## BUILDING BURNS NEAR PLYMOUTH

### Barn and Fields of Burt Hunter Are Ravaged By Fire As House Is Saved

A barn located on the farm of Bert Hunter, four miles south of Plymouth on the Shelby road, was completely destroyed by fire late Tuesday afternoon. The blaze is thought to have had its origin in a pile of straw in the rear of the building where Hunter's children were playing with matches.

The fire spread quickly because of the dry condition of the land and buildings, and made much headway before it was discovered. Besides a supply of hay, straw and grain, which was burned, an automobile, a cow, rabbits and a family of cats were in the barn when the blaze started. Neighbors assisting Mrs. Hunter were able to save all but the hay. One child, playing in the barn, ran out before the fire gained headway.

As the well was located near the burning buildings it was impossible at times to obtain water, and barrels were filled and carried by truck from Morris' pond. As the blaze was in full control of the barn and the fire spread to the house, which was only slightly damaged.

Hunter did not know of the loss, as he is employed at the shops in Plymouth, until the buildings had collapsed, but was enthusiastic over the help of the neighbors who left all work to fight the flames. The barn was partially covered by insurance.

Wild cats and a number of men pounced out the fire as it spread to adjoining fields. The smoke could be seen and the crackle of the fire heard for a great radius around the farm.

Mrs. Esther Gibbs Powers of Norwalk is secretary of the society.

It is likely that considerable attention will be centered on the subject of a new home of the museum, now located in the cramped rooms of the basement of the library. Many relics have been stored because of the lack of room.

## School Robberies May Now be Solved

Since 1922 Ohio schools have been menaced by robberies of mysterious origin. A large number of schools have been entered and motion picture projectors, musical instruments and other similar equipment stolen.

The arrest of Orris Goodyear, Raymond Eagleton and John Gehring in connection with the theft of Louis Sherman, Columbus Confectionery, led to unravelling the school robberies.

Eagleton and Goodyear implicated Harry Laro, who has conducted a concern known as the "American Shoe Company." According to Eagleton and Goodyear, Laro paid them \$15 for each motion picture machine they stole from school houses.

The informants assert that Laro "worked" the territory around Columbus himself. Laro's alleged activities began in 1922 when he was released from the State Penitentiary. It is said that on leaving the pen his wife gave him \$2000 to set up a business, and this was the business that Laro developed. He is alleged to have disposed of his goods through advertising in the Billboard and New York papers.

All schools which have lost equipment since 1922 should get in touch with the Columbus Police Department, Detective Bureau, at once. Laro is in jail under \$10,000 bond in Bucyrus and Goodyear and Eagleton are in jail in Columbus.

## FIRE THREATENS FARM PROPERTY NEAR HERE

The Lenton Cline farm near New Haven was endangered by fire Sunday afternoon.

The blaze started in a blackberry patch belonging to Ed King, in Ripley, and rapidly swept over the half a mile to the Cline farm on the New Haven road. Tools and stock were removed from the barn and chickens were taken from the hen house when it was feared the flames would consume the buildings.

The Greenwich fire department was called, and with the aid of neighbors and a full cistern of water the fire was controlled before it reached the Cline property.

A little more than a year ago, this farm suffered a loss when the huge home was burned.

## FIRE IS DESTROYING VALUABLE WOODLAND

NEW LONDON—Thousands of dollars in timbersland will be lost from a forest fire which has already destroyed 35 acres of woodland.

The land is the property of Homer Johnson, Cleveland attorney. The fire was still raging the first of the week, while volunteer workers were trying to keep it from consuming the entire tract of 1,000 acres.

## Don Willett is Held Prisoner at Norwalk

When Sheriff Harry D. Smith, his deputies and Willard police, raided a house between Willard and New London, early Monday morning, they found Don Willett apparently in the act of operating a home brewery.

The officers found 49 gallons of mash, 275 bottles of beer and a quantity of some alleged hard liquor. Willett was taken to the county jail at Norwalk and being unable to pay the fine of \$500 imposed Tuesday by Judge J. M. Bechtel is still held.

