

ENROLLMENT HITS 356 IN THE SCHOOLS HERE

Plymouth Public Schools started the school year on Monday of this week, after delaying the opening for two weeks. The forenoon of the first day was spent in securing the basal text books for each student's work, and the meeting of the new teachers.

All seem to be enjoying the general programs as have been given. The enrollment for each grade is as follows:
First, 28; second, 42; third, 26; fourth, 25; fifth, 34; sixth, 34; seventh, 43; eighth, 36; ninth, 25; tenth, 24; eleventh, 23; twelfth, 18.

The total number of pupils registered was 356. Others are to start at a later date.

Introducing New Teachers
It shall be the policy of the school board to give to the public each week a short biography of one new teacher, until the list is completed.

The music instructor, Miss Marion Manola, is a native of Cleveland. She received her early education in the schools of that city. Later, she transferred to Lakewood school, where she was graduated. Upon her graduation she was awarded a scholarship at Baldwin-Wallace College for her proficiency in music. She spent four years in this college and was graduated from it in May, 1942 with the B.S.M. degree. During her time in college she gave numerous piano recitals. Miss Manola plays the piano, organ, clarinet, trombone, cello and violin.

Her hobbies are hiking, bowling, reading and making scrap books. She likes to attend concerts and grand operas.
Miss Manola will give private lessons to any children who may care for same. Parents may contact her at her home on the Dwayne McFadden home on Railroad street.

NEW TEACHERS NOW LOCATED

The five new teachers on the faculty of Plymouth schools are now located in the following homes: Miss Marion Manola at the Dwayne McFadden home; Miss Schofield and Miss Martha Bowman with Mrs. C. D. Wentz; Miss Sawyer at the R. C. McBeth home and Miss Muriel Walker, new Religious Education teacher, with Mrs. W. W. Trimmer.

LICENSES ARE MOVING SLOW

There will be no extension of time granted after midnight, Sept. 30th for the renewing of driver's license. The sale has been quite slow in Plymouth and surrounding towns. Unless applicants buy them shortly there will be a grand rush to beat the deadline. Ten minutes today might mean a long wait in line later.

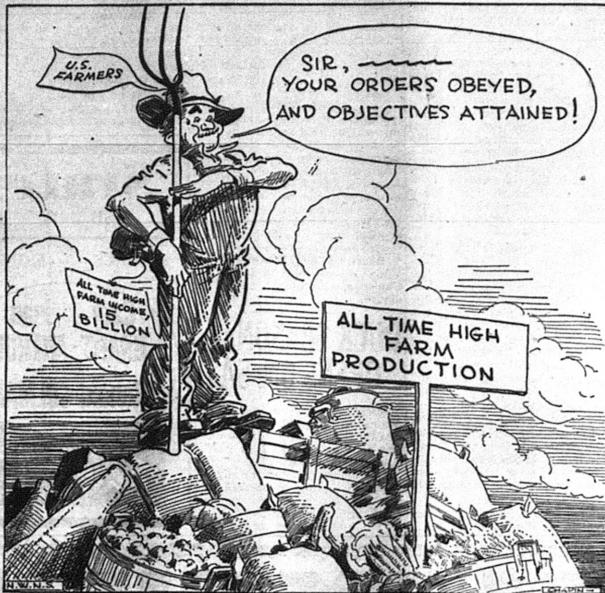

Mr. and Mrs. C. M. Ervin and Miss May Fleming are deputy registrars here.

For the past two Sundays, the Methodist congregation joined with the Presbyterians for morning worship. The Methodists are deeply grateful to Rev. Bethel and congregation for their kind invitation.

AAA Holds Election; Taylor Holds County

Guy L. Taylor, Washington township, was re-elected chairman of the Richland County Agricultural Adjustment committee after farm delegates from 17 of the 18 townships in Richland county returned the 1942 county committees to office for another year.

In Cass township so few farmers showed up for the election Friday that the election was postponed. In Plymouth township it is reported only 14 farmers turned out to vote, while women who were given the privilege to vote this year, failed to take advantage of it here.

