

Derr Accepts Cincinnati Job

Began New Duties This Week in School System There; Family to Move This Summer

After successfully serving for an even twenty years as the teaching staff of the Plymouth schools, J. B. Derr left Sunday morning for Cincinnati, where he will begin his new duties as a teacher in the public school system of that city. News of Mr. Derr's resignation from his post here was received with genuine regret, not only to school patrons, but by the community at large.

Coming to Plymouth in September, 1923, from Plainfield, O., Derr began his teaching career under Supt. T. S. Davis, who was head of the Plymouth schools at that time. He has continued his work in the school system in a satisfactory manner, and won for himself a wide host of friends in this vicinity.

During the twenty years spent here, Mr. Derr continued his program of advanced education, having completed his work for a bachelor of Science degree at the University of Cincinnati, and also received his Master's Degree from the University of Cincinnati in 1936. He graduated from Ohio State University in Columbus in 1926. He is a member of the honorary fraternity in the College of Education, University of Cincinnati.

While on the local school staff Mr. Derr was an instructor in the 8th and 6th grades, and was first became connected with the local schools. He has also taught commercial, mathematics, and physical training and other subjects. The opportunity to become associated with the Cincinnati school system, a dream of many a teacher, presented itself early this Fall, but Mr. Derr was not anxious to leave Plymouth. After checking over the opportunities, the remuneration and advancements attached to the offer, it was one so great that he could not afford to turn it down, and therefore he accepted the position.

For the present, the Derr family will continue to reside in Plymouth until the close of the school year. Sometime in the coming summer, they will move to their new home in Cincinnati.

Public spirited as always, Plymouth his home Derr announced himself as a candidate for mayor of the village. He was elected in November, 1925, to succeed Dr. George J. Searle, Sr. He took office on Jan. 1, 1926. He was re-elected mayor for two consecutive terms, terminating his office on Jan. 1, 1934. In 1941 he was again chosen mayor, and served for two years. At the election last November, he was a successful candidate again for another two years.

During his mayoralship of the town many improvement programs have been completed, including the removal of the old street car tracks on Plymouth street, and the paving of that thoroughfare, the paving of Duane and Portner streets were also completed during his regime, as well as the Bell street sewer and Derr also steered the improved water system of which Plymouth can be justly proud.

During his administration as mayor, Mr. Derr made an enviable record, not only for himself, but for the village. However, he administered his duties in a precise and routine manner, and enforced all the laws that add to good government. He held the respect of everyone, and kept a good name for the town.

Mr. Derr was an active member in Richmond Lodge No. 306, of the Masonic Order, and as a member of this lodge he administered the lodge presented to him a beautiful Masonic ring as a farewell gift.

It is needless to say that Plymouth will miss him, for no one man has devoted his entire efforts to the betterment and benefit of the town, than he; unselfishly he has given much of the time in the twenty years of his public service, rather than private gain, and for this reason alone he will be greatly missed by the community. However, in his new work, we all wish for him the success which is rightfully due him, and hope that he will make many return visits to his old home.

Driest December In Sixty Years

Precipitation Only 20 Per Cent of Normal; Wheat in Poor Condition; But Late Rain Brings Relief

December, 1943, was the driest December on record at this station (eleven years), and according to the state records, was the driest December in 60 years, or since records were begun in 1843, John A. Root, official weather observer, revealed this week.

Total precipitation recorded at Plymouth for the month was only 0.83 inch (slightly over one-half inch) or 20 per cent of normal of 2.63 inches. Furthermore, most of all of this small amount of rain and snow fell on two days—22 on the 6th and 24 on the 26th. Snowfall for the month was only three-tenths of an inch as against 8.2 inches in December of 1942.

November, 1943, was also an exceptionally dry month with only 0.90 inch recorded.

As a result of these two successive dry months, wheat looks very poor, but with good rains or snow during the rest of the winter months, there should be a big improvement.

Many farmers in this section have been out of water for some time, and their livestock on the nearest available source.

Following is the summary for month of December, 1943:

ONTARIO PLAYS

HERE ON FRIDAY

Friday night the Ontario Hoopsters invade the auditorium of P. H. S. with a height of not less than six feet. There will be plenty of stiff opposition for the Plymouth team, which on the average is considerably shorter. The two teams were into battle last year with Ontario rated to win. They were just a little bit too tall for it. The result was a narrow victory for Ontario with a small margin. Plymouth is again the underdog, according to statistics. The Ontario team, it does not mean a thing, and this is one of them. So come on folks, let's all be out to help cheer our Ontario team.

