

Around the Square

(By Phineas Whitlased)

In these here days when neighborly good will is scarce, you search have time to kindly greet; The first word when they come together Well did you ever see such weather?

And if the weather should lose out, What would the people talk about? And anyway it's all first rate If we can but appreciate it. "Variety is the spice of life." And even weather is not all strife It moans and laughs and scowls and smiles And changes our souls with mystic wiles. Since people are of different minds, The weather man must give all kinds.

For some are warm and some are cold, And some who like to grumble, though Be it sunshine or be it snow.

Three months from now on bendable knees We'll beg a whiff of weather's breeze

Why not enjoy it while 'tis here This kind comes but once a year.

circling the globe has brought the continents closer together, so the well established business of lumber and wood business. Their transactions took them to distant points and they were main suppliers to the well known firms, but the country. At one time, when Studebaker was nationally known for its farm wagons, lumber for their manufacturing was purchased from the Childs. Mr. Childs continued his business activities in Boughtonville until April, 1928, when he and Mrs. Childs moved to Plymouth. Here he became interested in the local saw mill, and he remained active in this venture until just a few weeks before his death.

Among many personal traits bestowed upon Mr. Childs, he was straightforward in any criticisms he offered; his integrity in his dealings was not politically, he was a staunch republican. He was a member of the Disciple Church of North Fairfield for a number of years, but transferred his membership to the Disciple Church at Greenwich, where he was a member at the time of his death. Despite his religious affiliations, Ed Childs remained unusually active, and the winter's snow nor the summer's heat seemed to annoy him, for he was about the mill the year round. In passing through the town of Glens Falls, N. Y., he noticed an unusually beautiful church. As it was open here in to look at the interior. He returned to the church and Dr. Sykes explained that he was just a curious tourist. Asked where he lived, the custodian insisted on taking him into the pastor's study, so he could meet him, for he knew the pastor would want to meet a fellow Ohioan. His mind was so busy that he remembered the pastor's name on the bulletin was William Montgomery, and sure enough he found that his mother was Mrs. Nora BeVier Montgomery, a sister-in-law of L. Z. Davis and who had grown up in Plymouth and taught in the Plymouth schools before her marriage to Rev. Dr. John Montgomery. So Plymouth connections do get spread around over the country.

HAVE YOU missed something, which for years was a familiar sight on the Public Square? Well, if you haven't, take a look at the log pile which has been set up in the old hitching rack. I've been in Plymouth long enough to recall my early days when the rack before her was used as a hitching post, but there's some truth in what one old timer told me the other day: "There's just as much horse sense as ever, but it seems the horses have it." And now I ask: "Where are the horses?"

TWO INEBRIATED men found parking on the sidewalk is an offense. Wednesday evening at around 7:00 o'clock, the two in question, a fellow by the name of Arthur Willet, and another by his name, and a McKelvey, who resides in Shelby, attempted to make a turn at the southeast corner of the Public Square, and in so doing, they ran into the walk and struck a utility pole on the Harry Shurtz corner. Fire Protection in Plymouth Township To Get Set Up By Trustees, Council

AGREEMENT APPROVED BY BOTH GROUPS TUESDAY NIGHT; PROTECTION NOW IN EFFECT.

Negotiations for fire protection in Plymouth township were completed Tuesday night when Plymouth township trustees and the village council signed a three-year contract at a joint meeting.

The fire-protection plan for Plymouth residents began better than a year ago when Plymouth village purchased a new fire truck. The truck was delivered some three weeks ago, and since its arrival, the trustees and Plymouth Council again began negotiations for a contract.

Under the terms of the newly signed contract, which extends for three years, Plymouth township to pay \$500 per year for the first five calls, and any number over five, the trustees agree to pay \$50 per call. In the event there are no calls within the twelve-month period the township agrees to pay \$500 for fire protection.

In cooperation with the plan of fire control in Plymouth township, the trustees have made arrangements with the City of Shelby to furnish water, in the event there is none at the scene of the fire. The Shelby department has in use a 1,000 water tank, which is available should an emergency arise.

Through the effort of the township commissioners, Messrs. Sam Casaban, O. I. Dick and Floyd Steele, Plymouth township residents for the first time will have a satisfactory protection set-up, which should give them a lower fire insurance rate within the next few years.

Plymouth township is mostly situated south and west of Plymouth and has an area four miles wide by six miles long. It is estimated there are some 1,100 homes within the township.

Through co-operation with Chief Dalton McDougal and the township trustees, an informative program for fire protection will be instituted within the next few weeks. The trustees will issue a leaflet with instructions of how and what to do in case of fire, and the card will carry the telephone numbers to call should the occasion arise.

The township will also be showing the location of all buildings and roads, water available, and also sources of water.

