County Has Huge Repair Program

More than $3,442,000 is expected to be spent during the next five years by Richland County home owners on remodeling and repair work.

The year 1946 promises to inaugurate one of the greatest eras in American history for home repairs and modernization, according to estimates released by the Tile Council of America. "Few developments will contribute more to employment and general prosperity in any community," according to R. E. Jordan, chairman of the Council's Residential Construction Committee.

Because of lack of materials and manpower during the war, majority of the county's 20,611 dwelling units are in need of some kind of repair or remodeling work. Kitchen improvements and modernization of bathrooms, installation of tiled showers and in some homes addition of a second bath top the nation's list of most wanted major improvements, Jordan said.

Outside paint jobs are needed on more than 50 per cent of homes, and addition of rooms and construction of porches also rank high in remodeling plans, according to the report. New roofing and heating plants are required by many dwellings.

Ohio home owners will spend an estimated $331,430,000 and those of the nation more than $5,500,000,000 for major repairs in the next five years, according to Jordan. Ample funds, at low interest rates, for such work are available through commercial banks, savings and loan associations, credit unions and mutual savings banks, he pointed out.

Price Control For Prosperity

It is apparent that many citizens who during the war, were staunch supporters of price control now feel that the dangers of inflation are past. Therefore some few advocate that all price control may now be thrown out and that there will be a few price raises, most of these of an insignificant nature. Impatience resulting from war time restraints is leading to a widespread tendency to let down the bars.

What happens when price controls are removed was demonstrated the past week. Citrus fruit growers had assured O. P. A. that there was a bumper crop and that prices would surely not go above ceilings. So price ceilings were suspended effective November 19th to January 14th. The very day controls were lifted, the price at fruit auctions jumped tremendously. Local Norwalk merchants report that oranges jumped $2.00 a crate and therefore they would not buy any California oranges, to sell at retail. Grapefruit is similarly jumping in price. Sauerkraut, as soon as controls were lifted, merchants report, jumped $1.20 for 12 cans wholesale. It is significant that every price rise reduces to that extent the value of every War Bond.

Every time the line is slackened at one point it is weakened at all points. That must be remembered whenever there is talk of lifting price control.

Governor Lausche of Ohio thinks the time has come for a buyers strike, to stop the trend of disaster.

We must have price control for prosperity.

Electric Users Get Free Bills

According to Clerk James Rhine, the Board of Public Affairs gave the citizens of Plymouth a real Christmas Gift at a recent meeting of the Board. The gift is in the nature of PREPAID light and power bills for the month of November. This is the second year the Board has taken the month of November to present the gift of prepaid bills; the two previous years, the Christmas present was handed out in the month of December. November light and power bills have already been mailed and marked paid.

The total amount of light and power bills for the month of November is estimated at $2200.00, which is quite a gift to the electric users of the community, and which is greatly appreciated at this time.

Discuss Xmas Lighting

At Monday night's meeting, three members of the Board, President Neal Shepherd, B. R. Scott and Harold Cashman discussed the possibility of getting up the Christmas lights around the Square. Inasmuch as Supt. Crawford was not present, no definite answer could be given as to whether or not the lights would be available this year. However Wednesday Supt. Crawford advised that at least a portion of the wire was in good condition and began on the Xmas lighting.

Last Official Meeting

Monday night's session was the last official gathering of the present three members of the board. Neal Shepherd has served three terms and four years acted as president. For the past two yearrs his fellow members were H. O. Downend and B. R. Scott, but in March, 1945, Downend resigned and was succeeded by Harold Cashman. Cashman and Scott were re-elected in November for another two-year terms.

During his term of office Shepherd has conducted the affairs of the Board in a business-like and satisfactory manner. Due to war conditions desired improvements had to be withheld, and the policy of the Board during the war years was to keep the distribution and water systems in as good shape as possible. Citizens of the community should feel grateful for the splendid work the Board has done during the emergency, and for the splendid effort put forth by Mr. Shepherd during his six years in office.

The Weather

The month of November, just closed, ran true to form—with many gloomy, cloudy days and drizzly rain.

TEMPERATURE—The highest for the month was 72 degrees on the 8th; the lowest 16 degrees on the 23rd. The average for the month was 42.4 degrees or 2.2 degrees above normal.

PRECIPITATION — The total for the month was 2.69 inches or 0.68 inch above normal. The greatest in 24 hours was 0.96 inch on the 17-18th. Total snowfall measured 2.2 inches. There was 16 days with .01 inch or more of precipitation; 6 days were clear, 7 partly cloudy and 18 cloudy. A thunderstorm occurred on the 17th.

