SHELBY SOLDIER GIVEN PURPLE HEART

Word has been received in Shelby that Herman E. Talbott second class petty officer in the U. S. Navy, has received the Purple Heart medal. The medal was awarded because of an injury sustained as a result of enemy action in the South Pacific area on August 7, 1942, while he was aboard the transport ship, the U. S. S. Albatross.

Mr. Talbott is the son of Mr. and Mrs. Edward Talbott, 411 Scott street, Crestline, and the son-in-law of Mr. and Mrs. Arthur Owens, 17 Second street, Shelby.

His wife, formerly Miss Eileen Owens, makes her home in Shelby and has many Plymouth friends.

DAMAGE SUIT ASKS \$20,000

MRS. OTIS MOORE SUES IN
MISHAP DEATH OF LATE
OTIS E. MOORE

A \$20,000 damage suit has been filed in common pleas court, Mansfield, by Pauline Moore, administratrix of the estate of Otis Ervin Moore, deceased, against Fred Grafmiller.

Mrs. Moore charges Grafmiller with negligent operation of a truck that caused the death of her husband. In her petition she states that Moore was street commissioner in Plymouth and Grafmiller was employed by the village street department.

She charges that on Feb. 24, 1942, when Grafmiller was operating a truck on one of the street department jobs, Moore gave him instructions to drive the truck ahead. Instead of following or obeying and without giving a signal of his intention, Grafmiller backed the truck against a building and against Moore with such force as to cause his death, the petition states.

BOYD HAMMAN TO QUIT FARM

Monday, Sept. 6 will be a big day in this community, so far as farm sales are concerned. For on this date, Boyd Hamman, well-known hog breeder in this section, who resides on Route 179, a mile and a half east of Shiloh, will auction off 65 pure bred Spotted Poland China Hogs.

Mr. Hamman, who has been a breeder, states that it isn't a very patriotic thing to do right now, but the lack of help, and the condition of his health, forces him to give up farming. Mr. Hamman, as a breeder of Spotted Poland China Hogs, has enjoyed a real success since his entry into this field in 1915. He has sold hundreds of hogs to out-of-state buyers, and the coming sale will attract many buyers from Indiana, Illinois and other states.

Mr. Hamman is also disposing of two farms, and his entire line of farm equipment.

It is regretted that the community will lose Mr. Hamman as a farmer, but it is gratifying to know that he intends to make the community his home.

Mrs. George Herz is a patient at the Shelby Memorial hospital for observation.

B-C COUPONS INVALID AUG. 31

The recent ruling of the Office of Price Administration that old style "B" and "C" coupons would become invalid at midnight on Aug. 31st will be of immediate concern to several thousand Huron county motorists. The obsolete coupons have a great deal of printing on the face and read "Good for One Unit". The new coupons have a large letter "B" or "C" and the words "Mileage Ration" on the face. This is plenty of blank space which is to be used in writing in the state of registration and license number.

Renewal applications have been distributed to all filling stations and motorists whose supplemental ration expires in September and October should file renewals at once, enclosing their unexpired ration books and tire inspection records with their applications. This can be done by mail and the board can give better service to mail applications than by personal calls because it is necessary that each renewal be checked against old applications in file. The board will check each renewal on a three-month basis from date of application.

ATTEND RITES

Funeral services were held Thursday at Adrian, Mich. for Mabin Shorthouse, 75, who passed away the preceding Tuesday from a heart attack. Burial was made in Palmyra, Mich.

The deceased is survived by his widow, 5 sons, 1 brother Kennon of Greenwich and 8 grandchildren.

Mr. and Mrs. Clem McDougal of Plymouth and Mr. and Mrs. Roy Shorthouse of Shiloh attended the services. Enroute home they stopped at Fostoria and called on an aunt, Mrs. Eva Smith.

GREENWICH SOLDIER WOUNDED IN ACTION

The War Department released today the name of U. S. soldiers wounded in action in the European, North African, Pacific and Southwest Pacific areas.

Around the Square

(By Phineas Whittlesseed)

ONE OF the best stories we have heard recently was revealed Tuesday when a member of the local Scout organization brought this one out:

"I was helping the Scouts at the picnic, recently held at the local park. I had been digging up ice cream cones, and I saw a very interested youngster, about three years old, staring continuously at every move. Finally, asked him what he wanted. He replied: 'An ice cream cone.' Then I asked him if he had a nickel. The youngster nodded his head, indicating that he did have one. So I gave him the cone. He stood by the counter and ate it, seemingly enjoying every bite. When he had finished the cone the little fellow still stood around. I had intended to pay for the cone myself, said the story teller, but just for fun I asked the lad if he had his nickel for the cone. When I broke his tranquility with the question, the little fellow stood in a most dismayed manner, exclaiming: 'No pocket!' It is needless to say that the youngster's mother came rushing up in an embarrassed manner and paid for the cone.

