

Air Depot To Bear Name of the Late Capt. Elmer Parsel

Almost a year to the day he gave his life for his country, Capt. Elmer Parsel's bravery and daring was commemorated by the War Naming Board in selecting Parsel's name to officially designate the huge air base depot now under construction between Plymouth and Shelby.

The depot, which is one of the biggest projects of the war effort in this vicinity, was started shortly after the first of the year. It was through the efforts of Shelby and Plymouth business men and Congressman J. Harry McGregor, that attention was called to the Air Forces Naming Board that the project would be a fitting memory to one of the first men in Richland county to make the supreme sacrifice.

The Advertiser received the following telegram Monday evening from Cong. McGregor:

"Pleased to announce the Army Air Forces Supply Depot in Richland county has been designated by War Department as the Parsel Depot in honor of Capt. Elmer Parsel, War Loan Drive. Parsel, born and reared five miles from site of depot. He was killed in ac-

tion April 2, 1942, in the Far East air theatre. Graduate of Air Corps Advanced Flying School in 1937 and rated a pilot and aircraft observer and combat observer. Awarded Distinguished Flying Cross and the Purple Heart posthumously."

Parsel's father, who resides just south of Plymouth said: "Well, I certainly think it is fine that they should remember our boy in this way. It is a wonderful tribute."

The widow of Captain Parsel is member of the Women's Army Auxiliary Corps and is in a camp in Florida.

Plan Bond Drive For Plymouth

Plymouth is the only community in this section that is not organized to participate in the Second War Loan Drive. This news was made public this week when a representative of the Treasury Department out of Washington paid a personal visit here. As a result of the meeting, Messrs. H. James Root and P. W. Thomas were chosen to act as committeemen for the village; to organize teams and to be responsible for an active campaign.

Time being so short, it is impossible to contact those persons who are mentioned below, as team captains. The names were selected and the territory given, and it is hoped that Plymouth will have the full cooperation of the workers, and that the workers themselves will not try to alibi themselves out of helping.

In selecting captains and the territory for which they are responsible, the chairmen wish to state that it is realized that everyone is "usually busy"; but that it is also realized that it is essential to promote the sale of bonds as it is to carry a gun. Therefore, the chairmen ask the captains to take over the territory of workers in their respective territory.

The duties of the captains are: To meet with and solicit workers, who in turn will knock the doors of every home in Plymouth and give instructions as to the type and kind of bonds, and to make a report to the chairmen. With perfect cooperation the entire village can be canvassed in a week's time.

Here is a list of captains and the territory they are to serve: The Public Square: Chris Weber.

West Broadway and all streets west of the B. & O. track: Captains, Mrs. Dave Srafield and Mrs. Chas. Lookabaugh.

Plymouth Street, and all streets south of the Square, east of the railroad, but not including Trux street: Captains, Mrs. Roy Scott, and Mrs. Louis Gebert.

Trux street and Mills street: Captain, Mrs. Gertrude Miller. West Street, including Wood-lawn, Porter and Maple streets: Captains, Mrs. George Pickens, and Mrs. Grace Brown.

Sandusky street, including Dix street: Captains, Mrs. Ed. Curpen and Mrs. Helen Miller.

The captains are requested to call at the Advertiser Office where they will be given working kits and complete instructions. Plans should be made to start work Monday. There is every reason to believe that there are several thousand dollars in Plymouth that should be diverted into interest-paying bonds.

Remember, this war won't be won by those in Washington, nor will it be done completely by the men at the front's going to take some of your time, and your money—so let's do our part, and do the job right!

HELD TO JURY

Ivan Adkins, alias Murle Barnard, pleaded guilty in Mansfield municipal court Friday to a forgery charge and was bound over to the grand jury under \$1,500 bond. Adkins was taken into custody after passing a number of forged checks in Mansfield, Plymouth and Shiloh.

OF WORK

E. Beryl Miller has been absent from the Brown & Miller Hardware store due to illness. He has been sick since last Wednesday.