There are at present fifteen volunteer firemen on the Plymouth Fire Department, led by Chief McDougal. An extensive fire-fighting educational program is to be carried out this summer, and there is every reason to believe that within a few months

Whiting Williams, Cleveland writer, lecturer and industrial human relations consultant, will be guest speaker at a meeting of the Mansfield-Shelby Foremen's club in Plymouth Monday night. H. H. Clinegan, president, announced.

Club members will convene for dinner at the local churches at 6:30 p. m. Here at the evening will be the Fate-Root-Heath company of Plymouth. The program will open with a business meeting and will speak later at the high school.

Formerly executive secretary of Cleveland's first welfare federation, Williams left his job as director of a steel company's personnel and spent several years in overalls as a shovel-wrester in the mines and steel plants of the United States and Europe.

Stage Show Here Next Wednesday

Tex Forman and His Ohio Valley Boys will come to Plymouth in person next Wednesday for one day only at the evening at 7 and 9 o'clock and Tex and His Boys will be at 8 and 10 p. m.

These boys have traveled over the State and have been well received, so those attending should have a good evening's entertainment.

Why You Cannot Get Ahead As Your Father Did . . .

The United States is being forced toward socialism by a tax revolution of far-reaching consequences.

We have not yet felt fully the deadly impact of this revolution because inflation and the postwar boom have delayed its effects.

But from now on, more and more people will feel its bite. Already it is the dominant element in our economic life. Already it is the major factor in our chances of keeping our jobs and of getting ahead.

Here are some pertinent facts on this tax revolution:

1. The tax load that our nation can safely carry has long since passed its danger point.

Our capitalistic system is in real danger when taxes take more than 20 percent of our national income (or 20c out of every income dollar) beyond that point there are not sufficient dollars left in private hands for capitalistic America to raise the capital required to keep its industry going. So we are right now being nudged further and further into socialism.

For today taxes take twenty-five percent of national income (or 25c out of every income dollar).

2. The tax revolution has undercut the incentives that help us to get ahead.

The group whose incomes range from \$5000 up to \$10,000 over 60% of its total income to federal, state, and local tax collectors. Before the war, this group gave the tax collectors one-third of its collective income.

So sharp contrasted the group of people with incomes under \$5000 pays the tax collectors 20% of its income for direct and hidden (mostly hidden) taxes—against 18% before the war.

3. The tax revolution has squarely the average American's chances of keeping a job and of getting ahead.

If you make less than \$5000 a year you may well ask why you should worry about a tax revolution that seems directed at the comparatively small group, about 10% of American families, who make \$5000 or more.

The answer, it seems to me, is that "risk capital," the money that makes new jobs when invested in growing companies or in new businesses, must come largely from the people making more than \$5000 a year. The others

usually cannot afford to take any risks with their savings.

It was the savings of this 10% group that made possible the huge growth in American industry and American jobs and our progress in raising American living standards in the years before 1930.

Now the government is taking so much from the 10% group in taxes that they cannot afford to risk any savings they manage to accumulate. Most of their savings now go to insurance companies and savings banks which are barred by law from making risky investments or investments even in seasoned common stock.

The flow of risk-capital from this 10% group can only be renewed by reducing their taxes. The result will benefit everyone over the difficult years to come by providing more and steadier employment for all.

The cost of the presently proposed reduction less than 1% of the national income, can well come out of current revenue surplus. It will be repaid many-fold by the new enterprises it will stimulate.

Last Rites For Edwin F. Childs

WELL-KNOWN LUMBER MAN DIES FOLLOWING A BRIEF ILLNESS.

Last rites were conducted on Tuesday afternoon at the McQuate funeral home for Edwin F. Childs, 85, who passed away on Saturday morning at a Columbus hospital. Rev. T. E. Winters of North Royalton, officiated at the service, assisted by Rev. Grove of Greenwich. Interment was made in Greenlawn cemetery in Greenwich.

Born October 1, 1862 at Steubenville, Ohio, to George and Ann Mary Childs, Edwin was the youngest of a family of seven children, five of whom preceded him in death. On March 24th, 1886 he was united in marriage to Elizabeth Ann Miller, who passed away on February 3, 1906. To this union was born one daughter Charlotte.

Two years later, on May 30th, 1908 he was united in marriage to Mrs. M. Mescham. In his young manhood Mr. Childs entered business with his brother, William, at Boughtonville, Ohio. It was here, as is well known, not only throughout southern Huron county, but in many far-away points for at that time the Childs brothers were well established in lumber, and wood business. Their transactions took them to distant points and they were main suppliers to the well known firms, but the country.

ILL WITH MEASLES

Beverly Brooks, daughter of Mr. and Mrs. Raymond Brooks, is ill at the family home with measles.

March Weather

The first half of March was unusually cold, with a low of 6 below zero on the 12th. This was with only one degree of the low mark for the winter, (7 below on February 9th).