JEAN DERR is progressing very good as a clerk at Jerr's Market. She can now tell the difference between veal cutlets and pork chops. We haven't seen her for a long while so we could make the same mistake by calling both of them hamburger.

FROM THE way George Eby handled the hedge clippers on Monday afternoon we think they were electrically operated.

CHICKEN THIEVES are beginning to show a little activity in these parts. We're told that several hauls have been made this season in this vicinity. Wise farmers either cut up nights with a shotgun in hand, or secure a vicious and active watch dog. MONDAY afternoon was a lucky day for Marshal Clay Hulbert, who later in the night, on a patrol car, looked down and picked up a \$1.00 bill. It wasn't mine, for it's been ages since we've had a dollar to lose. At any rate, Clay, it's free chawin' terbacery for you this week.

COINCIDENCE still happen... even in Plymouth. For months as I checked over the mailing list each week, I'd come across the name: 'James A. Smith, Kingsport, Tenn.' I often wondered who this subscriber might be, and what interest Plymouth held for him. I couldn't place the name in Plymouth, Shiloh or surrounding community. So I gave up trying to figure out why Mr. Smith wanted The Advertiser.

TUESDAY afternoon I stepped into Christy's place to buy a couple of cigars. Wilbur Keeler was handling me my change when an old sliver-eyed handson man of around 40, stepped up, and inquired if any one was in the office, to which I answered yes. I didn't recognize him until I asked his name, to which he replied, 'John A. Smith, Kingsport, Tenn.'

I WASN'T long asking questions, and a foot on the mailing list was born near New London, and went to school there. For six years he was employed with Mr. Sutphin of the Citizens Electric in Shelby, and then Construction Co. The Root-Heath Co. in Shelby. Mr. Smith stated he always liked it here, and enjoyed working at the shop where he made many acquaintances. He married a Shiloh girl, they have two little daughters. They are now at Kingsport, Tenn., where Mr. Smith is employed by the Prazier-Baker Construction Co. 'Daddy Smith is a little perplexed over the fact that his two little girls are taking on that southern drawl, and he says you should hear them say: 'You all...'

IT'S a pleasure in knowing personally all our subscribers, and there are more with whom we'd like to get acquainted, and we'd like to get you out the kind of paper YOU ALL like.

35 MILES PER HOUR

Studies based on 2,000,000 miles of automobile driving, recently completed by the Public Roads administration, leave no doubt that speeding is the greatest single factor in wearing out tires.

The tests were made on all types of roads under many different conditions with this result: Tires wear out four times as fast at 65 miles per hour as they do at 35 miles per hour.

Although it is not assumed that the average driver travels normally at a speed of 65 miles per hour, those making the study figured out that if all of us would limit our speed to "not over 35" the life of the average tire would be prolonged for 6,000 to 8,000 miles.

Next to speed, the greatest harm to tires was found to come from stop and go driving, which often cannot be avoided. It was found that normal city driving used up tires seven times as fast as driving on rural pavements at 25 miles per hour.

Other major causes of tire wear were: quick starting, quick braking, speeding on curves, poorly inflated tires, heavy loads. And here's a tip: your tires last twice as long on wet pavements. So maybe we should all try to stay home when the sun is shining and do our driving in a nice hard rain.

DRAFTING FATHERS

All married men with children have recently been asked to fill in a Selective Service questionnaire regarding their family status so that the Selective Service board can reclassify them.

Those men who are not in essential industries and who are under 35 years old will be reclassified as I-A. But this does not mean that they will be called immediately.

On the questionnaire are a number of questions about family income and means of support. This information is required in order to aid the draft board in deferring those fathers whose families would suffer unduly hardship if their contribution to the war effort were cut off.

At present, it seems improbable that many fathers will be drafted before the end of 1943. The heads of the Selective Service system, in spite of the new ruling to permit drafting men with children, are still determined to postpone this action as long as possible.

SALE CARNEGIE How to Win Friends and Influence People

PLAY UP OTHER'S GOOD QUALITIES

Before Mr. Henry J. Book became manager of an Ohio coal and ice company, he was given the job of collecting from a man who simply wouldn't pay.

Mr. Book told the man the company had ordered him to collect and said he would have to ask for immediate settlement. The man let off an explosion equal to Old Faithful Geyser in Yellowstone National Park.

Whereupon words were tossed back and forth like hot rivets on the steelwork of a skyscraper. The man ordered Mr. Book out of his office.

Then, a short time afterward, the company ordered Mr. Book to go back and collect. He tried to dodge the assignment, couldn't. And he knew there was no way under the sun to collect.

