DEFEND OUR DEFENDERS

CITIZENS ASKED TO WRITE OFFICIALS FOR PASSAGE OF SHEPPARD BILL.

A nation-wide Appeal to the Christian People of America was announced on Mother's Day, last Sunday, from the pulpits of every church to defend our Defenders from the two great evils now facing our armed forces in Europe. The two great evils are Prostitution and Liquor.

Since America's army has become a citizen army, they menace the future of ordinary living in every community, thus endangering the future of the American way of life.

There has been before Congress a resolution known as the Sheppard Bill (S. 280) which would regulate not only prostitution but liquor. By writing, telegraphing or signing a petition and forwarding same either to the President of the United States, The Senators, Representative at large, and Congressman, at the voice of the people can be heard and demand the passage of this bill.

A letter to the president can be addressed "My dear Mr. President" or to your Senators or Representatives in Washington, D. C., as "The Honorable Robert T. Taft or Harold H. Burton, Washington, D. C." The same salutation can be used for the representatives at large, George H. Bender, Stephen M. Young, or Congressman J. Harry McGreevey for Richland County District and A. D. Baumhart for Huron County District.

The letters, wires or petitions should be brief and courteous but voice the opinion that we are backing our representatives in the passage of the Sheppard Bill.

AAA WHEAT QUOTAS NOW BEING SET UP

ALLOTMENTS TO BE MAILED TO FARMERS LATE IN MAY OR EARLY JUNE.

Wheat allotments for Richland county farms in 1943 are being prepared at the county AAA office and will be mailed to wheat growers within a few days, Chairman Guy L. Taylor of the AAA committee, stated.

Farmers who have raised no wheat in the past three years will receive no allotment notice and allotments will not be set up for their farms until the owners apply to the county AAA committee in writing before June 1.

Government payments will be made on allotments for all farms regularly producing wheat but there will be no allotment operators of new wheat farms. Further, the AAA will make no acreage deductions on new wheat farms provided the 1943 acreage is not in excess of the allotment of 15 acres, whichever is higher.

Local Citizens Receive Naturalization Papers

Two residents of Plymouth were included in the group of 24 foreign-born residents of Mansfield and Richland county, who qualified in common pleas court, Mansfield, last Wednesday for their naturalization papers.

Thirty applicants were notified to appear for their final tests before Judge C. H. Huston. Three failed to show up and three others were denied their papers temporarily because of foot ailments.

All of the new citizens are natives of non-belligerent countries or those allied with the United States. In the present war, Petitions of Germans and Italians natives were withheld indefinitely by federal immigration authorities.

There were no Japanese applicants. The two from Plymouth who received their papers are Mrs. Alta Mary Munn and Dominic Pophorian.

PLYMOUTH HAS 2,125 PERSONS APPLY FOR RATIONING BOOKS

A total of 2,125 applications were filed for rationing books here during the four-day registration period which closed last Thursday night, according to Sup't. E. L. Bailey.

Although that number of persons filed applications for books, only 1900 persons received them. The first article to be rationed through the books is sugar. The persons not receiving the books were ones that had over a more than normal supply of sugar.

The faculty of the school served as registrars and did not receive one cent of pay for their work. The group is to be complimented on their work.

An increase in the present figures is expected when those persons not already registered do so when they are again permitted to make application for ration books in approximately a week or so. Throughout the state, nearly 2,000,000 Ohioans failed to register for sugar rationing, it was announced.

ALONZO GRANDON, OWNER OF HISTORIC STONE MILL, IS DEAD

He was taken to the hospital from his home where he suffered a fall the day before. The interesting mill property has attracted many visitors for years. It has not been operated since the early days of the county.

LEAGUE TO FIGHT EFFORT TO MOVE MILAN COON FARM

The Erie County Conservation League reports it will fight in every way possible any effort to have the Milan coon farm of the State Conservation department moved into Toledo territory.

It was reported that a move was being made by Toledo sportsmen to have the farm transferred. President Alden Feiz states that the League may have its own clubhouse soon. The League favored appointment of a committee to secure a site and plan to build the clubhouse. The woods and marsh on Dale Bradshere's place east of Sandusky on Route 2 is being considered.

BOND QUOTA FALLS SHORT

PLYMOUTH PLEDGES TO BUY \$5000 DEFENSE BONDS AND STAMPS PER MONTH FOR THE DURATION OF WAR.

