

Fair Treatment of USED CAR buyers .. your Buick Dealer's Policy

The used car that serves you most satisfactorily—that gives you the most transportation for your money—naturally offers the greatest used car value.

Go to the Buick dealer. He offers a wide selection of makes and models in his used car stock.

His prices are fair—based on the actual resale worth of the car in question. And he will tell you the true condition of any car he offers for sale. He is always careful to guard his high reputation in the community.

When you buy a used car from your Buick dealer you know that it will perform as promised—you know that you are getting your money's worth.

W. C. T. U. MONTHLY MEET

The Plymouth W. C. T. U. met Friday, May 25, with Mrs. Ed Phillips, on Dix Street, with ten members and two guests present.

Mrs. Wm. Caldwell had charge of the devotional period, reading Proverbs 13:10-15, and leading in prayer.

During the business session it was voted to send Mr. Dan Clark a letter of thanks for the splendid help he has given the Flower Mission and Relief Department in sending barrels of clothing to the mining district.

The program was in charge of Mrs. Paul Fisher, who read an article entitled "An Appeal to Mothers" by Frances Willard. Mrs. Fisher was assisted by Mrs. L. Z. Davis who gave "To Every Child Belongs the Right to Spiritual Training." In the giving of this article the thought was brought out that "in the five pointed child welfare program of the Woman's Christian Temperance Union" that to every child belongs the right to be (1) well born, (2) to be properly trained, (3) to protection from child labor, (4) to be morally safeguarded, and to be (5) well brought up.

Mrs. Wm. Caldwell gave "Every-Day Builders," Mrs. Ed Phillips, "This and Now," and Mrs. Russell Scott, "The Heritage of Every Child—To Be Well Born." In this reading it was declared that the greatest asset, the child in the midst, is the greatest. The United States of America, by writing into the Constitution the 5th Amendment, is helping to make possible the heritage for every child. Herein lies America's greatness. For there is no greater menace to the health of the parent and child than alcohol.

Sir Arthur Newsholme, the great English authority on public health, makes this statement: "The enforcement of compulsory abstinence from drinks, which in the past have been provocative of more disease, crime, vice and destitution than has arisen from any other single cause, is the latest contribution of America to public health."

During the meeting there was a discussion of Presidential candidates and the president, Mrs. Baitzel, called the attention of the ladies to an article in the April number of the Ohio Messenger, official organ of the Ohio W. C. T. U., which said in part, "as the organized friends of the liquor interests indicate, a wet President, elected from having the power to appoint 40,000 office holders could appoint to the next vacancies on the Supreme Court justices who could undo the strong support given to the 18th Amendment by the Court in the past eight years. Whether prohibition will stand depends in large measure on the interpretation of the courts, says Mrs. Mable Walker Willett, U. S. Assistant Attorney General. It is almost literally true to say that every wet argument against prohibition has been answered by the Supreme Court, as constituted at present, in its decisions. Many decisions have been made in five to four, a very narrow margin."

Justices of this court have been appointed for life and may retire at the age of seventy. It is to be expected there will be vacancies on that high bench in the next administration. That is one reason why the wets want to elect a wet president. The public expects such a man to appoint to the Supreme Court other offices men of his own views. Surely the W. C. T. U. must "carry on."

REMOVED HOME

Mrs. A. E. Devore was removed from Oberlin to her home here in the McQuate Invalid Coach of Shiloh on Friday afternoon. She is reported to be resting nicely.

ENTERTAINS FRIENDS

Mrs. F. B. Stewart entertained a few friends Thursday afternoon at bridge. Mrs. Joe Bevier held high score, receiving the prize.

A lovely lunch was served to the following who made up the table: Mrs. E. E. Baidt, Mrs. A. C. Brumbach, Mrs. Joe Bevier and the hostess.

DINNER GUESTS
Mr. and Mrs. Stacy Brown and children entertained at Sunday dinner. Mr. and Mrs. H. F. Murray and children, Mr. and Mrs. R. P. Sharick and Mrs. Charles Smith of Willard.

DINNER GUESTS
Honoring their guest, Mrs. Blanche Carter, Mr. and Mrs. Ed Phillips entertained at dinner Monday evening. Mr. and Mrs. Roy Loomis and Mrs. Eva Moats of Shelby.

Acids in Stomach Cause Indigestion
Medical authorities state that nearly all cases of stomach trouble, indigestion, sourness, burning, gas, bloating, etc., are due to an excess of hydrochloric acid in the stomach. The delicate stomach lining is irritated, digestion is delayed and food sour, causing the disagreeable symptoms which every stomach sufferer knows so well.

