

### Canning Sugar Now Available

Housewives in Plymouth residing on the Richland County side of the village are getting a real alarm over the canning sugar problem. Up until this week, no information had been released for Plymouth and with the fall canning beginning, it was imperative that they have sugar.

Application for sugar may be made today, Thursday, Aug. 13 and tomorrow, Friday, Aug. 14, at the local election booth. Hours are from 10:00 a. m. to 9:00 p. m. Applicants must bring their ration books for EVERY member of the family, otherwise they cannot get their sugar. Only residents of Richland county portion of the village may apply; the Huron side receiving their application through the grocery stores some time ago.

### Earl Fleming, Formerly Of This Area, Said Missing In Action

The navy department at Washington, D. C. has announced that Kenneth Earl Fleming, 33, pharmacist's mate, first class, of Fresno, Cal., is listed as missing.

Earl was well known in and about Ganges and this community. His parents, Mr. and Mrs. Reed Fleming now live in Fresno. Fleming is married and has two children.

Fleming's parents write that after he reported back to the navy, August 1, they received a letter from him that he was on a submarine at Pearl Harbor.

Later, he wrote of being at Cavite, P. I. He was on the hospital ship Tennessee for 18 months and was stationed at Pelping and Shanghai, China, for a like period.

### Leave On Ohio Farmer Conducted Tour

Mr. and Mrs. Harry Stillman of north-east of Plymouth left Willard Tuesday evening to join a group at Chicago for the annual Ohio Farmer Conducted Tour.

More than 100 farmers are expected to take the tour which covers twelve days, returning home on the 22nd.

Places of interest and stop-overs include St. Paul, Minn., Glacier Mountain Park, Yellowstone National Park, Denver Mountain Park, Colorado Springs and Pikes Peak.

### Willard Girl Is Trapsheet Star

Miss Pauline Noble, 18, only girl entered in the Willard Gun club's shoot at Bellevue Tuesday night, topped the local entrants by shattering 45 out of a possible 50 targets.

Competing were entrants from Bellevue, Willard, Monroeville, Plymouth and Boughtonville.

High for the shoot was Fred Bingle of Bellevue who cracked 49 out of a possible 50.

Other high gunners for the respective clubs, follow: Bellevue, Fred Bingle, 49 out of 50; Monroeville, Dale Beebe, 48 out of 50; Plymouth, Thos. Swearing, 47 out of 50 and Boughtonville, John McCullough, 46 out of 50.

Next shoot is scheduled for Willard tonight, (Thursday) Aug. 13.

### SAILOR FREDDY IS HOME

And doesn't he look happy (as the young moderns say) Veer, Freddy Keeler blew into Plymouth port on Saturday for a week end sail around the town with old friends and relatives. He has been training for duty in the U. S. N. at the Great Lakes Training Station, Chicago.

Well, we must say we have never seen him looking better, wearing a wish for fair weather, Freddy, and the best of luck for the duration. This sailor is the son of Mr. and Mrs. Wilbur Keeler of West Broadway.

### PROMOTED

Camp Claiborne, La., Aug 3—Promotion of Private Ellwood L. Kuban, Plymouth, Ohio, from the grade of Private to that of Corporal has been announced by Brigadier Gen. Matthew B. Ridgway, commanding general of the 82nd Infantry Division.

The promotion of Corporal Kuban comes as reward for ability shown during the past months of training with the 82nd, 15,000 men, now being welded into a tough fighting team.

The 82nd Division won distinction during the Argonne and St. Mihiel campaigns of the first World War. With officers and men drawn from every state in the union, the 82nd is best known as the "All American" Division.

### Former Willard Pastor Returns For Sunday

In Plymouth, L. E. Brown, is their representative and is authorized to accept your application for Bonds in any denomination of Series "E" up to \$1,000 bonds.

To assist in the sale, the Company is offering a prize for the one that sells the most bonds during a specified time. Any purchase, whether made in Huron or Richland county, will go towards the goal set for that county and will in no way detract from the amounts set up as their quota.

### CONVALESCING

Miss Thelma Beelman is convalescing at the University hospital, Columbus, where she submitted to an operation the past week.

### Receive Letter From

Neal Gebert

Mr. and Mrs. Louis Gebert received their first letter in two and one-half months from their son Neal on Monday. It was dated June 26th and disclosed no location, but stated he is well and greatly enjoying his work in the service.

### Jury Trial Held Here Tuesday

### FIRST ONE IN VILLAGE FOR OVER 25 YEARS IN JUSTICE OF PEACE COURT.

For the first time in almost a quarter of a century, Plymouth had a jury trial in its Justice of the Peace Court here Tuesday afternoon. The trial brought to an end a suit or suits, between A. F. Cornell and Harry Chronister, Cornell who operates the Clover Farm Store, filed suit some time ago against Chronister in Common Pleas Court. Mandated, he collect \$85, claimed to be due for groceries purchased by Chronister.

Chronister filed a counter suit in the local Justice Court, charging that Cornell owed him a sum of \$96.00, for hauling garbage over a period of years.

The case came up before Justice Lowery at one o'clock Tuesday afternoon with a six-man jury. Testimony was started at one o'clock, and the case went to the jury at about 2:30. Twenty minutes later, the jury foreman reported that a verdict in favor of Cornell had been reached. The jury members were C. M. Lofland, J. Gebert, R. G. Searle, Sr., Sam Fenner, George Bevier and Raymond Steele.

We witnesses were heard during the afternoon.

Chronister came ten days in which to appeal the case. He will have to stand the court costs with the exception of the jury fee, to which Cornell has agreed to set-aside.

Attorney Frank Culp represented Cornell, while Attorney McClellan appeared for the plaintiff. Both attorneys are from Mansfield.

