Blue Cross Adds 3,268 Members in September

Although Akron Blue Cross raised its rates 55 per cent Sept. 1, the enrollment of the hospitalization plan increased 3,268 members in September.

In making this announcement, Robert C. Jenkins, executive director of Akron Hospital Service, said that he was pleased by public reaction to the rate increase.

"It's apparent," he said, "that our subscribers saw the real need for the new benefits which were added to our contract at the time of the rate increase and that those people who became new members last month have added value of our service."

September's gain brought the total enrollment of the plan to 280,000 members, 39 per cent of the population of its territory. Six counties—Richland, Ashland, Medina, Portage, Summit, and Wayne—and the southern portion of Huron county are served by the plan.

The new benefits Jenkins referred to included extending the coverage from 30 days per year to 70 days per year of confinement, upping daily room allowance from \$6.50 and \$8 to \$8 and \$10, and raising the drug limit from \$200 to \$500.

One of the largest items was the new provision calling for payment of infant nursery care which Blue Cross has not previously paid. Children will now be covered from birth rather than from 30 days of age.

Other additions to the contract were physiotherapy and hydrotherapy, electroencephalograms, payment of all X-ray charges over \$15 rather than 25 per cent of the cost, and payment of all laboratory charges rather than 50 per cent.

The plan's 1951 enrollment will probably reach an all-time high. It is estimated that the increase in this area was 1946 when the net increase in membership was 31,737. Already the first nine months of 1951 have surpassed that with a net increase of 32,837.

Blue Shield enrollment figures for the same nine month period show a net increase of 30,652. The new Blue Shield members in the plan in those months. Total number of Blue Shield surgical plan members in Akron Hospital Service territory is now 133,896.

## See Little Likelihood Of Depot Airstrip

The latest information obtainable on the expansion plans of the Wilkins Air Force Specialized depot do not appear to include an airstrip.

According to information provided by Congressman J. Harry McGregor the past week-end, only some 200 additional acres are to be acquired.

The congressman added, however, the project has been given a "high priority classification." Most of the project is to be carried out under security regulations. Therefore little information beyond that already reported was available from the congressman.

He recalled there will be approximately 1,500,000 square feet of warehouse space in four proposed buildings. The depot now affords 2,500,000 square feet of storage space.

Therefore, the \$13,273,000 expansion will add approximately 65 per cent to the storage facilities. The construction will likely take upwards of four years.

**LIST INVENTORIES**  
Inventory lists the estate of Dick Cook, late of Shelby at \$50,000; Sadie F. Snyder, late of Shelby at \$1,629; Blanche Mable Feezle, late of Bloominggrove township, at \$4,256.

## SCHOOL NEWS

**AN APPRECIATION**  
On October 12, Mr. Nimmons, president of the Peoples National Bank in Plymouth, brought to our school packages which contained one hundred-fifty little booklets. These, tell in story and picture, of the seven great documents which mark man's progress toward freedom.

The story starts with a facsimile, or exact reproduction, in Greek of such "Sermon on the Mount," a picture to illustrate, and the Bible translation of this greatest of all sermons, Christ's teaching to his people. Here we find the Golden Rule, fundamental to man's basic rights for how can man find freedom if he denies it to others?

The second facsimile shows the Magna Charta, granted by King John of England to his people in 1215. The illustration shows the King surrounded by his noblemen, to sign the Magna Charta. In doing so, he gave the English people a free church, the right of trial by jury, and "their rights and liberties to all."

The third story is that of the French Declaration of Rights in 1789 and described by the French Constitution in 1791.

The fourth story is that of our own Declaration of Independence in 1776. The story of the American conviction that man is born with certain inalienable rights and that our government is established by the people to serve them and to protect and defend those rights.

In the fifth section is a copy of the American Bill of Rights as written in the Amendments to the Constitution.