Mr. Book did some thinking. Finally he said, "Instead of fighting him, why not appeal to his feeling of importance?" The man had done some fine things for the town, and was important there.

Mr. Book went to see the man again and found him waiting to pounce. But instead of demanding the money, Mr. Book spoke pleasantly and told the man that another of the town's prominent citizens had just died.

An entirely different mood was established. When Mr. Book rose to go, the man said, "You'll hear from me soon."

Three days later he sent his check for the amount and ordered and paid for three loads of coal in advance.

People crave a feeling of importance. If you will only stop a moment and think about the other fellow, you will find many traits and qualities you can honestly and sincerely praise.

THE OLD JUDGE SAYS...

"Anything new, Bert, on that black market trial up at the county seat?"
"The jury came in 'bout an hour ago, Judge. The verdict was 'guilty; I understand the sentence is going to be a mighty stiff one."

illegally instead of legally in this country. Just like the bootleggers did during the 14 years when liquor was sold illegally instead of legally.
"Unless this black market in meat and other commodities is stamped out and stamped out quickly, Bert, we're in for another dose of the crime, corruption and lawlessness we had following the last World War."

NEW HUNTING LICENSES ARE BEING DISTRIBUTED TO AGENTS

The deadline for the use of the 1942 hunting licenses rapidly approaching, August 31, and with the squirrel season opening in September, the Ohio Division of Conservation and Natural Resources had completed the shipment of about half of the licenses normally sold by Ohio license dealers.

and Hungarian partridge and ruffed grouse seasons extending through December 4 and the rabbit season continuing through Jan. 11. Resident licenses for hunting are \$1, plus the 25 cent agency fee, while the non-resident license costs \$15, plus the same fee. Ohio's normal license scale is between \$60,000 and \$600,000. Figures recently announced show that for the year ending June 30, 1942, Ohio moved into third place in the sale of hunting licenses, when a total of 614,106 nirobirds were licensed.

The squirrel season will open in the southern half of the state September 15 and in the northern zone September 22, closing in both zones September 30. The bird and rabbit season will open November 19, with the pheasant

and squirrel season opening in September, the Ohio Division of Conservation and Natural Resources had completed the shipment of about half of the licenses normally sold by Ohio license dealers.

CUBS PLAY MANSFIELD

One of the most interesting and hard-fought soft ball games of the season was played at the ball park, Tuesday evening, Aug. 24, when the Mansfield Cub Scouts played a return game with the Plymouth Cub Scouts, the Plymouth Cubs losing by a narrow margin. The final score was—Mansfield 10, Plymouth 9.

The line-up for Plymouth was as follows: Richard Lowery, p; Jimmy Shutt, c; Alan Ford; Bobby Schreck 2b; Louie Root 3b; Chas. Hannum, ss; John Root rf; Donald Sams of; Larry Schreck lf; Ronald Trauger, rover.

The Plymouth boys have played several games this season and have showed a marked improvement. Jim Root is the manager and coach. Thursday evening, Aug. 19 they played the Shelby Cubs at Seltzer Park, winning the game with a score of 19 to 13. Anyone who likes soft ball should see these games as the boys play with precision and skill. It is a pleasure to see a little boy catch a fly with as much skill as an adult, and the boys will appreciate your interest in them.

Mr. and Mrs. Francis Guthrie and Mr. and Mrs. Donald Markley of Willard, attended the ball game in Cleveland, Thursday.

WLW'S BOONE COUNTY JAMBOREE TO BE AT THE HURON COUNTY FAIR

NORWALK—There's a touch of Texas in the rich voice of Dolly Good, feminine emcee of the great WLW Boone County Jamboree which will appear at the Huron County Fair here Friday night, Sept. 3. Born and reared on her parents' ranch near Muleshoe, Texas, Dolly was at an early age in-

the acts of the Jamboree, carrying the show along in the most professional manner. Dolly started out her radio career as a singer of popular songs, but her love for things with a western flavor soon led her, to sing the tunes she'd heard when a child on the Texas plains. Today, she carries an authentic air of the wide-open spaces to the WLW microphone as she appears in her hand-sewn boots, cowgirl's skirt and wide-brimmed sombrero.

WELL KNOWN RESIDENT

MRS. LOIS HUNTER FERRELL, WELL KNOWN RESIDENT
Last rites for Mrs. Lois Hunter Ferrell were held on Sunday afternoon at 3 o'clock at the Shelby funeral home. Mrs. Ferrell passed away Thursday forenoon at the Shelby Memorial hospital.

She was born on Easter Sunday, April 13, 1868, in Leontown, Ohio, and has always been a resident of Richland county. She was preceded in death by her husband Adolphus Ferrell and one daughter.

