

TIPPECANOE

By SAMUEL MCCOY

Recounting the adventures and love which came into the lives of David Lawrence and Antoinette O'Bannon, in the days when pioneers were fighting red savages in the Indiana wilderness

CHAPTER XXIII.—Continued.

She shrank away from his filthy hands, and then, with a look of despair, threw herself face downward in a fit of hysterics of weeping. The music of the drums and fifes had ceased. Outside, the camp buzzed with activity. The Prophet beat the red cap of his eyes socket over a lapful of grotesque amulets, muttering incantations to himself.

Girty passed his hand soothingly over the trembling shoulders of the girl, and patted the tangled, silken cloud of her hair.

"I kain't blame ye my dear, for not takin' me likin' to such a ugly ole critter like I am. I been a poor old man, my dear; I been ornery; I been grizzled, I been oblige to be. They's a lot o' pesky mean men in this world, my dear, an' I've had to fight hard agin' 'em. I been waitin' for a likely young gal like you to kin come into the settlin' mes on the Canada side and live quiet like a king. I'm askin' ye quiet to go with me, ye see?"

Toinette only sobbed.

"Ain't that fair, es I put it to ye? What kin be fairer nor that? I kin see all them pretty girls, and you a-sittin' in front of the fire, makin' readin' in the Book about the blessed Lamb o' God. Oh, ye may know I was es good as any on 'em when I was a little devil. I hed a good mother!"

Toinette wondered to hear him name his mother, but she could not help suddenly burst in a string of the foulest oaths, cursing and blaspheming. But he offered her no violence. He still hoped to find some officer in Malden who would pay a rich price for her, and so had purchased a child, and sent her physical proof. To this he had seen to it that no warrant had harmed her; and he meant to claim his money in the end.

The drums had begun again, loud, defiant; but instead of drawing nearer their music passed farther and farther away. The party of Indians, Elkskatawa still camped from the tent. Suddenly there swept over Toinette the realization that Girty had lied—the fife was playing an air that red-coats never marched to—the stirring swing of "The President's March." She clung to her feet, her eyes blazing. Fainter and fainter came the air to which she unconsciously fitted the triumphant words:

"...who fought and bled in Freedom's cause,
and when the storm of war was past—"

"Listen!" she cried. "Tis the men from home!" She faced Girty, and off her dash of dread, at her hours of suffering were forgotten.

"I have been prayed to God and he has answered me."

For a moment Girty was silent before the white radiance of her faith; but he threw off his hesitancy with impulsive energy.

"A present o' good that han'ted o' sheep kin do," he snarled. "By sun-down tomorrow we'll bring ye ever' one of their wet skeps fer ye to play wath." He stepped hastily outdoors, and assuring himself that the troops had defiled from view, returned, and, seizing Toinette's arm, dragged her across the camp in secret. As she passed out into the raw November wind, Toinette shivered.

"Ye kin see fer yourself they han't any on yer precious sogers brave enough ter fight a papoose let alone all these bravoes," he said tauntingly.

The terrible warriors of the People, hidden in the camp, sawing and sawing and free among the tents of the village, contemptuous of the cautious whites, lent support to his boast. Toinette looked helplessly from side to side, seeking some avenue of escape, and hoped dead in her eyes.

CHAPTER XIV.

The Battle.

Soudlessly, in the dark hour after midnight, the great war-howl of the Indians was strung. But the camp of the American slept. A light rain fell. It was nearly dark.

Suddenly through the black mist spout the red flame of a rifle; with the flame and the crack came the sound of a man running. It was the Kentuckian, Stephen Mars, of Geiger's company, an outcast, whose rifles in the ranks of the regular Indians had been taken, he fell in the wet and languished brush, his face in the sodden ground.

The night, which had been soundless save for the soft rush of the rain and the dripping of the water from the trees, suddenly became filled with the stir and roar of the awakening camp. The noise of the conflict had died down, striking the terrible embrance which the bloody knife alone, rising and falling, might end.

