Power mower Date to Park Through Local Contributions

MUCH NEEDED EQUIPMENT IS SECURED THROUGH EFFORT OF F. ANDERSON.

With local contributions, a power mower has been added to the equipment at the Mary Fate Park. The mower has been in operation for the past few weeks and performance is being shown in the beauty of the grass. Heretofore, it was necessary to use a tractor mower or push a hand mower over the wide stretch of grass that surrounds the park. It took a lot of work, and wasn't very satisfactory — to mow the grass with these methods.

Early this summer while Floyd (Peanut) Anderson was visiting the park, he got the idea that a power mower was needed, which would enable the grass being cut smoothly, and help to the caretaker. Mr. Anderson for years, has been connected with the lawnmower grind division of the Fate-Root-Heath Co. and he realized through his experience with lawnmowers that to keep a lawn looking good, you have to have a sharp mower.

So Mr. Anderson started work. He figured a dollar here and a dollar there and soon have sufficient cash to pay for a power mower, and he started a drive. The list below indicates the time and effort it took for him to collect all those listed, and to give proper credit for the amount contributed.

A total of \$146.00 was contributed toward the new mower which cost \$135.00. The difference in the purchase price was made up by the Fate-Root-Heath Co. The mower was purchased through Brown & Miller Hardware, who sold the unit at cost.

That the park board, and the community as a whole are grateful to Mr. Anderson in his effort, is putting it rather mild, but we want to publicly say that the community is grateful to him for his work and to the donors for their financial support.

The donors are listed as follows: Gordon Brown, Floyd Sheely, Chester Lofland, A. Marvin, B. Vanderbilt, Earl Hankamer, J. O. Schreck, H. V. Ruckman, Geo. MOTHER DIES

MRS. ALICE COLE DIED MONDAY; SERVICE TODAY

Mrs. Alice Cole, aged 82 widow of the late Adomran P. Cole, died peacefully away at the home of her daughter, Mary Cole, of Ripley township on Monday evening. She had been in failing health for a number of years.

Mrs. Cole was born in Peru township, Nov. 4, 1859, daughter of the late George and Sarah Simmons, pioneers of that community. On Nov. 5, 1879 she was married to A. P. Cole of Bronson township. The husband preceded her in death nineteen years ago.

She is survived by two sons, Many Cole and Floyd Cole of Ripley township; three daughters, Mrs. C. D. Woodworth of North Fairfield, Mrs. Harvey Ruggles of Monroeville and Mrs. Wayne McPherson of Bronson township; 20 grandchildren and seven great-grandchildren. One son, Roy, died in 1900.

The remains were taken to the Harvey funeral home, North Fairfield, and will be removed to the home of the daughter, Mrs. Wayne McPherson, Thursday morning, where services will be held Thursday afternoon at 2:00.

She was a member of the North-West Universalist church and services will be in charge of Rev. Stall. Burial will be made in the family lot in Woodlawn cemetery.

Work Being Rushed At School Building

There weren't any speeches last Thursday morning, when school board members and Supt. Bailey gathered at the high school to see workmen begin construction on the new addition, but there were several present who felt like making a speech for it was realized that the new addition would be a big asset in our local school situation.

The "laying-out" of the new structure was completed on last Thursday, and during the past week the foundation was excavated, forms built, and the pouring of concrete will be finished by the end of this week.

If favorable weather continues there is no reason to believe that the new annex will not be completed as originally scheduled.

Local labor will be employed on the job, and it is probable that a few local men will be called in "for after hours" to work on the annex.

REMOVED HOME
Mrs. Leland Briggs and infant son were removed home Sunday afternoon, in the Miller-McQuown ambulance from the Shelby Memorial hospital to her home on Sandusky street.

Plymouth and Vicinity Turn In 1200 Records

More than 1200 records were salvaged by the American Legion and Women's Auxiliary, in the drive just completed. No doubt there still will be a few more turned in but this number has already been sent to headquarters in Mansfield.

These records will be melted down and the proceeds used to purchase new records for recreation centers for the boys in the various services all over the country.

Looking over the pile of records, for the most part they were broken, cracked or used to log that the groves were worn down. Then there were the old-time disc records, a group of religious ones and several listed by Harry Lander. One class of records discarded over the county were those with either Japanese titles or referring in any way to Japan.

A vote of thanks is extended by Mrs. E. L. Earnest, local chairwoman, to all contributors, to the Boy Scouts who assisted, and the Black & Gold Soda Grill, who courteously allowed their place of business to be used as a collecting center. We feel sure that when the new records are distributed, a very soldier and sailor will think of the Home Front who gave their time and effort to make music possible for them.

TEACHES IN SHELBY

Miss Jane Stambaugh, daughter of Mr. and Mrs. J. C. Stambaugh of Shelby, was hired to teach the second grade in the Shelby schools. Heretofore she has been teaching in the Findlay public schools.

RELEASED FROM HOSPITAL

Junior Marvin, son of Mr. and Mrs. Albert Marvin, who was recently injured in an automobile accident, was released Sunday from the Willy Cole Memorial hospital, and brought to his home on Sandusky street, where he is recovering nicely from his injuries.

U. S. O. Fund Hits "New High" Here

Plymouth's contribution to the National drive by the U. S. O. for funds amounted to \$350.17, an all-time record for projects of this kind. The 1941 total was \$135.36. So Plymouth is really interested in seeing that our boys in service are provided with the best possible.

Mrs. S. C. Brown was general chairman and with an able corps of assistants, went to thank all who in any way assisted. This was a splendid showing and one that the town can be justly proud. Plymouth township contributed \$75.25 which is also an enviable record.

CHURCH AS USUAL

A supply minister will be at the local Lutheran church this Sunday, August 9th, at the 9th Synod. He is NOT a candidate to fill the vacancy left by the resignation of Rev. Springer.

The church service is at the usual time, 10:30, preceded by Sunday school. A good attendance is desired.

UNION CHURCH MEETING

There will be an inter-church council meeting Wednesday evening, Aug. 12th at the home of Rev. H. L. Bethel. It is scheduled to begin at 7:30 and it is hoped all churches will have a good representation.

