

**MOST WORKERS WILL PAY LESS**

**New Withholding Tax Went Into Effect January 1st.**

Comparisons with the tables of withholding taxes for 1945 and the new tax table for use in 1946 shows most workers will pay less federal income tax in 1946 than in 1945. This is particularly true if the worker is the head of a family and has three or more dependents.

There is a tax on all wages subject to tax of 24 cent up to the first \$11 weekly if no exemption is claimed. Every person is entitled to one exemption of \$11 per week, but some do not claim it. If there are exemptions no tax is levied until the wage is levied on wages of \$11 or less per week.

The old law took 18 per cent. With a worker claiming his own and one other dependent, no tax is levied under \$22 a week. With his own and two other exemptions no tax is levied until the wage exceeds \$32 weekly.

With his own and four other exemptions no tax is levied until the wage exceeds \$54 per week. A worker may receive \$18 per week and pay no tax if he has ten or more exemptions.

Under the previous law all wages above \$11 paid some tax, regardless of the number of exemptions because of dependent members of the family. If a man and his wife pay the same tax as if they were one person.

Under the old law a man getting \$30 a week and his wife receiving \$30 a week, would pay \$4.10 federal income tax. Under the new law each would pay \$3.40, a saving of 70 cents per week. If only one worked the tax was \$2.20 and will be \$1.40.

If a man has five exemptions his tax was 50 cents; in 1945 the tax will be nothing.

**LOCAL CHURCH EXTENDS DRIVE**

Clothing and bedding are still being gathered at the First Lutheran Church for European Relief. Bishop G. Bromley Oxnam and his wife, Mrs. Oxnam, are just returning from Europe and Dr. Franklin Fry, President of the United Lutheran Church, who at present is in Europe writing "Unpleasantly hard" is being suffered in a desolate, miserable Europe. They are without food, medical supplies, adequate clothing, shelter. Children and old people die enroute. Many diseases are becoming epidemic and manifest itself in widespread typhoid, cholera, typhus and diphtheria.

Let us do our part in helping them. The government has given special permission to permit all citizens and gifts to pass to the United States controlled territory in Europe. Help is needed now!

**LOCAL HARNESS SHOP REOPENS**

One of the oldest and best known local business houses changed ownership this week when Arthur Myers announced the sale of his shoe and harness repair shop to Don Willet of Upper Sandusky. The sale was completed last week and the new firm, under the charge of the establishment Myers, the shop has been closed for some weeks due to the Myers family making plans to leave for Tucson, Arizona. Mr. Myers owned the establishment yesterday, and announces that he will conduct the business in his usual manner, repairing shoes, harness and other leather items. The shop is located in the building of the Myers shoe and harness shop, and the two story building in which it is located. The first floor is used for the business, and the Willets will occupy the living quarters on the second floor.

Under the previous law all wages above \$11 paid some tax, regardless of the number of exemptions because of dependent members of the family. If a man and his wife pay the same tax as if they were one person.

**LOCAL SCHOOLS RESUME CLASSES**

Classes were resumed in the Plymouth Schools Wednesday afternoon, the closing of Dec. 17. The shut-down of the local schools was caused by an epidemic of flu which hit hard in this section, especially in Richland County, and which resulted in the closing of all county schools as well as those in Mansfield and Shelby.

Northfield and Shelby schools will re-open on January 7th. The epidemic caused no fatalities in the immediate section, but very few of the school children escaped having the flu. Striking when it did, the flu caused a prolonged Christmas vacation which began the middle of December.

An attempt was made to open the schools a week prior to the Christmas vacation, but the attendance was so low that it was deemed advisable to keep the schools closed until after New Year's.

Supt. Van Brunt states that schedules will be resumed where they were left off, and that he expects all classes to begin functioning as usual within a couple of days.

Effective Jan. 1, 1946 the yearly subscription rate to the Advertiser will be \$2.50 instead of the usual \$2.00. The increase is made necessary by increased paper prices and labor. The recent increase of print paper was the largest since the war began in 1941.

