

WRITES OF NAZI HORROR CAMPS

It will be a long time before Pvt. Frank H. Baurns of Celeryville gets over the affects of his recent visit to a concentration camp in Germany. Even though we read in the papers of the atrocities and see the movies, we still have the feeling that perhaps the Nazi crimes have been enlarged upon as propaganda. However, after reading the following letter to Mrs. John Baurns of Willard Rt. 2, there is no doubt left that the atrocities are true and that our boys overseas have witnessed the "unbelievable."

May 1st, 1945
Somewhere in Germany
Dear All,

I received your letter of the 10th two from Aunt Lily, one from Mary and from Aunt Ann, and a box of candy from Aunt Ann and that really was good, but I didn't feel a bit like eating all day. I witnessed some things that day that are beyond all comprehension. It makes me sick when I think of it and I believe it will the rest of my life.

I'll try and tell you a little of what we saw and you probably won't believe it. You've heard of those Nazi concentration death camps. Well, that's just what I went through today from one end to the other, and it's horrible.

Right off one side of the road, is a string of boxcars of about 50. Each car was full of human bodies that had died of starvation and disease in traveling. They had cleaned some of them out. Several were still as they were when they died. All the bodies huddled together to try and keep warm. They were then beyond imagination. Eyes sunk deep in their heads, arms and legs about an inch thick. Just skin stretched over bones.

At the end of the train was the crematory where they disposed of the bodies. There were two rooms about the size of our cold storage piled up about six feet high with naked bodies, that had been waiting to be cremated when the G. I.'s arrived. I imagine there was over a thousand in each room and I don't know how many in the cars. Another big room was full of stoves where the cremation took place.

We talked to some of the prisoners that were made to work in there. They said that in the last three months they cremated over 11,000 prisoners, and that's been going on for years. They'd been working there themselves for over a year. They said that they were farther along was the camp itself. There's supposed to be 30,000 prisoners in it now and its really pitiful. Those that were able to walk and begging for food and cigarettes. Another don't dare give them a thing because they'd kill each other to get them.

Inside the filthy barracks and hospital were the living dead. Kids of 12 to old men of 60 that looked just like the bodies we'd seen in the cars, except they were breathing.

I don't see how they stayed alive. I suppose the biggest share of them will die because they're shrunken up so much.

Some of them could speak English and they said they'd been prisoners for five years. Almost all were Poles and Russians. When Germany invaded their countries they set out to kill all the people. Babies were taken from their mothers arms and were smashed to the ground. Those that refused were killed by dogs the Germans had. They then marched the male prisoners through Berlin and the smallest kids were trained to spit on them and call them swine. They'd been to several concentration camps but this one was the last. They said they never thought they'd see the Americans and they were overwhelmed with joy.

Some of the prisoners broke out when the G. I.'s were coming and they really fixed the guards. When they caught them they beat them up beyond recognition and watched them die. Their hatred for the S S troops is beyond stopping. They killed one by sticking a poker through his head and pinning him to a tree. Some of our boys were in one of the warehouses when a Russian came in and said there were three German officers in the cellar.

He grabbed a hammer and went down. Later he alone came up with a bloody hammer. German civilians lived within a few hundred yards of the camp and they must have known what was going on because the stench is terrible. I don't suppose you would believe it I never did either, fully until I saw it. I believe everything now. You'll probably see some pictures of it and you'll see propaganda pictures, but it isn't because I've seen it all and it's all true. God surely has some reason to allow this to go on. He surely won't allow things like

ANOTHER CHORE FOR MILLIONS OF FARM BOYS

This official U. S. Navy photograph of American boys landing under enemy fire on a Pacific island is typical of the hard, bloody jobs our troops are doing—and will have to continue to do for many weary months to come—for you and for all Americans.

Give them a hand—

BUY TWICE AS MANY BONDS IN THE MIGHTY 7th WAR LOAN!

The time is ripe.

It's now—now when America can't afford to falter . . . NOW is the time for you to back up our fighting men by buying **twice as many** War Bonds in this mighty 7th War Loan as you ever did before!

Does that seem like too much of a chore? Would you rather wait until crops are in and you have more cash?

You wouldn't, if you could see how urgent it is to act now.

Up to this time last year there had been **two** war loans. This year, the 7th War Loan must raise almost as much as two loans last year. That's why you are asked: Buy twice as many Bonds in this mighty 7th War Loan!

Regardless of what has happened in Germany, we must still send our millions of men in Europe tons and more tons of supplies daily.

