JEAN BEVIER WINS THE SILVER MEDAL AT W. C. T. U. CONTEST

The silver medal, with the inscription "W. C. T. U. Declaration," inscribed on its face was presented to Miss Jean Bevier, daughter of Mr. and Mrs. Joe Bevier, Sunday evening as the successful entrant in the W. C. T. U. contest held at the M. E. church.

Supt. Paul Weaver, Mrs. Geo. Wolfer and Mrs. Griffith, all of Shiloh were the judges and the presentation made by Supt. Weaver, at the close of the program.

Mary Kathryn Derr, Helen Janice Hoffman and Roger Ross were the competing contestants, and it was quite a problem to decide just which had done the best, as all numbers were exceptionally fine. Mrs. Jason Murlin and Mrs. Peoples were instrumental in securing the children for the affair and coached them along.

Silver, gold, grand gold, diamond and grand diamond medals are awarded by the W. C. T. U. in the order named as rapidly as contests are held and all children are eligible.

Those who hold silver medals in this community from former contests include Ethel Bevier, Helen Jackson, Edward Willitt, Joe Clifty and Correl Scott, who holds both silver and gold medals.

Sunday evening's program was interspersed with musical numbers by a quartet, solo by Misses Rheba Kendall, Marguerite Drew and Correl Scott.

Old Tavern To Be Razed By Workmen

Brick House On Sandusky Street Has Seen Better Days.

The old brick house on Sandusky street, with the remnants of legend and hearsay history still clinging to its half-torn walls, will soon be, not a landmark of old New Paris, but a landmark of the past. Messrs. Russell Scott and Charles Baker are dismantling the property.

In the heyday of taverns the building was built, according to the historical minds of the older citizens of Plymouth, in about the year 1850, by a Mr. Sheper, and his family. New Paris, as the community was then known, was on the route used by pioneers in hauling their grain from west to east, the tavern was well patronized. Settlers driving through to the western frontier also used the comfortable half-way house. It was whittled at the time of the Civil War, and before that the house was used as a station of the underground railway.

The house was originally built, and has never been altered decidedly, from the old colonial style. A large hall and staircase was fenced with large rooms opening from either side. On the south was the ball room where old time fiddlers furnished music for the old scotchish, the reels, and the moonlight waltzes. (What a shock the old ballroom would have if the dance contortions of today used the formerly polished floor.)

In later years a John Adams purchased the house and occupied it as a dwelling. The next owner was John Topping, who with his family, used the spacious rooms for a home for a considerable time. William Topping bought the property and altered the plan to make a double house. Mrs. Martha Brown was the last purchaser of the old tavern, and has until some years back, rented it out to two families.

Since the old building has been empty, hearsay has had it that "kain's" resided within the brick walls. The windows have been broken and the old tavern has declined rapidly with old age. Its last rites will be held soon.

For several years he was justice of peace in Pspantian, and won recognition in that office. He was widely known for his philanthropies, and as he had no family, often cared for homeless children, two being with him at the time of death.

Willard Woman Figures in Crash

Mrs. Ruel Williams, of Willard, driving a model T Ford coupe crashed into the Studebaker sedan, owned by Lucille Finner, Wednesday night about 8:30 in front of the 22 Willet house on Sandusky street. Mrs. Finner had just parked her machine and was on her way to the school building to attend a basketball game, when the accident happened. The Willard car was coming into Plymouth and struck the Finner machine in the rear, striking off the gas tank, damaging fenders and bumpers. The Williams coupe was a mass of twisted debris, and it is miraculous how the driver escaped fatal injuries. However, Mrs. Williams received cuts and bruises and had cut out about the nose.

Marshall Burkett was called on the scene and Mrs. Williams was held under a \$300 bond. Her trial will be tonight at 7 o'clock. Last June she was deprived of her driving privilege by Mayor Derr for a period of one year.

CHECKER PLAYERS DEFEND PLYMOUTH AT WILLARD TILT

Mr. Pollinger, of Willard, royally entertained the Plymouth Checker Club last Thursday evening. He not only entertained, but gave a number of our local club a good beating. McWenney also of Willard, played a strong game.

Eight of Plymouth's pride made the trip. Flogger was afraid to go, so gets himself in the soft-bolled class. Vic Munn always finds a church to sing in if a tough game is in sight. Joe Lasch was late as he is working hard for prohibition by trying to locate suitable wells for Plymouth that will satisfy our thirst so well that strong drink will be taboo.

