

Local Bank Has Very Good Year

SAME OFFICIALS AND DIRECTORATE ELECTED AT ANNUAL MEETING TUESDAY.

With the close of the year, Dec. 31, The Peoples National Bank enjoyed one of its best years in history. The final quarterly report showed that the bank had more than a million and a half dollars in deposits, the total figure being \$1,671,044.80. It is also the first time that the surplus fund equaled that of the capital stock, \$1,000,000.

At the meeting held Tuesday afternoon, the directors voted a 3 per cent semi-annual dividend, which makes a total earning of 6 per cent on capital stock.

Officers for the coming year are John J. Beelman, president; J. E. Nimmons, vice president; C. M. Lofland, cashier; Miss Adrianna Cole, bookkeeper; and Miss Alice Weller, assistant bookkeeper. The directorate is as follows: John J. Beelman, John A. Root, J. W. McIntire, F. E. Root, J. E. Nimmons, C. M. Lofland, and Robert H. Warch.

High School Boys And Girls Out At Depot

Ten people were politely asked to quit work at the Parcel Air Depot as they didn't quit they would have been fired, was the message that came Saturday, Dec. 3, to the five boys and the five girls who were working part-time at the Depot and the workers to figure out. First, the transportation was not provided for the boys and girls who were to pay to ride on the bus, and now they have no transportation. When in charge was a lot of problems, but it seems that they should have figured some way out of the boys and girls who were about this but there was no other way out it will be rather hard for the Depot people to get these people back to work there for them.

Returned Missionary Speaks Here Sunday

Mrs. F. Olin Stockwell of Oberlin, Ohio, will be in Plymouth on Sunday evening, Jan. 15, to address the union meeting which will be held in the Methodist church at 7:30 o'clock.

Mrs. Stockwell spent 12 years in China and has first-hand information regarding the true condition there. She is the wife of the Rev. F. O. Stockwell who is still in China, but Mrs. Stockwell and son are in this country for the time being.

One of the big problems now is "What we can hope for the church in post-war America." After seven long years of war where human suffering and sacrifice can hardly be described, the missionaries are now looking forward to the time of peace, education and the continuance of the Christian program in that country.

Mrs. Stockwell has spoken in many cities and has met with the audiences with the many accounts as only those who have experienced them can relate. An invitation to the general public is extended to attend this meeting.

PROPERTY DEEDS

Ira Snyder, et al. to Clifford Jenkins et al. 44 acres, Plymouth township.

BREAKS ARM

Mrs. W. C. Forester is suffering with a dislocated shoulder and a fractured right arm in two places, as a result of a fall at her home last Friday noon.

She made a one-step walk going to the basement, throwing her full length of the stairway. She was removed to the hospital and later returned home. She also suffered severe bruises and a general shake-up.

SPECIAL SERVICES

The public is invited to attend the singing services at the Plymouth Church, 1000 Main St., at 8:00 p. m. on Sunday, Jan. 15, 1944.

12 Farmers in Richland County Receive Sheep Claims Totalling \$584.75

The sum of \$584.75 was paid in December to Richland county farmers whose sheep were killed by dogs. Sheep claims have been climbing the last three months. In October, \$173.50 was paid out, and in November, \$287.75. The sum paid in September was \$335.20, almost as much as in December.

Commissioners approved payment of \$140 to A. W. Firestone, from two dogs; \$220 to W. E. Wain, Plymouth township; \$12 to Burr Knau, Plymouth township; \$24 to George Cheeseman, Plymouth township; \$12 to T. A. Barnes, Cass township; \$30 to Russell Glenn, Butler township; \$27 to S. Balle, Perry township; \$110 to W. W. Tucker, Plymouth township; \$125 to Mrs. Chas. Wine, Plymouth township; \$24 to A. A. Tooker, Plymouth township; \$13 to W. Y. Myers, Franklin township; \$25 to Paul Rader of Cass township.

21 Day Draft Furloughs Abolished in New Plan

Selective service headquarters will announce soon abolition of the 21-day furlough for newly-inducted members of the armed forces.

Henceforth, inductees who pass the military physical examination will be given a 30-day furlough, with the date of induction depending upon the manpower requirements of the individual draft office.

When the new induction procedure is put into effect, probably Feb. 1, a 21-day furlough screening test will be abandoned. Men classified 1A, as in the case of farmers, will be given a 30-day furlough, with the date of induction depending upon the manpower requirements of the individual draft office.

KICKED BY COW

Mrs. Earl Anderson is carrying the scars of a bruise on her forehead, when a cow kicked her while she was attempting to milk.

UNDERGOES OPERATION

Mrs. Charles Curran was removed early Saturday morning to the Miller-McQuinn hospital from her home on Plymouth St. She underwent a major operation and is getting along nicely.

JOINS REFLECTOR-HERALD STAFF IN WORWALK

Mrs. George J. Miller of Worwalk, formerly of Willard has joined the Reflector-Herald staff. She will write news items, special articles and assist in the handling of the Reflector-Herald's leased wire service. She is known in Plymouth.

IMPROVING

Mrs. Rolla VanWagner is getting along nicely at her home in Plymouth. She recently fell and badly injured her knee.

IN CHILDREN'S HOME

Earl and Ethel Smith, children of Pearl West, have been placed in the Huron County Children's home.

NEED HELP

R. I. Lewis of the U. S. Employment Office, Shelby, stated Tuesday that a sheriff's office needs 60 women at once. The rate of pay is \$56 per hour. Mr. Lewis stated that the place is a congenial one and the work very interesting. Any woman in Plymouth or vicinity, who can devote time to war work, should contact Mr. Lewis at the employment office in Shelby.

OUT FOR SHERIFF

James W. Mellott, Huron County Sheriff, was in Plymouth Wednesday and revealed that he was announcing his candidacy for reelection in the primary for the Republican primary, May 9th.

FORMER RESIDENT DIES

Mrs. Corinne Schaffer, wife of Dr. J. G. W. Schaffer of Bridgeport, Ohio, passed away Dec. 14, 1943. She was 82 years of age. Her funeral services were held in Plymouth this week. A member of the Plymouth Chapter, O. E. S., she was buried in the cemetery in Bridgeport, Ohio.

Dr. and Mrs. Schaffer resided at 1000 Main St., Plymouth, Ohio.

Dies Suddenly

FRED BEVIER, SHARON TWO-FARMER, PASSES WAY ON THURSDAY.

Fred Bevier, 76, Sharon township, died suddenly Thursday afternoon at 4 p. m. at his home north of Shelby. The play was given in failing health the past year, he had not been confined to his bed and his death came unexpected.

He was born near Shiloh and had lived in the vicinity of Shelby for the past thirty years. He was a member of the Lutheran church. He is survived by his widow, Frances, one son, Arthur Bevier of Sharon township; one granddaughter, Mrs. Miriam King of Columbus, and one grand-granddaughter.

