Confronted with responsibilities of unprecedented proportions as the war enters its most crucial stage with a staggering task ahead in the postwar period, the American Red Cross opens its 1944 War Fund appeal next Wednesday, March 1, confident that the American people will respond to the limit of their ability.

The national goal is \$200,000,000 and for Richland county, \$90,000.00. Plymouth and Plymouth township are asked for \$1,000.00, the largest amount ever assigned to this community.

### Plymouth Wins

**PIGRIMS TO PLAY SHILOH IN SEMI-FINALS OF SATURDAY**  
The dope-book will have a few dents in it before the Richland County Basketball tournament is started. In the first section that Plymouth outplayed the team of the school that was not given a ghost of a chance to win. In the second section, look Lulo camp by the way, look 1 to 23. This victory was one to be cherished as two years ago they took Plymouth out of the running.

Never has Plymouth played with so much determination as was shown Tuesday. The Pilgrim spirit was on top and never once did it waver. Every boy on the team of the Twenty-first, the captain and maneuverer of Ream, the close guarding of Moore and the accuracy of Crockett, Tom Moore and Jake Berberick were features which any team may be proud to possess. The score by quarters is as follows:

Plymouth	1	2	3	4
Shiloh	1	1	1	1
Lucas	4	18	20	23
Plymouth	1	2	3	4
Lucas	1	2	3	4

Ream	FG	P	FT
Crockett	4	10	18
Berberick	2	5	10
Moore	2	3	1
Rhine	0	0	1
J. Moore	0	0	0

We were sorry Sid Thomas could not engage in this contest but he allowed his friends to sit along the side lines.

Plymouth meets Shiloh in the second and final game at 1:30 Eastern War Time or 12:30 Plymouth time. Shiloh has taken Plymouth twice this year. A good turnout is expected and winners are eligible to go to the district tournament.

**PATRIOTIC PROGRAM PRESENTED BY CLUB**  
Mrs. George Pickens welcomed members of the Citizens' Patriotic Circle at her home Monday evening. A patriotic program had been planned for the occasion with a roll call response of "patriotic quotations."

Mrs. Agnes McFadden read a paper on "The White House," adding interesting statistics about the White House, its furnishings and occupants. Her paper was read today in great contrast to that known by President and Mrs. Truman at 1600 Pennsylvania moved into the new home for Presidents, erected in a wilderness and containing only six poor but heated rooms furnished for occupancy. The presidential washing was then hung in the famous White House mansion today contains 53 rooms.

Following this, Mrs. Gaskill read "The Portrait of an American Family," the story of a Chinese couple who came to the United States, living in Chinatown in San Francisco. The children they have brought up, giving their children the privileges denied the parents. Mrs. Robinson read a description of 26 of our "National Parks." Interspersing this with personal anecdotes of places visited.

"American Music" was the subject by Mrs. Betty Miller, who sang several of our best known patriotic songs. A stanza of each was sung by the "American Music" accompaniment.

Mrs. Agnes McFadden was elected treasurer for the next year with Mrs. H. J. Moore as secretary, advancing to the next higher office: Mrs. Bailey will be president; Mrs. H. J. Moore, 2nd vice president; Mrs. Pickens, secretary.

Light refreshments were served by the club. The circle will be notified if there should be a change of place meeting, such as the school.

Mrs. and Mrs. Coy Hough and those of Cleveland were week-end guests at the home of Mrs. E. E. Haines.

### \$5000 Needed To Build Scout Hut

Through these columns it was recently intimated that a campaign would soon be launched to erect a permanent Scout Hut for local boys Scouts. This came about as a result of the Boy Scouts losing their present headquarters. Now that the Scouts are without a home, action is being taken to assure them a definite meeting place.

Contacts have been made with members of the Village Council and the Park Board, and those interested in building a Scout hut have been given the whole-hearted cooperation of both the council and park board.

A discussion was held Sunday afternoon at which time plans of the building and also financing were mainly one for organization. The meeting was a representative one including members of the Scout organization, members of the Methodist church, who sponsor the group, and, unofficially, two park board members. The meeting was mainly one for organization. Financing the building was the main topic for discussion, and it was estimated that a large portion of the labor will be donated.

Nothing Scout Week you no doubt heard the President and other high notables give worthy praise to the Boy Scouts of America and are making enviable records in our Army and Navy. Locally, Plymouth has a fine Scout organization, and if you keep up with the work they are doing, you'll realize that Plymouth should do nothing more than just stay in it.

It is believed that every citizen will want to have a part in the building of a fine Scout Hut. We know parents of Boy and Girl Scouts will do their part, but we will need help from every one to make this dream of our Boy Scouts come true.

