300,000 EXTRA VOTES FIRST WEEK COUPON

This coupon, when accompanied with 25 yearly subscriptions or its equivalent enters the contestant to 300,000 extra votes if turned extra votes if turned in during the candidate's FIRST WEEK in the campaign. This offer is in addition to any other extra votes offered.

In this issue of the Plymouth Advertiser is given the list of candidates who have so eagerly awaited by the people of Plymouth. The names of all entry entrants in the Plymouth Advertiser salesmanship campaign. The Plymouth Advertiser is proud of the list and is proud, so for it contains the names of many representative people throughout the territory in which the Plymouth Advertiser circulates. People known for their ambition, energy and enthusiasm. Of course the list does not contain the names of all the ambitious folk in this section, for several more are yet to enter the race. Others have been awaiting the great campaign and now that they know who their competitors will be they will not be slow in sending in their nominations at once and going after the votes in dead earnest.

Up to now little has been done, most of the time being given over to the listing and instruction of candidates—missionary work which has been called—but from this time on the work will take on definite form and there will be no time wasted by the candidates who prompt them to feel that the Pontiac Coach shall be theirs when the campaign closes. The standing of the candidates as printed today credits them with only the nomination ballot, the signed card and a few votes which have been secured. In subsequent issues of the Advertiser however, will see the vote in reverse; the race will take on the aspect of a big political campaign with the participants and their friends hurrying for votes and high prizes. Do not be scared out because there are so many names and because someone tells you that you would not have a chance. There is no chance about it. This business is a selling proposition pure and simple and you can sell the most subscriptions and secure the most votes in going to win a wonderful prize. The sales hard work that is there anybody who will say that the prizes are not worth the effort? When a wonderful prize is being given no one can honestly say that it would not be worth their while to win any one of them.

Safety Insurance Free of Charge

Ignorance of proper materials for construction and preventive equipment is one of the chief factors in the enormous annual fire loss of the United States. Underwriters' Laboratories, Inc., the non-commercial testing organization maintained by the stock fire insurance companies through the National Board of Fire Underwriters, is doing probably more than any other one agency to combat this condition by disseminating information gratis concerning materials, apparatus and processes in relation to fire. Its activities also extend to casualty and automotive risks and to burglary and handily protection. Offices and laboratories are maintained in Chicago, New York and San Francisco where thousands of tests are conducted to determine the safety factors of commercial products. Those that pass muster are listed by the laboratories as safe and satisfactory for the purposes for which they are intended. The complete lists of products of the whole field of fire, accident and burglary may be had for the asking at the three offices mentioned. Plans on insurance boards and rating bureaus practically everywhere. There is no reason why anyone contemplating a purchase ranging from a furnace to a flat-iron should not become acquainted with the lists of inspected appliances and thus be able to select wisely and safely. This is the common practice among engineers, architects and the purchasing departments of business organizations, and the same service is offered gratis to the entire public. No more accidents will go far toward the reduction of our traffic and wholly unnecessary accidents of life and property by fire and accident.

HENRY FIDLER DIED TUESDAY

THE SACRED DRAMA, JOB WAS WELL RECEIVED

The sacred drama, Job given by the Junior Boy Scouts at the Presbyterian Church, last Sunday evening, was well received. The drama was arranged from the story of Job as recorded in the Bible. Scene one represented Job as a prosperous man, living east of the Sea of Galilee, in early Bible times. Everything, that was in those primitive times could afford Job possessed. He also possessed a faith in his God that was surpassed by none to be so thoroughly tested.

Scene two represented a plan to test Job's faith and piety. No man is at all times and he has been thoroughly tested.

Scene three represented Job withstanding the severe test Job suffers the loss of all his health. Misfortune follows misfortune, and finally all his children are taken from him. He rises above his troubles and says, "The Lord gave and the Lord has taken away, and I shall go on without anything, and I shall go on without anything."

Scene four represents a second test. Job may not care for any one but his greatest grief is his body is afflicted with a loathsome disease. Friends and neighbors forsake him. He and his wife are left to renounce his God and die. Three friends from a long distance come to see him. He tells his friends his affliction is due to some secret sin which he may have committed. He maintains that such is the case. In the argument he says that he would like to climb up the mountain side with a pen of iron, write on the rocks the words, "I know that my Redeemer lives." Let be looked upon as self righteous, he bows his head and repents in dust and ashes.