Funeral services were held Saturday afternoon at the Dye funeral home with Rev. J. H. Schaefer officiating. Interment was made in Oakland cemetery, Shelby.

ONTARIO DEFEATS PLYMOUTH 40-24

Plymouth met Ontario in league game last Friday night. Ontario gained undisputed first place in the Richland County League. Each team displayed good teamwork and our boys played a keen game but were not able to compete with the height of the Ontario players.

At the end of the first quarter it was anybody's ball game; the score being 12 to 8 in favor of Ontario. At the half, Ontario still held the lead 24 to 12. The game ended with a score of 40 to 24, Ontario winning.

The preliminary game was played among the Plymouth Reserves. This game gave the audience a glimpse of our future basketball players. It was enjoyed by everyone and all of us expect these boys to become some of Plymouth's best players.

BURIED AT NEW LONDON

Funeral services for Mrs. Janis Hubler Farnsworth, 25, will be held in New London, Mrs. Farnsworth died at the Army Post Hospital at Shreveport, La., early Monday morning after giving birth to twins, a boy and a girl. She is the wife of Capt. Richard Farnsworth of the U. S. Army Air Corps and has two children, a son and her husband since their marriage.

DIES SUDDENLY IN CHICAGO

Plymouth friends were notified the past week of the death of Mrs. Edith (Schoenberg) Scheuer, in Chicago, on December 29. Mrs. Scheuer is a former resident of Plymouth and a graduate of the Plymouth schools. She was approximately 79 years of age. She is the last member of the Schoenberg family.

WASNT THE AUTHOR

Some months ago we published a letter signed by "Three Star Mother." There are only a few of them in Plymouth, and a number of our readers suggested that Mrs. A. Cornell wrote the letter. In fairness to her, we gladly state that Mrs. Cornell did not write the letter criticizing The Advertiser and Henry Packler in their reference to rationing food to soldiers and conduct of government. We regret people assume, sometimes, things that hurt in more than one way, and we know she is broadminded to the extent that she would not revert to such a method of expression. The Editor.

Do you feel "left out of it"?

Are you missing the chance to share in this war-winning experience you'd value all your life? Right now, in the WAC, you could be doing a vital Army job. You could be getting the highest training, the best pay, and the best living conditions. You could be seeing new people, seeing new places while serving your country.

Are you interested at all? Get full details about eligibility, training, pay, the best living conditions, the best pay, and the best living conditions. Write to: War Relocation Authority, 1000 Main St., Plymouth, Ohio. (Your local post office will give you the address.)

Class Play

"Peck's Bad Boy" Chosen By Class; To Be Presented On February 3rd.

The Juniors are working on their class play, entitled "Peck's Bad Boy." The play will be given on Feb. 3rd, at the high school auditorium. A hilarious comedy. Peck's "Bad Boy" with story of a mischievous boy who is always getting into trouble. He is always thinking of pranks to play on other people. In the trouble that he causes, it always helps the family out, or someone else.

Characters are: Henry Peck, Sr. who is henpecked, Ray Bevier; Henry Peck, Jr., his son, the bad boy; Tom Cunningham; Mrs. Hannah Peck, the bad boy's stepmother, Mae Reber; Jimmy Duffy, the bad boy's pal; Paul Scott; Minnie, the bad boy's girl friend; Genevieve Jacobs; Luella Thorne, the family step-sister; Pat Betts; Clifford Jennings, in love with Luella; Jim Moore; Melville Beaumont, an aged financier; Clifford Peck, a young millionaire; Mrs. Hannah Peck; Viola Kessler; Dahlia, the colored cook at Peck's; Audrey Daron; Suzie, the grocer; Gordon Sealitz.

Dora, Della Watkins; Flora, Ella Jane; Schelberger; Lora, Vera; Ray, Sam; and Ed Vanderbill; publicity. Stage managers, Lace Williams and Ed Vanderbill; publicity. Stage managers, Lace Williams, Ed Vanderbill, and Jake Berberick, Dale Predmore.

GETTING ALONG NICELY

Arthur Van Brunt, who recently underwent at the Cleveland Clinic, is gradually improving. He is now able to walk. Haven superintendent of schools.

DIES IN WILLARD

Gayle Jones, 54, Baltimore & Ohio Railway conductor, died at his home in Willard Monday after an illness of one month. He was a member of the Elks, Eagles, and Veterans of Foreign Wars.

Change of Residence

Mr. and Mrs. Jerry Caywood and sons are moving this week from Sandusky street to their new home on Maple avenue.

Mr. and Mrs. Ray Dinger will move into their property vacated by Mr. and Mrs. Jerry Caywood, and formerly known as the Bachman property.

Mr. and Mrs. Charles Archer and son, who now reside in the second floor apartment of the Dinger-Wagner property, have moved to their new home on Bell street this week. They have been residing in the second floor apartment on Plymouth street.

NEW HAVEN SCHOOL BOYS ORGANIZES

At the annual meeting of the New Haven Board of Education, Mr. Rollo Van Wagner was re-elected president, and Mrs. Cecile Smith, clerk.

The first meeting of the New Haven school will end this week with reviews and examination.

Mrs. Scott Dick of Plymouth Rural had the misfortune to fall on the slippery walk in front of her home, breaking the wrist of her right arm.

WILL DINE JANUARY 14

The Huron County Township Trustees and Clerks association will dine on Monday, Jan. 14, at 6:30 p. m. at the Huron Hotel.

The Alpha Guild Meeting will be held on Monday, Jan. 18, at the Lutheran church annex with Mrs. J. H. Schaefer, pastor, presiding.

Farmers Meet Friday Night

WILL HEAR MORE ABOUT THE NEW TAX APPRAISALS AT N. FAIRFIELD FRIDAY EVE.

Approximately a hundred farmers from various townships in Huron county attend a meeting in North Fairfield last Thursday night where they discussed the new property tax appraisal recently announced by Huron county tax officials. At the meeting, John Feichter acted as chairman. He appointed a committee to conduct a survey and find out what recourse could be taken concerning the appraisals.

One farmer stated that at the present price of hogs he would have to sell a hundred head to pay for the increase in his taxes.

Meeting Friday Night. Chairman Feichter has made an announcement of the meeting to be held at 8:00 o'clock Friday evening at the home of Mrs. J. H. Fairfield. At this time the committee will give its report, and a speaker will be on hand to advise the farmers of the correct procedure to take in straightening out the re-evaluation tangle.

Mr. Feichter states that this is a very important meeting and appeals to all farmers in this section to be present at the meeting on Friday night at North Fairfield.

Shiloh To Be Host To Plymouth Ball Teams

Shiloh High school basketball boys also took their committee, composed of John Feichter, chairman; Harold Johnson, Fred Leek, Frank Hopkins and George Cole, who have been busy this past week arranging the meeting and also legal advice.

The purpose of this meeting is to create a wholesome and friendly relationship between the young players of both teams who are looking for a pleasant time.

CONGRESS will continue taming them just as the shrew was tamed in Shakespeare's play. They are beginning to realize that after all the people are their boss, and they must be treated as such. People who complain are met with insults and vindictiveness.