The campaign is now on, and you are urged to give your support, your donation, or you may see any of the following men, who will be glad to give you an official receipt for your donation. The goal is \$500 — the building committee is ready to go to work as soon as the money is in and if you'll act in a hurry we can get the building completed in time for the summer. We'll have a call in any one of the following men to make your donation.

# 29 Japs Killed on Kwajalein for Every Yank

Approximately 8,000 Japanese were killed in the American invasion of Kwajalein atoll in the Marshall Islands. Only 286 Yanks met death in the same campaign. United States marine and army wounded totaled 1,148 and 52 men were reported missing. Top: Assault boats and alligators are shown as they reached the beach at Enubuj bringing men and equipment of the Seventh Division. It was this division which captured Kwajalein and adjacent islets. Bottom: A marine searches through the wreckage after the unprecedented naval bombardment which preceded the first American occupation of land held by Japan before the war.

# Fatigued War Pilots Recover in Atlantic City

Atlantic City, N. J., is one of the sites of an army air force relaxation and redistribution center. Here battle-weary pilots and ground crews rest and are reclassified before returning to combat duty. Left: Lieut. Thomas B. Dyer and his wife stroll along the sandy beach. Center: A group of veteran airmen enjoy a bicycle ride along the boardwalk. Right: While he was fighting in North Africa, Lieut. John R. Gilmore became a papa. Back at the A. & F. redistribution center he gets acquainted with his son, John Jr. They are pictured luncheon in the dining room of the Ritz hotel. Lieutenant Gilmore has 65 combat missions to his credit.

# Women Heroes of the Battle for Rome

U. S. army nurses on duty in Allied beachhead positions south of Rome take time out for chow. An Allied evacuation hospital in the beachhead area was bombed. An all out German artillery barrage was accompanied by enemy charges in an attempt to dislodge the Allies.

# MacArthur During South Pacific Tour

Gen. Douglas MacArthur, commander-in-chief in the Southwest Pacific area, is pictured chatting with Maj. Gen. Horace Fuller (left) and Lieut. Gen. Robert L. Richtberger, during a visit to troops in the front line area of the command. As the 1944 presidential campaign gets under way MacArthur will have to call the status of a possible candidate.

# 'Sold' for \$2,500

Lawyer Bill Murphy of Chicago, who "sold" himself for \$2,500 as an elephant washer at a bond auction. His choice was believed related to his status as a Republican.

# Accident Victim

Raymond Clapper, Washington newspaper columnist and radio commentator, who died in an airplane accident while covering the American invasion of the Marshall Islands.

### SIMPLIFIED TAX FORMS ARE REALLY NEEDED

THOSE GOOD OLD DAYS when the farmer figured his profits or his loss by what cash, if any, he had left at the end of a year are no more. His Uncle Samuel demands an accounting that means double entry bookkeeping and then some. Such a bookkeeping system as but few trained accountants could operate. He must know the cash value of the corn he raised and fed to the hogs; the cash value of the food he raised and fed to the harvest hands. He must separate the gasoline he used for farm work from that used in taking the family to the movies, to church or for any other family convenience. He can deduct from his taxable income the cost of repairs on such part of the family residence as is used for farm purposes but not on any portion used as a residence for his family.

He can eat the eggs the farm fowls provide and make no return on them but should Mrs. Farmer exchange some of those eggs for groceries the cash value of such groceries must be deducted as with a part of the taxable income.

These indicate but a few of the many items in the accounting system the farmer must operate if he is to comply with the demands of Uncle Sam and keep out of serious trouble. His problems are even greater, if that is possible, than those of the manufacturing industrialist. He must differentiate between what he and his family consume and what he provides for the preacher when the reverend gentleman drops in for a meal. It is all cooked in the same pot but one portion is deductible and the other is not.

The fact in income tax reporting for all classes of citizens has reached an impossible point. Just how impossible is illustrated by a 62-page explanatory book the treasury has issued. In an effort to tell his nieces and nephews just what they must do if they are to avoid a serious chastisement our Uncle has used some 50,000 words, and when you have read it all, if you ever do, you will be more confused than before you made an effort to understand.

The tax problem can be, and must be, simplified if the citizen of any class or in any line is to be expected to comply and pay his or her share. Under the present setup, as defined by the treasury department, it will cost the average taxpayer more to supply the information the government demands than the value of the tax he pays, without considering the headaches. The fines that can, and may, be imposed for a violation of the unexplainable rules can amount to more than the total tax collected. A bit of horse-sense simplicity is greatly needed.

