

Presbyterian Church To Hold Rally Day And Election Sunday

This coming Sunday, Sept. 24 at 10:00 a. m. during the Church School hour will be the Rally Day and election of the church school officers at the Presbyterian church. Promotion of the youngsters of the church school will be a feature of the special hour program for the day.

The first Sunday of October starts a new year for the "New Curriculum" and as the year is unusually fine, we are anticipating quite a sizeable increase in attendance for the coming year.

We urge that all the parents of our fine group of youngsters to be present for the promotion service, whether or not any of your children are promoted. We also invite any one who is interested to join us.

Another feature of the morning will be the election of the church school officers. The agent of some of the officers has been placed on training the young people as official candidates of the church school. This election is most important to all members of the church as it determines to some extent the policy and operation of the church school which in turn, effect our future church. C. E. News

The society has accepted the responsibility of furnishing the Church Service bulletins and the printing of the same. This task is not a large one, but it helps us young people to help to enrich the worship service.

The County Christian Endeavor society have a picnic planned for Saturday, September 23 to start at 2:30 p. m. at the Olivesburg Road park. Wieners and buns are all that is necessary for the individual and to bring, the other items will be furnished.

The afternoon will be spent in activities with the picnic to start at 6 p. m.

Those wishing to attend should notify either David Sams or Bob Spensator. We plan to leave Plymouth at 2 p. m.

Saturday, September 30th our group has planned a fall day trip to Mohican State park. Details in our next issue will be published next week.

Former Local Man Is 90 Years Old

Edwin S. Opydke, brother of Mrs. Mattie Majors of Mills Ave., who was 90 years young on Monday, is enjoying excellent health and is able to travel around the country more easily than many who are much younger.

Mr. Opydke was born in Plymouth on Sept. 21, 1860, and now makes his home in Wellington with his daughter Mrs. William Martin. For his birthday this year friends gathered at his home to wish him many happy returns of the day, and to share the anniversary refreshments with him. On Monday he visited with his sister in Plymouth and also attended the funeral services of a cousin, Frank Stout. Mr. and Mrs. Martin accompanied him.

This very active nonagenarian is one of a family of eight children, four of whom are still living. Besides Opydke, Mrs. M. Martin's sons there is a sister, Mrs. W. R. Palmer, of Cleveland, and a brother, O. O. Opydke, of Colorado Springs, Colo.

His children, Mrs. Opal Jackson, Mrs. Wm. Martin, Wellington, Mrs. Thelma Steiner, Lakewood, Mrs. Ethel LaGrange, and E. E. Opydke, Zanesville, are planning his birthday celebration this year. He is able to read with glasses, and at a recent LaGrange homecoming was awarded a prize for being the oldest attendant.

His wife, who was formerly Miss Mary Hodges, passed away four years ago.

PILGRIMS DROP OPENING GAME

The Plymouth Pilgrims gave up the first game of the football season Friday night to Norwalk's St. Paul. The Pilgrims did a good job in St. Paul's "experience" proved too much for them. The game ended 23 to 6 in favor of Norwalk.

There is little doubt but the local lads were somewhat excited in their first game, especially playing the "opener" in Plymouth's newly lighted football field. Coach Frai has a lot of hope for the games to come and feels certain that his boys will wind up the season with a good record behind them.

There were almost a thousand spectators on hand to witness the opening game and to get their first glimpse of the new stadium and lights. Many fine comments were heard and many felt that the game, and much praise was given to the Booster Club in promoting the football field.

While there was wonderful cooperation from the entire community on the project, there are six men who should have a good word and a word of commendation for their part they played and the work performed.

John P. Root took the task of raising the cash and he did an exceptionally fine job. He left no stones unturned, and the sum total shows that everybody "must have been so excited" on hand to witness the opening game.