In the Pacific we still haven't gone all-out against Japan. We must build new, deadlier, more costly planes . . . harder-hitting tanks . . . new warships . . . and more of everything than ever before, if we are not to let our boys down just when they need our help the most.

And we, all of us, have a new responsibility . . . to the thousands of our wounded. We must see to it that they get the best of care, the best of medicines, the best of everything through the long, pain-filled months of their recovery.

All this takes money. That is why your country is again asking you to lend your dollars by buying twice as many Bonds as you ever did before!

RATION NEWS

The Mileage Panel Chairman, Mr. Parke, wishes to caution the people of Huron County as to the availability of tires and the increased rations of gasoline.

He states that although the National Quota of tires was increased, this Board has on hand two and one-half times as many approved applications as there are tires remaining in the Local Quota.

The truck tire situation is equally as bad.

The increased "B" gasoline rations will be given only to those who can show an increased need.

The increase is not available for all B book holders unless changed conditions exist.

The Food Panel calls attention to the requirement that Five Pound Canning sugar coupons must be endorsed with the signature and Book 4 Serial Number of a member of the family unit. Any member of the family unit may endorse all of the coupons if he desires. However, the Book 4 of the signer must be shown to the grocer when canning sugar is purchased.

Increase Civilian Goods Output

More Items Will Appear in Markets by End of the Year

By Al Jeddicka

Limited only by the material and manpower demands of the Pacific war, civilian goods will return to the nation's markets in increasing quantities by the year's end, and with the war production board's plans for 1945 calling for 200,000 new cars, 530,000 refrigerators, removal of quotas from farm machinery manufacture and expanded output of many utility items.

Mapped to mesh with war production for the one-front clash with Japan, the WPB's civilian goods program actually will not get underway until July 1, when the agency is expected to set up an uncontrolled supply of metals for manufacturers.

In the meantime, the latter will be able to use such excess or surplus stocks of steel, copper, aluminum, etc., as they can find. Though war production will continue to play the major role in the industry, Mr. Jeddicka brought to its knees, the tapering of demands for arms and supplies as a result of Germany's downfall will release sufficient amounts of material and manpower to permit large-scale output of civilian goods.

Until Japan has been beaten, however, over-all stocks of civilian goods will remain spotty because many big manufacturers along with thousands of small sub-contractors will concentrate mainly on war production. Nevertheless, the increased flow of merchandise reaching the market in 1945, in the year should help relieve the acute shortage experienced in many lines.

In announcing the manufacture of 200,000 cars and 530,000 refrigerators this year, the WPB revealed that the steel production will be rationed to meet the needs of essential users. With output of both lines increased in 1942 when the industries switched wholly to war production, stockpiles of cars have dwindled from 200 to 60,000, and of refrigerators from 600,000 to 35,000.

Thursday evening, The prizes were awarded Mrs. Neil Ruckman and Mrs. Nadine Butler.

Prices for the new refrigerators will be based on 1944 levels, OPA says with allowances for increased labor and material costs.

Though quotas for farm machinery production have been lifted, actual volume of output will remain dependent upon availability of material. Restrictions on certain rubber-tired equipment also will tend to control production although such regulations have less effect on wheel-type tractors, combines, hay balers, corn pickers, cane harvesters and loaders, power sprayers, manure spreaders, beet, cotton and vegetable thinners, dusters, rice binders, field ensilage harvesters, potato diggers, beet harvesters and loaders, cotton and hops pickers, mowers, threshers, cylinder corn shellers, buskers and shredders, wagon and truck gears and other such items.

At the same time, the WPB relieved industrial users of farm machinery and equipment from the necessity of obtaining a certificate for purchase of such items as tractors for road building, etc. In removing controls from 1,300 small civilian items, WPB permitted resumption of production of juke boxes, pinball and slot machines and coin-operated amusement machines.

PARTICIPATE IN DANCE REVUE AT MANSHFIELD

Three of Plymouth's younger set participated in the brilliantly costumed dance revue, "Dance Sacket," in Mansfield, Monday, Tuesday and Wednesday of this week.

The show was held in the Senior high school at Mansfield and was comprised of more than forty group and individual numbers, including tap, acrobatic and ballet dancing, staged and under the direction of Ethyl, Battin. More than one thousand parents and friends of the performers were on hand for the opening night.

"Dance Sacket" is sponsored by the Richland county branch of the Crestline Canteen, which services service men passing thru the town and proceeds of the three nights will be contributed to the branch.

Diana Bachrach was a member of the cast presenting "The Tunes" and William Bachrach participated in the number "Beau Catcher and Mr. Dandy." Both are children of Mr. and Mrs. David Bachrach.