### Special Appeal

Residents of Plymouth and vicinity, this message is directed to you, and you, and you; to young men, and to every American. This message is being written while the sixth day of a gigantic land, sea and air battle rages in the Solomon Islands. This message is directed to you while hundreds—perhaps thousands—of our boys are being slaughtered for the thing we call Freedom!

The message we speak of is simple; this: Get out the old scrap—whether it's iron, rubber, steel, brass, copper; everything that has metal in it. The second nation-wide drive for scrap metal is on. You have been called upon to dig up scrap before. You did a good job. Now, for the second time you are being asked to retrace your steps and see if you did not overlook some article which is very valuable for its metal.

DO IT NOW! Look around in the out-of-the-way places—no matter how small a hole, and get it out. Notify Don W. Einzel, Jr., at the post office, and who is chairman of the Plymouth Salvage Committee; Mayor J. B. Derr, at Telephone 439. The drive is on—the battle is being fought. Our ability to fight and win will depend upon your cooperation. Come on, Plymouth. Let's get busy. And remember, we have over a hundred boys out of this community who are now under the colors. Let's do it for them if for no other reason!

### GET OUT THAT SCRAP!

### Evangelical Services Now Going On

Union Tent Revival Services opened last Tuesday evening in the D. W. Cox Catalpa Grove, 4 1/2 miles east of Attica on Route 224. These services are being held under the auspices of the Union Bethel Church of God, Rev. Grover Strawn, pastor; and the Richmond United Brethren church, Rev. H. L. Troutner, pastor. Rev. John Searle of Shelby is the featured speaker at these meetings which will continue two weeks. Billy and Marie Lewis, evangelists, are providing special vocal and instrumental music.

Paul Wesley arrived Thursday at the Zanesville hospital and will make his home with his wife, H. W. Wintermute of McConnelsville, Ohio. Rev. Wintermute served the local Methodist church the past three years. The Wintermutes are from Zanesville, Ohio, Mrs. Mary Dell, Nancy and Paul.

### Primary Votes Cost Almost \$1 At Election Here

With one of the lightest primaries in years, Plymouth voters cost about \$1.00 each—a trifling sum. The election here Tuesday didn't draw out very many voters, but it showed that Huron county still remained on the Republican side, while it was almost an even break for the two parties in the Richland county side. A total of 131 votes were cast at the primary, and the estimated expense for the local election is figured at approximately \$112, plus the cost of ballots and other incidentals.

Governor Bricker made an excellent showing here, polling 37 votes in Richland precinct, and 36 in Huron precinct. Congressman J. Harry McGregor was well taken care of by Plymouth voters. McGregor polled 34 votes here while his opponent, Elmer Dockner of New, polled 27 votes. McGregor won out for the nomination in his district.

In the Richland county commissioner's race, C. L. Mitchell, Democrat, won over his opponents, E. P. Long and Fred Bricker. C. L. Shoup, Republican of Plymouth township, topped his opponent, John C. Friday, in the Huron precinct. In the precinct of John McSweeney, Democrat of Wooster, who was running for the democratic nomination for Governor, won over his opponents, Frank A. Dye, Joseph Ferguson, Walter Heer and Clarence Knusely, in a hotly contested race.

The outcome for State Representative of Huron county is not known as yet, but the way Huron voted for the three following Republicans is as follows: A. F. Henry, 18; L. A. Lawrence, 12; and Frank H. Peire, 14. Benjamin Worland, democrat, received eight votes.

### RESTAURANT OPENS FOR BUSINESS AFTER 4 WEEKS

Mr. and Mrs. Ed Klekotta have reopened "Eddie's Restaurant" after having been closed for a two-week period, due to Mr. Klekotta's health. However his condition is improved and the restaurant is now ready to serve the public with tasty sandwiches, full meals, short orders, home made pie, ice cream, and soft drinks.

While the restaurant is not being open all night, it is open for business up to midnight each day in the week.

### Boy Scouts To Hold Ice Cream Benefit

Sunday, Aug. 30, has been set aside by the Boy Scouts for an Ice Cream social at the Mary Fate Park. Besides ice cream, cake, and coffee, will be offered, with tickets being sold at 25 cents. All Scouts have been supplied with tickets and a record attendance is anticipated. The time has been set for 4:00 o'clock. Buy a ticket and help the Scouts.

### EXPLORER PATROL NEWS

Last Friday evening at the home of assistant Scoutmaster, Luther Moffett, the Explorer Patrol held a meeting. After the regular business talk a lengthy discussion followed on the possibility of a trip to Kentucky to visit the National Explorer Scout jamboree. Scoutmaster Elsie Lind Troop Commander Luther Brown were visitors. There will be no meeting this Friday as all Explorer Scouts are to report at Luther Moffett's home at 6:30.

### RETURNS TO CALIFORNIA

W. W. Beaman of Long Beach, Calif., who has been a guest in the home of his brother, Charles Beaver and wife for some time, returned Monday to his home.

### ARRIVES IN WYOMING

Private Vance W. Snyder, who recently left Plymouth for the Service, writes this week that he arrived in Wyoming Friday. He is in the O. B. C. and would be glad to receive plenty of mail from the home folks. His address will be found under the "Soldiers' Address" column in this issue.

### CONVALESCING

Rev. S. Struyk of Los Angeles, Calif., is convalescing at his home after a recent major operation of the eye. He is a former pastor of the Celeryville church.

### Wheat Coming In Very Slow

### BELIEVE FARMERS HOLDING OUT FOR HIGHER PRICE—LOW YIELD HERE.

According to John Ganzhorn, manager of the Plymouth Grain Elevator, local wheat is moving very slowly this season in comparison to that of last year. So far this season, carload shipments from the elevator have totaled only six against 12 cars last year at this time.