An Easter Message

BY REV. RICHARD C. WOLF

Former Pastor of the First Lutheran Church, Plymouth, Ohio

IN DAYS SUCH AS THESE we need the faith of a Peter, who cried from his heart, "Lord, ... thou hast the words of eternal life. And we believe and are sure that thou art that Christ, the Son of the living God." (John 6: 68-69). We need such a faith because in these days the urgency of eternity is hard upon us.

THE URGENCY OF ETERNITY is hard upon millions of young men, some of them our loved ones, who face each new day not knowing whether they shall live to see its end or not. It is this urgency which brings them over and over to their Chaplains with the plea, "Sirs, what must I do to be saved?" (Acts 16: 30). And back comes the reassuring reply, "Believe on the Lord Jesus Christ and thou shalt be saved." (Acts 16: 31).

THE URGENCY OF ETERNITY is hard upon us. We thought the future was ours; that tomorrow or the next day our world would live in peace and quiet, the gifts of education, science and international agreements. We said in our folly, "Soul, thou hast much goods laid up for many years; take these ease, eat, drink and be merry." (Luke 12: 19). Now suddenly our hope is gone. The future is no longer so certain. Living for today, tomorrow and the next day has proved a failure. We hear the voice of God, "This night thy soul shall be required of thee" (Luke 16: 26) and we stare down the dark corridor of eternity wondering

what lies in wait for us there.

ONLY JESUS CHRIST HAS ANY ANSWER for this urgency of eternity which presses us so hard. He alone brings us a promise for the future, "I am the resurrection and the life: he that believeth in me, though he were dead, yet shall he live: And whosoever liveth and believeth in me shall never die." (John 11: 25-26). This is no idle promise. It is a promise filled with the truth of that first Easter morning. It is a promise fulfilled in the words of the angel at the empty sepulchre, "Fear not ye: for I know that ye seek Jesus, which was crucified. He is not here: for he is risen, as he said." (Matthew 28: 5-6).

YEA, VERILY, IN DAYS SUCH AS THESE we need the assurance that "God so loved the world that he gave his only begotten son, that whosoever believeth in him should not perish but have everlasting life." (John 3: 16). We need the comfort of knowing that "As in Adam all die, even so in Christ shall all be made alive." (I Cor. 15: 13).

THUS, AND ONLY THUS, in days such as these shall we be able to sing triumphantly, "Death is swallowed up in victory. O death, where is thy sting? O grave, where is thy victory? ... But thanks be to God, which giveth us the victory through our Lord Jesus Christ." (I Cor. 15: 54-57).

THIS IS THE MESSAGE OF EASTER TO ALL WHO BELIEVE.

Easter In Our Churches

When the sunlight makes ribbons of beams through the stained-glass windows... and an unbroken hush fills the Church... until one deep and placid voice reaches out to speak an Easter message in Christ's name... a hallowed sense of patience and fortitude will come over you and you will be glad you came to Church for Easter Services. And all Plymouth churches welcome you at this Easter time. Special messages will be delivered, and joyous music will be sung. Below are the church notes from which you may select your choice, but go to Church this Easter Sunday.

At the Presbyterian Church on Friday evening at eight o'clock will be held in the Presbyterian church the annual Good-Friday Communion service. It is the custom to have the church lit up in part at least by candles. The Seven Words of the Cross will be the theme. Scripture reading, Hymns and special numbers with prayers and time for meditation will tend to make the service impressive.

Easter morning at 6:15 will be the Easter Sunrise Service directed by Mrs. Helen Sams. The theme is Immortality. Miss Muriel Walker will tell an Easter story. Mrs. Grace Miller will explain the picture of Mary Magdalene before Pilate and others will take part in this service.

Breakfast will be served at the close. This is free but a free will offering will be taken to meet the expenses.

At 11 a. m. the pastor will speak on the theme: The Easter Commission. New members will be given the right hand of fellowship and welcomed into the church. The choir has solos, trios and other selections to make the service appealing and uplifting.

Around the Square

(By Phineas Whittlesseed)

TO START THE column off right, we'd like to thank Rev. Richard C. Wolf, former pastor of the Lutheran church, for his splendid Easter message which is published in this issue. Rev. Wolf was invited to write the message on one of his visits here several months ago—and he never forgot. It pays to have a friend, one that you can count on. And we're certain that our readers will enjoy every word of this Easter message. Thank you, Rev. Wolf.