THE 78th CONGRESS MADE HISTORY

When it tamed the bureaucracy. Let us keep them in their places, but co-operate in all war efforts.

CONGRESS will continue taming them just as the shrew was tamed in Shakespeare's play. They are beginning to realize that after all the people are their boss, and they must be treated as such. People who complain are met with insults and vindictiveness.

THE ISSUES confronting Congress are momentous. These issues must be solved by the American people because, after all, Congress is but the reflex action of the people. We must not blindly accept slogans. We must not blindly follow false gods. We must turn the cold light of our common sense upon the proffered solution. Let us solve these problems with American integrity and with American ingenuity and wisdom.

NONPAREIL CLASS MEETS

Mr. and Mrs. Willard will entertain members of the Methodist Nonpareil Class next Monday evening, Jan. 17. Mrs. Geo. Cheeseman will be the assisting hostess.

AMERICAN LEGION AUXILIARY MEETING

Members of the American Legion Auxiliary are reminded of their next meeting on the theme, Friday, Jan. 14, at the Legion Hall. Time is announced for 8:00 o'clock. All are invited to bring their sales tax stamps. It is also Dues Paying Day, so come prepared.

ANNOUNCE ENGAGEMENT

The engagement and approaching marriage of Miss Barbara Schaefer, daughter of Mr. and Mrs. J. H. Schaefer, to Mr. J. H. Schaefer, son of Mr. and Mrs. G. W. McElfish, U. S. Naval Reserve, son of Mr. and Mrs. G. W. McElfish of Willard, was announced at a party at the Lancaster country club recently.

Mr. Schaefer is a nephew of S. C. Brown and has many friends and acquaintances in Plymouth.

Mr. R. Der of Cincinnati spent the week-end in Plymouth with his family.

THE SOVEREIGNTY OF THE

THE SOVEREIGNTY OF THE... threatened. Poland was put into the fray by promised help. She is now at all dictators. Her territory will not be returned to her. The "Four Freedoms" will not save Poland or other small nations unless we—who made such lavish promises—go into oblivion the same as the slogan "War to End Wars."

THE SOVEREIGNTY OF THE... When we have finished Hitler—the "we" because, but for us he would have been just a man. Then, it will not take long to finish Japan. Let that be our destination. Let us see the farmer plant to his utmost, let him in his scrap iron even though the world will be handed over to the United States. Let us see he knows that in nearly every town there are heaps of scrap.

THE SOVEREIGNTY OF THE... IN THE meantime, let us finish the European war in 1944. When we have finished Hitler—the "we" because, but for us he would have been just a man. Then, it will not take long to finish Japan. Let that be our destination. Let us see the farmer plant to his utmost, let him in his scrap iron even though the world will be handed over to the United States. Let us see he knows that in nearly every town there are heaps of scrap.

THE SOVEREIGNTY OF THE... THESE ABUSES we can right when the war is over. Then those responsible for these abuses must be held to the utmost. Let us back up to the justice, soldiers, sailors, aviators and marines who help get these boys back home to their families at the earliest possible moment. There must be no let-up on that. But these abuses are not necessary to accept unnecessary hardships, abuses and in the bureaucracy. Let us keep them in their places, but co-operate in all war efforts.

THE SOVEREIGNTY OF THE... THE 78th CONGRESS MADE HISTORY. When it tamed the bureaucracy. Let us keep them in their places, but co-operate in all war efforts.

Farmers Get Set to Achieve Still Higher Food Goals as 1944 Planting Begins

WFA Calls for a 6% Increase Over 1943's Record Production

Farmers all over America are busy with preparations for their 1944 production battle. They have set a goal of 380,000,000 planted acres, from which—including meat, poultry and eggs—they expect to produce a 6 per cent more than the 1943 food record and enough vegetable oils and fibers to meet essential war needs.

That is an ambitious program, but the War Food Administration points out that America's farmers have reasons for their confident outlook. They've just closed the seventh successive year in which their intention to produce more food than the year before was fulfilled. Food production, at the beginning of 1944, has reached a point 32 per cent higher than before Pearl Harbor and 3 per cent more than the 1943 record, which many believed could not be duplicated.

Increases on most food crops will be increased in 1944, according to planting goals set at full meetings of farm leaders in the agricultural area. National needs for farm products, previously determined by the War Food Administration, were presented at these sessions. Upon the basis of these needs, the goals were set.

Whether they are met or not will depend upon many factors, the chief one being the yield the farmer gets from his land. That yield, in turn, is influenced first by weather. A farmer may have the finest of soil, plus all the labor, machinery and equipment he needs, but if the weather is bad his crops will not be up to expectations. On the other hand, excellent growing weather can do much to make problems involved in labor and supply shortages, and even low fertility of land. The past few years, when records have been broken right and left under conditions far from ideal except as to weather, make this very clear.

Conservation Ups Yields. It should be pointed out, however, that conservation practices have played an important role in bringing the productivity of United States farms to its present all-time high. Yields per acre have averaged 20 per cent more during the past five years than during the previous 20, and on some crops the increase has been phenomenal.

The total acreage increase needed to meet the 1944 goal, most of which will be devoted to food crops, will be about 10,000,000 acres. Average yields would result in the hoped for upping of production over last year.

Chief increases in acreage planned by U. S. farmers are 50 per cent more sugar beets, 24 per cent more wheat, 23 per cent more peanuts, 21 per cent more dry peas, 19 per cent more soybeans, 18 per cent more sweet potatoes, 11 per cent more fresh vegetables, and 9 per cent more dry beans. Small increases are set up for potatoes, eggplants, and vegetables for processing. The farm goals also recommend a 2 per cent increase in total milk and beef output, with a similar increase in the number of dairy cows. A slight decrease will be sought in

chickens and turkeys raised, together with a sufficient volume of livestock slaughter to reduce the number of meat animals on farms from the record high reached in 1943. Such a volume of slaughter would bring an increase in total meat production this year of 8 to 10 per cent, and a 4 to 6 per cent increase over the all-time high reached in 1943 for the combined output of poultry, dairy and meat products.

The number of milk cows on farms on January 1, 1944, will be large enough to permit realization of the 131 billion pounds of milk set as the year's goal, according to figures from the Bureau of Agricultural Economics. However, it is pointed out that the level of milk production during the year will depend to a considerable extent upon the quantity of feed concentrates available

those shortages that must be overcome. Labor, while it will be scarce again in 1944, is not expected to present any unusual problems except in specific areas. The main difficulty will probably be to get the workers where they are needed when they are needed. As in 1943, farmers will have to rely in the peak harvesting periods on voluntary help from the urban centers.

