

LOCAL PLANT ENTERS 8TH YEAR OF BUILDING TRACTORS

Here's the 1940 Model Silver King with New Engine

NEWS BREVITIES

JUDAS STRUCK BY LIGHTNING - Plymouth, N. C. residents point out to visitors 12 trees standing in a church yard here, and tell this story: Many years ago each of the trees was named for one of the 12 apostles. Eleven are still in good condition, but the 12th was struck by lightning several years ago. The name of that one was "Judas."

THE NEW 1940 LICENSE plates, white letters on a dark blue background, is proving almost invisible when lights shine on the plates. A blur, which becomes worse as a car approaches another one, appears at quite a distance from the plates. Officers will have a very difficult time reading license numbers if they have occasion to chase an auto bearing the new Ohio plates.

JAMES R. CLAYTON, Bucyrus was convicted and fined \$25 and costs by Judge G. E. Kalbfleisch of Mansfield for injecting water into a chicken with a hypodermic needle to increase its weight. Now that's an idea but the fellow who can think up a way to get an extra drum stick on wing onto the fowl, well, he will really have something.

WILLARD HAS BEEN EXPERIENCING a series of gasoline snitches—that is to say, the cars are stolen, gasoline tanks drained and cars left undamaged in another part of the town. Ralph Cole of the Willard Lumber Company and Max Jump of Jimmy's Clothing store both reported similar experiences.

Wyandot Safety Cruiser Visits Plymouth Schools By Adriana Jane Fransens, English.

Capt. Berry, manager of the Wyandot Safety cruiser spoke before Plymouth children at the High School auditorium, Monday morning about 9:30. Capt. Berry spoke to us on "Safety, and what will happen, if we are not careful to look up and down the street before we cross. He also spoke very strongly against riding two on a bicycle built for one, and against riding a bicycle at night without having a red reflector button on the bicycle. Also he spoke against being in a hurry and not thinking "Lose a minute, save a life." After this very educational speech, the school children were invited to go through the cruiser.

We all thank Capt. Berry and his attendants for bringing to our minds the need to be careful and the need to think.

We also express our thanks to the Miller and McQuate Funeral Home for making this visit possible.

F. LONGNECKER TAKES OWN LIFE

FORMER PLYMOUTH RESIDENT ENDS LIFE WITH REVOLVER AT SHELBY, SERVICES MONDAY.

Funeral services for Charles Foster Longnecker, 59, were conducted Monday afternoon at 2:30 o'clock from the Barkfield funeral home in Shelby. Rev. D. B. Young, pastor of the First Lutheran Church officiated and interment was made in Oakland cemetery, Shelby.

The deceased, who resided in Plymouth a number of years ago, ending his life late Friday night by firing a .32 caliber revolver into his mouth.

The body was found by Cecil McClurg who saw it from the road as he drove past the field. He notified police and the sheriff's office. The body was discovered near a slaughter house just northeast of Shelby.

Mr. Longnecker lived alone and had been in failing health. It was also thought he brooded over the death of his wife about a year ago.

He was employed at the Shelby Cycle Company and formerly operated a dray business in Shelby. He was also a member of the Police force about twenty-five years ago.

Mr. Longnecker is survived by one son, John of Tiro, two daughters, Mrs. Grace Blackford and Mrs. Eloise Robertson of Plymouth. He is also survived by two sisters, Mrs. Georgia Marvin of Plymouth, Mrs. Wilva McClain of Shiloh and three grandchildren.

NYA TO ASSIST IN PARK WORK

According to information given out by members of the Plymouth Park Commission, the NYA is making plans to assist in beautifying the local park. All young people between the ages of eighteen and twenty-five, unemployed and out of school will be given an opportunity for registering with the National Youth Administration in order that they may secure part-time employment.

Mr. Julius Schreiber, Area Supervisor of Employment, will be at the Plymouth Centralized High School, Monday morning, April 8, between 9:30 and 12:00 o'clock.