Wheat in this section was very spotty. Some farmers harvested only 30 bushels to the acre, while others ran as low as 15. The average crop is running around 15 bushels.

Due to the lack of storage in some elevators, a large majority of farmers are keeping their grain at home. And most of them are waiting to see the outcome of the price. Wheat in Plymouthville and nearby brought \$1.17. The Chicago market was \$1.18, and there is every indication that the golden grain will climb still higher.

Quotations for the Plymouth Elevator Wednesday were: Wheat, \$1.17; corn, \$1.22; oats, 45c; soy beans, \$1.51.

Soy beans are off in price due to the lack of storage facilities. However, it is generally felt that by harvest time the price will be up considerably mainly through the effort of the government to encourage the more extensive use of soy beans and their products.

### Nurses' Aides Capped At Exercises Monday

Mrs. Jesse Ruth of New Haven, Miss Henrick Cok, Celeryville and Miss Katherine Webster, Margaret Kaiser of Greenwich were among the class Monday evening to receive their Nurses Aides' caps at exercises in the Willard Presbyterian church. The group has recently completed the Red Cross nurses' aides' course of 80 hours, 34 hours of which were devoted to theory, 45 to hospital training and one hour to examination. The group is now qualified to begin their work as nurses' aides, volunteering for at least 150 hours a year.

Mrs. Lee Schodorf, formerly of Plymouth but now of Willard was the class instructor.

### Must Buy New License By Sept. 1

Sportsmen are reminded by the Ohio Department of Conservation that the hunting licenses bought for 1941 expire Sept. 1, 1942, and that if they wish to take a gun in the field or woods after that date they must purchase a new hunting license.

The sportsmen were given an extra eight months under the old license to change the period for which a scholarship to September 1 to September 1. The old licenses were good from January 1 to January 1. A new license will be needed to shoot woodchucks, crows or if a gun is carried at all.

### Receives Scholarship

Miss Mary Jane Lawrence, daughter of Mr. and Mrs. A. W. Lawrence of Steuben has been awarded a scholarship to the Camp Minnowa near Muskegon, Mich., for two weeks, which began August 3. This scholarship is given to one freshman girl or boy enrolled in the College of Agriculture at Ohio State University by the Danforth Foundation. The scholarship is given on outstanding scholastic and activity records and is sponsored by the Ralston-Purina company.

Students from all over the United States and Canada will meet at Camp Minnowa to be trained in Christian leadership. The girls go for the first two weeks in August and the boys for the last two weeks.

### PLAN FOR CONFERENCE

Plans are being made for the Christian Endeavor societies in Richland county to take part in the Ohio Christian Endeavor Labor Day week-end conference to be held in Columbus on September 5, 6 and 7.

The Christian Endeavor Society of Plymouth has been represented at the annual conference.

### Around the Square

(By Phineas Whittlesseed)

FRIENDS WERE greeting Ben Waddington, who ventured out Tuesday afternoon to cast his vote. Ben, as you know, has been confined to his home for several years by total blindness. This was his first trip out for a long time and it was mighty nice to see him again. Mr. Waddington, though up in years and blind, gets quite a bit of enjoyment out of his radio, visits by friends and cards and letters he receives from time to time.

TONY FENNER has been a little peeved for some time since he was turned down for Army duty. However, he's feeling better now for he has been accepted for duty in Pearl Harbor as a machinist. You Plymouth boys out at P. H. take care of Tony. He might get mad if he sees a little yellow fellow. Anyway, Tony will bring you fellows real greetings, and we hope you have many pleasant chats together.

MILDRED Barber ANDREWS has cut her mode of transportation down to her own size—she's driving a car of Tony's. Austin, which makes her appear a trifle larger.

AND SPEAKING of blue, I think "Woodie" Smith has the bluest blue eyes I've ever seen—and not a wink that a twinkle he carries in them.

JIM CROCKETT has gone poetic, taking mostly after his aunt, Mrs. Huldah Davis Frush. James has been carrying on a little thought around with him lately, and no one suspected what he had on his mind, but the few short lines reveal his troubles. Here they are: I wish I were a kangaroo.

Despite his funny stanzas, I'd have a place to put the junk My gal takes to the dances.

ALWAYS COURTEOUS and polite, Florence McDougal, waitress in a local restaurant, thought she'd help one of her customer's Tuesday, when the conversation revealed a situation which gave us a good laugh. We'll pass it on, word for word:

Florence: "May I help you with that soup, sir?"  
Diner: "What do you mean, help me? I don't need any help."  
Florence: "Sorry, sir. From the sound I thought you might wish to be dragged ashore."

A SIGN ON A pin-ball machine in a cafe in a nearby town reads: "In case of an air raid, crawl under this machine—it's never been hit."

WE CAN'T say that Henry Webb hasn't hit 'em twice. On Saturday night Webb hit the net for the second time during the Appreciation Day drawings, and just prior to his name being called Saturday night, he walked away with a few free dollars in Willard. The Irish are certainly lucky.

WHENEVER I see a certain little lady crossing the Square I am always reminded of little Eva hopping across the ice—just be observant, it doesn't take much guessing.

"After three years on a desert island, a shipwrecked sailor was overjoyed one morning to see a ship with a boat putting off for the shore. He leaped the boat was beached the officer in command tossed the sailor a bundle of newspapers. Captain's compliments," he said, "look these over, you lucky devil, and if you still want to be rescued we'll be back for you, tomorrow." Bill DeWitt would have said: "If they're Plymouth Advertisers, you won't have a few free dollars in Willard. The Irish are certainly lucky."

WE'D LIKE to publish the fine letter received by the Advertiser from Ben Smith. Look for it next week. In the meantime, Ben, thanks for the letter and the nice things you say about us. We're glad to make a wish I could visit dear old England for more than ONE season. PWT.