She was the youngest in the family of five children, four boys and one girl, of Mr. and Mrs. Andrew Hunter, and was the last member of that family to die.

Surviving are two daughters, Mrs. S. C. Holtz of Shelby and Mrs. D. C. Arnold of this place; two sons, Rollo Ferrell of Mansfield and Dale Ferrell of Shelby; seven grand children and one great grandchild.

She was a member of the Baptist Church at Five Points, and was active in the Women's Missionary Society at that place.

Funeral services were conducted by her former pastor and close friend, Rev. O. T. Swigart of Marion, Ohio. Rev. Swigart had enjoyed the hospitality of her home many times, and spoke eloquently of her home life.

Burial was in Mt. Hope cemetery. Mrs. Ferrell's whole life was devoted to her family and church. When she was in this community she imparted her Christian influence in Mt. Hope Lutheran church and was a member of the Shelby Bible class in the Sunday school.

The passing of a woman with such rich qualities, leaves a vacancy that cannot be filled in the lives of her children.

Mrs. Ferrell reared her granddaughter, Marilyn Pfeifer. Mr. and Mrs. Junior Sanders (the former Miss Pfeifer) of Detroit, attended the service. Mr. Sanders is stationed in the navy duty at Ft. Arnold of Bainbridge, Md., was granted a seven-day furlough and was with his parents, Mr. and Mrs. D. C. Arnold.

A large group of relatives were present from Ashland, Mansfield, Shelby and old neighbors and associates at Five Points.

In addition to the above features there will be the usual exhibits

and a midway full of added attractions, all guaranteed to give the Fair-goer a full three days of entertainment and relaxation; horse racing, horse pulling contests, horse show and amateur saddle horse show; and the livestock show.

Highlighting the free acts this year will be a lion act, staged by Capt. Billy Sells and his five performing lions. Capt. Sells and his big cats perform in a large steel arena, erected on a special platform. Capt. Sells enters the arena and puts his charges through such acts as rolling barrels, changing pedestals, jumping through fire hoops, and other acts.

In addition to the lion act there will be Buck Steele and his roundup of range riders displaying trick and fancy riding, roping, whip cracking, high jumping horses; there will also be acts by Commando-dogs, a performance by a highly trained "high school horse", a dog act, magic act and other events. Amil Leneko will serve as master of ceremonies for the free acts, which will be presented Wednesday and Thursday afternoon and evening.

A closing feature of the Fair Friday night will be the Boone County Jamboree from radio station WLW. This show was also presented to the 1941 Fair patrons and drew such well praise that it was booked as the closing attraction again this fall.

ABOUT OUR SOLDIER BOYS

Petty officer, 1st class, Kenneth C. Burt, joined his wife at the home of her mother, Mrs. Mary Backensto, for several days. Mr. Burt has been an active duty in the South Pacific where he was radioman. He recently landed at San Francisco.

Mr. and Mrs. Burt left Tuesday evening for New London, Conn., where he will enter the submarine training school.

Capt. C. O. Butner and Mrs. Butner are daughter, Mary Ann, spent several days at their home here this week. Capt. Butner has been transferred to Washington, D. C., where he will enter the Army War College for a course in military medicine.

Harry Howard Guthrie S 2/c of the Aviation Navy Pier, Chicago, had a 36 hour leave, and arrived at the home of his father, Harry Guthrie on Saturday evening. He will be home on Friday of this week.

Harold Russell of the U. S. N. T. S., of Chicago, came to the home of his parents, Mr. and Mrs. Gloyd Russell on Saturday evening and returned Sunday. Harold graduated on Monday of this week.

Those wishing to write Rev. Stover will reach him at this address:

Nevin B. Stover, Lieut. (j.g.) Ch. C. V., (S) U. S. N. R., Williamsburg, Va.

WILL MAKE THEM
Joe Miller of Ganges left on Monday morning for Lakeland, Fla., on account of his health.

The Miller's expect to make their future home there. Mrs. Miller and son will leave later this fall.

WIENER ROAST
Carol Jean Hamman of Mansfield spent the week at the home of Mr. and Mrs. Dewey Hamman. As a courtesy, the children of the neighborhood were entertained at a wiener roast on Friday evening.

Those present were Darrell, Donna and Margaret Hudson, Bobby, Howard and Janice Clark, Eugene Weisbarth, Wade Kinzell, Richard and Shirley Cuppy and Esther Nelson.

MARKET SATURDAY
Angelus Chapter, O. E. S., will hold a market in the township room Saturday afternoon, Aug. 28

Persons invited to look over many nice things were entertained at a day dinner which will be for sale at this market.