WHEN RICHLAND county chapter of the American Red Cross decided to furnish the recreation room at Camp Perry, Mrs. Mabel McFadden thought Plymouth would be interested in assisting—they were and through the efforts of Mrs. McFadden and a group of people to whom she presented the matter purchased a two-piece living room suit. Now when local boys sit on the wine colored davenport, then can feel right at home, for that is where it came from—home.

AND WHILE we're in the praising mood, it might be well for a few of our citizens, especially those in the 17th district, to write to Congressman Harry McGregor in Washington, and thank him for all his time and effort in getting the War Naming Board to consider the name of Capt. Elmer Parsel in naming the air depot near here. It is appreciated by the community, Congressman McGregor, and we are certain you will receive several notes to that effect.

SPRING PLOWING is well under way in this section, and it is trusted that nearby farmers won't take the Square by mistake for a plow field. The boys are gone, and business in general is pretty well under control, the old Square seems rather dead in the evenings. But to you guys who using the air depot brick pavement in Plymouth, we're sending a word of consolation. Those old bricks will keep, the old town, through the help of God, will bear some resemblance on your return as you left it—the people may change a little, but Plymouth will always be Plymouth, and we will welcome the day when you come back! This is just a little Easter message from us in a word to all of you—my two hundred boys that get the Advertiser each week—except when it has difficulty in getting through.

YES, YOU lads who are away this Easter will be remembered by the folks back home. They will go to church every week, but they will admit it publicly, I think there will be a more serious tone in their prayers this Easter Sunday.

I SOMETIMES wonder if, as a memorial to Christ, that God doesn't make the weather fit in with the Easter picture. Invariably, the week of Easter is cold, damp, gray—weather that bespeaks of sorrow. And then after Christ arises—there's new joy, new life—the sun shines, and everything seems so wonderful. At least that is the way I feel about it!

THE WAR is drawing closer to home as reports of our young men in service are released. This week, Mr. and Mrs. Ross Fallov of W. High street, have received word that their son, Fred, that it was from the airplane carrier The Hornet, that Major Jimmie Doolittle took off for his attack on Tokyo just one year ago. Fallov was chief petty officer of the Hornet.

THERE IS ALWAYS A FIRST time for everything and for the first time in Plymouth, the mail is being carried by a woman. Mrs. Oliver Tilton of Trux street substituted the first of the week for Harry Dick who has been ill. The P. O. has been handicapped with the delivery of mail. Since Kenneth Myers was inducted into the service, the mail has been carried by Harry Vandervort, also inducted into the service, by Harry Dick, and Wm. Johns... so guess it will be up to the women to see that the mail must go through.

THE 2ND WAR LOAN DRIVE IS ON!

Winner Take All!

There is one stark and simple fact about war which you had better get straight... and quickly, too
THERE IS NO SECOND PLACE IN A WAR—IT'S EITHER WIN OR LOSE!

This war is being fought for tremendous stakes...

- ... for your life and your liberty.
- ... for your church and your children.
- ... for your freedom and your future.

And it's **WINNER TAKE ALL**. Don't forget that for a minute.

The winner will dictate whether tomorrow you shall be a free citizen of a free world, or a helpless serf to a "master race."

The winner will dictate whether you shall live and prosper under the Four Freedoms, or toil hopelessly in the darkness of a "New Order."

The winner will dictate... because the winner takes all.

The winner takes all. All you own, all you hold dear.

The winner is being decided right now... today... this very minute... on battlefields all over the world. Will you stand idly by... or throw all your weight on our side?

The weight of mighty tanks and planes. The weight of thousands of guns and millions of shells. The weight of billions of dollars... 15 billions which your country asks you to lend during this Drive.

Your country wants to borrow every idle dollar you have—every dollar except what you need for the barest necessities of life.

You'll have to give up some luxury or comfort which was dear to your heart. You'll have to postpone some pleasure which you had been eagerly anticipating.

But what of it? Your sons and brothers and husbands are dying out there... fighting your fight. Surely it is no sacrifice to lend your dollars while they are giving their lives.