Alice Willett Class Sponsoring Show at Plymouth Theatre

"The Swiss Family Robinson" one of the finest pictures ever filmed will be shown this evening at Plymouth theatre and again tomorrow night under the auspices of the Alice Willett Class of the Lutheran Church.

The admission remains the same as usual 25c for adults and 10c for children and members of the class will greatly appreciate your purchasing the tickets from them.

Thomas Mitchell, Edna Best and Freddie Bartholomew are in the cast which is a sure sign of a splendid picture.

Cole Services Held Wednesday in Shelby

Funeral services for Mrs. Susan Cole, 84, life-long resident of Shelby, who died Monday following a lingering illness were held at 2 p. m. Wednesday at the Methodist Church in Shelby. Rev. Arthur Staples officiated and interment was in Oakland cemetery, Shelby.

Mrs. Cole is known to many in Plymouth and community.

Here's A Good One

A story rivaling Ripley's "Believe it or not" took place in Plymouth Monday. If it weren't so funny, it would be down right tragic and no doubt will end tragically for the party concerned.

Edward Corson, 79, (no address) applied for a room at the Delancy home on West Broadway last week end stating he was an oil man and would probably be in the vicinity for a month or more. Two of his associates were coming Monday and take care of his expense. He seemed a nice, respectable old man, fairly well dressed and honest and was given the room.

Mrs. DeLancy immediately phoned police while Clifford followed him in the car. Overtook him, he was arrested and returned to Plymouth Tuesday morning to stand trial in Mayor John's court.

He was bound over to grand jury and taken to Richland County jail after it was discovered he had taken besides the trousers two watches, a ring, fountain pen, and a number of handkerchiefs and ties which are to be used as exhibits in the case. It was reported that he had served a three year sentence some years ago in a penitentiary for the theft of a diamond ring.

Surely "things are not what they seem" or perhaps it's a case of "what is to be—will be."

GOOD NEWS!!!

Oh boy! What a relief! Here's that chance you've been waiting for! Fortner Street is to be roped off Saturday afternoon, April 6th between the hours of 12 a. m. and 6 p. m. so that all children might enjoy rollers or skating to their heart's content.

No traffic on this street between above hours, so oil up the skates and come for a real good time. Not a grunt or a groan (unless it's your own) will be registered against the sport but sportsmanship rules will, of course, be in effect.

TELEPHONE MEN TELL COUNCIL OF IMPROVEMENTS

Representatives of The Northern Ohio Telephone Co., were in Plymouth on Tuesday evening, where they attended the monthly meeting of the village council. Various complaints have been registered with Mayor Johns and councilmen in regard to the telephone service.

Mr. Woodward, speaking of the service and anticipated improvement in Plymouth, stated that a drive for new subscribers is now being made, and that when the total number reaches 300 that the present equipment will be moved out and the new type of switchboard will be installed. New Washington recently was put on a dial system, and it is likely that Plymouth will get the common battery system some time this summer.

With many changes in operators the past year or so, telephone subscribers have been very dissatisfied with the phone service, such as revealed at Tuesday night's meeting, there no doubt will be some prompt action taken both by the telephone company and village officials.

After hearing the representative, routine business was transacted, which included the payment of monthly bills.

INJURES KNEE IN FALL

Jimmy Hough, six-year-old son of Mr. and Mrs. Coy Hough, injured the cap in his left knee Wednesday while returning to school at the noon hour.

Jimmy was taking a short cut and going up the B & O tracks, stumbled and struck his knee, causing painful injuries to the cap. He is confined to his bed and it will be several weeks before he can join classes.

CHANGE OF RESIDENCE

Mr. and Mrs. Ralph Ream and family moved the last of the week to their newly purchased home on West Broadway, known as the Thrush property. Mr. and Mrs. Kendig and family the former tenants moved to the Jack Welton home on the Shelby-Plymouth Road. Tenants in this home, Mr. and Mrs. Vanasdale moved to the house owned by H. S. Myers and vacated by the Reams family.