The sixth facsimile shows the American Proclamation as announced by President Lincoln in 1863. In this document we recognize the Negro's right to freedom, knowing that well then, that natural rights and freedom are not dependent upon his color.

The last story tells of the final emancipation of women as completed in the Women's Suffrage Act of 1920.

In this act the women were given political equality with men. This little booklet, which is very beautifully and artistically made, will be used as a basis for study in each class in Plymouth High School. We shall urge the students to take them home so that their parents may read them.

Probably, never before in our history have these rights and our freedom of man been in so much danger as at the present time. These booklets will serve as a very timely reminder and may awaken us more fully to the value of the many good things we enjoy as American citizens and which we so often take for granted.

So, to Mr. Nimmons and those responsible for the booklets we send our appreciation.

Mrs. Southard

Many beautiful cards, messages and flowers were received and two interesting letters from former ministers of Plymouth, Rev. F. B. Heibert of Akron and Rev. Circulation 1750. The Advertiser is published for Plymouth, Shiloh, New Haven and a wide rural section in the immediate vicinity. Plymouth's population is 1500. Located on the Baltimore & Ohio Railroad and The Akron, Canton & Youngstown Railroad, it is the home of The Patent-Health Co., manufacturers of industrial locomotives, ceramic machinery, lawn tractors, and lawnmower grinding equipment. The village enjoys a fine school system, churches and all modern utilities.

The name, Plymouth, and its people transposed from the strong, sturdy New England stock which migrated westward following the fire which destroyed their homes and lands. Old in tradition, high in ideals, and the finest American blood in these United States, Plymouth can be well proud of its name and her people.

## IT'S NOT TOO MUCH TO ASK, IS IT?

Next Wednesday evening the business men of Plymouth will again stage their annual Halloween Celebration for the youth of the area. They are putting up the prizes, donating their time to manage the plans, donating the cider and giving and in general planning a gala time for the community. In a good many instances the business men have no children of their own but are willing to help others who have a good time.

This past week a number of reports have been turned in to Police Robert Meiser and the Advertiser that rowdiness, vandalism and property damage to villagers have brought forth indignation and rightful wrath against those youngsters who indulge in hoodlumism under the guise of Halloween "pranks."

In several specific instances garbage has been strewn over front porches of widows who are wholly dependent upon themselves for work done around the house. They report they have always cooperated with school projects, given donations, bought tickets and assisted in civic projects and feel it is not too much to ask that they be given the same kind consideration they have given to the youth of the community.

It is also pointed out that parents have a primary responsibility in making sure that their children are not among those who indulge in such practices, and Police Meiser will see to it that the curfew is enforced and if necessary instead of the 9:30 o'clock curfew it will be blown at EIGHT or EIGHT-THIRTY. Meiser and his deputies make a continuous round of streets and alleys each and every night and are doing a splendid job of patrolling, but they cannot be everywhere at the same time, and it will be up to the parents to cooperate and see that their children do their part.

If the merchants and townsmen had turned "thumbs down" on the many extra activities planned for the community, the youth might have had an excuse for such misbehavior, but if they wish the continued assistance and help they have had in the past to continue, they had best think twice before such acts are repeated.

## SCHOOL TAX LEVY SHOULD BE SUPPORTED

With election time near, Plymouth voters would do well to start thinking about how they are going to vote on the proposed tax levies, especially for the Plymouth school district. The first reaction to most of us when it comes to taxes is to vote against any measure that will tend to increase our local tax rate, no matter how small it may be. However, we should evaluate our needs and how much it will cost. With Federal and state taxes the highest in years it behooves anyone to vote on an additional tax. It must be figured too, that if we pay more local taxes, the more we can deduct from our Federal taxes. And surely, the community benefits more directly through local taxation than through Federal or State taxation.