Church-Library Receive Cash Donation

Two Plymouth Institutions Received Very Highly Appreciated Christmas Presents in the Form of Cash Donations Sent by a Former Resident, Mrs. Eleanor Searle Whitney and Her Husband, Col. C. V. Whitney

Lowell Keith, treasurer of the Lutheran church, received a letter from Mrs. Whitney, dated Dec. 23, 1943, containing a check for \$1,000. No stipulations were made with the gift, except that instead of being applied to the general budget, the sum be used for improvements of the church building. The gift was a complete surprise to the church board and officers, but was gratefully received. There is no doubt but what the gift, with its accompanying sentiments for it was in the Lutheran Church that Eleanor Searle and Col. C. V. Whitney were married in June, 1941.

Library Benefits

Through the generosity of Col. and Mrs. Whitney, the Plymouth Public Library received a check for \$500 which is to be used for the purchase of new and needed books. The check was received by Miss Jessie Trauger, the text of which follows: "Because of the splendid way in which you have built up and managed the library and stimulated the interest in reading in Plymouth, Colonel Whitney and I are sending a check for \$500.00 of the purchase of needed books. It is a tribute to you who with the help of your Board, has made good reading possible in my home town. Sincerely, C. V. Whitney and Eleanor Searle Whitney."

Donates Book

One of the best treasured books ever received by the local library is the one presented by Colonel C. V. Whitney. "God Is My Co-Pilot" written by Robert L. Scott, Jr. The book has been autographed by the author, and reads as follows: "I take great pleasure in presenting this interesting record of the early stages of the war to you as a Xmas gift. I myself took part in many of the incidents described in the book. C. V. Whitney, Col. A. A. F."

Critics who have read Scott's book praise it highly, and the New Yorker says: "This is a hum-dinger. Sterling North, of the New York Post pens this beautiful and beautiful." John Chamberlain, New York Times, writes: "The most interesting personal story of the war."

"God Is My Co-Pilot" is Scott's personal narrative—a cutting, personal, determination and courage from early boyhood which includes his own exciting navigation of the early stages of the war to you as a Xmas gift. I myself took part in many of the incidents described in the book. C. V. Whitney, Col. A. A. F."

We will at all times try to feature important articles and feel confident that our subscribers will understand the situation until such a time as we are again able to secure help. Master Mentalist Finds Thought Reading Easier Than Addition; Challenges Skeptics

Dunninger Denies 'Supernatural' Aid, Credits Telepathy

By ALBERT J. PUGNER
Released by Western Newspaper Union.

Arithmetic was tough for Joe Dunninger. So he found an easy way to get the answers. He just read them from the minds of his teacher and classmates.

This was fun, so after school Joe tried reading others' minds. He soon found out, says he, that if a person would concentrate upon a simple question for a second, he could tell exactly what that person was thinking. Today, 35 years later, Joseph Dunninger is still reading others' thoughts in the radio, over the telephone, and, previously, on the stages of America and most foreign countries.

After relating how he discovered his thought-reading ability, Dunninger, a tall, solid man with receding hair and searching eyes, emphasized:

"There is nothing supernatural about my work, and I am not a fortune teller."

Those are the words with which he usually opens his weekly performance before a visible and radio audience. A few seconds later he calls from his desk on "stage observers" to become the subject of a parrot.

"Will that person please rise?"

A woman in the audience rises. Dunninger asks her: "Have we ever met before, madame?"

"No," she answers.

"Very well," continues Dunninger. "You are thinking of a Harriet Davis. Her address is 6117 South Campbell street. Is that correct?"

"Absolutely," gasps the woman. Dunninger calls out: "I seem to get a word that looks like Baylor. It seems to be a university."

A military officer stands up.

"Is that your thought, sir?"

The officer nods, and Dunninger calls out with great emphasis: "Do you swear that I have prearranged nothing with you and that you have not revealed this information to anyone in the audience?"

"I do, sir," answers the officer.

"Very well," says Dunninger. "You are thinking of Baylor University in Waco, Texas. You studied there, and now you are thinking of the course you took. Chemistry and pre-medical. Is that right?"

"It certainly is," answers the officer.

Judges Check Show.