The last half of the month was mild and Spring-like, with a high of 74 on the 20th and 21st. The average temperature for the month was 40 degrees, or 24 degrees above normal.

Precipitation occurred on 14 days, totaling 3.80 inches or 0.74 inches above normal. Snowfall was 1.4 inches, practically all of which fell on the 10th and 11th.

One of the worst wind-storms in this vicinity occurred on Friday, March 16th, at about 1:30 p. m. Much damage was done to barn roofs and other buildings.

Wheat, at the end of the month looked very good, but it was still too wet for Spring plowing.

Newspaper Gives Interesting Facts About Huron County's Re-Appraisals

Since the news was released that Huron County may have an increase in taxes, the reaction in this section has been very much against it. Before any definite action is taken our county officials should weigh the matter thoroughly. Now is not the time to try and increase taxes of any kind. It is more desirable that our federal, state and county government try and form the habit of being conservative with the taxpayers' money. There are scores and scores of reasons why every taxpayer should pay more and more attention to the taxes he pays. For instance over the last week, a report went out where the United States, to use 140 million dollars for military purposes in Greece and Italy. If this is true, then can we also get blame the people of Europe being just a little dubious as to the outcome of the situation either under communism or the Marshal Plan.

The following editorial is taken from "The Norwalk-Experiment News," and we believe its expression gives the true opinion of those residents in southern Huron County. The editorial follows:

RE-APPRAISAL OR ADJUSTED BUDGETS

Probably the liveliest topic of conversation in Huron County this month is the proposed re-appraisal of real estate for 1943. The methods of making re-appraisals differ and officials are usually vague in discussing them

and taxpayers for the most part have vague ideas as to their implications. The only thing certain is that the result of an appraisal will have to be paid.

In 1937, we are informed, the re-appraisal was carried out by determining what per cent of increase over the former duplicate was necessary to meet the budget for that year; that per cent was used as the appraisal increase. A simplified method that took no account of improvements or new buildings.

When the work of appraisal is carried out by a commercial firm four factors are chiefly considered. "The size of the property, the cost of construction in that locality, the functional and physical depreciation, the value of real estate in that locality."

No taxing authority would put on the duplicate the full true normal sale value, we are assured. The rate of deduction from what is established as such value is fixed by the county auditor.

The appraisal for the 1943 duplicate was begun in 1942 by the Cleminshaw Co. of Cleveland at a cost of \$23,000 which looks like a lot of money but officials are inclined to believe that it was not enough to cover the cost of the work as the company agreed to do it. Both the inside and outside of a building, especially a home, was supposed to be carefully inspected but in many cases this was not done and resulted perhaps in dissatisfaction.

The Cleminshaw Co. put the

true market value, as they estimate it, on the tax duplicate, and that fellow citizens, was the cause of the shouting. The overall increase in the duplicate was 36 per cent.

What is the true market value of a parcel of real estate? Is it what might be obtained for it in this time of a housing shortage when everything is a nutcracker to a combine costs four times what it did ten years ago? Is it what it would have sold for in the depths of the depression in 1932? Is it the same real estate with precisely the same intrinsic value as a shelter.

In 1932 the home of this writer in Norwalk was appraised 12 1/2 per cent lower than it had been in 1923. The rate of taxation in 1923 was 27.4 mills, the second highest in a period of 28 years, and in 1932 the tax rate was 28 1/2 mills. In 1930 the rate of taxation in the county was 27.8 mills.

A review of the tax receipts for the last 20 years leaves the writer in a fuzzy mental state but it does seem obvious that the methods of appraisal in the past must

have been sketchy. We are told that the appraisal in 1948, would not be based on the inflated values of the present, that the market value would probably be fixed at 146 per cent of the value in 1942.

If the letter of the law is observed and the appraisal is carried out in 1948, we predict loud wails of distress from every corner of the county. None of us like to pay taxes and the majority of the county taxpayers are trying to meet their bills on the same income they had ten years ago. The rate of taxation is not nearly so high as it was in 1930 but now we are paying income taxes, federal taxes on utilities and other items, sales tax and an unknown number of hidden taxes. The burden is about all the camel's back will stand.

If the corporations, townships and schools can not support their budgets on their income and if taxpayers supporting these budgets do not want an increased appraisal the answer seems to be to trim the budgets. It might hurt but it could be done.

Voices Opposition To Proposed Re-Valuation of Huron County

One Huron County resident who has taken a stand against a revaluation program in Huron County is Mr. J. W. Johnson, who writes very interestingly on the subject. His communication recently appeared in the Norwalk Experiment News, and the fact he has so many good arguments, we are reprinting the letter in its entirety:

RE-APPRAISAL

Here we are faced with a problem of more tax for us the home owners who have pride enough to maintain the appearance of our properties and upkeep.