Although the goal to purchase \$5,000 Defense Bonds and Stamps per month was not quite reached in the pledge drive just completed, yet the majority of citizens of Plymouth can feel quite proud of the fact that they did pledge over \$479 per month or \$5,748 per year for the duration of the war.

The goal of \$6,500 was established by John Wise, Huron County Chairman, who based the goal on the population of Plymouth and the amount of goals set up for other communities.

Every possible effort was made to contact every citizen in Plymouth for a pledge, but without a doubt, have overlooked several persons, and if they still care to pledge they may do so by seeing any member of the committee.

We found that many citizens have bought and will continue to buy bonds in the future whenever they are financially able, but as they are not buying them on a systematic basis we could not include them in the pledges. For this reason, coupled with the fact that many whom we felt could have and should have pledged, but did not do so, kept Plymouth from reaching its goal.

I would at this time like to thank all the members of the committee, consisting of Don Ford, Sherman Moist, Dick Hendricks and Marshal Burns, for their many fine suggestions and assistance in setting up the campaign, along with the other members of the committee, want to express our sincere thanks to all canvassers, including the men at the shop, who gave up much of their time and effort in obtaining signed pledges.

JIM ROOT, Chairman.

EVERY POUND OF METAL IS NEEDED TO HELP WIN THE WAR—DO YOUR PART!

Village officials have planned a combination clean-up and salvage campaign with the first collection to begin at 7:30 o'clock Monday morning. Otis Moore announces that Plymouth Street will be the first on the program and all citizens are asked to cooperate by placing their discarded articles on the curbing in substantial cartons ready for the pick-up crew.

The call of Spring has brought out an army which is warring on grime, and accumulation of ashes, tin cans, paper, scrap metal and rubbish while carpenters, painters, masons, and paper hangers are busy in almost every neighborhood.

These activities are visible evidence of a wholesome American love of cleanliness and order which is best rewarded by a glow of satisfaction in a good job well done.

After Plymouth street has been completed, the drive will then extend down Sandusky street, West Broadway, Trux and later, the side-streets will be taken care of.

Special attention is called to the tin can collection. These cans can be converted into valuable salvage but ONLY under certain conditions. THEY MUST BE cut

ASHLAND AAA CHAIRMAN CALLS FOR WHEAT FRAUD INQUIRY.

A request from Jake W. Staman, Ashland county AAA chairman, for a federal investigation of the May 2 wheat quota referendum in his county brought quick response today from Russell T. Kiko, head of the Ohio Marketing Protest association, who said "every farmer in America" would welcome the investigation.

The Ashland county chairman called for a probe after the official tally of ballots cast in the referendum showed that there were five more votes than eligible voters in one precinct.

"We will demand that the investigation cover all phases of the election which was a farce, a joke and a fraud," Kiko said. "We doubt that the AAA will go through with it but they do, let them investigate every state where the voting took place."

Mrs. Mabel McFadden, who has offered to accept applications of blood donors in behalf of the Red Cross, reports a splendid cooperation in Plymouth. "Give your Blood and save a life," campaign is going over with unusual success.

The persons registering will have the blood taken at Mansfield when the Mobil Unit comes from Cleveland.

USO NOW SERVES IN 44 STATES, 23 FOREIGN BASES

In joint conference with national leaders, Harvey S. Firestone, Jr., Ohio Chairman of the USO War Fund Campaign, and Governor Bricker, Honorary Ohio Chairman, have just announced completion of plans to join in the nationwide effort beginning May 11, to raise \$2,000,000 so that USO can continue to serve the recreational, religious and educational needs of our armed forces in both the Army and the Navy.

In revealing the campaign program to raise Ohio's quota of \$2,145,000 Mr. Firestone announced that USO service units are already established in 44 states and in 23 foreign bases where American forces are now stationed, and named India, Russia, France, Australia and Norway as possible places where USO may be called to serve. "We know the American people want USO to be there alongside our fighting forces," said Mr. Firestone, "and will see to it that we do not lack the necessary support to do so."

