

PLYMOUTH TOPS N. HAVEN 20-23

The Pilgrims were in top form Tuesday night when they met New Haven at the New Haven gym to win the most exciting and colorful game of the season, 23 to 20.

The first half was an exhibition of clever, fast, smooth-running teamwork, with every man alert and exerting himself to the fullest. New Haven presented the most formidable opposition the Pilgrims have yet encountered, as most of the players were all right passing, hard, direct and quite sure; their reputation as a winning team secure. But Plymouth managed to take the first basket of the evening and held the lead until the third quarter when New Haven led by one point.

Spectators were exasperated as so many times the ball looked as if it would be good only to roll back out of the rim, and this form of back luck followed all the way through the game.

During the fourth quarter, Coach Pete Cornell sent in his entire second team against New Haven, and they distinguished themselves by holding their opponents to the one field goal and three foul shots they had made during the earlier part of the game.

TAX NOTICES TO GO OUT FEB. 1ST

Approximately 5,000 Richland counties will receive personal tax notices from his office between Feb. 1 and Feb. 15. County Auditor Norman L. Wolfe said today, in announcing that collection of personal taxes for 1946 will start the middle of next month.

The auditor said he expects to have the personal property blanks available about Feb. 1, and will make an effort to mail blanks before the start of the collections to everyone who made out a return last year. Taxpayers must list their property for the coming year, since they have the option of paying half now, and the remainder later in the year, Wolfe said.

Used Clothing Collection Drags

Have you any serviceable clothing or shoes that you no longer use? The victory clothing collection for overseas relief has urgent need of every garment and every piece of footwear. The collection which began over a week ago seems to be dragging.

Postoffice throughout the nation has been designated as receiving depot, but locally, the amount received thus far, is way below the donation received last year.

It will be many months before millions of persons in Europe, China, the Philippines and war-stricken areas will be able to obtain their own clothing. The twenty-five million pieces donated by Americans in the first appeal last year have all been distributed; now UNRA reports that four times as much is needed.

Many of us have had outmoded suits and dresses hanging in closets or packed away in attics. This is the chance to put them to good use and to help others who have nothing. Practically all items of clothing and footwear are needed. Also accept straw hats, feather beds, pillows, mattresses, novelties and household furnishings.

The clothing need not be in perfect repair, but it must be useful to the people who receive it. All types of washable garments should be washed before donated. Other garments should be clean and sanitary but need not be dry cleaned before being contributed.

Contributors are invited to enclose with their gift of clothing a message of good will to the unknown recipient.

G. IS' TAKE OVER HURON COUNTY IN VETS' SERVICE

The Veterans Service Center on the third floor of the Court House in Norwalk is now operated by Veterans of World War Two. The Huron County Veterans Service Commission and the Soldiers and Sailors Relief Commission are cooperating to make a complete service available to the more than 4000 World War Two veterans who will eventually return to Huron County homes. More than 2000 have already been interviewed in this office and given careful advice and assistance of whatever nature was required.

Charles R. Flory, formerly of Greenwich, now residing in Bellevue, is in charge of the office. He recently returned from service in the European Theatre and will be discharged as a Captain with the expiration of his terminal leave on March 7th. He has been in service for five years and during a considerable part of that time was charged with the duty of classification and assignment of personnel to the type of duty for which each individual was best qualified. Previous to entering the army, he was employed by the Huron County Welfare Department as a social worker.

Thomas W. Jones, of Mansfield, will be an assistant service officer and will have duties in the Service Center and in the field, making contact with veterans wherever necessary. Jones enlisted in the Navy in September of 1942 after completing two years in college. He has just been discharged after service overseas as Pharmacist Mate First Class. Both men are members of The American League and the Veterans of Foreign Wars.

The Veterans Service Commission, headed by J. B. Robertson, former Mayor of Norwalk and a Veteran of the Spanish American War, Twenty-five veterans of all eras are members of all parts of Huron County make up the membership of this Commission. Clarence F. Boose of Norwalk is President of the Soldiers Relief Commission. He is the present Commander of The American Legion in Norwalk and a Past Commander of the Disabled American Veterans and the Veterans of Foreign Wars.

