Deadline For Rent Control December 15

George H. Blecker, area rent attorney at Mansfield, today admonished landlords who have not registered their residential rental housing to file their registrations before the deadline, Tuesday, December 15, 1942.

Blecker pointed out that willful refusal to register would place the landlord in the violation of the rent regulations in the event of a violation of the rent regulations after this date.

"Landlords have been given ample time to register their properties, and should understand the fact that registration is required," Mr. Blecker said.

"We of the Office of Price Administration realize that we are charged with administering a war time regulation which is new, not only to us who administer it, but also to people generally. We keep this fact in mind in everything we do to obtain compliance with the rent regulations. We have done everything we can to distribute information, and we are going to do so. However, we feel that the landlords in this rental area do understand that they are supposed to register their rental housing accommodations."

Rent control became effective in this area on November 15, 1942. The deadline for filing is December 15, 1942.

DECLINE SHOWN IN AUTO TAG REVENUE

An anticipated decline of 10 per cent, or about \$2,800,000 in automobile license tag revenue in 1943 was forecast today by Earl W. Wallace, registrar of motor vehicles, in a report to Hal G. Sours, director of the Ohio Department of Highways.

Mr. Sours was told, however, that the total income from sale of license tags in 1942 was about \$150,000. A loss of about \$100,000 in passenger car tag income this year was seen but the increased sale of tags for commercial trucks and trailers and farm trucks was expected to more than offset this anticipated loss and leave a small increase in total income compared with 1941.

Director Sours also made public figures showing that a drop of about 36.8 per cent, or \$15,981,288 in gasoline tax income is anticipated in 1943.

Police Unit Organizes For Civilian Defense

The reorganization of the auxiliary police unit of the Plymouth Civilian Defense Corps has now been completed under the capable direction of David Bachrach, who is the head of that unit. Dave stated that while all of the men have not completed their training to act as police under air raid conditions they are all studying hard and expect to be able to meet their required tasks when and if they are ever faced with the reality of an actual raid. The interest that this department is showing in their work explains why their attendance record last Monday at the mobilization drill was almost perfect.

The police organization is patterned somewhat after that of the air raid wardens. Sufficient policemen are assigned to each defense zone to insure the proper direction of traffic and to assist the wardens in enforcing block-off regulations.

Members of the unit are as follows: Dave Bachrach, chief; P. W. Thomas, James Ray, Tom Kucinich, H. C. Martin, Raymond Steele, Robert Bachrach, Carl McStable, Thomas Webber, Charles Baker, Otis Moore and Clay Hubert, the regular members of the police force, are assisting in training and organizing the auxiliary unit.

Youth To Register At Shiloh & Shelby

The registration of all youths who have passed their 18th birthday since July 1, 1942, in the north end of Richmond county, which includes Plymouth, Cass, Bloominggrove and Butler townships, will take place on Wednesday, December 30.

Originally announced for several successive dates, the draft board felt that all registrations could take place on the same date. The township house in Shiloh will be open for this purpose on the 30th for those in that vicinity of the county. However, the district of Shelby, Earl Stevenson will be in charge at Shiloh.

SEND GREETINGS

Greetings are sent to Plymouth friends from Russell L. Scott family of Lodi, who left here a number of years ago. In renewing their subscription for another year, they write they greatly enjoy the items from the old home town. "The interest is such that we are not to neglect customers while looking through the headlines of all important events when the Advertiser is received at the stores."

Mrs. Max Smith and infant son were removed Saturday from the Shelby hospital to her home on Clark street and Mrs. Smith is the former Clara Clark.

PLYMOUTH SOLDIERS TO BE REMEMBERED BY THIS COMMUNITY

Every Plymouth boy in service will remember this Christmas by the community as a whole. The American Legion Auxiliary have undertaken the task of sponsoring the drive and the ladies are out this week seeking contributions.

A new one dollar bill in service to every boy in service, regardless of the branch, as a Christmas gift, accompanied by a suitable letter. While announcement was made in the various churches, and a great many business men and individuals will be personally contacted, there still are others who may desire to contribute to this worthy cause; if so, Mrs. E. L. Earnest will be glad to receive your contributions or it may be left at the Plymouth Advertiser.