The organization meeting was held Saturday in Mansfield and county committees were appointed. Delegate from Plymouth township is Harry Hawk.

REMOVED HOME
Mrs. Mary Cross was removed Tuesday morning in the Miller-McQuate ambulance from the Shelby Memorial hospital to the home of Mr. and Mrs. Fred Myers on Nichols Ave.

We wonder if the reason that Bill Deth is going around with his clothes on backwards is the lack of foot.

One thing that Miss Sawyer won't have to put up with is Junior "Smoking" Lash coming in every morning at 9:35.

An invitation is extended to everyone in Plymouth who is interested in the Religious Education Movement recently inaugurated in Plymouth, to attend a union meeting Monday evening in the Methodist church at 8:00 o'clock. Miss Muriel Walker has been hired as the teacher and Monday will be a splendid time for those interested to ask questions about the course.

The guest speaker for the evening will be Dr. E. A. Walker of Massillon, who will speak on the subject: "Christian Advance Movement."

Phamphlets On "What Can I Do" Are Now At The Black & Gold

The Citizen's Handbook for war issued by the United States Office of Civilian Defense can now be had in Plymouth for the asking at the Black & Gold Soda Grill.

The book gives a general idea of what each individual can do to help win the war and is very cleverly illustrated. On the back of the book is an index so if you aren't interested in the whole book, you can pick out and read on any phase which interests you. Next time you are at the Black and Gold ask for one.

GUEST SPEAKER AT

LUTHERAN CHURCH
Dr. E. Clyde Zander, D.D., of Columbus, filled the pulpit last Sunday in the local Lutheran church. Only a small crowd was on hand to hear him because of the lateness in obtaining the information.

LUTHERANS TO MEET WITH CANDIDATE

Last Sunday five members of the Lutheran church, Elden Nickmons, Lowell Keith, Royal Eckstein, Glen Dick and James Root, visited St. Johns Lutheran church in Zanesville, Ohio, for the purpose of hearing the Rev. Hackenberg, D.D., who is under consideration as pastor for the local church.

The committee was very favorably impressed with Dr. Hackenberg and they, along with the other members of the council, have made arrangements to meet with Dr. Hackenberg, for further discussion next Thursday, Oct. 1st, at 5:00 o'clock in the church. Following the conference a pot luck supper is to be held by all the members of the church together with Dr. Hackenberg. After the supper an informal meeting will be held between the members and Dr. Hackenberg, at which time the latter will give a few remarks.

The purpose of the meeting and the supper is to merely have the members who have not already done so make the acquaintance of Dr. Hackenberg.

Dr. Hackenberg requested to the committee Sunday that he did not desire to preach a trial sermon. Dr. Miley, president of the church synod also, when he met with the council recently, requested that the council would not ask Dr. Hackenberg to preach a trial sermon. Dr. Miley stated that he had never preached a trial sermon since he had been in the church.

The council wants to strongly impress upon the members of the church that no action will be taken Thursday, but that the meeting is being held to have the members personally hear Dr. Hackenberg. The council further wants to state that for many reasons Dr. Hackenberg may not even consider the pastorate here though it be the desire of the congregation that he do so. A supply pastor whose name will be announced later, will fill the pulpit this coming Sunday.

GEO. H. DAWSON LEAVES EST A TE TOTALING \$46,000

Around the Square

(By Phineas Whittlesseed)

A SOLDIER WALKED into the post office at Charleston, S. C., bought a regulation stamped one-cent postal card, penned a note, then carefully scratched out the stamp and wrote "Free" across it. He'll never get rich.

UP IN NORWALK, CONN., the city's entire supply of gasoline rationing books was stolen from the rationing board's office. Unofficial estimates placed the number at approximately 3,000.

SOUNDS LIKE SOME articles we try to write—down at Charlotte, N. C., to the classified advertisements department of the paper came this little notice—too late for the noon edition:

"For sale: Nice gent's horse with reconditioned buggy and bridle. Owner called to army."