They need your help. They need the weapons your money can buy. If one of the War Loan volunteers calls on you... greet him with open pocket-book. Remember, Uncle Sam's goal is 13 billion dollars in April.

Don't wait to be asked. Go to your nearest bank, investment dealer, broker, Post Office or issuing agency and lay your money on the line. Remember, it's an investment you're making—an investment that pays a good return and insures a happier future for you and your loved ones.

So lend up to the limit. You'll sleep better for it.

TODAY and TOMORROW

ENEMY . . . sergeants

A number of the older group of about-to-be-dead men with whom I have talked are much more worried about their contact with our own army than they are about meeting the armies of our enemies. There are plenty of them who are eager to get their hands on a German or a Jap, but they stay awake nights dreading the preliminary ordeal of being pushed around by a hard-boiled United States sergeant. These men, many of whom have reached a stage in life where they ordinarily give orders, where they have considerable authority and where their personal interests are consulted by their superiors, rebel against the idea of suddenly being stripped of their civilian rank and returning to an office-boy status in the army.

Reports from those already in uniform don't add much comfort. Some find that they can acclimate themselves to the "new order" but the majority suffer from severe spells of disciplineitis. One of them summed up what I believe is the feeling of many when he wrote me, "Until I see a German uniform, I am afraid I shall continue to picture the enemy as a guy wearing sergeant's stripes."

DISCIPLINE . . . newcomers

I don't suppose there is an entirely satisfactory remedy for this situation. When the army must be added to at the rate of 300,000 new soldiers a month, we can't expect that the personal attitudes of each man can be given too much consideration.

But, looking at it from sidelines, it would seem to me that the substitute might be found for the old-fashioned type of army discipline. I suppose that the regular army men who have been through the mill, might have some objections to making things too pleasant for the new-comers, but since our army will be 85 per cent new-comers by the time there are only 157,886 men in our regular army plus about 120,000 reserves and 200,000 National Guardsmen. At the end of this year there may be 10,000,000 men in khaki. Those 9,500,000 new men joining the army help to dilute this war and have no thought of making the army a career. They want to learn whatever it is necessary for them to learn to fight to the best of their ability. It seems quite possible that this training could be best administered by officers who are encouraging, helpful and respected without the assistance of sergeants who sneer, bellow and glare.

DIFFICULTIES . . . 38

The army has released a number of men who are over 38 years old because it has found it difficult to mix them into the army's melting pot. Some have been unable to stand the gait and others have been too insistent about hanging on to their individuality. But if these men are healthy and able to pass the army physical examinations, they might well be of greater service to the army than some of the younger men who lack maturity of judgment and experience. Perhaps they should be trained separately from the younger men and trained for work which is not quite as strenuous as that done by the boys of 20, but certainly there is no reason why healthy men under 45 can't be of real use to their country in the armed forces.

But the army can't handle this group under its present training methods. It would seem wiser to develop methods rather than to get rid of the men. If the war lasts as long as some people think it will, a lot of men over 38 will be needed, and the army ought to work out now how it can make good soldiers of them if necessary. My first recommendation is to put them under sergeants who don't grovel.

SENIOR CLASS NEWS

Hello, what's this coming on the stage? Oh, my mistake, I thought it was a ragbag for the little Judy. She is the little clodhopper from the poorhouse—a merry, trusting, innocent, mischievous, little romp. The part is played by Eleanor Garrett.

Why does Mrs. Chiggeron-Boggs want to adopt her? Is Judy an heiress? To find the answer to these questions and to enjoy yourself plan to see "The Little Clodhopper" which will be presented by the senior class, April 30th.

CHAPEL NEWS

The chapel program for Monday, April 19, was in charge of the Home-ec classes. After the reading of the Easter story from the Bible by Mabel Malone a clever pantomime describing the "Do's" and "Don'ts" of family life was given by the second year Home-ec class. Mary Benedict gave the poem "Trees" after which Jeanne Wieler sang "The Things I Love". Piano solos were played by both Doris Brook and

MUSICAL GIVEN

Although the attendance was low for the musical which was held at the school last Saturday night, everyone present enjoyed the program. There were enjoyed by the high school mixed choir, the junior high girls ensemble, and a cornet duet by Mabel Malone and Howard Clark. This was the first program of its kind to be presented here for some time and we hope to have more later.