THOUGHT for the week: Save your fat to the boys can slap a Jap.

WEEKLY NEWS ANALYSIS

Red Communiques Admit Grave Peril As New Flank Attacks Harass Nazis; CIO President Proposes Peace Plan; Cargo Planes Get Qualified Approval

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.) Released by Western Newspaper Union.

One of Uncle Sam's newest weapons for the armored force, the M4 tank, is shown on special demonstration at Fort Knox, Ky. Here the 24-ton tank plows through a mine to demonstrate its ability to negotiate obstacles. It has a 75-mm. cannon in a revolving turret and a completely welded hull.

RUSSIA: Flank Tactics

Willy Moscow's official radio was telling the Germans in their own language that the United States and Russia had come to their agreement on the creation of the second front in 1942. Soviet troops were busy with flank attacks on the Nazi forces all along the 300-mile Don river front.

German drives had pushed far beyond Rostov, toward the Caucasus, but the Russians were claiming that their new flank attacks were netting a terrific toll of Nazi tanks and men. At Voronezh, northern anchor of the Don front, the Russians had been holding out doggedly while their columns were being pushed back in the other sectors.

If Germans in the homeland had been listening to the Russian radio tell of the coming of the second front they heard too that their country would be confronted with 15,000,000 men, 85,000 tanks, 100,000 guns, and 50,000 airplanes. But this was being talked for even official Russian communications admitted the gravity of their nation's peril.

Soviet officials had other troubles, too. There were reports out of the Don valley that large rings of fifth columnists had been uncovered. Many of the spies in these groups were quickly executed as they were caught trying to co-operate with Nazi parachute troops who were dropping behind the Soviet main lines.

Meanwhile, through England and the United States the cry was getting louder for military officials to establish the much-discussed second front. From widely diversified groups and sections came the urging. There was considerable agitation for this move for many people feared the United Nations would suffer a most severe blow should Russia fail to last the long and arduous European side of the Ural mountains.

**ALEUTIANS: 10,000 Japs**  
Breaking an official silence, a spokesman officially announced that the Japanese have succeeded in putting "not more than 10,000" troops into the Aleutian island area and at the same time announced there was no evidence that the Pribilof island to the north had been occupied by the Nipponese.

**PEACE PLAN: For CIO-AFL**  
A proposal that the Congress for Industrial Organization and the American Federation of Labor "initiate discussions regarding possible establishment of organic unity" was made by Philip Murray, CIO president, in a letter to William Green, AFL chief.

Peace proposals between the two organizations have been discussed for several months as a step toward speeding war production. In his letter, Murray proposed the establishment of a committee composed of representatives of both organizations, with an impartial arbitrator, to settle all jurisdictional disputes between the two groups.

**Two Varieties**  
In butchershops from the Bronx to Boise there was considerable beefing about beef. Beef was high. Beef was hard to get. What was the cause of this?

President Roosevelt told his press conference there were three main reasons for the current meat shortage: (1) this is the off-season for beef; (2) people have more purchasing power now, with which to buy better cuts of meat; and (3) around 1,000,000 men under arms are now eating much more than they ever ate on their own dinner tables at home.

**GIANT PLANES: For Shipyards**  
There was a new answer to the shipping problems of the United Nations looming on the horizon. It was an unofficial agreement from the War Production Board to give the "green light" to plans of Henry K. Kaiser, West Coast shipbuilder, to build giant cargo and troop transport planes in nine of the nation's shipyards.

AIR MONSTERS: Things to Come

Reading like a tale from the pen of Jules Verne, the story of two super-gigantic cargo planes was unfolded in Washington by aviation engineers. Senate committee heard the stories.

Details of a huge plywood plane were disclosed by Dr. W. W. Christmas, technical aviation engineer. The plywood carrier, weighing 1,120,000 pounds, would be both a cargo and battle plane. It would be a 60,000 horsepower, 100 ft. long with 400 foot wingspread and with wings 16 feet thick, with a speed of about 350 miles an hour. It would carry 200 men. It would carry a rack of torpedoes weighing 20,000 pounds. Dr. Christmas pointed out that the torpedoes would have a striking force of 19,000 pounds up to the war and try to wake Washington?

"That's a question which repeats itself in your letter mail day after day. So help me, I know the people don't need waking up. And who am I to decide whether Washington is shaking or breathing sleep?"

Let me say, first of all, that I know that a large part of "Washington" is awake and burning the midnight oil. And remember that more than 2,000 business men drafted into service as well as the government officials the MAJORITY of whom are non-partisan men who have worked through both Republican and Democratic regimes.

But let me go on from there and talk about some of the slumbers whom you nor I nor Big Ben nor an air-raid alarm could wake up into service as well as the government officials the MAJORITY of whom are non-partisan men who have worked through both Republican and Democratic regimes.

**LADIES: Of the Navy**  
"Waves" is not a new word to U. S. navy men but in the future sailors will have to think twice before using it. For this is the name being given to the Navy's woman's auxiliary, counter-part of the army's WAAC.

**Rationing Student**  
John Leigh, gas station attendant in Washington, is pictured studying rationing rules. When Price Administrator Leon Henderson ran out of gas, Leigh refused to fill a car for him. Henderson later proved that such an act would not be a violation of the regulations, but his proof came too late. He already had been forced to take a taxi.

**MISCELLANY: COUBENS: Conklin Mann.**

Historic's Biggest Tax Bill Can Meet War Demands

Required Savings, Smaller Tax Exemptions Seen as Partial Solution to Inflation Threat.

## FIRST-AID to the AILING HOUSE

by Roger B. Whitman  
Roger B. Whitman-WHY Features.