Scene five, Job's health has returned. His wife has increased to double what it was before. His friends and neighbors return to him and praise him; again he has a happy family of children. In the life of a man, reverses may come. There is nothing that is certain in our life, but no tragedies. No evil thing can harm a good man in this world. It is the will to come. In the end the life a good man is a success.

Chief among the musical numbers was the quartet "Open the Gates of the Temple, sung by William Harris, Harley Kendig, Mrs. Luther Fetters and Edna Kline. William Harris sang "I would be True" with song by Iden Jackson, and a capital, lullaby by Mrs. Kline. The church choir sang, in a very impressive manner, the other musical numbers in the drama.

Among those from out-of-town who heard the sacred drama, Job, at the Presbyterian church, last Sunday evening were Mr. and Mrs. Flowers of Gallon, Ohio.

School nurse says

all girls should know this

TALKING to a roomful of high school girls on personal hygiene, an experienced district nurse said: "One of the basic rules of health for girls is to keep the system functioning naturally at all times. Normal exercise and diet habits should be encouraged. But when necessary there's no harm in taking nujol, since it works mechanically and can't disturb the normal functions of any organ of the body. Particularly with girls, there are times when nujol should always be taken. Take a spoonful every night for a few days. It's a thoroughly safe and harmless method. It won't cause dizziness or gas pains or griping."

Nujol is different from any other substance. It contains no drugs or medicine. It can be taken safely no matter how you are feeling because it is so pure and harmless, and works so easily. Every woman should keep a bottle on hand. Every droplet has this remarkable substance. Get the genuine.

BETTER ENGLISH CLUB

The regular meeting of the Better English Club was held Wednesday, April 24th. Each member had written an autobiography of himself and these were read. M. C. O. TRACK MEET

The P. H. S. track team participated in an invitational track meet at Mansfield last Saturday. Considering that they were in class A competition they made a fair showing. The schools in the meet were: Mansfield, Fremont, Marion, Ashland, Willard, Shelby, Delaware, Westerville, Medina, Columbus east, three Akron teams and Plymouth. Plymouth did not score a point but had plenty of company. Shelby, Westerville, Delaware and Medina did not score.

In the remaining meets of the year we expect to compete with schools in our class and thereby make a better record. Thursday p. m. we will go to Shelby. The next meet will be promptly at 3:30. Come along. We need your support.

Mr. Miller to Mr. Jenkins: "I want to present you my wife."
Mr. Jenkins: "Oh! no thanks I have one already."

Minister: "If I had power I'd dump all beer and other moonshine over there in the river."
Choir: "Master: "We will sing, "Shall we Gather at the River?"
Small Brother: "Ha, ha! I saw you kiss Sla!"
Sister (hurriedly): "E-rah, he's a quarter."

Small Brother: "And here's 10 cents change. One price to all, that's the way I do business."
"Does your dog chase cows?"
No, he's a bull dog."

"Robert," said the teacher, to drive home the lesson which was on charity and kindness: "If I saw a man leading a donkey and stopped him from doing so, what virtue would he be showing?"
"Brotherly love," said Bobby promptly.

Mr. Worsted: "I have a very economical wife. Yesterday she made a necktie for me out of her dress."

Mr. Yarn: "Well, I have a very up-to-date one. Yesterday mine made herself a skirt out of an old necktie of mine."

Two Scots were fishing, but were new at the game.

"HOW TO KEEP FIT."

BY NORMA TALMADGE

Film Star, Who Says Movie Life is—No Bed of Roses, Tells of Daily Schedule.

By Norma Talmadge
One soon learns that to be happy, one must keep fit. You can't be content by being over or under weight, and you can't play the role of a heroine in an American motion picture unless you look fit. I have worked out a plan for myself which I follow consistently all the while I am working in a production.

Motion-picture acting is not, as so many still think, a constant round of pleasure. While a picture is being made at the studio, one is obliged to adhere to a rigid military regime. I get up at seven o'clock in the morning, have a cold bath and am dressed in half an hour, ready for a light breakfast. Then I walk to the studio—alone, seldom see or talk with people during the making of a picture.

While I am studying a part, I try to live and feel like that person. To do that, I often find it necessary to go off by myself and think out the role I am to play. Such a walk enables me to do that. When I arrive at the studio, I am in the mood for the character I am to play.