Mr. Firestone, explaining the use of the initial \$14,856,000 in last year's drive, reports that USO now has 971 service units in operation. Clubs for soldiers and sailors total 475 while other units are being operated in vital industrial areas for women and girls engaged in war production. In addition, further demands by our Army and Navy have been made and complied with by USO," said Mr. Firestone. He enumerated these extra activities as including service to troops on maneuvers, USO camp shows, lounging quarters and information for troops in transit, the Victory Book Campaign, mobile units to serve soldiers on guard at bridges and isolated points and the establishment of citizens' committees to accept of citizens' donations to serve our armed forces. Mr. Firestone urged workers on committees which are being formed in every county of the state to carry the story of USO to every citizen so that the funds would be raised that are necessary to comply with Under Secretary W. Patterson's statement that USO will be called upon to double and triple its work this year. "Every loyal American is seeking ways in which he can increase his contribution to our war effort," Mr. Firestone said. "USO offers such an opportunity. It is a civilian arm of the American government, dedicated to the service of our fighting forces and a vital factor in the successful outcome of the war."

GOES TO ARMY

Tony Feinberg, son of Carl Fenner, native born Italian, goes off to war Monday under the Stars and Stripes. Tony's dad has lived in Plymouth many years and we've seen Tony grow up, go through school, and for the past five years he has worked in the plant of The Fate-Root-Heath Co., where his father is also employed.

Tony, from childhood, has suffered a "limp" in his left leg, but last December he underwent an operation hoping that it would do his limb some good. Tony isn't expecting to be turned down on this account, and doesn't want to be — he's ready to take his stand with the scores of other local fellows who have gone to service.

Well, Tony, we all hope that you have a lot of luck, and that you still carry that smile of yours in the army the same as you did while at your work here.

Wayne, along with other members of the 37th Ohio Division, was being transported from Indianatown, Ga., Pa., to somewhere in the West and Wayne took a chance of this notifying his sister Mary that he was passing through Cleveland.

U. S. Treasury Official War Bond Quotas for May

May Quota for State, \$31,768,700

The above map of Ohio shows the War Bond quotas, by counties, for the month of May, 1942. Total War Bond quota for the State is \$31,768,700. Every income earner in the State is expected to stop War Bond purchases on a basis of ten per cent or more of income. This is necessary to help America's armed forces take the offensive against the Axis powers. The American voluntary method of War Bond purchases must be successful in reaching the quotas set by the Treasury Department for every county in the nation. The job of every American now is to stop spending and save dollars to help win the War.

Danger Signals Shown by Legumes When Starvation Menaces Their Life

Above are shown: 1—A healthy soybean leaf; 2—Symptoms of nitrogen starvation; 3—Lack of potash.

LEGUMES that are starving for plant foods reveal their distress by losing their healthy green color and developing white spots around the edges of the leaves that spread over the entire surface. But unlike starvation in human beings, this ailment is much more frequently fatal, for the leaves turn yellow and die.

The three essential plant foods most needed by legumes, as by other crops, are nitrogen, phosphorus and potash.

In general, slow growth, smaller plants and reduced yields are the result of nitrogen deficiency.

Phosphorus deficiency causes slow growth, small and under-developed plants.

Of all starvation symptoms noticeable in legumes, those of potash hunger are the most easily recognized. Irregular white dots or mottled patches appear around the leaf edges. These finally merge, forming a continuous yellowish rim around the tip.

Among things to watch in particular species of legumes are the following, according to the Middle West Soil Improvement Committee: Soybeans. A pale green to yellowish-green color indicates a lack of nitrogen. When potash is urgently needed, a "measles-like" mottling occurs, forming a yellowish band along the sides and tip of the leaf. Red Clover. Potash hunger starts with a series of yellowish or white dots around the tip and sides of the leaf. The entire margin of the leaf becomes yellowish and then dies as the condition spreads to the center. Alfalfa. When symptoms appear the plants are in desperate straits for nourishment. In general these follow the trend in other legumes. The discoloration starts as small dots; then it involves the entire leaf margin and is followed by death of the tissue.

There's enough steel in one set of 60-penny bed springs to make two 4-inch shells for a 105-mm gun, a 250-pound kitchen stove contains enough iron to make a single 500-pound aerial bomb, and a man's woolen suit uses enough material for two army blankets.

The rubber in four pairs of men's overhoses would make a single pair of army galoshes, 60 containers for 75-mm shells can be made from a pile of 100 old newspapers, and one pound of brass pipe contains enough metal to make eighteen 30 cal cart-ridges.