Beneath the dark field, when Harrison had reached the spot, the hand-to-hand conflict was over, and the savages had retreated to the shelter of trees, where they might have time to reload their guns. Behind them they left a score of dead and dying of their own kind.

It was then that the Geiger's Major Wells' command, had placed the trumpet to his lips and blown the

charge. With a cheer, the men of Barton's company heard the order repeated by their own captain and went into the ranks, loose and drawn or of Geiger's had been able to secure their frightened horses from the trumpet call, but these, riding from tree to tree, drove the baffled Indians before them into the willows by the creek, where the horses could go no further. From the angle came an order with Harrison's order to sound the recall.

They came back. It was wisdom that saved them from being cut off from the main body of the troops. For the fight had just begun. Only a little breathing space they had; and in it they looked upon the faces of their dead.

The commander and his staff inspected the lines, letting their horses pick their way through the trees, through the darkness, loose-reined; each company, as they passed it, pleading to be allowed to go into the thick of the fight, and the commander responded to their request, and all were still drawn and were buckling on their sword-belts as they talked. Harrison was standing impatiently waiting while an orderly struggled with his horse.

Hargrove, divining that it was time to ride away toward the posts where the savages were attacking in numbers, struck David on the shoulder in his hurry. "Go ask Colonel Decker if we are to stand here!" he cried, then General Harrison goes."

He turned to the officers. As he reached them, Harrison sneezed, on setting to his captain. He strained his eyes through the mist, and the man ran up to Hargrove. David recognized him as George Croghan. Captain Hargrove spoke sharply:

"What's the matter?"
Croghan replied. "The chief surgeon has requested Colonel Decker to let him have some assistance. We have only three surgeon's mates. We need more help with the stretchers. Can you detail someone, sir?"

Hargrove named Lawrence and Croghan, and his orderly agreed as Croghan led. Four companies were to the rear, they ran, lifting the dead and wounded on rude litters and bearing them to the shelter of the wagons in the center of the camp; here they let their burdens and went back for a second and a third time, and each time found fresh ones.

And then David was in the thick of the panting struggle which in spirit the Indian's men were enduring. The horses lay on the ground, and from over their backs the riflemen fired into the darkness peopled with the vague forms of the hostile savages; but the horses, terrorized by the upward and mysterious stinging things that tormented them, tried again and again to rise; their masters kept them down only by superhuman exertions.

There was a momentary lull; from across the valley, from the opposite creek gurgling among the rocks, there came a strange and wild chanting; high above the groans and the sounds of hurrying feet it rose, the sombre cadence of the aborigine's prayer to the Great Manitou, the father of the earth.

The drums began. The orderly drummer at the officers' tents was beating the long roll; the steady unvarying tattoo spread its mournful summons through the night with a sound that forced its way through all the wildest barks of the camp. David knew what it was, and he began to sing; it did not seem possible that not sixty seconds had elapsed since the first alarm had sounded.

A cold gust made the ripples waver. He became conscious that his teeth were chattering. Two men, wriggling on the ground, succeeded in the dark, so that its light died down to a mere glimmer. David and the other company fires got out, one by one. But they had not all been extinguished soon enough.

As the light of the fires died out the flashes of the rifles became more plainly visible. The damp air was heavy with the smoke of powder.

In the swamp at the front David could see the flames of the Indians' rifles twinkling like fireflies.

The uproar at the northwest angle of the camp, two hundred yards away, grew louder. David strained his eyes through the darkness but distinguished nothing. Suddenly from the dark, the Indians fired, and the immortal summons to charge! On the last note arose a burst of cheering.

"Chargin'!" ejaculated Hargrove at David's side.

It was the plan of the Indians to wait until a giraffe had been formed on the sides of the camp, where a multitude of Indians had gathered, north, east and south, but before they had completed this detour of the wooded plateau the impatient savages stationed at the northwest corner had drawn in closer and closer to the American securies in their earthen embankments. In it were some whom Stephen Mars had been gilding through the wet underbrush; and at the report of his rifle the Indians threw aside concealment and began the onset on the north flank of the little army, without waiting for orders from their numbers to complete the circle of death from behind.