At one o'clock, I have a light vegetable lunch in my dressing room. Then I work straight through until four o'clock tea-time. That is the time of the day I have always loved best. It is a reflective hour and the sky is soft with the contrast of twilight.

Directly after dinner—which is at seven and never an elaborate affair with me—I go back to the studio. There I spend an hour in the projection room watching myself act out the joys and sorrows I enacted during the day, in the name of the heroine whose role I am playing. I criticize myself freely and always listen to the criticisms of others, too.

At the close of the day I find it refreshing to take a motor-ride in an open car around the gentle hills of Sagamore Park, or to see the great southern Pacific Ocean—back home—and so to bed.

As far as management is concerned a new leaf has been turned in our postoffice. E. L. Haindel, the Boughtonville storekeeper succeeds Glenn H. Maynard, resigned. It is very fitting that at this time that the Boughtonville postoffice was organized 35 years ago. Mortimer Maynard became the first postmaster in Nov.

Twenty-two years ago, May. Let Mort Maynard and a few others saved our postoffice by establishing our rural route. Frank E. Long may he live.

We note without being personal that the play was well represented at the Pickford films in Willard Sunday night. We are strictly opposed to the Commercializing of the christian sabbath. The Sunday theatre should be closed for the day as reproachable business in any manner. The world is sick, and has been for centuries. In the days of Israh it was sick. They were carried into exile. He said "The whole head is sick and the whole heart faint" and like the great saint, can only be comforted by entertainment. There is no use in our talking—spiritual conditions are distressing. When members of the church can desert the sanctuary and the altars of their God for a brief passing found in a Sunday evening picture show.

The Ohio Society of Sons of American Revolution in session last week in Toledo elected Jesse A. Fenner an attorney of Cleveland as its president. The winner was in the upper third of the Shiloh High when Mr. Fenner was probably entering his studios life in the Primary Department. We are truly appreciating the honor conferred on the able attorney to the fullest. We always called his father one of the best men we ever knew.

We take pleasure in noting the honor conferred upon a Shiloh born boy Jesse A. Fenner, son of Joseph C. Fenner, the firm of Fenner and Praline, druggists, who held a partnership for over forty years. Death rest on them.

Your Model T Ford

is still a good car

THE Model T Ford led the motor industry for twenty years because of its sturdy worth, reliability and economy. Those same reasons continue to make it a good car.

As a matter of fact, nearly one-fourth of all the automobiles in use today are Model T Fords. Millions of them can be driven two, three and even five more years with reasonable care and proper replacements. Figures show that the average life is seven years.

Don't sacrifice your Model T, therefore, but take it to the Ford dealer and have him estimate on the cost of putting it in A1 shape. A very small expenditure may be the means of giving you thousands of miles of additional service.

For a labor charge of \$20 to \$25 you can have your motor and transmission completely overhauled. This price includes new bearings, reborng cylinders and any other work necessary. Parts are extra.

Valves can be ground and carbon removed for \$3 to \$4. The cost of tightening all main bearings is only \$6. The labor charge for overhauling the front axle is \$1.50 to \$5—rear axle assembly, \$5.75 to \$7.

New universal joint will be installed for a labor charge of \$3. Brake shoes relined for \$1.50. Rear spring and perches rebushed for \$1.75. The cost of overhauling the starting motor is \$3. A labor charge of approximately \$2.50 covers the overhauling of the generator.

It will pay you, therefore, to see your Ford dealer and have him put your Model T in good running order. By doing so you will protect and maintain the investment you have in your car and get months and years of reliable transportation at a very low cost per mile.

Our hats are off to P. E. Weidner, Mayor of Norwalk, who says that he has a firm, assessed at \$55 per acre. If he buys a new automobile, thirty days or three days afterwards, when it is listed for taxes, we turn it in at 85 per cent of its value. Why can't the farmer enjoy the same privilege?

FLORIDA SURPASSED Uncle George arrived at the age of 82 and began to lose pop. Friends advised him to go to California for the year. So he started, arrived in Cleveland and lost five years, arrived in Chicago and lost five more, arrived in St. Paul and lost five more years. When he landed at Colorado he lost fifteen more. Was delighted at his arrival in Los Angeles. Lived there two months and died of infantile paralysis.

His nephew who lived in Ft. Myers, Fla., wished the uncle to be buried in the new cemetery. The body arrived in the evening.