There is Johnny Helbig, president of the Booster Club, who did not take an hour off from the electrical installation, and he has a lot to be proud of. Helbig steered the operation to perfection, and he worked into the wee hours many Thursday afternoons and Sunday afternoons in the park; Harold Cashman, Bob Lewis, and Elton Robertson. These three were on the job, always doing the things that had to be done at the proper time, and there was a lot of work that had to be done—digging holes, pouring concrete, setting blocks, etc. Too much praise can't be given to these three men.

Of course, there are many others who should be mentioned later, for the splendid help they rendered. Proper recognition will be made to individuals and firms who have done a good job in the sale of materials at a good discount.

October 1st Is World Wide Communion

Receive Funds From Polio Headquarters

Last week, Mrs. Chas. Friend received a check for \$4700 from the National Foundation for Infant Paralysis, Inc., headquarters to supplement the Huron County Chapter treasury in caring for the polio victims in the county. This makes a total of \$10,745 received in the county in the past two months, and does not include the 50 per cent returned to the Chapter after the drive last January.

Although all over the nation, the polio incidence down, in this county there are as many who have been stricken so far, as there were in the county last year, with two thousand still to go before the dangerous period is over.

RETURNERS FROM KENTUCKY Miss Jessie Cole returned Tuesday evening from Louisville, Ky., where she was called because of the illness of her brother's wife, Mrs. Arch E. Cole. Miss Margaret Cole of Pittsburgh also spent the week-end in the home of Mrs. Cole. Mrs. Cole's illness is very ill.

MOVING SIREN TO NEW LOCATION

Members of the volunteer fire department were busy Wednesday afternoon preparing for the removal of the fire siren, now located at the city building, over to the roof of the Peoples National Bank building.

For some time, it is believed the siren has been inefficient in sending out tones loud enough to be heard over all the town, especially during the winter months. The new location is much higher, and there is no obstruction to keep the sound waves from traveling in all directions.

The firemen set a 300-lb tripod on top of the bank building Wednesday afternoon, prior to moving the siren. The new weight approximately 200 pounds and the firemen plan to use skids to get it across the top of the hotel building, and over the roof of the bank. The job will probably be completed this week, provided the weather doesn't interfere.

Mr. Willard states that he expects a last minute rush the last remaining days of the grace period since a large number of taxpayers have not yet paid their taxes and are either neglected to pay the tax due at this time.

THE Square

By William Whitliff
"BROKE BREAD" with Don Ebricht last Friday noon at the Huron County Fair when a group of fellow Huron county publishers, members of the clergy and educational profession, met and dined and listened to the Republican candidate for Governor of Ohio.

I WISH every voter, not only in Plymouth, but the entire state, could make and shake hands with Don Ebricht. I say this because of the strong character he reflects when he looks you in the eye—the genial smile of a personality that knows honesty and clean living. In fact, Don Ebricht in my opinion, does possess the usual tingling of a politician. He stands alone, not only on his record as state treasurer for sixteen years under Democratic regimes, but also in his opinion that he can improve our state government.

IN A ROUND table discussion on Friday, Mr. Ebricht pointed out that our school system is way below par. Giving a few statistics he stated that the average school has seven thousand teachers in Ohio schools that are teaching under a temporary certificate. This no doubt is a population of teachers that the attractive offers to teachers from neighboring states are an inducement for our teachers to accept. More pay, and a higher retirement benefit.

OHIO'S EDUCATIONAL problems are getting bigger all the time, according to some figures given out by the Republican candidate. Mr. Ebricht was studying how to accept Democratic regime, but the state recently, and he said that by 1954 the state would have to be able to handle an additional 350,000 school children. "There are three ways we can do this," Mr. Ebricht said. "First, we can just go along, from day to day, and meet the situation the best we can, or we can throw the responsibility onto the federal government, which is another way that's not all that is desired." Mr. Ebricht is planning a definite program now under state supervision, and be ready when the peak on schools of the state is reached.

YOU CAN be assured that Mr. Ebricht's educational program will coincide with the needs of the state for the next few years, with his ideas on education, he has brought into the picture Ohio highways, which will make a good subject for the next few years. Taxpayers and motorists are beginning to suspect that our highway department is either very lax in producing a worthwhile product, or they are beginning to eat deep.