We home-owners are taxed because we keep up our fences, trim our fence-rows, paint our roofs on our buildings, our buildings, landscape our lawns, not on what these properties actually take. The tax commission might as well in this same view take a man on his assumed wealth because he is well dressed and takes pride in his appearance, not walking slothfully down the street, his pockets weighed with cash. I have called it to the attention of Bernard Keen quite recently, that the only fair way to appraise property, is on its actual earning capacity per year. Do the Income Tax Commissions tax you on your actual earning power, actual dollars and cents you carry home in your pay envelope, or do they look at your home that you have invested your capital in and measure in fine shape, and then assume because you have done so, that your property is worth twice as much as it is? Is it a time to repair and keep your home in good condition? Is it good American policy to let your homes go to seed and rot? I know a lot of homes and outbuildings that are over a hundred years old, that taxed at full value. On this farm stands the first frame house built on this farm taxed at full value, and on this farm is a barn the framework of which was here when my father's father bought this farm. It is taxed at full value today.

Wm. Hermer former Senator of Ohio from this district, made the statement that we should abolish township offices. That is absolutely right. We here in Sherman Township have roads so brushy they resemble lanes in the woods, and motorists have to carry axes along to cut the branches off to save marring the finish on their cars. In one case on the Thomas Road that passes over the bridge along to the brush at a narrow spot in the road on a narrow bridge crossing so the school bus driver could not approach traffic. By the time our trustees have their salaries and other officials, there is nothing left to do anything. How can the trustees fix roads when no funds are here to do anything? All the trustees get is a plum, with a little income on the side, and is that the result intended?

We need more efficiency in our county here, more efficient methods of getting necessary results, and that cannot be done by saddling the citizens of this county with more taxes. "Tax and Tax, Spend and Spend, Elect and Elect." Are they trying to put small farmers out of business? Are they trying to form a Communist form of Agriculture whereby we shall not own our farms but be under Communism as in Russia? To remain in existence, are they going to use a system of Patronization of the farmer to insure such result? Do you folks in the city want more farm families and their sons to move into your area and compete with you for jobs? Do you want the West to bring farmers to corner your food supply so that you must pay the nose for your livelihood? Let the farms and factories be taxed on their earning capacity, not on appearance. It doesn't cost any more for the poorly dressed person to see a movie, than it costs the well-dressed one. Let's bring Cynthia's Cow of History, Free-n-Equal.

I have stood in that great Memorial at Washington, D. C. dedicated to our president Abraham Lincoln. Massive in appearance, and the harsh lines carved on his countenance, by the care he endured as President, he really was the welfare of his people at heart. Cathedral like are the halls, where footsteps softly echo and re-echo and lose themselves in hollowness of space. There arises in your breast a humility, a reverence itself, toward the memory of this great American.

With this great man, there seems to be a greater meaning in these sentences carved on the Everlasting Granite of its interior, and I quote: "Four-score and seven years ago our fathers brought forth upon this continent a new nation, conceived in liberty, and dedicated to the proposition that all men are created equal. We highly resolve—that this nation under God, shall have a new birth of freedom, and that the Government, of the people, by the people, and for the people, shall not perish from the Earth."

These words are a challenge to our future citizens of America. Will they be met, and how soon?

Yours truly, Julius Houck

Letters To the Editor

After attending the Musical tea given by the Seventh grade girls, several thoughts came to my mind. May I pass them along?

What have we offered to our young people, the sons and the daughters that we are proud to claim? They already have the necessities of life, we cannot shut that.

Companionship, it seems, is the uppermost quality missing. As a mother, I spent one hour, listening and observing girls. I paid dividends. That one hour afforded an opportunity to establish

a bond of companionship that in the past has been lacking, not only to my daughter but to many. Youth may be likened to a mirror, reflecting to all the world the thoughts, actions and influences of their surroundings. It is yours and my responsibility that this reflection be a lovely one. Mothers think on this!

What is another need? Music! It is valuable as it means self-expression. Not what the child does with music but what music does to the child. The child that has found fun in music will not make mischief, the child who plays a piano will not steal and the boy that draws the bow is not the boy who draws a gun.

It has been our good fortune to possess in our local school, a teacher who has given time to analyze the needs and ability of the music department enrollment. Her work was well exhibited in the performance of just one department, Thursday night. Yet, she too, is limited because of the facilities and setup of the music curriculum.

What has been offered by us, to encourage an advancement of music in the school and largely in the home.

A recent survey made by the American Music Conference in Clogh shows that 85% parents want music instruction for their children. (What are you doing about it?)

In this survey it was found that in the U. S. 15% of 23,225,000 students have a fraction of music study.

Can we better the Music course in the school and add to that which we already have or will it start with nothing in the future. "Sally and Johnny want to play, but too few children get a chance to try."

