

Says Turnpike Will Avoid New Taxes For Upkeep of Highways

President Green of Turnpike Committee Speaks Before Trustees in Columbus.

One way to avoid new taxes is to work for enactment of the Turnpike Bill, Ernest M. Green, Cleveland, president of the Ohio Turnpike Committee, told trustees of the organization at a meeting in the Hill House, Columbus, Monday.

The meeting was called to plan the committee's strategy for the final push of the bill passed. The Turnpike Bill, known as Senate Bill 7, passed the Senate by a vote of 26 to five. It now rests in the House. Reference Committee and probably will be referred to the House Highway Committee for study this week.

"If the Legislature enacts The Turnpike Bill, I feel certain Governor Lausche will sign it," Mr. Green said. "The Governor is on record as favoring the bill in principle. He has stated the conditions under which he will approve it. Our bill meets those conditions."

"The Governor has said Turnpike bonds are to be private capital; that revenue from Turnpikes must be used solely to pay off the bonded debt; that the bonds must NOT be an obligation of the State of Ohio. Those three guarantees, among others, are specifically set forth in The Turnpike Bill," Mr. Green said. "The State now has a Department wants an additional \$100,000,000 a year to modernize Ohio's roads, it is estimated that gasoline taxes may have to be increased from present 10 cents per gallon to 10 cents; that auto license tags may go up from

Miss Florence Danner Appointed Chairman For Alumni Ass'n

Miss Danner teaches in the Roseland School near Mansfield and was not present at the meeting. However, if she accepts, she will appoint her committee for the various arrangements at an early date.

W. A. Stoutenburg, Norwalk architect, has filed collection suit for \$2,150 against W. L. Mead alleging the agent is due him in connection with architectural services in the planning of the truck terminal on Route 20, at the east end of Norwalk.

\$10 to \$25; and that farm-to-market roads may have to be assessed against abutting property owners. "The people will not stand for such new taxes," Mr. Green declared. "Are yet the people know that we can't have modern roads, which we all want, without more money — or unless we will leave more Highway Department funds for present state roads, county roads and farm-to-market roads. I urge you all to work for acceptance of this bill by the Ohio House of Representatives," Mr. Green concluded.

HOW TO FIGURE DEPRECIATION

Ten percent for each year may be deducted from the original cost of farm machinery, or inventory forms filed with personal tax returns. Thirty percent of the original cost however is the bottom price to figure the value of the asset. Some have had the mistaken impression that only thirty percent could be taken off in any case. The simplest way to figure depreciation is to figure the year of age, and then use the balance of the percentage remaining. Errors in depreciation are the most common ones to find in the submission of returns.

Few took advantage of the opportunity to file last Saturday afternoon, but another opportunity will be available this Saturday afternoon. Wednesday always provides an opportunity to transact business hurriedly as few come in on Wednesday. From now on a rush is expected in the last final days of the filing period as there are 2200 returns to come in. Monday witnessed the latest filing with 128 processed but the week's filing due to two inclement days dropped to 805 returns.

MAYOR ISSUES WARNING

Several incidents including drinking among high school students at recently held school dances, have given cause for village and school officials to become somewhat disturbed over a situation which should have no basis for existing in Plymouth.

Mayor Robinson informed The Advertiser this week that he will not tolerate violations regarding pool rooms, or the playing of pinball machines, punch boards, etc., by minors. Those places which operate contraptions, games of chance, and devices, which state laws prohibit minors participating, know the rules and regulations. Accordingly, Mayor Robinson feels that a personal call to inform owners and operators of these rules is not necessary, and that from now on, strict enforcement of the law will prevail in regard to minors.

Slot machines have not been tolerated in Plymouth, but a profuse array of punch boards can be found almost anywhere. Pin ball machines are few, and they do not pay off, but they do attract the teen-agers who drop in nickels for a game.