An important feature of the work of the Service Center at the present time is the placing of Veterans in job training under the provisions of the latest Act of Congress. Under this law, every veteran discharged other than dishonorably after 90 days of education or training plus an additional month for each month of service to a total of 48 months. Any employment contract with persons may be eligible to train a veteran in any line of endeavor. An elaborate farm training program has been worked out in cooperation with the cooperation of County Agent Guy Hummon and County Superintendent of Schools E. A. Bell and is at present being attended to.

The Commission is anxious to employ a woman veteran of this war, a WAC, or WAVE or SPAR in a secretarial capacity.

FIRST IMPRESSIONS are lasting

and we recall that the first time people we may ever be B. O. Blanchard, dryman, who still serves the town and Doc Heifer who observed his 86th birthday last Friday and is now residing in Mansfield. Other well known citizens have passed away, new people have come to town, officials have come and gone, but the whole Plymouth scene is one of those unchanging towns and a good place to live. In fact, we recall that we were just going to write a little while to grace it. We like it, we love it, we have almost decided to stay.

Of course, all we know is by way of the grapevine, and we understand that some of our opponents have the feeling that our wins don't count against them. You attend one game, and it calls for another. THE ADVERTISER became a monthly, the 21st year under its present management, although officially the paper is 89 years old. The weather was practically the same Monday one as when we arrived, cold and snowy and glancing back over the years, the town hasn't changed much. True, many changes have occurred, but the scene, only a few business men of twenty-one years ago still being in business. Very few homes have been built during the time and many existing structures here is as tense as reported in larger cities.

SPUNK BROUGHT HER THROUGH
WOULD YOU LIKE TO hear about a girl who never had a fair chance?

When she was three, she was coasting in a soap box wagon which got beyond her control and hurled her against a telegraph pole. She could not get up. She complained about her legs feeling "funny." A doctor was sent for and when he had finished the examination, he looked serious. She has never walked since.

But she has done well. She is making about a thousand dollars a week.
Her name is Connie Boswell—one of the famous singing "Boswell Sisters."

When fate takes something away from one, it usually leaves something else in its place. Fate, in this instance, left a big fat Negro woman, coach in the Boswells' New Orleans home. She also was a singer of "spirituals." While the other children were out playing, little Connie would wheel her way into the kitchen and listen with rapt attention. Time passed. Connie grew older.

One day somebody said, "What are you going to be when you grow up?"
"I'm going to be a singer."

The idea was ridiculous.
One day the Mississippi river went wild. Its angry lashing waves grew higher. Holes formed in the dikes, the waves gnawed and pawed and snarled at those holes until they increased to tragic size. Then the mighty flood devoured farms and villages and parishes.

Money must be raised for the sufferers. Connie and her sisters put on entertainments from the rear end of a truck.

They did so well in helping others, they were called to Chicago. Next Hollywood sent for them. In no time at all they were on the air.

CHURCH NOTES

Lesson for January 27: Exodus 21: 1; 25:4-9; 25:29.

We saw in the last lesson how a people delivered from the land of bondage were given laws—the Ten Commandments. Today we study the provision that was made for their worship. The people had but dimly discerned the nature of God is true, and it was the task of Moses to bring them to know God more truly through a fitting form of worship.

Aaron, brother of Moses, was designated as the high priest, and his sons as the lesser priests, who became the original priesthood that was made hereditary in the tribe of Levi.

Next provision was made for the Lord's house—the first one, the tabernacle, the tabernacle of the wilderness. A remarkable building it was. The offering that was made at the close of Moses' work was one of the most generous on record. It was a free-will offering unto God for the building, provision for and decoration of his house. The people willingly brought their jewels and precious stones, metals, fine fabrics, also spices, oil, and incense.