The lintype operator set it and it was put in the page form.

An hour before deadline for the afternoon final, Classified Advertising Manager T. E. Moore rushed in, grabbed the ad from the page form, and scribbled out this version:

"For sale: Reconditioned buggy, harness and bridle practically new. Owner called to army."

The horse had dropped dead. Fifteen minutes later, Moore dashed in again. This time he took the whole thing out.

When the horse died, it fell over on the buggy shafts and broke them.

IT NEVER FAILS to happen—

After listening for weeks to the foreign broadcast on Saturday night, the 8 o'clock hour, WCLB, Mr. and Mrs. J. Howard Smith received word from their son Ben this week that he had spoken to his friends and relatives over the hook-up on August 29th—and they fail to hear it. The broadcast is made from the American Eagle Club in London and after that particular broadcast, the group of boys who had the privilege talked over the system were interviewed by Gene Raymond, husband of Jeanette McDonald, who is now in England. Ben also wrote that he drove a few and that it was "amusing but very confusing" because when you are on the right side of the road, it is the wrong side of the road, because in England the left side of the road is the right side of the road. Oh, me!

HE MAY NEVER learn his name, but E. K. Trauger can think of him as "Buddy." Coming into town a little earlier than usual on Monday morning, E. K. noticed a young lad in uniform hitch-hiking south from the Square. Starting up a conversation he learned that the young man was home on furlough, had fought on the Coral Sea Battle, was on the Lexington when it was torpedoed and was also at Midway. He had missed connections by railroad and was getting home the next best way. Before he could get around to asking his name, a car drove up, picked up the soldier who hastily turned and called: "So long, Buddy."

A CLEVELAND woman turned into a rubber scrap pile a girle to which was attached a note reading: "If this could only make me mad, we'd win the war in a week."

'ANGEL STREET' AT HANNA IN CLEVELAND

"Angel Street" the dramatic sensation that Walter Winchell referred to as "the waif kicked off all the best theatricals in Cleveland" will be presented at the Hanna Theatre, Cleveland, for one week beginning Monday evening, Sept. 28th. Producer-Director Shepard Traube has assembled for this company a group of players equal to stature to the cast now holding New York Audiences spellbound. With Ernest Cosserat, Lynn Phillips and Byron McGrath featured, the young producer avers that his new company will prove just as proficient as the players he lured into his New York cast.

Not since *Janna* was sounded a blase prohibition era audience with his "Broadway", has a young producer received the acclaim from the New York critics as the praise showered on young Mr. Traube after the premier of "Angel Street".

Patrick Hamilton, the author, has evolved a most amazing drama without resorting to the usual tricks. He tells his story in a manner to appeal to the intellect of an audience and to stimulate the nervous system. "Angel Street" is not the ornery synthetic play that will appeal to all drama lovers who are seeking something entirely new. When Burns Mantle, dean of New York critics, said it "was one of the most satisfying theatrical adventures of the past decade", he voiced the sentiments of the entire critical fraternity.

Mr. Traube has directed the new production with the same lavish care bestowed on the New York company. Lemuel Ayers designed the scenery, and the lighting will again be taken care of by Feiler, Georgette McKee and Daisy Belmont will also be members of the cast in addition to the trio of featured players.

UNEMPLOYMENT IS ON DECREASE

New claims filed for unemployment compensation benefits during August in the Mansfield area, which includes Richland and Morrow counties, numbered 113 a reduction of 49.6%, compared with July. In the state the number of new claims filed dropped to 11,331 from 16,151 in July, a decrease of 30%.

Mr. C. W. Handley, Bureau of Unemployment Compensation deputy here, and manager of the Mansfield employment Security Center, said today that benefits in this area totaled \$20,978.21 during August as compared with \$26,704.30 in July. Benefit payments in the state dropped more than 9% from \$1,029,102 in July to \$922,764 in August.