Miss Gwen Webber, daughter of Mr. and Mrs. Thomas Webber, took part in the performance of "Shalimar."

MRS. FORD DAVIS ENTERTAINS DINNER

Friday evening Mrs. Ford Davis entertained members of the seventh and eighth grades and also members of the baseball team of the Ripley Centralized school in the recreational room on the third floor of her home on North Street.

Mrs. Davis, who has taught in

the Ripley schools for the past three years, has made this an annual event, but this year it was also in the nature of a farewell as she has resigned her position in the Ripley schools and has accepted one in the Plymouth schools.

Miss Marilyn Sparks was in charge of the games, and prizes were won by Wesley Brewer, Adrian Briggs, Shirley DeVoe and Janice Silliman.

The group was invited at the close of the evening to the dining room where refreshments were served buffet style. Purple and gold flowers centered the table, the class colors, and golden candles in crystal holders added their beauty to the appointments.

In addition to the class there were four guests present, Jack DeVoe, Loren Figley, Gordon Figley and Earl Ebinger.

\$300 For Cancer Drive

Mrs. E. R. Haines announces that Plymouth has contributed approximately \$300.00 in its drive for the County of Cancer. The containers which previously were placed in business houses have been taken up and with the canvass of the town by the workers, as well as the sale of tags to the girl scouts, a total of \$300.00 will be realized.

The drive for the control of cancer, acclaimed by medical authorities as the greatest killer of women and the second-greatest killer of men, was started nationally in the early part of April. Shelby has been very active in the drive and are hoping to set up a clinic for the detection of cancer and has invited Plymouth and Shiloh to go along with the project.

SOLDIER NEWS

News From Liberated Pilot

Mr. and Mrs. Bruce McQuown have received their first direct word from their son, Lt. F. Nelson McQuown, this week. First, missing in action in Yugoslavia, later they learned he was a prisoner of war, and last week they were notified he was liberated. Few details have been received and they are anxiously awaiting a phone call on his arrival in the States. The letter follows:

May 17, 1945
Dear Folks: Just a few lines to let you know where I am, and what I am doing. First, I am at camp near a port in France, and second, waiting shipment home for a sixty day leave.

I expect to be home in three weeks or so. Am feeling well and enjoying this army chow as never before. So far have been spending most of my time reading to catch up on the news, etc.

Would like to know how you all are, but will have to wait until I reach the States, then you will, and hope that you folks are well, and I'll be seeing you.

Your son—Nelson.

Goos to California

Pfc. Stanley Schneider left on Tuesday for Santa Anna, Calif., for reassignment, after spending several weeks with his parents, Mr. and Mrs. Jacob Schneider. He left from Fremont, O., where he had been visiting his sister, Mrs. Albert Golding and husband. His mother and younger brothers and sister also spent the day in Fremont at the Golding home.

Assigned to California

Lt. David W. Jump, son of Mrs. O. V. Jump of Willard, who served approximately two years in the Caribbean area at Puerto Rico, has been assigned to the Sacramento Air Technical Service Command, McClellan Field, Calif., where he is an assistant officer in the disposal section.

Lt. Jump enlisted in 1941 and later attended officers' candidate school at Camp Lee, Va., where he received his commission in July, 1942. His overseas tour of duty followed immediately. Returning to the United States in June, 1944, he remained at the Fresno relocation center until reassignment to the Sacramento headquarters in late December.

Lt. Jump is a native of Willard, in Sacramento with Mrs. Jump, his home is at Route 9, Box 3022.

Mrs. Jump is a former Plymouth High school teacher, and Mr. Jump is a brother of Max Jump, owner of our local men's clothing store.

Stationed at Artterbury

Cpl. Bernard VanderBilt, son of Mr. and Mrs. John VanderBilt, who has been stationed in Canada, has reported to Camp Artterbury, and will now be stationed there. His wife will probably remain with him. Friends may reach him at 1560 S. C. U., Reception Sta., No. 6, Camp Artterbury, Indiana.

AT CAMP ELLIS, ILL.

Ward Gardner who was recently inducted into service is now stationed at Camp Ellis, Ill.

GOES TO CAMP ORD

Lt. Eugene Piller and wife who have been visiting in Willard and Plymouth returned Saturday to Camp Ord, Calif. He has recently been promoted from second to first lieutenant. Lt. Piller is a brother of Mr. Woodrow Ustis of Plymouth. Lt. Keith Sherck of Willard and also known in Plymouth, accompanied them to the same camp where he expects to be stationed.