And so the Geiger's Keipper Rifles and those of Captain Barton's regular troops, forming the northwest angle, awoke to find a hidden shadowy force rushing on them with the cries of wild beasts. Their answering fire burnt the very breath from their lungs, and lit up the painted, hideous faces, there were no time to reload; the rifles became clubs that swung and crashed against ribs and skull, or red warrior and white went down locked in the terrible embrace which the bloody knife alone, rising and falling, might end.

Beneath the dark field, when Harrison had reached the spot, the hand-to-hand conflict was over, and the savages had retreated to the shelter of trees, where they might have time to reload their guns. Behind them they left a score of dead and dying of their own kind.

It was then that the Geiger's Major Wells' command, had placed the trumpet to his lips and blown the

dreadful tragedy of the despairing race of red men. And then a grim smile crossed his face, and he and his little army, unorthodox, profane, greedy for material things, sold as human all humanity, was the flaming sword of the progress of humanity driving out the old order, substituting the new.

The song of Elkskatawa, the Prophet, and the Loud Voice, went on. The white men heard it and were troubled. The red men heard it and grew drunk with audacity. "The bullets of the white man shall fall at your feet, my children, and their powder shall be spent!" How easily they be harried!

They left the shelter of trees and fallen log and charged the slender line that held the right flank. Harrison shouted orders to his aids:

"Send Robb's company here for reinforcement! Tell Major Floyd to place Prescott's company in Robb's position. Send Snelling to the north-

west angle, Cook and Baen here! Tell Colonel Decker to send Wilson's company to the northwest angle, Colonel Bartholomew to send Scott's company to the west angle, and with Wilson."

The night was slowly giving place to the gray dawn. A faint light shone gradually through the dripping branches. David could see how yellow the faces of the wounded lay in the pale break of day. Baen, he knew, was wounded mortally, Bartholomew mortally.

As he neared the center of the camp, Robb's Mounted Rifles, now led by him with his rush, the galloping hoofs thudding on the wet turf. Here and there the smoldering embers of the campsites blazed up again. David went on with the sickening work of the dead.

He was carrying a wounded man to the shelter of the wagons when little Jimmy Spencer, Captain Spencer's fourteen-year-old son, ran from the tents and clutched him by the sleeve, begging to be told if his father was necessary. David answered the boy reluctantly. Jimmy had just seen the captain charge into the smoke and fire, handkerchief tied about his head.

When they went back to the right, Jimmy ran at David's side, refusing to stay behind.

"Father!" he cried, and the soldier turned to the boy. He was about to let him go when a bullet hit him in the hand, and his fingers closed around the gun barrel. The boy fell to the ground, and the bullet passed through both thighs; he tottered and fell.

"Go back to the tent, son," he said, "Your mother will need you if I don't go home."

He did not go down and kiss him. For a long minute he rested his head on the boy's shoulder, then he began calling to his men to fight on. Suddenly the voice ceased altogether as a bull tore its way through his heart.

With the life's shell must in the earth the fallen fighters held their ground, though MacLaren had fallen, though the field, dead, and took his second lieutenant, fell also; he lay for two hours in the face of the frenzied attack of the Indians.

The men with the litters were very busy, but all the time, at the northwest angle, where the fire had been made. At the opposite angle, on David's left, the Indians were pouring a wicked fire into the mass of tethered horses of the train. Nearly 100,000 opponents to presidential suffrage for women have sent their signatures to the Secretary of State, Fulton, May 19, who insist that the Reynolds act, adopted by this year's legislature granting presidential suffrage to women shall be submitted to a referendum vote at the next general election.

Ohio dries start their drive for state prohibition petition, May 10. More than 20,000 petitions have already been prepared and are being sent to every precinct in the state. Although the petitions need not be filed until September 6, sixty days from the date of filing, the drive plan to have them all filed at county headquarters by May 30.