Pharmalol is a wonderful relieving agent in all cases of stomach and bowels trouble. Pharmalol comes in handy tablet form and is not unpleasant to take. Positively does not contain any habit-forming drugs and may be used by young and old. Entire satisfaction for your money cheerfully refunded.

DO NOT ACCEPT SUBSTITUTES
If your druggist cannot give you the full sized package will be mailed to you upon receipt of \$1.00. (Three for \$2.75.)

The Public Forum

Opinions expressed under this heading are those of the contributors, not of The Advertiser.

The Memorial Day Program, which appeared in last week's issue of the Advertiser, stated that Rev. Himes would be the speaker at the Presbyterian Church which was absolutely correct. It will be remembered that two years ago Rev. Gibson of the Methodist Church was the speaker at the Lutheran church, last year Rev. Miller was the speaker at the Methodist Church, therefore Rev. Himes should have made the memorial address last Sunday. We do not know who is responsible for this error but it seems to us that the Legion should have been consulted before any change in the program was made. The Legion wishes to work with the Church in all fairness and this error causes Rev. Himes of the Lutheran Church to lose his turn in the rotation plan which the Legion regrets very much.

Editorial-News And Comment On National Happenings

(By The Wiedler Syndicate)

There aren't very many of us who are courageous. The rare person is courageous. We like to do the things that everybody is willing to do—especially if they have to. But how many of us are there who figure out the difficult thing first, face it, go through with it—and then pass on to the easier tasks? The foundation for everything is always the most important. And if we school ourselves in the way that gives us courage for tasks far beyond any we have ever attempted, then we are able to go ahead with the little fear in our hearts. Who doesn't admire the one who is not afraid to stick his nose or his head into a hole or lose it all? ... Every time you bidstest the difficult thing you make it harder than ever to face the same task again. But every time you make an attempt to go through with the difficult thing you assure yourself that it is possible. You desire become accumulative. As soon as you bury your heart in your work, no work is too difficult, even though every eye about you is one of discouragement. Sometimes it may seem that the difficult thing is left to us alone, but if it is, that should be something to glory over rather than be depressed by. It is a compliment to one to be told that you alone are the one to do the difficult thing. You don't have to ask for volunteers to do the easy jobs.

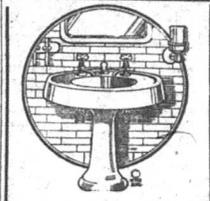

The law which held amounts of income taxes paid in secrecy has acted as a boomerang for the government, especially in investigations of the oil fields—so another bill has been passed in the House to allow invest-

mentors to look over accounts of firms and individuals to see what amounts have been paid and whether all returns have been made. Should this bill fail to become a law look over the list of voters against it and see who "stands by" with big business.

A bill has been introduced in Congress which provides that when it is in session a nurse shall be in attendance. Yep, a wet one.

A family living in an Illinois town did not believe in putting their savings in a bank according to a news story. That is the same old-fashioned idea that many people have had for years and has been deplored with abundant publicity, since it not only subjects savings to the danger of theft but also sacrifices the interest-earning power that assists and encourages thrift so wonderfully. But William Beck and his aged mother did appreciate a little return on their savings as they had \$2,500 in the form of treasury bonds, which they kept in the house. It was a safe investment, but it did not guard against bandits who entered the house, killed Beck and injured his mother. Of course, banks may be robbed, but they carry insurance against loss during the unrestrained period of banditry.

Adult literacy in some of our states and communities includes from eight to 20 per cent of the population. The majority of these people are capable of learning to read and write. Because adult education is as yet outside the compulsory laws, it requires more love and tact than any other problem before us today. There is no work that more directly affects the welfare of our children than this raising of the

lowest strata of society. Thirty-nine states now have committees for this work. Letters have been sent to all chairmen in Alabama, asking each one to teach three illiterates. Many states have night classes in operation. Delaware has sixty and over 1000 men and women (illiterates) have completed the course. Parent-Teacher groups have borne the expense. The state of Utah is co-operating with the governor to secure an appropriation for \$10,000 from the state to be used in eradicating illiteracy.

Another outbreak of "insurance collecting" has occurred on Long Island. Another wife and a good-natured friend are charged with plotting to kill the husband in order to collect his \$5,000 insurance. This happened right in the vicinity of the Baptist Gray case. Evidently the experience of that famous case had no exemplary effect in that vicinity.

Is the summer a thing of clouds, seeds, sweat and nothing more? When one has his crop gathered in the barn has he all that the summer was intended to give him? Is not summer more than a time for pleasure and a season in which to gather things for the winter's stomach? Does not the summer reveal ourselves to ourselves? What you see in birds, trees, grass and flowers reveals yourself. Long ago, a Hebrew poet said, "The heavens declare the glory of God," next Sunday, 11 a. m., morning worship.

