COST OF PLYMOUTH SCHOOLS

The article signed by "A Citizen" in last week's Advertiser which stated that the tax rate for Plymouth Village in Richland county has been fixed by the county auditor at \$19.50 per \$100 of valuation may not be clear to some persons.

This sum includes the rate for various purposes. Out of this sum the amount, \$7.65, is already appropriated for school purposes, leaving a balance of \$11.85 for all other purposes.

Physically education must be taught at least 100 minutes per week in ALL elementary and High Schools. ALL students MUST take the work, but modified courses may be provided for those not strong enough.

PHYSICAL EDUCATION

Physically education must be taught at least 100 minutes per week in ALL elementary and High Schools. ALL students MUST take the work, but modified courses may be provided for those not strong enough.

Perhaps the best aim of Physical Education is the child's introduction to organized play. Some guidelines should be furnished and the school that is properly equipped is naturally the best.

Second - it relieves routine work of the classroom and enables the pupils to return to their studies refreshed by the exercise.

Third - it teaches sportsmanship in all games. If the pupil learns to play fair in his games he will naturally do so with his teachers and parents.

The reader will not that a statement was made previously concerning proper equipment for physical education. The reader may also recall seeing physical education classes going from school to school in the winter.

After the exercises have been completed a shower or rubdown is a very best measure to prevent colds. For this reason showers are as much a necessary adjunct as any other part of the work.

If the reader agrees with the statement made above, then it is a question well see the necessity of adequate equipment for this work. Will parents see their children are being physically because of their failure to furnish the proper means of training?

The proposed new school building will completely furnish any equipment necessary for the training in physical education. With a few items, such as slacks attached to the main building the pupils will not need it. It is necessary to have the building equipped with all kinds of weather and ridding the danger of severe colds.

This information is being given to you parents who are anxious for your children to be better equipped for their lives work. We realize that the main feature of school work is scholasticity, but we are not neglecting the physical growth.

Therefore, dear reader, if you recognize the truth contained in this article and wish to prove that you are essentially a part of a progressive community, do not let this opportunity pass with this greatest community need.

Two Members to Be Elected On the New Haven School Board

At the coming election the voters of New Haven Township will elect two members to the Board of Education.

Our present Board is maintaining the High school much more cheaply than the community could get along without it.

Celeryville has been ably represented by Fred Yopes. That community is certainly entitled to a member on the New Haven Board of Education.

AN EXPLANATION

In response to some talk that is going on, the Board of Education used underhanded methods to bring about the proposed bond issue for the new school building we wish to say that such a report or statement is an absolute falsehood.

Therefore, the public may know that the Board has had this proposition under consideration for over a year and have had plenty of time to work out all of the necessary details, which they think they have done.

Official of Local Plant Denies Rumor

A rumor to the effect that The Fate-Root-Heath Co. has under consideration an offer to sell the locomotive works has been flatly denied in a communication received by The Advertiser, which explains the position of the company.

October 29, 1927

Dear Sir:

It has been commonly reported that The Fate-Root-Heath Company is desiring to sell out and that the business will be moved to some other town which will require increased taxes for other Plymouth property owners to pay.

I wish to state The Fate-Root-Heath Company has no intention of selling out or removing the business to any other town or city.

JOHN A. HOOT, Pres. The Fate-Root-Heath Co.

Local Election Holds Interest of Plymouth

A SAFE INVESTMENT EDUCATION

If a man empties his purse into his head, no man can take it away from him. An investment in knowledge always pays the best interest.

For some fifty years the present school house has been in use. And has long since served its usefulness. When it was built it was an object of inspiration to the people of the community. At that time it answered the demands of a source of education.

It has stood as it was built, notwithstanding to meet the requirements of progress as time goes on. And why? Because we the people of the community have been so self-centered as to not see what the world is asking from the future generations.

As to its rating as a first class High School. For several years past, the starter has been in jeopardy because of the disrepair of the building and its equipment. The only reason why the school has been able to hold its rating is because it has been understood that the school board was entertaining a building program in conformity with the State Department of Education.

Second I ask the voters do you want a New Class School? Do you want your children to say that you did not give them as good an education as you had?

Just the other day I heard a man talking against the New School Building and the very same man is now sending his child to the Mansfield High School. And why not to the Plymouth High School? Is he not satisfied with our school system? Yet he is opposed to the betterment of our conditions. This is beyond reason.

I am a graduate of Plymouth High School and attended seven years in a First Class University. And I give the same sentiment of many other graduates of P. H. S. We were NOT properly prepared for college. Courses which were required for college were not taught. This was due to the fact that the school is not equipped to teach those courses.