Nebraska is now a prohibition state, having entered the dry column at 8 o'clock on the evening of April 30, in obedience to the will of the voters, as expressed at the polls last November. Eight hundred and thirteen thousand eight hundred, distillery, and 10 rectifying plants went out of business. Of the 839 saloons 353, or 40 per cent, were eradicated in Omaha.

Now if Governor Cox will only declare that the English sparrow is contraband of war, issue a proclamation to be made a part of the duty of the Adjutant General and Commissioner in each county to mobilize the citizenry in the war on the sparrow, and appoint a state board to supervise the sparrow commissioners in each county, he will show that he is a real statesman and is really doing something.

In conformity with plans for the government conserving the resources of the country's railroads for the transportation of necessary supplies, many railroads throughout the country are planning to abandon many passenger trains when they put their new spring schedules into effect, which will be in the middle of the month. Just how this will affect the service on the B. & O. is not yet known, nor will it be until their spring schedule goes into effect.

How Selective Army Draft Act Will Work.

President will issue a proclamation ordering registration of all males, except those eligible to exemption, between ages of 21 and 33.

Persons failing or refusing to register are subject to three to twelve months imprisonment.

First force of 500,000 men will be selected from the 8,000,000 or more registered.

Rigid physical examination to be made by government physicians.

Drawing of lots will determine final selection of personnel for first increment. Those not drafted for first increment to be called when subsequent increments are ordered by President.

Officers will be chosen by appointment, members of the national guard, the officers' reserve corps, retired army officers and graduates from military schools and training courses.

Officers and enlisted men to be on an equal footing as to pay, allowances and pensions as those of same rank in regular army.

President may order drafting and training of additional forces at such times as he may determine.

Men to be trained in sixteen different stations in the country.

Registration is expected to be completed in all states before Aug. 1. Training will begin about Nov. 1. First draft expected to be trained, equipped and ready for service by July 1, 1918.

The Taxation Proposition.

Everyone in this issue is a statement from the Prosecuting Attorney concerning the 15 mill limit of taxation.

As the present rate of taxation on the Richland county side of Plymouth is now 14.20 mills it is evident that the increase in the tax rate cannot exceed the difference between the present rate of 15 mills, or .30 mills or 80 cents on the \$1000 of property.

On the Huron county side of Plymouth the present rate is 15.60 mills, therefore cannot exceed .60 mills or 50 cents on the \$1000 of property. **KEEP THIS IN MIND.**

ALSO, a comparison of tax rates in other towns of Richland county might be of interest to some of our readers.

YESTER SCHOOL LTV TOTAL LTV

Mansfield 15.60 mills

Shelby 15.40 "

Lima 15.44 "

Lebanon 14.40 "

Butler 17.40 "

Plymouth 14.20 "

A study of the above data brings out the following facts. Plymouth pays less for her schools than any of the other towns. Her rate of taxation is less than that of her neighbors. **BUT PLEASE SEE THE POINT.** the difference in total rate is not due to the difference in school rate. Mansfield has a high school rate; Shelby a low school rate, but the total rate is nearly the same. The same is true of Shiloh.

Pastor Finds Tip in Bible - Wheat Going Up to \$8.00.

Wheat at \$8.00 a bushel: and barley \$2.70 a bushel.

This is the price to which these commodities will rise following the war, according to the Rev. Norman H. Camp of the Moody Bible Institute, who spoke on the subject Saturday evening in the Tabernacle Presbyterian church, Kenmore and Bryn Mawr avenues, Chicago.

The minister based his statement on the prophecy recorded in the Bible, Revelation, sixth chapter and fifth verse, which reads: "A measure of wheat for a shilling and three measures of barley for a shilling."

"By this calculation," he said, "wheat will reach nearly \$8 and barley \$2.70 a bushel. Following the war will come a time of famine, disease and pestilence. The Bible indicates we are nearing the end of the church age."

Even the price of a shave has been advanced by local barbers to 15¢. It wouldn't be bad if you could get two for a quarter. Some have advanced to 25¢, and inasmuch as shaving, to say nothing about the water, it was necessary to advance the price. Well, it is either submit or let your whiskers grow.