The glory of the offering was found in the willingness of it—no one was constrained to give, the only reason for the great offering was the desire of the people to give their best unto God for the building of His house in the wilderness. "The gift without the giver is bare." The willingness of the wilderness gave themselves with their gifts. And when the tabernacle was completed, the light of the shekinah shone upon the mercy-seat.

THE OLD JUDGE SAYS...

DICK: "I wonder how the distillers feel about that new movie built around an alcoholic?"

OLD JUDGE: "It's funny you asked that, Dick... I was just reading a piece about it."

DICK: "What did it say?"

OLD JUDGE: "A very sensible statement. It said the beverage distillers are fully aware of this problem and are cooperating in every way possible to help solve it. The alcoholic is to the beverage distilling industry what the reckless driver is to the automobile industry. There is nothing wrong with the

automobile, but in the hands of a man who doesn't know how to drive it or is reckless, it becomes a menace. Likewise, it's not the use but the abuse of alcoholic beverages that causes trouble."

DICK: "Wonder why it is most men can drink moderately and others can't?"

OLD JUDGE: "Intensive research at a great university has shown that most excessive drinkers are really sick people. They are suffering from some physical, social or emotional upset. And great strides have been made in developing clinical methods of helping these unfortunate people."

BASKETBALL!

Lucas downed the Shiloh five with a score of 47 to 27. Shiloh played Chatfield an exciting game which was really on the beam. The score 35 to 34, too bad our boys couldn't make that extra basket. This coming Friday night our boys will journey to Ontario.

SENIOR CLASS PLAY

Seniors will present their three act comedy, "Heart Trouble" this coming Saturday night, January 26th. If you want a good laugh be sure and come.

The Senior class has picked their class colors which are Kelly green and white, the class flower is the yellow rose. We have been looking over name cards and announcements.

JUNIOR CLASS

We have picked out our play, and the play books arrived today. The name of it is the "House of Strangeness." It is a horror mystery guaranteed a real thriller. We got a letter saying our rings would be here the last part of this month.

SOPHOMORE CLASS

The Sophomores can easily breathe now after passing their semester exams. We are ready to start our new semester right by studying. We've never studied before. Who said that?

FACES IN PLACES

Dougs face when he came out of the Smokehouse and Joan wasn't in sight.

Joans face looking out of a brown car for Doug. Slightly stupid.

Ruth Bell out on the farm as usual.

Geraldine Moser really cutting a rug.

Virginia watering the lilies... from all reports they're growing. Eugene and Helen together again.

Mrs. Turner running in and out of the typing room... Disgusting isn't it.

Betty Jean mumbling to herself in Sociology class, that's enough to make anyone mumble.

Joan McKee getting in good with the Forquers.

All the kids boiling over at the game Saturday night — that poor referee.

Howard Clark always yelling T. S. . . Tough Situation.

Last but not least the gang at the Smoke House.

SNOOPER

We wonder what possessed Doris Garrett to go where she went when she did last Thursday night. I thought she liked guys about 27 years old.

It seems as though the old ro-

mance between Alice and Bill called up after Dorothy's party. I'll bet you couldn't guess why?

There sure were some frillie basketball players on the bus last Friday night, eh, what?

Naomi Lawrence was sporting a cute looking blonde at the basketball game, her cousin she claims. Oh sure I believe you had our boys? . . .

Did you see the pictures Jean Forquer got? Oh, Fra . . . nkie!

The Seniors are going to be quiet this week, we could dig up a lot of dirt but we'll hold the spotlight lights on us too often!

We wonder if Joan McKee

found some new charms in a fellow named Billy? Of course it won't last, another Joan might see to that!

Dig all the kids have fun at the Legion dance? Why sure, Well then I expect to see you next Thursday.

Ask Mr. Mylander if he ever had any bad luck on Saturday and then duck, he's sure to throw something!

The Snoper signs off with this advice to the Men of the community—Don't park in M. C. Guthries driveway after 10:00; he is stationed in the upstairs window with a gun and I've heard he likes Blonde Basketball players for targets!

GOSH, ONLY A PENNY!