Carefully watching these strange proceedings are three judges seated near Dunninger. They are usually famous persons such as U. S. Sen. Hattie W. Caraway, Paul Whiteman, Judge Edward R. Koch of the New York Supreme court, and John A. Zellers, president of the Advertising Club of New York, all of whom have acted as observers on the program.

Recently, Maj. Lenox Riley Lohr, president of the Museum of Science and Industry, former general manager of the National Broadcasting company, acted as a judge and assisted Dunninger in what was described as "the greatest long distance mental telepathy experiment attempted."

Major Lohr, seated next to Dunninger in Chicago, Ill., telephoned Congressman William A. Rowan in Washington, D. C. and asked Rowan to select any name of his in the Congressional Record, and then select any three words on any page of that volume.

"Tell Mr. Rowan to put his finger on a word—and you," instructed Dunninger. Major Lohr relayed the message. Dunninger quickly wrote something on a large white sheet of paper. "Now the second," he continued, and immediately wrote again. "And the third," he concluded.

"Now," announced Dunninger, "I ask the judges to initial this paper."

THREE FAMOUS personages whom Dunninger has mystified. These are A. Edison, the great inventor, Barbara Hutton, the heiress, and Maj. Lenox Lohr, scientist and radio executive, who assisted in a startling experiment on thought transmission by telephony.

Foe of Frauds

For the last 20 years, Dunninger, as chairman of the National Council for Psychic Research, has been using his prestige and influence to expose fraudulent spiritualistic mediums.

In conjunction with the magazine, Scientific American, he has a standing offer of \$10,000 to anyone who can produce any physical phenomena by psychic methods or supernatural means that he cannot produce himself.

BLUE

JOSEPH DUNNINGER, who bills himself as the "Master Mentalist," sits at a desk before the studio audience during much of his program. Sometimes he writes on a slate, or draws symbols that come to him from his subjects' minds. The "Blue" on microphone refers to Blue network.

I have written on so they can identify it, and then to place it in an envelope and seal it.

Then Major Lohr asked Rowan by telephone to reveal the words. They were "Thanksgiving," "unanimous," and "consent." The envelope was opened. One of the judges read Dunninger's words. They were "Thanksgiving," "unanimous," and "consent."

The paradoxical Dunninger constantly insists that his work is not related to the supernatural and in the same breath relates that he has asked the United States navy to let him make our battleships invisible to the enemy. He's a magician, too.

When he gets bored reading minds, he might be found on a stage making an elephant or two disappear, sawing a woman into eight pieces, or, if the sawing makes her nervous, he'll just let her float in midair.

But thought reading occupies most of his time these days. According to Dunninger, it is how it is done:

"The sender must concentrate upon his thought. The receiver does not try to form a preconceived idea of what the thought will be, but keeps his mind open and then accepts the first impression without question."

"I usually vision a black slate and my impressions usually come in the form of white writing or images upon this slate."

Sometimes Dunninger uses real slates, as he did in Chicago when entertaining a group of 4-H youths at their 22nd annual congress. The "Master Mentalist" called a young farmer to the stage, handed him a piece of chalk and a large slate, then told the youth to draw on the room and draw any symbol upon the slate.

This Time It's a Real Slate.

Dunninger picked up another slate almost as soon as the youth had left the room. The "Master Mentalist" drew a large dollar sign which he displayed to the audience.

The youth returned and held up his slate. On it was a dollar sign. Dunninger hopes to try a variation of this feat with Walt Disney of Hollywood soon. He will ask Disney to draw a picture of a duck. Dunninger, seated in another room, or possibly in the city, will try to read Disney's mind and reproduce the character.

"I am not an artist, but I believe I can reproduce a fairly clear idea," he ventured. "He probably will succeed. For although he says he."

"Two or three men investigating my work apparently were taking notes to each other in the studio during one Sunday afternoon broadcast," Dunninger relates. "I kept receiving impressions of these notes. One note read: 'Somebody was down in the audience.' Another was: 'I'm a criminologist. I don't get this.' Some day I'm afraid I'll embarrass one of these investigators by reading his note over a nationwide hookup."

"My work cannot be explained except at telepathy, and my offer of \$10,000 to anyone who can prove that I use confederates, employees, or stooges, still stands."

Skeptics Amuse Him.

Skeptics are constantly trying to explain Dunninger's work in terms other than telepathy. Sometimes this is a source of amusement, says he.

"I am not a fortune teller, but I believe I can reproduce a fairly clear idea," he ventured. "He probably will succeed. For although he says he."