How would you like to get an express package the charges on which were \$800. Because of necessity of haste in reaching its destination, big freight car containing some \$4,000 worth of plants planned from the Hooper Co. of Avon, were sent by express to Maine points on Thursday of last week, where potato planting is going on such a big scale that it was necessary to have the planters without delay.

Simon Roninger, who often visited in this place, aged 89, died at the hands of his daughter, Mrs. A. C. Miller, 420 Sherman Place, Mansfield, at 12:30 P.M. Tuesday evening, after an illness of seven months. Death was due to the infirmities of old age. He had been a life long resident of Columbiana, O., until about two years ago when he went to make his home with his daughters, Mrs. Miller and Miss Mary Roninger.

The retail price of coal generally increased and the federal trade commission took cognizance in a report issued Saturday. The commission counsels the public not to indulge in a buying panic, advising them to buy as in past years and not to try to hoard a winter's supply within a month. Moreover, it is reported, threats to expose dealers or speculators who attempt to stampede the public into abnormal buying or trying to justify the present high prices. There is coal for all, the commissioners say, and need for an increase in wages above the increases in wages of miners. In addition, they state the usual summer discount should apply.

The reception given by the Juniors on the evening of May second, was declared by the Seniors to have been one of the most enjoyable events of their school life. The program in its entirety was extremely clever. After the program, the girls in the Academic Club room, they added on to the Deisler Theatre where all sat for a very pleasant hour and a half, after which a delightful three course luncheon was served. The most attractive feature of the evening and the program was the singing of the class of '17 which was their past, present and future, as related by the three fates. Appropriate gifts were received by each member of the class. At a late hour a regretful departure was taken.

The Luther League Social held Friday evening was a decided success. Several members received gray hairs during the long worrying over the program, but the result was though it did not prove as strenuous as was expected was fully as distasteful.

Many stunts were indulged in heartily by all present. Everyone particularly enjoyed meeting the girls. Faculty and students believed in ghosts just as did Howard Swearer. He will swear that he has heard them. A hearty lunch was served and if any one is in need of ice cream freezers we would recommend "Pat" Campbell and Walter Donnenwirth.

As to the question, "Is the faculty capacity is simply marvelous." We departed reluctantly at a late hour only after being assured that we could come back again.

Huron county assessors Monday started upon their task of listing the personal property of all persons who failed or neglected to make a voluntary return of his property and also to make a statement of his assets and debts. It was found to be incorrect. Auditor Bloomer and his office assistants have completed the work of checking up the returns made and, because of the complications of barns flunked off property owners upon whom mistakes were found. It will now be necessary for the assessors to straighten out these mistakes by listing the property over. Starting Monday and lasting until their work is completed, the auditor will receive a salary of \$4 per day. The auditor will not stipulate any set time in which their work must be completed, this matter being left entirely to the judgment of the auditor.

In a journal entry filed in common pleas court in the case of C. L. Bushell vs. the Standard Oil Company, Judge C. W. Hinman, of the unlimited contracts of the company. The Plymouth road is to be completed by the township trustees. The Amoy road and the new state road will be completed by the road, Lot Cottier. The creators of the Mansfield Construction Company, C. N. Gaumer, John Krause, W. B. Martin and C. L. Bushey are held to the receiver to make good any deficit arising from the attempt to complete these contracts.—Mansfield News.

Despite the weather conditions of last week Friday evening a good number of people came out to witness the production of the "Windmills of Holland," a pretty little operetta presented by the pupils of the third and fourth grades of our public schools, who were drilled under the direction of Miss Anna Hinman, and how well she did her work evidenced by the thoroughness of the little people, of whom it can be said sustained their parts in a most creditable manner. So pleasing was the work of the little people, that by request, the opera was repeated Saturday evening to an audience fully as large as the evening previous, many of whom were present the previous evening. The drop curtain was the handiwork of Fredo, the stage manager, who, after considering his wife, an artist of no small ability. Quite a handsome sum was received from the two evenings entertainment, the surplus from which will go toward buying equipment for the schools.

