

TIN CAN DRIVE TO BE STARTED

WILL BE PICKED UP ON A COLLECTION DAY LATER FOR WAR EFFORT

A great many housewives have been saving tin cans for the war effort and have been wondering just what to do with them. In certain areas of the United States drives have been conducted because of the immediate need and easy access to de-tinning plants. However, in this section, the need was not so great and the cost of transportation was greater than the sum realized.

Now, however, a drive will soon be launched in Plymouth and the cans picked up and taken to Cleveland. While they may not be needed at this time by early summer of 1943 every can will be needed. According to government specifications, the cans should be cut off both ends, washed thoroughly, label removed and flattened out by stepping on it. Throw the flattened cans into a barrel or box and keep them until they are collected.

Paint, Oil, Varnish, floor polish or cone-shaped cans, are not wanted and evaporated and condensed milk cans are not worth saving, it is stated.

It is pointed out that 90% of the tin used in this country's tin cans came from Malaya, now in the hands of the Japs.

War Department Asks That No Food Be Sent Overseas For Xmas

Postmasters are being informed that both the War and Navy Departments have stated that no food should be included in parcels mailed to members of the armed forces overseas, not only because of the crumbs and other matter escaping from parcels which attract vermin, but for the further reason that the armed forces are amply supplied with food.

It is also noted that publicity has been given to the use of shoe boxes containers for gifts sent overseas. While the notice in the notice in the Postal Bulletin of Aug. 19, 1942 regarding Christmas mail for members of the armed forces abroad mentioned a shoe box, it was done solely to indicate the maximum size desirable and not with the thought that an actual shoe box would be used for such parcels. Pastebord shoe boxes are not strong enough for this purpose and the public should be cautioned against using anything so fragile for parcels to be sent overseas.

SHILOH NEWS

CHURCH GIVEN CONTRIBUTION

Mt. Hope Lutheran church had another surprise the past week when a check was received from Mr. Albert T. Ferrell for the church. It was for \$250, and it matches the contribution he sent for the organ. The money this time was to be used for the organ if the amount had not been met, otherwise it was to be used for the church.

The money for the organ and chimes had been fully met. His interest in the home church is deeply felt by the congregation, and it is hoped that sometime each one can personally thank him, so he will realize just how much these great gifts are appreciated.

Mr. Ferrell's generosity cannot be measured alone in money, for his friendships and interests, as is manifested in the including of a dear friend's name in the memorial for his parents.

The name of Mr. C. H. Handley, still stands as a bright light in this community, and always will.

He was superintendent of the schools at this place before going to Saginaw. Mr. Handley established the first four years high school course here, and his standard and example for young people has never been surpassed.

His musical attainments and personality endeared him to everyone.

In Saginaw, where he taught for 22 years, a new school building was erected and given the name of Handley school. The plaque was donated by Mr. Ferrell. The wording on the bronze memorial is: "Zealous in promoting the welfare of the children; he served the schools with devotion and exalted character and left an everlasting heritage in the lives of the pupils."

So we again feel grateful to Mr. Ferrell for making it possible to have this great man's name on our memorial tablet.

MISS JEAN GARRETT BECOMES BRIDE OF DAVID RISH

Her hat was of corresponding color with shoulder length veil and accessories consisted of luggate tan. White roses made up the shoulder corsage which she wore. Mrs. Rodney Yarnan of Shelby was the bride's only attendant. Her dress was of white crepe with blue accents and her corsage consisted of yellow roses.

Mr. Rish chose Mr. Rodney Yarnan as his best man.

After a short wedding trip the bride will resume her duties at the Shelby Mutual Casualty Co., and the groom will return to New York City where he is stationed with the U. S. Maritime Service.