The mayor now has under advisement the enforcement of the curfew ordinance which is on the village books. A fair chance will be given youngsters however, before this step is invoked. The mayor emphatically states that he will not tolerate carousing and unnecessary gathering of teen-agers at late hours of the night.

Plymouth has for years enjoyed a good reputation as far as law and order is concerned, and Mayor Robinson states there is no need to let the bars down at this time. Cooperation as far as minors are concerned by places of business in Plymouth is expected.

MUST SECURE NEW Red Cross Drive License BY APR. 1st

A bulletin issued this week by the Bureau of Motor Vehicles makes it very plain that operators of motor vehicles must renew 1948 driver's license by April 1st, or take a driver's examination for a new license.

Operators without 1949 driver's licenses who was properly licensed before April 1st to avoid taking an examination. Operating a motor vehicle without a 1949 license makes the motorist liable to arrest, all persons applying for a license after April 1st, except those in active military service or honorably discharged veterans, who are exempt from the date of discharge, must apply for a temporary permit and take a driver's examination before they can apply for a 1949 license.

Those residing in Plymouth and vicinity will have to apply at Norwalk or Mansfield, for at the present time there is no one authorized in Plymouth to handle licenses.

I'D HAVE THE JITTERS all the time if I had to handle glassware like Ed Curpen does every day in the week. Stopped in on Monday morning at Curpen's Jewelry & Gift Shop, and Mr. Curpen took time out to show all the new dinnerware now on display. He had just received a shipment of Cape Cod, which is very, very beautiful, and then he took me over to the Candlewick display. It's a toss-up as to which design is the most appealing. However, the design and construction of these glasswares is modern in that all pieces are described so that they may be handled freely without danger of dropping or tipping over. Ah, when it comes to color... Lumry and Fiesta give all the charm and beauty one desires. I spent an hour admiring all the new dinnerware, and left before I gave in to my desire to own some new pieces.

SPRING MADE A GRAND Opening Monday but bowed out on Tuesday and Wednesday... can't be too long now, a little piece please.

**CREEPING PARALYSIS**

DeWitt Emery, president of the National Small Business Men's Association, comes forward with some very interesting tax figures, which should be of interest to every citizen of the United States. Last week Congress approved a bill which gives the Arabs sixteen million dollars. And there's a bill coming up setting aside from two to three hundred million dollars for an educational program to aid schools. And there are many other bills to come before Congress that will call for hundreds of millions of dollars. How long can we stand the reckless rate of spending is determined just how much further the government can tax the people. Mr. Emery points out what has happened to taxes in ten years, and his story is as follows:

"In 1937 it took all the income of all the people in two states (Pennsylvania and Missouri) to pay the cost of our Federal Government for one year. Ten years later, in 1947, it took all the income of all the people in twenty-five states to pay the cost of our Federal Government for one year.

"These twenty-five states are Minnesota, Iowa, Missouri, Arkansas, Louisiana, North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, Montana, Wyoming, Colorado, New Mexico, Idaho, Utah, Arizona, Nevada, Washington, Oregon, New Hampshire, Connecticut, Alabama, Mississippi and Maine.

"Think of it! The cost of our Federal Government increased in ten years from all the income of all the people in two states (\$7,910,000,000 in 1937) to all the income of all the people in twenty-five states (\$42,505,000,000 in 1947.) How much farther can this go before the Government takes over everything and everybody?

"Creeping paralysis? It certainly is, and if the cost of our Federal Government continues to increase year after year as it has in the past, in another few years—I don't believe it will take more than three or four—there won't be any freedom of enterprise left in this country. And if we lose freedom of enterprise, we will soon thereafter lose all our other freedoms: Freedom of speech, freedom of the press, freedom of assembly, freedom of opportunity and all the others. Note what is happening in England.