Once a penny was a fortune to a six-year-old. It could buy yards of licurie shoestrings, an all-day socker, or a syrup-smothered scoop of shaved ice. A penny would pay for marbles, a tin whistle, or even a little lead soldier. It was the coiling penny for a new top-striper.

Newadays, a penny won't buy much for a little boy. But it purchases a lot of labor-saving electricity.

Sonny may sniff at a penny for running an errand—yet that same penny will (at average household rates) do any of these jobs:

- Run a sewing machine all afternoon
- Keep a refrigerator cold for 4 hours
- Vacuum clean 10 large rugs
- Light a 50-watt bulb for 6 hours
- Run the washer for 6 tubs of clothes
- Give you the correct time for 7 days
- Keep a radio playing for 3 hours

Yes, a penny is still big money—electrically. Actually, the average family gets just about twice as much electricity for its money as it did 15 years ago. Keeping electric service cheap, friendly and dependable—even all through the war—is a tribute to the careful business management of your electric company, and to the hard work and experience of all the men and women in it.

Huron County Child Welfare Services Now Under County Welfare Control

The Administration of Child Welfare Services in Huron County has been placed in the County Welfare Department as the result of an agreement between the County Commissioners and the former Board of Trustees of the Children's Home.

The last General Assembly of Ohio enacted a complete revision of Child Welfare laws which became effective on January 1, 1946

TALK . . . meetings will do they talk about at these conferences?" my wife asked me.

was reading the front page of a newspaper which headlined one conference after another about state.

"I don't know," I said, "I suppose they discuss labor's demands and to see if they can come to some agreement."

"No," she complained, "these business always say just about the same thing. They either say that no agreement was reached or the another conference is being planned. In some of the strikes people have been meeting for weeks and nothing seems to happen. I can't see what they talk about all the time."

My reaction — a sort of defense of the male — was to try to point out that men of importance don't all around together in the same way without discussing subjects of weighty concern. Women might say, "But not busy business executives. But as I tried to build my case, I too began wondering what on earth did keep the conversation rolling at these long-winded conferences.

CONFERENCE . . . delay After struggling with this mysterious problem for some time, I finally came to the conclusion that one of those many conferences between Mr. Anderson of General Motors and Mr. Thomas of the Automobile Workers must have gone something like this:

Mr. Thomas: Well, are you going to give us 30 per cent?

Mr. Anderson: No.

Mr. Thomas: What's your best offer today?

Mr. Anderson: 15 per cent. And that's final.

Mr. Thomas: You know we won't accept any higher.

Mr. Anderson: You know a cigar 30 per cent longer than the average cigar. Anderson lights a short, fat cigar and looks at the conference table glaring at each other. After an hour of this Mr. Thomas clears his throat impatiently.

Mr. Anderson: Any change yet?

Mr. Thomas: No. Still 30 per cent. Anderson: It's getting late. Shall we call off the conference?

Mr. Anderson: Okay. What will we tell the papers?

Mr. Thomas: I've just written out a statement. Here.

Mr. Anderson: (reading) "After conferring until midnight, no agreement was reached. It is the opinion of the union representative indicated that he would be willing to consider a compromise proposal."

PUBLICITY . . . repetition Of course, if Mr. Anderson did head Mr. Thomas a statement like the one above, the conference would be in a more explosive position. Like this, perhaps:

Mr. Thomas: What do you mean, I am willing to compromise!

Mr. Anderson: You made that very clear two hours back when, after I refused 30 per cent, you asked for my best offer.

Mr. Thomas: Well, we're not giving any statement like that to the papers.

Mr. Anderson: Then what do you want to tell them?

Mr. Thomas: I want to tell them that you are trying to stop progress. That you want to beat down the working man, that you won't bargain with us.

Mr. Anderson: What I want to say would be fairer, but do you want to get together on that statement?

Mr. Thomas: I just want to give the public the facts.

Mr. Anderson: You mean you want to confess that the union is trying to high-pressure us into increasing the cost of automobiles, that you admit the fallacy of seeking higher wages when production is at a standstill, that you are a glib, that I have to be funny I guess we have to issue the same old statement. Have you got a fresh copy?