Much interest is being centered on the coming election which will be held next Tuesday, and at which time many important matters will be decided upon including a bond issue for a new school, the choosing of mayor, six councilmen and clerk, also members of the Board of Public Affairs, Treasurer and Marshall.

Politics were comparatively quiet here until Monday when groups could be seen on street corners and other places discussing the possible outcome of the bond issue, and those who are seeking various offices.

Those in the race for local offices are as follows: Mayor-J. B. Derr, Geo. E. Searle, Sr., Chas. Selzer, Clerk-Hoy B. Hatch, E. K. Krauser, Treasurer-J. W. Pace, Mrs. Alberta Hoffman; Marshall-Robt. Clark, Dave Burkett.

Members of Council-D. A. Shields, A. McDougal, D. W. Danier L. Hely, Clay Hulbert, Paul Russell, E. A. Stotts, F. C. Van Wagner, H. C. Martin, Ben Woollet, A. F. Cornell, T. S. Ford, Ernest Stewart, E. S. Earnest, C. E. West.

Board Public Affairs-W. H. Fetter, C. L. Hillis, C. L. Loftis, W. C. Edgig, W. C. McFadden, Albert Hecke, Grover B. C. Paine, Fleming.

LAWN HOSE MISSING

As a result of Halloween pranks various articles were missed by residents, and among those that have not so far been returned is a lawn hose which was taken from the home of Mrs. M. C. Gussanulis.

Should anyone have information concerning the whereabouts of the hose Mr. Gussanulis would appreciate it very much.

To The Intelligent Voter

THE INITIATED CHIROPRACTIC BILL, TO BE VOTED ON AT CONJUNCTION ELECTION, NOVEMBER 8, CONSTITUTES A MENACE TO PUBLIC HEALTH

Chiropactors should NOT be granted all legal rights and duties of regular physicians which would result if the initiated bill should be enacted. The initiated bill would permit chiropactors to treat infectious, contagious and venereal diseases, to sign birth and death certificates, practice in hospitals, state institutions and under workmen's compensation law.

A single "adjustment" method, (chiropractic) for appendicitis, diphtheria, typhoid, measles, mumps, diabetes, cancer, Bright's disease, rabies and all types of physical and mental ailments is DANGEROUS.

At present, chiropactors are licensed as "limited practitioners" after examination by the State Medical Board in basic branches: anatomy, physiology, chemistry, pathology and diagnosis, and after examination in chiropractic subjects by an examining committee of licensed chiropactors appointed by the Board. Four hundred are so licensed, 160 in the past four years. Such "limited practitioners" are not now and should not be permitted to treat infectious, contagious and venereal diseases, practice obstetrics, use drugs or surgery or sign health certificates.

Would you accept chiropractic for hog cholera, glanders or bovine tuberculosis, or for corn borer or plant diseases? The answer is obviously "NO."

Courts have repeatedly declared the PRESENT license laws and administration CORRECT AND JUST—proper protection against unscrupulous and qualified practitioners.

If in doubt about the dangers of the initiated bill proposed by the chiropactors, voters should ask their health commissioners, physicians or hospital authorities for information. For protection of public health, the vote should be "NO."

Is it Well With The Lad? By DR. G. R. MENTE.

Agos ago the prophet asked this question, today as never before this is the most distinctive question you may not be very much concerned about the future of America, still you owe a duty to this land of the free, and this duty demands your undivided attention: Is it well with the lad? The future citizen and law maker of this great republic? Do not look upon this little talk as sentimentalism, for it is not so. Do not think I want to entertain or alarm you unnecessarily, for I do not—I do not even wish to tamper with the sacred views you may hold on this question and which may differ radically from those held by myself regarding ways and means to bring about a successful adjustment in the culture of the boy. The views I hold are not patent rights at the patent office, though they are my own, from direct intercourse with the boy of the 20th century. You may not accept these theories held by me as answering your own individual observation, still I am positive you and I will agree on the essentials. I claim the home is the garden of childhood's happy and sunny morning. The first and foremost is the first and indelible right to mould the child to initial tastes and desires of the boy and his mother. Parents have often become careless and even callous to the situation before them, that the boy grows up with a national importance. How sad to note the fact that many parents look upon the child as a commodity, "Lad" often means a man out of the race. Boys are boys, they are full of life, full of vim, full of wit and humor, all their own, now to open the door wide and let all this escape without valuing his future usefulness and his heroic optimism, the greatest conundrum of the age. Several years ago, Firestone, Ford, Edison and Burroughs were touring through West Virginia. A light on their car went bad and they stopped at a little crossroads store in the Buck-ingham section, Henry Ford went in to the store to make the purchase. "What kind of automobile globes do you have?" "Edison," replied the merchant. "I'll take one," said Ford, "and you may be interested to know that Mr. Edison is out in my car." "So?" said the merchant. "When the light was put in it was found that a new tire was needed, so Ford went back to the store and asked what kind of tires the merchant had. "Firestone," was the reply. "By the way, you may be interested to know that Mr. Firestone is out in my car, and that I am Mr. Ford," Henry Ford said. "So?" said the merchant, and drove a long squirt of tobacco against the wall. While the merchant was putting on the tire, Burroughs, who had white at their car went bad and they stopped at a little crossroads store in the Buck-ingham section, Henry Ford went in to the store to make the purchase. The merchant looked up at him with a grin of sarcasm, and said, "If you try to tell me that you are Santa Claus I'll be damned if I don't crown you with this wreath."—Ex.