Test Air Raid Held Monday

According to schedule the Civilian Defense Corps of Plymouth, mobilized when the raid siren sounded at 12:25 p. m. Monday, Dec. 7. Madison Fitch, the chief air raid warden, stated that his department reported approximately one hundred per cent in attendance and that he was well pleased with the drill in every way. The auxiliary police and messengers also reported approximately 100 per cent attendance.

However, some of the other departments that have not completed reorganization, did not do so well. The final report shows that 92 of the men and women who volunteered for civilian defense work in Plymouth were on hand when the alarm sounded. This represents about 90 per cent of the entire corps.

Most of the members of the defense corps feel somewhat disappointed with the air raid siren. Some of the outlying districts reported they were unable to hear the siren. However, this district is being corrected and in the near future another practice drill will be conducted.

"All project operations in many states will be closed by the first of February, and in other states as soon thereafter as feasible. By taking this action there will be no need to provide project funds for the work projects administration in the budget for the next fiscal year.

Delinquent Taxes Decreases in Huron County, Report Shows

County Treasurer Harold B. Collier reports a substantial collection of real estate taxes for the collection period closed September 10.

The delinquent charge to the treasurer for collection in 1942 was \$124,416.74, which there now shows a balance of \$84,717.51, leaving a collection of \$39,624.46 of delinquent taxes that were collected this year.

There is a large amount of property in Huron county on which the taxes have not been paid for a good many years, and on these, there rests a large sum of money due the county and subdivisions. On these parcels, there falls an unpaid balance, which is about normal this year, of \$22,528.79.

In addition to the collection closed September 10, Mr. Collier states that he has received since that time approximately \$9000.00 of real estate taxes. There is a continued effort being made to gather in this material from the county and its subdivisions.

There will be, in accordance with the law, an advertised list of delinquent lands shortly after the first of January. The treasurer will then proceed to foreclose the titles of these parcels as provided by statute.

DISASTROUS FIRE AT NEW LONDON

Fire, which is believed to have started through an overheated stove, caused the destruction of over the west side of So. Main St., in New London, last Wednesday evening. Buildings included were the former Starbird block, the New London Fair Print shop, and all the buildings in between, Sue's Barber Shop, the Broughton Barber Shop, the M. E. Grave's Studio, the W. R. C. building, the Sylvester's grocery. The two latter places were damaged not so much by the fire as by water and smoke, inasmuch as the fire broke out in the basement, the water seeped through the floor and ceilings into the rooms above.

Mr. and Mrs. George Snider, who formerly lived on West High Street, Plymouth, were made homeless by the fire. They resided in an apartment behind the Norton Store. Incomplete details received here today that Mrs. Snider was taking care of two of her grandchildren at the time and so quickly did the flames spread, the two children and a dog were severely burned before being rescued. They were all taken to the hospital for treatment.

Dea. of the church, president of the C. E. Ward Co., suffered head injuries which required five stitches, when he fell while carrying relations from the Ward Company. H. R. Culbertson, 48, Ashland newspaperman, suffered back and head injuries, but he slipped and fell on the ice. He was taken to Ashland.

The fire was one of the worst in this vicinity for several years. Destroyed property in Norwalk and Ashland assisted New London firemen in the job of fire-fighting. Estimated losses and damage, including the blaze are set at \$100,000.

Farmers May Butcher Their Own Meat

Farmers have been wondering whether they are permitted to kill meat on their farms for their own use without a government permit or whether they must comply with the regulations of the state.

The state OPA at Columbus has announced that farmers who raise slaughter animals for their own consumption are under no restriction as to the quantity of meat used by the family. However, they are prohibited from selling without subjecting themselves to the rules governing packers and the slaughterers.

Many C Books Were Issued

HURON COUNTY HAS HIGH AVERAGE OF APPLICANTS FOR SUPPLEMENTAL GAS.

Fifteen per cent more motorists in Huron county has applied for and received supplementary gasoline ration than is the average for Ohio. Nearly half of the A permit holders were granted either B or C permits, while in most counties in the East but 35 per cent of the A permit holders were favored with extra gasoline.

Those who obtained A, or basic permits numbered 8360 in Huron county or approximately 2000 fewer than was normally to be expected. B permits (470 miles per month maximum) were granted to 2869 applicants, and 1724 C permits (unlimited, or staled mile maximum) were issued.

