit to the Wright Field Company for the purpose of establishing a field for use by a school to teach the art of aerial navigation.

Columbus.—Louis Kuehr, Cincinnati, will be restored to deputy status under the Board of Agriculture and resume the duties from which he uncompletely was ousted several months ago. The State Civil Service Commission held in the case Kuehr appealed to that body, that he had been ousted in violation of the civil service laws, and ordered him to be reinstated.

Akron.—Three men were killed and eight others seriously injured at the Goodyear Tire and Rubber Co.'s plant when a bolt on the elevator cable in Factory Building No. 5 broke, sending the car to the pit, three floors below.

Columbus.—Governor Cox received from Mrs. Harris Taylor Upton, president of the Ohio Woman's Suffrage Association, a letter stating that "the women of Ohio will be loyal in this emergency." They never have failed the state, they never will.

Akron.—A teamster was killed and eight others seriously injured at the Goodyear Tire and Rubber Co.'s plant when a bolt on the elevator cable in Factory Building No. 5 broke, sending the car to the pit, three floors below.

Columbus.—Governor Cox received from Mrs. Harris Taylor Upton, president of the Ohio Woman's Suffrage Association, a letter stating that "the women of Ohio will be loyal in this emergency." They never have failed the state, they never will.

RURAL EDUCATION A NATIONAL PROBLEM

By JAMES Y. JOINER.

(State Superintendent of Public Instruction of North Carolina.)

Rural education bulks big in public thought and public discussion today. It is a problem of national as well as of state and local importance, of urban as well as of rural interest. Quantitatively it is 58.4 per cent of the problem in all distinctly agricultural states; and at least 80 per cent of the problem in the states known as the "Southern states." It is of vital interest to the city as well as to the country, because the country is vitally related to the well-being of the city.

According to the evidence of past history and of present observation, the city is largely dependent upon the renewal of its population from the countryside for leadership in all lines of business, commercial and professional, for civic righteousness, for spiritual guidance, and for the preservation and the perpetuation of the best in its civilization. Truly has Emerson said that if the cities were not re-enforced from the fields, they would have rotted, exploded and disappeared long ago. A reliable authority states that five-sixths of the ministers and six-sevenths of the college professors of this country were born and reared in the country; 26 of the 27 presidents of the United States were country-born; three-fourths of the men in authority in our city churches and about the same percentage of the influential men of affairs, merchants, manufacturers, bankers, lawyers, were born and reared in the rural regions. From such evidence the supreme importance of this problem of rural education is apparent.

Let the agencies for rural education cost what they may, they are cheap at any price. They will not come in one generation, for all the greatest things in civilization are of longest growth. This generation may be well content to sow in faith the seeds, assured that from them shall grow some day a finer flower and fruit than ever were before produced.

MIKE SHEA GIVEN CREDIT FOR DISCOVERING JOHNSON

Question as to Who Really Brought Great Pitcher From the "Busher" Is Finally Settled.

It has been definitely settled who really discovered Walter Johnson. It was Mike Shea, who played in the old California league, in which Manager Griffith, the Nationals, and Joe Cantillon, pitcher of the Minors, and his association team, played in their younger days. Shea was a member of the San Francisco club, and Griffith and Cantillon were once with Sacramento.

The fact about Johnson was developed in a famous bet between the famous pitcher and Cantillon, who was manager of the Washington club when

Johnson was given a conditional pardon and was to be released from the penitentiary.

As a drink there is nothing that takes the place of good flavored butter milk. It is refreshing in summer when served cold, and is equally as good in winter when served hot. Butter milk is a beverage.

Buttermilk is preserved by many physicians as a curative for many digestive ills. For those who are fond of its snappy, appetizing flavor it is no hardship to live on buttermilk for days at a time. There have been many experiments made in the use of buttermilk in various combinations.

With the fruit juice, sugar and sugar, when frozen, it makes a most delicious ice cream which has the advantage of being more wholesome as well as nutritive.

Buttermilk Cheese.

Heat the buttermilk to 130 or 140 degrees Fahrenheit, stirring all the time. This is best done in a double boiler. After heating, the curd set to the bottom of the dish and most of the whey has naturally separated. The remaining whey may be removed by draining through layers of cheesecloth. Season with salt or caraway seed. This cheese may be made into cakes and served cut in

slices.

Delicious Buttermilk Dishes.

Buttermilk may be used in various ways for food, making most wholesome dishes.

The Welsh people have a fondness for buttermilk soup made so.

One goes creamy soup, using the buttermilk instead of the milk, not allowing it to become overheated, how ever.

As a drink there is nothing that takes the place of good flavored butter milk. It is refreshing in summer when served cold, and is equally as good in winter when served hot. Butter milk is a beverage.

Great Peace Congress That Assembled 100 Years Ago Like a Market of Mankind

The only peace congress comparable to the one that will follow this year, in the number of nations and great and conflicting interests involved, was that which met in Vienna following the defeat of Napoleon and his banishment to Elba. It is interesting, in the light of the present situation, to recall some of the features of that memorable gathering at the court of Francis in the Austrian capital.

Prior to the deliberations were the Austrian emperor, the czar of Russia, the Prussian king, the Emperor of Bavaria, Wurttemberg and Baden, and all the other greats of the realm.

Cliff Blankenship, catcher for the Washington club in the Cantillon league, generally credited as the pitcher's man, until the big twirler worked for the Nationals, known as the Senator when Cantillon was at the helm. It is true that Blankenship took a trip to Idaho to sign Johnson, as an emissary sent by Cantillon. The latter had been tipped off to the rookie pitcher by Shea, who had seen Walter work in many games.

As Cantillon explained it, Blankenship was selected to make the trip West because he was on the hospital list with injured fingers and without prospect of being able to go behind the bat for some time.

Wise and Otherwise.

What can't be cured should be insured.

Maintaining courtesy for friendship is a wise human virtue.

Once a hero always a hero—especially to the hero himself.

Silent watches of the night are those people forget to wind.

A dead lion is better than a live dog.

People usually have the blues after skimming the milk of human kindness.

Many a woman's new store teeth are responsible for the smile that won't come off.

An impulsive man is one who always ends in bed to talk about him self when you are talking about your self.
