

Train Wreck At Tiro Injures 14

A great many local people motored over to Tiro Wednesday to see the train wreck, which occurred about 6:15 a. m., on the Main street crossing in that village, when the Red Arrow, crack passenger train of the Pennsylvania, was derailed after striking a stalled automobile.

Fourteen persons were injured and after looking at the wreck most people wondered how the remainder of the passengers escaped serious injury. The locomotive and seven cars were derailed. The engine turned over on its side. Ambulances were rushed to the scene from New Washington, Shelby and Bucyrus, and the injured moved to the Shelby and Bucyrus hospitals.

Most seriously injured were E. Snyder, the engineer, of Toledo, who was badly scalded and suffered a broken leg, and C. R. Boerst, the fireman, also of Toledo, who received body burns. They were admitted to the Bucyrus hospital. Several persons were scalded by hot steam and water which gushed from the locomotive after a piece of rail parted the boiler.

The train, bound from Washington, D. C., to Detroit, left the track when it struck the auto of Floyd Fisher, New Washington. Fisher's car had stalled on the track and seeing the approach of the train, he jumped and ran to a safe distance, escaping injury.

While the entire train of seven cars left the track, none were overturned, thus causing many passengers to escape serious injuries.

Mother Dies

Funeral services were held on Monday, Sept. 11, at the White funeral home in New Washington, for Mrs. Addie Sims Hatch, 84, Mrs. Hatch died the preceding Saturday on Sept. 1 in Mansfield at a Rest Home, following an illness covering a period of several years.

The deceased was the daughter of Samuel and Kathryn Ferguson Sims and was born June 6, 1861 in Waynesburg, Crawford county, Ohio. On May 19, 1882 she was united in marriage to Noah Hatch, at Van Wert, Ohio, who preceded her in death. Mrs. Hatch is a former Plymouth resident living here for fifty years. After the death of her daughter, Mrs. Ethel Straub, with whom she made her home, she went to Shelby to reside with a son, Harry Hatch, who survives as well as one brother, Henry Sims, of Midland, Mich. Three grandchildren and six great grandchildren survive.

Dr. D. B. Young of Shelby officiated at the services, and burial was made in Greenlawn cemetery, Plymouth.

The grades are divided as follows: First, 25; second, 30; third, 22; fourth, 28; fifth, 18; and sixth, 12. In the Junior High there are 21 in the seventh grade; twenty-one in the eighth and as follows for the High school: freshman, 11; sophomores, 16; juniors, 9; and seniors, 6.

Plan Reception

The Inter-Church Council has again arranged for a reception for all public school teachers to be held in the Presbyterian church, Sunday evening, Sept. 23, according to it is hoped the parents who have children in the school and all who are concerned that our school become an outstanding institution, make a point of being present at this reception. We have no PTA and this is just an effort to get teachers and the parents better acquainted. An opportunity is provided for every one to meet with the teachers in a very informal way. A short, interesting program of music, greetings etc. will be provided. We hope YOU will come.

SQUIRREL SEASON OPENS IN SEPT.

Squirrels are reported generally numerous throughout the state as hunters prepare to open the season at daybreak Sept. 15 in most of Ohio. In 36 counties in the northern section of the state the season opens Sept. 22. In all of Ohio squirrel hunting ends Sept. 30. Game law digests, now in the hands of all dealers who sell hunting licenses, lists 47 counties, including the northern squirrel hunting zone. The limit of squirrels is four per day and eight in possession after the first day.

Many Out For Farmers Picnic

Before an estimated crowd of two thousand farm men, Women, Congressman William Lemke of North Dakota told how the American Farmer has been the "sucker" for the international bankers and politicians, and what may be expected in the future. Lemke pointed out that foreign propagandists are spending an average of one hundred million dollars a year for publicity, through New York and Hollywood channels, and that 95 per cent of the so-called propaganda is anti-American. He mined no words in arguing that the international bankers are in control of the press and radio, to carry on their work.

Lemke, who has served as Congressman from his home state of North Dakota for many years, stated that the general trend in the nation's capital is: "Foreigners preferred—Americans forgotten." He blamed the current condition of affairs strictly upon the people of America and the indifference expressed at the polls and their desire to "Let George do it."