As a whole, it was not a good month for farm work. Some corn and soy beans have not yet been harvested due to wet and muddy fields.

Wheat, generally speaking, has made good progress, although late planted wheat needs some good growing weather. What would help would be a nice blanket of snow — but we hope not like the one that began on December 11th of last year and remained on the ground for 72 days!

HERE AND THERE IN THE SERVICE

Ship Has Good Record

Robert Wayne Kessler, Route 1, Plymouth, Ohio, and other men serving on the USS MILLICOMA, a fleet oiler, helped her run up a Pacific war record of more than two years of operation before she was assigned to the occupation forces, then sent back to the States for decommissioning.

Beginning her war career on April 20, 1943, when she set sail for Aruba in the Dutch West Indies, her first cargo, strangely enough, was not fuel oil. Her forward tanks were loaded with badly needed high octane aviation gasoline, and her aft tanks were filled with salt water ballast. On her cargo deck, she carried trucks, landing barges, cylinders of compressed gases and drums of lubricating oils.

From that day on, the ship figured in many of the big scale operations in the Pacific, and when hostilities had ended, she was at Buckner Bay, Okinawa, from where she set sail for the little island of Matsushima off Kyushu, Japan, where she provided fuel and other provisions for the Fleet units assigned to the minesweeping task there. On Oct. 29 she joined other ships in Tokyo Bay.

The MILLICOMA sailed from Yokohama via the great circle route to San Francisco on Nov. 6, to end her wartime service as a Naval vessel with decommissioning at the Mare Island Navy Yard.

Completes Training

Pvt. James B. Kennedy, son of Mr. and Mrs. J. B. Kennedy of Plymouth, Ohio, has won the right to wear the "Boots and Wings" of the United States Army Paratroops. He has completed four weeks of jumps, the last a tactical jump at night involving a combat problem on landing.

Jumping at The Parachute School has steadily developed to a recognized war science. American Paratroopers have been recognized throughout the world for their meritorious actions against the enemy.

In addition to producing jumpers, Parachute Specialist Training is given to qualified men in Communications, Demolition, Riggers and Parachute Maintenance, vital skills for Airborne Troops.

It is hoped that every member of the lodge will be present for the installation, the presentation the fellowship hour and refreshments.

Around the Square

(By Phineas Whittlesead)

IT HAPPENED AT HOME—In Chicago, Mrs. Rita Hatfield ran to answer the phone, stumbled over the dog, fell through a glass-topped coffee table, suffered bad cuts on her arms and legs. Determined to answer the phone, Mrs. Hatfield found the call was from an accident insurance company making a survey. Was she, they wanted to know, covered against accidents in the home? She wasn't.

MAYBE YOU DIDN'T realize it when you were making out those checks Monday for the payment of bills, but it won't happen again for a hundred years—that is to write the date numerically so that there are five digets in sequence—12-3-45. The next time you can do that again will be Jan. 23, 2045.

DELMAR NESBITT of Shiloh was in too much of a hurry Sunday afternoon when he made a turn on the Square to take 178 into Shiloh. Nesbitt passed through town at 3:15, just as a state patrolman was about to enter a local eating house. The patrolman was attracted by Nesbitt's speed, and proceeded to see just how much of a hurry the motorist was in. Well, Nesbitt's car was a 1936 Ford, and he admitted he didn't realize just how fast he was going. But at mayor's court Monday night, Mayor-Protem Ott Kinsell fined Nesbitt $10.00 and costs, making a total of $14.70.

IT TOOK NINE shots, four effective, for Vern Cole to get his deer, but it was worth it, so says Vern. He and Mrs. Cole have been visiting for a few days around Huntington City, Pa., and Saturday, when the deer season opened, Mr. and Mrs. Cole went out to try their luck. They were hunting only five hours when Vern bagged an estimated two hundred pound buck. They arrived home Monday. In telling of his "kill," Vern said the deer came out of a ravine into an open field. It was here he began shooting, and after the first shot the deer jumped a fence over onto an old railroad right-of-way; Vern climbed the fence and took another shot, and the deer jumped the fence again into the open field. This kept going on until Cole fired nine shots, when he found that it took five shots to bring the deer down. At the final drop, the deer plunged over a steep embankment, and it was quite a task to get the prize buck onto level ground. "Well, it wouldn't be my luck to kill anything with one shot . . . a year ago when I went pheasant huntin' it took thirty-three shells to get one bird." And one would never think Verne was of the nervous type.