BACKLIGHTING

Backlighting gives the very pleasing effect, shows this little girl's head. You can get similar effects in your pictures if you watch the light.

Lighting is, and always has been, of the greatest importance to picture-making - so today let's consider the subject of backlighting. There are several reasons why every photographer should frequently use backlighting in his picture-making.

First, it's an excellent means of dramatizing any subject.

Second, it's one of the primary methods of adding variety and interest to any snapshot collection. And, on the third count, it's one of the most effective tricks I know of producing out-of-the-ordinary pictures.

All right, now what are the practical aspects of backlighting? In other words, how can it be made to work for you in your picture-making, rather than against you?

Well, remember this: composing a backlit picture will be no more difficult than composing any other snapshot if you let your inherent good taste guide you. Exposure, however, is somewhat different for backlit subjects. If-as in many cases-you want a sort of silhouette effect, then the secret lies in a very short exposure. But, if you should want a good deal of detail in the shadows, then you've got to give at least 100 per cent extra exposure-twice as much as normal. However, don't worry too much about technicalities. Remember to create the lens from the sun and compose simply, but in any event try making pictures when the light is coming from behind your subject. You'll find it one certain way to get dramatic, interesting pictures.

You might as well Confess

Almost everyone likes a mystery - almost everyone enjoys the thrilling excitement of tracking down a criminal with an ace detective. But some are a little ashamed to admit reading mysteries. Well-you need not be.

Maybe you didn't know that many college professors, bank presidents, great scientists, captains of industry, even the President of the United States all like their mysteries. In fact, millions of Americans are reading more mysteries today than ever before. Why? Mainly because these "fast-paced, easy-reading" stories are both relaxing and refreshing. It is for them-and for you-that we are publishing

Elyria Queen's Mystery Magazine

Edited by Elyria Queen, famous detective of the radio, the movies, and best-seller books, it is devoted exclusively to the best in detective crime short-story literature. And we mean literature. The fact that a story owes its plot to crime and detection need not prevent its being well written. Short detective fiction that is well written is not readily available. But we are finding them-in books, in magazines, in the files of famous authors-and by arrangement with other publishers as well as with authors, we reprint in the approved Readers' Digest manner the best detective fiction to be procured.

Such masters as Dashiell Hammett, Agatha Christie, Stuart Palmer and Elyria Queen are to be found in it. But stories are selected on their merits, not on their names. Tough and suave, casual and swift, comic and tragic, they are mingled with refreshing variety and stimulating change of pace. Rare gems, fit for the most critical eye, you will find most naive. You will find the new magazine well printed and sharp and clear, kind to the eyes. You will find size same as the Reader's Digest - convenient to hold, to handle, to slip into your pocket. You will find the cover as pleasing to look at as a book jacket. And you will find the contents the most satisfying, quarter's worth of good entertainment you have found in many a day. Arrives in Oregon

Mrs. Robert Cornell (Isabelle BeVier) left Plymouth (Saturday) for Astoria, Oregon, where she will reside with her husband, Robert Cornell, who is in camp near there. Mrs. Cornell has been residing in Plymouth with her parents, Mr. and Mrs. Grover BeVier.

She arrived in Oregon Tuesday and writes that the trip through the West at this season was a real thrill, as snow still covered the mountains in that section, and it was necessary for the heat to be used on the trains while passing through that section.

Mrs. Cornell and her husband will reside in Astoria until the time comes that Mr. Cornell will be transferred.

THANKS A LOT!

To all who had part in sending me a box recently: I enjoyed it very much. I was surprised when Lawrence Cornell handed it to me and said his brother, Arthur, brought it.

About all I can do is to say I am glad someone remembers me and perhaps I will be able to return a good deed for you folks sometimes.

Thanks for everything.

AAA PAYMENTS FOR 1942 IN LINE WITH THE NEEDS

New rates for parity payments and revised rates for conservation payments under the 1942 AAA program were announced by Robert E. Finlay, chairman of the Huron County AAA Committee. These new rates are in conformity with the nation's war-time needs for record production of essential crops and for a continuation of vitally needed soil conservation measures.

The payments are aimed, within limitations of available funds, to help farmers use land, labor and equipment as efficiently as possible to raise required supplies of the farm products this country and its allies must have to win the war.