Mr. Thomas: You mean the one headed "Conferees Fail to Agree" or "Conferees to Be Continued" or "Conferees Haven't Got any other, or "My members are getting fed up with those."

Mr. Anderson: (thumping through papers) Let's see. One we haven't used for a month "Conferees ignore Areas of Agreement."

Mr. Thomas: Okay, give them that one. And next time let's go home early. I've been missing out on 30 per cent of my sleep.

and provided for the administration of the laws by a Child Welfare Board or the Welfare Department. The Board of Trustees of the Children's Home administratively became the Child Welfare Board. After careful consideration of the wide scope of the new laws, the Board decided to join the program over to the Welfare Department.

The County Commissioners expressed their appreciation for the long and faithful service of the five members of the old Board in a resolution spread upon the minutes of the Commissioners' Journal. The retiring members are: Mrs. W. C. Pratt, President, Norwalk, Ohio; R. R. Jenkins, Vice President, Willard, Ohio; C. E. Burk, New London, Ohio; Fred G. Laible, Norwalk, Ohio; Mrs. L. A. Burk, Wakeman, Ohio.

All members of the old Board were immediately elected to the members of the Child Welfare Advisory Committee and will continue their functions in the operation of the Children's Home in the new manner in the past. Mr. and Mrs. Dallas V. Wentz remain as Superintendent and Matron at the Children's Home and will have complete charge.

The new laws make the Welfare Department responsible for the care of all dependent, neglected and Crippled Children. The juvenile court will handle the cases of delinquent children and orders the amount of support to be paid by parents of neglected children, but may turn the child over to the Welfare Department for further supervision. Collections of support will be made by the Welfare Department. Board members of the department will be sought throughout the County and inspections made to determine suitability of these homes. A caseworker, trained in Child Welfare work will be assigned by the Welfare Department and office space on the third floor of the Court House enlarged to care for the added responsibility.

NIGHTMARE VOYAGE WITH MURDER

Peter Levine, writing in The American Weekly with this Sunday's (January 27) issue of The Detroit Sunday Times, gives a vivid account of a weird sea voyage, with no less a twist than into bloodshed, murder mixed with mysterious sickness, and superstitious seamen driven to panic by a woodcoastian maniac in the galley.

TWO GET ENDORSEMENT NORWALK — The Huron-County Republican executive committee has endorsed Judge Irving H. Cantor, of Norwalk, for reelection to the sixth district court of appeals, based on Toledo, and Arthur Henry, Monroeville, for a Huron County seat.

Mr. Cantor will expire March 1st.

WORKING AT SHOP Mrs. Robert Greenwood of Vermilion Lagoons, is assisting in the office of the Fate-Roach Co.

SUCCESSFUL PARENTHOOD TASTES THAT FOLLOW TRENDS

HAS Ana been saying that all she wants in this world is a woolly white cat just like those of the Jewish girls are wearing. It is Johnny begging for a windbreaker of exactly the same color and style as those sported by the school fellows? If so—and such is the case in many households—you are making a mistake. You are actually alike. Naturally, this tendency to imitate others can be very dangerous. It is a sure sign that you have standards of taste that do not fit in with the current trend.

There is a nothing new among youngsters. Think back to your own youth. You were just as much into styles and colors were "the rage" as they were replaced by new ones.

It is all part of the desire to conform, a desire that is universal among us humans. So we really should not make an issue of it. The best thing we can do to keep peace in the family is to give our youngsters the best possible example, with an eye to what is practical and of value from the financial point of view.

The time to be firm is when our boys and girls show a tendency to look down on or make fun of those who cannot afford to keep up with the latest in the style of the moment. Children can be very cruel about those who are not up to date because of their clothes is almost as bad as showing prejudice toward boys and girls of other races and religious

Notes From Our Subscribers Here And There

HUNTING FOR SUNSHINE A card from Jim Rhine, former village clerk, and his wife who are vacationing in Florida arrived at their destination Lakeland, last Wednesday with good luck all the way. "What a beautiful day it was the sunny South? I couldn't say, for we haven't seen any sunshine yet, since we left Tennessee. It rained all the way through Georgia and still raining when we reached Florida. Not raining today, but it is cloudy and cool. I'll tell you about the sunshine part of it later. We are starting out today to see if we can find it, ha," says Jim and Madge.