County Wide Auction Sale

The Richland Rural Life Center is sponsoring a county wide sale to be held at the Richland County Fair Grounds, April 24th. There will be an Auction of livestock, farm tools and machinery, household goods and antiques. A rummage sale will be another feature of the sale and also a Bazaar with many fine, practical, handmade gifts. Lunch will be served on the grounds.

The Richland Rural Life Center is an 80-acre tract of land in Weller township, which has been purchased by Richland Rural people to be used by all interested organizations and persons for camping, picnics and eventually to have an 80-acre grounds shelter or buildings to house all year round meetings. This project is possible only through cooperation of all those who are working together. The proceeds of the proposed sale will go toward completion of building projects on the grounds.

The sale will be possible only through contributions. If you have a chair, a plow, a pig, a disc, a set of dishes, a quilt or a cake or pie that you are willing to contribute toward the sale, contact the representative in your township. The township representatives are: Mrs. Geneva Wells; Madison, Mrs. Jennings Swisher, Dick Wolford; Milfin, Mrs. Gerald Dudley, Russel Hulls, Troy, Mr. and Mrs. Clarence Grubbs, Walter Shaffer; Washington, Max McFarland; Monroe, Dick McFarland, Roy Mengert; Jefferson, Mrs. George Hill, Mrs. Howard Forbes; Perry, Mr. and Mrs. Elmer Snavely; Worthington, Mr. and Mrs. Paul Farst.

Watch for Sale Bills. Don't forget to call your township representative.

DOG SHOW IN CLEVELAND

One month later than usual, the 31st annual Cleveland Dog Show of the Western Reserve Kennel Club will be held at the Cleveland Public Auditorium on Saturday and Sunday, April 17th and 18th.

Entry blanks and premium lists have been mailed to exhibitors in former shows and the show headquarters were set up March 29 in the Hollenden Hotel in Cleveland.

Last year the Cleveland Dog Show, one of the nation's major events of its kind, drew 1081 exhibitors from twenty-three states and Canada with 1467 dogs of seventy-five different breeds entered.

One of the most attractive features of the coming Cleveland Dog Show is to be the Obedience Trials with more than 100 dogs and their handlers entered. The Cleveland All-Breed Training Club will again present its remarkable drill team under the direction of J. J. Wodisky. This event of uniformed command mass drills of officers, men and women and their dogs.

Maxwell Riddle, dog editor of the Cleveland Press, is president of the Western Reserve Kennel Club and A. L. McBain, club secretary.

REMOVED HOME

Clyde Phillips, son of Mrs. Elizabeth Phillips of Plymouth rural was removed home Sunday from the Cleveland Clinic where he went for observation the past week. His condition is somewhat improved. He was accompanied home by his mother and uncle Ben Waschura of Cleveland.

Charmed!

Enraptured Jack Benny, charmed by the musical strains of his own violin, is depicted by caricaturist Sam Berman. Benny holds sometimes his Sunday WLW-NBC show, aired at 7 p. m., EST.

Tommy Cook, who plays Junior Riley on NBC's "The Life of Riley," has been signed for a featured role opposite Richard Conte and Victor Mature in 20th Century-Fox's "The Chair for Martin Rome."

Harold Peary, NBC's "The Great Gildersleeve," is playing "heavy" roles in West Coast stock companies when he was only seventeen years old.

WLW's Joe Lugar, orchestra leader, wanted to be a cook in a restaurant until his father changed his mind by buying him a saxophone.

Quis Kid Joel Kupperman is still being scolded by his mother on the show for blowing up in a spelling match in their recent appearance in Cincinnati. Joel misspelled a simple little word like "hydroxymercurofluorescein," which is something you find on the label of a mercurochrome bottle.

Charlotte Holland, who plays "Nora Drake" on NBC's dramatic serial by that name, is still spilling reports that she will leave the show. Earlier it was thought she would join her actor-director husband, Sam Wanamaker ("Joan of Lorraine"), on a trip to England — but Wanamaker called off the trip to play in a new movie production of the novel "Christ in Concrete."

Benjamin Harrison Foley, father of "Red," baritone star of NBC's "Grand Ole Opry," still runs the country store in Berea, Ky., where "Red" got his first guitar and picked out tunes on it.

After five weeks, NBC's "Truth or Consequences" "Waking Man" contest had brought in a total of 237,873 letters from listeners.

Ted Dale, new maestro of NBC's "Contented Hour" is one of radio's most industrious workers. A few years ago, the conductor-composer-arranger was an assistant director to Paul Whiteman for a musical show and worked so hard that he suffered a physical collapse that resulted in temporary blindness. Shortly after recuperating, Dale resumed his duties and worked on a wide variety of shows ranging from dance to concert music.