WE WOULD LIKED to have seen Mrs. Chas. Wentland's face on Wednesday morning when she opened her door to get the mail and found—of all things—a pair of men's shorts hanging on the knob. We hope they fit, Charlie.

JUST A REMINDER that "Music for Millions" opens at the Plymouth Theatre midnight Saturday, for a 2-day run, Sunday and Monday. If you want real entertainment, see this show.

SOMEONE told me that New Haven has a real basketball team. Don't give up, boys!

DID YOU have a candle last Friday night? We really don't appreciate electrical energy until it is gone — and for six and one-half hours we stumbled around in darkness when a breakdown occurred at Vernon Junction station of the Ohio Power. The shut down caused considerable extra work at the F-R-H foundry when the cupola had to be emptied.

ACCEPTS POSITION

Eugene Stotts has accepted a position with the Miller Bros. Grocery Store in New London and has begun on his new duties.

Dance To Follow Basketball Game

After each home basketball game the student council sponsors a dance. Music is furnished by the school record player. Every one is welcome. The admission charge is either 5c or the TAG showing membership in the Athletic Association.

After an unsuccessful attempt to start the Association last Friday when the town was in darkness for six hours, another attempt will be made Friday, Dec. 21st. Further details of the program will be published next week.

Doings In Congress

By CONGRESSMAN WILLIAM LEMKE

Thanksgiving has come and gone. Most of us were thankful that we had a place to stay and enjoy our dinner. Thankful that the western hemisphere is at peace. Sorry that in Europe liquidation is still going on—millions being starved deliberately for political reasons. Sorry that China is now engaged in civil war. Sorry that the Dutch and the British are exterminating people in east India, Asia and Africa, who demand their liberty.

The excuse that these people are incapable of self-government is false. The people of India and Asia governed themselves long before Great Britain, Holland or the United States existed. They were capable of governing themselves then, and they are capable of doing so now. Read your ancient history.

Let us hope that sooner or later our Government will demand justice and self-determination for all people through the United Nations Organization. Let us demand that the United Nations' Charter be turned into a living reality. That it become the instrument that will liberate the people who are still under a foreign yoke—that it become a living force for lasting peace and justice.

In our own country there are plenty of headaches—many more to come. The reshuffling and readjustment of fifteen million civilians, and ten million veterans will tax our ingenuity. The end of a war always brings domestic confusion, a lowering of morals and restlessness. It creates a sort of "what do I care—the world be damned" attitude.

The idea that we are going to keep up full production, and give our natural resources away to other nations, by giving them our taxpayers' money with which to buy our goods, is not only idiotic, but verges on insanity. We are willing to help feed and clothe those in hunger and want, but we are not willing to destroy ourselves. We will not deplete our natural resources in order to permit a few multi-millionaires to pinch a few more pennies out of our taxpayers via foreign nations.

Congress has many important issues to determine. I hope it will continue to consider these problems carefully. It is our duty to build a greater and better nation. It is our duty to openly and boldly demand, through the United Nations Organization, that liquidation in Europe, Asia and India stop. As the leading advocate and member of the United Nations, it is our duty to see that that organization functions for humanity and decency.

We must break its dumb silence. There has been altogether too much suppression of truth, too much secrecy and too much covering up. Let us not be guilty of another Pearl Harbor affair. Let the world know the ugly truths if there are any, and it will not be necessary to have World War III. Public opinion, when aroused in time, will be more effective than peacetime universal military training.

WAITING TO BE FILLED

There are still many important shoes to be filled before we can again provide unlimited telephone service for everyone. Many of the men we require to build, install and repair telephone equipment are still in service. As a result, both men and some equipment are still irreplaceable. But you can be sure that as quickly as these vital men return, we will provide telephone service just that quickly for those who desire it.

Homogenized Milk Available

Plymouth and Shiloh patrons of Lofland's Dairy will be interested in knowing that they can now secure homogenized milk. Robert Lofland, proprietor, states that he has just completed the installation of the homogenizing machine, which has a capacity of 125 gallons per hour. Through homogenizing, whole milk is taken through the machine as it comes from the pasteurizing equipment, and under a 2800 pound pressure the butterfat in the whole milk is broken into millions of molecules. After this process the butterfat remains mixed in the milk, never coming to the top as in ordinary whole milk.

Scientists claim that homogenized milk is more digestible than whole milk, containing more food value, and is especitily desirable for babies.