While the yearly subscription price goes to \$2.50, newsstand sales will remain at \$1.00 per copy. Actually, your Advertiser costs you only 5c per week.

If your subscription is due before January 1, 1946 you will owe \$2.50 instead of \$2.00.

**Athletic Group Gets Off To Fine Start For The Year**

A new organization, "Athletic Club of Plymouth," is going to hear a great deal in the future. It is the one tentatively to be called the Plymouth High School Athletic Association.

At a meeting held Friday, Dec. 21, in the high school auditorium, David H. Bachrach was elected President of the association, John F. Root, vice president, and E. B. Morrison, secretary.

Preceding the meeting, a fast and exciting game between the high school and the alumni was held (which practice the organization will make a regular annual event) with the high school winning by two points. Playing under the handicap of size and inexperience, the high school boys show great promise of having a real team with the proper backing and cooperation which is hoped the organization can provide.

Following the meeting, the officers and committee have been holding regular meetings each Sunday at 10:00 a.m. in the office of the Bachrach Company, and many interesting plans are being formulated to be published in the Advertiser.

Hoping for larger attendance of township people at out-of-town tilts, Robert Lewis and Jud Morrison will appreciate cooperation from the Church of God officiated and burial was made in Oakland cemetery, Shelby.

The deceased passed away the preceding Monday following an illness of several weeks.

Survivors, in addition to his wife, Hattie, are two sons, Harry of Plymouth township and Robert of Mt. Victory; three daughters, Mrs. George Rogers, Mansfield, Mrs. Edith Ervin, Dalton; and Mrs. Marie Beck of Leesville, and 11 step-children.

His condition was not considered dangerous at the time, and his death was somewhat unexpected.

**THE WEATHER NEW OFFICIALS ARE IN OFFICE**

The month of December, 1945, was a decidedly cold month, with an average temperature of 24.8 degrees or exactly 6 degrees below normal. The highest was 51 degrees on the 8th; the lowest 5 below zero on the 16th. The thermometer also dropped to 2 below zero on the 17th and 18th.

Precipitation was comparatively light although it snowed or rained on thirteen days. The total was 1.41 inches, a deficiency of 0.52 of an inch. Total snowfall measured 84.8 inches. There were 29 cloudy, 8 partly cloudy and only 3 clear days of sunshine.

Wheat, which was sown late, should not look any too good, but should be fairly healthy under the blanket of snow, which at the beginning of the New Year measured 3 to 4 inches deep.

While it was not a good month for farm work, some corn and beans were still being harvested as weather permitted.

**ARE IN OFFICE**

The first meeting of the new mayor and council was held Tuesday night, and only routine business was transacted at this session. The outgoing mayor, W. W. Wirth, gave the oath of office to mayor-elect, Joe Lasch, who called the council to order and proceeded to appoint various committees for the two-year term, immediately following their induction into office.

With the exception of Councilman Luther Fetters, the entire roster of councilmen are new faces, and they received their appointments to various committees with much procession. In selecting his working staff for the next two years, Mayor Lasch chose the following:

Finance Committee - Harry Trauger, Whitney Briggs, Street Committee - Park Morrison and Morrison, Fire and Police - L. R. Fetters, Robert Fogleson, Brinkerhoff Fund - Trauger and Morrison, Building and Rest Room - Morrison and Mosier, Light and Water - Fetters and Fogleson.

Mayor Trauger - Fogleson and W. Briggs, Luther Brown, who succeeds James Rhine as clerk, read the minutes of the last meeting of the outgoing council, and gave a financial report of the village treasury.

A motion was made and carried that the mayor and council enter into a contract with the present solicitor, Robert Vetter, to serve in the same capacity for the next two years. Mr. Vetter has ably represented the village in a legal capacity for several years, and he expressed a willingness to continue his work here.