Misses Annajean, Jennie and Evelyn Newjeyer, and Mr. and Mrs. John Newjeyer and daughter spent Sunday afternoon with Mrs. Wm. Newjeyer, Sr. Cell.

Mr. and Mrs. Ray Curpen and Mrs. Mrs. Harvey Pagel and daughters of Plymouth, spent Sunday with her parents, Mr. and Mrs. Ray Curpen.

CHAPTER I Somebody was knocking at the door of the Principal's house. The bumps came in waves from well-seasoned oak to the stones of the walls and to the quiet air inside the hall. The stones took the sound in and gave none of it out, putting it secretly away into the silence where they kept the best sounds which had throbbed against them for the last hundred years.

He laid the magazine aside and ran all the way down the two right stairs to the front door. Yet there was no need for haste. Everybody in Clifford knew that old Mrs. Anderson's cough should help ever in the Principal's house, did her work between breakfast and eleven, never twice in the afternoon, that Mrs. Henry, the Professor's aunt, heard nothing—

When he reached the lower hall and saw young Elt Kemp through the glass in the door, he stopped short. Mr. Hulme lifted the latch, opened the door, and said, "What an awful day!"

El transferred his attentive gaze to the girl, who asked, "Have you found out yet whether that thing I sold you saves gas?"

"Oh, no, El, that's not the trouble at all. I've just been told that you've got your own car, getting things ready for school to open. I've been sunk in work lately, and I haven't had time to get this very afternoon the Domestic Science teacher telegraphed that she had resigned her position, coming back to teach. You must know there's a lot for me to do at this time."

"Do you know what your mileage is now?" inquired the boy searchingly. "Because if you know, can you tell whether it'll give you more?"

"It get fifteen to the gallon," Mr. Hulme affirmed roundly. "The grave young face before him, who had been so earnestly studying, a tangled web of inconsistent relations had grown up between the town and the tax-supported secondary school and the tax-supported primary schools which were part of the same system. By articles of Incorporation of the Academy, its three Trustees were elected by the town of Huron. The town officials had no authority over them once they were elected. They were not to upkeep the school, but to take care of the school, and by tradition was bound to appropriate money at town meeting to the upkeep of the school walls, and foundation of the Academy, but not for repairs on the interior of the building."

The result, in fact, of this perfectly natural division in authority was that the town of Huron, as far as the primary school went, was obliged to do what he could with the money he had, and knew nothing about. This girl would probably be no worse as a teacher than any other. His lack of enthusiasm over Mrs. Washburn's news came from his own mind, not from any other source. Local tradition, he knew, saw nothing amiss in it. But he had seen the people who proved because homework took time and energy needed by teaching, and he had seen the people who were not to see members of it waiting on tables and washing dishes. He had seen the people who were not to see members of it waiting on tables and washing dishes. He had seen the people who were not to see members of it waiting on tables and washing dishes.

"It's just Jim," he assured her. Recognition and relief flashed for her, she deeply sunken, dark eyes. She relaxed, passed her hand over her eyes. "Oh, yes, Jim. Of course. Supper time? I'm ready in a wink. So pronounced it. She was to work on her board."

"They made slow work of the descent, getting both her feet on the stairs before she was down. The next one, because of that right knee that could now scarcely bend at all, she was to work on her board. She was to work on her board. She was to work on her board."

He thought and selecting words to use, he said, "You control the one of pleasant contentment, said to Miss Peck as he rose from his chair. "Well, you know, that God will have a good kitchen range waiting for you in heaven."

For his cramped old lady to go in. Looking at her as she passed, he thought somewhat wreatly he should have found a cleaner collar for her.

There were not many at the table that evening. It was a circle now, just large enough for the four over which Mrs. Peck was presiding—Professor Hulme and his aunt, Mr. Sherwin Dewey and his wife, and Mrs. Washburn.