Al Norris will be reduced from the hard boiled class to soft boiled as his mind was so harassed by business cares that he could not play a good game. Red Phillips was in a pugnacious mood and by good playing got out of the soft boiled class to the four minute egg division. Markley was having tough going until his wife dropped in and gave him a little private advice that did him world's of good. Scotty's game will not be mentioned as he was caught changing the scores. Fay Ruckman went fairly good until he started to tell the boys how Willard looked in 1873, any got so interested in history that the skunk made a couple of appearances.

Carter worked hard and announced to the world that drafting is easy compared to checkers. Everett played his usual puzzling game and held his own. Paul Shoppard, the baby in the stock out by his baby teeth and is giving the old timers a good tussle.

NEW OFFICERS FOR INSTITUTE

Archie Steele Is Re-elected President of New Haven Farmers Institute.

Archie Steele, of Boughtonville, was re-elected president of the New Haven Farmers' Institute for the ensuing year at the meetings held last week in the New Haven church.

Others elected to office were: vice president, W. S. Clark; secretary and treasurer, Mrs. F. L. Buckingham; lady correspondent, Mrs. Vernon Smil; executive committee, Mr. and Mrs. Roy Clark, Mr. and Mrs. Herbert Slesman, Mr. and Mrs. Jay Woodruff.

The institute was extremely well attended, and set a mark to be rivaled by institutions of the kind. Every session was well attended, emphasis being especially placed on any one meeting.

The state representatives, W. L. Manahan, of Defiance county and Mrs. Mary Field Hendrix, of Clarion, were most interesting speakers. The address "The Taxation and the Farmer," given by Manahan was of especial interest to the Huron county farmers.

Other highlights were R. J. Elliott, of the Farm Bureau, G. R. Hummon, of the National Farmers Union, extension agent, Miss Brian, visiting nurse, who spoke on her trip and farming in England, Rev. Hefflinger also spoke. Vocal selections by Rev. Henderson, John Cok and Mrs. Tom Shanda were enjoyed, as was the entertainment presented by the school children. Several readings were given by Mrs. Wanda McNamara, of Steuben.

The display of posters is thought to be the largest ever. Those winning prizes were: 7th and 8th grades, first, Ellen Bauer, second, Ruth Slesman. For the 5th and 6th grades the winners were, first, Grace Welch, second, Iona Baxter. For the 3rd and 4th grade, the winners were, first Dean Snyder; second, Wanda Jane Steele.

MUSICAL AT CHURCH IS WELL RECEIVED

On last Sunday evening, at the First Presbyterian church, a raved mo'lect, was presented. Besides the choir, the church orchestra and a male quartet from the Ohio Brass Works had part on the program.

Fine chorus work was shown by the choir. Excellent solos were sung by the male quartet. Splendid solo work was rendered by William Harris, Mrs. Luther Fetter, Mrs. E. Beryl Miller, Ruth Schoeff and Doris Hatch. As an offertory a beautiful violin duet was played. Pleasant instrumental selections by the orchestra were enjoyed.

Music as a fine art is varied expression. It awakens feelings whose direction is determined by personal states, by surrounding circumstances or by intellectual attachments. It multiplies variety, heightens accumulation, it in volume and places it at the disposal of the spirit under strong emotional conditions. The ray, the spiritually, the sober, the grave, the pathetic, the grand are operative in music by virtue of its own inherent nature.

SHOWS IMPROVEMENT

Mrs. Mary Ames, who has been acutely ill, is showing some improvement, and has been able to sit up for a short time. Mr. and Mrs. William Caldwell, of West Broadway are caring for her.

PILGRIMS AGAIN WIN AS CARDINGTON GOES TO A DEFEAT OF 25-13

Playing a fast game which again brought fans to their feet, the Plymouth Pilgrims proved their mettle early in the game, leading 13-0 in Cardington last Friday night.

That the game was not a walk away is shown by the score at the half, which stood 7-7. In the second quarter the players got down to business and totaled up 18 points. Munes got away in scoring in the opening quarter, six being made by field goals. Webber is to be thanked for six points and girls' titts, but setting the pace for the boys, the Plymouth sextette made the best end of 38-18 score. The game is becoming a menace to opponents, and are being watched with much more interest. Mack of Delaware officiated.