Fire Chief's Report F. B. Stewart, Plymouth fire chief, gave his annual report of the new mayor and council, revealing that Plymouth had seven fire alarms during the past year, two in March, one in August and two in November. The cost of the fire for the seven calls amounted to \$535, and the cost to the village, totaling \$131.30. Stewart also gave his tax report to the department, especially in water mains. His report, as a whole, was favorable, and he is to be commended in keeping the fire department in such good shape.

Another disappointment was recorded when Mrs. Frank Pittz happened to be in Mansfield last Saturday when she bought two dozen tree light bulbs. She thoughtfully placed them away until it came time to fix up the tree. She got out the bulbs, found they were all dead, and going to show her four daughters just how beautiful a Christmas tree should be. What happened? Well, her husband bought in November, and she thought she had the sockets. It was a little aggravating, wasn't it? Well, at any rate she isn't smoking Old Golds.

HAD A LITTLE CHAT Saturday afternoon with Dick Salbury and Mrs. Fransens, in which we recalled the days of the Plymouth (if any). Frank moved from the Lebanon stock farm a number of years ago, buying a small farm on State Route 13, ten miles east of Plymouth. He's getting along fine, doing a little farming, and is regaining his health slowly. As for Salbury, he's still tending the acres down on the Coleman farm north of town. Father Time is gaining on Dick a trifle, but not so such an extent as you might think. He continues to do a good day's work. Salbury got to "relax" some of his early experiences... back in the days when the public square was a fire square, and when Mose Kappenberg did all his own butchering, and "Flopper" Frome was a star baseball pitcher.

**NEW OWNER AT SCHRECK'S MKT**

Another change in business ownership was made this week when C. A. Hohler and Dan Hohler of Shelby took over Schreck's Market Tuesday. The deal was consummated with the village, with the change in ownership becoming effective the first of January.

The sale of this well-known market, Dan Hohler, nephew of C. A. Hohler, will have active management of the store. Young Mr. Hohler, before entering the service, was connected with the A. & P. Store in Shelby for five years, later becoming associated with his uncle, C. A. Hohler in The Shelby Cash Market. They continued in partnership until Dan Hohler entered the Army, at which time The Shelby Cash Market was sold out, and C. A. Hohler opened up the South Side Market.

Upon his return from the South Pacific, where he had spent thirty months in the Veterinary Hospital at the Tenth Army, Mr. Hohler decided to re-enter the business of which he was so well acquainted... he decided and meat shop. It was grocery store, and Dan and I bought the Schreck Market, and the deal was announced some weeks ago.

The new owners will operate under the name of The Plymouth Cash Market, and will continue to feature groceries, meats and vegetables in season. All transactions will be on a cash and carry basis.

In selecting Plymouth to enter business, Mr. Dan Hohler stated that he had under advisement other places, but chose Plymouth because of the good reputation of the entire community. He is making his home at the Mabel McFadden residence.

Mr. and Mrs. Robert Schreck, who have operated the market for the year and a half, have no immediate plans.

Another incident at Christmas time which proved a very unpleasant experience was the one in which Fire Chief Bud Stewart almost lost his new overcoat by the fire. Stewart was there when the fire broke out in the fire house, and he was the first to see the smoke. He immediately ordered the fire to be put out, and he was the first to see the smoke. He immediately ordered the fire to be put out, and he was the first to see the smoke.

**Around the Square**

WELL, FOLKS, it was a great Christmas, wasn't it? Yes, sir. With the war over and the boys coming back home, it was a real thrill to let you know that you know that this was to be the first real Christmas in four years that we knew the meaning of Peace.

DOING A LITTLE RESTRO-SPECTING HERE... Over the week-end and Monday before the great day, stores and shops in Plymouth were filled with shoppers... there could be seen mothers and grandmother buying things... and if you happened to be in a grocery store, it was not hard to tell who was "having company," and in many instances we found that "Our boy is expected home in a few days," which called for a real table of food.