A NOTICE OF IMPORTANCE

The Central Committee members of both parties, town and township, have unanimously decided on an important step to save time and money, and call on every church-minded citizen for cooperation.

The decision was for a joint caucus of both Democrats and Republicans to be held Friday evening, Aug. 27, at 8:00 o'clock at the American Legion Hall.

The reason for this progressive move is to try and eliminate some of the difficulties in securing candidates for the various offices. A number of times during the past

not enough of proper officials were available, and by combining the nominations, an independent ticket can be secured without so much extra trouble.

This is war time, so let's support our committee in this worthy move. E. C. Geitinger is the Democratic Central Committee member; Glenn Swanger is the Republican Central Committee member; and for the township precincts—John Adams for the Democrats, and Mrs. Ethel Nelson for the Republicans.

AT RECENT FARMERS GATHERING

Herewith are the speeches delivered by Congressman Bolton and Congressman McGreggor, at the wheat farmers picnic held recently at the Mary Park Farm in Plymouth.

MRS. BOLTON'S ADDRESS

Mr. Fackler and friends: It is a very exciting day for me in Washington, the one Mr. Fackler refers to. Harry McGreggor telephoned me and said: "Frances there are some farmers from Ohio in the office and they are coming over to see you and I want you to listen to what they have to say and I did. I sat there and listened to it all after another and what they did not know and what you do not know, I come of farming people. My people owned the old Connecticut farm since 1700 moving out in 1804 for lands in Cuyahoga county. We have the farm lands still in Cleveland. We had a cow on Euclid avenue when I was married, my father had one and so I. I had raw milk, which was not pasteurized. Now I live in Lindhurst and we have 100 acres out there and my son farms. We had a herd of 100 sheep and brought in a few to increase the herd. He wants to do what his grandfather did—produce raw milk and not pasteurize it. I know what you are talking about it takes a lot of it and lots of mothers who cannot nurse their babies get the raw milk and it has proved very beneficial. This means cleaning the milk. The boys do wash their hands and milk in white coats and my son said to me the other day: "If it takes the last thing in the world I am going to keep this herd of cows and produce milk for the mothers." I do not pretend to be an agricultural person, but I do know that unless we have food we cannot have anything. Franklin D. Roosevelt said that a democracy on an empty stomach. Food is a basic necessity. I brought up a family of boys that were always hungry and if they had nothing in the house to eat I was a failure. We die if we do not have it.

I am not going to talk about myself. You are not interested in me, but you are interested in the needs of the United States and what we are doing. I did not come down here to make a long speech, but to listen in and get a chance to talk with you. That is why Mr. McGreggor and Mr. Fackler said something about having a buckskin deed for his farm. My people did, too, and if anyone came on their farm they would have gotten the deed.

There are some real Americans in America and I was very much interested in what was said about the four freedoms. Have we any freedom? Freedom of fear we can control within ourselves. We talk about what we are going to do, the first want is hunger. Can you have any peace in the world if you are hungry people? If men get too hungry they will kill each other—they will steal, that is the law of life. It is bigger than national laws.

I am old-fashioned enough to know that you cannot get those laws. You know better than I do that you cannot kill your hogs and when you do you have to take the consequences and get punished by the greater law and Teddy Roosevelt got together a group of men from Canada, New Mexico and this country to find out why we were having drought conditions, even the people in China to find out and they came back and made a wonderful report. They found it was exactly what we were doing—never give up and complain against the Indians said to plant new trees or you will be in trouble. We cut our forests off the mountains and do as we have. We get water and too much water or too little. So they planted little trees and the States wanted to get them taxed so they did not plant them. 37 carloads of potatoes were dumped and we are still getting hungry in many places. They dumped a lot of canned tomatoes in Cleveland. We had a draft and went to all the registers. I tried to get the men registered so they could be selective—they did not want to listen about selective service so everybody had to register and any boy of age and physical fitness they had to get sheep killed to make a camp in Tennessee. I went up in Kansas and they were registering 1800 to 2000 a day. I asked the committee how many camps of farms and there were five out of every six that day. Who will run the farms and give us food—I do not know.

There are some boys all over the army, about ten million and two million overseas. As I figure my arithmetic there is 7,423,000 in

this country in camps being trained while we had a planting time and a best time. We had a best army in 1918, it but by rights did not take them from the essential job of producing food? About 300,000 are going to the fathers who have no diapers, and no safety pins. A man from the WPB came to me about the diaper situation and said there would be about 7,890,000 diapers within this year. That means a 64 per cent increase in diapers since 1941 and babies increased only 20 per cent.

Well, I asked him about safety pins and he said there would be more safety pins than we had in 1939 by next July. What do we use in the meantime, our imagination? They took the diaper factory in India to make diapers but they are going to return the looms and the babies can have their diapers and keep their self-respect.