The figures were made available to the members of the Huron county war price and rationing board at its first meeting since gasoline rationing resumed. When the fifteen members met Sunday afternoon in the board's new offices on Main Street in Norwalk. In addition to the above applications 19 D (motorcycle), 427 E (small non-highway gasoline) and 10 F (service station gasoline users), 865 T-1 (truck) were granted. This report was given by Mrs. Vivian Carvey, chief clerk of the board, who also stated that every application for basic, supplementary and non-highway gasoline permits had been processed. Motorists who failed to apply for gasoline ration books during registration in their counties must now apply to the county ration office in Norwalk, she added.

The board was in session for four hours after meeting at noon and the many problems brought to the meeting by members of the board from every section of the county were discussed. The chairman reported to the group new developments and changes in rationing during the past few days. It was like a meeting of the board of directors of a large corporation—except for the fact that the board members are not members of the board but are representatives of the local community. Details were given without compensation of any kind for their service. It was no more conscientious if each received a flattering salary.

The board's meeting was a busy one. The board members were introduced. Former Mayor Fred Link of Norwalk, has been appointed chairman of the board for the county, and J. L. Leek, publisher of the Monroeville Spectator, has been named publicity and public relations chairman of the group. Later panel sessions were held—the gasoline pump, tires, etc. In each instance two men walked on the stage and their service in military or naval service, while supplementary gasoline, while several written appeals had to be considered in every instance.

The reason for the large number of C permits issued in Huron county may be found in the fact that the private automobile is the only method for the thousands of workers employed in the county. The Brick Ordnance Works and the E. B. Badgett Construction Co. at that plant to get to their jobs. Over 1000 of them are under no restriction and women employed at Plum Brook, and the need of the C permits certified by plant executives in every instance.

Messrs. Fred Buzard of New London, who is general manager of James Gate-Root-Heate Co., and James Gate, are members of the board.

TROOP NEWS

The question is "Can Tony Fenner see in the dark?" In fact so many scouts thought he could that he was made to walk in the dark a street marked out on the troop room floor, the second time, in order to rightly qualify as the winner. He did, and was the champ in the game. Blackout Pathfinding.

Scouts enjoyed the stunt put on by the Explorer Patrol. They also put on an excellent demonstration of drill. It finally took the P. T. and A. E. to show them how.

The material to improve the troop room has arrived and the work will soon be completed.

The Pine Tree and American Eagle Patrols are putting a chill supper on for the Explorer Patrol this evening as a result of a contest they lost a few months back. Many thanks to Roy Carter for his time and materials put in the construction of our bulletin board. Court of Honor will be held in the Elks Home at 60 N. Mulberry in Mansfield, Dec. 17, at 7:30 p. m. Those who are able to make the trip are cordially invited. Boys from Plymouth will include Bill Derr, Gordon Sealhous and Sid Thomas as Life Scouts; Jim Moore as Star Scout and Russell Baker as Second Class Scout. Sid Thomas and Junior Baker will receive First Honor as Explorer Scouts and Thomas will also qual-

ify for Scout Citizen. Various others will receive merit badges. Warren Wirth is Plymouth's first Air Scout. He has passed all the necessary requirements and is qualified as an apprentice air scout.

Visitors at meeting Monday included Jim Gullett, Don Smith, Beanie Buchanan, Bill Lawrence and Bob Kennedy. These boys are all working on their Tenderfoot tests.

Troop committee met in the home of the Scoutmaster last Friday and routine business was conducted. Plans were made to insulate and improve the troop rooms to the extent that they would be usable in cold weather. Plans were also made for Scout Week.