SMILES AND MERRIMENT were in the air during the holiday season, and to top things off the folks on the air gave us some well programs to enjoy... Saturday night and all day Sunday, it was really a pleasure to tune in almost any station. White Christmas was a favorite song for the night, and the boys were wondering if some southern fellow didn't hatch up that theme. Here in Plymouth we don't have "I dream of a white Christmas." It's really white Christmas... beautiful clean snow covered the whole countryside, and in Plymouth the lights and the gobs and Xmas decorations seemed to stand out against a blanket of white snow. Yes, it was a great Christmas again... not for the presents we received, but for the friendliness that prevailed in the community and the happiness which abounded in each heart.

I WAS TOLD that "Zach" Taylor had had a little Christmas tree this year. The past four or five years the Teals featured only a small tree with one light. This year they had a tree so large that it had to be decorated, and when it came time to decorate, it was no mean problem to make a show-off with just a few lights. It was said that Zach's face was so red, it could have illuminated the whole tree. Better luck next year Zach.

**IT'S SOPHISTICATED**—Guests at NBC's "Raleigh Room With Hildogard" will see that lovely singer in this chocolate brown evening dress designed by Adrian of Hollywood. Rows of silk fringe on brown crepe with silk skirt and V-necked bodice make a gown that's really exotic. The skirt is slit to the knee and Hildogard wears slippers and her inevitable gloves in charcoal green as bright accents to the costume.

**CAPE AND GOWN**—Hildogard, famous chanteuse of NBC's "Raleigh Room" program, wears chocolate brown, that's more sophisticated than black. Adrian designed the evening gown and matching cape of brown crepe with heavy silk fringe to give it weight, beauty and that wonderful shimmering line. Rows and rows of fringe go horizontally across the cape and down one side of the slit skirt.

**THE OLD JUDGE SAYS...**

STEVE: "How was the hospital dinner, Judge? Sorry I couldn't get there."

OLD JUDGE: "Very interesting, Steve. One of the doctors on the staff read a paper on the research work that is going on at one of the big universities where they are studying chronic alcoholism."

STEVE: "I'd like to have heard that, Judge."

OLD JUDGE: "He pointed out that approximately 95% of the people who drink too sensibly. Only 5% abuse the privilege occasionally and included in that 5% is the very small number known as alcoholics. Then he quoted a doctor from a famous university who said 'Alcoholics are sick persons and, if treated as such, may be cured.' Alcoholism, he said, is a disease of the mind but by deep-rooted emotional derangements which can be prevented by education and often cured through modern psychology!"

STEVE: "That's the most sensible approach to the problem I've heard of."

**BEHIND THE SCENES OF AMERICAN BUSINESS**

— by John Craddock —  
**NEW YORK, Dec. 31**—For the first time in five years, America looks forward to a full year of freedom from war. Labor disturbances have marred the first few months of peacetime operation and indications are that they will continue into January, if not longer. To the more pessimistic analysts, these disturbances represent a serious breach between natural and synthetic rubber. Meanwhile, he points out, technical progress in the manufacture and use of synthetic rubber will continue. "During the war period," he adds, "tremendous strides have been made in the synthetic field—so much so that we already have introduced a synthetic rubber passenger-car tire that will outwear prewar natural rubber tires."  
**Home Construction Outlook**  
 Home construction will not attain the high rate in 1946 which was predicted during the war years. Less than half the number of homes originally expected to be built during the first full year of peace will be constructed during 1946, Harold W. Sweatt, president of Minneapolis-Honeywell Regulator Company states. Shortages of materials and manpower are ready to buy them. That is a firm basis for business prosperity and a high level of employment. However, this condition could change if many people get out of work for a prolonged period and are forced to spend their savings. Most industrial leaders think that differences will be settled soon and that business is in for at least several years of sustained high rate of production.