At 3 p. m. the officers swooped down on the establishment and while examining the mash, a large vessel containing the mixture fell upon Patrolman Homer Sherburne of Willard.

Willett is a former resident of Plymouth, living on Bell street while here and was employed as truck driver for the Bowsher Bakery of Shelby.

## Changes Made in New Election Code

The new state election laws will provide considerably more work on the county board of elections and the precinct workers.

Beginning with this year, election workers must be on the job at 6 a. m. instead of 6:30.

The tabulation is to be made under the new law on a test sheet and then entered in the poll book. This must be checked with and unopened ballots which must be certified to and returned. Heretofore the unused pad of ballots was burned immediately after the closing of the polls.

The pay for precinct officials has been increased from \$5.00 to \$5.00 a day. Presiding judges get paid extra for coming after the supplies and bringing back the returns and also mileage if the place of residence is outside Norwalk.

The polls will open at 6:30 a. m. and close at 6:30 p. m.

## OLDEST MAN IN RICHLAND CO. DIES

### John Peter Burgoyne, Age 94, Succumbs From Injuries Suffered July 25

John Peter Burgoyne, believed to be the oldest resident of Richland county, died in the Shelby Memorial Hospital at 3:45 p. m. Monday, Mr. Burgoyne, who celebrated his 94th birthday anniversary last June 13, was a resident of Bloomingrove township all of his life.

On last July 28, Mr. Burgoyne suffered a fracture of his left hip while visiting at the home of his son, George Burgoyne, in Ganges. This injury resulted in his death Monday.

Mr. Burgoyne was active in mind and body previous to the time of the accident. At the time of his celebration of his 94th birthday anniversary, physicians marvelled at his strength, reporting that he had an unusually strong constitution.

Mr. Burgoyne leaves his son, the only close relative.

Funeral services were held Wednesday afternoon at 2:30 at the Community Reformed church in Ganges. Rev. Mrs. Cox officiated. The I. L. McQuate Funeral service at Shiloh was in charge of arrangements. Burial was made in the mausoleum at the Ganges cemetery.

## COTTER HIGHWAY TRUCK HAS UNUSUAL ACCIDENT

An unusual accident occurred on the Square before Rogers' Shoe store Friday morning when a Cotter Transportation truck, of Mansfield, lost the trailer.

A pin released, which held the truck to the pavement. As the truck was carrying a load of milk bottles, the crash called a considerable crowd to the scene. The drivers of the truck, Raymond Whistler, and James Mel, stated that they were bound for Athens, Ohio.

It was necessary to use two large jacks to force the truck end high enough to fasten again on the platform of the body.

## OHIO HAS RIGHT TO PUT EXCISE TAX ON GAS CO.

The final decree in the East Ohio Gas Company case was filed in the Southern District Court of the United States, Eastern Division, by Attorney General Gilbert Bettman.

The decision in this case sustains Mr. Bettman's contention that Ohio has the right to levy excise taxes in the amount of \$25,000 on gas sold by the East Ohio Gas Company in this state.

Other companies which are affected by the principle of this decision are the Ohio Fuel Company, The Ohio Fuel Gas Company, Northwestern Ohio Natural Gas Company, River and Company, and the Logan Gas Company.

## PLYMOUTH'S WATER SUPPLY IS SUFFICIENT

Plymouth's supply of water is holding up exceptionally well and there is no immediate shortage in view, according to Ed Phillips, city engineer.

The hot weather and the drought the worst in years, has done considerable damage to gardens and lawns in this vicinity, and the owners are drawing heavily on the water supply to water them. The only complainant Mr. Phillips says he knows of, are the ones turned into the office when his quarterly statements were mailed.

The Baltimore and Ohio's water supply at Willard is quite low, and for the past 15 days, the Willard power plant has been pumping city water into the reservoirs at the rate of 350,000 gallons per day.

The hot weather and the drought, although the pumps are going hard, there is sufficient water for every purpose in that city also.

## CRESTLINE FACTORY IS CLOSED BY SHERIFF

If the contests prove exceedingly close, further broadcasts may be made throughout the entire night and next day.