Nominees To Be Chosen Aug. 11

Next Tuesday, Aug. 11th, voters of Richard and Huron counties will again go to the polls to select candidates for state and county offices to be filled at the fall election.

Because of the war voters have given very little attention to the candidates. However, if there ever was a time when capable men should be chosen to run for office, now is that time.

Every citizen who goes to the polls on Aug. 11 should have only one thing in mind—to select the very best men to fill the positions that are open. Some are manifestly better qualified than others and we should select only the best, the best are none too good.

It is great to live in a Democracy where all the people have a chance at selecting public officials. There are many nations which only wish they had the chance to exercise the right of ballot boxes will have Tuesday. It is the American way of running our government.

Mass Meeting At Shenandoah Church

Fifteen churches of the northern part of Richland county are holding a union service at the Shenandoah Christian church on Sunday evening at 8:30. Dr. Willis Ronk, Dean of Ashland Theological Seminary and editor-in-chief of the Brethren Weekly Publications, will be the chief speaker.

The purpose of the meeting is to bring together representatives of all the churches participating in the effort to secure a teacher of religion in our public schools. Each church is to appoint delegates to attend a general invitation to all to attend is extended.

Stickers To Be Used For 1943 Licenses

No new automobile license plates will be issued for 1943, it has been announced by State Highway Director Hal G. Sours. Instead, motorists will use their 1942 plates and will display a two by four inch sticker on their wind shield.

Sours stated that about one-third of the states have decided officially to use the stickers. The stickers will be sold in the same manner that plates have been in the past.

A few metal plates will be made for new automobiles and small plastic tabs will be made for motorcycles and trailers.

Welcome Gien To New Pastor

REV. AND MRS. HAINES EXTENDED WELCOME ON SUNDAY EVENING.

On Sunday evening, the Methodist church and congregation welcomed extended the hand of fellowship to Rev. and Mrs. Haines and daughter, Phyllis, who came from Mantua to begin their new Conference year in July.

The sister churches of Plymouth were represented by Rev. Bethel of the Presbyterian church; the schools were represented by Rev. Wolf, Lutheran, and Luther Moffet spoke for the Boy Scout organization.

Following the short program, ice cream and wafers were served by appointed committees. Messrs. James B. Ford, T. Ford, G. Hershiser, W. Ross, Mabel McFadden and Jessie Cole.

The hit of the evening was the little speech by Rev. Bethel, who gave a perfect verbal picture of the shortcomings of the small town, so that the new minister would not be disillusioned. Only a year and a half ago he was welcomed by Rev. Wolf, Lutheran, and Rev. Wintermute, Methodist, into Plymouth. Shortly, Rev. Wintermute became the patriarch of the fold, and with Rev. Bethel, extended his welcome to Rev. Springer, Lutheran, son, in August he, Rev. Bethel, was already the patriarch, and was giving the hand of friendship to the new Methodist pastor, Rev. Haines. This, he explained, was fair warning that Plymouth had the habit of promoting her ministers quite rapidly, and that at any time Rev. Haines himself might be the patriarch, or elder of the town. However, after thus making the congregation laugh long and heartily, he concluded by saying that he along with the rest of Plymouth, felt that this was a pretty good town to be in, and that we all were looking forward to a fine conference year, followed by many more.

The program, as introduced by J. B. Derr, always an able master of ceremonies, was as follows: Song—Day is Dying in the West.

Prayer—Rev. Bethel.
Official Board—E. E. Markley, Sunday School—Willard Ross.

Primus—Suzanne Farrar and Jack McQuain, who sang welcome, floral as well as verbal welcome.

WCS—Mrs. G. Hershiser.
YOUTH Group—Ruth Ford.

Vol. Union—Willard Ross, Jr., accompanied by Mrs. W. Ross, Sr. Churches—Rev. Bethel, Schools—Supt. Bailey.

Scouts—Luther Moffet, representing the Boy Scouts, who are sponsored by the Methodist men.

Scout Leader Don Einsel and a number of the Scouts were courteously present and look splendid in their uniforms.

Response—Rev. Haines.
Song—Blest Be The Tie That Binds.

Benediction—Rev. Haines.

To Hold Attica Fair This Year

Plans are going forward for the sixty-third Annual Attica Fair, to be held Sept. 30 and Oct. 1 and 2. Exhibits of livestock, poultry and farm produce will be featured this year and all prospects point to a most successful exposition.

Some very attractive entertainment features have been booked by the management, with top billing to the Boone County Jamboree, radio feature, which will appear for one night ONLY, Thursday evening, Oct. 1, at 8:00 p. m.

This year will prove no exception in the racing card two races being scheduled for Wednesday, three for Thursday and three for Friday.

PROBATE COURT
Will of Ardella E. Hills, late of Plymouth township, filed for probate. Bequest of \$200 made to a granddaughter, Marguerite H. Hartschuk, and residue of estate to a son, Harry V. Hills and a daughter, Mary Frances Drew. John I. Beelman nominated executor.

Lists Rules For Cyclists

RIDERS ARE NOW SUBJECT TO UNIFORM TRAFFIC ACT ON HIGHWAYS.

Rationing of tires is bringing the bicycle into greater use, particularly on the part of adults. The number of bicycles in use throughout the country has increased more than a million since 1940 and undoubtedly will increase more in the future. In all, there are some 9,000,000 bicycle owners in the United States. Bicycles are subject to the same regulations as motor vehicles insofar as practicable in the Uniform Traffic Act for Ohio. All bicycles, points out H. G. Sours, director, Ohio Department of Highways, are required by state law to be equipped with an adequate brake as well as with a bell or horn capable of being heard at a distance of at least 100 feet but not with a siren or whistle. If used at night all bicycles must be equipped with a white light in front and a red light in the rear, both visible at least 500 feet. "No one for their own safety," said Sours, "has the bicycle been regarded as a necessary nuisance in the hands of young riders and too long has widespread violation of traffic laws on the part of bike riders existed. The war has changed all this. It has made the bicycle an important factor in transportation. As an aid to safe bicycling, Mayor J. B. Derr suggests the following rules for bike riders:

1. Obey all traffic laws, signs, and signals.
2. Ride with traffic. Keep to the right and close to the curb or side of roadway.
3. Keep both hands on the handlebars except for signal.
4. When possible avoid busy streets or highways.
5. Do not leave a driveway or cross an intersection without looking both ways to make sure of being safe.
6. Look out for cars pulling from parking places.
7. Do not play riding games on streets or highways.
8. Unless necessary do not ride in foggy weather or on slippery streets.
9. Be alert for traffic in all directions.
10. Always keep your bicycle in good mechanical condition.