There are a great many things I could talk about. I have three sons, two in the service and one on the farm because he broke his leg and he is very small and could not pass for a woman, but a swell boy, too. Has a wife and little baby. I saw him last night—a cute baby, too. He said to me "Daddy you are a little bit hung in the middle and find a way to your head"—I refer to the saying, "God forgive them for they know not."

I am glad to be here because I am going to talk to you, not as a partisan, but as a non-partisan. I would not know which party to take—we have no strict democrats, some are Jeffersonians and some are Rooseveltians. There are some strict republicans and some republicans that go back to the dark ages, with selling sickness, and OPA and A.A.A. So we are having a meeting today in American citizens.

I think it is very disgraceful when they attack the farmers of this great nation. You have to make a living and I feel sorry for you the same as I feel for the Sheriff who has to hang a man. Mr. Lemke is referring to OPA car checkers who were at the clinic. United States Congress and OPA car checking, they burn ten times as much checking on you, when they should stay at home and mind their own business. I have not seen the OPA car checking, they know the calibre of men they represent—gangsters, professors in their second child-hood; they fall in love a second time; then there are the young boys from New York who are not dry behind the ears and never will be. I live twelve miles out of Washington because the OPA has taken all the apartments. I ride on the trains with them, and the stuff I hear. They were not born in America, they were imported. They talk about gas! I want to tell you something about gas. When I asked that the farm boys be permitted 60 to 90 days to harvest the crops, they would not agree to that, but sent us some money to help them out. Then these boys needed someone to dance with at night, so the O. P. A. furnished gas to get these boys and girls to dances—they had an average of 1000 people at home. And yet they are checking on you today! You know as well as I do when you work all day on a farm you don't feel that you are dancing at night. Matter how pretty the girl may be. We make them work in N. Dakota or we ship them back to Ohio. We are still a democracy and have freedom of speech and we should use it. If I did not use my right arm for two months I would not be able to use it, and if I did not use my tongue for two months I would not be here talking to you.

There is danger ahead, because they have little individuals telling you what to do as if you were their hired man. You know if you are the hired man, if you have elected me in 1936 I would have been your hired man and your boss—we are to do your will and bidding. You belong to you, not the President of the United States. When you elect a man to office he gets enlargement of the head, but he doesn't know any more the day after he is elected than he was the day before. I experienced it. I was elected to office and I didn't know any more the day after than the day before. The President does not know any more they forgot all the promises they made the day after, then they try to fool you.

I say to you, my friends, that this war is not over. Our sons are still in camps and it is our duty as American citizens, to make any and all sacrifices we can, even to working 16 hours a day (instead of 8) for 60 weeks) to win this war. They are our sons and we want them back.

with us as soon as possible, and we are going to have a sacrifice to retain the four freedoms. We are not afraid of our President. He is a mighty fine man if he respects him and we will respect him when he steps beyond his boundary line. Do you farmers know that these little yaps and kids in the army who are going for inflation? To inflate anything you have to blow it up. How many items have you farmers blown up in price? You are responsible for inflation cost of production. You are not asking for anything that is not yours. How many of you farmers are eating more than you ought to? I admit I had a very good meal today. Who is entitled to the things they produce first, and then give the money to hungry Congressmen—who are the farmers?

Who brought inflation here? I'll tell you—the President and the Federal Reserve Banking system. They printed three billion dollars of money as ever existed in the United States. The most money you ever had in circulation was five billion, seven hundred million dollars. That was the highest point reached under the Harding administration. It brought that down to five billion, three hundred million dollars. On June 31 this went up to seven billion, three hundred fifteen million, three hundred eighty thousand dollars—over three times as much money as was ever in existence. Who got it—your farmers? Let me tell you who got it—your farmers. Do you know what cost-plus means—we give you the money and you spend it and then add 10 per cent to what you spent—the biggest cost-plus contract was \$372,000 a week and the laboring people's price wage is about \$40.00 a week—then the administration comes along and put a 20 per cent tax on your wages and farms and you have to pull in your belt 20 per cent. Then the President comes along and says that you are getting more and when you get hungry he gives you the "roll back" system. What is the roll back system? It was brought over here from the Columbia River contract with foreign country. A young man, 33 years of age, who lived the first 15 years in Russia, who got the job because he was a graduate of Columbia University, Harvard, Yale or some other nut institution (I belong to Yale myself), Joseph Weiner, by name—and that foreigner was kept in the O.P.A. for 18 months. We have got two more foreigners over here yesterday and they are hiding them down there. If that is justice, I am not interested in this foreign rubbish coming over here and telling us what we should do.