Microphones will be placed in the private office of Clarence J. Brown, in charge of "Neighbors" Palmer, announcer of WAUW, and "Uncle Ben" Burrow, of the School of the Air fame, representing WLVW. Both are experienced announcers and arrangements have been made to give the returns in an interesting manner. Secretary of State and prominent newspaper men, correspondents will also give their version of the races.

On Monday evening, August 11, Brown will broadcast his final instructions to county and precinct election officials through the courtesy of Station WAUW and station manager Fred A. Palmer.

Work of grading the Walnut road for a distance of five miles from section line road No. 8 southward to Route 17 in New Haven and Greenfield townships has been started and will probably be finished soon. ### Norma Shearer Starts in Comedy at Temple Theatre

"Let us Be Gay," with Norma Shearer in the starring role, will be the attraction at the Temple Theatre starting Sunday. The picture was adapted from the New York stage success by Rachel Crothers which ran for ten months at the Little Theatre with Francine Larrimore in the role portrayed on the screen by Miss Shearer.

Robert Z. Leonard, who produced the star's last success, "The Divorcee" directed the current production and gathered together an unusually important supporting cast which includes Rod La Rocque in the leading masculine role, Marie Dressler, Gilbert Emery, Helida Hopper, Raymond Hackett, Sally Elders and Tyrrell Davis.

The story is an amusing tale of a woman who loses her husband's affection because she neglects her appearance in an over-efficient absorbance in household duties. A few years in Paris, however, teaches her a number of things she had never thought of before and she returns in time to prevent her husband from marrying a charming but entirely unappreciated debutante.

The plot offers Miss Shearer plenty of opportunity for smart comedy as well as straight drama while humor or a more risible type is offered by Marie Dressler in the role of an erratic dowager.

The scene are laid in attractive society settings and include vistas of country gardens, wooded nooks and luxurious interiors. Miss Shearer is seen in a wide variety of smart costumes and reveals a number of new coiffures.

The combination of an intriguing plot, clever characterizations, witty dialogue and a particularly effective performance upon the part of the star are said to make this picture unusually good entertainment.

Swisher & Chamberlain was awarded the contract for the construction of the Bowen, Cedar, Elmwood-Olivesburg Ganges and Trimble roads and have finished work on the Bowen road.

James and reveals a number of new coiffures.

The combination of an intriguing plot, clever characterizations, witty dialogue and a particularly effective performance upon the part of the star are said to make this picture unusually good entertainment.

**DRY WEATHER BOOMS TIMOTHY HAY HARVEST**

**THIRD SET OF TWINS DELIVERED BY STORK**

The stork evidently knows a good home when he sees it, for on July 21st he delivered the third set of twins in eight years to Mr. and Mrs. Aaron Shull of Kent, Ohio.

Howard and Harold, the new arrivals, tipped the scales at seven and a half and five and a half pounds respectively, and are said to be the cunningest things imaginable.

Violet and Vernon, the eight year old twins are not only delighted but are willing to help in the care of their age 4 years, who stand around and gaze in awe, wondering whether Howard and Harold will entirely usurp their places.

And then to top it off, Mrs. Shull herself is a twin. The old saying that the twins misg to generation is all the bunk, as Mrs. Shull can verify with her three sets of twins.

Mrs. Shull is a sister of Mrs. Vance Judson of Texas, who with her sons, Russell and Taylor, are visiting at the home of Mrs. J. L. Judson.

A hearing on the improvement is to be held before the county commissioners this fall.

**CUBAN-JAPANESE TREATY WITHDRAWS AMBASSADOR OF CUBA FROM THE U. S.**

The importance attributed in Cuba to the new Cuban-Japanese commercial treaty is distinctly proved to the eyes of the world by the recent appointment of Dr. Orestes Ferrera, Ambassador to Washington and Cuba's delegate to the League of Nations, as Ambassador to Japan.

This appointment is made, according to reports from Havana, in order that Cuba may avail herself of the service of one of her outstanding diplomats and statesmen on concluding the commercial treaty. The commercial treaty is one of the important steps

in Cuba's new program for combatting the economic crisis through the development of new markets for her products. Japan offers a market of potential importance for Cuban sugar, which is the most pressing item of the program.