Briggs, 3; Long, 4; Webber, 6; Gleason, 3; Bachrach, 3; Munes, 7; Cardington—Shafter, 4; Salisbury, 1; Vasciolo, 2, 3; Trimmer, 5; Clark, 3.

OUR BOYS' TEAM

Well, folks, it looks like we have champions right here in Plymouth. Our boys have gone strong all season and are still going strong. They have won 13 out of 15 games and they still have six more to play. Will they be county champs? My answer is "Yes!"

Our boys have been up against it many times, but still as the old saying goes, "they came, they saw, and they conquered." There are not very many teams that have the record that Plymouth boys have.

We owe much of our success to Coach Jenkins for producing this fine team of boys. He has trained and drilled them and has made a successful and winning team out of them.

Of course the boys cannot win every game, but we all know that they try their hardest to win and will put forth their every effort for old Plymouth High.

The Reserves have also had a very successful season. They have won 2 out of 3 games and they still have two games to play.

There are some very good players on the Reserve team and they will be future Plymouth stars.

Mr. Murlin, their coach, has proved himself a very efficient coach in basketball and has turned out a fine winning team.

THE OLD BRICK HOUSE

The old brick house, which stands on the left corner of the school ground is being torn down. The passing began last week and it doesn't look as if it will be long until it will be down.

The house was used during the Civil War as an underground railroad station for the slaves to escape. In late years the building has served as a challenge to boys and girls, and they have broken windows, pulled the paper and plastering from the walls and even torn up the floors in an attempt

Plymouth Rounds Out 13th Victory

Friday 30-The Plymouth skippers skipped to Cardington and skipped home with a 25-13 win. This makes their 13th win in 15 starts, and only one of their defeats has been a county league tray, it being lost to Lucas at Lucas.

Cardington who proved a tough opponent on our floor, being beaten by the narrow margin of two points, was all set to give the boys a run for their money. Both teams were on their toes during the first half and a bottle rally followed. The quarter ended 4-4 and the half ended 7-7. The Pilgrims held a 17-13 lead at the three quarter mark.

GIRLS COP BIG GAME

What a game! No, it wasn't very exciting for it was just a walk away but any way it was good. If only everyone in Plymouth could have seen the P. H. S. sextet play at Cardington Friday night undoubtedly they would change their opinion of them. Why not? They would have plenty of reasons to change it, with the two Lucille throwing in 16 points apiece and the guard's playing the best game of the season. Maybe it was the long trip which helped but more than likely it was practice and skill.

Plymouth-36; Souverine 4; Moore 15; Pugh 15; Shaver 0; Hackett 0; McFarland 0. Cardington-18. Smiley 4; Harrington 4; Sellers 8; Ault 2; Buster 0; Lewis 0; Kirkpatrick 0. Referee, Mackey, M. Glead.

It's a rumor that a filling station will be built there, instead of the house. Well, Plymouth needs another one anyway. Just the same it will be better than the rickety, rickety old brick house.

Chapel Services

The chapel hour last Tuesday morning was used for a musical program in which the "Jolly 8 Orchestra" directed by Mr. Crim, furnished the music. The following pieces were played:

- "Let Me Sing and I'm Happy."
"Kickin' a Hole in the Sky."
"If I Could Be With You."
"The Kiss Walks."
"Who's Driving Me Crazy."
"When a Woman Loves A Man."
"Kiss Me."
"St. Louis Blues."

These received much applause and "You're Driving Me Crazy" was repeated by request. Mr. Crim then favored us with some saxophone solos. These were "Here Comes the Sun," "Dinah," "Sleepy Time Gal," "Three Little Words," and "My Love For You." He then played two clarinet solos which were "Whispering" and "My Future Just Passed." Mr. Miller then presented his announcements and the program was brought to a close.

SENIOR NEWS

OUR FUTURE CLASS OF '31 The Seniors have been very busy lately but they have taken enough time out to tell us what they are planning on doing after they graduate. Thomas Weeber is going to be a journalist and if he shows as much interest in this as he does in the writing up of the basketball games for the P. H. S. Post we know he will be a great big success. Thomas we sincerely hope that you reach your planned goal.

We said that there were going to be more nurses and here is another one. Nursing is the occupation that Mary Anderson expects to take up for ready and willing to help anyone that is hurt on the girls' basketball team, she already has a good start toward this profession. Mary, we know that you will make good so go on with your plans.