Tuesday will be a day of much importance in Plymouth, as this is the day voters will decide the question as to whether or not bonds in the amount of \$50,000. will be issued for the purpose of building to and remodeling our present school building, which must be done if we retain a first grade school. True, it is a large sum, but stout enough to last for a long time, the additional tax will not be more than 10¢ per year. That this work can not be done in a hazardous manner, as the State building code has jurisdiction and tells just how such work must be constructed, with particular regard to the high cost of labor and labor being expensive proposition, and the longer it is put off the more it will become so. If we do not make these improvements now, it is possible the present building may become condemned entirely, and that it will be a bold issue of from \$100,000. to \$125,000. for a new structure. The school board are only trying to do what the State school law requires and with the new additions and alterations in the present school building is the cheapest solution. So before you cast your ballot against the bond issue think the matter over thoroughly.

Statement of Prosecuting Attorney May.

Mansfield, Ohio, May 10, 1917.
J. A. Kershner, Sup't. Schools,
Plymouth, Ohio.

Dear Sir: I have before me the notice of special election in the Plymouth Village Special School District, Plymouth, Ohio, to authorize the Board of Education to sell bonds in the sum of Fifty Thousand Dollars.

I prepared a resolution which I presume was adopted by the board, and under which I am advised this election is being held.

In reply to the question, "What tax levy, or rate of property tax may be proposed?" I advise that fifteen cents on the dollar is the total levy that can be made against any property in the district. This includes the levy for all purposes, heretofore made and to be made, if this proposed proposition is carried. Respectfully submitted,

T. R. RONISON,
Prosecuting Attorney of
Richland County, Ohio.

Music and Study Club.

The Music and Study Club met with Mrs. A. E. Willett, Tuesday evening, May 1st.

The study of the Opera, Aida, was taken up in a very interesting manner. The book was read by Mrs. Benedict and the Libretto given by Miss Benedict, interspersed with the themes of the Opera in instrumental and vocal forms.

The following are some of the themes interpreted: "Celeste Aida," "The Love of the Insured," "Pitiful Heaven," "Gloria to Isai," "See Again the Balmy Forest," Mrs. McClellan, etc. at piano, and vocal selections by Misses Rub, Clark and Gertrude Willett and chorus.

Program closed with piano solo, "Aida" Fantasy, by Gertrude Willert.

10,800 WILL CROSS SEA

Engineers Ordered for Duty in the War Zone.

Mine Regiments, Composed of Railroad Workers, to Carry the Stars and Stripes on French Soil.

Washington, D. C.—An expeditionary force of 10,800, composed entirely of railroad workers under the leadership of officers of the United States engineer corps, will be the first to carry the Stars and Stripes overseas.

They will be sent to France to take over a large part of the work on the lines of communications behind the battle front. Orders to recruit the force were issued by the War Department from the war department.

Nine regiments will be formed, each officered by a colonel and adjutant from the ranks of the recruits. Not even the officers' reserve corps will be called upon.

"The men, 10,800," as they are already being called in the war department, will be separate from any other unit or organization in the service. They will be secured entirely through volunteer methods, and will not be a part of the engineer corps, even though flying the pennants of that organization.

The war department has issued the following statement relative to the new corps:

The war department has sent out orders for the organization of nine regiments, of nine additional regiments of engineers who are destined to proceed to France at the earliest possible moment for work on lines of communications.

It is requested of the press that no specific names be given to these regiments as they will be carried by it other than those given out by the war department. All details will be given out by the war department as far as possible with the public interests.

Two regiments of the regular corps of engineers will be assigned to each regiment, but the names of these officers will not be announced at the present time.

FRENCH ENVOYS PAY TRIBUTE TO LINCOLN

Springfield, Illinois.—The French war mission paid a silent but impressive tribute to the memory of Abraham Lincoln here. An immense force of wheat, oats, barley and flour, to be given Premier Viviani, was placed in the tomb of the great emancipator in Oak View cemetery, as the gift of the republic of France.