Noble Wife

Claire Niesen, radio actress for 10 years, portrays Mary Noble, wife of a matinee idol, on WLW-NBC's serial drama, "Backstage Wife." The program is heard five days weekly at 4 p. m., EST.

Huron County T-B Association Hold Annual Meeting

The annual meeting of the Huron County Tuberculosis and Health Association was held in the First Baptist Church parlors, Norwalk, on Tuesday evening, March 30th, beginning at 6:30 with a dinner.

During the business session annual reports were presented by Mrs. B. L. McClure, Secretary, Mr. J. M. Arthur, Treasurer, Mr. Wayne Alleshouse, Representative Director, and Mrs. P. E. Henderson, Executive Secretary. Mrs. C. H. Edel read the slate of officers prepared by the nominating committee which resulted in the election of:

Dr. W. W. Lawrence reported on the work of the Huron County Department of Health in the field of tuberculosis treatment and control. He outlined preliminary plans for the community mass X-ray set for the Autumn of 1948 and named the sponsoring committee headed by Mr. H. C. Parks, Norwalk.

Dr. Harold A. Erlenbach, winner of the fellowship award offered by the county tuberculosis association in 1947, who was in Detroit, spoke on the value of this course to the general practitioner. He stressed the need of optimism in tuberculosis control and the great value of the mass X-ray in detecting the disease in its early form. Nations formerly at war now are sharing their scientific knowledge in disease control and tuberculosis is always an aftermath of war ravaged countries.

Dr. Gardner H. Fulstow, a resident of Norwalk but a practitioner in Cleveland, also an attendant at the course in Detroit, was asked to rise and be recognized.

Dr. J. B. Stocklen, controller of tuberculosis for Cuyahoga County, spoke on "Modern Aspects of Tuberculosis Control." He completely held the attention of his audience and spoke in terms the lay person could understand. Tuberculosis is an infectious, infectious and relapsing disease. Several times as much of it is found among the people in lowest economic tenth as in the highest. Above all, it is a curable disease. When a person has symptoms, he usually has advanced tuberculosis. Therefore, the mass X-ray which detects early cases is of tremendous worth. He complimented the Health Department and the Tuberculosis Association on planning for the community

mass X-ray, calling this means of disease control the most integral part of the health movement today. Every tuberculosis death costs the community \$10,000. Since tuberculosis is infectious and also curable in early stages, the problem is to find the early cases. This the mass X-ray accomplishes.

Report of Executive Secretary

The work of this association is the control of tuberculosis by education and diagnosis.

During the fiscal year April 1, 1947 to March 31, 1948 we have paid for one hundred and nine large X-rays of Huron County residents.

Co-operating with the Huron County Department of Health we paid all expenses attendant upon the use of the mobile X-ray unit owned by the Ohio Department of Health, and 25% of the cost of County Fair when 1672 individuals were X-rayed. As a result of these X-rays, one far advanced case of tuberculosis was discovered, which was one questionable case on which findings are not yet complete. Reports on all negative results were sent out by the Tuberculosis Association.

The Association paid the expenses of one teacher in the when he attended a Health Education course for two weeks at Kent State University. As a result, a modern Health Education course is being presented in a school in Huron County.

One fellowship was also set up which would allow a Huron County doctor to attend a four day course in thoracic diseases at Wayne University, Detroit. It is an honor to Huron County that one of its doctors was chosen by the American Trudeau Society as one of thirty people from eight states to attend the course.

The Seal Sale, which is the largest project of the Association, for 1947 raised \$5520, a 10% increase over 1946.

Approximately 7200 letters containing Seals to individuals and Bonds to organizations were sent on Nov. 23. Bonds brought in \$140. Bangle pins, sold in Norwalk and Greenwich schools, netted \$53. 3200 follow-up postals were sent out on Jan. 10 to recipients of letters not heard from in 1947 letters to former contributors not heard from were sent on Feb. 10. Based on the 7200 letters set out in November the return per letter sent was 76c while the return per letter contributing was \$1.50.

The large amount of work involved in accomplishing these results was immensurable. It is lightened by the assistance and co-operation of many groups and individuals.

Shiloh To Buy New Water Pump

The petition of Shiloh village to transfer \$3,000 from the village power fund to its water works fund has been approved by Common Pleas Judge C. E. Kalfus, Jr. The petition shall be filed in court and the money was required to buy and install a new water pump.

Joseph Cihla, clerk of the board of public utility said delivery on the new pump is expected in about a month.

It has a capacity of 150 gallons per minute. Installing of the new pump was authorized by Shiloh village council as a safety precaution since the village has but one well and pump.

Cihla said the new pump would be installed in a well already drilled within a month after delivery, weather permitting.

Death Takes Amish Girl

WOOSTER—Lizzie Mae Yoder, seven-year-old paralytic girl, died in the parson in an Amish church quarrel and court battle which cost four Amish leaders \$5000, died at the Mt. Eaton home of her parents on Tuesday.