SHILOH GETS REVENGE

Last Friday the Shiloh Drummer Boys journeyed to Castalia to get revenge for a defeat suffered by Castalia on Oct. 2. The Drummer Boys really proved to Castalia their superiority on the field by taking the game 26-12. Some of the players of the game were two goal-line stands when Castalia had the ball on the goal line with four downs to go. The Drummer Boys put up a stiff defense both times holding them for downs. The Drummer Boys were superior in every phase—passing, power plays, and end runs. One of the other plays was a double reverse play which netted them 54 yards for a touch-down. One of the outstanding feats was when Jack Reynolds, the end, over took the feet-footed Goght of Castalia who was in the

sales tax returns for the Osterlen Orphan's Home at Springfield. The box to receive the stamps is placed in the church and members are asked to save them for this worthy project. A recent check sent to the Home was for \$200, which will be used for their new nursery.

talk on, and which we thought would interest the rest of the club.

Last Friday we had a six weeks test in English and also in current events.

JUNIOR CLASS NEWS

Now that play practice is under way I imagine most of you are anxious to hear the plot of the play. If the story of a small town girl making good. Of a coal producer who, with freemasonry, may duce a success with a Swedish tryer. Of a Swede just from Sweden trying to teach English to a "Mademoiselle". Of an office boy, Danny, who writes a play that is a success. It's a play for all the family. A play that would make everyone from grandma to baby sister laugh, especially when Albertus gets on the war path or Olaf and Mona get together. It's a play you can't afford to miss. It's a play you know won't make us feel superstitious because we know it's bound to be a success. Don't forget the date, November 13.

Our tax stamps are coming along very nicely now, thanks to the pupils of S. H. S. and also to our mothers. We're glad to get any. No matter how small the amount.

THE SNOOPER!!

Bring in your scrap metal, neighbors. If you haven't any way to get it to me, let us know and we will pick it up. All you have to do is pick up your telephone and dial 2721. We'll do the rest.

When Mr. Joseph asked Marcela Clark why she got the odor out of a substance, she answered "Hang it out in the air." The only thing, Marcela, is that the substance which Mr. Joseph was talking about was a liquid.

Whose fine male voice was that coming from the rear of the American History class? "Put put, put your arms around me" the other day when Mr. Spirk just couldn't get "put" out? Pretty appropriate, I should say!

We wonder why? Quate is always found in the morning down by the west door. It wouldn't be because Martha always comes that way, would it, Blimp?

Flash! One of the most important members of the Junior Play Cast was omitted last week. The character is that of Jeff Pringle, a play producer, played by Jim Sheely.

IT WILL STILL PAY TO BE CONSERVATIVE

The financial record of the Bricker administration has aroused the envy of no less a personage than George E. Sokolsky, columnist for the New York Sun, whose column is syndicated all over the United States.

Following a trip to Ohio where he learned how Governor Bricker has converted into a \$20,000,000 surplus the \$40,000,000 state debt which he inherited from the Democrats when he became governor, Sokolsky says:

"Coming from New York, I listened with envy and awe because Ohio is attracting industry to itself and its people have jobs, while here in New York we suffer the phenomenon of unemployment in the midst of a national man-power shortage."

Expressing surprise that this achievement was accomplished without any increases in state taxes, Sokolsky comments that Ohio has not state income tax. "I think the people ought to give an E flag to every State that has no income tax and is solvent. Here is a state that is not only solvent without an income tax but has a surplus. We might send some of our great financiers in Washington down to Columbus, Ohio, to learn how to do it."

Evidently he found another remarkable thing in Ohio, too, because he says, "there is another thing that I saw in Ohio which runs counter to the trend—and the trend is all wrong. In Ohio, it is definitely State policy to preserve the independence of local governments. . . . The trend throughout the United States has been in the opposite direction. After all, in the traditions of America, local self-government has ever been a bulwark against the tyranny of an overpowering bureaucracy. . . . Ohio apparently chooses to remain characteristically American."

From the way reports are coming in Plymouth school children are doing a good job of collecting the extra pounds of scrap that have been overlooked in previous drives.