He played the Bretton Woods card as well as the United Nations charter, stating that the original documents of the Atlantic Charter should be written into the United Nations proposals. At the time of the Bretton Woods conference, Lemke said, several illustrations why he opposed the United Nations Charter and that of Bretton Woods. He also touched on his bill which would allow the taxpaying farmer, who, at six years, and at the end of this time, the president would not be eligible for any further political activity.

During his talk, Congressman Lemke recalled several things that Congress "had done to us," and this included the signing of the Bretton Woods paper, which he called a steal of 17 million dollars of the taxpayer's money, and a possible total of 80 million dollars; the adoption of the United Nations Charter, and other acts which had the approval of Congress. Lemke finished his criticism by saying he was very proud of his "naive" votes that says "yes."

He touched on Lend-Lease, claiming that while our own nation is in dire need of lumber and homes, that thousands of prefabricated homes, and millions of feet of lumber were being shipped to England.

He praised President Truman for terminating Lend-Lease, and expressed the hope that from now on, America would be for Americans. The past few months when Lemke was seeking help of government in dire need of lumber and cost of production for farmers, Lemke stated that he was told that any plan for "cost of production" could not be made workable, that it would have a tendency to create inflation. "However," Lemke stated, "when the automobile manufacturers wanted cost of production, they got it, and was sanctioned by OPA. This, he pointed out, is what the farmer has to contend with. Lemke said that in twenty minutes he could give the figures on fifty farm items and their average cost of production, and he would have no need of a policeman, the farmer would be as being a fair price paid for wheat on his cost of production basis, whereas the current price of wheat is \$1.97 to \$1.60.

He plainly charged that the labor and communist groups have a "strangle hold" on the farmers, and that until the time comes when the American Farmer organizes independently of party politics, the farmer will bow to the will and demand of those who desire to keep him under.

Lemke told his audience that America was at a crucial point. Continued on Back Page

Files Alienation Suit In Mansfield

Marvin A. Matthews, of Plymouth, is seeking \$10,000 from Theodore Berberick, of Plymouth, in an alienation of affections suit filed in Richland county common pleas court.

Matthews contends that in August, 1937, Berberick began coming to his house and visiting his wife in his absence, and began taking her for automobile rides alone. This continued until Aug. 27th of this year, Matthews says, when the defendant came to his house and ordered him to leave his wife and children, claiming that he, Berberick, would take care of them.

By reason of the conduct of the defendant, Matthews alleges, he has lost the affection, companionship and services of his wife, and has been subjected to shame and dishonor amounting to the sum of \$10,000.

FUNERAL RITES

Funeral services for Grace Elen Beebe, 14, daughter of Mr. and Mrs. Harry Beebe, of Willard were held Friday at 2 p. m. at the Fink funeral home with burial made in Greenlawn cemetery, Willard. Grace died last Tuesday in the Cleveland Clinic from injuries suffered in an accident Aug. 28 when the motorcycle she and Pat Caudill of Shelby collided head-on with a truck east of Willard. Pat suffered a fractured left arm and lacerations of the chest and head. He is said to be improving.

Besides the parents of Miss Beebe she is survived by two sisters, Julia and Gladys and a brother, Richard, all at home.

It is in the interest of all to attend and the success of the meeting depends upon the individuals who come. Bring yourself and a friend.—The Committee.

400 Enrolled

With the admission of three more students in the grades, the total enrollment of the Plymouth schools has reached 400. The school enrollment this year is 40 more than that of last year at the corresponding time, when it was 360. This is the highest enrollment ever to start in the Plymouth school according to the record.

With unusually warm weather and the crowded condition of the school the students have been quite uncomfortable the past week. The building has been opened in the early morning to help cool it down before the children arrive and the fans run steadily in an attempt to keep the air moving through rooms and provide some relief.

Students Excused

The following students are excused from school at the time specified in order to work at the various stores around town: Warren Wirth 1:45 p. m.; Bill Miller, 1:45 p. m.; Wayne Ross, 1:45 p. m.; Eldon Souroine, 2:30 p. m.; James Gullett 2:30 p. m.; Lois Berberick noon. Bill Garrett has been excused from school on a working permit.