### ENGLAND'S PRO-AGANDA IS EFFECTIVE

OLD ENGLAND is a clever and effective operator in the realm of propaganda. I do not condemn her methods or the results. I admire them and wish we, as a nation, could do as good a job. During World War I she invited to visit Europe as her guests several selected groups of newspaper, magazine, periodical and trade press editors. I had a first-hand view of the methods. To each and all of these editors was shown and told all of England's war efforts, the good and the bad. Quite naturally the good predominated. No favors were asked of anyone in any group. There was no intimation that publicity of any kind was desired. Through those visits the entire staffs of every publication represented were influenced and through their public sentiment for England was, and is still being, created. That sentiment is the foundation on which is built the respect, confidence and cooperation of the people of the two nations. A condition that makes for the good of civilization generally. England's clever and broad policies of propaganda and her methods of applying them result in a betterment for all the civilized world, including England. She is not afraid of the truth. What she does with weapons and deeds we attempt to do with dollars. In such a contest we play a second part.

### SOME YEARS AGO A CONCERN

that operated a number of branches suddenly changed hands. The manager of one of those branches writing to another of the branch managers, used the phrase: "It is good to be comfortable now." The man who wrote that was looking for an easy way of living, not for an opportunity for building success. When last heard from he was driving a coal truck.

NO INDIVIDUAL group, class or party in America has a monopoly on the desire and intention to win the war. Even the most rock-ribbed isolationist proposes to see that job to a finish. There might be an argument as to the methods or cost of winning, or under what leadership, but there is no argument as to the intended result.

COMPARING OUR LOT with those who have more rather than with those who have less, makes for discontent not unappreciated.

**INTERESTING LETTER**  
 FROM GENE CORNELL

Dear Mom and Dad:  
 Well, after a month I'll finally write a letter. I'm still unsettled but I'll be here long enough to wash my clothes and do some laundry.  
 As yet, Walter Sichan is the only lucky one to receive any mail, and that was just a post card from his wife. By the way did you ever get to call his wife? If you didn't I wish you would because she could tell you several things.  
 We sure have having fun over here—our whole gang is together and that makes it swell. I've seen quite a bit of England now, both from the air and from train. The countryside is quite beautiful from the air—so many variations of landscape, looks like a patch quilt with bright and dull colors blending into a design.  
 We hope to get a pass in the near future to visit London. We are also buying bicycles as they seem to be the main means of transportation.

The USO in the States is a wonderful thing, but over here the American Red Cross is by far better. At every field they have clubs with a snack bar, writing rooms, games of all kinds and reading material. They were at every field we landed at coming across and at some fields a mobile unit would come out with hot coffee and doughnuts before we would take off. So whenever the Red Cross comes around for donations give freely for all the boys appreciate the Red Cross.  
 "All the fellows I came home on furlough with are here writing letters. Bob Harrison from Tiffin, Sichan from Cleveland, and Davidson from Oberlin. It's swell to be together as we can always talk over things around home and good old Lake Erie.

I can say one thing for sure, and that is the food is swell—every place I've been so far it's better than in the States. Today for dinner we had Swiss steak, creamed peas, mashed potatoes, crushed pineapple, bread and butter and cocoa. I've gained weight so far and expect to gain more. We sure saw a lot on our trip over and really had a big time. We went to town at about every place we landed. Our mess was the biggest problem as we had to exchange it at about every field. I have quite a collection of foreign money now. I didn't have much trouble talking with people as we picked up a few of the important words and sign language on the rest.

I told you I met Bob Nimmons at one of our stops—it sure was a big surprise. I had eaten evening chow and was going out to guard our ship (keep the natives or any of Hitler's helpers from messing with it). I was walking up the road when a jeep came around the corner and I just happened to look up and see the driver. I saw it was Bob and soon as I saw him it flashed thru my mind that Helen Stetson wrote and told me he was there, but before I could collect my wits and yell, the jeep was down the road with me missing after it. I figured he must be going to chow so I waited outside the mess hall and sure enough about two minutes later he came walking up with his mess kit filled. We looked at each other for about two minutes and stood there for about 10 minutes—too surprised to talk. All the time he had been in the army in the States and overseas for 18 months, he'd never seen anyone from home. And all the time I was in the States I'd never seen anyone from home. He had to go back at midnight, so he came out to the ship and we talked until he had to go to work, and with him I just talked the rest of the night. We took off

that next morning at 5:30 a. m., or we would have had a big day. I never work, so we could have been together the whole day. To me that was a greater meeting than Roosevelt and Churchill.  
 I don't think I told you about the monkey I bought at one of the stops—he was a cute little devil and he flew right with us. He got air sick his first trip, but after that he was OK and would run all over the ship while we were flying. He would ride here on T. Courney's shoulder or on the control panel. He flew with us to England, but at our first stop we had to give him away. We had to travel by train and everything was so it would have been too hard to keep him with us. I have some pictures of him I'll send you one of these days. That's about all I can write from here so I had better close.  
 Hope Pete gets home soon and

hope every one at home is OK. Don't worry about me as I'm seeing England and learning how to bomb hell out of Hitler.  
 Keep writing and tell everybody else to write.  
 Love,  
 Gene