Cpl. Lyle Biddinger of Fort Story, Va., is spending a few days with his wife and other relatives.

Flew With "Jolly Roger Crew" FIFTH AIR FORCE, PHILIPPINES — Staff Sergeant Charles S. Moore, 24 North St., Plymouth, flew with the famed Jolly Roger heavy bomber outfit in the first mass daylight raid on Hong Kong, China, by Philippine-based Liberators.

The sergeant, engineer-assistant gunner in the crew of a Liberator, calls the Hong Kong raid his "most memorable mission."

Sergeant Moore's Jolly Roger group is a part of Major General Ennis C. Whitehead's Fifth Air Force and has been pounding the Japs for over 30 months. Other impressive Jolly Roger "firsts" were the raids on Hollandia, Rabaul, Wewak and Celebes, the Philippines and Formosa.

ARRIVES UNEXPECTEDLY

Ralph Scott arrived home unexpectedly from Palm Springs, Cal., Sunday, for a two week visit with his parents, Mr. and Mrs. R. Scott.

KILLED AT OKINAWA

Edward J. Nerad, 18, who left Willard High School more than a year ago to enlist in the Marines, was killed on Okinawa May 10th according to a message received by his father, Martin Nerad.

LIBERATED

Lt. Reginald Smith of Shelby who was listed as missing, later turning up as a prisoner of war, has been liberated and is now waiting transportation at Le Harve, France, to the United States. He is a cousin of Mrs. Philip Moore of West High St.

ROY SHAFER, S. 1/c IS ABOARD THE DESTROYER MURRAY IN PACIFIC

Roy Shafer, signalman, U. S. Navy, whose wife, Mrs. Lilian Edith Shafer, lives at 25 Sandusky St., Plymouth, Ohio, is serving aboard this gallant destroyer of the U. S. Navy, "Sheepdog," which has taken part in more than a dozen major engagements in Pacific waters since being commissioned two years ago.

She first went into combat when she took part in the bid raid on Wake Island in October, 1943. Later she participated in actions at Bougainville and Rabaul.

In November, 1943, she joined the Gilberts invasion force in time to go into Tarawa with it. While there, she gave burial at sea, with full military honors, to some of the marines killed in the beach assault.

The Murray struck close to the Japanese mainland in February of this year, acting in a screen for the carriers making strikes on Tokyo. To celebrate being in sight of the snow-capped mountains of the enemy homeland, the Captain, Cmdr. Paul Devos, Miami, Ariz., ordered a special treat of ice cream for all hands.

Eight American pilots shot down at sea have been rescued by the Murray. She has shot down many enemy planes.

PFC. JOHN R. COE

NO. 1 IN FRANCE
A FIRST TACTICAL AIR FORCE FIGHTER — BOMBER GROUP, France: Pfc. John R. Coe, communications technician with the Invaders, a F4U fighter-bomber group of the First Tactical Air Force is now stationed in France.

The Invaders moved up from Italy to participate with the 7th Army in the upper Rhine offensive. In their two years of overseas duty, they flew more than 3000 missions in Africa, Sicily, Corsica and Italy and were awarded the War Department Unit Citation for their work in the drive which smashed the Cassino stalemate.

Private Coe's mother, Mrs. A. Coe, lives at 64 Sandusky St., in Plymouth. He attended Plymouth High School before he entered the Army.

ARRIVES IN STATES

Mrs. Jane Curpen Dones of Columbus received a telephone message Thursday from her husband, Pfc. James Dones that he had arrived safely that day in New York from England.

Pfc. Dones has been overseas a year this month and has seen action in both France and Germany. He was wounded July 15th last year at St. Lo and received the Purple Heart. He rejoined his outfit and was wounded the second time on Feb. 23rd in Germany. His leg was badly injured and he is still confined to his wheelchair. He hopes to be assigned to a hospital near his hometown of Columbus.

PROMOTED

Robert Moore, son of Mr. and Mrs. Philip Moore, has recently been promoted to private first class. Bob is with the Seventh Army and is now somewhere in Austria.

Edward Croy, grandson of Ben Parsel, writes this week to his cousin Richard Lowry which we print telling of the liberation of four thousand prisoners of war.

Brannan, Austria
May 12, 1945

Hi Richard,

Well, here I am sitting in a house in the town which was Hitler's birthplace. Seems sort of funny that I should end up here just as this war is finished. The point of the war in the Pacific ends soon, although the way the point system works it looks like I'll be in the Army for some time to come. All can figure up is thirty to forty months and you have to have \$5 a few days ago we released about four thousand American P. O. W.'s after our drive up to this city. They were all Air Corps men who had been shot down and some of them had been prisoners for as long as four years. We had to process them and now I guess they are well on their way home as we took them to a nearby airfield. They sure were a happy bunch of guys, though.