Assembling and marketing of crops, especially in the South, will need some attention to make the best possible use of the abundant harvest. Conservation and marketing of crops, especially in the South, will need some attention to make the best possible use of the abundant harvest. Marketing problems may be expected to remain largely local in character, and their solutions also local. Conservation practices will receive further emphasis in 1944, with attention focused on those practices

(PERCENTAGE OVER 1943 ACREAGE AND UNITS)

to dairy producers. The feed situation is expected to become tighter as locally grown crops are used up in great quantities to supply the Army. Livestock feed will be one of the chief problems in the northeastern dairy states and in the southern states where dairy farming is a comparatively new enterprise. The milk will enter into calculations everywhere, however, and in some areas maintenance of milk supplies may necessitate cutting back on other crops in order to provide sufficient feed.

The estimated feed-grain production for 1943 was 116 million tons, 7 per cent less than the record output of 1942, but 18 per cent higher than the preceding five-year average. While supplies of both wheat and rye available for livestock feeding and by-product feeds may be up to the coming months, the number of grain-consuming animals currently on farms is much above normal and considerably larger than a year ago.

Cattle-feeding operations are expected to be on a smaller scale than last season as the number of cattle on feed, with shorter feeding periods also indicated.

Double-Cropping Emphasized. Another problem of national scope is the continued need for double-cropping to make possible the planting of some 15 million more acres to crops than there is good growing land to be planted. In 1943 farmers put 58,457,000 acres in double land, an actual acreage of some 340 million acres. This was accomplished by the planting of two or more successive crops on a given piece of land, with the second crop planted after a single harvest for the year.

It is expected that broadens will have to be made in 1944 on summer fallow land, and similar areas of low productivity may have to be brought into use if it does not seem feasible to continue double-cropping to certain areas where the soil is deficient of the permanent crop acreage to take care of the planting goals. Pressure for cropland is going to be heavy everywhere, says WFA, but especially in the West. Machinery problems are not expected to be as severe in 1944 as in 1943, although the need for harvest will still be less in quantity than would be desirable. Some planting equipment will be at a premium, also. Reclamation of abandoned lands, continued by the War Production board, and intensified efficient application of the time-honored sharing of equipment always a part of neighborly farming, will help alleviate

labor, while it will be scarce again in 1944, is not expected to present any unusual problems except in specific areas. The main difficulty will probably be to get the workers where they are needed when they are needed. As in 1943, farmers will have to rely in the peak harvesting periods on voluntary help from the urban centers.

Assembling and marketing of crops, especially in the South, will need some attention to make the best possible use of the abundant harvest. Conservation and marketing of crops, especially in the South, will need some attention to make the best possible use of the abundant harvest. Marketing problems may be expected to remain largely local in character, and their solutions also local. Conservation practices will receive further emphasis in 1944, with attention focused on those practices

which will increase production this year and in 1945. The need is to keep a cover on the land, prevent immediate danger of erosion and supply vitalizing material to the soil in such forms as lime, superphosphate, slag and other fertilizers, green manure, nitrogen, etc.

Conservation problems vary with the different regions, depending upon topography, soil, climate and conservation needs of each state. Four points must be considered, says WFA, in determining the necessity for any specific practices. They are:

1. Will it contribute to increased production?
2. Will its returns be immediate and substantial?
3. Is it easily understood, and is performance practical for the farmer?
4. Can it be easily and effectively administered?

For example, the use of more fertilizer is recognized as a major method of increasing food production on the proposed acreage of cropland, without increasing labor and farm machinery requirements. The use of fertilizer is estimated as probably accounting for a minimum 20 to 25 per cent of total food production in 1944, if supplies are available as anticipated.

Assistance Available. Government aids to assist farmers are available for the most part through the Rural Extension Agents, members of the Agricultural Adjustment Agency and the County War Boards. These include help in procuring essential machinery and supplies, labor, information on marketing and transportation, necessary credit, and technical assistance of various kinds. Certain types of loans are expected to be available, which will aid food producers.

Overall objective of the 1944 farm program, with its record-breaking goals on acreage and production, is to supply the largest amount possible for food, feed and fiber for war without destroying future productivity.

Emphasis will be on production of crops with high food value for direct human consumption. War demands call for the right amounts of food, the right kinds of food, and food in the right places at the right time. That is why producers are planning to grow the things that will stretch the food supply to the utmost.

Probably a coincidence, but some railroad wrecks seem to happen when loads of soldiers are riding trains bound home on furlough. . . .

conceivable that deficiencies might occur in animals and poultry when a strict grain ration is followed too closely. If they are allowed access to many plants, possibilities of manganese deficiencies are remote.

Washington Energy 60-000-100
DREW PEARSON

It Wrote the Peace:
A cooling-off period would be taboo. After more than a decade of Nazi and Jap infamy, their guilt shouts. Why sit back and allow their countrymen, both here and abroad, to stifle justice by baffling our sympathies? Sub-humans must be crushed like cockroaches. There's nothing more dangerous than a killer who beats the rap. It gives him the arrogance to search for another throat to slit.

Frozen-faced Junkers and Jap military big-heads must be deprived of their tools. Bulletiers are their bread. They dedicate their lives to war. The loss of one tussle is only the signal for blue-printing another series of blood and steel. But you can't invade a neighbor with paper-battle plans alone. They should be stripped of all weapons including putty-blowers.

Bumdiest Fritz Kuhn and his cronies now in the hoosegow should be shipped back to their Fatherland on the next available transport. Allow them to go free in America is unthinkable. And why should taxpaying foot the bill for their food and board while they're in our clink? They wanted to share the loot of a Nazi victory. It is only right that they should be forced to share the burden of a Nazi defeat.

The war against intolerance must march on. Racial hatred was a disease before Hitler popped out of the wall, and it will remain after Nazism is under a tombstone. Bigotry can only breed civil wars that result in international unrest. The war must be considered won until we attain the tolerance we have fought for.

Our military forces should never again be allowed to rust. Our muscles must be in fighting trim at all times. The Air Age has shrunk the globe. The Army's Pearl Harbor could be New York, Chicago, L. A. or a town in Montana. The cost of security will be high, but the cost of inactivity is higher. It's not dollars but in something more precious: The lives of American youth.

Channing Pollack (In Your Life magazine) climbs out on a precarious limb. He insists that wives hate their husbands as much as they love them. I don't believe it. . . . Newscaster Quinley Howe defends the CBS censorship in Atlantic Monthly. He states: "In so far as our commentators dissent their views, those who want them away from the New Deal have found favor with sponsors and the public alike."

Apparently Mr. Howe has not read the radio's current radio ratings—(Crosley and Hooper)—which reveal only one news commentator-reporter among the first 20. That radio reporter's current rating (Hooper) is 22.2. . . . His New Deal support is famous. . . . The runner-up is sponsor of the radio's oil magazine. His rating is 14.2. . . . the other radiators are rated: (12.0) . . . (10.8) . . . (8.3) . . . (7.9) . . . (6.8) . . . (6.3) . . . (5.3) . . . (3.1) . . . (3.2) . . . Mr. Kalsbrenner's substitute are rated 17.1. . . . (Finger-snaps).