Mr. Hulme and old Mrs. Henry came in to the dining room, Mrs. Washburn was pouring the tea, Miss Peck held her broad silver serving knife suspended above a well-browned steak. A heavenly aroma of savoriness filled the air. Mr. Hulme hastily seated his aunt, sat down himself and watched his napkin out of its ring.

Mrs. Dewey was the oldest of the Trustees, and the only resident one. Mr. Hulme drew out of his pocket the letter of resignation from the unexpectedly married Domestic Science teacher, and while Mr. Dewey glanced at it, he confessed that he had never proposed he should, should be a teacher's agency to find some one to replace her.

Mrs. Washburn remembered with an exclamation that she had some news to tell, real news. Miss Peck had decided which girl she would take in this winter to work for her board—not, as usual, an Academy student, but one of the teachers in the primary school.

Susan Barney, her name was, Mr. Hulme had shaken her head. She had gone through the Normal School at Burlington, and since her return she had been teaching at Churchman's Road, that forlorn District School where the Searies had their headquarters.

In Clifford, during the last century, as in many Vermont towns with its scattered and its students, a tangled web of inconsistent relations had grown up between the town and the tax-supported secondary school and the tax-supported primary schools which were part of the same system.

By articles of Incorporation of the Academy, its three Trustees were elected by the town of Huron. The town officials had no authority over them once they were elected. They were not to upkeep the school, but to take care of the school, and by tradition was bound to appropriate money at town meeting to the upkeep of the school walls, and foundation of the Academy, but not for repairs on the interior of the building."

illusion of safety, power, and success. A stranger was mounting the front steps, an embarrassed middle-aged workman. He came to an uneasy halt halfway up and would to know what it all meant.

He was the Principal. He had graduated from Simmons and had been teaching for ten years at a Massachusetts high school only she'd had appendicitis this summer and was in hospital. He'd never work where the classes were large—"My name's Lane. Johnny Lane," he worked the chair factor in Ashley."

Mr. Hulme said yet that was so. "My sister's out here in the car," his interlocutor now said dubiously, as if apologizing for being pushing. "Ah, that's all right," Mr. Hulme alertly. "Just wait a moment, Aunt Lavinia. As he walked towards the car, he saw his mind rigorously to the prosaic work of using his professional experience to read perceptions through the camouflage of looks."

It was easy reading. There was no camouflage. Stout, forty plain, tailored, eyeglassed, self-respecting—successful experience has written its not-to-be-imitated symbols all over her. SUMMER DRIVING

According to reports from Washington, gasoline shipments to the east are now higher than they have been for many months and the number of tires to be available to automobile drivers will be several times as great this year. These reports are apt to make some of us think that driving restrictions will be relaxed this summer. But it hardly seems reasonable to suppose that this will be the case. The extra tires are undoubtedly being released to make sure that war workers will be able to continue to get to their jobs.

And as for gasoline and oil—that still is a major transportation problem. The increased flow would have to be several times what it is today before there could be much relaxation of rationing in the east.

Most important, however, is the fact that the manpower used for making synthetic rubber and for transporting fuel would be transferred to other industries before men would be permitted to supply fuel and tires for luxury driving.

CHOICE OF 'FRONTS'

It has never seemed quite right to use the threat of induction into the army as a means of getting men in unnecessary jobs to transfer to war industries. It is sort of like saying, "If you don't change jobs we'll make you fight for your country."

But actually the War Manpower Commission is merely giving these men a choice as to what way they would prefer to fight for their country and is recognizing the fact that fighting on the war production front, or on the food front, is just as important to the winning of the war as fighting.

There are, of course, great advantages from the viewpoints of personal income and personal safety to fighting in American factories or on American farms as compared with foreign battle fronts. That's why most of us feel that the men in uniform belong on a higher pedestal than those in overalls. But if the farmers and factory workers will fight just as hard at their jobs as do the men who are handling the shooting, they will be deserving of equal credit when victory comes.

'SPADE WORK' TAKES PATIENCE

A furniture salesman in Lynn, Mass., was troubled with insomnia. Night after night he tossed on his pillow; couldn't sleep.