The "roll back" makes the soldier pay your board bill. You cannot pay the present taxes, because the government owes \$140 billion. It cannot pay, so your taxes have to go to pay the interest. If you still are to pay and say you are going to pay—are you dishonest enough to let the soldier pay after they whip the enemy, to come back and pay your board bill during the roll back? The federal debt is \$140 billion dollars, but the average man has \$18 and \$20 or \$550 billion, all public and private enterprise in America, and all personal belongings of all the people in the United States would not bring more than \$100 billion sold at public auction. This is not all, you will be asked to pay five per cent to pay \$27,500,000,000 interest. In order to pay the \$550 billion debt you will have to pay \$50 for every minute since Christ was born. That means every man, woman and child in the United States would have to pay \$211 each year in interest alone, that means too, that every baby, whether diapered or not, will have an indebtedness of \$4,070.00. A doctor friend of mine tells me that a baby born for six weeks of life is born and I am glad that, for if that baby saw those figures the poor thing would die of heart failure. That's your debt I am just giving it to you. We are going to have a clean house of bureaucrats in 1944.

How many of you farmers infer that Congress has the power to regulate contracts between the several States—it does not mean between the States—it does not mean with them. I cannot tell you what to eat in your home or what you can do in your home says it does. You farmers who have farmed for 50 years, never raised more wheat than you could eat, yet I find it did. We will make it take extra wheat to make into flour to bake bread—if she does she is a criminal and so are you. If that law is constitutional I am crazy. If you raise more wheat than you should eat, shear the wool and spin it into

MR. LEMKE'S ADDRESS

I am glad to speak to you on the same platform as your Congressman Bolton and your Congressman McGreggor. I think you people of Ohio are proud of having a woman of her ability in the United States Congress. I can assure you that the babies will be sure to have diapers and will keep their self-respect in the future. I want to also say that I am proud to be on the same platform with Congressman Harry McGreggor. It is true in one quarter in another district about a quarter of a mile, but there are no boundary lines when you are elected. Congressmen recognize not only the democrats and republicans, (if there are any left) but the communist and socialist—they are all citizens of the United States to stand under the Stars and Stripes, and after they are elected, they are neither democrat or republican, but citizens of the United States, the people who are elected upon every man and woman.

I am proud to be in Ohio because 380,000 of you signed a petition for me in 1936, and then you elected me to stand under the Stars and Stripes for the wrong man at election time. I am sorry you made that mistake the last time, if you had not you would not be in the office you are in now. I refer to your head—refer to the saying, "God forgive them for they know not."

I am glad to be here because I am going to talk to you, not as a partisan, but as a non-partisan. If you raise more wheat than you should eat, shear the wool and spin it into

yarn to make a sweater from the yarn with your own hands, you could not wear that sweater. We would have to give it to the Secretary of Agriculture for nothing. This is the decision of the Supreme Court. If there is constitutional, then they could tell you how many cows you could milk and how many babies you could have.

Our President, over the radio, gave us some wonderful information as to what our boys were doing, and I want to take my hat off to him. While he is our President we will give him due consideration where he is correct. He has been using the pronoun "we"—it used to be "I"—he knows that you people have something to say about it. Did he take you into conference, is "we" the American people? I am very much afraid "we" are just three individuals, and I am not so sure that it is just two individuals and not three, and I say to the President of the United States when they tell "we" (meaning the rest of us) know what the main objective is, that "we" are going to have something to say about it.

Let's you and I play a little bunco game. Imagine you have a million dollars (you made it at farming) and I have 75c. I buy a bushel of wheat from you and pay you 75c. In turn you ask me for a legal opinion and I charge you \$4.00. I go back again and buy another bushel at the same price and charge you a \$1.50 for a legal opinion this time, then the next time \$2.00 for a legal opinion. By the time we play bunco fifty times I have your million and you have my 75c. Are you going to put up with this as laboring people of the Nation and mean business?

My good friend Henry Wallace had six million little pigs killed and he wants to blame you Republicans for it now. Adding insult to injury he tried to starve the American people in order to produce the "more abundant life." This is plain lunacy—yet he wants to wash his hands of it. The President gave him a No. 9 boot and in 1944 the American people are going to give him a No. 10 boot.

Then I believe in giving the old people a decent old age compensation and I do not call it a pension, enough so that they can live respectable and do not have to go to some son or son-in-law and say, "you give me something to live on." Then we are going to give the small business man a squared deal (not a new deal with stacked cards and loaded dice). We are going to save the small business man, the laborer and the farmer, and clean house in 1944. That is in the best interests of the United States. Do not permit any democracy to divide these three great groups of our country, the laborer and small business man. I will pull through the point system. I am telling you today that you are dealing with murderers—300,000 of them—but better known as the OPA. They are not connected with the armed forces, they are honest persons and all good fellows—you should pity them. When the boys come home they will have something to say

about it and they are not going to be driven out of Washington by the rubber stamp will do its full duty and not let the soldier boys down. They will write the laws this time and the rubber stamp will go, too. The world better take a lesson from Mussolini—American people are going to assert ourselves the same as Mussolini when the time comes.