Navvies men returned from the sea tell this column that a ship is still shrouded against the lighted Florida skyline especially on moonless nights. If anyone else sees the menace is whipped in Southern waters—ask the survivors. . . . When the war is over what will be the conditions? . . . The French island of Martinique was (until the Navy took it over) the Nazis pet sub base. . . . Someone at the State Dept' is asking the Navy to take over Martinique. As a result two more American seamen and officers are gone. . . . The G-Men in two years of war probably more than 12,000 cases of reported sabotage in the U. S. One in ten was found to be actual sabotage, but even these were due to carelessness, slips or horseplay, etc. None by direction of enemy agents, says G-Man Hoover, who adds: "That's no reason to relax. The greatest menace is as great as before. The only effective weapon is vigilance."

On the 26th Century Fox lot they were gabbing about Woodrow Wilson, whose saga is being filmed. When Wilson was ill and paralyzed the Senator sent Senator Fall to check if he was insane or rummy. As Fall was leaving the bedroom he paused at the door. "I want you to know," he said, "that the Senate is praying for you, Mr. President. Without batting an eye, Wilson queried: "Which way?"

Probably a coincidence, but some railroad wrecks seem to happen when loads of soldiers are riding trains bound home on furlough. . . . Some of the men who were taken from Nazi war prisoners were in internment camps. Not all of them have been caught, have they? A good New Year's job is that, could be. Our agents should look it for us. . . . If sabotage is proved, by the way—and unproved by constituted police authorities, the Marine Corps is being used as the counter-sabotage unit.

conceivable that deficiencies might occur in animals and poultry when a strict grain ration is followed too closely. If they are allowed access to many plants, possibilities of manganese deficiencies are remote. This extensive research project was made possible by the development of a method of analyzing plants for the study of manganese. Sidekays, and the results have brought out the importance of this element in the nutrition of animals.

Uncle Phil Says

Some couples manage to patch up their old quarrels until they are almost as good as new. The fellow who is continually in a hot mood doesn't necessarily have a bad temper. Have you noticed, the chronic kicker never kicks himself.

Luck may plant a man in a high post of importance, but ability has to keep him there. Better the shoulder to the wheel than the back to the wall. Don't tell other people your troubles. Most of them don't want to listen—and the rest are glad you have them.

Little Fags Go To Market. Agriculture officials are starting with bulging eyes at the telegrams received from the livestock markets. The number of hogs killed in a slaughter day has passed the figure of 300,000, and is still going up. November has already set an all-time record in hog slaughter of 3,000,000 head of hogs. December will go still higher. Cattle slaughter also set a record in November, but is now tapering off. Not high hopes.

Nothing like this has ever happened in the history of the world. Future, plus a low selling price on corn sets the stage in putting a ceiling price on hogs, is now scattering pork all over the landscape. This will continue through January, February and into the month of March. In spite of the pork flood, however, there is no surplus, and officials insist that there must be no "holiday" in the market. War and War Food Administration agree on this. They have had many differences in the past, but they stand together on the "pork" points.

Fact is, they have debated removing pork from rationing, but ran into so much prospective grief that they gave up. For if housewives could buy pork without stamps, they would use their stamps for beef and butter, which are still short. Or if stamps were used to the point of making separate stamps for pork, etc. for beef, and others for butter, there would be outcry for Jewish people, who ban pork. Conclusion is that the ration books must be left alone, and the only way to get the stamps is to make Federal purchases heavier and move them more rapidly.

Army purchases of beef were extremely heavy in the best months of September through November. Today, Lend Lease purchases of pork are growing heavy and will hold up through the "hog run" now flooding the market. But this does not always take the meat out of storage. Lend Lease shipments to Russia can be made only when Russia is ready to eat the pork, since they have no storage space. Britain, on the other hand, can store pork. It is taking shipments at the rate of one million head per week. With livestock production high, and submarine sinkings low, more beef and pork are getting to Allied fighting fronts than ever before.

MOBE STARS AHEAD
There are a lot more strikes in the country than the public is aware of. The government has abandoned the policy of regular announcements of strikes. It strikes current radio ratings—(Crosley and Hooper)—which reveal only one news commentator-reporter among the first 20. That radio reporter's current rating (Hooper) is 22.2. . . . His New Deal support is famous. . . . The runner-up is sponsor of the radio's oil magazine. His rating is 14.2. . . . the other radiators are rated: (12.0) . . . (10.8) . . . (8.3) . . . (7.9) . . . (6.8) . . . (6.3) . . . (5.3) . . . (3.1) . . . (3.2) . . . Mr. Kalsbrenner's substitute are rated 17.1. . . . (Finger-snaps).

When the war is over what will be the conditions? . . . The French island of Martinique was (until the Navy took it over) the Nazis pet sub base. . . . Give good-tasting tonic many doctors recommend. Viable Scott's Emulsion helps children promote proper growth, strong bones, and healthy skin. Contains pure Vitamin D—essential for all children, and for Mother—gives Scott's daily the year around. "I found Hen Lots at drugstore."

NEWS FROM OUR BOYS IN SERVICE

Transferred

Fort Worth, Tex. — Lt. Col. R. H. Dunlap has arrived in Ft. Worth to assume his new duties as Assistant Adjutant General of the Army Air Force. Commanding Officer, Col. Dunlap has been stationed with the Air Force School at Camp Roberts, Ind., for the past year. His home is in Columbus, Ohio. Col. Dunlap is a brother-in-law of Mrs. Edith Henry of W. High street.

Back In England

Bob Hunter's latest letter says he is back in England — somewhere. Bob has been in overseas service now about a month and home would look mighty good to him, but like the rest of our boys, he feels the job isn't quite finished yet.

Joe Hunter, another son of Mr. and Mrs. Bert Hunter, is in the Navy, and his last trip was one to remember. A terrific storm lasting four and one-half days made it impossible for the ships to gain headway and after a week's voyage was no further than a two days' trip. It was necessary to strap themselves down, if they expected to stay on the ship. Joe is fast becoming an old salt, for even his rough trip failed to make him sea-sick.

Roger Ross Safe

Contrary to rumors the past week, Roger Ross, son of Mr. and Mrs. Ira Ross of the Bucyrus Rd., is safe and well. A letter written on Red Cross stationery received the past week, was misinterpreted, in rumors, that it was from the Red Cross.

Roger is one of the many boys in the Southwest Pacific, and while few details are received because of censorship, Rogers says they all enjoy the movie which are released as soon as possible to the boys in service.

More Take Exams

Included in the group from Plymouth and vicinity who went to Mansfield last Thursday morning for their first physical examination, prior to induction into the armed forces were Everett Wilson Paul Stoodt, Oliver Tilton, Lloyd Harris, Francis Guthrie, Jerry Moore and Tom Kucenic.

Surprise Parents

Pvt. Milton P. Brown surprised his parents, Mr. and Mrs. L. C. Brown, Thursday night, when he walked in. He arrived at St. Nicholas hospital, Louisville, Ky. When he returns he will start his basic training.