One night an idea hit him, a simple idea; that there must be thousands of people in the United States who were having the same trouble he was. If he could help them he not only would be doing a great service, but he might also make some money.

The more he thought about the idea, the better it seemed. But he resolved not to go off half-cocked. He would look ahead and plan. He decided to open a shop for articles to induce sleep and he would not include medicines or sleep sedatives.

His name was Norman Dine.

Here's the way he put over his idea, an example of what thought and careful planning will accomplish. First he resolved to learn all about sleep that he could, and so he came to New York and took special courses dealing with psychology and physiology at Columbia university.

His next step was to call on manufacturers of beds and bedside lights, and ask them to co-operate with him in opening a "sleep shop," where nothing would be sold which did not have to do with sleep. The manufacturers stared at him: Must be crazy. Their answer was "No."

He still believed his idea sound, and that he had an appeal to human need that was deep and fundamental. He then went to the biggest department store in New York and asked them to allot him space for a "sleep shop." Again the answer was "No."

He went to another department store. Same result. In fact eleven department stores turned down his idea.

He peddled his idea for two years, then a specialty store spoke the encouraging word of three letters. He opened his shop with 75 items in it.

I visited it seven years later and how many sleep-wooders do you think he had? Six hundred! One was called a "lullaphone," an electrical contraption which hums drowsily, somewhat similar to a radio tuned to its lowest tone.

Most people fail in putting over their ideas: 1. Because they don't prepare thoroughly. 2. Because they allow themselves to become discouraged before the "spade work" is completed. And most new ideas require a lot of digging in.

FISHER SETS UP LIQUOR ZONES

PLYMOUTH VILLAGE AGAIN GETS IT IN NECK FOR BEING ON COUNTY LINE.

Liquor Director, Don Fisher, on Tuesday announced boundaries in the zones to be served by each state retail liquor store and agency in Ohio. The zoning of the stores in Ohio is the second step in the rationing of liquor to individuals, which is soon to go into effect in the state.

State liquor store zonings by cities and the area served included:

Shelby store will serve the area of Plymouth, Cass, Jackson, Sharon townships (Richland county), except the village of Plymouth.

The Willard agency will serve the area of the corporation of Plymouth in Richland county, also Richmond and New Haven townships of Huron county.

Mansfield store will serve the area of the entire county (Richland) except Worthington, Cass, Plymouth, Sharon and Jackson townships.

With the greater part of the population of Plymouth being in Richland county, and a majority of citizens passing through Shelby more often than Willard, Plymouth again suffers from being split up by a county line. Almost in every instance the division of the town has become confusing, especially with the rationing program, and many other rules and regulations by which the subdivision is affected.

Local People Give Blood To Red Cross

Richland countians exceeded their blood donor quota for the past week by 13 pints, according to Red Cross officials in Mansfield.

Among those from Plymouth who contributed last Thursday were five women and five men. Those who contributed were Mrs. Roy Johnson, Mrs. William Hough, Mrs. Vic Munn, Mrs. A. W. Bartholomew and Mrs. C. C. Darling. The men listed were Harold C. Adams, Harold Slaver, Madison Fitch, Harold Lippus and Arthur Weaver.

The need is still great and anyone in Plymouth or community who is willing to give a pint of blood may register with Mrs. Mabel McFadden, chairman. Mrs. McFadden is doing this work gratis and will appreciate it if donors will come to her rather than make her hunt up new registrations. Also, if an appointment has to be cancelled, it will assist greatly if sufficient time is allowed to call for new donors. The unit comes to Mansfield periodically, and every minute is being counted for if the quota is reached.

Local Boy Honored

A Letter Received by Harry Guthrie from Commanding Officer, Recognizes Son's Work.

Because of special aptitude, your son has been selected for advance training at the Naval Air Engineering Center Navy Pier, Chicago, Ill. During the twenty-one weeks he is here, he will receive specialized training that will qualify him as an aviation machinist mate, third class. We are happy to have him here, and the purpose of this letter is to assure you that we are intensely interested in giving him this valuable advanced training. Upon completion of the courses here, your son, not only will receive a promotion and increase in pay, but will be extremely useful when he returns to civilian life. As his commanding officer may I make the following suggestions: By keeping up correspondence with your son, even if it is only a weekly post card or one hometown paper a week, you can do much to keep up his morale. Secondly, as you can feel justly proud of your boy's achievements, tell your neighbors so that their sons can be given the same opportunity to help their country and themselves.