LETTERS from the BOYS IN SERVICE

Thurs., Nov. 26, '42

Dear Mr. Thomas:
 How is the big town of Plymouth getting along? I just came back from New Mexico where I have been training for the last two weeks. I guess I'm going to be a machine gunner, as I have been practicing with it for the last week or so. Don't ever let anyone tell you it isn't a thrill to shoot the fifty caliber machine gun for I believe it is the best weapon out.
 We are celebrating Thanksgiving today. I had one of the best dinners ever served to me right here in camp. Every one had a swell time and we had music and different songs sung by the boys in our camp.
 Some of the songs brought back a lot of sweet memories of happy days in civilian life.
 How is the weather in Plymouth? We are having swell weather here. It gets just a little cool at night, but it is very comfortable in the day time. I received your paper Thursday and it sure is nice after a long day to be able to sit down and read what your different friends in the armed forces and civilian life are doing.
 Well, I guess I had better cease writing, but I wish to say "Hello to the town of Shiloh" and to all my friends and also my folks.
 Well, here's saying so long and here's hoping next year at this time our friends and their family will be together again.
 Best wishes,
 Pvt. Archie P. Garrett,
 Btry A, 453rd Leg. C A Bn,
 Ft. Bliss, Texas.

 Dear Tommy:
 I am enclosing money and wish to renew my subscription to The Advertiser. The local paper still looks good even though I have been away from Plymouth for quite some time. Why not make it a daily, Tommy? The column addresses of the local boys in service is a real help and I also enjoy the letters. Sometime when I get in a state where there is something to brag about, I will get off a few lines. Would still sell Texas for the price of a good steak!

Sincerely,
 Bob Nimmons.
 Dear Bob:
 Thanks for the "sub." Am glad

to know you enjoy the sheet, although I sometime wonder if it is really appreciated.

Now, Bob, you're in the army, and following true tradition, any place you hang your hat, you should be able to "feel at home."

Johnny Fackler did admire the weather down there, and I am certain you are not shoveling coal as we are doing here.

Plymouth boys should be well remembered at Christmas. Many

local organizations have been real busy getting out cards, gifts, etc., and I am certain that when Xmas rolls around, there will be a number of the boys surprised, because they were remembered by the folks back home.

There isn't much to tell you at present. You know Plymouth, the same old thing and place, day in and day out. Once in a while we do see an airplane and we all run out to see what it looks like. Must

say that the folks here are buying bonds, and that proves we are backing up our country and the boys in service.

Saw your Dad here a few days ago. He's looking healthy, and says he feels real good.

Well, I hope you will remember to write us soon, even if it's about the cactus and longhorns.

Best wishes for a Merry Christmas and a Happy New Year, Tommy.

LOCAL BOY ON SUB

Fay William (Bill) Fetters, son of Mr. and Mrs. Luther Fetters, is now aboard a submarine out of the San Francisco area. While he is not permitted to write much about what he does, he does state in a recent letter that an article in the December issue of Liberty has a splendid account of what duties they perform and what is required of them. The article is entitled: "Submarines Have No Press Agents."

Bill has a birthday on the 23rd of this month and nothing more is more appreciated than a shower of cards. Friends may address him, care U. S. S. Trigger, care Fleet P. O., San Francisco, Calif.

Scrap Metal Piles Go

Mr. Nesbitt and his boys want to thank everyone for their part in making this drive a success. Remember every scrap means a Jap.

The Snapper!!!! It seems that Charles Young was getting more attention from Jeanette Forquer than the basketball game at the game Friday night. It is that why you attend the games, Jeanette?

This is Dean Wolford's idea as to what is wrong with Denver Shepherd: Denver is a long legged strung-out specimen. He gets butch haircuts when he should have his hair cut like Dick Pittenger. He isn't a very good example to follow. He has one advantage over the rest of us, he doesn't have to take as many steps to get to a point of distance as the rest of us.

Cost Of Living In Holland Is Exorbitant

Whenever you get to feeling a little sorry for yourself, because the prices on commodities are continually hitting new ceilings, it might help to remind you that people in Europe and Asia have been paying dearly for a great many things that we take for granted.

The Nickerbocker, newspaper from Holland and written in the native tongue, quotes the following prices paid in June, 1942. The paper was recently received by Mrs. J. H. Newmyer of Celeryville and translated by her daughter, Mrs. Don Anderson.

Food is rationed with coupons similar to our sugar ration cards and which entitle them to purchase that amount. For instance one coupon and \$1.75 to \$1.80 entitles the holder to one whole bread; 1-2 lb. butter is \$3.00; 2 lbs. sugar \$3.50; 1-2 lb. beans or peas, 45c, and 20 cigarettes \$1.50.