Japan's industries may be able to furnish many of the manufacturers that have previously been furnished by the United States. There is some discussion concerning the emigration clauses included in the treaty.

## PRESENT SEASON BEST FOR CULLING LOAFERS ACCORDING TO PROF. IVELY

By Prof. John E. Ivey  
There has been so much said and written about culling during recent years that I fear that sometimes we get confused about the real meaning of this statement. The common impression seems to prevail that we should cull the birds twice a year.

Culling, to me, means careful supervision of the flock 365 days of the year and taking out of the flock birds that are unprofitable and undesirable. At this season of the year it is very easy to go in the hen house at night with a lantern or with a flash light and take out the hens that have stopped production, as indicated by the shriveled comb. These birds should be placed in coops and the next morning examined in order to see that you are not mistaken in regard to them.

This method of taking out the unprofitable hens at this time of the year will eliminate the excitement and the necessity of handling the entire flock during the day time, which often causes a noticeable decrease in production for a week or ten days after such practice is followed.

At the present price of feed it will cost about 20 cents per month to feed a hen. Whenever we allow a hen to remain in the flock that is not producing eggs we are losing this twenty cents. Hens that molt in June, July and August should be sold, as it has been proven that these are unprofitable to keep over for the second year's production.

We often hear the expression that we should keep the late molting hens as they are heavy producers, and the next statement we hear is that we should get winter egg production. It must be borne in mind that we cannot expect high percentage winter production from our hens; therefore, we must give each year more attention to production of well developed pullets and depend on them for our maximum winter egg production. Only hens that are intended for breeders should be kept the second year.

## Miller is Democratic Candidate for Sheriff

Clarence A. Miller, who announced his candidacy for sheriff of Huron county on the Democratic ticket some time ago, is backed by one of the finest records a candidate could have. Miller is widely known, and is acknowledged to be a man of fine character, and honest dealing.

He graduated from Monroeville high school in the class of 1914. Seeking further education, Miller entered West- ern Reserve University, in Cleveland, the following year, and received his diploma with the class of 1918.

Miller is known, not in the business world alone, but is an authority on agriculture, and its problems, and for ten years has been known as a farmer. Miller is also a member of the American Legion.

Miller is highly recommended to voters who participate in the primaries on August 12 and democratic candidates for sheriff of Huron county.

## POTATO GROWERS SHOULD SPRAY PLANTS NOW TO PREVENT DISEASE SPREAD

August is usually the month which makes or breaks a potato crop, and, therefore, the potato grower will be well repaid for careful spraying in this month. In the opinion of insect and plant disease specialists for the Ohio State University:

Whether heavy rains occur in August or September, or the drought continues, it is equally important to spray say the specialists. During normal August weather two troubles bother potatoes in Ohio, they say: One is the hopburn disease and the other is unsaid. They are similar in appearance; both start to kill the leaves at the tip or margin. The withered portion turns brown, becomes dry and brittle and tends to roll.

All the food that is stored in the potato tuber is manufactured by the leaves, and when the leaves ripen and die prematurely, or insects and diseases cut down the leaf area, the potato yield is reduced, say the specialists.

Plants that are kept free from leafhoppers are not affected with hopper burn, and Bordeaux mixture spray protects the potatoes from leafhoppers in two ways—it acts as a repellent and kills insects that suck the juice from the copper-treated plant.

## NEW FORAGE OF INTEREST TO FARMERS OF OHIO

The Montgomery County, Tenn., Korean and Kobe Association, have taken a booth at the forthcoming Ohio State Fair, to display varieties of Lespedeza, an importation from Japan which is proclaimed an economical substitute for hay and alfalfa, and said to be well adapted to Ohio culture.

Lespedeza is said to be unexcelled for all kinds of livestock, furnishing pasture during the late summer when other grasses are dormant. It is not necessary to lime the soil, or inoculate the seed, and will grow on poor soil. It produces from full stand an average of two tons per acre, it is claimed.