OBITUARY
 Jennie Rebecca Marron daughter of Moses B. and Francis Ellen Martin, was born at Oliveburg, O. Jan. 13, 1850 and entered into life at the home of her daughter, Mrs. Crum at Greenview, O., on Oct. 25, 1927 at the age of 77 years, 11 months and 12 days.

In early girlhood she removed to Rome with her parents. On Sept. 16, 1874, Miss Martin was united in holy wedlock with Austin Clark Moser who has preceded her from this life, some seventeen years.

To this union were born five children, one of whom died in infancy, four remaining to honor the memory of a devoted mother. Arthur W. and Martin S. of Shiloh, Mrs. Lala Fern Crum of Greenview and Mrs. Jessie L. Ellis of Shiloh.

Mrs. Moser began her active church life in the Congregational church at Shiloh later transferring her membership to the Mt. Hope Lutheran church, Shiloh, of which she was a faithful member till the time of her decease.

In addition to the children, ten grandchildren and one great grandchild; one brother, Eliza Martin of Adario, and two sisters, Lydia E. Grabbil and Alice Lattimer of Shiloh the other relatives and a host of friends bear testimony to the love and esteem in which she was held by all who knew her.

"Mother they were done; On earth, thy race is run. The cross is won. Rest thou, serene and sweet. At the dear Saviors feet. Until again we meet, in that bright Home."

Mrs. and Mrs. Harold Harmon and daughter Betty and Mrs. Charles Seaman.

Frank Dick, a former parishioner, of Dr. Mente, came on Sunday morning to take the family to the Shiloh thriving neighboring town, to spend the day with friends of long standing. The U. B. church celebrated its Golden Jubilee on Sunday, and Rev. Mente who was the pastor at that time, presided at the service.

He gave an afternoon address on "Reminiscences." The day was an ideal day, hundreds of friends, some former pastors enjoyed the fellowship meeting of the day. The church choir, a splendid dining room and about 300 partook of the hospitalities of the town.

HALLOWEEN PARTY

(Too late for last issue)
 The farm home of Mr. and Mrs. Ed Whatman made a very pleasant evening for Halloween. The decorations were for Halloween on Monday eve, Oct. 24 when twenty-nine neighbors and friends gathered in masquerade. The crowd consisted of negroes, bunnies, ghosts, clovers, etc. Cards were the main diversion of the evening. A lovely and interesting time was had by all. The party was made tiresome and monotonous by the man of Plymouth winning the prize and Miss Wally of Shelby awarded the booty prize. Delightful refreshments were served by the hostess. Everybody reported a good time.

POPULAR YOUNG PEOPLE

Miss Kathryn Rose Close the gifted granddaughter of Mr. and Mrs. C. H. Rose was united in marriage to Gaywood of Mansfield, Thursday forenoon at the Lutheran parsonage by her pastor Rev. L. A. McCord. A lovely three course wedding breakfast was served at the home of the bride. The artistically decorated table with all its appropriate appointments was a picture and was the work of the bride's aunt, Miss Floy Rose. The color scheme was yellow and white. Mrs. Steel was on Monday eve, the most and most efficient young women and a graduate of our schools and Mr. Steel is an employe of the Mansfield but was formerly a citizen of this community is well known as an exemplary young man.

Mr. and Mrs. V. C. Moser were the attendants.
 These young people have a host of friends who wish them a happy and prosperous life. They will reside in Mansfield.

BASKETBALL SEASON OPENS

Last Monday, Coach F. S. Jenkins issued a call for basketball candidates. Twenty-one men responded to the call. A meeting was held in Room 8 during which training rules were laid down and explained by the Coach.