Administrator Hershel C. Atkinson of the BUC was quoted by Mr. Handley as attributing the state-wide drop in the number of new claims filed and benefits paid out to the reduction in the number of workers unemployed as a result of conversion of industry to war production and to the steady demand for additional workers in war plants.

The average weekly number of persons receiving benefits in this area during August was 374. For the state, the number was 19,622. The average weekly benefit payment to totally unemployed workers in the area was \$13.03 as compared with the state average of \$12.52.

HOUSE and HOME

By MARY E. DAGUE
Author of Sister Mary's Kitchen

As we live and acquire we seem to need more and more storage space, and certain it is, we can't put things away if we don't have a place to put 'em.

Often in an old house an arched niche can be let into a wall, making open shelves just deep enough for small books and "objects of art". A larger and deeper cupboard can be made by cutting between the studs of the wall. The opening should be the right size to take the completely assembled cupboard. Occasionally the upper section is left entirely open with an interesting scrolled facing around the plaster.

Then of course you can always add a dining room and standing cupboards to a room without the benefit of a carpenter.

In a dining room a corner cupboard usually is divided in two sections; the upper part having glass doors and the lower closed ones. Frequently, drawers are set between the upper and lower sections. Occasionally the upper section is left entirely open with an interesting scrolled facing around the plaster.

If a corner cupboard is put in a bedroom for the storage of clothes drawers and the doors should be of solid wood panels. Choose a corner cupboard in a bedroom only as a last resort because they are not "roomy".

The success of the cupboard will depend largely upon its finish. The color and its furnishings will govern the style as well as the color of the shelves and linings. You can build one as plain as the color of the woodwork or you can buy one to match the furniture.

When it comes to closets, be sure to have a light put in every one. The height of the hooks is important, too. There should be a few in your own closet high enough to hang your long dresses and wraps. In the downstairs hall closet and in the children's own, the hooks must be low enough for them to reach. A shelf for hats should be put up for children as well as one for the grown-up members of the family. A shoe rack fastened on the closet side of the door will keep rubbers and galoshes off the floor. The closet is large enough to accommodate a set of low shelves, provide one for each child.

Add "labels" to your shopping list for your next trip to town. Then when you begin to put summer things away for the winter you'll be armed with the wherewithal for marking boxes so you'll know what's in them without opening them.

TROOP NEWS

Thirty-five fathers and sons had their share of fun last Sunday at Conger's Grove (rain and all).

The fathers routed the sons in the softball game by a score of 18-7. The sons finally gave in and walked off the field in the last half of the eighth inning.

Seems funny, but we didn't hear anyone mention a return game, nor were there any brags like we heard last week.

After the ball game supper was prepared. Everyone had plenty of food, after which many took hikes, played checkers, horse shoes and other games provided.

At a full session of the Green Bar Monday night at the home of our Scoutmaster, plans were laid for the next four months. Included in the program are 8 over-night camps, five or more hikes, two parties and other items. Plans for Scout Week next February were discussed. Emphasis will be placed during October on Firemanship, Pioneering and First Aid.

A scout hike to be held Saturday afternoon was announced by members of the Green Bar. Members of the Pine Tree and American Eagle Patrols are asked to meet at 4 p. m. in the scout rooms. A sandwich type hike will be used.

Commando raid was announced for next Monday night.

Don Ford, Troop Committee

man in charge of outdoor activities announced Monday that an overnite camp for Merit Badge Counselors and Troop Committees will be held Saturday, Oct. 10th.

Members are asked to bring all bedding and clothing and report at the scout rooms at 3 p. m. on the 10th.

The overnite camp will be held at Camp Avery Hand, Jr.

This will be the second one held, so let's make it a good one. There will be no cost.

See Don Ford for further details.

CUB NEWS

The first Parent Training meeting will be held Oct. 5th at 7:30 p. m., in the Lutheran annex. All parents of prospective Cubs are asked to be present. Mr. Don D. Monroy, Field Executive, will be in charge of the meeting.