In The Navy

Frederick Martin, son of Mrs. Jennie Martin, of Sandusky, but formerly of Plymouth, is now in the Navy. Friends can reach him by writing Co. 1216, U. S. N. T. S., Great Lakes, Ill.

Home On Leave

Lt. Nelson McQueen and wife of Harlingen, Texas, enjoyed a leave of absence with their parents in Plymouth and Willard, the past week, returning on Tuesday.

Completes Boot Training

Ernie Rooks, who has been at Great Lakes, Ill., the past nine weeks for boot training, arrived home Monday evening for a short furlough. He returns on the 22nd.

On Furlough

Raymond Wiers of Celeryville, who has been with the Marines for the past two years, arrived Saturday for a thirty-day furlough with his parents, Mr. and Mrs. Jacob Wiers.

This is his first visit home and

brought with him many souvenirs of the war theatres of Guadalcanal, Africa, Sicily and Italy.

At Great Lakes

Roger Wise, son of Mr. and Mrs. Leonard Wise, formerly of New Haven, writes Miss Jessie Cole, teacher in the New Haven school, that because of illness he was unable to complete his boot training with his group. However, by going over a portion of the work twice he has a better knowledge and is really enjoying it. His address will be found in the address column.

Home From Pensacola

Lionel Moore of the U. S. Navy is home from Pensacola, Fla., on leave with his parents in Willard.

Aviation Student

Pfc. James E. Phillips has been transferred to the Army Air Force Third Air College Training Detachment (Aircrew), Xavier University, Cincinnati, O., from Keesling Field, where he will take a five months preparatory pre-flight course of military and academic training.

Upon completion of the course, he will be classified as a navigator, pilot or bombardier, and after training as an Aviation Cadet he will be awarded the Silver Wings of the United States Army Air Corps.

Pfc. Phillips was formerly with a Military Police outfit in Ft. Geo. G. Meade, Md. He was a student at New Haven High School and formerly employed at The Fate-Root-Heath Co. He is the son of Mr. and Mrs. Edw. J. Phillips of Plymouth, Ohio, Route 1.

Glenn Deats, S/IC of Solomon Field, Md., visited his wife in Plymouth over Monday and Tuesday.

Addresses of Local Boys In the Various Services

Soldier Letters

Dec. 23, 1943

Dear Tommy:

A letter to you and all of my friends and neighbors express my gratitude for the wonderful Christmas gifts and cards that I have received from them. Since it is nearly impossible for me to thank everybody individually, I want to take this means of doing it, and am sure that everyone will understand the circumstances.

I want to say that I have enjoyed reading your paper always, but that it has become a thing that I look forward to in the last months because it is about my only touch with the world that still exists beyond the shores of this spot of Paradise, only the

follows here do not call it that. I would like to make this letter a little more interesting but, unfortunately, we are closely censored because of a number of reasons, and it is impossible for us to tell much.

By all accounts, Plymouth has sent its share of men off to war. I sincerely hope that all of them will be fortunate enough to return to the old town, as I know it will look good to all of us. However, it may all be over one of these days and we can again renew old friendships.

Give the friends around the Square my best wishes for a Happy New Year and I hope that I can thank you personally soon. Sincerely yours, T/Sgt. Robt. W. Brothg.

Dear Bob: I received your letter last Wednesday, too late for the paper of the 9th, but I know the folks will be glad to hear from you. And while you're thanking all of us for the cards and gifts, I want to thank all the boys from this community who sent us (The Advertiser) Christmas cards and notes. It was really a thrill to get them!

Yes, Plymouth has sent quite a number of the boys into service, and the draft will call a goodly number the coming few weeks.

I often think of the summer months a few short years ago when the benches around the old Square would be filled with careful youngsters — but those days are gone for a while. However, I agree with you that this thing may come to an end one of these days, and it can't be too soon. I hope you're right when you say you may "thank us personally in the near future." I believe I know what you mean, and you're deserving of it, for as you know, you were one of the first to leave the old home town.

Best regards, Tommy.

CARD OF THANKS

The operators of the Northern Ohio Telephone Co., Plymouth Branch, thank their many friends and business places for remembering them during the holiday season.

EYE INJURED

Clint Moore, locomotive assembly foreman at the Fate-Root-Heath plant, experienced a painful accident shortly after noon Tuesday. Mr. Moore was changing a drill in the drill press when the feed lever flew up, striking him in the right eye. The impact broke his glasses, cut the eyelid and made several scratches on the eyeball.

Mr. and Mrs. Elmer Colbert were Willard business visitors on Monday.

FEELING BETTER

Bill Lawrence, son of Mr. and Mrs. Wm. Lawrence, West Broadway, underwent an operation on Monday at the Shelby Memorial hospital. Late reports state he is getting along nicely, but will be confined to the hospital for a few weeks.

WORKS IN SHELBY

Donald Anderson returned Saturday evening from Rockford, Ill., where he had been employed, and began work Tuesday morning at the Shelby Salesbook Co.

CARD OF THANKS

Through the columns of this paper I wish to take the opportunity to thank the people of Plymouth for their lovely gifts and cards during my stay in the Ft. Douglas Station hospital. As I was a patient for thirteen weeks and five days, and many of those being very rugged, mail always seem to give me new life. These kind actions will not be forgotten.

George Henry Waitz. Mr. and Mrs. Neil McCaugh of Willard were Sunday guests of Mr. and Mrs. Ed Frome.

Mrs. Jennie Myers left Tuesday for a visit and rest in various parts of Florida.

Mrs. Dave Scarfield were Mr. and Mrs. Arthur Hornagel of Mans

Speaking Sports

BASEBALL'S honor and glory be ascribed to the pitchers in 1913—it was their greatest season since the first World war days of 1918.

Official averages for the year proved that American league hurlers dominated the competitive picture. With dozens of heavy hitters in the armed services, the strong arm boys had a succession of field days.

Twenty-nine pitchers held opposing teams to fewer than three earned runs per game, and that hasn't happened since 1918 when 33 pitchers had that distinction. Last year the total was 20 and only 17 had only 1 pitcher were included in the list.

Not only was Spurgeon Chandler's 1.64 the lowest earned-run average

FIRST AID AILING HOUSE

by Roger B. Whitman

ROSS B. WHITMAN—WFO Features

FIREPLACE CHIMNEY

QUESTION: One of our three chimneys is not in use except for a Franklin stove set up in the living room. Is it possible, without completely rebuilding it, to convert this chimney into a fireplace chimney, to give us a fireplace in the living room? Also, what can be done to stop "creosote" from running down the wallpaper on the chimney in the room on the third floor?

ANSWER: A good mason who is familiar with chimney and fireplace construction should be able to do whatever is necessary to give you a fireplace. It may not take as much rebuilding as you would suppose.