Practice will start this week at Hamilton Hall. The first game is scheduled for November 18. The full schedule will be announced at a later date.

Prospects for the season are very bright. Five letter men, Captain Hatch, Root, Hills, Zehold, and Day, will be back to form the nucleus of the team and also there is a great deal of other promising material. However, much depends on the rooters. The team will do their part, so let us do ours! Go out and root for our team!

Election day is drawing nigh.

Please folks come out with spirits high. And on each tiny paper do vote yes. The joy it will give us you would never guess.

Even when the wind blows

We seem to meet our foes. For the schoolhouse shakes away our breath. And scares us students most to death.

You certainly can plainly see

That an auditorium, how nice it would be. For the one that we have how. Compared to this it would be a wow.

It's been many, many years

That our hearts have been filled with tears. We have dreamed and dreamed and dreamed. And also have we schemed.

But all our dreams have been for naught

No matter how hard we've fought. To gain a school would be a gift of Love. That GOD has sent from above.

Now Shakespears writes to us

To dream and not to fuss. But not to make dreams our masters. And be able to meet with triumph and Misasters.

So let us meet with triumph

And live not in this dump. But build a school for Plymouth town. That will surely bring us renown.

And then Dear Folks please don't forget

That we must have our Dickie (sanitor) yet. For without him in a seat. Our school would not be quite complete.

HULDAH DAVIS, '31

WE WANT A NEW SCHOOL HOUSE

Yes, we not only want a new school building but we also need one. And why shouldn't we have a new building? We need a better lighting system, a gymnasium, an auditorium, a laboratory, a manual training room and many other things which a new school house would supply. Our school, at the present time,

does not live up to the requirements of the state board of education in many ways. The most important one is that we have no manual training room. It is against the law not to teach manual training in a school. It is illegal! Must we have a school which does not meet the requirements of the law?

Nearly every high school is granted a charter by the state board of education. This charter provides that any student, who has graduated from the high school to which the charter belongs, is eligible to enter any college in the state. A graduate from a high school without a charter must pass an examination and do some extra work before he is eligible to enter any college.

We have such a charter in our high school BUT WE WILL NOT HAVE IT LONG IF WE DO NOT GET A NEW SCHOOL BUILDING.

A few years ago the state board of education threatened to take our charter from us because of some of the courses which were not taught. We were saved in the nick of time. The P. T. A. opened their hearts and furnished us with a domestic science room. And now they are threatening again. We have been sliding along the ragged edge for years. The crisis has come. We must either have a new building or we will lose our charter. What would our school be worth without a charter? What would the students diploma be worth? Just a slip of paper!

A new building would not burden the taxpayers. Many of our citizens will not vote for the building because of the extra tax. It is these people who can easily afford to pay! Other communities are building or have built new schools. Why can't we? Must we stand by and drag behind while other towns go ahead?

Why defect this question again? Let's vote "YES" this time.

HALLOWEEN PARTY

Something unusual happened Monday night. Very unusual in two ways. In the first place, it was a high school Halloween party—the first Halloween party that P. H. S. has had. At least, we can find no record of any such party in the history of the high school.

In the second place, the party was held on a week night. This is very unusual. It is an unwritten law that the high school should never have a party on a week night. We aren't going to make a practice of having parties when the student should be studying. We could find no other suitable time so it had to be on Monday night.

It was supposed to be a masquerade party but some of the students failed to make it.

The hall was very nicely decorated through the supervision of Mary Elizabeth Himes. Pumpkin faces, cats, witches, leaves and corn shocks produced a Halloween effect which blended artistically with the dim lights.

The grand march was held first and a prize was awarded to Ross Hills and Deryl Cramer for not only the cleverest costumes but also the cleverest performance.

The crowd was then divided into four groups. Each group represented one of the following colleges: Ohio Northern, Ohio State, Wittenberg and Oberlin.

An indoor track meet was then held. Each group had its representatives who took part in the various events. Oberlin won with 42 points and Wittenberg was second with 37 points. After the games a lunch was served which consisted of pumpkin pie, doughnuts, apples, and cider. Everyone went home with a satisfied feeling that they had had a good time.

JUGO-SLAVS WILL ENTERTAIN

The time for the second number on the Lyceum Course is coming around. Be sure to remember it. The second entertainment offered by the Sorenson Lyceum Bureau is

an orchestra composed of young Jugo-Slav gentlemen. This group is especially talented along musical lines. The tamburas, the native instrument of Jugo-Slavia will be introduced to the Plymouth public at this concert. These young men are very cultured, and, having been in the United States for quite awhile, and have become sufficiently Americanized to be considered good American citizens. It will be a treat to Plymouth to have these distinguished visitors and we certainly must make the best of our opportunities. Their program will consist chiefly of native music, classical music, and modern compositions.