As ever,
Ed (Croy)

VISIT IN HAWAII

NEW AND DIFFERENT DISINFECTANT KILLS COCCIDIA ON CONTACT!

Combat coccidiosis now, before it takes chicks your country needs. Don't wait. It may strike anywhere, anywhere... and wipe out your profits. Provide clean ground: chicks must pick up coccidia to contract the disease. Spray buildings, equipment and the litter, thoroughly and frequently with Dr. Salisbury's Par-O-San. Kills coccidia, on contact, won't harm the chicks. Then, while there's no "specific cure" for coccidiosis, present, practical experience shows that we can recommend these measures:

YOUR CHOICE OF TWO FINE MEDICINES

PHEN-O-SAL in the drink is effective. Does not harm chicks because it is non-poisonous. (1) Check for coccidia in the drinking water. (2) Give new chicks Phen-O-Sal in the drinking water. (3) Give old chicks Phen-O-Sal in the drinking water. (4) Give old chicks Phen-O-Sal in the drinking water. (5) Give old chicks Phen-O-Sal in the drinking water. THAT EXTRA BOND

MOST Americans realize that it is important to reach our national goal in war bond drives, not only to help finance the war but to make it clear to our enemy that our home front is still backing the war without any let-up.

So far the goals have been reached—and we have all felt a lot of satisfaction in the result. But every one knows that there are a lot of people who, in each drive, get a "free ride." That is, they share in the satisfaction of seeing their country go over the top, but don't do anything themselves toward the achievement of the goal.

Buying war bonds, beside being a good investment, is the best form of insurance we know of to protect those things which are dearest to us.

VOTE OF CONFIDENCE

AFTER President Truman had been in office for less than a month a national survey was made which showed that he already had attained a popularity which would have made it quite possible for him to win an election if one was held today.

Since Mr. Truman became vice president through sort of a backdoor entrance, and was not well known throughout the country when he suddenly became President, it must be gratifying to him to learn that he now is highly approved by the populace. For the result of this poll was a clear vote of confidence in the way he has handled affairs since he has been in the White House.

When our new President has stated his position on debatable domestic issues more clearly, there may be more of a division of opinion regarding him. So far, we don't know what his position is in regard to most New Deal vs. anti-New Deal issues. But because people on both sides of the New Deal fence are now giving President Truman their support, we hope he may be able to foster a unity of opinion.

HOW RED CROSS WAS FOUNDED

A GOOD many years ago in Massachusetts a farm girl suffered from timidity. When the neighbors came in, she would run into another room and remain out of sight until they were gone. Her name was Clara Barton.

Her father wondered what he could do to rid the girl of her acute self-consciousness. Finally he decided that teaching school would help her. So the girl was pushed along. She took the examinations, and finally procured a certificate to teach.

But when the first day of school arrived, she was so timid that she had not the courage to face the pupils. Finally she forced herself to go. She stood before the children and tried to talk to them, but her timidity got the better of her. She fumbled, and, finally stopped altogether and sat down.

Her parents thought it was a help if she went away from home for awhile and learned to face strangers, and to depend upon herself, so her father was able to get her a job in Washington, D. C., as a clerk in the patent office. Here she was, the most obscure person in the department, speaking only when spoken to.

One day as she was walking down the street, she saw some wounded soldiers being driven past. A person of warm sympathies, she was stirred by the sight. She went to the hospital, saw the men lying on their cots, suffering. Her heart was again touched, and going to the superintendent, she told him she wanted to help the wounded.

She was given a few small jobs, for it was not thought the proper thing that women—girls—should work around a hospital.

Clara Barton was aflame with a desire to do something for humanity; so filled was she with desire that she forgot all about herself. She went out on the battlefield and helped the wounded. In fact, became known as the "Angel of the Battlefields."

After the Civil war was over, she went to Switzerland to rest and there she heard of the Red Cross which had been started in that country. The Franco-Prussian war was on and again she helped to take care of the wounded. When she returned to the United States, she organized the American Red Cross and became its first president.

She was able to overcome her timidity by becoming absorbed in a great work, something bigger than herself. And that is exactly how anyone can overcome excessive timidity—by linking himself, or herself, up with something outside of himself and becoming absorbed in it.