Plymouth can well be proud of the progress it has made in its school system the past decade. With inflation hitting so hard the past five or six years it is difficult for us to understand why the cost of operation and the need for money is so great to continue in our present stride. We hear a lot of more money for schools, and we sometimes wonder where it all goes. But then, if one stops and considers a grocery bill four or five years ago, and compares it with what the dollar will buy today, the answer will be found. Everything has gone up in price, and this includes the cost of education. So that's why Plymouth needs and must have additional operating revenue.

The present levy of four and one-half mills expires next year. In November the voters are asked to approve a six and one-half mill levy to run for five years. This means that we're taxing ourselves an additional two mills, which amounts to very little, especially when the needs of our school is considered. If you'll take the time to discuss the problem with any school board member or our superintendent, we believe you'll be enlightened to the necessity of supporting the school levy, and we are certain that our community will appreciate any effort you make in keeping our school system intact and giving our children an opportunity to continue their education under good school management.

## BUREAUCRACY JUMPS TO NEW HIGH

The Civil Service Commission reported Federal agencies in Washington, D. C., hired five times as many new employees in June as in May. The total Federal civilian payroll was 2,489,500 July 1 with 256,100 in Washington. A pending military appropriations bill will provide funds for hiring 192,000 more civilians for the Defense Department, which now has 1,00,000.

## BE CAREFUL WITH FIRES

This week-end there might be a tendency to rake the leaves and burn them. Oftentimes we do not anticipate any danger of fire, and so it will be a good idea to try and burn leaves when the wind is not blowing too hard; keep them from buildings and other places which might be hazardous. In any event, let's be careful and keep Plymouth's low fire record clean. Don't burn leaves on the asphalt highways.

**THE READING PROGRAM**  
 Mrs. Newmeyer, Mrs. Hurst and Mrs. McMillan are giving reading tests to the pupils in the second and third grades. The results are not completely known and when they are they will be reported to the parents of the children.

The first sampling showed the pupils to be quite good readers. Most of the children were reading up to their grade level standards. Some were found to be reading at levels two years ahead of their grade, while the poorer readers seem to be only slightly below their grade.

These tests are published by Metropolitan Tests and will help to determine the particular needs in our reading remedial program. Tests will be given later in some of the other subject areas.

## PLYMOUTH EDGES SHILOH, 12-8

The P.H.S. Girls Softball team won its first ball game Thursday when they edged Shiloh 12-8. Shiloh sent six girls to the plate in the first inning and scored 3 runs.

Shiloh came back in the top of the second to tie the score at 7-7. In the bottom of the second Donna Baker led off with a triple for Plymouth and they had run the score to 10-7 before they were retired.

The third inning saw Shiloh score one run and Plymouth coming in with two to make the score 12-8 and to end the game.

There was a mutual agreement between Mrs. Buzzard, Plymouth coach, and Mrs. Arnold, Shiloh that the game would be called at 4:15.

## MORE FILMS

Five more films have been shown within the last two weeks. "The Quarterback", "This Heritage of Ours", "Airplanes and How They Fly", "Washington", and "The 1951 Senior Class Trip", were the names of these films.

"The Quarterback" was shown on October 1. It was about a famous college quarterback, who after graduating, took up the Real Estate Business. Being a football hero, he thought he could make more sales than the other salesman. It worked out this way for a while, but in a few years the people had forgotten about his fame. Not trying, his boss fired him as his sales had decreased. He tried other jobs, but didn't succeed at any. Finally, he went back to his original job and working very hard, he made himself a success.

"This Heritage of Ours" was first of the two films we had on October 11. It was about the United States and how it had progressed from the first settlement, which was in Jamestown, Virginia, in 1607, up to today.

"Airplanes and How They Fly" was the second film shown on October 11. It showed the different planes of the United States and how they were flown.

On October 12, the film of

"Washington" was shown. It showed the interesting and outstanding things of Washington D. C. After this film was over, the film of the 1951 Senior Class was shown.