Don't forget the date! Wednesday, November 9, at 8:00 o'clock. Don't forget the place! The Lutheran church on W. Broadway. And don't forget that we will appreciate your presence!

DINNER GUESTS

Mr. and Mrs. Ed Phillips proved very capable host and hostess Sunday when they entertained the following guests at a bounteous dinner: Mrs. Blanche Carter, Mr. and Mrs. Louis Schroder, and daughter, Ethel, of Fredericktown Mr. and Mrs. Ernest Phillips and two sons of Mansfield, Miss Lois Willet, Shiloh, Mr. and Mrs. Fred Phillips and two daughters, and Mr. Raymond Lehman.

Mr. and Mrs. Glen Secret of Perryville were Sunday afternoon callers at the same place.

MASQUERADE PARTY

The home of Mr. and Mrs. Arthur Myers was the scene of much merriment and laughter Monday evening when twenty guests were invited to come masked to their hallows' party.

Costly, pumpkin faces, cats, witches, ghosts, and autumnal streamers of crepe paper formed a fitting background for the games and contests which kept the crowd amused and in an uproar throughout the evening. Ghost stories were told in dimly lighted rooms and mysterious articles passed suggestive of the spooks of long ago.

Refreshments in keeping with the season were served to the following guests: Messrs and Mesdames Seasefield, Omer Burkett, O. Huff of Willard, Mark Kaywood and children, W. Marjins and children, Clyde Mooker, Dr. Earl LaBarre of Mansfield, Miss Nellie Myers of Mansfield, Mrs. Ray Dinsinger and daughter, Mrs. Miss Harriett Rogers, and Mr. and Mrs. Arthur Myers and children.

Trade in Your Old Stove on a New SUNBEAM CABINET HEATER

SOONER or later, you'll replace your old stoves. Why not trade them in now on a new SUNBEAM Cabinet Heater? The SUNBEAM will satisfactorily heat a home with five to seven rooms, upstairs and down—will keep you more comfortable, than you have ever been. It will save you money, too, if you've been feeding two or three fires in the past.

For a short time only, we will give you a liberal allowance on your old stoves. Act at once before this offer is withdrawn. This year, prices are the lowest in SUNBEAM history.

Don't confuse the Sunbeam Cabinet Heater—a product of the largest makers of heating equipment in the world—with the ordinary stove enclosed in an enameled cabinet. The Sunbeam is built like a furnace and provides furnace-like warmth—fresh, moist, warm air in gentle circulation—and plenty of it. Ask us to appraise your old stoves, today.

TWO WOMEN KILLED IN ACCIDENT
Mrs. R. J. Smith, 52, of Lakewood was instantly killed late Friday afternoon and Mrs. Martha H. Van Winkle, 47, driver of the car, and her mother, Mrs. Alice Hall, 77, were seriously injured, when their auto was pitched twenty feet into the air by a fast Nickel Plate Freight train at Hill Avenue crossing in Lakewood.

Mrs. Van Winkle and Mrs. Hall were removed to the Lakewood Hospital, where Mrs. Van Winkle later died of her injuries while Mrs. Hall still remains in a critical condition.

The engineer of the train told railroad officials he was almost on the crossing when the auto appeared. Eye witnesses said the driver was apparently unaware of the train's approach, although a warning bell was ringing. The party was returning home from a shopping trip.

Mrs. Hall is a cousin of Mrs. Nora Wray and Mr. Wm. Reed and has on several occasions visited in Plymouth. Little hope is held for her recovery.

Funeral services for Mrs. Hall's daughter, Mrs. Van Winkle, were held Tuesday afternoon. She leaves her husband and three children.

Chiropractic Education VERSUS Medical Education

A Scientific Comparison Based on the Latest Available Authorities

The Practice of Medicine is regulated by law in 43 states.

Pre-requisite education: Four years of high school or equivalent and two years of college.