The girl's father, Andrew J. Yoder, started the bitter Amish fight when he ignored church beliefs and purchased an automobile so that he could take his daughter to a Wooster physician for medical aid.

Bishop John Helmutz ordered the brethren to put the "mite" on Yoder who in turn filed a suit for damages against the bishop and four Amish folk.

A Wayne county jury awarded Yoder \$5,000 and Bishop Helmutz \$1000 on Tuesday after a trial at auction to help pay the award.

Guy L. Taylor, chairman of the Richland County Triple-A, announced that 1461 farmers have signed up to participate in the Triple-A 1948 program.

Taylor said the office force is computing amounts to go to the farmers who participate in the program. He said the House Appropriations committee has recommended allowing one-third the amount set up in 1947. Congress has the bill under consideration.

Taylor said farmers will receive notices about the allowances in May. The farmers, in signing up, indicated the phases of the program they want to participate in.

Among Triple-A practices for which farmers receive payments are plowing of agricultural land with hydrated lime on their lands, putting fertilizer on pasture lands, contour planting and contour seeding, tree planting for forest windbreak or gully control, the drainage, farm drainage ditches, putting mulching materials in orchards or vegetable lands, green manure crop, and application of rock phosphate to any crop.

DOINGS IN CONGRESS

BY CONGRESSMAN LEMKE

The President vetoed the tax reduction bill, and the House and the Senate promptly overrode his veto. Seventy percent of the tax reduction in the bill is given to those who receive a net income below \$5000. The bill, as amended by the Senate, was less drastic in reduction than the House bill. Personally, I would have welcomed a bill that would have raised exemptions to \$2000 for the head of a family, and \$600 for dependents. Of course, just now the Government is the most burdensome dependent. It takes 5% directly or indirectly, out of every dollar earned.
The President, in his veto message, made a comparison of the present individual and corporate incomes in dollars with those of 1940. It would have been fairer if the President had made a comparison in dollars of the cost of living in 1940 with that of 1948—better still if he had made a com-

Miss Mary Dick and Geo. Perman, Jr. Are Married at Shelby M. E. Church

Miss Mary Catharine Dick and Mr. George Edward Perman, Jr., exchanged marriage vows Saturday at 2:30 p. m. in the Shelby Methodist church with Rev. J. A. Scott as the officiating minister. The altar was banked with two beauty baskets of Easter lilies, daffodils, and purple iris, two seven branched candelabra and two ferns for the open church ceremony.

Music preceding the ceremony included "Star Dust," "Beacon Light," "I Love You Truly" and "To Each His Own." During the ceremony, "The Lord's Prayer" was played softly.

Bride's Gown
The bride was lovely in a white slipper satin gown made prince style and fashioned with a sweetheart neckline, puffed sleeves ending in points over the hand and a large bow in back. Her fingertip veil was held in place with a seed pearl tiara and she carried white calla lilies with a detachable corsage. Her only jewelry was a double strand of pearls, a gift from the bridegroom.

Attendants
Miss Gayles Dick of R. D. 3, a cousin of the bride, was maid of honor and wore a fuchsia changing taffeta gown and her jewelry was a single strand of pearls. She carried a bouquet of blue carnations.

Miss Sally Harbaugh, a cousin of the bridegroom, was bridesmaid, and wore a green changeable taffeta gown, a single strand of pearls and carried ivory carnations.

Best man for Mr. Perman was his brother, Mr. Robert Perman. Ushers were Mr. Eugene Keller and Mr. William Perman.

A reception was held in the church parlors following the ceremony. Two beauty baskets and candles, decorated with pink roses and topped with a miniature bride and bridegroom centered the bridal table. Mrs. Gilbert Scott presided.

The bride, daughter of Mr. and Mrs. Ray Dick of 100 West Smith Avenue, Shelby, graduated from Shelby high school and Mr. Perman, son of Mr. and Mrs. George Perman, Sr., of 44 Third Street, Shelby, graduated from the same high school and served three years in the Merchant Marines. The groom's mother spent her girlhood days in Plymouth and is well remembered here.

Following a wedding trip to an undisclosed destination, the couple will reside at 20 North Grand Street, Shelby. For traveling, Mrs. Perman wore a brown ensemble suit with brown accessories and a white calla lily corsage.

Trauger-Fackler Wedding is Event Of Saturday in Ashland, Kentucky

Miss Winifred Fackler, daughter of Mr. Morris Fackler of Shelby, R. D. 1 and Mr. Mac Trauger, son of Mr. and Mrs. Ed H. Trauger of R. D. 1, Plymouth, exchanged marriage vows Saturday at 3 p. m. at the St. Paul's Lutheran church in Ashland, Ky., with Rev. W. S. Schnute officiating.