## 174 YEARS AGO TODAY

Burgoyne, a famous English general in the Revolutionary War, surrendered his entire army at Saratoga, 174 years ago today. He crossed the Hudson River on September 13, and 14, and camped at Saratoga. On Bemis' Heights at Stillwater, he attacked Gates' army. The battle lasted until dark with both sides claiming victory. The British lost 500 men and the Americans lost 400 men.

On the seventh of October, he advanced to Gates' army again with 1500 men and 6 pieces of artillery. The British retreated several times and the battle ended in darkness, when they lost their artillery. During the night, Burgoyne and 791 troops that surrendered. Later, he refused Gates' demand for an unconditional surrender.

When Gates' gave different terms he surrendered. According to the new terms, the British could go freely to England on the conditions that they wouldn't serve against the American army again. The British soldiers, except Burgoyne and a few officers, were kept as prisoners until the end of the war. There were five groups of 791 troops that surrendered. Also, four groups of 500 muskets and a great quantity of ammunition were taken.

The battle of Saratoga was one of the 15 decisive battles of history, meaning that it changed the history of the world. The outcome of this battle convinced France to offer aid to the United States. The French assistance was the turning point toward America's success of the Revolution.

## Shiloh Homecoming and Organ Dedication Draws Record Crowd to Sunday Services

Photo by Tom Root

A warm welcome was given all members, former members and friends who attended the Organ Dedication and Homecoming service last Sunday at the First Methodist Church.

The service of dedication was held at the morning worship service with Rev. Smith delivering the dedication sermon, "Music and Our Common Faith." Mrs. H. W. Huddleston who served the church as organist for 26 years was given recognition for her faithful services and presented with 26 silver dollars by Mrs. Ava Arnold from the church.

At the noon hour a sumptuous buffet dinner was served followed by the service of music and fellowship commencing at 2:30. Rev. Clark W. Cooper, Norwalk District Superintendent was present and spoke on "Dreams," and the necessity of dreaming before the fulfillment of dreams could become a reality; and of course, the

purchase of the new electric Hammond organ and chimes was the fulfillment of dreams of the Shiloh congregation, a church-wide project led by the Young Peoples Church and the Organ Committee.

Rev. John Campbell of Akron who served the pastorate from 1933-39 and his wife returned for the program and spoke briefly, as did Rev. H. C. Wintermute, pastor from 1939 to 1942 and his wife. Greetings by Mrs. E. H. Curtis, 1900-1903 now residing in Orlando, Florida; Rev. E. B. McBrown of Reynoldsburg, Ohio, who served from 1927 to 1930; Rev. O. M. Peoples, Cleveland, Ohio, 1930-1933 and Rev. E. R. Haines of Cochocton, Ohio, who served from 1933 to 1948.

More than 250 crowded the church during the day and came from Shelby, Plymouth, North Fairfield, Greenwich, Ripley, Akron, Cleveland, Cleveland and neighboring churches.

## IT'S ELEMENTARY BUT SOUND

Early in school we learn Poor Richard saw that "a penny saved is a penny earned." Easy to learn and easy to follow when we get into the sound habit of depositing part of our pay check on pay day. Doubly rewarding, too, because of the interest for money earned and because of the financial security we can look forward to in times of stress. Start here today.

HEAR NOTED SPEAKER AT N.E.O.T.A. MEETING Shiloh teachers joined the ranks of 18,000 other Northeastern Ohio teachers last Friday at Cleveland.

In the morning a general meeting was held in the Public Auditorium, but the crowd overflowed into the music hall before all were seated.

Norman Cousins, vice president of the World Federalists sketched some verbal snapshots of strife unrest in India, Korea, and Japan where he has recently spent considerable time.

He dramatically reminded us that America has fallen short of not assuming the role of leader of Western nations, morally and otherwise.

Do the American people know why they are denying it to starting countries unless they renounce communism.

In Korea, he said, the biggest gripe of the American soldier was that there's a war on? W. B. Firestone