NOW SETTLED Mr. and Mrs. Arthur Myers who recently left the old home town for the West are now settled at Desert Village, Tucson, Ariz. They arrived at Tucson on Jan. 16th with a good trip except for rain and snow. They are having good weather even though their trailer door open all day.

MAIL SERVICE NOT SO GOOD A note from Mrs. M. D. Bistline in St. Petersburg, Florida, writes she is again glad to get the Advertiser during the Christmas rush it failed to arrive and was greatly missed. We're sorry for the omission but it really was sent. Another complaint comes from Punta Gorda, Florida, from Mrs. R. C. Davis, who also failed to receive their paper. We can't explain it but lots of things could happen—the label off, lost in mail or other reasons. We have checked the list and hope the Advertiser arrives in good time.

FROM CALIFORNIA Miss Aila McKinley who is visiting her sister in Berkeley, Calif., sends a card of the San Francisco-Oakland Bay Bridge, San Francisco, which makes a lovely view at night and can be seen from Berkeley. Miss McKinley is enjoying her visit.

However, I think the community should be proud of the job you are doing."

Thanks a lot Mr. McBride—we appreciate your patronage and notes of encouragement in the past, but we too realize that "TIME MARCHES ON."

LIBRARY RECEIVES GIFT FROM MRS. C. V. WHITNEY For the third consecutive year, the Plymouth Library was re-emphasized with a cash gift from Mrs. Eleanor Sealy Whitney of New York.

Miss Jessie Trauger, librarian, reports a donation of \$200 to be used in the continuance of the good work of the library. Mrs. Whitney prefers that the money be used for purchasing what might be termed "luxuries" or articles the other way around, and no funds available. Miss Trauger, the library board and the patrons in general are grateful for the gift given our thriving library.

Most of the best sellers are on the library shelves and fifteen books for young people have been received from the Mansfield library. The circulation continues good and Plymouth can be proud of its library.

We're not blaming the local operators, for they are doing their utmost, but it is as describing the various furnaces used in making iron and steel. An election of officers will be held at the February meeting.

TAX FUNDS TO BE MAILED TO SUBDIVISIONS

Distribution of personal tax funds collected during the last half of 1945 was mailed to Richland county's school systems, corporations, and townships early this week, County Auditor Norman L. Wolfe has announced.

Although collections last November totaled \$257,333, advances have taken \$151,000 of that total, Wolfe said. This leaves \$106,333 still to be distributed. General taxes accounted for \$220,822 of the collections, while classified receipts totaled \$36,511.

A total of \$30,977 will be allocated to eight corporations within the county, Wolfe said. Of this, Mansfield will receive \$24,212; Shelby, \$4,920; Shiloh, \$14; Bellville, \$204; Lucas, \$225; Plymouth, \$1,174; Lexington, \$110; and Butler, \$58.

The county's 12 school systems will receive \$27,977, the auditor said. Mansfield's city schools will receive \$14,384 and Shelby's \$6,486, while of the rural systems, Madison will get \$131; Bellville, \$331; Lucas, \$349; Milfin, \$33; Springfield, \$291; Plymouth, \$1,855; Springfield, \$145; Lexington, \$152; Butler, \$124; and Union, \$447.

In all the townships will receive \$5,487, of which Bloominggrove will get \$11; Butler, \$21; Cass, \$24; Franklin, \$7; Jefferson, \$73; Milfin, \$17; Monroe, \$68; Plymouth, \$336; Sandusky, \$9; Sharon, \$309; Springfield, \$33; Troy, \$225; Washington, \$56; Weller, \$129; and Worthington, \$23.