F. D. R. Cites Reasons For Meat Shortage

Here's the lowdown on the meat shortage straight from President Roosevelt, who cites three reasons for it. They are: It is the off season for beef. People have a lot more money with which to buy more and better cuts of meat. And this country has about four million men under arms who are eating more meat than they ever did at home and for whom meat supplies must be prepared months in advance. Even the President has been hit. He told his news conference that he loves caviar almost better than anything else. But because of the war he hasn't had any for a long time. The President thinks the meat shortage, although regrettable, is bringing the war closer home to many persons.

Buried At New Haven

Funeral services were held at the Fink funeral home, Willard, Wednesday afternoon, for Mrs. Elizabeth Matthias, 52, wife of Dr. F. O. Matthias, former Willard chiropractor, who died Monday in the Toledo State hospital. The family lived in Willard from 1929 to 1932 and she was taken to the hospital in 1933. Rev. Paul W. Sharp conducted the funeral services and burial was made in the New Haven cemetery beside a daughter, who died in 1931 while they lived in Willard. The husband, who resides in Wooster, and one daughter, Mrs. Gertrude Conklin, and several brothers and sisters, survive. Mrs. Matthias was born at Oceola.

Mill-Long Yarn
Some cotton yarn is so fine that 50 miles of it are needed to make one pound, according to a department of agriculture processing expert. This fine yarn spun on ordinary machinery and is used in making typewriter ribbons, airplane fabric, and even fine dress goods.

Rev. Steiner To Arrive In New York, August 22

Dr. J. C. Steiner of Willard, has received word that his brother, Rev. J. F. Steiner, Presbyterian missionary in the Orient for the last 30 years, will arrive in New York, Aug. 22, with the American nationals who were recently released in exchange for Japanese held in this country. Rev. Mr. Steiner was captured when the Japanese took Hong Kong and no word was heard from him until recently. His wife and two daughters who are at Wooster, expect to go to New York to meet him.

FIRST-AID to the AILING HOUSE

By ROGER H. WHITMAN

ONE of the troubles which come with warm weather is the dripping from pipes carrying cool water. This is likely to be the case in a cellar. One remedy is to cover the pipes with jackets which will keep warm and damp air out of contact with the cool metal. Pipe-jacketing is on sale at hardware stores, and can be had from plumbers and steamfitters. If appearance need not be considered; the same effect can be obtained by wrapping the pipe with tightly-twisted newspaper tied on with string. Corrugated board also can be used. The same principal can be applied to tanks which are chilled by the low temperature of the water within. Sometimes these can be enclosed in boxes made of insulating board, or with insulating cement of the same kind. For the most difficult problem of the sort is with porcelain flush tanks. Manufacturers of plumbing fixtures are aware of the situation, but have not found a method which would avoid it. There seems little else to do except to keep the floor under the tank covered with bare earth, and at the same time are wrung out and replaced.

Broken Marble Top

Question: I have a small marble-top table, of which the marble is cracked and broken right through the middle. Is there any way I could repair it at home?

Answer: A marble table-top is so thin that in mending it a support must be placed underneath. You should cut a piece of plasterboard to fit inside the frame of the table as a support for the pieces of marble. With this support secured in position, it should be covered with a layer of patching plaster to act as a cement. The pieces of marble are placed on this and forced tightly together before the plaster dries. If any holes remain in the marble, they can be filled with ceiling wax of the correct color. If repolishing is needed, this can be done with putty powder, to be had at a local monument yard.

Cracking Paint

Question: When we built our home two years ago we painted the wood-work ourselves with two coats of flat white and one of enamel. The wood has begun to check, and now has checks and cracks all over. We would like to repaint this spring, but are afraid that the same thing will happen. How can we prevent it?

Answer: The paint that you used was evidently too hard and brittle to allow the movement of the wood as it dries out and seasons. In preparing for repainting, ask the advice of the paint manufacturers on the correct method of thinning paint on the first and second coats for the kind of wood that is used.

Metal Roof Paint

Question: What kind of paint should I use on a metal roof that has never been painted, and that has a few rusty places?

Answer: The roof is apparently tin, for you say it rusts rusty places. These should be cleaned up to the bare metal, using steel wool or a wire brush. Wash with turpentine and then finish with red lead paint. After at least a week of drying, finish with any good quality house paint.

Hot Water Radiators

Question: I have a hot water heating system with a circulator. I understand that with the radiators completely shut off, water would be drawn from the radiator tank, and a vacuum would eventually be formed. Is this so?

Answer: No; for the shut-off valves of hot water radiators are made with small openings to allow for circulation when the valve is shut. The idea of this is to prevent the freezing of a shut off radiator.

Stoker Problem

Question: I have a two-story building, including stores and six-room flats. Heating is by hot water. I am considering putting in a stoker. Where can I get information on the different kinds and on their operation?

Answer: Consult the Committee of Ten of the Heating Industries, at 307 North Michigan avenue, Chicago.

A New Flat Roof

Question: Will you advise me what kind of roofing is best to use in replacing a tin roof on a flat surface?

Answer: What is known as a built-up roofing, this consists of several layers of heavy roofing felt cemented to a solid roof sheathing. Use a good quality heavy weight felt and have the work done by a reliable roofer.

Summertime Means Picnic Time!

(See Recipes Below.)

Sandwiches Plus

Your fling with summer isn't quite complete without one or a dozen picnics with those sandwiches that taste so good, bubbling hot coffee and fresh, juicy fruit to top off that outdoor meal. You'll have fun with these simple things, even if you don't make a long trip in the family car to some far-away, favorite picnic grounds. Try the back yard, the park, the beach or even that shady spot down the road a mile or so for this year's picnic.