DUCK SEASON OPENS ON SAT

Duck and goose hunting season begins on Sept. 26 in Ohio, instead of Oct. 1 as it did last year and runs to Dec. 4. Last year's closing date was Nov. 29.

This means that federal migratory bird hunting regulations for the 1942 season provide for ten extra days of shooting.

Pymatuning Reservoir and one-

quarter mile distant therefrom in any direction opens Oct. 15 and closes Dec. 23. Duck-hunting hours will run from sunrise to sunset, instead of from sunrise to 4 p. m. as formerly and legally killed birds may be possessed for 30 days after the close of the season, instead of 20 days.

The daily bag limit on ducks is 10 of all kinds with not more than one wood duck or more than three singly or in the aggregate of redheads and buffleheads (only three in the bag of each or both species combined). No one, more than one wood duck, nor more than six of either or both of redheads of buffleheads.

The daily bag limit on geese and brant is 2, but in addition of the more abundant blue geese may be taken in a day. If blue geese only are taken the daily bag limit is 5.

The possession limit on geese other than blue geese is 4 a day, but in addition, 2 blue geese are allowed and if only blue geese are taken the possession limit is 6. On the season's opening day the possession limit is the same as the daily bag limit.

Duck Increase Certain
Ducks Unlimited, an organization to restore Canadian duck nesting areas, reports that "a great increase in duck populations is now certain and this year's crop certainly tops the increase during the past two years; 1942 is the first summer during a decade that nature has given the ducks a break."

Joseph: An Example of Forgiveness. Lesson for September 27: Genesis 42:1-42:11.

Golden Text: Ephesians 4:32.

In the present lesson the writer is reminded of a touching scene he beheld as a boy—the reunion of a brother and a sister after a separation of 25 years. How blessed were the circumstances of life that brought them together again!

And how remarkable were the circumstances that brought Joseph and his brothers together in Egypt! The lesson caption indicates the forgiveness of Joseph as an important thing to be considered, and so it is. But Joseph stressed the providence of God—by which his father's family were to be sustained in Egypt. "God sent me before you," he told his brothers, "to preserve you a remnant in the earth."

The beautiful story, so simply told, is complete in itself—Joseph's revelation of himself to his brothers, his interpretation of the tragic work as the working out of God's providence, and his announcement that full provision would be made for them and for their father's household in Egypt.

Then Joseph "fell upon his brother Benjamin's neck, and kissed him, and he kissed his other brothers and wept upon them. And it is as if we talked today of a rose and affectionately can only be imagined.

The last two verses of the text tell of Jacob's settlement in Egypt, under Joseph and a friendly Pharaoh where they were destined to remain in peace until the day of a king "who knew not Joseph."

WOMEN IN THE NEWS

BY JANET COPLER

WOMAN of the Week: To free more men for active pilot duty the Army Transport Command has organized a new company, the Auxiliary Ferrying Squadron. Directing the WAFFS will be 29-year-old Mrs. Nancy Harzest, wife of Lieut. Col. Robert M. Love of the Transport Command. The daughter of a Hastings, Mich., doctor, Mrs. Love has been flying since she was 16 and has been a pilot in the United States and in commercial license in 1936.

GOING OVERSEAS: At the request of Lieut. Gen. Dwight D. Eisenhower, four company headquarters units of the WAAC will probably be sent to England this year. Meanwhile, bills introduced in congress at the recommendation of Secretary of War Stimson provide for pay raises for all members of the WAAC.

ONE IN FOUR: According to Paul V. McNutt, director of the War Manpower Commission, one out of every three housewives between the ages of 18 and 44 will, by the end of 1943, be employed outside the home in a war kind of work. He also said that one out of every six unemployed women probably will be similarly employed. In other words, about 5,000,000 more women must go to work.

IN AVIATION: Twelve stewardesses just graduated from the American Airlines training school will be the first to fly between the United States and Mexico when the new service is begun to Mexico City. All speak Spanish and are familiar with Latin American customs. Adeline Gray—in case you were wondering—did successfully complete the first test jump with a nylon parachute.