CLASS PLAY THIS EVENING

The Senior Class of Plymouth High School will present the three act comedy "Soup to Nuts" to-night at 8:15 in the High School auditorium. A cast of twelve has been hard at work for the past four weeks on the play and all is in readiness for a splendid production.

BUSINESS MEN TO HOLD MEET

With activities of the spring and summer season, which include park improvement, band concerts and free picture shows, the business men will hold a meeting Monday night at 8:00 o'clock in the Village council room. There has been no meetings for the past few months, and the one scheduled for Monday will be a very important session. No doubt the telephone situation will be discussed at that time.

All business men and citizens who are interested in the betterment of Plymouth, are urged to be present.

Plymouth Music Festival Announced for April 18

Plans are being made for an elaborate music festival to be held Thursday evening, April 18 at the high school auditorium. The program will include the participation of both grade and high school pupils. All phases of work which are done during the school year will appear on this program which is built on the theme "The Months of the Year in Dance and Song."

About two hundred students will be included in the cast. Each act is to be done in light costume and will vary from comedy to solemnity. We hope you will plan to attend in order to see just what Plymouth boys and girls are doing in the musical field.

HOSTESS AT MANSFIELD MEETING

At the social meeting of the Richland County auxiliary to the Medical Association which met Monday at the Mansfield-Leland Hotel, Mrs. C. L. Hannum of Plymouth assisted Mrs. W. H. Buker and Mrs. Paul Blackstone, Beville as hostesses.

The May 6th meeting will be held with Mrs. George J. Searle, Jr., of Mansfield.

CHANGE OF RESIDENCE

Mr. and Mrs. Ralph Ream and family moved the last of the week to their newly purchased home on West Broadway, known as the Thrush property. Mr. and Mrs. Kendig and family the former tenants moved to the Jack Welton home on the Shelby-Plymouth Road. Tenants in this home, Mr. and Mrs. Vanasdale moved to the house owned by H. S. Myers and vacated by the Reams family.

1940 Model Silver King Is Being Well Received Throughout Country

As a feature for celebrating their eighth year in Manufacturing tractors, The Fate-Root-Heath Co., announces that all 1940 Silver King Three-Wheel tractors will have a new engine which will out-perform any previous tractor they have ever built.

Due to the severe winter weather experienced throughout the nation, plant officials state that tractor sales have not been what they expected, but as the weather modifies and farmers are able to go to work, it is expected that tractor orders will be increased.

When the 1940 Model of the Silver King was announced and shown to dealers it was very plainly seen that "here is the tractor the farmer wants." The dealers are, as a general rule, men who know farmers, how they work and what they want to work with. And naturally, with NEW engine power, increased

NEW ENGINE IN 1940 SILVER KING

plowing power, full-floating draw-bar and foot brakes, a cultivator designed so that a farmer can plow, while his cultivator is attached to the tractor, and still maintain full use of the draw-bar and plow. Making a farmer think of the Silver King before he buys any other tractor.

BIRTHDAY EDITION

The Advertiser this week is a birthday edition, honoring the Silver King's eighth birthday. Local merchants are extending congratulations through advertisements which appear in this issue, and this fact proves that the community thinks very highly of the Fate-Root-Heath Co., and its products, which not only include Silver King tractor, but also Plymouth Locomotives, Clay Working Machinery and Lawnmower Sharpeners.

Seven years ago the local company built and announced the first modern, economically-operated tractor, which immediately enjoyed a splendid growth. It was indeed a miracle to have a tractor plow all day on ten gallons of gasoline. And it was quite a sight to see a tractor with large rubber tires, and it was a pleasure to steer a tractor that responded to the touch of an automobile. Yes, the Silver King was the first to modernize tractor farming and bring to the American farmer many of the present day improvements in tractors.

So many of us who have enjoyed and demand, the 1940 Silver King has just about everything that any farmer could wish for. Economy in the standpoint of fuel and maintenance; flexible for the many farm operations; speed for all types of field work—fast traveling speed on the highway from town to town. And it is REAL TRACTOR POWER for all kinds of farm work.