Scrub your favorite picnic hamper clean and sun-dry it to assure your food freshness and cleanliness. Fill it to the brim with exciting sandwich combinations that your family will get such a surprise when they begin digging into the pleasant recesses of the big basket. Remember the salt for the tomatoes, paper napkins, paper plates, plenty of glasses or paper cups and, yes, a gay checked cloth to add atmosphere to the affair.

Are you in a quandary as to what sandwiches to make? Well, glance over the following combinations for some really tasty ideas in fillings:

Chopped bacon (broiled, small crisp) and hard-cooked egg, mellowed with mayonnaise or softened butter.

Sliced ham and American cheese, lettuce, sandwich spread.

Cream cheese, finely minced onion, chopped stuffed olives.

Chipped beef, ground fine, mixed with crumbled Roquefort cheese, seasoned with Worcestershire sauce.

Liver sausage, mashed, seasoned with chile sauce.

Sweet sausage, ground with summer or bread and butter pickle, moistened with mayonnaise.

Cucumber, chopped fine, excess moisture drained off, mixed with cream cheese, salt and pepper.

Peanut butter mixed with honey.

Tuna or salmon, flaked, mixed with lemon juice, finely chopped celery and mayonnaise to moisten.

Fillings combined generously with butter are often known as spreads. This facilitates the handling of sandwiches. Just spread the "butter" thickly between slices of bread and your sandwich is made, ready to be wrapped in waxed paper for picnicking.

Cheese Spread

Blend cream cheese with lemon juice and add 2 tablespoons butter to each package (1-ounce) of cream cheese. To this add one or more of the following: chopped watercress, green pepper or celery; pimiento, green olives, or nuts.

Sardine Spread

Cream 2 tablespoons lemon juice with ½ pound sweet butter. Spread this on toast or plain whole wheat bread. On top of this place tiny sardines, sprinkle with lemon juice and top with slice of toast or plain whole wheat bread.

"Make-your-own" sandwiches are loads of fun for picnics. Just pack your lunch box with meat loaf or ham, loaf or plain whole wheat bread baked at home. Provide the crowd with bread and butter, and let them slice the meat for their own sandwiches:

Lynn Says:

The Score Card: Your best bargains during the present can be found in eggs and cheese, so plan to fortify your meals generously with both of these foods.

The campaign to save fats is really getting under way, and it's good policy on your part to turn all excess fats to your butcher.

Economy's yours if you use a variety of meat cuts in planning your menus. Best bargains can be found in the less used cuts such as liver, sweetbreads, heart, kidney, rump roasts, etc.

Primary or unlimited production in canned fruits is decreed for the following items: peaches and pears (not whole), peatin, fruit cocktail, fruit for salad, and concentrates of grapefruit, lemon, lime and orange.

"Ham Picnic Leaf"

(Serves 10)

- ½ cup quick-cooking tapioca
- ¼ teaspoon pepper
- ¼ teaspoon paprika
- 1 teaspoon Worcestershire sauce
- 1 tablespoon minced onion
- 1 pound lean ham, ground
- 1 pound lean pork, ground
- 2 cups milk

Combine tapioca with remaining ingredients in order given. Bake in a loaf pan in a hot (450-degree) oven 15 minutes, then decrease heat to moderate (350 degrees) and bake 45 minutes longer or until done. Serve hot or cold.

Munching on golden, crispy fried, cold chicken is many a picnicer's dream of the perfect outing. This is easily managed if you fry the chicken the night before, let it stand in the refrigerator, then wrap in waxed paper to take to the picnic the next day.

"Country-Fried" Chicken

(Serves 6 to 8)

- 2 3-pound chickens
 - ¼ cup flour
 - ¼ cup salt
 - 1 teaspoon pepper
 - Lard or shortening for frying
 - ¼ cup butter
- Clean chickens and cut in pieces suitable for serving. Mix flour with salt and pepper and place in paper bag. Place several pieces of chicken in the bag, and shake to coat evenly with flour. Take out and fry chicken until brown, slowly, in the lard which has been placed in a heavy skillet. When all the chicken has been browned, dot with butter, cover closely and let cook for about an hour over low heat. Or, if you prefer, after chicken is fried, let cook in a moderate (350-degree) oven until done. Uncover during last 15 minutes of cooking time to brown and crisp chicken.

Potato Salad

(Serves 8)

- 6 potatoes, cooked in jackets
- ¼ cup french dressing
- 1 onion, chopped fine
- 1 cup celery, chopped fine
- 1½ teaspoons salt
- 2½ recipe cooked dressing
- Peel potatoes, and cube. Marinate in french dressing for ½ hour. Combine with other ingredients, and chill thoroughly before serving. Garnish with paprika.

Cooked Dressing

- ¼ teaspoon salt
 - ½ tablespoon sugar
 - 1½ tablespoons ketchup
 - 1½ tablespoons butter
 - 1 teaspoon dry mustard
 - 2 egg yolks
 - ¼ cup milk
 - ¼ cup vinegar
- Combine dry ingredients. Add egg yolks, blending carefully, then mix in butter, milk and vinegar slowly. Cook until thick in double boiler. Let cool before adding to salad.

ABRAHAM'S INTERCESSORY PRAYER

LESSON TEXT—Genesis 18:23-33. GOLDEN TEXT—The effectual fervent prayer of a righteous man avails much.—James 5:16.

Prayer has been the subject of thousands of books of sermons without end; yet how little it is actually practiced. Conferences are held to discuss it, and they attract large audiences, but at prayer meetings we find only a handful.

We are sure that "prayer changes things," and we agree that it is the most powerful force at man's disposal, but we go right ahead trying to change things in our own strength. "O what peace we often forfeit, O what needless pain we bear, All because we do not carry Everything to God in prayer!"

Our lesson from the life of Abraham stresses one important phase of prayer—prayer for others.