BY ALL MEANS: A recent WPB release repeats the information that the government does not expect you to give up any kitchen fats or greases you put to good and economical use. The figures issued by the WPA (4½ pounds for city dwellers and 2½ pounds for those living in the country) represent the amount of kitchen grease usually wasted in a year. But if you really need yours, by all means use it.

ENLISTS IN NAVY: Walter Grimmer, son of Mr. and Mrs. Albert Grimmer of Steubenville and formerly of Plymouth has enlisted in the Navy and expects to leave at an early date.

NAMED CHAPLAIN AT SANDUSKY HOME Rev. P. M. Holdeman, pastor of the United Brethren church at Doylestown and former chaplain of the state Veterans of Foreign Wars Association, has been appointed chaplain of the Ohio State Soldiers Home in Sandusky, effective Oct. 1, it was announced.

Mrs. Harriet Robinson gave an interesting account of the six weeks' western trip taken by her and her husband. Touching on the high lights of the trip and illustrating with pic-

tures she told of their trip to Yellowstone National Park, Wyo., of war conditions on the Pacific Coast, how the homes were arranged for blackouts; how the women dressed in uniforms were working in defense plants, and the big trees of California; a visit to the oil wells of Oklahoma, the Will Rogers Air Base at Oklahoma City, the birthplace of Will Rogers, 12 miles northwest of Claremore, and his tomb. The pleasant visit at the home of Mrs. Stanton and family, former residents of Plymouth, at Lubbock, Texas, and Carlsbad Caverns, and with many other interesting descriptions and after visiting in Seattle and North Puyallup, Warden, and Sheridan, Wyo., where they visited friends on a sheep and cattle ranch, and a stop-over with Mr. and Mrs. E. R. Johnston, they returned home.

"It happened this Summer" was the response to roll call. It was moved, seconded and carried that we give \$5.00 to the fund for Religious Education in the Plymouth school. The next meeting, Oct. 5, will be at the home of Mrs. Helen Miller on Sandusky street.

WAR JOB FOR CHILDREN

The plan for putting the 30,000,000 school children of this nation to work on the salvage campaign is apt to be the step which will make a big success out of a campaign which so far has been very disappointing in its results.

Our adult population has been made well aware of the nation's need for scrap and we realize that the winning of the war may depend on turning in enough scrap.

But when the enthusiasm of school children is injected into this campaign the whole attitude toward scrap is apt to change. If they can't do it any other way, the children will shame us into making that long-postponed scrap hunt.

If the plan for putting this job in the hands of school children is carried out intelligently—if they have goals to shoot at and awards for outstanding performance—there is little doubt that even those children who don't know what the war is all about will see the job is done in record time.

CUTTING DOWN ON DELIVERIES

Until the war is over, unusually fast delivery service by stores should no longer be looked upon as a sign of an outstanding merchant.

All stores which use delivery trucks have been ordered to conserve them to the limit, since there will be no more such trucks available until after the war.

The merchants of this town are trying to carry out this order to the best of their ability. But if one merchant, in his desire to serve his customers as well as possible, continues to carry on a "delivery as usual" service, others, who are making a greater effort to conserve their trucks, are in danger of having their business hurt.

In the last analysis, the conservation of store trucks lies in the hands of the housewives who trade with the stores. If all of the packages they can, to order for as many days as possible at a time when they want delivery service and to do their shopping with the idea of cutting down deliveries in mind, it will help necessary service to last longer.

THE CONQUEST OF FEAR

Unwarranted fear probably causes more distress than any other trait known to human beings. And the most distressing thing about fear is that so often it is not recognized as fear. If fear were wiped out, failure would come to few. This disastrous trait sometimes begins with early childhood and remains with one through life.

I picked up on the train what appeared to be an advertising pamphlet, but saw it was the magazine called "Talk" running an article entitled "Childhood Fears." It has much of real help and I quote it herewith:

"What can I do to help my child overcome his fear?" is perhaps the most common question that parents ask. Fears of the dark, of animals, of water, of imaginary creatures, are commonplace among children. . . habit.