RESERVE GAME

The Plymouth Reserves beat Madison Reserves in a close game at Madison, the score being 12-7. Tom DeWitt was high scorer with two field goals and a free shot. That victory makes the Reserves standing 3 victories out of 3 games, losing to Shelby at Shelby. The Reserves worked the ball down the floor, slick, but not being used to the baskets missed quite a few shots. They play Adario Reserves Friday, February 5th, so let all turn out folks, and see a real good game. Later the Reserves play Willard Reserves and that also promises to be a good game. The line-up at Madison:

POETRY GYPSIES

The sky so very deep in blue, And the green of a distant woods, The ribbon road so crooked and narrow Makes splendid poetry goods.

And all these things for a background Simply enhance the real subject's Gypsies, gay in dress and travel. With not a care, a sorrow or duty.

Colors gay—red, blue and yellow, Against their sunkissed skin, Hair of black—some straight—some curly, Many places they had been.

Teeth so white they glistened like pearls When the red lips parted in a smile, Eyes of black—snappy and fringed With lashes that beguile.

Lashes that swept the rose tinted cheeks, That's a trait of the roaming fellow, And to hold their hair close to head A bandeau of red and yellow.

I wanted to follow the barefoot kids, The light hearted, carefree band, I wanted to learn their happy songs, And visit their colorful land.

But grandmother called to help with dishes And though I knew I must obey, I cast a doubtful glance o'er my shoulder I vowed I would travel some day.

DOT AND DASH We girls don't sit in a gloom The light hearted, carefree band, We hurry n. in a big rush As we are learning the dot and dash. We all thing that it's fun, To see the teacher run The machine of the telegraph It really makes you laugh.

We'd rather learn the dot and dash Than the different parts of a Nash We get one part mixed with the other And the next part with the other. —M.R. '34.

SNOW STORM

One November evening on the edge of a small country town far up in Maine the sun was shining in the west in a huge red ball, about it were gray snow clouds indicating a coming storm.

When chores were done the farmers went to bed leaving the storm to itself. The snowflakes drifted down slowly at first and then faster, faster and faster they fell all through the night and still the next morning leaving the cozy farm house covered with blankets of snow; while the big red barn shone clearly against the large drifts but the chicken house was almost completely covered. The trees were like great sentinels with outstretched arms and the fence tops were like soldiers all in a row with the gate top acting as captain.

Down the road came the snow plow packing that, that Mother Nature had done.

WHY WE HAVE DREAMS

The brain has many parts. Some are asleep and some awake (when we sleep). This happens when we dream.

Most of the brain, probably the highest part of it, is asleep in a dream while parts of it are awake. Unguided by the higher powers of the mind, those who work on experiences we have had, the most recent happenings. Only the very deepest sleep is entirely free from dreams. Many people have had dreams which they do not remember on awakening.

The fewer dreams we have the better, because this means that our sleep has been more complete. Remember—no dream has any meaning about the future.

The worst kind of dream is a nightmare—a dream which seems real and is horrible and frightening. When nightmares occur often, they should be attended to. In some people it is heart disease which prevents an even supply of blood from getting to the brain. As a rule, a nightmare has its origin in the stomach because it is aroused by disagreeable sensations there.

The most common of these causes is indigestion. Anyone who is liable to nightmares should be very careful about what he eats before retiring, on no account should a person eat a heavy meal less than three hours before going to bed.

**MID-YEAR INSTITUTE
DRAWS RECORD CROWD**

The mid-year institute, of the North East Ohio Conference, Lakeside district, has been recorded as one of the most successful in the history of the district organization.

There was an attendance of over 160, making a record-breaking total and scoring a big success for the New London league which was held on Saturday and Sunday. At the final service on Sunday morning the church rooms were filled to capacity.

The sessions were divided into classes, diplomas being given to those who attended five classes in one course of study.

For many of the Lessners, and leaders, the challenge address of Dr. Piper of Ellettsville was one of the highest highlights of the institute. Miss Lucella Gault was dean of the meeting. A number-attended from Plymouth. The Life Quest study is given below.