The Nature of Intercessory Prayer

1. It is a Privilege.

We speak of the burden of prayer, but we do not recall that it is a privilege. Abraham had been honored by a visit from the Lord. The covenant had been renewed and a son promised (Gen. 18:1-16). Then the Lord, because of His friendship with Abraham, shared with him (v. 17) His purpose of judgment on wicked Sodom and Gomorrah.

How pleased must he be on such intimate terms with God—to know Him and to know His plans and purposes. Would you enjoy having such fellowship with Him? You may through Jesus Christ and through the study of God's holy Word.

2. It is a Duty.

Praying for the wicked cities. Responsibility. The two men went toward Sodom, but "Abraham stood yet before the Lord" (v. 22), to those who know God's plans are to share them in prayer. Those who have audience with the King of kings, those who carry the blessed burden of prayer for others as well as for themselves.

Are we praying for our nation, for its President and leaders? For our country, for our church, our families, our children, our friends? The deeper the need, the greater the wickedness, the more we need to pray. Do we as Christians do not pray, who will pray?

3. It is a Reality.

Some modern religious leaders would take all reality out of prayer by making it a sort of spiritual exercise which operates only on the soul of the one who prays, giving him a sense of peace and a sense of well-being. Undoubtedly the very fellowship with God which is inherent in true prayer is spiritually real, but prayer is objective, not merely subjective. It deals with nations and cities, men and women, problems and sin and sorrow. It shows every need of man—physical, mental and spiritual.

II. The Spirit of Intercessory Prayer

1. Unselfish.

Abraham had the assured blessing and promises of God. The cities were wicked and unrepentant. If he had taken the attitude of many Christians today, he would have said, "It serves them right. Wipe out their wickedness." But Abraham prayed for them in complete unselfishness.

2. Bold and Courageous.

Note the reverent boldness with which Abraham pleaded the cause of the cities. God is not displeased to have us press our cause in prayer; in fact, the Bible reveals that He frequently answers according to the earnestness with which men pray. He has always honored and used men of holy courage.

3. Unconquered.

No one—not even God—likes a "quitter." Remember those who were heard for their importunity? This is not only the testimony of the little boys on Halloween. They ring the bell and run.

Abraham persisted; fifty, forty-five, forty, thirty, twenty, ten—perhaps he should not have stopped even there. God who saw his persistent faith went the rest of the way and saved the only four who could be saved, and even of those, three were infected with the wickedness of the place.

Let us not be weary in well-doing as we pray, "for in due season we shall reap, if we faint not" (Gal. 6:9).

III. The Result of Intercessory Prayer

God had to destroy the cities. There are some kinds of violent infection which must be destroyed by because variations of tone, or pitch, are used to distinguish words of different meaning that otherwise would sound alike.

YES, your youngster is ready for hours and hours of play when you make her this cunning suit—in a stout durable cotton which can be worn tucked in as a shirt, or as a jacket—overalls and an abbreviated romper suit for sun worship. The last named carries a sail boat decoration which can be applied as a bright patch of contrasting color.

Pattern No. 8166 is in sizes for 1, 2, 3, 4 and 5 year olds. Size 2 years set takes 3½ yards 36 or 38-inch material. 1½ yards 2½ to 3½ trim rompers.

Wrap-Over Frock.

WHAT a comfort at the end of a hard day to slip into a cool, utterly simple frock like this one, shown in Pattern No. 8164. The fact that it wraps over and is held in place with just two buttons at the waist makes it very easy to slide into! You'll find it a practical and attractive frock for the hurried morning breakfast—in fact it is a jewel in the wardrobe.

Pattern No. 8164 is in sizes for 1, 2, 3, 4 and 5 year olds. Size 2 years set takes 3½ yards 36 or 38-inch material. 1½ yards 2½ to 3½ trim rompers.

4. West of Europe.
5. To teach.
6. Porpoise.

Chinese Cannot Whisper

A whispered conversation cannot be carried on in a tone language, one of which is Chinese, because variations of tone, or pitch, are used to distinguish words of different meaning that otherwise would sound alike.

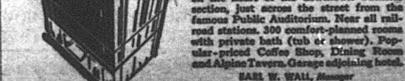

Uncle Jed always used to say, "Thinkin' be a whole lot pleasanter if folks would just see us they'd never be ashamed to sell the family parrot to the town squaw."

An' speakin' of parrots, reckon I must sound like one, the way I'm always talkin' about vitamin an' KELLOGG'S PAP! But it's mighty important to get your vitamins—all of 'em! And KELLOGG'S PAP is extra-strong in the two vitamins, B₁ and D, that are most likely to be short in ordinary meals. An' FERRIS plumb delicious, too!

Kellogg's Pap

A delicious cereal that supplies per serving (1 1/2 oz.) the full minimum daily need of vitamins B₁ & D, the daily diet.

IF IT ever seemed to you that the walls and ceiling of an attic room were coming down on your head you know how the owner of this room felt before she began to experiment a bit with wallpaper and furnishings.

room seem smaller. Wide borders made the ceiling appear to be even lower. But when a paper with tiny evenly spaced pattern and narrow border was tried all the defects seemed to melt away. The long curtains with ruffles on three sides also helped to make the ceiling seem higher. Pink and white striped material to repeat the wallpaper color was used for the chair cover and dressing table skirt. The chair is a remodeled rocker and the orange crate dressing table has hinged arms. Directions for them may be found on pages 4 and 19 of SEWING, Book 5.

JUNK
needed for War

"What's it good for?"
"Guns, tanks, and maybe part of a plane"

In the barnyards and gullies of farms and in the basements and attics of homes is a lot of Junk which is doing no good where it is, but which is needed at once to help smash the Japs and Nazis.

Scrap iron and steel, for example. Even in peacetime, scrap provided about 50% of the raw material for steel. It may be rusty, old "scrap" to you, but it is actually refined steel—with most impurities removed, and can be quickly melted with new metal in the form of pig iron to produce highest quality steel for our war machines.

The production of steel has gone up, up, UP, until today America is turning out as much steel as all the rest of the world combined. But unless at least 6,000,000 additional tons of scrap steel is uncovered promptly, the full rate of production cannot be attained or increased; the necessary tanks, guns and ships cannot be produced.