Mr. Lofland states that those wishing to try out homogenized milk may secure it from local grocery stores or from the truck. With the addition of this new machine Lofland's Dairy brings to Plymouth the most modern facilities in handling and marketing milk. The plant now operates automatic bottlewashers and filling equipment, plus pasteurizing machines, which insures a low bacteria count at all times.

Miss Ruth Virginia Hedeen Weds Robert R. Robinson

Saturday evening at 7:00 o'clock, Miss Ruth Virginia Hedeen and Robert Raoul Robinson exchanged marriage vows at an open candle light service in the Lutheran church at this place. The bride is the daughter of Mrs. Lois Hedeen and Mr. Robinson is the son of Mrs. Helen Robinson of Milwaukee, Wis.

Rev. Henry E. Boehm officiated, following a half hour program of music which opened with a piano and organ duet, "In a Monastery Garden," played by Miss Floy Rose and Mrs. Maud Ruckman. Among Miss Rose's other organ numbers was At the End of a Perfect Day, and Oh, Perfect Love. Mrs. Dorothy Johnson of Beaver Falls, Pa., sang Because, Through the Years and I Love You Truly.

The altar, before which the single ring ceremony was read, was banked with palms, ferns and jardiniers of white chrysanthemums. Placed at the head of these were two seven-branched candelabra, with other candles lighted throughout the auditorium.

The bride, given in marriage by her uncle, Elmer Hedeen, was lovely in a formal gown of white bridal slipper satin made with long-sleeved basque and full skirt which fell into a train. She wore a finger tip veil of silk illusion.

Only attendant for the bride was Mrs. Phyllis Hoppman of Cleveland, who wore a formal gown of blue velvet. Little Sarah Ann and Sonje Hedeen acted as flower girls.

Leray Scrooge of Chicago was best man and Lieut. Robt. Gump and Wm. Hoppman, both of Cleveland, seated the guests.

A reception for about 60 guests at the home of Mr. and Mrs. Elmer Hedeen of Mansfield, followed the ceremony.

For traveling, Mrs. Robinson changed to a green wool suit with which she wore black accessories.

The newly-married couple will make their home in Chicago.

Before her marriage, Mrs. Robinson was employed as stewardess by United Airlines with head quarters at Chicago. Mr. Robinson was employed as pilot by the same firm.

Among the guests from a distance were Mrs. Helen Robinson, Mr. and Mrs. Stuart Anderson & two children, Misses Laura and Margaret McNulty, Miss Virginia Palmer and Miss Gennke, all of Milwaukee, Mr. and Mrs. Curran and two children, Mrs. Alice Traut, Mrs. Malcolm Ware, Mrs. Robert Gump, Miss Doris McAusland and Mr. Boris of Cleveland; Lieut. and Mrs. Vernon Schiving of Indiana, Pa., and Miss Margaret Harnly of Columbus.

MARRIED QUIETLY

A marriage of interest to the community was that which took place Thursday evening at the Lutheran church and which united Miss Betty L. Sloan and Harold Dean Hamman. Rev. Henry E. Boehm officiated, using the single ring service.

Their attendants were Mr. and Mrs. Jack Hamman of Shelby.

The young couple expect to make their home on a farm east of town.

A dinner for the newly-weds and their immediate families was given Sunday at the home of Mr. and Mrs. J. B. Zeigler.

A committee, with Dr. Butner as chairman, was appointed to look after shrubbery to be placed around the school building.

If you didn't listen to the girls sing and you will understand what we mean.

New Schedule

We have again changed our class schedule to cooperate with farm shops. All students will please notice the bulletin board in the upstairs hall for changes made. Thank you.

Big Party

Last Saturday night we had our party for the winners of the magazine sales. There wasn't a very big crowd, but those that came enjoyed themselves. A covered dish supper was served. Entertainment of dancing, musical chair and an amateur hour was enjoyed by all. Sorry that more didn't turn out. I'm sure that they would have enjoyed themselves.

Dancing

There is still dancing at noons. We have some of the latest records to dance to, blues, rhumbas, polkas and anything. We might even pick up a few square dances if you wish. Some of these boys are getting to be real hepcats. Especially Bill Halliwell. He's fotgot more about dancing than most of us ever knew. The trouble is, he can't remember it.

Seventh News

There has been one new pupil in the seventh grade. Her name is Pearl Wheatcraft from Bucyrus. We wish to welcome her.

Junior Class

We are picking out our play which will be presented next spring sometime. We are starting early as to get a good head start on learning it. Will inform you more about the name as soon as we decide.