The bride wore a tan sharkskin suit with brown accessories and a corsage of red roses. Attending the couple were Mrs. Ar-

lene Schnute of Ashland, Ky., who wore a navy blue suit and Mr. Ray McDonald, also of Ashland, Ky.

The bride is a graduate of Shelby high school and is employed at the Shelby Metal Products Co. Mrs. Perman wore a brown ensemble suit with brown accessories and a white calla lily corsage.

The couple will reside with the bride's father.

TRUCKS FIGURE IN WRECK AT NEW HAVEN

Two trucks were involved in a wreck at 550 Wednesday afternoon at the intersection of 5th and U. S. Route 224, which resulted with much damage to the trucks. Drivers of the vehicles were without injury.

Paul Henry Geissman of Route 1, New Washington, was driving a Dodge truck south on Route 61. As he attempted to cross Route 224 his truck was struck by a big factor-trailer unit, which was going west on 224. Lowell Crull, driver of the big semi-truck, gave his residence as being 439 South Willis St., Independence, Mo. He was driving a Cooper-Jarrett truck to Chicago, loaded with a men's cargo.

As the vehicles came together, the right front side of the semi-job came in contact with the left side of the Dodge truck at the front right side of the engine. The tractor part of the big truck rested upon the Dodge, but the impact completely overturned the big trailer.

State patrolmen were summoned who investigated the wreck. A report of their finding was not available at press time.

At Farm Conference

On Friday, April 2, twelve farm leaders from Huron County attended the district farm leaders conference sponsored by the County Farm Bureau Federations and the various agricultural agencies.

Harry Culbreth of the Ohio Farm Bureau, discussed the various means through which farmers can work together. He said the common objective of Ohio farm people is to improve rural standards of living.

Culbreth pointed out how the Grange and Farm Bureau were the main farm organizations in Ohio working toward that objective. Farmers have helped the government to provide the Agricultural Extension Service, Soil Conservation Service, Farmers Home Administration and the Production Marketing Administration. These agencies have developed a more modern understanding in Ohio which pleads

ALPHA GUILD MEETING

Plans for the Sunshine Party to be had some time in May were discussed Tuesday evening by members of the Alpha Guild when they met at the Lutheran Church annex. These will be completed at the April 20th session.

There was a good attendance on hand for the many interesting projects brought up and a sack lunch with Mrs. Johns as hostess was enjoyed.

At Farm Conference

On Friday, April 2, twelve farm leaders from Huron County attended the district farm leaders conference sponsored by the County Farm Bureau Federations and the various agricultural agencies.

Harry Culbreth of the Ohio Farm Bureau, discussed the various means through which farmers can work together. He said the common objective of Ohio farm people is to improve rural standards of living.

Culbreth pointed out how the Grange and Farm Bureau were the main farm organizations in Ohio working toward that objective. Farmers have helped the government to provide the Agricultural Extension Service, Soil Conservation Service, Farmers Home Administration and the Production Marketing Administration. These agencies have developed a more modern understanding in Ohio which pleads

es their mutual support, to improve the rural standards of living. Attending this conference from Huron County were: O. H. Seeger, Frank Heitcho, Robert Earl, W. F. Porter, E. H. Franklin, Jos. A. Lawler, Clarence Elliot, Russell Knapp, Robert Calhoun, Clay Stackhouse and William Kiesel.

New Schedule At Garbage Dump

It will be well for Plymouth residents to bear in mind that a change in hours has been made for the village dumping grounds. The schedule as released by the village council is as follows:
Tuesdays, 1 to 6 p. m.
Thursdays, 1 to 6 p. m.
Saturdays, 8 to 12, and from 1 to 3 p. m.

Round The Square

a spark caused the blaze. Anyway it was an opportunity for the new fire truck to make a run and it performed very efficiently.

TWENTY-FIVE members of the Community Club enjoyed an appetizing dinner Tuesday night served by the ladies of the Methodist church. Following the dinner, President Patznick introduced C. L. Beal, who heads the Richland County Chapter of the Cancer Fund, and he gave a very interesting talk about the local Cancer Clinic, and what has been accomplished. Following his discussion he showed very interesting films which dealt with the Cancer Drive.

Funeral Home

Funeral home, with Rev. M. P. Patznick, pastor of the Lutheran Church, officiating. Interment was made in Greenlawn cemetery, Plymouth.

News of the sudden death of Mr. Donnervith was not only a shock to his immediate family, but to his many friends and acquaintances in this community.

He had visited with his two children, Mrs. John Ganzhorn and Clarence Donnervith, Sunday, and seemed to be in perfect health.

The respect he held as a husband, father and friend was shown through a profusion of flowers and cards of sympathy received by the immediate family. His absence will be missed not only by the family, but by scores of his neighbors, who had built up a strong bond of friendship over the years.