The rubber situation is also critical. In spite of the recent rubber drive, there is a continuing need for large quantities of scrap rubber. Also for other waste materials and metals like brass, copper, zinc, lead and tin.

The Junk which you collect is bought by industry from scrap dealers at established, government-controlled prices.

Will you help?

First—collect all of your waste material and pile it up.

Then—sell it to a Junk dealer, give it to a charity, take it yourself to the nearest collection point, or get in touch with your Local Salvage Committee.

If you live on a farm, consult your County War Board or your farm implementation dealer.

Throw YOUR scrap into the fight!

JUNK MAKES FIGHTING WEAPONS

One old disc will provide scrap metal needed for 210 semi-automatic light carbines.

One old glow will help make one hundred 75-mm. anti-aircraft projectiles.

One molten old tire provides much rubber as is used in 12 gun muzzles.

One old shovel will help make a hand grenade.

MATERIALS NEEDED
Scrap iron and steel.
Other metals of all kinds.
Old rubber.
Rags, Manila rope, burlap bags.
Waste Cooking Fats—When you get a pound or more, strain into a large tin can and sell to your meat dealer.

NEEDED ONLY IN CERTAIN LOCALITIES: Waste paper and tin cans—wanted only in certain areas, as announced locally. NOT NEEDED (at this time) Paper, tin cans—etc.

LETTERS FROM OUR SOLDIER BOYS

Just in case you missed it in the Mansfield Journal, Sunday, and because there are several good laughs in it, we are printing the entire letter from Corp. John L. Carr, formerly of The Mansfield News.

"Whether you knew him or not, makes no difference, because they are still Our Boys in the Service. The letter shows how the majority of the boys are taking it in true American style — grin and bear it."

Dear Folks:
I am very enthusiastic about army camp life. We lie around in bed every morning until 5 o'clock. This life, gives us plenty of time to get washed, shaved, dressed and make up our bunks, etc., by 5:10 a. m. By 5:15 we stand outside and shiver while mud is being hauled out of a bugle. After we are reasonably chilled, we stumble our way through the darkness to the mess hall.

Here we have plenty of breakfast, consisting of an unidentified liquid and a choice of white or rye crust. After gorging ourselves with this delicious repast, we waddle our way back to the barracks.

We have nothing to do until 7:30 so we just sit around and scrub toilets, mop floors, wash windows and pick up after the cigarette butts and match sticks within a radius of 150 feet of our barracks.

Soon the sergeant comes in and says, "Come on out in the sun, kids." So we get out and bask in the wonderful sunshine. Of course, we stand six inches in the mud. To limber up, we do a few simple calisthenics like touching our toes with both feet off the ground and grabbing ourselves by the hair and holding ourselves out as long as we can.

At 8 a. m. we put on a light pack and start walking to the mountains. The light pack is not to be confused with a heavy pack. The heavy pack has a blanket, a gun, bayonet, canteen, mess kit, coat, cartridge belt, first aid kit, pup tent, tent stakes, tent poles, rope and a few other negligible items.

The heavy pack has a blanket or two in it. Carrying my pack, I weigh 267 pounds. I weighed 190 pounds when I left so you can see how easy and agreeable it is to romp and play with the mountains.

An observation car follows us as we climb the mountain and picks up the fellows who faint. The boys who fall out in the mountains are treated very well. They give them six months in the guardhouse, but they do not have to face court martial.

At 12 noon, those who can limp to the infirmary. At the infirmary, patients are divided into two classes, those who have athlete's foot and those who have colds. If you have a cold, you get your feet swabbed with iodine, and if you have athlete's foot, you get your feet swabbed with iodine.

Anyone who claims to have neither a cold nor athlete's foot is sent to the guardhouse for impersonating an officer. I am very popular at the infirmary. I told them that I have both a cold and athlete's foot. What I really have is a gastric ulcer, but I know when to keep my mouth shut.

Well, that's all I have to write tonight. I've got to rush to mess hall. We are having hominy tonight. Oh boy!

Corp. John L. Carr.

Hi, Tommy:
I doubt whether you will remember me, but last evening I had the real pleasure of reading some of the old back issues of The Advertiser. Bill Fetters read in one of the copies where I had left the FRH Co. for work in Hawaii. He tore the article from the paper and came running—to find me. He did locate me and we had a good "chinning bee." After working in Plymouth for better than five years, I naturally found many things of interest to read in your paper. Bill sure looks fine and is brimming over with enthusiasm. He is coming out here to the cottage some time when he is on leave from the States.

Give my regard to the gang at the shop, Tommy, and for now I'll say.
So long,
L. Foster.

Yeah, Harry, I remember you mostly by your blue eyes, blond hair and that "baby face" look you used to carry around. Glad to hear from you, and when you hold "Red" Burns about your letter he

says: "Ask Harry if the girls out there really wear grass skirts!" Red doesn't think if they do, he might sign up for a job in Hawaii, but if you know him like I do, Harry, well, it would still be worth as far as Red is concerned. There have been quite a number of the boys from the shop who have entered the service, and you will no doubt run across a few of them later.

If you see Bill F. again tell him to drop me a line. If they have a newspaper out there, perhaps Red and I can team up and pay you a visit. Glad you enjoyed the paper. I hope you can be lucky to get additional copies.—Tommy.

OLD PICTURES HISTORY BROUGHT TO LIGHT ON "WILD" BOY NEAR NEW HAVEN FORTY-SEVEN YEARS AGO

J. H. Williams, curator of Firelands Museum, Norwalk, who writes historical articles about the county, in a recent issue of the Norwalk Reflector-Herald told about Pompey Brown, a youth brought up in the woods near New Haven. Older residents here recall the case and some of them helped capture the boy and aided in seeing that he got advantages enjoyed by other boys.

Talking about the "wild" boy, Christy Weber brought to the Advertiser two pictures formerly belonging to S. E. Nimmons of Saginaw, Mich., and now in his possession. One is dated Feb. 28, 1905, showing Emory (Brown) Anderson, father of the boy and the shack in which they lived, and the other picture is dated March 13, 1905, showing Pompey after he had been given attention and care at Norwalk.