"It's absolutely impossible to overestimate the importance of this great and grave danger. It's absolutely essential for the people of this country to know what is happening and that if this trend continues, the only thing they can look forward to is complete and absolute regimentation, that is, being told by the Government what they will eat and wear, where they will live, where they will work and how much they will be paid. It means also getting permission from a bureaucrat before doing any traveling in your own car or otherwise; full and complete governmental control of all newspapers, magazines, radio programs and moving pictures. If you doubt this I again refer you to what's happening in England, also to your history books which show that every great nation which has gone down since the beginning of recorded history fell because the cost of government grew and grew and grew until it became so heavy it was impossible for the people to carry it. It can't happen here? It IS happening here—I almost said it has happened here—but there is still time to stop it if you and I and millions of others like us want it stopped. We can force our representatives in Congress to make the drastic reduction in the cost of our Federal Government which is the only thing that can save the situation.

**INTEREST BEING SHOWN**

From reports during the past week there are several organizations in Shelby which have taken a public stand for the improvement of Route 39, which comes into Shelby from Mansfield, and then joins 61 in midtown. A revision of Route 39, would hook up with 61 at the Blackfork, north of Shelby, thus eliminating congested traffic conditions at peak hours in Shelby.

We hope that the state and Richland county officials can get together on this much needed road project which will aid materially in reducing highway hazards.

**SOCIALIZED MEDICINE**

President Truman is ready to throw a Socialized Health Bill into Congress, and it's going to be up to the people of the country to voice their approval or disapproval. The true test of the bill hasn't been made known, but it is hinted that additional dollars will be withheld from weekly pay checks for the program. In our opinion, it is just one step closer to Communism, and it looks as though our President and Congress favor this form of government, and no matter what name they may call it to present to the public, the bill will still remain a first cousin to State Socialism.

Hospitals and institutions over the country are crowded now to capacity, and when our government throws out FREE hospitalization to every one, then we'll need a few billions to build more hospitals. If the average family would lay aside the same amount of money which the government expects to collect for its health program, we venture to say that nine out of ten would have ample cash to pay for their own medical service, and they would still retain their choice of doctors and avoid a lot of red tape.

We've had a Tokyo Rose and an Axis Sally. Will there be a Volga Olga? asks The Pathfinder.

As a last desperate means of getting back to normal both labor and management are willing to let the other fellow take smaller profits.

It's funny how the railroaders love the railroads when something like the Akron Belt Conveyor idea pops up. The railroads claim the conveyor system would put thousands out of work, but it isn't mentioned how much CHEAPER the coal and iron might be due to lower transportation costs.

**The American Way -- What is it?**

The following essay written by Miss Janice Rhine, daughter of Mr. and Mrs. James Rhine of Dix Street won first prize in the American Legion Essay Contest recently closed. Miss Rhine, is a senior this year and received a cash award for her efforts. Miss Alice DeVeney also a senior was the runner-up in the contest.

In spite of all the jealousy, hatred and greed in this great world of ours, the American way of living predominates all others, and those having faith in God, Our America, and themselves, are given strength to overcome those barriers.

Education is one of the minimum requirements of our civilization and is free, international and compulsory. When we think of the number of illiterate classes of people in other countries we can understand why they are easily overcome by hatred and greed.

Our American industry has risen from the crude, to this gigantic machine age, which has increased production many-fold. Due to the intellect of the American people, along the line of manufacturing and agriculture, many foreign countries depend upon us for many of their necessities of life.

Our Constitution gave us the right to have a voice in our government, the right to speak freely to make our wishes known, and the right to worship as we please.

We go to the polls to vote for capable men to run our government. Some forms of govern-

ment depend upon the decision of a certain few in power, but our Democracy depends on the will of the people. Those placed in position of authority represent the American people, and may be removed if they fail to carry out the people's wishes. A Democratic government is an institution of the people.

We live in a nation that has made remarkable progress. We have conquered much of our natural environment and are conquering new phases of it everyday. Today, we are making tomorrow's world and continually improving the American way of living.