VARIETY MODELS OFFERED

There are various models from which a farmer may select the one best suited for his own immediate needs. Five models with steel wheels and six models on rubber. Various widths and tire sizes can also be selected. In fact, the Silver King is built to satisfy the most particular farmer, and you'll find just the tractor you want in this varied offering.

GENERATOR AND BATTERY BUILT FOR HEAVY DUTY

GENERATOR CONTROLS CHARGING AND DISCHARGING OF BATTERY; LITTLE ATTENTION REQUIRED.

With the increasing amount of night work performed by the modern tractor, the electrical system is more important than ever. Likewise, one farmer may work long periods in daylight with but few starts, while his neighbor may work short periods at difficult jobs, and also work late at night thus making the load on the battery an unpredictable factor. No farmer likes to devote his time during the busy season to checking the water level in the battery and changing the generator charging rate. Consequently, for 1940, the Silver King has provided a heavy-duty generator, sealed against dust, and provided with an automatic current regulator which automatically regulates the charging rate. Should the battery be partially discharged, the regulator adjusts the generator output to a maximum and holds

it at this point until the battery approaches a full charge. The charging rate is then reduced automatically to avoid overcharging, and the resultant rapid loss of water. This arrangement tends to keep the battery always fully charged and yet not overcharged. Consequently, the electrical system will require less attention and be less apt to give trouble. Nevertheless, the generator, battery, cables and all parts of the electrical system are very accessible for inspection and service when it does become necessary. No better or more satisfactory electrical system will be found on any tractor. Even the starter is an improved type with an additional shaft bearing to avoid any possibility of springing the starter shaft due to accidental engagement while the engine is running. The starter switch is so located that it is conveniently operated by the toe, while disengaging the clutch.

SELLS PROPERTY

A. E. and Laru Brumbach of Shelby have sold their property at 44 Sharon Street to Blanch Metzger. The sale was made through the F. J. Kotz real estate agency.

Mrs. Roy Johnson brought John Seabolt from Mansfield General hospital Monday. He is still confined to his bed.

SPEEDS FOR ALL KINDS OF WORK

FOUR FORWARD AND ONE REVERSE; TRANSPORTATION SPEED UP TO 25 MILES PER HOUR.

Whether it's transplanting at three-fourths of one mile per hour; hard plowing at two; cultivating at four; discing at six; or taking a wagonload of produce to market at twenty-five miles an hour, you'll find a variation of speeds in the Silver King to meet your own particular demands and requirements right to a "T." This nimble versatility results from Silver King's own four speed transmission and the special "triple range" governor.

No Silver King has ever worn out its transmission and the 1940 model will be no exception. All gears are nickel-molybdenum alloy steel hardened, ground and lapped. All shafts are chrome-nickel alloy steel, heat treated, ground and mounted in Timken tapered roller or New Departure ball bearings. Shifting is as convenient as on your automobile and it is not necessary to stop the tractor in order to shift the gears. The Silver King "triple range"

governor was developed by Silver King engineers in collaboration with Pierce engineers and provides instantaneous response to load at any desired speed from idle to maximum in any of these ranges. For normal field or drawbar work, the first range provides a maximum full load speed of 1500 RPM, the second or intermediate range provides a maximum of 1800 RPM and is recommended for belt work, while the third range, which is recommended for road or transport work only, provides engine speeds up to 2400 RPM. It is only a matter of seconds to select the desired governing range and all speeds from idle to maximum are then instantly obtained by a throttle lever conveniently located under the steering wheel.

Furthermore, in order to provide extreme variation of speed for specialized operations, Silver King engineers have provided optional gear ratios that can be installed on order.

COOLING SYSTEM IS EFFICIENT

AIR IS BLOWN FORWARD, KEEPING DUST AND DIRT FROM ENGINE, MORE COMFORT FOR DRIVER.