ELK HILLS BOILS

Latest developments in the Elk Hills oil controversy are known only to those who attend the inner workings of the cabinet.

Attorney General Biddle was expected to denounce the navy's contract with Standard Oil of California to lease the oil fields.

Experts in the justice department have declared the contract definitely illegal, and their findings along to Biddle. Biddle, in turn, was expected to tell the house naval affairs committee the same thing, with the caveat that "grave doubts" about it.

But when Biddle appeared before the committee, he pulled his punches. Instead of declaring the contract illegal, he merely stated that "grave doubts" about it.

The committee was expecting a forthright statement. Even its chairman, Congressman Vinson of Georgia, who is very close to navy officials, privately favors condemnation.

Secret of what happened is this. Two cabinet colleagues got hold of Biddle's copy. One was Secretary of War, who was responsible for the contract in the first place; the other was Harold Ickes, whose Petroleum administration had been in Standard Oil of California executive.

The fight is not over. Look for fireworks in public hearings before the committee next month.

SUBSIDY ISSUE POSTPONED

The 9-8 vote by which the Bankhead anti-subsidy bill was defeated in the senate banking and currency committee came as a surprise to insiders.

When they first took it up behind closed doors, most members of the committee favored the bill, which would be reported out favorably and that Roosevelt would suffer a resounding defeat on subsidies. As it turned out, the deciding vote was cast by Republican Senator Joseph Ball of Minnesota, whom Bankhead supporters considered in their anti-subsidy camp.

Terrific pressure had been exerted on Ball by some of the big dairy interests in his state. However, the deciding vote was cast by a fearless statesman who believes in putting the interests of the nation and of the majority of the people over special or state interests. He not only voted against the bill, but also against the Taft compromise which was licked by a job sided vote.

TIP ON PEACE HUMORS

Note to New York stock brokers: When you get panicky over peace rumors, read the following words of Col. H. B. Walker, commanding officer at Fort Knox, Ky.

"There is much talk of early peace. If you were in a poker game, could you win the pot if you were to make peace now while the pot had not yet been captured?"

Notes of a Newspaper Man

"Dear Walter Winchell," affectionately writes Vivian Gardner of Dayton, Ohio. "I noted on the cover of Bob Casey's book that you might claim to his famous saying about newspaper men being such interesting people. I've written Bob's publishers including an item from your column in the Wisconsin News (Milwaukee) back in 1935 or '36. I've carried it all that time. To quote your column, you distinctly paraphrased: 'We always liked Bob Casey's parody on the cliché: "It must be swell being a newspaperman—you meet so many interesting people." Casey, a big-time Chicago scribe, says: "It's nice being in the newspaper business where you meet so many interesting people—because they're in it!" To this you added Jimmy Cannon's snapper. So I've asked the publisher just when you claimed it as original to a former staffer on the Wisconsin News and am here writing for an Air Force technical man. This is another time when you caught a heckler looking sappy."

A recent issue of Life has an engaging essay by the distinguished, Carl Mydans, who just returned from Japan. One observation in it deserves repetition: "Despite the fact that the United States has America's power, they temper their warnings about it with encouraging news of America's internal problems. The largest checks for two years can tell you all about the riot, the coal strikes, the train wrecks and industrial sabotage, the race riots, the biggest, the success of isolationist congressmen, the shabby politics, the grumbling under rationing."

In short—when Americans on the home front refuse to aid their country—they just aid their country's enemies. Yet some tell us we can separate domestic policies from foreign policies!

The Ohrid Garden

Speaker Sam Rayburn's greatest speech, urging the Congress to fight for our nation, instead of for pressure groups, etc. We are pasting it on our heart . . . The film, "Voice in the Wind" . . . Esquire's 1944 Varga calendar plus the epic of "Hitling Stack" . . . The new Latin Quarter show (via Our Girl Friday's endorsement) . . . Peter Donald's Mutual program—apologetic—novelists.

New York Newslets

The current song hit, "Paper Doll," was written in 1923 by Johnny Black. He first played it for his publisher as his pet canary chirped along, perched on Johnny's shoulder . . . E. B. Marks was so impressed he bought the song simple. . . He said, "that a bird can whistle should be a sensation" . . . But for some reason or other Mr. Marks never really plugged and it perished . . . Johnny Black died soon after. The Mills Bros. heard a small-time café singer offer it this year . . . But the Marks firm had run out of copies, and none could be found. Until Tommy Lyman located an old copy in his trunk . . . The Mills brothers then made a Decca recording of it, and "Paper Doll" was reborn.