### DAMPNESS IN HOUSES OFTEN DUE TO METHOD OF PLASTERING

COMPLAINTS of cold and damp houses are likely to be due to the application of inside plaster directly to outside masonry walls; brick, tile, concrete blocks and stone. Properly plaster should be on lath to provide an insulating air space. Without it the plaster becomes almost as cold as the masonry itself, and the house air in contact with it becomes chilled. Further, moisture in the house air condenses against it, often to such an extent that the wallpaper comes off. This defect in construction can be noticed by placing the hand on the inner surface of an outside wall to compare its temperature with that of a wall between two rooms. The appearance of wet spots on a plaster wall covering an inside chimney is from a similar condition; the chimney brickwork is cold, and chilling the plaster that is applied directly to it, will result in condensation from damp house air. Such situations can be remedied only by protecting the inside plaster against the low temperature of the masonry. One method would be to replace the inside plaster with plaster on lath on furring strips; another, to sheathe the inner surface of the outside walls with insulating board. With this protection a house would be much more comfortable in cold weather because the house air would not be affected by the low temperature of the walls.

### Wall Smoked Black

Question: We have a new house heated with a forced air furnace. In about four weeks after starting the fire, the living-room wall around the register was smoked black. The furnace engineer, without examining the furnace, said the soiling was not from smoke, but from dust, rug lint, etc. To do this, as you think is new and clean. What do you think?

Answer: Soiling around registers is usually from open joints around the firebox; probably through breaks in the cemented joints. These should be re-cemented at a time when the fire is out. In the meantime, lift out the register and cover the end of the pipe with fabric mosquito netting, preferably dark in color, which will be held in place when the register is returned to position.

### Sagging Floors

Question: The floors in my very old house are sagging because of the weight of the massive chimney in the center. As the walls have just been plastered, I do not wish to have the floors raised. I am thinking of taking up the hardwood flooring and putting a filler underneath. What could I use for this?

Answer: The sagging of the floors may indicate serious trouble, the settling of foundations, the rotting or destruction of floor beams and other woodwork, or some similar trouble. It would be a waste of time and money to do any kind of repair work without knowing the exact condition of the house. I strongly recommend that you have a thorough examination made by a competent builder.

### Cellar Floor Paint

Question: Part of the cellar of my house is used as a kitchen and general utility room. The cement floor has been painted a number of times with cement paint, but with unsatisfactory results; it peels off and the cement shows through. How can I finish that floor to stand reasonable wear?

Answer: You must use special paint for the job; a kind of paint that is proof against the lime in the cement. One variety that gives excellent results is based on rubber. Any large paint dealer should be able to supply it. Cement paint is not intended for a floor, although it is also proof against lime. It is excellent for walls that do not receive wear.

### Fire-Stained Walls

Question: We recently had a fire in our home, and the walls are covered with black smoke stains. What should be done before we re-paper? Answer: Take off the old paper, or if the walls are not papered, wash with a solution of washing soda in water, a pound to the gallon. Rinse with clear water and allow to dry thoroughly.

### Bathroom Ventilation

Question: Must a bathroom be ventilated by running a pipe through the roof? Answer: Ventilation and other details of plumbing installation covered in the plumbing code of the neighborhood. If this code is not followed, you may get into trouble with the authorities.

WHATEVER the limitations that priorities place on new bathroom fixtures there is no limit to the gay color and good cheer that you may have with brightly painted cupboards and towels decorated with pieces from your scrap bag. In this bathroom a morning glory applique design is used for towels of two sizes and for curtains.

The handy towel and lotion cupboard is painted white outside and morning glory blue inside. The sides, top and bottom are screwed together at the corners. Use half-inch metal angles as shelf supports, or make grooves for a neater job. As shown in the sketch, the cupboard is trimmed and made rigid with plywood scallops secured with half-inch screws.

NOTE: Here is news for the man with hammer and saw. Whether you have a coping saw from the dime store or an expensive hand saw, you may now make

## HOUSEHOLD HINTS

To protect garden shoes keep them well greased or oiled with neat's-foot oil or cod or castor oil, tallow or wool grease. Let dry in a warm place.

Onion juice should be added after a mixture is cooked rather than cooked with the mixture if the best flavor is desired.

To keep bread in the best condition, store it when cool in a clean, well-aired, covered, ventilated container and keep in a cool, dry place.

That fish may be sealed much easier by first dipping them into boiling water for a minute.

Rancidity in lard can be prevented by keeping it away from air, light and warmth. Store in tin or crockery containers in a cool place.

Sweet corn, green string beans, green peas, pumpkins, squash, celery and greens are best vegetables for home drying. Apples and berries are adapted to drying in the home among fruits.

Each time bed sheets are changed the mattress should be turned end-for-end or upside down.

## ORGAN FUND IS SWELLING

A handsome check was received on Monday morning by Rev. Nevin Stover for the organ fund of Mt. Hope Lutheran church.

It came from the donor of numerous gifts over the past years for the civic betterment of his old home town. You know who it is, don't you?

It is a mighty big lift. So here's a hearty thank you from all the church for that magnificent response.

Mr. A. T. Ferrell of Saginaw, Mich., is near to the membership as his father was a member and his mother one of the most liberal givers in this community.

## HOLD SERVICES FOR A. M. YOUNG

RESIDENT OF WEST PALM BEACH RETURNED FOR BURIAL SERVICE

The body of A. M. Young was brought from West Palm Beach, Fla., to Shelby and services were held Tuesday morning at 9:00 o'clock. Burial was made in the Shelby cemetery.

Mr. Young, who was 80, is survived by his wife, who has been an invalid for nine years.

Mr. and Mrs. Young were for many years residents north of town in Huron county, and were prominent in the Methodist church.