## Who's Who in Politics

**C. C. BEBOUT**  
Greenwich is very proud this season to add to the list of persons up for election the name of C. C. Bebout, a candidate on the Republican ticket for State Representative; a man who is willing to give of training and experience his best for furthering the interests of Huron County; a man with splendid educational background and mental ability and a man with a heart. C. C. Bebout was born on a farm in the corner of Huron County, in the township which is now a part of Ashland County, in 1872. When he was eleven years of age his parents moved to the north edge of Greenwich where they purchased a farm now occupied by George Beveridge. From here Mr. Bebout attended the public schools of the village graduating in 1888 with the second class to be granted diplomas from this institution. The school lacked the necessary requirements for entering college and this necessary work was done at Oberlin Academy. In 1896 he was graduated from Oberlin College taking the four years' work in three years and received the degree of A. B. His major subjects had been mathematics, history and government. He later pursued these same subjects with the addition of economics at University of Chicago.

A splendid foundation was thus made for the activities of a business life. He started as a teacher and was principal of the Greenwich schools for 1896 and '97, and superintendent of the Wakarusa schools from '97 to '98. He went to Elgin, Illinois in 1898 as head of the mathematics department and later was also head of the history and government departments. Still later he became associate principle of the schools there.

The death of his mother in 1908 changed his plans and he came back to Greenwich to take charge of the farm and for four years was manager of the

farm till it was sold in 1912. During this time he also took up the insurance business and developed a territory with the Hartford Life Insurance Company that demanded office at Columbus and became such a large job that Mr. Bebout was compelled to spend his entire time away from home causing him to resign this position and take the position of school principle at Willard. From there he was called to become cashier and manager of the First National Bank at Greenwich and where he has shown his ability for seeing through affairs and his willingness to tackle any task for the benefit of his townpeople and the community.

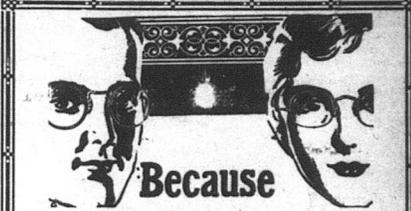

He has been called to several activities that have proven his business worth. In 1927 he was called by court to manage a business that had gotten on the rocks and he successfully took charge of the affair for three years and finally made a satisfactory sale of the business. His college preparation in government and economics made him an ideal person for sale of the business. His college education could not have grasped and in 1929 he was made chairman of the Huron County Tax Limited Amendment. He led the leaders of the County through such a splendidly planned campaign that Huron county stood third in the percentage with which the Amendment was carried through the state. His work attracted state wide notice and was two fold. When Governor Cooper selected the personnel for his Taxation Committee and was hunting for men to work out a sound proposition to be submitted to the next legislature, Bebout was selected to be on this committee. He has most faithfully accepted the responsibility and has attended the meetings all over the state as well as having put much time and mental effort on the subject. Another prominent outcome of his labors has been the instance of his best friends and most intimate fellows that he is a candidate for the Republican nomination for State Representative at the primaries of August twelfth.

As a banker, Mr. Bebout has been a real success. He has not made it easy for persons to borrow large sums of money without a just reason nor has he refused those who needed aid but in every instance where a real problem was confronted he has aided such persons by making it possible for them to help themselves. Why he has built up a strong institution in Greenwich he has also added numerous persons to build for themselves better businesses and thus has doubly

strengthened the bank's efforts for bettering the community. No one ever went to the president of the bank which position Bebout has held since 1926, without getting a hearing and a mental picture for his special need and if the need was a just or right one he got aid.

"Nothing succeeds like success," and we need men like Bebout at Columbus. Having naturally a splendid mind he has broadened that mind by a splen-

did education. He has had contracts with the conditions of Huron County that few men have had and has carried and tried to solve problems when it was for no cause but the uplift and general good of the most people. He has proven a business success and is willing to carry all these qualities to the State Legislature for still higher attainments for the citizens of Huron County. Greenwiche recommends Bebout for what he is and has done.