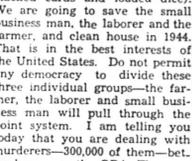

Three Presidents vetoed the soldier's bonus. I hear the words of F. D. Roosevelt, but the words of Herbert Hoover. We stay at home and make more than \$50, yet we want to give these soldiers a bonus of \$100 for only three months. The present Congress will do its duty so well your head will swim. I say to you mothers and fathers, that the soldier boys, when they come back, that I will go all the way to see that the boys who have served this country six months, a year or two years, that they will get in for the bonus. I say to the President of the United States that if he wants to go into some kind of business and make a living for himself, he will be able to do so, and if your President, whoever he may be, again vetoes the bonus, we will override his veto and there will be enough boys back by that time to see our word is made good. We made some promises to them that we knew were false, that their jobs would be waiting for them, but when they return will probably find a man on their job with six or seven children and they will not be dishonest enough to ask that man to give his job back. Give the returning soldiers a real start in life and not just a \$300 bonus as the President suggests.

Petition No. 10 is at the speakers desk. There are over 50 signatures on it. That petition gives back to you \$15,000,000 that the Department of Agriculture stole from you on an unconstitutional law, notwithstanding the recent decision of the Supreme Court in its favor. It squares itself with the Constitution, the supreme law of the United States.

And now, my friends, I say to you as members of the Congress and citizens of the United States, we did not elect Franklin D. Roosevelt to liquidate the United States and if he does, I am sure he will hear from everyone of us.

DEAFNESS CONQUERED BY BELL TELEPHONE LABORATORIES

Complete developments of the first wholly scientific aid for deafness have recently been announced by Bell Telephone Laboratories.

The new units, known as the Ortho-Tronic and the Ortho-Technic Audiophones, have been released through established offices and are proving a sensation everywhere they are shown.

The engineering designs of the new Audiophones are fully patented to prevent imitation and to assure always their high standard of performance to those who are hard of hearing.

Experts state that the new designs, carbon and vacuum tube better service than has ever been obtained for hearing impairment.

It is emphasized that the Audiophone is easy to use. People who have long been severely hard of hearing report that they hear almost normally with it. A complete scientific hearing test is made with a Western Electric Audiometer in each case to insure proper fitting with the most beneficial results.

Were it not for the gigantic facilities of Bell Telephone Laboratories and the Western Electric Company, the new Ortho-Tronic and Ortho-Technic hearing aids could not be attempted at a price within the reach of everyone.

Elaborate scientific methods employed to make the new Audiophones seem almost fantastic. The assembly room is air conditioned and all air is filtered magnetically to remove any pieces of metal. Air pressure is kept constant for absolute accuracy.

Those in this vicinity who are hard of hearing will be glad to know that the National Electric Co., 78 N. Walnut St., Mansfield, Ohio, has been appointed a dealer for the demonstration and complete service of the Audiophone. Beginning Monday, Aug. 30th, this service will be available, and during the first week, specially trained Audiophone Technicians will be in attendance to make free hearing tests and to give free hearing aid demonstrations. The store is open daily until 5 o'clock. Evening appointments will be made by your calling Mansfield 2271. (Adv.)

LAST EXCURSION OF THE SEASON

The last excursion of the season, from Sandusky to Detroit, on the big Steamer Put-in-Bay, will be on Wednesday, Sept. 1, 1943, leaving the Big Four dock in Sandusky at 8:30 a. m. A five and one half hour ride over the waters of Lake Erie, through the beautiful Lake Erie islands and up the Detroit river to the Motor city brings the boat into Detroit at 2 p. m. The four hour lay over in Detroit gives the passengers plenty of time to visit points of interest in and around Detroit or to visit the shopping district or the theatres, which are but a short distance from the boat dock. The big boat will leave Detroit from the foot of First Street at 6:00 p. m. and arrive in Sandusky about 11:00 p. m. Lunch counters, cafeteria, dining room, and rathskeller are open during the entire trip. Free dancing on the boat's big dance floor to the music of Finze's orchestra is one of the attractions of the trip.

SELLS FARM
Mr. and Mrs. Walter Thrush have sold their farm southwest of Plymouth to Mr. and Mrs. Walter Donnerwirth. They expect to take possession in the Spring.