(One Reason Why Service Is Less Prompt Than Usual)

War has taken its toll in the ranks of Gas Company employees. Already one out of every six men in the organization is in our fighting forces—and more going every day. Many of these men are highly skilled, long experienced, difficult to replace. Those who are left must fill the gaps by taking on added work and responsibility. When your service call isn't answered as quickly as usual,

one reason may be that the man who ordinarily would have been on the job pronto may be squatting behind a machine gun or leveling off in a P-40 bomber. You've been swell about service delays in recent months—and we thank you for that cooperation. These delays may necessarily become greater—but we know you'll continue to understand it all in the cause of Victory.

Paintings Now On Exhibit In The Toledo Museum

Toledo, Ohio, Oct. 14—Forty-five fine contemporary British paintings which crossed sub-infested seas last summer are being shown for the first time in the United States at the Toledo Museum of Art.

With these paintings are 69 others, also contemporary, and 44 representative British drawings and prints. The combined exhibit of 158 pieces will remain at the Toledo Museum of Art through October 25.

At the conclusion of its month in Toledo the exhibit will go to the John Herron Art Institute at Indianapolis and will later be shown in many eastern museums.

Included in the collection are many British paintings which were first shown in this country at the New York World's Fair.

Others have been sent to the United States at various times, none in a season so dangerous as that which saw the Toledo shipment last summer.

Now 1st Lieutenant

Friends in Plymouth will be pleased to know that Second Lieutenant T. J. Ratcliffe has recently been commissioned to a first lieutenant.

Lieutenant Ratcliffe entered the air corps service last May and has been stationed at Wright Field since taking up active duty.

Mrs. Ratcliffe spent the weekend in Plymouth and states that she and her husband like Dayton, their present home, very much. Mr. Ratcliffe finds his work very interesting, while Mrs. Ratcliffe is a nurse in a Dayton hospital. Both are readers of The Advertiser and enjoy reading it each week as they were former residents of the town, operating the local elevator here.

Weichel Declares 'Common Man' Has Ability To Govern

Appearing before women's organizations of Wood county, Alvin F. Weichel, Republican candidate for Congress, took as his subject, "The Common Man Must Rule," and declared the fountain of democracy is the "common man."

"The principal issue of the war is whether the Democratic principle of self-government, 'rule by the people,' is to survive. The outcome is dependent, if the democratic system can prove itself efficient and capable of quick definite action in a crisis. And also do the common people have the wisdom and ability to govern themselves.

"The Nazi form of government claims speed in administration. In such a form of government the will of a nation is the will of only one man. Speedy and direct action is possible, problems can be met and settled without delay. "In a democracy the whole people, by means of ballot have the right to pass final judgment on fundamental public policies. However, by the means of survey in a special field, democracy is highly benefitted because the leaders can formulate their plans and policy for the people with more sureness and accuracy. These surveys crystallize the opinion of the common man as to what he is thinking and saying. "The average judgment of the common man is less likely to be wrong than the judgment of any individual superman from the social groups.

"Our people were right long before Pearl Harbor. Most of them resented and opposed the sale of American oil, metal and war supplies to Japan.

"The people are right, now, when they want the war finished quickly, when they want the homes of the fighters protected by adequate food, clothing and medical help, when they demand help for the disabled after the war.

"This can be done by the right kind of Congress, one that is studied, trained and experienced in the problems of government, not by a rubber-stamped group. To accomplish what the people want we must have the constructive opinion of the common man and it can only be done by electing those who believe in the rights of the common man, not those fantastic dreamers who shout New Deal and give the people a short deal."—(Pol. Adv.)

Around The Square

NO MORE 50 or 75 watt bulbs will be manufactured starting about Nov. 1, which is okay with us because it simplifies the job of living. We are also relieved to learn that the number of styles of hand axes has been reduced from 382 to 147—we always had too many axes to grind.

THE GOVERNMENT has given the "go ahead" sign to circuses and carnivals to continue to operate until Dec. 1, but their fate next year remained undetermined. Idle printing presses are bad enough, but what on earth would you do with a bunch of wild animals?