Minimum course of study necessary for medical schools to be registered or accredited by the Board of Regents of New York State, consists of 3600 class hours, distributed as follows:

ANATOMY, including gross anatomy, histology and embryology.	648
PHYSIOLOGY and CHEMISTRY.	432
PATHOLOGY, including gross pathology, pathological histology and bacteriology.	432
HYGIENE	108
PHARMACOLOGY and THERAPEUTICS.	216
OBSTETRICS and GYNECOLOGY.	252
MEDICINE, including pediatrics, nervous and mental diseases, dermatology and syphilis, medical jurisprudence.	900
SURGERY, including orthopedics, genito-urinary, ophthalmology, otology, laryngology, rhinology, roentgenology.	612

Total class hours, all subjects 3600

The medical curriculum shown above is reproduced from page 59 of the University of the State of New York's Handbook No. 9, Laws and Rules of Higher Education in Medicine, June, 1926. 73 medical schools in the United States are registered under these Rules. (Hospital internship is not a requirement of these Rules.)

EXPLANATION OF COMPARISON

Medical doctors study 3600 hours of which over 48% is devoted to drugs and surgery. Chiropractors study 3528 hours of which 100% is devoted to the human body in health and disease without the use of drugs and surgery. This is the first scientific educational comparison to be made of the two great professions as they stand today. The observer will note that, as far as actual time is concerned, the medical doctor receives only 72 hours more of professional education or instruction than the chiropractor.

BUT

1728 hours or 48% of the medical doctor's curriculum is devoted to the subjects of medicine and surgery, which the chiropractor does not practice. Chiropractors study 307 hours or over 47% more of Anatomy than the medical doctor. The 648 hours of Anatomy studied by the medical doctor includes the anatomy of lower animals while the Anatomy studied by the Chiropractor is restricted to that of the human body.

Chiropractors study 32 hours less of Physiology and Chemistry than the medical doctor, but while the medical doctor's Physiology includes that of lower animals, the chiropractor's Physiology is restricted to functions of the human body. Then the medical doctor's Chemistry relates to over 27,000 drugs and chemicals, while the chiropractor's Chemistry is restricted to the chemistry of the human body.

Chiropractors study 132 hours less of Pathology and Bacteriology because they do not apply these subjects to surgery and serum therapy.

Chiropractors study 218 hours of Pharmacology and Therapeutics, for the reason that they do not employ drug therapy to restore health. Chiropractors study only 100 hours of Obstetrics and Gynecology for the reason that they do not practice the surgery incident to these two subjects. Chiropractors study 247 hours or over 27% more of the Science of Chiropractic than the medical doctors study of the Practice of Medicine. (See Medicine and Chiropractic comparison.) Chiropractors do not practice Surgery and consequently do not study that subject.

THEREFORE

Chiropractors actually study 3528 hours of subjects devoted entirely to the human body in health and disease without the use of drugs and surgery.

WHILE

Medical doctors, excepting the subjects bearing on drugs and surgery, only study 1872 hours of the subjects pertaining to the human body in health and disease, which is less than 54% of the chiropractor's professional education.

IMPORTANT: As the Chiropractor studies the basic science subjects more from a mechanical viewpoint rather than the chemical, and adjusting the cause of disease rather than the effect of disease; it absolutely precludes the possibility of any but a Chiropractic Board of Examiners to pass FAIRLY upon the competence of the Chiropractor. Medical doctors seek to discredit the professional education of chiropractors and to control their practice by forcing them to submit to medical examination by medical doctors. The unfairness of this attempt is easily observed and understood by the scientific comparison of the medical curriculum and chiropractic curriculum here shown.

Medical doctors have no more right to control the practice of chiropractic than a commission of theologians belonging to one religious denomination would have to examine and license a candidate for the ministry of another sect and as a result of which, control his religious activity.

Many Communicable Cases Are Reported

There are about 150,000 cases of communicable and infectious diseases reported to public health authorities in Ohio during normal years.

"Nearly two-thirds of these cases, he continued, are diphtheria, measles, scarlet fever and whooping cough. Under the proposed initiative bill, if enacted, chiropractors, who deny the germ basis as a cause of infectious diseases, would be legally permitted to treat such cases.

"The proponents of the initiated bill seek to treat all diseases and injuries, after an eighteen months course in a chiropractic school while the state has for protection a matter of public protection, required physicians to take two years college pre-medical work as preparatory to a four years' medical school work in a recognized college or university.

"The present law recognizes chiropractic as a 'limited' branch of medicine. Courts, legislatures and health authorities interpret the term 'medicine' as including all the healing arts and all modern medical sciences regardless of the methods used in diagnosis and treatment of ailments and injuries. The chiropractors want the public to believe the term 'medicine' only means 'drugs or chemicals'.

"Any chiropractor who has had a high school education or equivalent and eighteen months of training in a chiropractic school can now be licensed. Several hundred are now so licensed.

"The proposed bill would vest a separate state chiropractic board with full power to establish rules and regulations, and destroy the present centralized, responsible state system of licensure. Under the present law, licensed chiropractors can only treat those ailments which are not infectious or contagious. Under the proposed law, the sky would be the limit as to what diseases and injuries they might treat by chiropractic 'manipulation'.