"But children's fears are not bad habits, and each one has a basis which parents should try to understand.

"Psychologists have found that merely trying to talk the child out of his fears is of little avail. Help in acquiring skills, and the confidence that comes from them, they point out, are among the best means of dispelling fears that arise through a general sense of inadequacy.

"In combating specific fears, psychologists tell us, nothing is so effective as having the child come to grips with the situation that causes them. But this should be done by degrees and with the help of an older person in whom the child has confidence. . .

"Parents should avoid using a child's fears as a method of discipline or punishment. Nothing is so injurious to his mental health or his sense of security. The 'bad man' in the cellar may do mother temporary service at the cost of irreparable emotional injury to Johnny.

"If you want your child to grow up self-confident and self-reliant, don't play on his fears or wait for him to 'grow out of them. Help him to overcome them—now."

Here are some arresting sentences sifted from a letter sent by Carl Wallner of Fort Worth, Texas, to his oil and grease salesman.

"Please ask yourself these two questions: 1. What do I think about it? 2. What am I going to do about it?"

"As long as there is a margin between what you are and what you want to be, or ought to be, there is room for IMPROVEMENT and need for ACTION."

I felt sure you'd want to read it. After you have read it, why not ask yourself the above two questions.

ELECTION . . . opportunity

Let's stop bemoaning the fact that we have an election coming up. We're lucky to be having an election. In Germany, in Italy and even in many of our Allied nations it has been years since the people have had an opportunity to express their views through the democratic method of a national election. Even in England elections have been called off and the people haven't had a chance to vote since 1925.

Of course anyone in this country can see that the election prospects have, at times, seriously interfered with the most efficient execution of our war program. But that is no reason for us to let Hitler put even a temporary end to the working of the democratic process when we are fighting the war to protect that system of government.

We should all realize at the coming election as an opportunity to look over the records of our congressmen and re-elect some or replace them, depending upon whether they have proven themselves fit to be placed in a government which must solve the most complicated problems which have ever faced our nation.

FAVORS . . . inflation

It is true that many of our legislators, in seeking more or less attempted to do favors for their constituents at the expense of the rest of the nation.

The farm bloc has fought to boost the farmer's income by practically doubling farm price ceilings and, as a consequence, the cost of some foods has much as doubled during the past year.

Representatives from labor districts have done other things for the large labor vote, have interfered with efforts of increasing wages and outlawing strikes. As a consequence, strikes continue to be called in vital industries and wages continue to rise.

Any congressman who has given thought at all to the dangers of inflation realizes that increasing costs for necessities such as food, coupled with a policy of increasing wages to labor in proportion to the rise in the cost of living, is a sure-fire plan for bringing it on.

But because congressmen think in terms of possible votes instead of the national welfare is no reason for not having an election. In fact it is an excellent reason for having one—to give the voters a chance to elect a legislature that is not ruled by narrow, selfish considerations and will not support a PARTY . . . ability

Because this is not a presidential election year, ordinarily the vote would be light and in a large number of voters wouldn't bother to look into the records of the various candidates. There are, however, a few us, who have always voted the Republican or Democratic ticket, who are just as interested in the names nominated for "our party" and feel that we had exercised our rights as citizens.

But it is probably more important this year than in any other to get parties that the candidates do. Each candidate will again be faced on the walls of his own party and he will have to stand personally and whether he has the brains and the honesty to cope with significant legislative problems.

The new congress to not only be responsible for formulating the policies of our nation during this year, but the war should end before 1944, will have the responsibility of formulating a plan for peace to prevent future wars.

The whole future of this country will probably be in the hands of the new congress to be elected without a President up for office, it may prove to be the most important election of all time.

DECISIONS

It has always been a question whether a congressman's job is to express the opinion of his constituents or to take his own view of what the people want him to make decisions for them.

Recent developments in the science of measuring public opinion, however, have made it apparent that there might be a way for a congress if it was elected merely to speak the sentiments of the people.