With heads bared, the hero of the Marne and the great French statesmen bore the wreath into the sarcophagus and silently deposited it on the sarcophagus.

Arcola, Illinois.—The special train bearing Gen. Jno. Joffre, Premier Viviani and other members of the French war mission after a tour of the middle west, was welcomed in the middle of a cornfield, midway between Arcola and Filson, Ill. Several persons suffered slight bruises, but none of the members of the French party was injured.

LIEUT. BRUCE R. WARE, JR.

CHIEF ASKS FOOD RULE

Seeks Absolute Power to Regulate Prices.

President's Plan Is Embodied in Sweeping Measure Introduced in House of Representatives.

Washington, D. C.—Absolute authority to regulate in its discretion the production, distribution and prices of food and other necessities during the war was asked of congress by the administration.

In a sweeping bill introduced with administrative support by Chairman Lever of the house agricultural committee, it is proposed to empower the president, under the war clause of the Constitution, to use these measures whenever he in his opinion the national emergency shall require.

To fix maximum prices, minimum prices for food, clothing, fuel and other necessities and the articles required for their production.

To prescribe regulations to govern the production of these commodities and if necessary, to requisition the products of farms, factories, mines or other establishments.

To compel holders of necessities to release them in amounts insuring equitable distribution.

To regulate exchanges in such a way as to eliminate market manipulation.

To compel railroads to give preference to the movement of necessities.

To levy such importation duties as he finds necessary to prevent excessive "dumping" of foreign products.

To prohibit importations of prohibition on the use of grain in the manufacture of liquor.

In addition, the secretary of agriculture would be empowered to establish standard food grades, to license dealers in grain, to regulate storage and distribution of food, to control the percentage of flour to be milled from wheat and to regulate the milling of a wheat flour with other flour making of bread and other food.

The chamber's report showed that, although there might be an uncomfortable shortage of wheat within a few months, the war, although bad weather, the vast increase in the production of other grains, such as corn, oats and barley, would more than make up the deficiency.

In the United States, the chamber announced that, "with favorable weather from now on, the total winter wheat yield may somewhat exceed the harvest of last year."

If we should not have as much wheat to export as would be necessary, there seems a strong probability that we shall have other available food stuffs, such as corn, oats, wheat and the like.

"So far as the United States is concerned, we will carry over only a small percentage of the production from our 1916 crop of wheat."

"Reckoning 100,000,000 inhabitants in the United States, we will have approximately 423,000,000 bushels of wheat for our own use and for seeding. The remainder will be available for export."

The chamber made no estimate of the amount of wheat available to the United States for this year. A great increase in acreage was reported, however, although the general condition of the crop is said to be somewhat below that of last year.

"Following this defeat of the administration's plan, the house adopted by a vote of 190 to 185 a substitute section framed by Representative Gard of Ohio. This was distinctly a modification of the original demands of the administration. The Gard amendment provides:

"During any national emergency resulting from a war in which the United States is a party or from imminent danger of war, the president, wilfully and without proper authority, of any information relating to the national defense that is or may be useful to the enemy, is hereby prohibited and the president is hereby authorized from time to time by proclamation to declare the war, to publish such information which is or may be useful to the enemy and in any prosecution hereunder the jury trying the case shall determine not only whether the defendant or defendants did wilfully and wilfully publish such information to the enemy, as set out in the indictment, but also whether such information was of such character as to be useful to the enemy."

How Does He Stand at the Bank?

That question often is asked, is it not? If a man stands well his words carry weight. He is a factor in the community.

Everybody will stand well at the bank if he or she deposits surplus cash.

We are opening new accounts daily.

Our system of loans and interest is liberal and simple.

We invite a call.

THE PEOPLES NATIONAL BANK

The Weatherproof Home -

The extremes of weather and temperature are a great factor in deteriorating property and giving it a run-down appearance. Unless it is kept well painted with good paint, moisture gets at the wood and starts decay, and soon repairs are needed.

The House Painted With

Hanna's Green Seal Paint

is practically weather-proof. This paint dries with a hard gloss that is practically impervious to water.