"The chiropractic bill, if enacted, would destroy sanitary and quarantine safeguards; it would raise many questions concerning the legality of community health regulations; it would pave the way for providing separate licensing boards for thirteen or fourteen other limited branches of practice and might lead to the creation of other branches of endeavor such as law, teaching, pharmacy, etc. into various specialties and professions, each with a different standard and separate state maintained boards.

"States that do have many different kinds of licensing boards have been confronted in recent years with 'diploma mills' scandals. States in Ohio that have the single responsible board have not had diploma mill problems.

"Not many citizens would care to trust their children suffering with diphtheria, scarlet fever or other contagious diseases, whose parents yield to methods of scientific medicine, to a practitioner who denies the existence of the germ and who would deny the very foundation of the modern system of sanitation, prevention and immunization.

"The House of Representatives in March of this year, following the report of the Select Committee, rejected the pending initiated proposal by a vote of 313 to the bill of a membership of 136.

"Numerous groups in Ohio directly or indirectly identified with and informed about public health activities are opposed to the initiated proposal. The vote should be 'NO' on this issue at the polls.

By stuffing the drawers with unfinished work, some fellows manage to keep their desk tops clean and 'business like.'

THE INITIATED CHIROPRACTIC BILL

To Be Voted on at the Election, NOVEMBER 8th is a

Menace to Public Health
Vote NO To Prevent Epidemics, Contagion and Spread of Communicable Diseases

SAMPLE BALLOT
To Preserve Present Public Health Safeguards, Vote "NO" as Indicated

Ballot box with 'YES' and 'NO' options. The 'NO' option is marked with an 'X'.

What the Initiated Bill 'Wou'd Mean if Enacted by a Vote of the People

The initiated bill, if enacted, would permit chiropractors to treat infectious, contagious and venereal diseases, to sign birth and death certificates, practice in state institutions and other hospitals, and under the state workmen's compensation law.

If this bill should be enacted by a vote of the people, chiropractors could treat ALL types of illnesses and injuries by chiropractic 'manipulations.'

The pending chiropractic bill, if enacted, would grant to chiropractors equal legal rights, privileges and authority with regular physicians.

If the initiated bill were to be enacted Ohio would be in the anomalous position of having two classes of practitioners on an equal basis before the law, one (the regular physician) with six years of preparation, the other (the chiropractor) with eighteen months.

Chiropractors are "Limited Practitioners"

At present, chiropractors are licensed as "limited practitioners" after examination by the State Medical Board in basic branches: Anatomy, physiology, chemistry, pathology and diagnosis, and after an examination in chiropractic subjects by the examination committee of licensed chiropractors appointed by the Board.

Four hundred and thirty-two chiropractors are now licensed in Ohio; over 150 have been so licensed following examination during the past four years.

But such limited practitioners are NOT NOW AND SHOULD NOT be permitted to treat infectious, contagious and venereal diseases, practice obstetrics, sign birth and death certificates and treat all kinds of physical and mental ailments, as they COULD DO if the initiated petition were enacted into law by a vote of the people.

Danger of Manipulation

Chiropractors should not be permitted to treat infantile paralysis, eningitis, diphtheria, scarlet fever, tuberculosis, venereal diseases and other infections which they are unable to diagnose and by which adjustment method of treatment the illness would be aggravated rather than benefited.

Many cases become incurable (as well as a menace to others) from faulty treatment and failure to recognize the exact nature of the illness. A lame back for example, might be caused by tuberculosis, infantile paralysis, carcinoma, (cancer), kidney disease, heart disease, aneurism or by syphilis or nerve disease, in any way related to "subluxation of the vertebrae" as termed by the chiropractors.

Menace in the Initiated Bill

The initiated bill, if enacted, would destroy the statutes and regulations governing mortality and morbidity; would annul the value of thousands of dollars now spent in the control of communicable and infectious diseases, and in the enforcement of quarantine; would lessen the value of the state's enforcement of vaccination and antitoxin requirements; it would practically wipe out the public health safeguards which have been established by statute; it would repeal the present provision for a central, responsible state licensing system for all those who treat the sick; it would raise innumerable legal and constitutional questions concerning sanitation, public health administration and control of diseases.

Similar Bills Repeatedly Defeated

Twelve similar bills have been defeated by the legislature in recent years. The proposed bill received only 31 votes out of the 136 members of the House of Representatives on March 15th last.