THE WOMAN'S Volunteer Service in Norwalk has begun a campaign to collect silk hosiery needed for processing for the manufacture of parachutes. Nothing as yet has been started in Plymouth, but it wouldn't be a bad idea to hang onto them, just in case they are wanted here.

THE NAFM (National Association of Furniture Manufacturers) have just been told that all springs in upholstered furniture are taboo for the duration. This is going to be tough on these back-seat parlor Generals who have been fighting the war from an upholstered perch.

WE ALL get more or less impatient with the delays and inconveniences caused by the war and instead of the usual "Service with a smile," it might be well to remember: "Patience with a Smile." The following little verse gives the key:

Remember Pearl Harbor and don't swear
For labor is scarce and metals are rare.
Jim has been drafted and Bill is a gob.
And Sarah has left us to fill their job.
You'll get your order, don't be vexed.
Maybe this week — (or maybe next).
They've gone in defense of you and me,
So all that counts now is—Victory.

Dog's Tongue
While the dog's tongue is not exactly smooth, yet it is not as rough as in many other animals.

RICHLAND COUNTY IS PREPARED!

From high official sources of the State Highway Department we learn that the Auto License and Gas Tax revenue will be curtailed approximately 40% in 1943.

Assuming this to be correct Richland County will have \$100,000.00 less to operate with in the County Highway Department. This will mean strict economy and careful planning in said highway department, a policy the present Board of Commissioners has always endeavored to follow.

If re-elected as your County Commissioner I pledge you that I shall do my part in adhering strictly to this policy.

CUB NOTES

The third and last Parents' Training meeting was held on Monday evening with 18 present.

Mr. Montoya reviewed the main points of cubbing for the benefit of the new members present and then called on Don Einsel, Scout Master to tell something about Scouting which was given in a very interesting manner.

Mr. Montoya then conducted a regular den meeting with the assistance of Mr. Paul Snyder of Mansfield, Don Einsel, Wayne Ross and Eldon Sourwine. This proved instructive as well as amusing. Mr. Barkdull, acting as Den Chief conducted the ceremonies and program closing with

the regular Cub Benediction. We were then ready for organization and divided into three dens; one south of the Public Square to be den No. 1, with Mrs. John F. Root, Den Mother, Den No. 2 north of the square with Mrs. Harry Trauger, Den Mother and den No. 3 taking in all territory west of the square with Mrs. Clancy Rowe as Den Mother. It won't be long now, boys so

get busy on your achievements and make your Den Mother proud of you. The Cub Pack Committee, composed of Clancy Rowe, Howard Rowe, Howard Hale, Bob Schreck and John F. Root will meet Friday evening in the Lutheran annex at 7:30 p. m. The Den Mothers and Den Chiefs will meet Monday evening

October 22 at 7:30 p. m. at the home of Mrs. John F. Root on Plymouth street.

SURPLUS OR DEFICIT

Which do YOU Prefer?

When Governor Bricker took office, state finances showed a DEFICIT of \$40,000,000 piled up by the previous administration. Today this indebtedness has been paid off and a SURPLUS of over \$20,000,000 built up. This money belongs to you—the taxpayer. It was not used for political vote buying, but remains available to keep Ohio at highest efficiency during the war period.

Gov. JOHN W. BRICKER Made Good His Promise

Ohio is fortunate to have as its governor in these critical times a man who has made good on every public promise. John W. Bricker pledged that no new or increased state taxes would be needed if he were elected. Today he repeats this promise for the next two years. With every voter's purse strained to meet the rising tide of federal taxes, all savings that can be made in state taxes assume double importance.

Under Governor Bricker's administration, Ohio now occupies a place second to none in the war effort. Regardless of unfair political attacks, regardless of labor and industry armistices in action, resolve and accomplishment. Because the affairs of the state are being handled honestly, efficiently and economically, Ohio is fit and ready to meet the emergency we face. If you want to keep it that way, retain John Bricker in office.