## In The Same Camp

Two soldiers in one great camp, and relatives and friends are hoping they may meet. One is a Shiloh boy and the other has been adopted in this community; he is the husband of the former Reva Miller. Both left for the Army about the same time, and after several changes were sent to the new camp which is thirty miles long, seven miles wide and fifty miles from the nearest town, but your letters will reach them at this address:

## Patterson's Grocery To Quit Business

After operating a grocery and general store in Shiloh for several years, Frank Patterson stated Tuesday, that he will quit business Saturday night, Aug. 15. Mr. Patterson started a store-wide sale last week, and he intends to close-out all of the stock by Saturday.

A hand bill and an ad in this issue show some of the many bargains that still remain. In the grocery department, exceptional values are being offered; the shoe department also has many unusual bargains. Mr. Patterson stated that those people needing rubber footwear will do well to come in and see if they can be fitted up. While stocks are not complete in all lines, there is a big selection on hand.

On Thursday, the first ten people trading \$10 will be given a merchandise bag filled with useful articles.

Read the ad in this issue, and then go to Patterson's for bargains.

Mr. Patterson, after closing the store in Shiloh Saturday, will no doubt locate in a vicinity closer to his work, which is at Plum Brook.

Red Cross Home Nursing Course Available

If sufficient interest is shown by the women of Plymouth, a Red Cross Home Nursing Course will soon be available at Westerville. Miss Bushey of Shelby, Richland County Health Nurse, will offer her services for the course which runs for twelve weeks—one lesson per week.

However, a sufficiently large class must sign up for the course to make the plan feasible. A class of 25 to 30 women would be a splendid one and anyone interested should call Mrs. Mabel McCadden. Details will then be worked out as to time, place and dates.

Years ago, Plymouth had benefited of a Well Baby Clinic, which was greatly appreciated by young mothers. This Home Nursing Course will greatly aid the young mother and enable her to offer first aid or "what to do" in case of emergency.

Other communities have eagerly accepted the offer and Plymouth may have the same instruction if they so wish. It is up to the women of Plymouth.

#### ISAAC PRACTICES PEACE

**LESSON TEXT**—Genesis 18:16-21.  
**GOLDEN TEXT**—Blessed are the peacemakers: for they shall be called children of God.—Matthew 5:9.

To talk peace in a warring world seems almost futile, and so it is, unless it be the peace of God. This world largely dominated by the philosophy that might makes right, and in which men demand what they feel their rights, taking them even by lawless and violent methods, it is increasingly difficult to proclaim the truth that patience and meekness are not weakness, but even Christian virtues worth emulating.

The story of Isaac is interesting from beginning to end. He was an ordinary man, one of the common people. He had come through varied experiences of victory and defeat before the time of our lesson. Feasting and feuding, and not trusting God at the moment, he had gone down from the promised land to the country of the Philistines, there redigging the wells which his father Abraham had dug. The result was that he prospered. Ere long, however, envy on the part of his enemies taught Isaac that—

#### I. Peace in This World Is Temporary (vv. 18-21).

Isaac had prospered, but he was still out of the promised land, and while he was in the land of Philistines he could expect no permanent peace.

We are in the world. We long for peace, and would throw all our influence and service into the cause of bringing a righteous peace to the afflicted peoples of the world, but let us not be misled by that desire into the support of unscriptural and impossible peace programs. This world is a familiar world, and as that is true, there will be strife and war, that men (as James puts it) may have the gains thereof for their own pleasure.

#### II. Abiding Joy Is Found in Fellowship With God (vv. 22-25).

When Isaac came up into Canaan, he and his God had promised to him, he found rest and peace and an abiding joy in renewed fellowship with God. Even so, the Christian man and woman who will step out of a spiritually destructive world into the ungodly world and come over wholeheartedly into the spiritual Canaan of full consecration and separate living, find true peace and satisfying communion with God.

Our thought, however, has wider application—on much needed today. There is to come a time when this world will have true and abiding peace which shall cover the earth like the waters cover the sea. When the One who has the right to rule the Lord Jesus Christ, returns to take His throne, then, and not before, will there be true peace.

We await that day with longing which grows more intense as men grow more violent in their hatred. But is there nothing more we can do? Yes, we learn from Isaac's experience that—

#### III. A Godly Life Is a Testimony to Warring Men (vv. 26-31).

These men were wicked men, even speaking falsehood in their claim of friendship toward Isaac (v. 29). Now that they perceived that God was continually visiting Isaac in spite of their repeated injustice toward him, they decided that it would be well to make a covenant of friendship with him, and so they followed the way of war and aggression cannot deny the effectiveness of true Christian testimony.

Observe also that by his patience and kindness Isaac ultimately made friends out of his enemies. "It is better to turn enemies into friends than to beat them, and have them still." And so to men with the patient, self-sacrificing spirit brought peace not only to himself, but to those about him, because he believed and trusted God. "When a man's ways please the Lord, he maketh even his enemies to be at peace with him" (Prov. 10:7).

#### IV. What Can We Do to Bring Peace Today? We can pray that God will help America and her allied nations to turn to Him in repentance, and in a desire to so honor His name that He may be able to give His blessing. When He shall spread before the eyes of the nations His enemy, God underlook for him in a mighty way, because his heart is right toward God (Isa. 37:14-20).

## Cheese Trays Help You Through Sugar Rationing Period! (See Recipes Below.)

### Take It Easy on Sugar

No sweets with sugar rationed? Why, of course. With honey, corn and maple syrup, molasses, and prepared pudding mixtures, you can learn how to prepare a delightful sugar-saving dessert, cakes and cookies that will not only take you gracefully through the sugar-rationing period but will also remain favorites with you long after these times are past.

Honey blends with raisins and spices in this delicious melt-in-your-mouth pie.