With one pound of tea or coffee listed at \$50 to \$70, no doubt Hollanders are asking if they want a few drops of coffee in your cream, which entitle them to purchase a quart of coffee for \$100; a quart of potatoes sell for \$70; eggs are 45c each. Lard is \$20 a pound; 100 lbs of coal or coke range from \$5 to \$10; a pair of shoes \$35; ladies hose \$8; bicycle tire \$50; a quart of benzine \$2; one bottle of olive oil \$15—or more; 1 pound

of barley \$3.50, and one loaf of bread \$11.

Should you desire to eat in a restaurant the prices are crab, \$35; chicken or duck \$25; wine, \$12. On that date the average daily production per farm was 166 lbs. as compared with 169 lbs. on the corresponding date of last year.

After reading these prices, we should be more determined than ever that not one thing should be wasted here and every effort made to supply our boys in service with every necessity needed to end the war as quickly as possible.

MILK PRODUCTION IN THE MANSFIELD AREA ON DECLINE

Declining milk production in the Mansfield milkshed during the third quarter of 1942 is indicated by the Borden Company's regular quarterly report on milk receipts of Levering's Dairy, Mansfield, division of the company, as released by Manager Martin L. Levering.

Despite a drop in production, total payments for milk increased as a result of higher prices, according to the report. During the three months, which ended Sept. 30, the company bought 694,869 lbs of milk for \$26,103.68. This was an increase of about 1 per cent in total payments for milk and a decrease of 9 per cent in production for the corresponding period of last year when the company bought 1,078,227 lbs of milk valued at \$25,879.28.

Current milk production is running slightly behind last year, according to a survey of 715 dairy farms which was made by the Borden branch in Columbus Nov. 12. On that date the average daily production per farm was 166 lbs. as compared with 169 lbs. on the corresponding date of last year.

Lt. Eugene Phillips Flies P-38 Fighter Ship

Eugene Phillips, who recently won his silver wings and a commission as second lieutenant, writes from Pendleton Field, Oregon: "They gave me the airplane that I have always wanted to fly, namely the P-38 Twin Engine Fighter, which has been declared

the fastest plane in the world. It should not be very long now before I get into combat.

The weather is just about like that in Ohio. We have had some snow here, but I prefer this place to the desert any day."

Eugene was transferred recently from LaB. Field, Arizona. He is the son of Mr. and Mrs. Ed. Phillips of this vicinity, and a graduate of New Haven High School in the class of 1940.

WOOSTER CLUB TO MEET IN MANSFIELD

Prof. Martin Remp, head of the psychology department at the College of Wooster, will be the guest when the Wooster Club of Mansfield meets December 11 at 8 p. m. at the home of Mrs. R. F. Cox, 338 W. Third St., to observe the twenty-second annual "Wooster Day."

Wooster clubs in approximately 35 cities will meet on or near December 11 to observe this college holiday. The date is a memorable

one in Wooster history. The college library was dedicated on December 11, 1900. Fire destroyed "Old Main," six story building on that date in 1901, and just one year later four new buildings were dedicated.

LETTERS FROM OUR SOLDIER BOYS

Camp Carson, Col.
Hello, folks:
Well, we arrived in camp this evening, (Friday, Dec. 4) about 8 o'clock, Colorado time.

Saturday morning. The lights went out last night just after I started writing. It will soon be

time for chow, so I will have to finish after that. I have a nice cold but don't think it will last long. We really have a beautiful camp here. It is a new camp, but the roads are all built and everything is swell. This letter is in relay; well we just had breakfast—not bad. I never heard more profanity in all my life than I did from the mess sergeant this morning. I guess words can't hurt us.

We just got our morning paper, Colorado Springs Gazette. We are just seven miles from Colorado Springs, not far west of Denver. We are located at the base of Pikes Peak. It's just getting daylight so we haven't seen the mountains in broad daylight. This is really a beautiful country here. The air is very light and the water is so different.

Our train ride out here was miserable. We were on coaches from Ft. Hayes to our camp here (the same coach). We tore the seats down and layed on them until they would buckle for us, which was very disturbing. There is a million things to write about, but that will have to wait until tomorrow (Sunday). I am laying on my back trying to write.

Well, for now, I will have to close. Please write, everybody, tell me about the things at home. Your soldier son,
Gordon.