Over a million platters have been peddled to date plus 700,000 or more song copies . . . Mr. Marks then turned the royalties over to the survivors to pay the royalties. He finally located Johnny's father living on an old "Tobacco Road" farm . . . The 82-year-old father of the late Black died young and penniless, will realize \$50,000 in royalties from "Paper Doll," which his boy wrote 21 years ago.

Many Editorialists

are putting about the press relations fiasco at Cairo and Teheran. They have good reason to be irked by the bungling, but under such petty annoyances to smother the great significance of the momentous confab? Why not devote more space to pointing out the real conferences making the greatest political victory in history? They marked the birth of civilization's greatest dream—the hope that the world would be at peace. Isn't worth more newspaper than the fact that an error was made in the release of the news?

Sounds in the Night

At Paris Quil Chanter: "She didn't add any weight, she multiplied it!" . . . At Jimmy Dwyer's: "He has a face only a good mother could love." At the Yacht Club: "I never feel my first dive trunks" . . . In Duffy's Tavern: "Aren't you too old to believe in Siamese twins?" At Jimmy Kelly's: "Weak? He wants suspenders to hold his shoulders on!" . . . In the Hurricane: "Falling in love is like falling downstairs."

DOINGS IN CONGRESS

By Cong. Wm. Lemke.

CONGRESS is getting ready for the second session of the 76th Congress since the adjournment of the Constitution. Many problems confront us. Among the first will be the discharged soldiers' mustered out pay, the closing of the first session 48 members attempted to get this done and most reasonable one offered.

THE AMERICAN people were disappointed to learn that the Army had discharged 900,000 men—many of them disabled—without any further provision except transportation to the point of enlistment. This was not the neglect of Congress. It was the fault of the Executive Branch, the War and Navy Departments.

ANOTHER problem to be solved will be the black market. The retail price of onions in Washington, D. C., is as high as \$1.00 a bushel. The onions in Washington are beginning to yell for roll backs and consumers' subsidies. Farmers are blaming the farmers. By the idle, I mean the lounge liars that lay around and refuse to work, but expect to get more than their share of the crop.

IT REQUIRES no great intelligence to know that the farmer did not get \$15 a hundred for onions. Some of the onions were only half grown and half matured. There is a suspicion that some of the dollar-a-bushel operators deliberately create black markets and that some of their profit because of black market. There are black sheep in every flock. Any way black markets are the result of the OPA.

AGAIN another problem is the marketing of hogs. Congress has authorized the War and Navy departments to buy, because

the eastern farmer needed for his daily crop. Yet, in North Dakota and other States, a great number of hogs are being marketed because of the blunders of the Department of Agriculture and other alphabet agencies. These hogs consume grain that could be used as feed in other sections of the country. The marketing of hogs because of the ignorance in operation.

OF COURSE, the lifting of the tariff simply means that the Canadians will add that much to the price of the goods. The farmer will be penalized because of these blunders. That is the price the farmer pays for not admitting to reorganization. Let us hope that this intelligent farmer will permit his reorganization to continue. He will not be deceived into asking for consumers' subsidies. He knows that consumers' subsidies are a mere deception. He knows you cannot pull yourself up by your own bootstraps. He knows that the soldiers, when they return, to pay part of his board bill—but he will demand cost of production.

CARD OF THANKS
The cards, flowers and many other tokens of sympathy and concern illness are greatly appreciated, and I thank you all.
Mrs. E. E. Markley.

SOLDIERS MADE HAPPY.
A committee report from Mt. Hope Lutheran church of the line Community Center on Wednesday may not only be interesting but perhaps an amusing work. The group was present in time to feed the boys on the first train which arrived at 10:00. About 1000 boys secured chicken sandwiches, cookies and coffee on that day.

The response from the congregation was magnanimous—it was almost beyond belief. At the close of the Sunday school service Sunday after the announcement had been made, one of the fathers who has boys in service handed a \$5.00 bill to an active member of the group, saying: "I am proud of you, boys."

The amount of food served consisted of 51 chicken sandwiches, 100 cookies, 14 lbs. coffee, 12 pounds of sugar, 10 cans of canned milk, 1/2 doz. quarts of milk, 112 1/2 lbs. of bread, 1120 sandwiches were served. At the close of the day it was necessary to purchase more cookies and coffee. The boys were happy to receive the sandwiches and expressed appreciation.