Do Your Approval of this Splendid Record SAY IT WITH BALLOTS

Gov. Bricker speaks every Monday at 7:15 P.M. over Stations WAKR, WERC, WGAZ, WENB, WWHO, WYOL, WPAI, WYVA, WYVC, WYWG, WYWK, WYXJ, WYXK, WYXN, WYXO, WYXQ, WYXR, WYXS, WYXT, WYXU, WYXV, WYXW, WYXZ, WYZZ, WYZZA, WYZZB, WYZZC, WYZZD, WYZZE, WYZZF, WYZZG, WYZZH, WYZZI, WYZZJ, WYZZK, WYZZL, WYZZM, WYZZN, WYZZO, WYZZP, WYZZQ, WYZZR, WYZZS, WYZZT, WYZZU, WYZZV, WYZZW, WYZZX, WYZZY, WYZZZ, WYZZA, WYZZB, WYZZC, WYZZD, WYZZE, WYZZF, WYZZG, WYZZH, WYZZI, WYZZJ, WYZZK, WYZZL, WYZZM, WYZZN, WYZZO, WYZZP, WYZZQ, WYZZR, WYZZS, WYZZT, WYZZU, WYZZV, WYZZW, WYZZX, WYZZY, WYZZZ.

ADOPT CHANGES IN AMENDMENT

The Federal Reserve Bank of Cleveland stated today that the Board of Governors of the Federal Reserve System has adopted Amendment No. 9 to Regulation W, relating to consumer credit. The amendment becomes effective October 26, 1942. The changes are technical or administrative, designed to improve the practical workings of the regulation.

One of the changes relates to the sending out of listed articles "on approval". This may not be done if the customer's charge account is in default under the regulation; and if an installment sale is contemplated, the seller must obtain, at or before delivery, a deposit equal to the required down payment.

Another change permits the delivery of small listed articles (costing no more than \$5) to charge account customers even though the merchant does not check the accounts before delivery to see if they are in default, provided the merchant promptly requests any customer whose account he finds to be in default to return his purchase or pay for it immediately.

This change is designed to facilitate the operations of merchants who at busy times have found it physically impossible to check accounts before making deliveries. A third change permits credit accounts to customers whose charge accounts are in default by amounts less than \$2. This change is designated to relieve both merchants and customers from a requirement that is frequently burdensome out of all proportion to its importance.

CHANGES ARE MADE IN TESTS

Richland and Huron county high school students will need their next spring for the annual district-state scholarship tests; the tests will be brought to them in their own high schools.

Announcement of changes in plans for the test administered each year by the state department is made by Dr. Ray G. Wood, director of such tests for the state department.

Formerly the state has been divided into five districts and students have gone to their nearest state university—Ohio State, Miami, Ohio, Kent or Bowling Green for the tests.

"Because of the war emergency and the necessity for the conservation of rubber, the Advisory Board has made a complete revision for the administration of the test and the handling of the results," Dr. Wood says. A printed bulletin giving detailed information will be distributed soon.

The 1943 test will be administered in each high school through a committee appointed by the superintendent of schools, on Friday, April 30, from 9 to 11 a. m.

A student may take two subjects, selected from the following: Biology, chemistry, general science, physics, first year algebra, advanced algebra, plane geometry, American history, world history, senior social studies, English IX, X, and XII, Latin I and II, French I and II, Spanish I and II, pre-flight aeronautics, and book-keeping I. Advanced Algebra and pre-flight aeronautics are new subjects. Papers will be sent to the state department for machine scoring.

Team and school ranks are being eliminated, but individual certificates will be awarded for both district and state winners in each subject.

Schools Change Hours

We certainly don't lack for ideas or quick changes. We push the clocks ahead to gain an hour to help the war effort and then change the opening and closing of schools, etc. Just who are we kidding!