**Aluminum Use Expanding**  
 The aluminum industry which contributed so greatly to the war effort anticipates a substantial increase in usage of this metal over the pre-war level. Roy A. Hunt, president of Aluminum Co. of America, points out that the industry will depend for volume, in part, upon appliances manufacturers little known till now in a number of the nation's largest industries. The railroads, he says, have ordered 160 all-aluminum passenger cars and will use 2,000 to 10,000 pounds of the metal in nearly 1,000 additional cars. Roofing sheet is expected to provide another high demand market. Among smaller items to be made of aluminum are canoes, caps and seals, and heat-sealed foil envelopes. To meet the anticipated higher demand, Alcoa has recently opened 11 new regional sales offices and is planning to open five more.

**Large Volume for Rubber Industry**  
 The rubber industry expects to maintain a high rate of production in 1946. John L. Collier, president of The B. F. Goodrich Company, estimates that the nation will consume 900,000 tons of raw rubber, which would be new all-time high and approximately half-gain as much as the average consumption in the last few normal prewar years. "Ring out the old—ring in the new!" Where have you heard those words before? They may be old fashioned, but they're tried and true, and all we can add to convey our greetings of the season, is to sing out "Happy New Year to you." We might express our wishes more fancifully, but not more sincerely.

WINTER SHOW SATURDAY-Plymouth Theatre

Junior Class Ushers In New Year At Home of Their Sponsor, Mrs. Lanius

(Reported by a Junior Girl)
To ring in the New Year, the Junior Class was entertained at the home of their sponsor, Mrs. John Lanius and husband. Each member of the class was sent an invitation and instructed to come dressed to portray the month of their birth. A fine of ten cents was made if orders were disobeyed.

The first game played was that of guessing the birth months by the costume worn. Ruth Ford won this prize, guessing the most months correctly.
As this was a party for looking over the old year and looking ahead into the future, the guests played a game of nine parts. The group was divided into the four seasons of the year, Spring, Summer, Autumn and Winter. Each season chose a song, yell and leader. The Summer group won the yell contest and Spring won in the song contest.

Going on to the third part of this game was the snowball contest. Three people from each side were chosen to throw two cottonballs each through a ring. Autumn was the winner.
Three people from each of the four groups participated in the fourth part, called Spring Fling. This was building a pillow, taking the pillow out of the pillowcase and putting it back again as fast as possible.

The Honeymoon trip, the fifth part, was very exciting. From each group a boy and girl was chosen. They had to start from the front door, running arm in arm, to the kitchen, pick up a suitcase and an umbrella, come back to the front door, open the suitcase and put the things on that were there. Everything had to be buttoned, the girl had to put slippers on, her shoes in the suitcase, and he had to close the suitcase and open the umbrella. Then they had to run out into the kitchen, deposit the things in the suitcase and come back to the front door. Spring won this contest.

Fanning was needed after that Honeymoon trip, so a fan and a balloon was given to two people from each group. They had to fan the balloon a certain distance, just using the fan. Result—Autumn won.

To test our skill, the Seventh part of the game was dropping clothespins into a milk bottle. Spring won—everyone took part in this and also in the Eighth part which was a heart hunt, looking for hidden paper hearts. This was won by Summer.

The Ninth part was a peanut hunt with all participating—only to find after searching that it was the April Fool's month. Starting a new game, we played "Truth or Consequence." Each guest picked their own question and a consequence from the envelope. Two of the consequences were held back until the New Year came in. Bob Hampton and Bob Kennedy were the victims.

Taking about ten minutes out everyone was given crepe paper and pins to make themselves a New Year's hat. A fashion show was held and Mary Ellen Thomas won this prize.

Just before the hour of midnight, Bob Hampton was dressed "Johnny New Year," and Bob Hampton as "Father Time." Their costumes fitted the occasion and if it hadn't been for Bob Hampton's size, even the three-colored ones would have been used. At exactly twelve, everyone lined up with their New Year's hat they had made, and with noise makers, paraded around the block singing "Happy New Year."

Home the class enjoyed tasty refreshments. The class wishes to thank Mr. and Mrs. Lanius for a wonderful evening.

CONDUCTING A THEATER IN WILLARD HAS BEEN A PLEASURE AND I appreciate the good will of the public," Mr. Tracy says. "I am confident that Mr. Boyer will continue to operate it in a most satisfactory manner and will procure for the public the best kind of entertainment."