Hears Son Has Good Chance Of Survival

Ernest Davis, of New Washington, formerly of Plymouth, whose son Ernest, Jr., was reported missing July 15, in the Pacific recently received a letter from the commanding officer of the aircraft carrier on which his son had been a bomber crew member.

In his letter the officer said that Davis and two other members of their bomber crew had been sighted on a life raft July 15, about 20 miles off the coast of Japan but that conditions at the time made it impossible to pick them up. However, the officer said the three had a good chance of reaching the coast of Japan and that if they had, they were probably prisoners of war. However, no further word has been received by Mr. Davis.

Iron Lung Donated To Willard Hospital

WILLARD—An iron lung was presented to Willard Municipal hospital Saturday by the Willard Liquor Dealers' association in cooperation with the state dealers' organization.

Presentation of the \$1,100 gift was made by Harlow Staph, president of both associations. Mayor E. L. Wolff, president of the hospital board, accepted the device. Staph said the iron lung given the Willard hospital was the second presented to a hospital in the state by the liquor dealers. The state organization gave one to Gov. Frank Lausche last month and it's going to be used by the state welfare department.

Dies On Birthday

Mrs. Minnie Capelle died at Willard Municipal hospital Thursday night on her 47th birthday anniversary. She had been in the hospital two days.

Born in Wood county, she had lived in the Willard community for many years. Surviving are the husband, Logan Capelle, two daughters, Mrs. Lloyd West of Willard, and Clara Mae Capelle, at home; two sons, George and Theodore, both at home; her mother, Mrs. Alta Weidbrook of Mikado, Mich.; four brothers, and two grandchildren.

Services were conducted Monday at 2 p. m., with Rev. G. G. Hefflinger officiating. Burial was made at New Haven.

AT HOSPITAL

Mr. J. E. Finrock, father of Mrs. I. E. Nimmmons, was a patient Thursday at the Shelby Memorial hospital where he had an x-ray examination.

Around the Square

(By Phineas Whittlesod)

THE SWIMMING pool at the Lan-tis funeral home is drawing attention these days with more than 300 gold fish varying in size from two inches to twelve inches and five different varieties. The water lilies are also coming in for their share of compliments as they are now in full bloom in seven different colors.

THEY GROW 'EM big out in the state of Washington, the maple leaf tree by Maurice Davis to his father, L. Z. Davis, is any sample. Mr. Davis measured the leaf sent, taken from the tree in the yard at the Maurice Davis home in Easton, Wash., and it was exactly 8x10.

FOR OVER twenty years through the efforts of the Advertiser, we have been trying to convince the community that Plymouth is "the salt of the earth," and not feeling too confident of our success. However, over the weekend, Clyde Crawford, superintendent of the water works, did the trick in less than twenty minutes by turning the wrong valve. Most people were wishing though that he didn't take it quite so literally, as many a cup of morning coffee was wasted on account of the salty water. Oh well, that was one way of getting all the fire hydrants in the village flushed.—

MANY a man has stopped calling his wife "the little woman" after taking a good look at her in slacks and we might add, while they may not be all wrong, they are a yard wide, in spots.

UNLESS some arrangement can be made soon, Plymouth motorists will be forced to drive to some nearby town to purchase drivers' licenses and auto tags. So far as can be learned, no one has been appointed to succeed David Beuchrach, who handled the job last year, but who resigned from the task this year.

MEMBERS of the Community Club will enjoy a "stag" hamburger fry next Tuesday evening at the Mary Fate Park where the regular meeting will be held. A committee will be on hand to serve the hamburgers, plus coffee and potato salad. Members are requested to bring their own table service.

Suits Ordered

For the first time in many years the local high school lads will have battled in uniforms to play in instead of their old clothes as they have done in the past.

Although delivery is not expected before two or three weeks, the suits are definitely well ahead of the fall season is over. The boys were about ready to give up hope of obtaining uniforms this year, when word was received from a Toledo athletic supply house that it could furnish suits. Fourteen suits have been ordered, so naturally the moral of the baseball candidates has increased tremendously.

Plymouth will open its fall season Thursday at 3:30 when it journeys to New Haven. Most of the local veterans are back from last year so they should give rivals a good scare.

This year Coach Jim Root will have as his assistants two old time ball players who used to play plenty of baseball in and around Plymouth, namely, Beryl Miller and Harry Threlkeld.