MR. EBRIGHT'S version of state government was found to be somewhat soothing. "It is but natural that people are centering their great part of their attention and thought to national and international affairs. But we should not overlook the fact that our state and local governments must continue to function properly," lest we fall into the grip of stronger federal supervision."

SKATING FANS in Plymouth, who have been enjoying the Ice-Capades at the Cleveland Arena for the past several years, will be interested in knowing that the "Student Prince" will be staged on ice this year. The arena, which handles publicity for the arena, tells me that the "Student Prince" production is by far the greatest outstanding production ever attempted on ice.

The show starts Friday, Sept. 29, and fans may order tickets direct from the Arena.

MORE HUNTERS are out this year, according to the report this week from the Cleveland Arena, issued by Brown & Miller. Around 160 have bought their license to hunt the ferocious squirrels of the State and local governments must 50% more than usual who have the urge to hunt.

CINDY SUE, three-year-old daughter of Mrs. and Mrs. Robert Briggs of Toledo, underwent an operation for a bronchial cyst on Wednesday morning at a hospital in that city. She is the daughter of Mr. and Mrs. D. G. Cunningham of Mulberry street.

WHY TAFT MUST WIN

One of the most important decisions in the history of the republic will be made by the voters of Ohio when they pass on the candidacy of Senator Robert A. Taft in November. There is more at stake than just the identity of the man who will represent Ohio in the Senate for the next six years. In a large degree, the outcome of the senatorial contest in this state will influence the conduct of national affairs for years to come.

Taft has a nominal opponent in the person of Auditor of State Joseph T. Ferguson. Ferguson, however, is just a figure-head for the sinister forces which are trying to defeat Taft. Taft's real opponents are the labor union bosses, the Socialist experimenters, the unprincipled politicians who would bribe the taxpayers with their own money in order to stay in office, and the enemies of capitalism and the free enterprise system.

In contrast, Taft stands for fairness in labor-management relations, for strengthening rather than destroying the economic system which has given the American people the highest standard of living the world has ever known, for the preservation of the rights of individuals and the states against encroachments of the federal government and for the prudent management of the federal government's finances, as contrasted with the reckless spending of the Truman administration.

In the Senate, Taft symbolizes the opposition to the Truman administration which, in domestic affairs, has cast its lot with the labor bosses and the Socialist planners. Although in all but two of his 12 years in the Senate Taft has been a member of the minority party, his influence has extended far beyond that of the ordinary opposition leader. Time after time he has raised his voice against unsound and socialist proposals of the administration and upon numerous occasions has rallied enough votes to defeat them. Time after time his power has exceeded that of the majority leadership. It is small wonder that the labor politicians and the Socialist planners regard him as their No. 1 enemy and that they have made his defeat their No. 1 objective.

It is precisely because of Taft's stature in Washington that the outcome of the election in Ohio will have a bearing on national affairs. A victory for Taft not only would be a rebuke to those who are trying to defeat him, but it would serve to warn those in power that they might face defeat if they persisted in trying to foist unfair labor legislation on the people, in promoting vast spending schemes, in seeking to extend the powers of the federal government over the lives of individuals and in constantly trying to undermine the economic system.

A defeat for Taft, on the other hand, would remove all restraints from the Socialist-labor politicians in the Truman administration. It would be the signal for them to go ahead with all their free spending give-away programs and socialist schemes, to continue deficit financing and high taxes in peacetime and to renew with greater fury their assaults against business and their appeals to class prejudices.

If Taft were defeated, the labor politicians would be in a position to threaten other senators and representatives with a similar fate and thus blackmail them into repealing the Taft-Hartley law and enacting in its place a law giving the labor bosses dictatorial powers over the members of their unions.

No other single event would more hasten the drift toward socialism in the United States than Taft's defeat in Ohio this year. That is why his re-election is so important to the nation.—The Cleveland Plain Dealer.