Our American way isn't perfect. We still have our ups and downs of prices and jobs. We will have to change that. But even so, our system works a lot better than some second rate substitutions used by some other countries. It works better because we are inventive, and we know how to use machine power to produce more goods at lower cost. We have more skilled workers than any other country. We believe in collective bargaining and enjoy its benefits. And we Americans know how to save.

**THE FREEDOM PLEDGE**  
I am an American; a free American. Free to speak — without fear. Free to worship God in my own way. Free to stand for what I think. Free to oppose what I believe wrong. Free to choose those who govern my country. This heritage of Freedom I pledge to uphold. For myself and all mankind.

**Romberg Appears  
Sunday, March 27**

On March 27th, Cleveland will again put out the welcome mat at the Arena for an old friend—**SIGMUND ROMBERG**. For on that date at 2:30 and 8:30 p. m. the beloved composer-conductor returns to Cleveland with his 60-piece concert orchestra and an array of outstanding soloists on this his tenth country-wide tour, bringing to America the music America loves best.

Best proof of that will be the "Matinee and Evening with Sigmund Romberg" at the Arena, for there are few events in the theatre to match his concerts for warmth, friendliness—and sheer listening pleasure. Mr. Romberg's own policy of planning programs of the relaxing, melodious, "mid-

**JARMILA NOVOTNA**

dle-brow" music is one with which his name has become synonymous. "Middle-brow" because it appeals to everyone—the lover of the classics, as well as the swing-happy bolshy-soxer—especially to the great American public.

Heading the artists Romberg will present this year is the world renowned Metropolitan Opera star, Madame Jarmila Novotna. Recently, in addition to her triumphs on concert stage, theatre and radio, Mme. Novotna was accorded great distinction for her dramatic role in "The Search," a motion picture listed among the "10 best" of the year.

The same discriminating taste and organization that have perennially gone into these concerts identified as "A Matinee and Evening with Sigmund Romberg" have resulted in a wake of superlatives in each city where this attraction has been presented and northern Ohio looks forward with keen pleasure to greet Sigmund Romberg at the Arena, March 27

**LEGION NEWS**

The meeting this week was more or less a social meeting, and since it so was, the evening was more or less devoted to them. Included was the recruiting Sergeant from Norwalk who gave an account of present activity of the Army and Air Corps. He stressed the point of enlistment. Prior to now, enlistments in the service was as simple as falling off a log, but under present conditions, when the quota is filled, enlistments are almost an impossibility. The quota is filled, but one can be put on a roster, from which he will be picked simultaneously.

Once again comes the question

of the Teenagers. For some unknown reason there seems to be ill feeling among the Teenagers. To most of them the Teenagers seem to be enough activity in which they may participate. There's dancing, card playing, games, and other sports, refreshments, yet many are dissatisfied. It's a known fact the Teenagers have stressed the point of cooperation. If that point is pushed, then all would get along satisfactorily. The Legion has gone about as far as possible, yet willing to cooperate providing cooperation is received in return. No one wants to see it more of a success. But as usual, try to do something and you get in a rut with no appreciation whatsoever. The Teenage meetings shall continue as usual, but we will not stand for any more scandals. We wish the cooperation of the parents. It would be wonderful if the parents would cooperate and run this thing. Maybe you can do better. Don't be shy, anyone who wishes may do so.

Announcement was made to the effect there will be a fish supper Thursday, March 31st, six o'clock to be \$1.50 per person. A good dinner will be served, don't miss it. (Reporter)

## ONE OF OUR BEST CUSTOMERS

"Yeah, who says I ain't got more hair than my Dad?" Johnny's facial expression is almost a challenge to any question that might be put to him, even to drinking Lofland's Pasturized milk. At any rate, we all agree that Johnny at six months (that was his age when this photo was taken) is a mighty fine boy, and he can boast of a swell Mom and Dad, for they are Dr. and Mrs. C. O. Butner, of Shiloh. Of course, Doc, and Mrs. Butner agree with Johnny that Lofland's Pasturized and Homogenized milk takes a lot of worry off parents because they KNOW it's safe. Johnny is an unusually healthy baby, and they're giving milk a big share of the credit, not saying anything about Doc's vitamin pills.