So far Plymouth has games scheduled with New Haven, Greenwich, and Monroeville. Tentative games have been scheduled with Iron, North Fairview, and Shiloh. As soon as definite dates are set they will be published in the paper.

The boys appreciate your support and interest so to show you are backing them come out to the games.

NEW TENANTS

Mr. and Mrs. Eugene F. Otto of Fairport, will be the new tenants in the second floor apartment of Mr. and Mrs. Wm. Ellis on West Broadway. Mr. Otto is employed at the Shelby Cycle Co.

SGT. NORMAN PRESTON UNITED IN MARRIAGE SEPT. 1 AT CANTON, OHIO

In a quiet home wedding before a fireplace decorated with large vases of gladioli, snapdragon and asters in pastel shades, nuptial vows were exchanged by Sgt. Norman F. Preston and Miss Lena Pruitt, on Saturday evening, Sept. 1st, at 7:00 p. m. The wedding took place at the home of the groom's sister and brother-in-law, Mr. and Mrs. Harry J. Hilborn, 300 Roff road, N. W. Canton, Ohio. The single ring ceremony was read by Rev. A. M. Himes, pastor of St. Paul's Lutheran church, Smithville, Ohio.

The bride wore a navy blue street length dress, with navy accessories and her corsage was of white gardenias. Her only jewelry was a string of pearls, a gift of the bridegroom. She chose as her attendant, Mrs. Glenn E. Miller of Mansfield, a sister of the groom. She wore a pale rose street

length frock with navy accessories and a corsage of pale pink roses and baby breath. Harry J. Hilborn, brother-in-law of the groom, served as best man.

Following the ceremony a reception was held at the home of the groom's sister, Mrs. Hilborn. The table was decorated with a large wedding cake, tall white tapers and summer flowers.

The groom is the son of Perry J. Preston south of Plymouth. Sgt. Preston is now stationed at Fort McClellan, Ala., where the couple plan to make their home for the present.

It never pays to "cut corners" in the hog business. Pigs that are "skimped" while they're growing are "poor doers" in the fattening pen.

We sincerely believe that Hog Special is an economy in the pig raising. It gives pigs tonics that stimulate appetite and promote better use of feed. It supplies vitamin D, the sunshine vitamin.

We believe that we do give you a favor if we can get you to try Hog Special.

ONE SPRAYING STOPS MOTH DAMAGE For 5 Years
OR YA-DE MAKES GOOD YOUR LOSS!
Good Housekeepers may "YA-DE" is the most mothproof I have ever used."
—Mrs. Mrs. YA-DE's points of superiority—
• Odorless
• Colorless
• Inexpensive
• Non-Inflammable
• Harmless to Fabric
• Unaffected by Dry Cleaning
• Guaranteed for Five Years
YA-DE has been called a "miraculous mothproof." One spraying of YA-DE on your clothing, rug, furniture, etc., and your moth worries are over for years. YA-DE provides year-round in or out of your home. This guarantee is 5-year written guarantee. This guarantee is like an insurance policy in that if moth damage occurs within 5 years, YA-DE will repair, replace or pay for the damage. And the important thing is that YA-DE costs less and is easier to use.

MOths EAT ALL YEAR 'ROUND
As long as the temperatures in your home are above 40 degrees, moths will eat your clothing, woolens, rug, furniture, etc. YA-DE provides year-round in or out of your home protection. When you buy woolen articles — no matter if it is January or July — you should treat your purchases with YA-DE at once! FIGHTING PEACETIME FOLLOWERS

THE majority of Americans think the atomic bomb was a very worth-while investment, even though its perfection cost in the neighborhood of two billion dollars. The important thing to us was that it stopped the war—that it saved hundreds of thousands of American lives. Something that does that can't be measured in dollar value—it's worth anything we can pay.

Because of that huge investment, which made it possible to give the leading scientists of the world every possible tool they needed to speed their mastery of atomic energy, the atomic bomb was completed perhaps 500 years ahead of time.

If the American taxpayer will approve such huge expenditures for speeding a vital scientific discovery for war use, we wonder if he wouldn't be equally willing to have his government put up whatever sum is necessary to rid the world of peacetime killers—of cancer, which will take a toll of over a million lives in the next ten years, of tuberculosis which will kill another million, and of infantile paralysis which is decreed by every parent in our nation.