### Honey Raisin Crumb Pie.

- 1 egg yolk
- 1/4 teaspoon ginger
- 1/4 cup bread crumbs
- 1/4 cup flour
- 1 teaspoon cinnamon
- 1/2 cup hot water
- 2 tablespoons butter
- 1/4 cup raisins
- 1/4 cup honey
- 1/4 teaspoon nutmeg
- 1/2 cup nut meats

Blend hot water with honey and add egg yolk. Mix flour, crumbs and spices. Rub in butter. Place a layer of raisins on unbaked pie shell, cover raisins with layer of nut meats, and pour over honey-water-egg mixture. Top with layer of crumb mixture. Bake at 400 degrees until crust browns at edges, reduce to 325 degrees for 20 minutes or until firm.

### Maple Chocolate Pie.

- 2 squares unsweetened chocolate
- 1 1/4 cups sweetened condensed milk
- 1/4 cup water
- 1/4 teaspoon salt
- 1/4 teaspoon vanilla
- Baked pie shell (8-inch) or cookie pie crust

Melt chocolate in top of double boiler. Add sweetened condensed milk and stir over rapidly boiling water 5 minutes until mixture thickens. Remove from heat. Add water and salt. Stir until thoroughly blended. When cool, add vanilla. Pour into baked pie shell, or cookie cake crust.

### Marshmallow Maple Benedict-Custard.

- 1 package maple rennet powder
- 1 pint milk, not canned
- 5 marshmallows, dried
- Dissolve marshmallows in 1 cup hot milk. Then add 1 cup cold milk and warm slowly.
- Remove from heat and strain through a fine sieve. Test a drop on the inside of wrist frequently.

### COMFORTABLY WARM (110 degrees), not hot, proceed according to directions on package. Chill, then serve.

### Butterscotch Ice-Cream Cake.

- 1 recipe butterscotch cornstarch pudding
- 1/2 cup cream, whipped
- Lady fingers or cake strips

### Lynn Says:

**Household Tips:** Are you wondering how those tin pans are going to last for the duration? Since the production for these has been sharply curtailed, you will want hints on keeping them in "cooking" condition:

**Aluminum:** Leaving food in aluminum longer than necessary, oxidizing the utensil before washing, and alkalies such as soda spell short wear for this metal. If you want to clean aluminum without oxidizing its wearing period, use very fine scouring powder or steel wool for discolorations. Or, cooking acid foods like lemonade, rhubarb and apples will do the trick.

**Iron:** Wash in hot, soapy water. If this doesn't clean it, use hot soda water. If rusted, use scouring powder or steel wool. Always dry completely and wrap in paper for storage.

**Tin:** This metal does not keep shiny indefinitely. Remove burnt foods by boiling in soda and water for five minutes, never longer. Rinse and dry thoroughly.

### THIS WEEK'S MENU

- Lemon Smothered Chops
- Broiled Tomato Slices
- Buttered Noodles
- Vegetable Salad Bowl
- Date-Nut Bread
- Diced Fresh Fruit
- Apple Sauce Cake
- Beverage
- \*Recipes Given

Prepare butterscotch pudding as directed on package. Cool. Fold in whipped cream. Line bottom and sides of mold or loaf pan with waxed paper. Arrange layer of lady fingers on bottom and sides of mold. Turn 1/2 of pudding into mold; cover with layer of lady fingers. Turn remaining pudding into mold and place another layer of lady fingers on top. Chill 12 to 24 hours in refrigerator. Unmold.

### Bermuda Appetizers.

Chop Bermuda onion finely, marinate and drain. Spread on crisp crackers and cover with slice of Liederkrantz cheese. Thin slices of fry, pumpernickel or whole wheat bread which have been buttered may be used instead.

### You can do all sorts of things with cheese as a last course and serve it in place of fruit.

Camembert has affinity for fruit. Try it with crackers served with a bowl full of summer's best produce.

### Unusually there are times when one must defend his neck and his nose, but all too often those who do "stand for their rights" have wrecked homes, churches, and schools, and have gained nothing but an empty victory.

### The peace of this world is temporary. Is there then no real abiding peace and joy?

## TO YOUR Good Health

By DR. JAMES W. BARTON

Released by Western Newspaper Union

**VITAMINS**

You are reading about vitamins every day, about their importance in the diet, and their effect upon the general health, yet you were to be asked to describe a vitamin you might find it difficult to do so. I have been somewhat familiar with vitamins since the late '30s, but it would have difficulty in defining them.

In this book "Vitamins" Dr. Harry Borsook, professor of biochemistry, California Institute of Technology, says: "The fact is that the discovery of vitamins and of the role they play in human health is the most important medical advance so far made in this century. It has taught us what the essentials are in food. It has given us new insights into the chemistry of the body. Dry has no special disease. It has given us the means of greatly raising the standard of health and well-being of all us."

Everywhere we are seeing newspaper and magazine articles about the value of the vitamins in certain diseases. Thus, vitamin A is used in eye disease, in scurvy, arthritis, lack of appetite, C in scurvy, D in rickets, and E in certain gland deficiencies. However, while this is important, not more than a fraction of the population is suffering with these diseases and Dr. Borsook points out that even larger groups need vitamins although they have no special disease.

"The really serious problem is that the general level of health is lower than it needs to be. Defective vision in children, constipation and dyspepsia, the small aches and pains of middle age, poor teeth, thinning bones, general fatigue and lack of interest in life are very often caused by insufficient amounts of vitamins in our ordinary diets over a period of many years."

How can we be sure of getting enough vitamins for our daily needs?

Diet experts have worked out tables of the everyday requirements of each vitamin in children and adults but if, in addition to our regular diet of bread, potatoes and meat, we make sure every day of average servings of dairy products—milk, butter, cheese—and green vegetables—lettuce, spinach, cabbage, beet and carrot tops—we will get all the vitamins we need.