A \$4 volume entitled the Minerals Year Book, recently issued by the government, has been recalled because the buffalo's tail on the emblem which decorates the book, "sags too much." With such a load of inflation a live buffalo would have the same trouble.

It seems to me with rising costs of manufacturing and distribution that there are many who could go to the Coca-Cola and Wrigley's chewing gum to get the secret on how they can keep their retail price of 5c the same, year in and year out. If they can do it, why can't others?

A FRANK CONFESION

In a recent article entitled "Investment per Worker in American Industry," the Machinery and Allied Products Institute of Chicago has presented some highly interesting conclusions. It shows that American industry is the most heavily capitalized in the world and that this is a major factor in its productive supremacy. The American workman has at his disposal an unparalleled volume and variety of tools. A representative non-farm enterprise with used plant and equipment must somehow raise \$10,800 for every worker employed in the business. With a new layout, the enterprise will need a total investment of \$14,000 per worker.

In an advancing economy there must also be a continual increase in investment per worker. If this is as low as 1 per cent per annum the minimum required will be \$4.5 billion a year.

This brings the question of investment per worker right down to the average family. Where is the money coming from? Obviously there is only one answer. From savings which people can accumulate out of the pay they receive for their labor. Whether they will invest their money in industry depends on the opportunity they see for dividends or profit.

At this point government plays a critical part by encouraging or discouraging incentive through its tax policies. A man can't pay taxes if he can't make money. If a man can't make money he cannot save or invest. In the future more than in the past the tax policy of government will determine the availability of investment capital and this in turn will ultimately determine the increase or decrease in jobs, and taxable assets on which government will have to depend for its tax revenue.

With all the countries of the world flat on their backs, with only the U. S. and Russia stronger enough to fight, it does seem that we could make a deal to prevent another war.

COMMUNISM IN WASHINGTON
McGREGOR
Reports from
WASHINGTON
 By J. HARRY MCGREGOR
KOREAN WAR

WASHINGTON, D. C.—Congress, like most of the people in the United States, is greatly disturbed over losses in Korea. We are especially disturbed over some of the countries, who have been receiving economic and military aid from the United States, following the policy of shipping goods, including war materials, to Russia and her satellite nations. Records recently submitted to us show that Great Britain this year sent to Russia \$110 million in war goods including machine tools, ball bearings, barbed wire and brass; that Belgium and Luxembourg sent \$66 million dollars worth of goods; and France \$36 million dollars worth. These shipments included metals, railroad rolling stock, chemical products, explosives, rubber and other war items.

It has now come to light also that our own Government has shipped to Russia 144 barrels of very scarce Molybdenum, which is used for hardening steel. This material was shipped under a Commerce Department license from a firm in this country to an importer in Britain and was trans-shipped to Russia on July 1, 1950.

In my opinion, this procedure should be immediately stopped and a thorough investigation made and penalties imposed on those responsible. It seems ridiculous when our boys in Korea are in grave difficulty due to the lack of equipment, that we continue to send the same equipment to Russia, directly or indirectly. I am not in accord with such a policy and for this reason have voted against many pieces of legislation covering the European aid program.

U. S. MARINES
 It is to be regretted that the President recently stated, and I quote, "the Marine group is the Navy's police force and as long as I am President, that is what it will remain." They have a propaganda machine that is almost equal to Stalin's. The President has apologized, but I fear great damage has been done not only to the morale of the Marines fighting in Korea but to that splendid group everywhere.

TAXES
 The Tax Bill, H.R. 8920, providing a 4 billion 508 million dollar increase has been passed by the Senate and a conferees agreement is expected immediately. The Senate included an amendment to permit the listing of breeding of dairy cattle as capital assets, and the proceeds would be taxed as capital gains rather than income. An attempt to increase corporation taxes by 45% has been rejected. The Ways and Means Committee advised us that, at a later date, tax legislation will be submitted calling for increased corporation taxes and excess profits taxes, which will be retroactive to a part of this year's income—perhaps 1/2 to 2/3.