When wood burns, especially greenwood, saps and gums become vaporized and start up the chimney as smoke. If the chimney is warm to the top, these vapors pass out without making trouble. On the other hand, if the upper part of the chimney is cool the vapors condense and turn into creosote. This may soak through the brickwork and come out on the plaster. It may get through joints in smoke pipes. In time it will form a hard lining in the flue. An inside chimney connected to a range or stove in which there is a continual fire will remain warm. An outside chimney, with thin walls, and connected with a stove having a low fire, or one that is only lighted occasionally, is the commonest cause of creosote trouble. In building a chimney the flues should have fire clay linings to keep creosote from soaking into the brickwork, and the walls of the chimney that are exposed to weather should be at least eight inches thick. This would be a better fuel than wood.

Farm Topics

Choosing Right Breed Of Rabbits Important

Market Demand Should Govern Selection

Every farmer who wishes to raise rabbits should become familiar with market demands in order to select a breed that will find a ready sale, says A. of California publication, "Rabbit Raising," by H. M. Butterfield and W. E. Lloyd. "Some rabbits may satisfy the market demands better than others. For example, a market that prefers a small fryer rabbit weighing from 1 1/2 to 2 pounds dressed or 3 to 4 1/2 pounds live weight will justify the producer in considering a breed that develops early and soon reaches a marketable condition with a low feed cost. Breeds that are slow to develop or that do not fill out well when young are better suited for markets using large meat rabbits weighing five pounds or more.

Only a few breeders cater to a fur market and sell the meat from rabbits producing the fur for whatever it will bring. The meat from a six-month-old fur rabbit will usually weigh four or five pounds or more; it is important to find a market that is willing to take dressed rabbits of this size. Such meat is usually low in price, five to nine cents a pound live weight being a fair range in list price.

The production of breeding stock calls for a wise choice from the various breeds now available. Nearly always the final choice will rest on the value of the animals for meat and fur. A new breed may possess excellent fur qualities but have no value on the fur market because the pelts are not available in sufficient numbers for marketing.

Breeds for the Begunners

Most rabbit raisers find it best to start with but one breed. The characteristics and requirements of one breed are far easier to learn than those of several. As skill is developed and markets are acquired, the producer may then find it profitable to cater to several kinds of demand.

Certain breeds have become popular because they have returned a profit and have had the approval of breeders. For example, the New Zealand Red or New Zealand White and the Flemish Giant are very popular for supplying the market demand for high-quality meat. Among the fur rabbits the Chinchilla, the American White, the New Zealand White, the White Flemish Giant, the Havana, the Lilac, the Castor Rex and its crosses, and certain blue and silver breeds have been very popular for fur and have considerable meat value. All these breeds are produced in quantity so that stock is easily purchased and the market demand is kept up by a regular supply.

Some breeds might be more popular if they could be secured in larger quantities and at smaller expense. The introduction of a little-known breed is not always a paying undertaking.

Selection of Individuals.

Some general characteristics which should affect the choice of breeding rabbits, regardless of the breed or variety are:

1. Ability to maintain health and vigor under commercial conditions; not unduly susceptible to disease.
2. Meat white, well-crained, firm, and delicately flavored, in the case of meat rabbits.
3. Dressing percentage high, with a large percentage of the best cuts (saddle); body compact, meaty, with fine bone for the meat trade.
4. Ability to thrive on inexpensive food.
5. Market weights and desirable plumpness reached at an early age.
6. Value sufficient to leave a profit for the producer under existing conditions.
7. Ability to reproduce true to color and type.
8. A good breeder the year around.
9. Females good mothers, able to bear and rear large litters.
10. Utility vs. Fancy Stock.

The first concern of the breeder should be with utility rather than with fancy stock. Rabbit breeders have too frequently wasted much time on unimportant characteristics. Leg bars, black toenails, and nose or ear markings have little effect on the utility value of any rabbit, though such markings may sometimes be correlated with certain desirable colors in the pelt. Ultimately the popularity of a breed will largely depend on its utility value.

STRICTLY BUSINESS

Ephraim—I just got religion, Moose, and it sure makes me feel fine.

Moose—Ah, a 'pose yo' is gwine ter lay aside all sin?

Ephraim—Yes, sibil!

Moose—Yo's wife ter church ebbery Sunday, is yo'?

Ephraim—Sutainly!

Moose—An' how 'bout payin' dem debts yo' owes?

Ephraim—No, Moose; dat ain't religion; dat's business.

ON TO TOKYO

Rookie—Where did you get that watch?

Sarge—From a Jap who tried to kill me with a knife. I inherited it from him!

Accidents Will Happen

Bill—What did you take for your run down condition?

Traffic Cop—When I saw you come around that corner I said to myself: "Foxy-die at least!"

Lady Driver—Sir, I'll have you know I'm not a year over thirty!

Broadway Hit

Bill—Who was the hero in the play you saw last night?

Ann—Anyone who stayed till the end, the way I did!

Rapid Promotion

Sarge—I'll teach you to kiss my girl!

Private—Too late—I've already learned!

TIT FOR TAT

She—All you say goes in one ear and out the other!

He—What's to prevent it?

Ask Me Another

Quiz—Who was the first boy mentioned in history books?

Whiz—Chap I, of course!

Public Speaking

Nit—I'm looking for a good book of addresses. Can you recommend one?

Whiz—Have you tried the phone book?

Disappaiser

Jones—I guess I'll have to get a new bird-dog.

Smith—What's wrong with your old one?

Jones—He swallowed a compass and now he only points north!

Wrong Fellow

Plumber—I've come to fix the old tub in the kitchen, Sonny.

Son—Mother, here's the doctor to see the cook!

Try and See!

Jim—Would you call for help if I kissed you?

Her—I thought you needed it!

Bank Book

Banker—There are a million ways to make money, but only one honest way.

Business Man—But only one honest way.

Banker—What's that?

Business Man—You wouldn't know!

Real Speed

Jones—Here's your wife as a housekeeper?

Smith—That's an affront! She has every bed in the house made by herself!

PATTERNS SEWING CIRCLE

1917 12-42

8552 34-48

Do as an unusually large demand and current war conditions, slightly more time is required in fitting sizes for a few of the most popular pattern numbers.

SEWING CIRCLE PATTERN DEPT., 218 South Sixth St., Chicago, Ill.

Enclose 25 cents in coins for each pattern desired.

Patterns No. Size

Name

Address

THE RIGHT JUMPER.

IF YOU'VE been waiting for the right jumper costume for a large woman to come along—you need wait no longer. It is here—in this button front style, with the waist defining set-in belt and the classic blouse.

Pattern No. 8552 in sizes 34, 36, 38, 40, 42, 44, 46 and 48. Size 22 jumper takes 3 1/2 yards 36-inch material. Long sleeve blouse, 2 1/2 yards.

WHY TAKE HARSH LAXATIVES?

Simple Fresh Fruit Drink Makes Purgatives Unnecessary for Most People

Here's a way to overcome constipation without harsh laxatives. Drink Juice of 1 Sunbelt Lemon in a glass of water. First thing on arising.

Most people find this all they need—stimulates normal bowel action day after day!