March Of Dimes Campaign Is On

The business houses around the Square, Bank, Churches and Schools are being asked to be receiving stations for the March of Dimes campaign now being conducted.

As in past years, half of all of the money contributed to the March of Dimes remains with the local chapter for work in the area where it was given. The other half goes to the national organization for scientific research, education and epidemic relief.

Attend Columbus Session This Week

J. E. Hodges, Trustee, New Haven Township is attending the 18th annual convention of the Ohio State Association of Township Trustees and Clerks being held in Columbus today through Saturday noon.

According to State Secretary Charles P. Baker, Jr., Painesville, the association has arranged an exceptionally fine program. Inasmuch as this is the first post-war meeting of the state group, a record crowd of about 2000 public officials is expected to fill Memorial Hall for the three day sessions.

The convention will be presided over by Joe R. Thomas of Haystack. The "Old Timers" will be entertained by Dusty Miller today at luncheon, while Judge Carl V. Weygandt, chief justice of the Supreme Court of Ohio will speak at the annual banquet this evening.

The convention will adjourn Saturday noon.

JANUARY 21ST TAX PAYMENT

January 31st, as previously announced and stamped on the face of each tax statement will be the final date for Real Estate tax payments in Huron County. On Saturday, with nearly two full weeks of the collection period still remaining, County Treasurer H. B. Collier stated that about two thirds of the collection had already been completed, due in part to the splendid January weather. That transportation facilities are still below normal is evidenced by the fact that a larger number than ever before have mailed their tax payments to the office this year.

Tax statements were mailed to property owners as they appeared on the second Monday in April 1945, the date set by law as the start of the '45 tax year. The

Treasurer points out that if changes of ownership have developed since last April and the bill sent to the previous owner, it is because no change of ownership and new address have been given the Treasurer's Office. Last year, an enclosure explaining the procedure was mailed with every tax statement, but few have complied, causing considerable inconvenience for all concerned.

The Office will remain open next Saturday afternoon till 3:00 p. m. for the accommodation of those who find this the most convenient time. Last Saturday the office was literally full with those using this accommodation.

PHONE CO. HAS TRAINING PLAN

The first Veterans' Apprentice Training program to be approved in the Telephone Industry has been placed into effect by the Northern Ohio Telephone Company, which operates the telephone exchange here and at forty-eight other cities, villages and communities in north central Ohio. The program announced by Wm. C. Henry, General Manager of the Company from its headquarters in Bellevue, will provide additional governmental wage payments for honorably discharged service men during their period of "on the job" training to learn telephone construction work.

One of the many provisions under the G. I. Bill of Rights provides that a Company may set up definite standards of training to teach returned veterans a trade. Such program is registered with The Ohio State Apprentice Council, and when approved by the Federal Government and the Ohio Department of Education, the regular rate of wages paid by the Company will be supplemented by payments, through the Veterans' Administration, to increase the total pay of the veteran during the period of training. The program of the local Telephone Co. provides for a period of three

years of training in the outside telephone plant, construction department. While undergoing this three-year period of training, the ex-service man will receive total wage payments from the Company and the Government together, equal to the Company's current wage rates at the end of three years of training. Any increases in the Company's present hourly wage rates during the three-year period of training will also be added to the rate of pay of veterans under the training program.

Mr. Henry was released from the Signal Corps the last of November as a Colonel after forty-four months of Military Service, and has been working since that time to secure approval of an apprentice-training program for his Company. Similar programs, numbering many hundred, have been approved during the past few months for other industries in Ohio, but the training program of the Northern Ohio Telephone Company is the first telephone company plan, either Bell or Independent, to be approved in the United States.

Colonel Henry states that he will give preference to the employment of ex-service men, who live in the communities in which they will work, in rebuilding the plant department personnel of his Company for the heavy post-war construction program which is ahead. Ex-service men with Signal Corps experience are especially desired because of their communication experience in the Service. However, the Company's apprenticeship training program is available to any honorably discharged veteran regardless of branch of service or previous experience.

The Company states that further information or application blanks for employment can be obtained from the manager of the Telephone Company.