The class in Life Quest conducted by Professor Wm. C. Pauly of Baldwin-Wallace College was an interesting attempt to find the best in our search for self-mastery or character, life work, life companion, life motive, and God. Christ was accepted as the example of the basic principles of character, which are honesty, sincerity, courtesy, kindness, impartiality, clean moral living, efficiency, perseverance, and unselfishness. In the achievement of these characteristics the important points are instruction thru Sunday school, church and league, living them, looking for examples, reading biographies of great characters.

employment—all life is sacred. The guides for choice of life work are: what we are fitted for, the need, the enjoyment, the call, economic returns, future prospects, and where we can do the most good. After choosing we must prepare with "stick-to-it-iveness, courage, and experience in religion or the Grace of God in our hearts with out which we can have no large success. The third thing is to "get up" and fourth, don't worry too much about rewards.

In quest of a life companion one should consider Christian character, mutual understanding, mutual respect, good health, attractive personality, good family, wholesome environment, and love, which cannot be had without Christian character.

Some dominating motives in life are wealth, fame, success, power. But the only one worth while is Christian love practiced in the industrial world, race problems, home, church and international affairs.

The avenues through which we find God are nature, scientific research, service, the Bible, prayer, church and Christian experience or conversion, the greatest.

At the Worship Service Sunday morning Prof. Pauly presented the challenge and call for volunteers in three ringing commands. Come! Invest your life in the greatest thing of which this old world knows anything. "Tarry!" To learn the desire of the Lord and prepare for his work. Go! Into service for the cause of Holy Religion.

A net loss of only two per cent in telephones is shown for the past year. Many of the phones lost were due to businesses which are temporarily closed. The Telephone Company announced that they were purchasing materials and expanding their outside plant in order to be ready for the demand for more telephones this spring.

**AFRICAN LILY IN
MANSFIELD HOME**

Amateur gardeners in Plymouth should be interested in the African lily which bloomed recently in the home of Mrs. G. W. Marston, 184 Rowland avenue, Mansfield.

The plant was given Mrs. Marston by a Norwalk friend, and no one seems to know much about the history or care of the specimen. The blossom is the shape of a lily, measuring a foot in diameter and 25 inches from stalk to tip of bloom. It is orchid color, shading to a deep purple, and the one-inch thick orchid stem reaches far above the flower.

The bulb of the plant has been kept for two years, producing leaves, but no bloom. It was kept in the basement of the residence during the winter and planted in fresh soil during the summer months.

Oddly enough, a shoot came from the bulb and later a small bloom appeared, which attained its mature size. Two bulbs have appeared at the base of the plant, and Mrs. Marston does not know how to treat them. During the summer the lily produces leaves shaped like an umbrella.

Mr. and Mrs. Harley Kendig pleasantly entertained in their home Sunday to celebrate the tenth birthday of their son Harlow, and it was also an occasion for two other members of the gathering, Miss Louise Hendricks Lorain, and Mrs. Harley Kendig who have birthdays this week.

A two course dinner was served to twenty-one and the table was beautifully decorated with a large birthday cake and butter sheep, made by Mrs. Kendig's mother.

At a late hour the candles on the cake were lighted after which the cake was cut and served by Mrs. Kendig, to her guests. Those present to enjoy the day were Mr. and Mrs. A. V. Shukers, Ashland, Mr. and Mrs. E. F. Hendricks and family, Lorain, Mr. and Mrs. Clayton Smith and family, Redhaw, Miss Lois Teal, Rhea and Betty, Leo, and Harlow Kendig, the host and hostess. NEW WAY TO GET RICH

No doubt there will be a rush on the sale of oysters, when people learn that just last Friday, Jake Holthouse of Coleridgeville was the lucky finder of a small pearl when he ordered oyster stew for dinner at Bradford's Restaurant. Of course, there is the possibility of some people never finding them, if they have to chew 'em up to discover 'em, but Jake evidently learned his lesson well, that we must thoroughly masticate our food, so when he hit into an oyster last Friday, he knew at once it might be a pearl. It was sent to a jewelry concern and was thought to be worth around \$50.00 to local people. Jake states this is the second time he has found a pearl in oysters; several years ago in Lorain he discovered one valued at \$500.00 but that one was spoiled if the cooking.

REGINALD ERVIN SLOWLY REGAINING HEALTH

Reginald Ervin who recently was removed to Akron after several weeks serious illness at Mansfield General Hospital is gradually regaining his health.

He is still confined to his bed owing to a development of heart trouble but hopes in time to recuperate entirely. Just a word to his local friends, his birthday is Feb. 10th, and he will from them appreciate a card from them. A word of cheer often gives more happiness and comfort than the tender realities. His address is R. F. D. No. 2, Box 107 C. East Akron, Ohio.