This year's payments, in effect, are levers helping farmers convert from production of crops with big reserves to crops the country needs to increase quickly. Mr. Finlay pointed out.

Parity payment rate to corn producers in 1942 will be 11 cents per bushel; while wheat producers will receive 13.5 cents per bushel.

Rates for 1942 conservation payments were tentatively determined last November on the basis of the \$500,000,000 conservation fund authorized by the Agricultural Adjustment Act of 1938. Later, a reduction of \$50,000,000 was made in the budget request to Congress. In line with this reduction, the conservation payments for 1942 are generally being revised downward. In addition, a further reduction is made in the rates for corn, because the 1942 allotments have been increased 10 per cent over the original figures announced last fall. However, Mr. Finlay stated that the total corn payment is in excess of the 1941 total payments.

The following table compares parity and conservation payment rates for 1941 and 1942 with the original and revised 1942 conservation rates:

	Parity 1941	1942	'42 Rev.	1941	1942
Corn	10	11	10	10	11
Wheat	13.5	13.5	13.5	13.5	13.5
Corn, per bushel:	9.0	8.0	5.5	5.0	11.1
Potatoes, per bushel:	2.5	2.0	1.0		

The announcement made today does not include changes in the soil-building allowance rates or soil-building practice payment rates under the 1942 conservation program. Mr. Finlay said that necessary changes in these rates will be made later when more adequate information becomes available concerning the extent of participation in this phase of the program.

MUSIC FESTIVAL TO BE EVENT OF FRIDAY EVENING, MAY 15TH

More than 300 Plymouth School students will participate in a music festival entitled "Americans All—Immigrants All" to be presented in the High School Auditorium tomorrow night, Friday, May 15 at 8:30. The show is built on the fact that everyone in America today can trace his ancestry back to peoples who have immigrated from foreign countries. A chorus of approximately 150 voices, a thirty piece band, the first grade rhythm band, vocal and instrumental soloists, folk dancers and ensembles furnish the talent to present this patriotic jubilee.

Due to surrounding conditions, elaborate costuming has been omitted in this performance. A limited amount of seating space will be available, so be sure to come early for a seat.

APPEALS MADE FOR WORKERS IN PEARL HARBOR

Cincinnati, Ohio, May 14 — A patriotic appeal for laborers for defense work at Pearl Harbor was issued today to workers in Ohio, Indiana and Kentucky by D. C. Whelan, Manager, Sixth U. S. Civil Service District, which comprises these three states.

"Uncle Sam needs these workers at once," Mr. Whelan stated. "It is an opportunity for patriotic workers to do their part in strengthening the defense positions of our country. It is their chance to do their part in making it possible to hit the Japs with a two-fisted attack that much sooner and harder."

"Laborers in every city and town may apply for these jobs," Mr. Whelan said. They can get information about them by inquiring of their local postmaster or at any U. S. Civil Service Office in cities where there are offices. Information in this regard had by writing or contacting the offices of the Sixth Civil Service District, Room 806, Post Office Bldg., Cincinnati, O. Transportation costs of each party will be provided by the Government.

GLORIA GETS GEMS, NO WHITNEY CASH

New York — Gloria Vanderbilt of Cicco, the niece who custody the late Mrs. Harry Payne Whitney was willing to spend a fortune in court battles, will receive under the terms of the society matron's will only a pearl and diamond bracelet and the hunting, racing and horse show trophies won by the famous stable once maintained by Gloria's father, the late Reginald Vanderbilt, who was Mrs. Whitney's youngest brother, and other mem ements.

The will, filed for probate today, provides for a gift of \$2,500,000 to the wife, the Commodore of American Art and for all the rest of her fortune—minus her jewels, personal effects and real estate—to be devoted to charity.

The estate of the late Gertrude Vanderbilt Whitney's estate is not revealed in her will. The bulk of it represented the fortune worked by her father, Commodore Cornelius Vanderbilt, and not the estate of her late husband, Harry Payne Whitney, estimated at well over \$100,000,000 at the time of his death in the late 20s. This went to their three children, Cornelius Vanderbilt (Sonny) Whitney, now a major in the United States Air Corps, Mrs. Flora Whitney Miller and Mrs. Barbara Whitney Henry.