But there is little doubt that during this war period and the adjustment period which follows, the congress must be made up of men who are content with electing men who would limit their work to speaking for us. We should not expect each candidate's qualifications in the light of his ability to guide us through one of the most critical periods in the history of the world.

The ability of the next congress to accept responsibility for the wrong men in November the consequences are frightening to contemplate.

MEN TEACHERS ENTERTAIN

Flash!!! If you know of any housewives who want to go on a vacation and need someone to come in and cook for awhile, tell them not to get in touch with our school. The school is very proud to claim such culinary experts as Messrs. Joseph, Nesbit, Spirk and Pittenger.

Last Friday night the men teachers entertained their families and the lady teachers at a picnic at Olivesburg state park. The menu consisted of fried ham and eggs (and were they ever delicious!), baked beans (just the way Mrs. Joseph would fix them), celery, carrots, pickles, tomatoes, buns, cookies and home made ice cream (that's something we won't forget for a while—how about the recipe, Mr. Nesbitt?)

Everyone certainly enjoyed the picnic and the lady teachers think they should do it more often.

Later in the afternoon a softball game enjoyed by those who, after the feast, were able to participate.

SENIOR CLASS NEWS

It's happened! News items like each year we come back there is one or two of our members missing. This year Bill Kepple and Junior Brown have decided to work rather than come to school. That leaves only fourteen in our class. But perhaps we will be like Napoleon 'small but mighty'.

We have elected the same officers as last year. They are as follows:

- President Moser
V. Pres. Paul Clark
Secy.-Treas. Helen Guthrie
Historian Mary Bob

We also have our old advisor, Mr. Spirk, back for an indefinite period which we hope will be all year.

Through the cooperation of all we hope to have as good, if not better, year than last year.

SENIOR ENGLISH CLUB

This year under the guidance of Miss Guild, our new English teacher, we have organized an English club at Shiloh. Officers were elected for the first month:

There are 42 of us in the class. This is the largest class we have had for quite a while.

Tuesday we all enjoyed a hike and a picnic in the woods.

MUSIC CLUB NEWS

The 7th, 8th and 9th grades have set mixed chorus together this year. They elected Jerlean Lykins as President, Howard Clark as the boys' librarian and Doris Garrett as the Girl's librarian.

BAND

All of you who attended the Huron-Shiloh football game last Friday saw Shiloh's marching band in action. The before-the-game color-marched and came back to do it another "Hi" and a large script "S".

During the half the band formed at the north end of the field, marched up the field, into a huge "Hi" which changed into an H during the playing of "Project". From this they marched up the field, and then returned and came back to do it another "Hi" and a large script "S".

THE SNOOPER!!!

What do you think of you see a young fellow and a cute girl going around school arm-in-arm? Or next to a regiments American which was played in this position. From that the front part went into the "S" again and the back into a "U" to form the initials of our country. From this formation we marched up the field.

We think a new fence should be constructed around the pipe-pen out at Hanesport. His dogs have an awful habit of getting out. How about it Bob? What was the little mistake Margy Benedict made in Chapel last Monday that made her blush and hide her head. Come on, Marge, give!

DRUMMER BOYS LOSE THEIR FIRST ONE

The Shiloh Drummer Boys opened their first football game last Friday evening against the strong Huron aggregation. With the exception of fumbles which were costly to the Drummer Boys, both teams played an outstanding game. The Drummer Boys were outweighed by 40 pounds per person. One of the outstanding plays was made by Paul Clark when he intercepted a forward pass and ran 25 yards for Shiloh. Bob Hamman converted for 2 extra points. Huron scored in the first part by a forward pass and a fumble by Shiloh in the 2nd. They were held scoreless in the following half and run netted them 2 touchdowns. They were unable to convert any points after the touchdown. The final score was Huron 12-Shiloh 8. Our next game will be played with Castalia on October 2-Be out to boost the team.

This is the time for suggestions. Constructive criticism will be welcomed. Speak now or "forever hold your peace" for another year.