The complete history of the case is pasted on the back of the picture showing the cabin, and the story is as follows:

A careful and successful investigation by the Humane Society, corroborated by the sheriff of the county, who, as well as Mr. Derby, has made a personal investigation.

Some three miles north of Plymouth, in New Haven township, in a piece of woods, there has lived for a number of years a family by the name of Anderson, alias Brown. The family consists of an old lady, the grandmother, aged about 73 years; her son, a man of 45 to 50 years, and the man's son, a lad of some 12 years of age, who was born, it is said, the year of the World's Fair at Chicago. The home as has been learned, consists of an old tumble-down shack of one room about 12x14, and in this place called home, these three people have lived and how they have managed to exist no one exactly knows, except that the neighbors say the man has managed to earn a few dollars now and then by doing odd jobs.

The family, it is said, at one time resided in Ripley township, near Delphi, where, it is claimed, the boy was born. Formerly the family consisted of two other members, the wife and another son of Mr. Anderson, who are now both dead.

Both Mr. Derby and Sheriff Snyder, in describing the home of these people, state that no words can give any idea of the squalor, want and filthiness of the place. In this one small room the family lived, slept and ate, and the odor, as they entered it in search of the boy, was almost overpowering.

The lad, who was brought to Norwalk Saturday night by Sheriff Snyder, is naturally bright, but owing to his surroundings and the terrible treatment he has received he is little less than a wild boy, and his actions and language make him appear to be

devoid almost of any human instincts. He had never been out of sight of his "home" and is as ignorant of the outside world and of what is going on as though he had never been born.

The habitation called a home is made of heavy upright timbers crossed with other beams, with one small door and window. The space between the timbers is filled with clay, which makes the house like a fort and almost bullet proof. Above the lower room is an attic with one small opening.

Sheriff Snyder went to the place, Friday, to make arrangements to bring the boy to Norwalk, going over again Saturday. In the meantime the father had come to Norwalk and reported the boy was sick. On Saturday, Sheriff Snyder, accompanied by deputy sheriff Hull, went again to the home and found the place barricaded. The boy had crawled into the attic or loft, taking with him an axe and a shot gun, and wouldn't come down but threatened to "spill blood," as he said. In addition to the house being barricaded and the boy armed, two vicious bull dogs were also on guard.

Soon after, Snyder went to Plymouth to get more assistance, leaving Hull on guard. During this time the grandmother had climbed into the attic with the boy, and how to get them down was a question. Two men came from Plymouth with Sheriff Snyder, with shotguns, with which to kill the dogs, if necessary.

Sheriff Snyder, on leaving Norwalk, had provided himself with a quart bottle of formaldehyde, and with some brimstone procured at Plymouth, proceeded to smoke and drive the occupants out, by throwing the formaldehyde and brimstone through the window and into an open stove, the stove pipe having been stopped up at the top by one of the men climbing to the roof and placing a pall over it. The fumes blew away soon brought the boy and the old woman to terms and they came down from the loft. As soon as possible, thereafter, the boy was captured and was brought to Norwalk by Sheriff Snyder in a buggy.

The boy, on his arrival in this city, was taken before Judge Suhr, who turned him over to the Humane Society. The first thing done to the boy was to take him to a barbershop, where he had his hair cut, and then to Pulley's bath room where he had, probably for the first time in his life, a good soaking bath.

The sights in Norwalk, the many buildings, the electric cars and lights, and the many people passing along the streets, stupefied and bewildered the young lad for he had never seen anything of the kind in his life and it was to him like going into a new and strange world.

The boy will be placed with some good, kind family for care and safe keeping, and will be sent to school and otherwise looked after.

It will be interesting to know the names of this remarkable family. The father's name is Emory Brown Patterson, the grandmother's, Calamity Jane Patterson, that of the boy who died, was Sledgehammer Patterson, and that of the "wild boy" who was brought to Norwalk, Pompey Brown Patterson.

Although the grandmother is 73 years of age, she is as lively and "chipper" as a woman of forty.

The Huron County Humane Society has been doing some good work of late in the matter of bringing to justice unfaithful and inhuman fathers who have failed to provide for their offspring, but it ran up against a "tough" proposition a few days ago through information gained at Plymouth, which has caused a genuine sensation in and around Plymouth, and much indignation, because of the horrible discovery made—a state of things that almost beggars description and causes the blush of shame to come to the cheeks of all decent and respectable people.

The story, as told The Reflector by Constable L. H. Derby and Sheriff Snyder, is one that is incredible in this day and generation and could hardly be believed had it not been truly verified by

To The People of Plymouth:

You, of course, know that the primaries are to be on Aug. 11, next Tuesday, and though, for various reasons, the campaign has been very quiet, it is important that you attend and vote your choice. You would not have that opportunity in many parts of the world today.

There will undoubtedly be many matters coming before the next Assembly requiring a careful thought and if nominated and elected to the office of Representative I promise to give them the same careful attention I have in the past.

Attend the primaries. I respectfully request your support.

RESPECTFULLY,

THIS IS A MATTER OF GOOD BUSINESS

When you make a choice that saves you money, that's good business.

If you cast your vote for a public official who has already proved his ability to spend wisely the taxpayers' money—that's smart, and playing safe. Richland County is out of debt. It is being operated within its income. County-wide improvements have been effected at rock-bottom cost. That means you pay lower taxes.

Simple, isn't it? It's just a matter of good business to vote for the man who helped to bring about this situation. Think it over!

TROOP NEWS

Several members of the troop have received new offices in the troop during the past week. Patrol Leader Paul Scott has been promoted to Senior Patrol Leader, another step up in the ladder toward the position of Scoutmaster. As SPL he will be the main contact between Scoutmasters and the patrol leaders. To fill the vacancy left by SPL Scott, Gordon Seebolt has been appointed temporary Patrol Leader until such time as the patrol takes formal vote on the matter. Monday evening Jack Hampton turned in

A new feature has been instituted in the regular monthly troop meetings held the first Monday of each month. Through the courtesy of Rev. Bethel a series of short devotional periods will be conducted. Inasmuch as our troop has no Chaplain, the period will be conducted by the various local ministers. Rev. Bethel conducted the first such period Monday evening and as is his usual custom, the point of his talk was very clearly made and delivered in a manner any boy could understand. We want to thank Rev. Bethel, also the various ministers that will take time to conduct these meetings in the coming months.