COMMUNISTS
 The President has served notice that he will veto the Anti-Communist bill which was passed by the House and is now before the Senate for consideration. This bill requires all Communists to register and denies passports to party members, bars Communists from holding Government jobs and prohibits contributions by Government officials to Communist front organizations. The veto seems to be, however, that there will be a sufficient number of votes to override the President's veto should he follow the veto procedure.

Some of us feel it is needless to fight Communists in foreign countries and allow them to run rampant here.

The Opinion Poll . . .
 By Christine Lucas and Janet (Beak) Robertson
 While strolling down the corridors of our school, we decided to ask different people a question, concerning "WHAT THE MOST IMPORTANT THING IN THE WORLD IS TO YOU." We received many and varied answers and decided to let you, the readers, in on the secret ambitions of our schoolmates.
 Here are a few of them:
 We met Doris Reber, a sophomore, 16, on the stairs and applied our questions to her. She gave a short simple answer, "I want to see Mary Robertson, 12, big ambition and we do mean big is for people in other countries to enjoy the same privileges that we do in this country. That's a grand idea, isn't it?"
 Freshman Loretta Trauger, 14, has one big goal, that of graduating. We feel Loretta will change her mind after she reaches her goal. We have to hurry along now we have millions of opinions to ask before school closes for the day.
 We saw Mary Robertson, 12,

another of those seventh graders in Study Hall and asked what was the most important thing to her. She said without hesitation that, "Food was because I am always hungry." Martha Schreck was reluctant in her reply but she gave her answer as "Myself—and there is no reason why."
 Don "Gusty" Ray stopped in the Auditorium just long enough to tell us that "Football" was his greatest ambition. (Gusty was absent on the football field at the Loudonville game.) We hope he will be in there pitching this Friday night.

Freshman Georgianna Pitzer, 13, our drum majorette, gave her answer as Baton Twirling. Lenor Steele, 16, a distinguished senior, gave his answer as "Cars" because he wants some day to own a Cadillac. Sophomore Lanny Gooding, 15, gave his mysterious answer as "Women," the reason being, of course, obvious.
 Seniors Molly Burrer 16, and Shirley Birch, 17, our football cheerleaders, gave their answers somewhat differently. Molly says her future is the most important thing in her life. Shirley laughed and said that "Money, hee! hee! hee! was the thing she wants most." Vale Reed another Gold-digging senior said, "Money . . . Why ask? Penny Christian paused in the hall to reply, "Boys, because some day one is going to have to support me." P. S. Penny only weighs 120 lbs. fella.) Mary Jo Ganzhorn, another senior, 16, replied without hesitation, "Life—where would we be without it?"

Change in Social Security Law Will Effect 2,000 in Richland County

Benefit payments of about 2,000 local and Richland county residents will be increased by the recent change in the Social Security law, Edward P. Blonstan, manager of the Mansfield office of the Social Security Administration announced today. These changes became law when the bill was signed by President Truman.

All changes in benefit amounts will be made automatically, said Mr. Blonstan. It will not be necessary to write, phone or visit the Mansfield office. Every person receiving social security benefits will be notified individually within a few days.

Checks covering the new rates will be issued by the area offices as soon as it is clerically possible to make the changes. In some cases this may take several days. However, if you find that a neighbor or a friend has received his increase while your rate remains the same, this does not mean that you are being overlooked. All persons receiving monthly benefits before September will be paid the new rate beginning with the month of September. The check for September will be received sometime after October 1. The local office has no part in making these changes, Blonstan added, so no purpose will be served by contacting this office. However, if the adjustments have not been completed by the end of November we would like to know about it.

Below are conversion tables which are a part of the amended law. By consulting these tables a beneficiary or retired worker can determine the approximate size of his increased insurance payment. Wives over 65 years would receive one-half, widows, three-quarters, children, one-half, dependent parents, three-quarters of the amount shown in the new table.