## Purpose of Liver And Gall Bladder

What may be hard to understand is why fat foods must be avoided in liver and gall bladder disturbances; yet it is known that fat food helps to empty the gall bladder promptly, thus preventing gall bladder symptoms such as pain and gas formation.

While it is true that fat foods—butter, cream, bacon—help empty the gall bladder, it requires but a small amount of these fat foods to do this, and eating more fat foods than the liver can handle properly brings about the sluggishness of liver and gall bladder with the usual symptoms arising from this sluggishness—pain in upper right side of abdomen, gas pressure, bloating and sometimes nausea and vomiting.

When man was created his body was, and still is, covered with huge masses of muscle. These muscles were meant to simply carry him about and reach for his food. These huge muscles were meant to work, to help man hunt for food, carry burdens, fight or run as necessity arose. To keep these huge muscles healthy, man was meant to use them every day. And to keep these muscles nourished man was meant to eat all kinds of food including fat foods.

What we find, however, is that man eats plenty of food but because modern life makes it unnecessary to work or carry burdens, the circulation of the blood in the liver is not stimulated to action as much as it should be and so enough bile is not manufactured to take care of the fats and sugars eaten. An active liver manufactures bile in large quantities gives a buoyant feeling, whereas a sluggish liver makes one discouraged or even a "quitter."

As man was meant to use his muscles, take deep breaths and bend his body, simple daily exercises—walking, bending, deep breathing—will stimulate the flow of bile in liver and keep gall bladder emptying regularly.

# Stork Beats Pastor In Race To Hospital; Born In Auto

The following article was contributed by Mrs. Charles Baker of West Broadway, taken from an Akron paper concerning her nephew. The father of the child is a brother of Mrs. Baker.

Rev. A. Darold, pastor of the Uniontown Methodist church, started for Canton Monday with one passenger in his car, and when he reached that city he had two.

It all happened when Mrs. L. V. Kimmel of Uniontown, mother of three daughters, discovered that baby Kimmel number four was about to be born.

In spite of well-laid plans to have Daddy Kimmel on hand when the grand summer occurred—there was somewhere on the road in connection with his job with the General Outdoor Advertising Co., in Akron, Frankie calls her Mrs. Kimmel failed to locate him.

Phonics Pastor The distraught mother next thought of her minister. She summoned Rev. Mr. Hackler by telephone. He took in the situation and, placing the mother in the back seat of the car, headed for Mercy hospital, Canton.

"All the way along I kept looking for a doctor's office," the 28-year-old pastor related afterwards. "Feeling through the red lights, the minister visualized traffic cops tailing him, and prepared to ask for a motorcycle escort.

At North Canton he glanced around at a faint sound from Mrs. Kimmel and perceived to his amazement that the baby was already born.

Named 'Lyle Darold' "I didn't stop for anything," he said, "at the hospital, the seven-pound, three-ounce baby was christened 'Lyle Darold,' and will be called 'Darold,' so that grateful parents may be reported to be a fine child. The mother was in excellent condition.

As for Father Kimmel, he arrived at the hospital breathless when his son was a half hour old. "Everyone but the minister was very calm by then," he related. "But I do believe Rev. Mr. Hackler has gotten over the shock yet."

Tony Fenner Leaves For Pearl Harbor Having tried to enter various parts of the Service, Tony Fenner decided that there must be some way to do his part. As a result he has volunteered for service as a machinist, and will leave Sunday for Pearl Harbor to take up his work there. It might be added that Tony was an impaired person for service due to an impaired ankle, injury to which was received when he was a youngster.

Young Fenner has been employed at a plane-hood death Co., since graduating from high school several years ago. He has applied himself in many ways, and during his employment at the local plant, has made many friends and acquaintances who wish him the best of luck.

## War Proving A Bit Costly For Uncle Sam

Just to give you an idea of how much it's costing to run this wartime government, listen... While you are reading this sentence Uncle Sam's spending over \$6,600,000. Every second that ticks off, more than \$1,851 worth of goods and services purchased.

The War Production board in Washington says in the first 25 days of the present fiscal year, your old Uncle has gotten rid of more cash than he did in all of 1930.

The Senate Finance Committee still is looking for money for Uncle Sam to spend. The committee, which is devoting its attention to the House-approved revenue measure, already has turned down treasury proposals that would have tacked another \$220,000,000 to the six billion dollar measure.

P. F. C. George Hough, Co. B, 1st Signal, Camp Young, Calif.

Dear Sir: I get the Plymouth paper every week. My parents send it to me and I sure enjoy reading the news from home. But in the paper dated July 23 you said that it was hot back there in Plymouth and that it could be said that it was hot back here in Plymouth. Well, Sir, I don't know what you call hot, but when it gets around 125 to 130 degree you can call it hot. I only wish I could be back in Plymouth and cool off for a few days.

Well, I haven't much else to say except I like the army in general and I sure enjoy reading the news from home. But in the paper dated July 23 you said that it was hot back there in Plymouth and that it could be said that it was hot back here in Plymouth. Well, Sir, I don't know what you call hot, but when it gets around 125 to 130 degree you can call it hot. I only wish I could be back in Plymouth and cool off for a few days.

Very truly, P. F. C. George Hough

Let's blast Japan—and Germany—and Italy—with the chain lightning of destruction that can be built from the scrap in our cellars, attics and garages, on our farms and in our places of business.

Scrap iron and steel, other metals, rubber and waste materials. It will all be used to make tanks, ships, planes and the fighting weapons our boys must have. It is needed at once.

Sell it to a Junk dealer—give it to a charity or collection agency—take it yourself to the nearest collection point—or consult the Local Salvage Committee... If you live on a farm, and have found no means of disposing of your Junk, get in touch with the County War Board or your farm implement dealer.

Throw YOUR scrap into the fight!