Scientific Education Essential

A single adjustment method (chiropractic) for appendicitis, diphtheria, typhoid fever, syphilis, smallpox, diabetes, cancer, Bright's disease, rabies and all types of physical and mental ailments is DANGEROUS.

Medical science has proved the value of antitoxins, vaccinations, insulin, salvarsan, anesthetics, antidotes for poisons and surgery, all of these are denied by chiropractic theory.

Should a health officer be trusted who discredits bacteriology, immunization and preventive medicine and who disregards the cause of many air, water and milk borne or contact diseases? Chiropractors could be appointed health officers if the proposed bill were enacted.

Would you accept chiropractic for hog cholera, glanders or bovine tuberculosis or for corn borer or plant diseases? The Answer is obviously NO!

NOTED SPEED DEMONS DRIVE RACE CARS IN DENNY'S NEWEST FEATURE
The pick of the country's best automobile racing talent, comprising a galaxy of motor speedway stars that would pack them in at any exhibition of these knights of the roaring road, were directed by Melville Brown during the filming of "Fast and Furious," the latest Universal-Jewel production, starring Reginald Denham.

Leo Nomis, recognized as one of the most successful stunt drivers in the game, was engaged to wreck his expensive racing mount at a dangerous corner at a high rate of speed in the course of a hair-raising tilt with Denny in his car.
Barbara Worth, one of Universal's younger players, who had been featured in Western film roles, makes her debut as a leading lady for Denny in this picture.

The cast also includes Claude Gillinger, Armand Kalis, Les Moran, Charles K. French, Wilson Bengt and other popular players.
"Fast and Furious" was written by Denny himself and adapted to the screen by Raymond Cannon.
Shown at Temple Theatre, Willard, Monday and Tuesday.

OBITUARY

Mary E daughter of William and Martha Parsel, was born near Plymouth, Ohio, Sept. 25, 1853. Early in life she united with the church and remained a faithful and consistent member through life. She was united in marriage with William Reynolds, on April 13 1876. To this union four children were born, two sons and two daughters. One son preceded her in to the Great Beyond, her husband also preceded her seventeen years ago.

Her entire life was spent in the vicinity of Plymouth where she endeared herself to many by her kindly disposition.

Her many friends will miss her greatly, but her Master has called.

When He called, she gladly answered. Tho' on Earth we miss her sore Evermore her feet will travel On God's Eternal shore.

OLIVER LEONIDAS LYBARGER
Son of Job and Sarah Lybarger was born at Cambler, Ohio on January 27, 1867 and died on Wednesday, October 25, 1927 at the age of 61 years, 9 months and 30 days. On June 19, 1888 he was married to Miss Lillie L. McBride. To this union three children were born: Orville J. Lybarger of Plymouth, Vonda May who died in 1898 and Alice Lucile Lehman of Shelby, O. He is survived by his aged mother, Mrs. Sarah Jane Lybarger of Shelby; five brothers, Roderick M. of Farmington, Ark., Edward B. and John of Shelby, A. A. Lybarger of Edgewood, Illinois, and Mark of Mansfield; and by three sisters, Mrs. Mary Flook of Shiloh, O., Mrs. Clara Wilson of Kansas City, Mo., and Mrs. John Ken of Shelby.
Mr. Lybarger was life-long member of the K. of P. Lodge of Plymouth and a trustee of Plymouth township for three terms. He served faithfully in all official positions and was a loyal citizen in private life. He was of a quiet unobtrusive nature, kind of heart and with a warm love for his

home. His virtues were best known by his neighbors and by those within the family circle.
Services were conducted by Rev. A. M. Himes on Saturday afternoon at the home of Mr. and Mrs. Lehman, 12 Earl street, Shelby. Interment was made at Mt. Hope cemetery, Shiloh, O.

NEW HAVEN

The Dry Literary Program was held Friday afternoon. The Excelsior Program will be held Nov. 11. Visitors are invited.
The Literary Societies have decided that the programs will count seventy-five per cent toward winning the cup. Toward the end of the year an Oratorical contest will be held

which will count twenty-five per cent. The boys have been practicing in basketball. We are looking forward to a successful season.

The Freshmen Girls are forming an Art club under the direction of Miss Fisher. They held their first meeting Tuesday evening at the school house.

Chapel exercises were held last Tuesday morning. Rev. A. M. Himes was the speaker. He gave a very interesting and worth while talk.

School will be closed all day Friday. The teachers will attend the "Teacher's Institute" in Cleveland, O.

The Sophomore class is preparing a play which they expect to give in the near future.
The orchestra is preparing for a musical entertainment which they plan to give November 13.