Girl Scout News

Scout meetings are about to close for the summer months as hot weather is the time for vacations and is hardly conducive to hard work (even though said weather has not as yet put in an appearance.) Individual work will proceed as usual by our more energetic Scouts and we hope to manage an occasional hike.

Dorothy Fetters, Jane Bachrach, Doris Davis and Helen Dick completed requirements for the Health Winner badge which meant knowing the fundamental points about health and involved the more trying task of keep-

ing a chart for three months; the most difficult part being to give up nearly almost entirely for that time.
Two weeks ago the girls entertained their Mothers at a special Mothers' Day meeting, for which Patrol 3 worked up a very nice program. Patrol 4 made favors, Patrol 1 prepared the Scout rooms with more painstaking care than is usually administered, and the second Patrol served delightful refreshments. It is always so much more fun to do "special" things.

Our contest closed with last Monday's meeting the 3rd Patrol retaining the lead they have held throughout with 108 points. Patrol 2 was second with 89 points. Patrol 4, 46 points and Patrol 1, 25. The manner of entertainment will be left to the whims of the winning patrol and whatever they say, goes!

UNITY CLASS MEETING
The Unity Bible class of the Lutheran church will meet at the church parlor Wednesday, June 6th, in the afternoon with a pot luck supper.

LIGHT BRIGADE PICNIC
The light brigade met at the Lutheran church Wednesday afternoon for the annual picnic held before divorcing for the summer months.
A short meeting was held with forty members, one visitor and three leaders present.
The remainder of the afternoon was spent in playing games.
At five o'clock a picnic supper was enjoyed by all after which the young folks adjourned having spent a delightful afternoon.
No meetings will be held during the vacation months.
The meetings held regularly during the past school year have been interesting and well attended. May they be coming fall.

WILLARD YOUTH DIES

Model T Fords

Expenditure of few dollars may enable you to get thousands of miles from your old car

THE Model T Ford is still a great car. It led the motor industry for twenty years and it is used today by more people than any other automobile. More than eight million Model T Fords are in active service in city, town and country, and many of them can be driven for two, three and five years and even longer at very small up-keep expense.

The cost of Model T parts and of necessary labor is unusually low because of established Ford policies.

New fenders, for instance, cost from \$3.50 to \$5 each, with a labor charge of \$1 to \$2.50. Tuning up the motor and replacing commutator case, brush and vibrator points costs only \$1, with a small charge for material. Brake shoes can be installed and emergency brakes equalized for a labor charge of only \$1.25. A labor charge of \$4 to \$5 will cover the overhauling of the front axle, rebushing springs and spring perches, and straightening, aligning and adjusting wheels.

The labor charge for overhauling the average rear axle runs from \$5.75 to \$7. Grinding valves and cleaning carbon can be done for \$3 to \$4.

A set of four new pistons costs only \$7. For a labor charge of \$20 to \$25 you can have your motor and transmission completely overhauled. Parts are extra.

All of these prices are approximate, of course, because the cost of materials needed will depend on the condition of each car. They show, however, the low cost of putting the Model T Ford in shape for thousands of miles of additional service.

See the nearest Ford dealer, therefore, and have him estimate on the cost of re-conditioning your Model T Ford. He will tell you, in advance, exactly how much the complete job will cost.

Just a Few Timely Suggestions From
The Beelmer Mfg. & Lumber Co.
WILLARD Phone 304 OHIO

Prof. J. C. Woolley of the University of Missouri gives us some interesting data on the value of housing farm machinery. He says: "A walking plow lasts 15 years exposed, 20 housed; a gang plow lasts 10 years exposed, 20 housed; a binder lasts 3 years exposed, 12 housed; a farm wagon lasts 10 years exposed, 24 housed. Whether these facts are absolutely correct, we don't know, but one thing is certain: "Farm machinery costs good money and a good implement shed to keep it in is sure one of the best investments a farmer can make."
He: "You look like Helen Brown."

Great

Just try to follow a Pontiac all day long

Of all the qualities revealed by the Pontiac Six—of all the elements contributing to its ever-growing popularity and sales—none is more sensational than its ability to maintain top-speed, hour after hour, all day long.
And today's Pontiac Six, retaining all the size and ruggedness of its famous predecessors, offers even greater stamina because of important new features such as crankcase ventilation, a new and heavier clutch, better carburetion, newly designed steering gear and a deeper, more rigid frame. Here is a car designed and built to withstand the punishment of top-speed travel day after day. And no matter how far or how long you keep going, you can always be proud of its performance!