Last summer, when the 1940 models were being tested, it was found that great cooling efficiency and improved stability under continuous full load could be secured by blowing cool air forward through the radiator instead of the conventional method of drawing the heated air through the radiator and blowing it over the engine. Among the many advantages resulting from this change were: improved fan efficiency; lower carburetor and air cleaner temperatures with improved volumetric efficiency; lower battery temperatures with lower water loss; lower gas tank temperature with reduced gas loss from evaporation; improved radiation from the engine itself; reduced clogging of the radiator core from chaff and trash due to the centrifuging action of the fan, and last but not least, less hot air and dust blown back on the operator.

During these tests, it was shown that the 1940 Silver King functions perfectly without boiling, under continuous full load operation in temperatures of 105 degrees F. At normal heavy load, approximately 80 percent to 120 degrees. Incidentally, it was found that these high temperatures did not result in any increase in the normal rate of oil consumption. However, for the exceptionally severe or tropical conditions, special fan and drive equipment is available to still further increase the cooling capacity.

In order to use alcohol economically as an anti-freeze, the 1940 Silver King uses pump circulation with a thermostat to prevent over-cooling. A re-circulating tube is provided so that, when the thermostat is closed in cold weather, the water is recirculated through the engine alone to insure an even warm up. The water from the pump is first directed through channels in the cylinder block to the exhaust valve ports to maintain even temperatures throughout the engine. Water jackets are full length of the cylinders, and the cylinder walls are separated from each other.

Reformatory Official To Speak Here

Mr. O. F. Garver, Assistant Superintendent of the Ohio State Reformatory at Mansfield will be the principal speaker at the Father and Son Banquet to be held at the Methodist Church, Thursday, April 11 at 6:30.

There will be other interesting toasts and speeches and special music as well as a bountiful meal. While this event is sponsored by the Methodist Church all men of the town and surrounding territory are invited to get a boy and come. Tickets will be 35c. Tickets should be purchased in advance if possible. Mr. B. S. Ford is chairman of ticket sales.

FRACTURES LEG

We have received word that Rolly McBride fractured a leg Tuesday while chasing a cow through a field. McBride stepped into a hole that caused the fracture. All that we can say is that McBride has our sympathy for we know no man who has tougher luck.

DINNER GUESTS

Guests entertained at Sunday dinner in the home of Mrs. Eva Smith were Mr. and Mrs. Will G. Herrod and daughters Esther and Virginia of Mansfield, Mr. and Mrs. F. B. Stewart and Willard Nethers of Plymouth.

LUTHERAN LADIES AID TUESDAY

The Ladies Aid of the Lutheran Church will meet Tuesday, April 9th for an all day session in the Church Annex. Sewing will be on the day's work, following the covered dish dinner.

ROMAN BANQUET APRIL 12

The Latin students of the high school are planning a Roman banquet to be given the evening of April 12 at the high school auditorium.

The dinner which will be prepared by the home economics classes under the direction of Miss Amos, will be served at 5:30 p. m. by certain of the students, clad as slaves, to their fellow students, attired in Roman togas.

A program will follow the dinner. Helen Gowitzka will sing, "Intiger Vita" in Latin; Willard Ross will play the violin. Miss Dorothy Bell, of Oberlin, Ohio, will speak to the students and show slides. Her subject is to be announced later.

The guests will recline to eat and Roman customs will be followed. A good time is anticipated by all.

ALPHA GUILD CLASS MEETING

An exchange of favorite recipes by members of the Alpha Guild Class of the Lutheran Church was a feature of Tuesday night's meeting in the annex. Lucky numbers in this pastime were held by Mrs. J. T. Gaskill.

In the absence of the president, Miss Virgie Fenner, vice president, conducted the meeting with devotions in charge of Mrs. J. T. Gaskill. Another number on the program was a humorous reading by Mrs. Pearl Myers on "How to Cook Husbands." Hostesses for the evening were Mrs. Wm. Johns Mrs. B. O. Blanchard and Miss Grace Earnest, who served a very nice lunch in charge.