Persons now receiving monthly benefits may earn up to \$50 per month under Social Security and

Primary Insurance Benefit	Old Law	New Law
\$10.00	\$20.00
\$11.00	\$22.00
\$12.00	\$24.00
\$13.00	\$26.00
\$14.00	\$28.00
\$15.00	\$30.00
\$16.00	\$31.70
\$17.00	\$33.20
\$18.00	\$34.50
\$19.00	\$35.70

still receive their benefits. The former limit was \$14.96. If you are over 75, there is no limitation, and you can draw the benefits regardless whether or not you are working.

Nelson Roberts got an additional thrill out of the performance as it was Mr. Faber that happened to be the motorist who picked him up as he was walking in to town to band practice. Mr. Faber is also listed in this publicity as the 1949 Ohio State Veterans of Foreign Wars champion and has twirled at several of the Cleveland Browns football games. In 1941 Faber was the Champion twirler of the Northwest District of Ohio, and the winner of the Tri-state contest and also the National High School champ.

FOUR LEAF CLOVERS have all ways been a symbol of good luck, but it is unusual to find a four, a five and a six leaf clover at one time and on the same stock at that. While watering the calves on their farm in New Haven, Mrs. W. H. Thumma looked down in a clover patch and noticed the unusual group. If wishing on a "lucky clover" means anything, Mrs. Thumma says she wishes for World Peace. Let's hope the lucky clover is a forerunner of "peace."

Fall To Officially Arrive

Here At 9:44 A. M. September 23rd

It won't be long until the shadow of autumn approaches. Fall will officially arrive at 9:44 a. m. Plymouth time, Sept. 23.

Everett J. Yowell, professor emeritus of astronomy at the University of Cincinnati, said that on that day the night is supposed to be exactly equal to the day but this year the daylight period will exceed 12 hours by eight minutes.

Prof. Yowell also reported there will be two eclipses this month. There will be a total eclipse of the sun next Wednesday and a total eclipse of the moon on Sept. 25. The eclipse of the sun will begin in the north polar regions, move south over Siberia and end in the Pacific Ocean.

A couple of the Aleutian Islands will see the total eclipse and it will be partial in Alaska.

Eclipse Starts Sept. 25

The eclipse of the moon will begin at 8:20 p. m. on the night of Sept. 25 when the moon enters the penumbra of the earth's shadow. The eclipse will be from 10:45 p. m. until 11:40 p. m.

Prof. Yowell's report continues: The moon is new Sept. 11 and full Sept. 25. This full moon is the harvest moon and at that time the interval between successive risings of the moon is a minimum.

"Mercury, Mars and Saturn are in the western sky after sunset. They may be difficult to find in the haze of the western sky."

"Jupiter is brilliant in the eastern sky, outlining any star. Venus remains a morning star, rising about an hour earlier than the sun."

Of Willard are clated over the arrival of their twin son and daughter, born Monday at the Willard Hospital. Mrs. Johnson will be remembered as Miss Norma Hatch of Plymouth.

WORKING IN EAST

One of the members of Plymouth High's 1950 class, Miss Holly Pitzon, is now working in Clifton, New Jersey, and training for a dentist or doctor's office assistant.

While visiting with Mr. and Mrs. J. C. Martin, former teachers in the Plymouth school, the opportunity came to receive training while working at the Allwood Medical Center in Clifton, and Holly writes that she likes the work and finds it all very interesting.

There are four doctors in the medical center, all war veterans, who planned the center and selected the Allwood center of Clifton, New Jersey, to locate their offices.

Fortunately for Holly she was right on hand when they needed help and began her work the first of the month. She phoned home to Plymouth just before the football game last Friday night to wish the team and the band and the majorities 'good luck,' which proves that she still is interested in Plymouth High. Her three sisters are students in the local school this year.

CHANGE OF RESIDENCE

Mrs. Lulu Norris moved Thursday from the upstairs apartment over Koser's bakery to the upstairs apartment over the Crispin Store.

What Do You Know!