Doings in Congress

By Cong. W. M. LEMKE

CONGRESS IS DEBATING the Reciprocal Trade Agreement Law. We are asked not only to extend it for three years, but to permit a further decrease of fifty per cent in the tariff on some articles. The Tariff Commission's report shows that under this law, prior to 1940, our agricultural exports fell off, while manufacturers' foreign trade increased 85 per cent.

We have become so foreign minded and so many members took European junkets, that our speaker had to put a stop to it. There is a desire to see foreign princes and princesses, foreign kings and kinglets, and smiling queens and queenlets. However, let us look after Uncle Sam's business first. Anyway, we have better looking queens and queenlets in every hamlet, than you will find in any foreign land. We can get just as good cocktails and dinners in almost any blind alley, unless it be one of the seventy-course dinners in Moscow.

LET US NOT FORGET THAT in 1939 the average net annual income per farm family in North and South Dakota was \$685. Let us remember that prior to 1939

the net annual income per farm family in all, but seven or eight states, was less than \$800.

YET, DURING THAT TIME, I saw trainloads of cattle imported from Canada and Mexico. The annual total importation of meat and meat products during those years was equivalent to about two million head of cattle. Our farmers and ranchers were compelled to compete with those importations. Again, from 1881 to 1941, we imported cotton and cotton substitutes equivalent to thirty-three million bales. These instances show how the American farmer was short-changed by this law.

AGAIN, AFTER WE GOT INTO the war, I saw trainloads of farm implements going into Canada and Latin-America—ships—loads to Europe—while these same implements were denied to our own farmers. Just last week in the state of Ohio, I saw a train of seventy-two cars loaded with cargo carriers, trucks, for the U. S. S. R. These trucks have been, and are still being, denied to our own people.

WHILE THESE THESE INTERNATIONAL horse traders constitute but a small percentage of our people, they are a powerful group. They control about ninety-five per cent of all our avenues of publicity. They control the radio, the theaters and the Metropolitan Press. They have saturated this country with false propaganda. They are interested not in the future of our country, but in their own enrichment. They recognize no country nor any flag, except the flag that follows the "almighty" dollar.

WE WILL SOON HAVE MILLIONS of unemployed, and yet we are to import the very things that these should produce under an American standard of living—not under an Asiatic standard. Why prevent our own people from producing these articles in order to enrich a few international traders.

Six widows of former Presidents of the United States are still alive, but only one President, Herbert Hoover. Top shows the present occupant of the White House, Mrs. Harry S. Truman, and a view of the presidential mansion.

Center row, left to right: Mrs. Benjamin Harrison, who was Mrs. Mary Scott Lord Kimmick, niece of the first Mrs. Harrison. Mrs. Thomas Jess Preston, widow of Grover Cleveland. Mrs. Theodore Roosevelt, the second wife of President Theodore Roosevelt. They were married December 2, 1886, in London.

Bottom row, left to right: The second Mrs. Woodrow Wilson, who presided over the White House during the last of the first and all of the second Wilson administrations. She accompanied her husband to the Versailles Peace conference and his travels in Europe. Mrs. Calvin Coolidge, daughter of Capt. Andrew L. Goodhue, who married President Coolidge, October 4, 1905. Mrs. Franklin D. Roosevelt was born in New York City, October 11, 1884. Prior to her marriage to Franklin D. Roosevelt, she taught in a private school for girls and was active in educational, sociological and political affairs. She was a niece of President Theodore Roosevelt.

STUDENTS MUST HAVE S.S. CARDS

Anticipating the late-spring flood of student applications for social security cards, Edward P. Blonston, manager of the Mansfield office of the Social Security Board, today urged high school students and others who are about to take their first jobs, to apply for their cards as early as possible. In response to numerous inquiries, Mr. Blonston offered this timely information: "Whether or not you need a social security card depends on where you are going to work. If it is in a store or office, factory or shop, restaurant or hotel—anywhere, that is, in private industry or business—you will need a card, for all such employment is 'covered' by the Social Security Act. If, however, the job is on a farm, in a private home, in a non-profit religious, charitable or educational organization, or for the city, county, state, or federal government, no social security card will be needed. Such employment is not 'covered' by the law. Do not get a card unless you need it.

"But if your job is in industry or commerce you should apply for a card promptly at the office of the Social Security Board in Mansfield or through your local employment office. No matter whether you will work full time or part time, for a day or a year, and no matter what your age is, you should get a card. But don't apply for a card unless you have a definite job in view. And if you already have one, don't get a new one. If you have ever had a social security card and have lost it, apply for a duplicate—that is, for a card with the same social security number as on your first one."

Last year, Mr. Blonston said, 750,000 social security cards were issued to young people under 19 in the United States.