At present, not more than \$5,000,000 a year is spent on cancer research. Perhaps \$500,000,000 or a billion dollars would make it possible to wipe out cancer quickly.

VICTORY OVER INSECTS

DDT, the famous insect-killer used in the war, is now available to the public.

The stories which have been built up about the powers of this drug seem fantastic, yet the facts indicate that most of them are true. DDT, put in paint and wallpaper, will bring death to flies and mosquitoes which touch them for several years afterward. It probably will end the moth menace. It may rid our country of flies and mosquitoes and other germ-carrying insects. It may be used to get rid of garden pests and at the same time not destroy necessary bugs and insects. Perhaps it will get rid of termites. It will undoubtedly be produced in a form which can be used safely on the body to keep insects away.

Dale Carnegie
Author of "HOW TO WIN FRIENDS and INFLUENCE PEOPLE"

SHE WON BY FOLLOWING THROUGH
THERE is a grandmother working for the General Electric company, Schenectady, N. Y. In addition to holding her job, she had made \$500 on the side.

Her name is Mrs. Sophie Smith, and her husband works for the same company. She left school when she was in the eighth grade to go to work.

Her job was pretty humble—assembling insulators. She had to make a certain number of movements, punch the time clock, and go home. That was her daily round.

She decided to make it more than that. She decided to find out just how each separate part that came into her hands was made. So she went to the department manager and got permission to follow each item from the time it arrived at the factory until it came to her, and to find out how it was made. The other workers thought she was crazy. Said she could do just as good work without all this fuss and bother. But Sophie kept on and she learned a great deal about the pieces she was assembling.

One day she turned in an idea about a screw that was used in the work she was doing. The screw was copper-plated. Sophie wanted to know why, since the screw was hidden away and not seen by anyone, that a cheaper screw could not be used? Finally the idea landed in the superintendent's office, and he sent for Sophie. He said that she was the first one from that department who had ever turned in a suggestion for doing better work. Then he gave her \$30 for turning in the idea. The other workers in the department said she was a favorite, or she wouldn't have gotten the money.

The war came on. Mrs. Sophie Smith turned in more ideas. She was promoted to the transmitter inspection department where she checks delicate instruments for our armed forces. She has followed the same practice of following the metals through the factory and learning all about them. She has turned in 100 ideas, and about half of them have been accepted. For these suggestions she has been paid \$500. There are better-educated people working in the same department, or similar departments, who have not made any extra money.

TROUBLE SHOOTER... PACIFIC STYLE

V.E. Day did not bring the release of many skilled telephone men from the services. They are now doing their vital job on the road to Tokyo. Thus the shortage of trained telephone workers will continue here at home. But those remaining on the job will do their best to keep the standards of service high until they can welcome back their fellow workers now overseas.

MANY OUT
(Continued from Page One)—whereby the monetary control of the nation, the welfare of the farmer and laborer and our general economic situation could collapse, if proper judgment was not used in putting the postwar structure of America on a safe and sound basis. He favors Congress adopting a set of laws that would reward human endeavor and American ingenuity; he outlined his proposal for aiding the returning veteran, an insurance program and rehabilitation schedule that would give the returning GI a fair chance to get started in life again. Infant Son Dies
Death struck twice within a month in the home of Pfc. Amos D. Thompson, colored, of Willard, now serving in the South Pacific with U. S. Marines. On Aug. 4, his wife Alice Hammock Thompson, 22, passed away and just a month later on Sept. 4, his son Allan Drew 21 months old and whom he had never seen died of pneumonia at the home of his grandparents, Mr. and Mrs. Hubert Thompson of Willard.
Funeral services were held Thursday at 10 o'clock from the Secor funeral home and burial made beside his mother in Greenlawn cemetery, Willard.
Surviving beside the father is a brother Melvin, three, who has made his home with his aunt, Mrs. Barber and husband, Luvier. Several years ago Mrs. Thompson worked at the home of Mr. and Mrs. Jerry Ratcliffe of Plymouth and the latter family resided here for years and have friends who regret to learn of their loss.