Troop committee meeting will be held in the home of George Hershiser this evening, Thursday. The Pine Tree patrol won the tent pitching contest conducted Monday night at Scout meeting. The tent was up in seven minutes. Ask any Scout if he can show you the proper way to squeeze a lemon. The Scoutmaster pulled a quickey on the boys Monday night.

A short meeting was held by members of the American Eagle patrol Tuesday evening by the patrol leader, Jim Moore, following First Aid class.

We wonder what the Pine Tree members were doing going "Up The Ladder." Congratulations and may you increase the tempo.

According to information received this morning from Don D. Montoya, Area Field Executive, an attempt will be made sometime in September to start the Cubs. This will give the younger fellows from 9 to 12 to get a taste of Scouting.

Plans are being made for another week camp to be held either the last of this month or the first of next.

Huron and Richland counties again were well represented in the Ohio State University student body the past 12 months. Richland county sent 145, while Huron county sent 47 students to Ohio State during the regular school year and the summer quarter, continuing its record of having been represented on that campus every year since 1880.

CHECK STARTS ORGAN DRIVE

LEUT. KAYLOR SENDS HIS CHECK TO START ORGAN FUND FOR CHURCH

A complete surprise for the Mt. Hope Lutheran congregation was the generous check received from Lieut. Col. John P. Kaylor, of Camp Forrest, Tenn., for the church organ.

He had heard that his home church wanted an organ to be dedicated at the one hundred anniversary, so sent his gift with a generosity which is his natural characteristic and added to his West Point training and army life, meant prominent.

Every one and spoken of, "as a wonderful gift from John."

It was the first gift for that purpose and was the beginning of the organ fund." Mrs. N. N. Ruckman presided at the Organ for the church services, and Mrs. W. Nesbitt favored the congregation with a beautiful solo. Mrs. Nesbitt had always sung with an organ previous to her residence here, and was at home for this service.

Her daughter, Mrs. K. C. Burt of Miami who came last week and was with her, returned here Monday.

TAKEN TO HOSPITAL

Miss Wyle Clark was taken in the McQuate ambulance to the Mansfield General hospital Thursday. She is reported a little better, than when admitted to the hospital.

HOME ON Furlough

Robert Fidler, who is at home from Camp Chaffee, Ark., on a short furlough, was here Sunday morning, accompanied by his wife.

Robert has never missed a Sunday service since entering the army although his visit with relatives was short, he couldn't afford to miss the service at home.

A prominent caller on Robert Sunday afternoon, which gave him a special pleasure, was that of Dr. George J. Searle of Plymouth.

OSWALT RITES

FIVE MONTHS' ILLNESS ENDS IN DEATH

Funeral services for Allen H. Oswalt, were held Monday afternoon at 2:00 o'clock at the Franklin Methodist church, of which he was a member. The pastor, Rev. Floyd H. Eckstein officiated. Burial was made in the Franklin cemetery and arrangements were in charge of McQuate's.

Mr. Oswalt died at his home on Wallace street after five months' illness. He was a resident of Weller township all his life with the exception of two years in California and was a member of the Loyal Order of Moose, No. 241, Mansfield.

Surviving him are two brothers, Orson Oswalt of Spokane, Wash., and David of Mansfield.

Mrs. W. H. Kochenderfer, a cousin, attended the services at this place.

New Subscribers On The Advertiser Roster

You just can't remember to write "him" all the small items that go to make up the Old Home Town. Why not send him The Advertiser, even the ads and the classified column are read by the boys in Uncle Sam's service. We send it anywhere in the United States for \$1.00 per year—we pay half and the donor pays the other half. Those who are in foreign service with post office addresses in the United States, can still receive The Advertiser—a little late, perhaps, but just as eagerly read.

This week we add to the ever-growing list of subscribers the following: Pvt. Chas. H. Watterston, New York; Pvt. Ernest C. Kimmel, Texas; Mrs. S. C. Holtz, R.D. 1, Shelby; Mrs. Dwayne McFadden, Plymouth.

Renews include, Dr. J. T. Gasky, Six Lakes, Mich.; J. A. Leach, Mrs. Wm. Lawrence, Myrtle Preston, Mrs. George Hatcher, Plymouth—Mrs. Lena Dreier, Shiloh, Mrs. Carrie Lynn, Sandusky.

Perhaps we have on file the very address of our Soldier Boys who receive The Advertiser, are open to the public. If we have it, it is yours for the asking.

300 PHEASANTS ARE LET OUT AT SHELBY

Some 304 pheasants have been released in the Shelby area by Charles Kimmel of Mansfield, Ribland County game warden.

Raised by local residents in pens furnished by themselves, the pheasants were secured by the Shelby Conservation League from the state organization.

About 100 more pheasants will be released here later in the year. This will bring the total of birds released in this area to 500.

A number of black bass will be released in the Black Fork creek near Shelby in the near future by the state.

Carl Spenseller Writes Letter From Overseas

An Albatross, Mark dogs, flying fish and a rainbow by moonlight are some of the wonders of nature reported seen by Carl Spenseller in the first letter to his parents, Mr. and Mrs. R. Spenseller of Shelby, Route 3, just received.

Carl is a member of the Ohio State Guard in the first letter to his 37th Division which left some time ago for duty overseas, and even the letter did not disclose his destination. However, it was the first letter received since his departure and was eagerly read.

He states he is well and enjoying his new location—which is evidently an island. He writes of making some interesting trips and visiting some industrial plants.

In his spare time, he writes of repairing several expensive watches for some of his buddies, reporting no pieces lost—none left over, and best of all the watch still ran the next day.

June first Carl was elevated to Private, First Class. He mentions Elmer Parsel and his heroic feat in the March 30th Life Magazine and that he met a number of splendid boys. As a private he was also given three "hype" shots by his Uncle Sam.

The letter was mailed June 19 and received better than a week ago.