ASKS STATE OFFICIALS TO KEEP WATCH ON NEW TARIFF RATES

COLUMBUS—Governor Frank J. Lausche and Attorney General Hugh S. Jenkins has been urged by the Ohio Chamber of Commerce to take immediate steps to protect the state against possible adverse effects of the recent decision of the Interstate Commerce Commission in adjusting railroad freight rates nationally. The decision, affecting so-called "class rates," increases rates in this category by 10 per cent in southern and eastern states, and decreased them by 10 per cent in southern and western states.

Although the decision is so far-reaching, traffic authorities have been unable thus far to crystallize a final opinion as to its effect upon Ohio economy. Executive Vice President Herschel C. Atkinson of the Ohio Chamber of Commerce pointed out that two courses of action are available. A reconsideration of the issue by the Interstate Commerce Commission probably will be sought at once, he said, and if this is denied, the question undoubtedly will be taken to the United States Supreme Court.

The new "class rates" affect freight charges on finished manufactured products while "commodity rates" which have not been included in the decision, cover raw materials such as coal, iron ore, fertilizers, lumber and cotton, grain and other items that can be moved in bulk.

It is variously estimated that from 5 to 10 per cent of the total freight movement is affected by the decision but this small percentage represents the most valuable items in transit.

With Ohio as one of the leading industrial states of the nation, the Ohio Chamber of Commerce maintains that the welfare of every Ohio citizen may be touched by the decision through increased cost of living, and possibly, the transference of some of its industrial activity elsewhere, according to Mr. Atkinson.

"It appears to us," Mr. Atkinson stated in letters to Governor Lausche and Attorney General Jenkins, "that this cause is one common to business, labor, agriculture and the consumer."

Notwithstanding that only "class rates" are affected, it is reported that authorities in the South and the West already are claiming a significant victory in anticipation of a movement of industry away from the North and the East.

On the other hand, shippers and businessmen in the North and East are as much concerned over many background features of the I. C. C. action as they are over the attempt to change the

pattern of national freight rates with a detrimental effect on the economy of the industrial sections of the North and the East.

The decision terminated six years of investigation and hearings by the Interstate Commerce Commission on the case, in which the Ohio Chamber of Commerce and the state of Ohio have actively participated, the latter through the office of the Attorney General upon instruction of the Ohio General Assembly.

Here's a Pan-a-min Plan chick

That means it's good, sturdy chick, will do good feed and care, and Pan-a-min.

Pan-a-min is the key in this Plan. It supplies vitamins that stimulate appetite and promote better use of feed. It supplies minerals that are essential for body development.

We believe big, husky, fully-matured pullets are the only kind that will produce efficiently, and we believe the Pan-a-min Plan will help you produce that type of pullet.

In Memoriam

IN MEMORY of our dear one, Helen Grace Snyder, who departed this life, one year ago, May 29, 1944.

Fast as the rolling seasons bring the hour of fate to these we love, each pearl that leaves the broken string.

Is set in Friendship's crown above. As narrow grows the earthy chain, the circle widens in the sky;

These are our treasures that remain, but those are stars that beam on high.

INSPIRING ADDRESS
(Continued from Page 1)

and that freedom for all men in our border might be made a reality. We sang their praises and placed our wreaths upon their final resting places without giving thought to the obligation upon their sacrifice to help us live the living. Such a day it continued until after the Spanish-American War in which we had taken up arms not for conquest, but to free the benighted and town-trodden Cubans, Filipinos and other Spanish possessions. Such a day it has been since World War One after this nation had prodigally spent its wealth and its young manhood not for conquest, but to secure the blessings of free government for the peoples of the world. Such a day it will continue to be after this World War II, the most terrible holocaust in the whole history of mankind, unless we here in America accept the responsibility that is ours. That responsibility is to unashfully lead the way to a strong and effective organization for the preservation of the peace and security of the world.

"It seems to me then, that today, as we pause to do honor to our soldier dead, we—the living—should here dedicate ourselves to the task of making it certain that their sons and daughters shall not be called upon again to make the same futile sacrifice that they have made.

"It is our responsibility. It is our sons and daughters who, when the mad men of the world let loose the dogs of war, are taken from our firesides to lay their lives upon the altars of freedom, and that largely because of our complacent neglect of our duty.

"That duty rests as heavily upon us here in Plymouth as upon any people anywhere in this nation or the world. Unless we here as one unit give support to the effort now being made for World Peace then responsibility for failure belongs as much to us as to any other group anywhere in the world.