Please feel free to write us for any further information you may desire concerning your son or his progress. Very truly yours, E. A. WOLLESON, Captain U. S. Navy (Ret.) Commanding Officer.

Pfc Earl Huston and Miss Edith West spent a couple of days at the home of the latter's parents in Belmont.

ABOUT OUR SOLDIER BOYS

(Change of Address) James F. Mock, 501 N. N. S. School, Class 10, N. S., Pensacola, Fla. U. S. Navy.

(Change of Address) PFC Joseph E. Mock, Headquarters Section, 1580 th Street, Unit, Camp Campbell, Ky. U. S. Army. Did you notice Joe has been promoted? He is typing in liberty

headquarters. He has one strenuous day each week. On that day after their morning calisthenics, they are taken to a large field and doubled timed around it for five or six times. In a letter to home folks he says: "Mother, that means running." The exercise is followed by a five mile hike in the afternoon of the same day.

And he says again, "I am so tired that I don't know whether I'm walking or standing, but we get a lot of fun out of it." "Joe," said the change of address folks, "will make the best of everything. He'll absorb the best out of his army life, because he isn't the kind that will complain or find fault."

It's now Lt. Theodore Patterson. He received his commission when he graduated on Saturday from the Aberdeen Training School in Maryland. The Lieutenant and Mrs. Patterson spent Sunday at the home of his mother, Mrs. R. W. Patterson. He is at his home in Mansfield on a 10-day furlough. Also present were Paul Ruckman and son, David, joined the family group for dinner Sunday.

Corp. Harlow Kendig and his Army pals and friends, Sgt. Junior Roberts and Pfc. Jack Stults, left Tuesday soon from Willard for Yuma, Ariz. The three left for the army seven months ago. The boys were on a 10-day furlough.

Harlow completely surprised his parents when he and his wife, who lives with her parents in Norwalk, came to the home of Mr. and Mrs. Harley Kendig after their 10-day furlough. But it was a happy surprise for the Kendigs, and several meetings together of the families, and visits to relatives made the time pass so swiftly.

Robert Garn, son of Mr. and Mrs. Clyde Garn, will enter the Naval Reserves soon.

During his 36 hours' leave the last weekend, Harold Russell enjoyed a visit with his mother over the wires.

The promotion of Gen. Henry H. Arnold to the grade of full four-star general puts the official stamp of approval on his achievements as commander-in-chief of our fast-growing and virtually autonomous army air forces.

For years General Arnold picked court martial and public reprimand by his outspoken insistence on a separate air command. Although he has said less in recent years about autonomy, he has succeeded in making the army air forces indispensable, if not actually supreme among our fighting forces.

Although, at 56, General Arnold is no longer permitted to fly an army plane, he maintains the same keen interest in flying he displayed when, as young lieutenant, "Happy" Arnold learned in 1911 to fly in the second plane the Wright brothers sold to the army. And he still has the smile that won him the nickname "Happy."

LETTERS FROM OUR BOYS IN THE SERVICE

April 7, 1943
 To My Friend Tommy:
 Just a few lines, my friend, to let you know that I have received two Advertisers in the past month and boy, I sure did think they looked swell when I received them. It was the first news from around Plymouth since I have been over seas and that's quite a long time as you already know. I have had some very nice surprises in the last couple of weeks. I can't tell any bad luck, but I can tell the things that make a man feel good. I got most of my Christmas parcels just lately, and most of it was in good condition. I never expected to get any more because it was sent last October and some of it before then. Anyway all in all I want to thank you very much for the paper, and I only hope I get some more of them.

PAUL ROOT WELL SAFE
 Letters received this week from P/O Paul Root, somewhere in Australia, state he is well and safe. Because of strict censorship, little can be told of location or what they are doing, but even the most meager news is welcome news when it tells of safety. He is just now beginning to receive mail and mail in the lives of our soldier boys does make a difference.