Over in Ottawa county, the schools will open and close a half hour later, starting Nov. 1st, as a means of permitting pupils to go to the schools at a daylight hour. In Lima, Ohio, school pupils will start to classes 45 minutes later, while up here at Monroeville parents prefer to have the children go to school by war time. A vote was taken the past week and disclosed that the majority were in favor of continuing the starting time of 8:45 and unless the Board of Education decides otherwise, that will be the starting time for the remainder of the year.

Oh well, that's what makes the world go around—maybe!

Ohioans "Eat Up" Home Town Paper

Ohioans just about "eat up" their favorite hometown weekly, advertising as well as editorial content.

This is the conclusion of Dr. James E. Pollard, director of the School of Journalism at Ohio State University, in a study of reading habits of subscribers to the London, O., Madison Press. More than 200 subscribers were interviewed in their homes or places of business.

Results of the survey are published in the American Press for September.

Among the conclusions drawn by Dr. Pollard concerning the Madison Press in particular and other weeklies in general are: Readers keep copies of their papers, on the average, about six days. Besides the subscriber, an average of 2.3 other persons read each issue of the newspaper. Subscribers peruse the paper several times, an average of 2.2 times. Average time devoted to reading the eight-page paper was 56 minutes. Weekly readers are overwhelmingly in favor of local news and

local illustrations. Classified advertising attracted a greater readership—73% of the men and 70% of the women—than any other major type of advertising. Editorials were read by 52.5% of the readers. Display advertising with a war theme or a local "saint", such as a high school commencement, yielded higher returns than the average, emphasizing the value of timeliness in copy appeal.

Publisher of the Madison Press is Raymond B. Howard, president of the National Editorial Association the past year.

"Papa Is All," Coming To Hanna In Cleveland

The Theatre Guild will present "Papa Is All", a comedy based on catch-as-catch-can depictions of a Pennsylvania Dutch family by Patterson Greene, at the Hanna Theatre, Cleveland, one week beginning Monday, Oct. 26.

Touted as something to see by the press of many key cities, this play is one of six to be offered by the Theatre Guild on its 1942-43 subscription series.

the star role and receives star billing in the advertisements, a position she has earned by one of the best billing in her career. Frank Carrington and Agnes Morgan did the staging and Emeline Roche designed the setting and costumes. Lawrence Langner and Theresa Holburn supervised the production.

It is just about two years ago that the curtain rose on "Papa Is All". "Papa Is All" deals with a Pennsylvania Dutch farmer who rules his family, consisting of a wife and two children, with a rod of iron. He is the complete house hold tyrant, and frowns generally on the pursuit of pleasure.

When his daughter sneaks off to see a movie with a boy friend his anger reaches such a pitch that his obedient but long suffering family is finally stirred to revolt. The rebellion provides the play with its comedy and its chief dramatic situations.

A NEW DAUGHTER

HOARDING AND MORE HOARDING; IT'S COFFEE NOW!

Human nature never changes. In an emergency we hope that an enlightened self-interest will enable housewives to see what they do when they buy more of anything than they require for their immediate needs. Apparently the idea has not been put across and we find housewives literally praying for coffee rationing. It will come, but not overnight. It takes time to put a rationing program into effect.

It has been a disheartening spectacle to see men and women going from store to store to obtain supplies of coffee. The result has been the usual one; the scarcity becomes a dearth and we are in trouble.

Retailers are receiving about 75 per cent of their normal amount of coffee, reliable reports show, and if each person would limit himself to three-quarters

of his usual coffee consumption there would be no difficulty.

Coffee hoarding is so futile, and "deteriorates even though vacuum-packed. Unless housewives stop buying more than they need to satisfy their immediate requirements, rationing is going to reach untold proportions. After we have depleted available stocks we rather like the idea of rationing. But numerous rationing programs mean an enormous OPA personnel. Man power is a problem, so don't make it worse by buying sprees which create rationing problems.