# Doings in Congress

By CONGRESSMAN WILLIAM LEMKE

Another year is gone; 1945 is gone never to return, but it has not gone into oblivion. It will be a year with which future historians will wrestle perhaps more than with the unfortunate year 1938-1939 when Hitler, aided and assisted by other nations and by some of our own "stay at home" warriors, plunged the world into a mad, insane war. Time alone will tell us how right many of our "stay at home" warriors were in their view, but it has not been in vain.

The world is still at war in many places. In China there is civil strife. In Japan and India, Great Britain and Holland, aided and assisted by us, are repeating the brutalities of Hitler. Villages are wiped out because they do not surrender the profits that wish to liberate their people from the yoke of Britain and Holland. However, we should not expect too much. The transition from a world war to peace is not an easy one. There are many sacrifices to be made.

Unfortunately, our nation is not "singing its position for decency and justice." I have said before that the United Nations Organization could be made the nucleus of achieving justice in the ultimate world peace. So far it has not raised its voice in the name of humanity. The brutalities and atrocities of some of our Allies have been and are being deliberately concealed and kept from the American people.

The recent appointments to the UNO commission are disquieting. They are political appointments. If the United Nations Organization is to succeed, its charter must be amended. Every nation must be given an equal voice. Its delegates should be elected by the people and not appointed by ruling politicians, beggars and dictators.

There must be no veto power by any nation. The veto power must be a majority and no less. The will of the majority must rule. The Atlantic Charter must be written into the United Nations Charter. Every people must be given an opportunity to determine their own form of government, and to throw off the yoke of so-called mother countries — oppressors — if they so desire.

I shall continue "Doings in Congress" during 1946. I shall continue to call a spade a spade. I shall try to give to the people of my State and other states, where these news letters are published, the facts as they are, and not as we would like to have them. I believe it is only by knowing the facts that we can improve ours and the world's.

Members complain to Members that they have not been visited with them in recent months. There is nothing that Members would rather do than renew acquaintances, but they cannot be in two places at the same time. Personally, we have to forego many visits with friends and even relatives. However, I wish for you and for all humanity a most happy and prosperous year in 1946.

Congress recessed until January 14th. It is not a recess. It is just a breathing spell to catch up with odds and ends — to answer all the would-be builders of new worlds, and to assure our friends that even though this is

the atomic age, it is not the end of the human race. Although we live in a mad world of racial and religious hatreds and revenge, there are better and juster days ahead.

We are sorry that so far we have not heard from a single head of any nation, the wise and generous of President Lincoln. "With malice toward none; with charity for all, with firmness in the right, we are in; to bind up the nation's wounds; to care for him who shall have borne the battle, and for his widow and his orphan — to do all which may achieve a just and lasting peace among ourselves and with all nations."

In place of that we put a blot on the fair pages of our history. We still have military trials and executions although the war is over. We even executed fifteen and sixteen year old boys. The military is still trying and passing judgment on the wrongs; quashed. We forget that two wrongs never make a right.

Yet there is hope. We resolve that we shall never forget that which may achieve a just and lasting peace among ourselves and with all nations. We resolve that during 1946 we will do all in our power to stop starvation, liquidation and robbery, by "Three" or the "Big Five," of smaller or vanquished nations.

We resolve that we will not make loans of billions to dead-beat nations, and cancel \$7,000,000,000 that they owe us from World War I and II. Let us first reduce our \$300,000,000,000 indebtedness, and cancel the old seed and seed loans, and return the \$20,000,000 that we extorted from the farmers under the guise of penalties on so-called excess wheat. "Charity begins at home." Our motto is billions for veterans, but not one penny to nations who will later call us Uncle Shylock.

We resolve that we will try to abolish government by bureaucracy in 1949; but that we will not return to the Dark Ages, that we will see to it that the new wealth created each year is more equally distributed to those who created it.