Editor's Note: Due to late arrival of copy, Mr. Smith's Memorial Day address will be continued next week.

LIBRARY NEWS

BOOK OF THE MONTH FOR JUNE: THE ROAD IS BEFORE US, BY AGNES BOULTON.

A "must" on your reading list. This book offers an interesting character study of four distinct personalities, who form a party to drive from Pittsburgh to St. Petersburg, Fla. Each is carrying a secret burden.

The driver, a young traveling man, has sinister purpose in making the trip. He is searching

for man he intends to kill in retribution for the strange death of a beloved sister.

Then there is an elderly married couple, who haven't much money, but manage to spend their winters in Florida. The old gentleman is gentle and lovable and you learn that his life has been ruined by a domineering spouse.

The fourth party is a colored servant girl, to whom you lose your heart, in an unforgettable scene of pity and pain.

The first day trip is full of interest and tragedy, and brings out some of the good moral issues.

The Road Before Us handles a difficult technique of story-telling with sure and deft mastery.

Be sure to read it!

TAX BOOKS ARE OPEN IN HURON

Announcement is made by Harold B. Collier, Huron County Treasurer, that the tax books are now open and collection is now being made for June tax payment. This collection represents the last half of 1944 tax.

The Treasurer states that the books will close on June 20 without further extension of time, after June 20, penalties will apply in accordance with tax laws.

He also says that collections for this year are exceptionally good. In addition to the normal collection, approximately \$15,000 has been paid since the first half books closed.

SCHOLARSHIP IS AWARDED

Thomas Cunningham, valedictorian of the 1945 graduating class of Plymouth high school, was awarded a scholarship to Capital University in Columbus, on May 22nd. The award was to have been made at the time of the annual commencement exercises on May 18th, but it had not arrived at that time. This scholarship grants a full year tuition free to the holder. Since Tom had already enrolled in Ohio State University, he probably will not be able to take advantage of this scholarship. However, Tom will be congratulated for receiving this honor, and the faculty of the school here wishes to express themselves as being content that he will be an able representative of our school.

Paul Scott has also enrolled in Ohio State University in the School of Optometry. We feel sure that Paul will carry the banner of Plymouth to the highest pinnacle in the field of advanced education.

NEW CONFECTIONERY OPENED IN SHILOH

Purchasing the old Frontier Confectionery from C. E. Younger on the first of April, H. M. Murphy has brought a new and modern business place to Shiloh. The store room, repainted with cream ceilings and an arched glass sidewalk, gives an inviting appearance. Mr. Murphy has partitioned the building into three parts, the entrance room features soda fountain, booths, cigars, candy, ice cream and soft drinks, while two billiard tables occupy the center portion of the room. In the rear three card tables are arranged so that those who pinocchio may indulge in the game without interruption.

Mr. Murphy moved to Shiloh some five years ago, and operates the Tower Restaurant (when he can get help and points), and his foresightedness in opening a confectionery of this class will no doubt be appreciated and supported by citizens.

Possessing a pleasing personality and a desire to be of service to the community in business and civic affairs, Mr. Murphy is a Shiloh Booster in every sense and congratulations are extended to him in this new venture.

Cummings Settles In Seed Potato Case

The seed potato case of Carl Knoke of Gaylord, Mich., vs. Walter E. Cummings, New Haven pt. farmer, was settled out of court last week at Norwalk, the second time it came up for trial.

The Michigan potato man sued Cummings for \$27.50 claiming that never potato shipped here were seed potato. At the trial in common pleas court last December the court took the case away from the jury and directed a verdict for the defendant. The case was carried to the court of appeals by Knoke and was remanded back for a new trial.

The driver, a young traveling man, has sinister purpose in making the trip. He is searching

MORE GASOLINE FOR CIVILIANS

Victory in Europe has made possible an increased supply of gasoline for civilian motorists. The value of "A" coupons will be increased from four to six gallons on June 22, when coupon "A" becomes valid. "B" card ceilings will be raised to 650 miles per month uniformly over the country on June 11. The increase in the "B" ceiling will not mean more gasoline for all "B" users, however, says Chester Bowles, OPA Administrator. Both "B" and "C" ration are based on the individual needs of the car owner. A person who needs only 200 miles a month for home-to-work driving, for example, will continue to receive a B ration of 200 miles. But a person who uses his car in his business and who needs more gasoline than he is now receiving to carry on his business will be able to get an additional gas supply up to a maximum of 650 miles a month.

In both cases they will receive the increase of 50 per cent in the "A" ration. Under the new 650-mile B card ceiling, every state in the union receives the same treatment. This will replace the