The April 16th meeting will be in charge of Mrs. Merriam, Mrs. Carter and Mrs. Wentland.

An Invitation

The officials of The Fate-Root-Heath Company cordially extends an invitation to all farmers in driving distance of Plymouth to visit the plant of The Silver King Tractor. A tour of the plant will be made on your arrival. You can see how the Silver King is built—the quality of materials used—the exacting specifications that must be met in fitting every part.

You'll enjoy going through the plant, and you'll appreciate the knowledge gained as to just "HOW" tractors are constructed. You will be under no obligation to buy a Silver King. In fact, you will not be bothered with salesmen. That's fair, isn't it?

If you find you cannot visit the plant within the next few weeks and you wish to know more about The Silver King Tractor, kindly fill out the blank below and you will be sent literature.

CASTINGS ARE MADE AT PLANT

FACTORY MAINTAINS OWN FOUNDRY; ONLY QUALITY MATERIALS USED IN SILVER KING TRACTORS.

For over half a century, the Fate-Root-Heath Company has operated its foundry where castings for grinding machinery, clay machinery, tractors, locomotives, etc., are produced. This foundry is equipped with all modern equipment for producing castings ranging from ounces to tons. Through the operating of its own foundry, the Fate-Root-Heath Company is able to insure a continuous high quality in the castings used on the Silver King and practically all of the tractor castings are poured from a chrome-nickel semi-steel alloy which has much higher physical properties than the average cast iron.

All the way through, the Silver King Tractor is built to the same high standards of quality as the famous Plymouth Locomotive, rather than down to a price level. Through its location and relatively low overhead, the Fate-Root-Heath Company is able to offset the higher quality costs and therefore able to give you the greatest tractor VALUE in years.

HAND AND FOOT BRAKES ON "SK"

You'll like the new brakes on the 1940 Silver King. The brakes can be operated by either hand or foot; independently for quick turning or simultaneously for stopping. The brakes are mounted on the final drive shafts so that the braking power is multiplied through the final drive gears and are double acting to provide full braking power in either direction. Full wrap service action responds instantly to a mere touch and locks are provided for parking. Brakes are easily adjusted but the best lining obtainable is used to reduce the frequency of adjustment and provide years of service.

A Splendid Showing of Knee Hole Desks

All new designs—Beautiful workmanship—You've always wanted one—and now the prices are right—Come and see them.

When you think of PORCH FURNITURE

Don't fail to see the new line we are showing—every piece new—a wonderful selection to choose from.

Here's wishing much success to the 1940 Silver King Tractor—We know it's built right because it's made by The Fate-Root-Heath Co.

SILVER KING HAS EASY STEERING

NO CRAMPS IN ARMS AFTER HOURS OF DRIVING TRACTOR OVER ROUGH GROUND.

Get into the seat and start down a plowed field, over the roughest kind of ground, or out on a highway at auto speed. You'll find that the Silver King responds like an automobile and can be steered with one finger. It hasn't been so many years since it was a "he man's" job to ride and steer a tractor. Silver King engineers were among the first to introduce automotive type steering on tractors and this feature met instant response from farmers and their families. For 1940, Silver King has still larger and more rugged steering gear, rigidly mounted and provided with spring cushioned drag link. All operating parts are of the most suitable material obtainable, protected against destructive grit and so designed that every last bit of "play" can be adjusted out without introducing drag or bind.

SENIOR CLASS SELECTS THEIR CLASS PLAY
 The play committee of the Senior class spent considerable time in the selection of the play which they are going to present to the public on May 3, 1940.
 The play which was selected is "The Call of Youth" by Katharine Kavanaugh. It is a three act drama and prologue. There will be plenty of action and a life's lesson for all who plan to attend.