Senior Class

Senior class play will be presented Friday Dec. 21st. The name of the play is "Heart Trouble." The cast is as follows:

Ronald Randolph by Howard Clark; Roy Roberts by Dick Clark; Robert Roberts by Bill Halliwell; Martha Mason by Jeanne Wisler; Zelda Sanderson by Ruth Bell; Rosa Rosebelle by Mary Benedict; Roxanne Raymond by Naomi Wolford; Josephine Salisbury by Betty Ernst; Drusilla Gibbs by Marlyn Brunn; Claribel Baker by Merilyn VanWagner; Nella Adams by Donna Garrett; Otto by Darell Hudson.

For more information, please read this again next week. I'm sure you'll be interested. The play is really a thriller from start to finish.

Lose Game to Tiro

Shiloh Drummer Boys were defeated by Tiro last Friday night. The score hitting 27 to 45. We tried but didn't succeed. We hope to do better next time. This Friday night we play at Lexington. Good luck, boys!

Snooper

Here we go again:

We wonder why Doug's favorite song is "Gimme a little kiss, will you, huh"? He certainly got his question answered, and in a hurry. Right Joan?

It seems as though Mr. Ratcliff and Mr. Mylander can't get together on this play practice business on Sunday afternoon. You should have seen the bunch of seniors with hot tempers. MY!

It seems as though Ruth has changed her mind again. That girl!

Have you seen that new ring Bonnie is flashing around. It really is beautiful, how about it Jonsey? Tut! What love won't do!

Mrs. Shannon is back to school this week. But oh, what a daze she is in. Mm, so that is what Davie does to her. No wonder two years is a long time, since no see, baby.

We wonder why Bill Halliwell was so mad last Friday afternoon? Some fun. But definitely!

Betty Jean is dreaming of a White Christmas, with Bell Bottom Trousers. Sounds dumb does it not? Now I wouldn't say that, Snooper. It will be heaven!

The reason Jeanne Wisler is turning cartwheels down the hall today isn't because she's crazy (I don't think) but because her man got a discharge, Oo-la-la.

Oh, well, ignorance is bliss.

So long for now. We shall see what the future foretells.

"My Soul Danced." And while it danced "my heart stood still," says Gilda Gray, shimmying star of stage and screen—for though her career brought her fame, fortune and adulation, she never could fall in love. IN SHELBY HOSPITAL

Mrs. D. E. Scrafield was removed Sunday to the Shelby Memorial Hospital for treatment, in the McQuate ambulance.

Deer Season Here

Applications for deer hunting permits swamped the District Offices of the Ohio Division of Conservation in the final week before opening day. The season opened on December 3 and will close December 8. Latest tabulations indicated that about 8,000 hunters, nearly as many as last year, would take to the woods during the seven-day season.

No estimate of the number of deer has been offered to indicate the hunters' chances in more than 60,000 acres of forests open to hunting in Adams, Pike and Scioto counties. Surveys by experienced field men have indicated the herds were more widely scattered than in former years and that bagging his quota of one buck would be a feather in the cap of the hunter this year.

There was no charge for deer permits this year and they were given to all who applied for them. Hunting is permitted only with shotguns loaded with single ball or slug and bows and barbless arrows. Hunters are required to wear red as a safety feature, and to display their regular state hunting license on the backs of their hunting coats.

"Me . . . I'm staying in the Army!"

★

THERE ARE PLENTY OF REASONS . . . AND HERE THEY ARE!"

1 "First, I keep my present grade. That means a lot.

2 "By reenlisting for 3 years I can pick my own branch of service in the Air, Ground or Service Forces, and can go to any overseas theater I wish.

3 "I get my mustering-out pay, even though I'm reenlisting. Also, I get $50 a year reenlistment bonus for each year I've been in the Army. My dependents receive family allowances for the full term of my enlistment. And I'll be eligible for GI Bill of Rights benefits when I get out of the Army.

4 "My food, clothes, quarters, medical and dental care are all supplied to me. And I can learn any of 200 skills or trades in the Army schools.

5 "All of us who are reenlisting are going to have from 30 to 90 days' furlough *at home* with full pay and our travel paid both ways. And we'll have 30 days' furlough every year with pay.

6 "Any time after 20 years I can retire at half pay increasing year by year to three-quarters retirement pay after 30 years of service. And the time I've already served in active military or naval service counts toward my retirement time. *Added up—reenlistment seems pretty sound to me!"*