A Mischievous by Rev. L. E. Smith

When our second daughter, Maurine, was about four years old she would sit in the choir with her mother during the church services. (Yes, our children were always in the church service and it apparently didn't exhaust or break them down prematurely.) It was then, as now, my custom to return to the vestibule of the church following the benediction to greet the people as they left the church and Maurine, as soon as the Amen was finished would rush down from the choir loft and endeavor to beat her Daddy to the rear of the sanctuary. One Sunday when I arrived at the vestibule after her, she was holding up her hand with the index finger erect and with a lot of enthusiasm exclaiming, "Only one got away tonight, Daddy."

"Only one got away?" No one ought to get away from the influence and saving power of Christ through the medium of His church. Every last and least one should be reached. The church ought never to be complacent when even one person is outside the fold of righteousness. The church must ever be committed to the task of seeking the "sheep" that is gone astray. St. Matthew 18:11-14: "The Son of man is come to save that which was lost. How think ye? If a man have an hundred sheep and one of them be gone astray, doth he not leave the ninety and nine, and goeth into the mountains, and seeketh that which is gone astray? And if so be that he find it, verily I say unto you, he rejoiceth more of that sheep, than of the ninety and nine that went not astray. Even so it is not the will of your Father which is in heaven, that one of these little ones should perish."

our minds continuously turned towards the doing of the good works of divine service. Through Christ our Lord. (From the 16th Sunday after Pentecost)

Should a necessity carry a high federal tax?

Telephone service is generally considered to be a necessity. Yet the Federal tax on long distance and other telephone service goes as high as 25%. The tax on *luxuries* is only 20%. That means the necessary long distance telephone call you may have to make in an emergency will be taxed higher than luxuries.

And that is only part of the telephone tax picture. Federal tax increases your local service bill by 15%. Long distance calls of 25c or over are taxed 25%. Other forms of telephone service are taxed from 8 to 25%. This excise tax is imposed directly upon you as a telephone user. Your telephone company, at its own expense, acts as a tax collector.

These excise taxes are in addition to the corporation income taxes and other taxes which the company pays to the federal government either directly or indirectly.

We are sure your Senators and Representatives in Congress would welcome your views as a taxpayer and citizen in helping them to guide future action on this peacetime tax of a necessity.

Ice-Capades Will Present "Student Prince" On Ice

Once again the ICE CAPADES has hit the frozen "jack-pot" with its presentation of the famous "Student Prince" as one of its big production numbers in the 1951 edition opening at Cleveland Arena Friday, September 29th. This is the first time the "Student Prince" has been presented on ice and, in so doing, is causing an earthquake in show business.

This great opera, a delightful romance of a handsome prince and a beautiful waitress, is made more memorable by an unforgettable musical score that is the inimitable Sigmund Romberg at his best.

The ICE CAPADES presentation is so spectacular that actually no one has ever seen the "Student Prince" until they see it now. For one thing, the ice floor is so spacious a stage, that things are done which the composer never dreamed possible. In addition a group of four Hollywood-style dancers present the great songs of the World's Number One Opera.

You will hear the ever popular "Student Marching Song," "Golden Days," "Drinking Song," "Deep in My Heart," "Come Boys, Let's Be Gay Boys," and the ever delightful "Serenade."

The story is that of a young prince, "Bobby Specht, who enrolls in Heidelberg and takes his place in college life. He falls in love with Kathy (Donna Atwood) pretty waitress at the college inn. She reciprocates his affection, which is pure and sweet. But their romance is brief. His grandfather the King dies and the Prince is summoned back to court to take up the crown and affairs of state. But it has a happy ending.

The costuming of the "Student Prince" is hailed as a new high for ICE CAPADES.

Critics agree that the story thread is actually enhanced and strengthened on ice. One of their reasons is that the stage time has been condensed to thirty minutes. There is no time for intermissions, changing scenery, and no delays between the acts. The action is continuous with no extra-curricular delays.

It's truly a history-making production. And it's only a small portion of the ICE CAPADES OF 1951.