The Public :: Forum

Opinions expressed under this heading are those of the contributors, not of The Advertiser.

How about a municipal telephone service. Let's buy phones at a dollar each, the kind now used, install one in each house, with rate \$1.00 is used. We now have practically enough electric light poles on our streets to take care of the service. Let's have a telephone service that's real. It can be done. Let's do it.

The parking of cars in the middle of the square, especially when there is plenty of parking space alongside of the curbs should be discontinued. This obstructs the roadway, also the view of other cars and the practice should be discontinued and the space only used in emergency. Much comment on this has been heard, and as a safety measure the same should be discontinued.

ORGANIZES FIRST STUDENT SOCIETY MINNESOTA SOCIETY

The following article taken from the Epworth Herald concerns the result of the efforts of a young man in Minnesotsa who believed in and worked for the success of prohibition. He has been nominated for the Herald's weekly Hall of Fame:

Two years ago a lad in a Minnesota high school decided to do something about prohibition. He talked with his friends and discovered that they, too, felt that young folk should do all in their power to assure the success of prohibition. It was then that William N. Plymat organized and founded the first Student Sobriety Society at Mankato, Minn.

The young society gained immediate notice. President Plymat and his workers talked and discussed the situation with other young people, and soon the number grew over a thousand members. J. C. Penney and Thomas A. Edison wrote to the young president, congratulating him on the work and enclosing contributions. Warm letters of approval came from Senators Borah, Capper and Jones. In a personal letter, Governor Christy of Minnesota sent his commendation and best wishes for the continuance of the Student Sobriety Society.

William Plymat was not content with just that. In January, 1930, he headed a newspaper which became the official organ of the society, The Student American. The live news it contained about prohibition won it recognition from such papers as the Minneapolis Journal, the Kansas City Star, and the New York World. In addition to holding an editorship on this paper, William found time to spend at the national convention of the W. C. T. U. and state conventions of the union in California and Minnesota. He filled a number of speaking engagements at high schools and enlisted more students in the Society of the debate team for three years. He was a member of the Epworth League at Mankato and is now attending Stanford University, while carrying on with his valuable work for prohibition.—Epworth Herald.

Professor Dickson, of Wooster, is confined to the Wooster hospital, and his condition is reported as very serious. The auto wreck, in which the injury was sustained, occurred about two weeks ago.

Restless CHILDREN

CHILDREN will fret, often for no apparent reason. But there's always Castoria! Castoria's the recipe of the United States—so often as there is need. But its gentle action soothes a youngster more surely than a more powerful medicine.

That's the beauty of this special children's remedy! It may be given the latest infant—as often as there is need. In cases of colic, diarrhea or intestinal disturbance, it is invaluable. A coated, round tablet for just a few drops to ward off constipation; so does any suggestion of bad breath. Whenever a child is just a bit restless, don't wait, or have any little special medicine, but give Castoria. It usually is usually all that's needed.

Drill Additional Test Wells Here

When the turbine engine was hooked on to the well on the Brooks farm, pumping tests revealed that a stream of water, averaging 200 gallon per minute was going through the test basin. The engine, a Fairbanks-Morse, was furnished through C. M. Ervin, and those who saw it, were amazed at the rapidity in which it forced the water through the pipes.

Although no official tests have been made by the health department, it is stated that the water is a little hard, and that additional test wells will be made west of town in the vicinity of the Harry Brooks farm. It is of general opinion among those who are acquainted with water locations that this tract is most liable to give more suitable supply. Drilling will probably begin next week.

At its meeting Wednesday night council passed a gas ordinance, a copy of which will be found elsewhere in this issue, and which the residents will be interested in. The gas franchise and rates seem to be attracting attention once more in Northern Ohio, and reports from nearby towns indicate that the villages and cities are to organize in a stronger manner. A petition signed by well over two hundred residents was submitted to the council.

Members of the Plymouth council were in Norwalk Tuesday evening where they attended a joint session of councilmen of that city and Monroeville. The gas rates over the main topic of the meeting, after which a tour of the glibbing and water plants was made.

You'll enjoy our appetizing chicken dinner Sunday. The price, 50c, is low—the dinner, a dollar value. Bring the family. Everything home cooked, and what pies. The Home Restaurant.