Lemon and water is good for you. Lemons are among the richest sources of vitamin C, which combats fatigue, helps resist colds and infections. They supply valuable amounts of vitamins B1 and B2. They pep up appetite. They alkalize, aid digestion. Lemon and water has a fresh taste too—clears the mouth, wakes you up, starts you going.

Try this great wake-up drink 10 mornings. So if it doesn't help you! Use California Sunbelt Lemons.

Money Could Grow

Seeds of the cocoa tree were once used as money in Mexico.

HOUSEHOLD HINTS

If the ticking of a clock annoys an invalid, yet she insists on knowing the time frequently, place a glass bowl over the offending clock. It can then be seen but not heard.

To keep the clothes prop in place when used on a wire line, place a clothespin on each side of the prop.

A small section of rubber hose slipped over the end of a faucet will help to prevent chipping and breaking of glassware.

TABASCO

The strongest, purest, most delicious hot product! A dash of this pungent sauce gives a new zest to everything. TABASCO—the seasoning secret of master chefs for more than 75 years!

COUGH DROPS

We can't make enough Smith Bros. Cough Drops to satisfy everybody because our supply is so reduced—so please buy only as many as you really need. Through these generous and free wars, Smith Bros. Cough Drops have given soothing relief from coughs due to colds. Sell only 5¢.

SPUD CHANDLER

In the American league since Walter Johnson's brilliant 1.40 performance in 1919, but the Yankee hurler also led in the won-and-lost division, posting 20 victories against 4 defeats.

Effective Staff

The staff of the Yankees was by far the most effective in the league, with Chandler and Ernie Bonham running one-two among the circuit's starting pitchers. The champion compiled a collective earned-run average of 2.53. Bonham averaged 2.37.

Chandler is the thirteenth pitcher to lead the league in both departments. The only two clubs that lost him were Cleveland and Washington and each team beat him twice. He had a winning streak of 7 games, was in 30 games, pitched 252 innings (a total topped by only 3 pitchers), he struck out 126 batters, allowed 177 hits and earned 46 and 46 were earned. He pitched out 134 batters and made 3 wild pitches.

Detroit placed second to the Yankee with an overall record of 76-57. Trotter, Tiger moundsman, was the only other 29-game winner of the league. He rang up No. 28 on the last day of the campaign, losing only 12 games for a second division team. His earned-run rating was 2.37.

The Cleveland Indians' 3.15 gave them their third place and their sturdiest pitcher was Vern Kennedy, who allowed only 2.45 earned runs per game while winning 10 and losing 7.

'Pitcher's Year'

Although it was a "pitcher's year," only two American league pitchers, Chandler and Tex Hughson of Boston, pitched as many as 20 complete games during the season. Three other pitchers, Fred Orval Grove of Chicago and Charlie Wenzeloff of New York, worked 18 complete games. Bonham pitched 17, Jim Bagby of the Athletics 16 and Luman Harris of Philadelphia and Emil Leonard of Washington each pitched 15.

Two of the league's "mosses" were contributed by Cleveland Indians. Jim Bagby pitched the most innings, 273, and Alie Reynolds got the most strikeouts, 111. Reynolds' 111 was especially remarkable in that he pitched only 139 innings, as compared with 252 for Chandler, who was third in the strikeout department.

Last in the earned-run records of pitchers who worked 45 innings or more was Al Milnar, former Indian fielder, who pitched 44 innings with the St. Louis Browns. He gave up 7.33 earned runs per 9 innings. Bobo Newsum allowed 6.87.

The longest winning streak was run up by Orval Grove of the White Sox, who won 9 in a row. The longest losing streak was that of Luman Harris of the Athletics, who dropped 13 straight. Harris lost the most games for the season, too, being beaten 31 times.

BOILER PIT

Question: I am having trouble with a steam heating system that recently was installed. The boiler was put in a pit nine inches below the surface of the cellar floor. Water

keeps seeping in and around the level of the heater. The firm that put in the heating system rebuilt the pit, but water still comes in. Please advise me.

Answer: A reliable mason contractor or waterproofer should be called in to rebuild the pit with a good waterproofing concrete of sufficient thickness to withstand water pressure. Ask your dealer in mason materials to recommend a good contractor for the work.

Oil Burner Puffs Back

Question: There is a downdraft in my chimney, and every time I start my oil burner it will gas and puff back, shaking the whole house. To overcome this I have to close the draft control entirely. How can I correct this condition?

Answer: There are several reasons why the oil burner puffs back. A faulty shut-off valve back of the nozzle in the burner, an automatic draft control improperly adjusted or installed in the wrong place, or too much baffling in the furnace are some of the possible causes. Have an expert oil-burner serviceman check these and other possibilities for you. I am, of course, taking for granted that the chimney is large enough and has no obstructions.

Drafty Kitchen Windows

Question: My kitchen windows are weatherstripped, but there is a draft on windy days. Because of certain conditions I am unable to place storm windows on the outside. Could I put storm sash on the inside?

Answer: Yes; storm sash can be installed on the inside, and will help to cut down the draft. You should, however, have some way to ventilate the kitchen.

Painting Venetian Blinds

Question: I should like to repaint my venetian blinds. They face the sun all day. Shall I use indoor or outdoor paint?

Answer: Use a good quality, quick-drying synthetic resin enamel. Apply it according to directions given on the can, and see that the surfaces are clean and dry.

Preserving Eggs

Question: What is the method of preserving eggs by the use of silicates of soda?

Answer: Clean a five-gallon "stone" crock or jar and scald it thoroughly. Boil nine quarts of water and allow to cool; then add one quart of sodium silicate (water glass), mixing thoroughly with water. The eggs must be covered at all times with at least two inches of this solution. Keep in a cool, dry place, tightly covered to prevent evaporation.

SNAPPY FACTS ABOUT RUBBER

Low costs prevailing, post-war world consumption of natural and synthetic rubber may total 2,000,000 tons a year. In the production made recently by John L. Calvery, president of the B. F. Goodrich Co. This would be nearly twice as much as ever consumed in a record year to date.

Some 32 million pounds of rubber will be needed by the Army Signal Corps this year for building W-110's who used in maintaining direct communications. An additional 4 million pounds will be required for friction and splicing tops. Just two of the many rubber-using items of this Army branch.

John L. Calvery

ORDINANCE NO. 93
AN ORDINANCE FIXING THE SALARY OF THE FIRE CHIEF AND DECLARING AN EMERGENCY.
It is ordained by the Council of the Village of Plymouth, Ohio:

Section 1. That the salary of the Chief of the Fire Department shall be two hundred dollars (\$200.00) per annum, payable quarterly.
Section 2. That this ordinance is hereby declared to be an emergency measure necessary for the immediate preservation of the public peace, health and safety and shall go into effect January 1, 1944. The reason for such necessity is that a raise in salary is necessary to maintain the efficiency of the fire department.

Passed December 21, 1943.
J. H. REED, President of the Council.