Quack old cures found to have real scientific value. Red flannel bed sheets, "witch doctors" "bull-roarers", frog skins, ground up earthworms and other "fantastic remedies" that turn out not so fantastic after all. Read of the modern application of these ancient folk beliefs, as told in The American Weekly, the magazine distributed with next week's Sunday Chicago Herald-American.

LETTERS from the BOYS IN SERVICE

ARRIVES SAFELY
A card from the war Department was received by his parents, Oct. 14, stating that Charles W. Rhine had arrived safely at his new destination. See Soldiers' address column for new the address.
His first letter, dated Oct. 15, by air mail, was received Oct. 19. Some excerpts from his letter follow:

Some where in the Pacific, Oct. 5, 1942
Well, I am on land again and glad of it. We arrived here yesterday; it is a beautiful place in spots. I can't say I like it as much as California YET.
Last night we slept out with the stars for a ceiling. It started to rain during the night, and I just pulled my clothes under my shelter, and said to myself, "Let it rain."
I am sending this letter by air mail; so please tell me how long it takes to reach you. We probably will not get any mail for a week or more.
The trees are shedding their leaves and reminds me of Ohio; although Ohio is a long way from here.
We sailed in a fairly large ship, and it was hot below decks. The air was stuffy and foul. We washed, showered and shaved in salt water.
Here, we drink rain water; but it seems to have a different taste than the rain water in Ohio.
This place, I imagine, gets hotter than "heck" at times, but is nice now.
I intend to get a swell "sun-

VOTE FOR FRANK H. PEIRCE for STATE REPRESENTATIVE

Republican Ticket FOR A SECOND TERM Election, Nov. 3, 1942

tan" back, like the one I had in Southern California last winter.
We are not situated in a permanent place yet, but will be soon. It is allowed and possible, I will get some pictures and send home.
With love,
Charles.

October 4, 1942
Hi Tommy:

When we are two little boys in the middle of the Pacific, talking about things back in the old home town and wondering where some of the others of the old gang are tonite and what they are doing.

I heard a gang of new fellows were coming in, so that day I intended to clean up in a hurry and start looking for a guy that was supposed to be in. I was in the shower and I heard a fellow come running up the stairs. I was just going to yell, "what are you trying to do, tear the house down?" when I saw it was there, there stood Tony. I started asking questions by the millions. Sure was good to see someone from home and get the low-down on things back there. Tony had two Plymouth papers and you should have seen me tear into them. Bill Fetters had been giving them to me.

Tony and I would like to know how things are back home. I got much scrap did the "old square" hold—hope plenty because they sure need it. Are they going to have a fall festival this year, sure hope so, we always had a swell time.

We suppose about all the young fellows are gone by now, one thing sure, Plymouth is sure representing darn good in this little affair that is going on.

I was just telling Tony the other nite you can't go too far away that Plymouth is not represented some way or other, out here we have the good old locomotive. I walked up to one of the engineers the other day and said "say, buddy, I used to work at the plant that builds these locomotives, how do you like them?" He said they are one of the best he ever run, no kidding. Tony spoke up and said "we not only worked there but that is our home town."

Well Tommy, we will draw to a close, saying hello to all the folks back home, and hello to all the boys in service and more power to them.

LETTERS FROM OUR BOYS
October 11, 1942

Dear Tommy:
I have a lot to say about the M. P. Co., but will not be able to write it all on this card. I am very far back on my writing, due to an illness that sent me into the company hospital.

I am receiving your paper every week and am very glad to keep up on the news, for it's interesting to know the addresses of the local boys in service. I see that Hank Watts is back for a while. I hope he is as good as ever. I don't believe he knows me very well, but I know him.
How is the weather down your way? It's what I call very chilly up here. We are almost through with basic training now and are mostly going to classes. We M. P.'s will probably be men yet of we keep plugging away.

How is everybody coming at the Fate-Root-Heath Co.? I do owe them a letter in the worst way. If you see Jack Hogsett and Fred Buzzard tell them I hope their injuries are not serious.
Yours truly,
Kirby M. Nesbitt