## CARD OF THANKS

We wish to thank friends and neighbors, the Shelby Hospital Staff, Dr. Butner and all those who remembered us in any way during our stay in the hospital. Everything was greatly appreciated.

Plans have been completed by the Shelby-Plymouth-Shiloh Chapter of the American Cancer Society for the 1949 Cancer Fund drive.

With the funds raised in 1948 regular monthly cancer detection clinics have been financed and held at Shelby Memorial hospital under the direction of Dr. Harry Duncan of Millersburg. These clinics are free and are open to anyone in the Shelby-Plymouth-Shiloh area. The demand for appointments for these clinics has increased so rapidly that now two clinics are held each month.

"Cancer can strike any one," has been selected as the 1949 slogan, but the local chapter of the American Cancer Society believes that you can strike back effectively with your donations to the Cancer Fund. They have selected as their project for 1949 and 1950 the continuation of the cancer detection clinics at an accelerated rate of two each month, assisting in operation of cancer detection laboratory services at the hospital and additional education of citizens in this area to the dangers of cancer.

The local chapter is also pleased to report that practically all of the money sent from this area to the national chapter is being spent for research, much of it in colleges right here in Ohio; and that new techniques are being discovered and improved upon which will make possible cancer detection in its very early stages.

Morris Rusk, chairman of the Shelby-Plymouth-Shiloh Chapter has announced that it will be necessary to raise \$5,000 this year in order to continue the program which has been started.

Kick-off meetings for the drive will be held in Plymouth on April 3rd and in Shelby on April 14th.

The 1949 drive in Plymouth will be in charge of T. E. Woodworth; in Shiloh, Mr. and Mrs. Pittenger; and in Shelby, north-west section, Harley Evans, Wil-

lard Ross, Leonard Morton, Geo. Zeiters; north central section, Raymond Wilkinson; north east section, Chester Monn, Dean Hallman, Charles Noack; southwest section, Charles Dye; south central section, D. W. Cook, Dan Mellick; southeast section, M. E. Berkley. Sponsor Kern and special solicitation, Howard Palmer, Richard Dalton, Noel Smith, and Clark Beal.

**First Half Tax  
 Collection  
 Distributed**

H. B. Collier, Huron County Treasurer reported a collection of \$598,861.41 for the first half 1948 real estate taxes, as of the close of the collections on January 31st. This was the largest collection of real estate taxes in a number of years, and was due largely to increase rates voted last year, and the fact that \$63,000 was advance payments on the June half. At the close of the collection period settlement is made with the County Auditor, Bernard F. Kean, and this week the fifty-nine taxing districts in Huron County received the funds raised thru taxation in their district and paid to the County Treasurer last January. The distribution, a highly specialized procedure is handled by Audrey Brothers, real estate settlement clerk in the Auditor's Office. At the same time, inheritance tax is distributed to the corporations and townships, one half going to the place of residence and the other half to the State. Inheritance tax amounted to \$11,099.34.

After the deduction of treasurer's and auditor's fees, deductions for election, examination expenses and pro-rata costs of the health department, the County General Fund received \$68,359.86, the County Tuberculosis Fund, \$16,486.22, the schools of the County \$342,108.64, the Corporations \$100,455.87 and the

These are

These are  
 the people

THESE are the people who own your electric light and power company. Chances are you are one of this group, too.

They represent a cross-section of America — housewives, doctors, teachers — industrial workers, craftsmen, farmers — mechanics and milkmen. Yes, people from all walks of life have put their savings into companies like ours. They're direct owners.

But there are countless indirect owners, too — many who don't know they have a stake in the electric industry. They're people with life insurance policies and savings accounts. When banks and insurance companies accept your money, they must invest it wisely. And because business-managed electric companies have a long record of successful service, much of that money is invested in utility securities.

So, you see, the electric industry is owned by the people it serves.