We resolve that we will do all in our power to make our nation and the world a better place to live in. We are resolved that the President should request the resignation of Snow White, American Steel — and the political commission appointed to the UNO. We resolve that the President replace these with statesmen — men with vision, justice and poise — with men who will discard the cruel and vengeful Morgenthau European program, and in peace establish a united Europe and a just and lasting peace.

### WHAT CAN YOU SPARE THAT SHE CAN WEAR?

● Clothing that you may consider old can bring new life to some suffering person to whom war brought despair and destitution.

Goal of the Victory Clothing Collection is 100,000,000 garments, plus shoes and bedding. If your contribution seems negligible, bear this in mind: Every garment you give means one more human being saved from cold or sickness or possibly death.

About 25,000,000 people overseas received clothing collected from Americans last spring.

But for every person clothed so far, a dozen more remain virtually threadbare. Your spare clothing will be distributed free, without discrimination, to the victims of Nazi and Jap oppression in Europe, the Philippines, and the Far East.

In 'most any town or city overseas there is someone who can translate English. You can help build international friendship by writing a simple, friendly letter to pin to the clothing you contribute.

Dig into your attics, trunks, and closets today... dig out all the clothing you can spare... take it to your local collection depot now.

## Ohioan Directs Recruiting Drive for Navy

Capt. Dudley A. White, USNR

The U. S. Navy is launching an all-out drive for 23,000 voluntary enlistments in the Regular Navy between now and July 1, 1946. The enlistment campaign is under the guidance of Captain Dudley A. White, USNR, of Norwalk, Ohio, Director of Navy Recruiting and Induction.

"The Navy's recruiting drive," said Captain White, "is designed to speed demobilization of men with long war service, to reduce the Navy's calls through Selective Service and at the same time to enable the Navy to obtain a contemplated postwar strength of 500,000 enlisted men in the Regular Navy."

According to Captain White, about 100 ratings are now open for enlistment. Men volunteering for a first enlistment or reenlistment in the Regular Navy are now given an option on the length of time they wish to serve. Applicants 17 years of age may now be enlisted for two years, three years, or not to exceed minority. Applicants in the age group 18 to 30 may now be enlisted for either two, three, four, or six years. Physical standards have been lowered in the light of war experience.

"The Navy offers training in 50 skilled trades and a boy is able to earn while he learns. The advantages of an enlistment in the Navy should command the attention of every wide-awake young man in Ohio today," concluded Captain White.

"In civilian life Captain White is publisher of the Sandusky Register-Star-News and the Norwalk Reflector-Herald. He represented the 12th Ohio District in Congress for four years and has been on active duty in the Navy since March 1942.

## Shopping Hangover

SHOPPING is many a woman's pet pastime — windows flapping, over the counter for keeps — but it's exhausting, as bargains aren't always easy to find.

Except electricity! Lady, you don't have to stir one step outside your home to get a whopping big bargain in comfort and convenience — at low pre-war prices.

Electric service is always right at your fingertip — plentiful, dependable, ready 24 hours a day to lighten your household burdens and make your way of living more pleasant.

And it's cheap! As a matter of fact, the average family is getting just about twice as much electricity for its money as it did 15 years ago.

Yes, electric service is a rare household bargain. But not by accident. It's the result of the hard work and experience of the men and women in your company.

EXOTIC — BUT NOT TOO! — Bright colored cholis picked up with colored sequins and feathers worn by Charlotte Mantou of NBC's "Road of Life". Birds of shining colored beads — red, blue, green — trim the surban too. Mary Goodfellow designed it and insists on the matching gloves as part of the costume that starts with a plain black dress.

WHITE BROADTAIL WITH BLACK — There's nothing smarter than black and white and Charlotte Mantou, of NBC's "Road of Life" dramas, shows it here in a startling new combination. The visor hat, trimmed with only a tiny black silk cord, is fur—white broadtail. The bag, round and handsome, is broadtail too. Mary Goodfellow, clever young milliner, designed them.