SHILOH DRUMMER BOYS OPEN BASEBALL FRIDAY
 Friday, April 5, 8:30 p. m. the Shiloh Drummer boys will open their baseball schedule with New Haven High School. The game will be played at Shiloh. (weather permitting).
 The Drummer boys have not been training in Florida but most any time after school you can hear the ball cracking the gloves in the gym, their spring training ground. There are a number of candidates for the different positions. The battery may be Ellsworth Daup, Charles Noble, Neal Garrett, Meile Lutz, Harold Russell, Earl Stiving, Dean Arnold, Alfred James and Jr. Brown. Managerialship will be under the capable Joe Mock.
 Mr. Richards has been hoping for the weather to clear so the boys can at least have a chance to select their "week club." Coach Richards is not making any promises but in his conservatism one can tell he is expecting great things from this year's team.
 The baseball schedule so far is

WOOSTER GLEE CLUB TOURS CITIES IN EAST

David Brown, son of Mr. S. C. Brown, of North Street, and a sophomore at Wooster College is a member of the Wooster Men's Glee Club which is now on its annual spring concert tour.

The group left Friday afternoon on an eastern tour and will be gone until Wednesday, April 10th. The club chartered a Greyhound cruiser bus for the trip and proceeded directly from Wooster to New York City.

In New York City Sunday, the club sang three concerts; Monday and Tuesday were devoted to sight seeing and Wednesday evening the singers presented a concert of secular and sacred music in Trenton, N. J. Today the club will move on down the Jersey coast to Barnegat and on Friday will present a concert at Bridgeport, Pa., just outside of Philadelphia. Saturday and Sunday the group will be in the nation's capital and then move on into Arlington, Monday with one more concert, Tuesday night at Uniontown, Pennsylvania before returning to Wooster.

On the 18th the club will give its annual home concert in the College Chapel at 8 p. m.

LEAVES \$50,000 FOR RELATIVES

NORWALK — Distribution of the estate of William L. Parker, a North Fairfield farmer who died recently, was filed in probate court, with the total estate of \$50,000.83 bequeathed to relatives.

The largest share of the estate, \$21,028.72 was given to a nephew, Robert E. Earl, a Huron-co. farmer, while five grand nieces were given \$1,030.65 each, including Edna, Elsie, Betty, Roberta and Irene Earl.

A sister, Mrs. Mary Moffitt was left \$13,150.75, while a brother John Parker was given \$3,289.94 and a sister Elizabeth Parker, the same amount. A grand nephew, Gerald Parker was left \$2,467.46 and a sister-in-law, Lida Parker, was given \$2,467.46.

A total of \$2,944.67 in inheritance taxes must be paid by the beneficiaries under the will, however, before the amounts can be paid.

Outline Conditions For Sugar Beet Acreage

The acreage of sugar beets planted for the production of sugar will be considered the acreage allotted for any farm for the 1940 crop, it was pointed out this week by Robert E. Finlay, AAA Chairman for Huron County.

"This replaces a former provision regarding proportionate shares which were necessary because of early sugar beet plantings," he said.

"One of the conditions for payments to growers under the Sugar Act of 1937 is that the amount of sugar beets grown on a farm and marketed for the extraction of sugar may not exceed the proportionate share established for the farm," the chairman said.

Another condition required is the carrying out of certain soil building practices. For Ohio, these may include the seeding or maintenance of adapted legumes or grasses, the plowing under of adapted green manure crops, and the application of animal or chemical fertilizers.

The chairman explained that the soil conserving practices are to be carried out in accordance with farming methods commonly used in the community in which the farm is located.

HOME ECONOMICS TEA
In keeping with the season's floral, invitations of colorful flowers and umbrellas were issued to mothers and friends by girls of the home economics class.
On Thursday afternoon between the hours of three and four-thirty guests were received in the high school auditorium. Tea and dainty refreshments were served from a table centered with spring flowers and burning tapers. The girls who prepared were Anna Mae Steele, Margaret Steele, and Lillian Williamson. Soft music was played by B. Byron Griest on the electric organ. Near the close of the hour solos were sung by Betty Kendig, Mary Alice Weller and Juanita Christy.
The tea, given by members of the home economics class, was under the direction of Miss Kathleen Amos, instructor.
