Routs Bull

"No animal will stand to stare into the human eyes" is a statement we read somewhere, sometime, and it proved true for a Shiloh man recently.

Returning from Delphi with a carload of companions, this man's attention was attracted to a big Guernsey bull bellowing and charging into a strong wire fence along the roadside. Staples were thrown and it had been flying every direction.

Despite frantic protests from his companions, he crawled over the fence and advanced upon the bull. Startled, the animal backed up bellowing and pawing, then, as the man continued his advance, emitted a frightened bellow and ran down across the field.

Arrangements of Flowers Suggest Pioneer Themes

The pioneer days when wilderness trails, Indian war parties and log cabins were features of Ohio frontiers will be depicted in a novel grouping of flower arrangements to be displayed during the 1953 Sesqui-centennial Ohio State Fair Aug. 28-Sept. 4.

Carrying the theme - Ohio Frontiers - one grouping is to be seen in the Horticulture Building at 1 p. m. Saturday, Aug. 28. Plymouth Sailor Learns Rules and Regulations About Africa

No matter where on the Seven Seas Larry Schreck may sail, we'll give him due credit if he learns and remembers half of the rules and regulations that are given navy men when they sight a foreign shore. Larry's mother, Mrs. Arlene Schreck, gave us a memorandum paper, a couple of copies of "The Log," which is evidently a unit publication, mimeographed, and the list of instructions and notes on Casablanca, French Morocco.

Montze begins "Have you ever noticed the efficiency with which the Plan of the Day and all the Battalion instructions are put out? If you have, then you have probably wondered who is taking care of this important job. The man is Larry Schreck, "YNSN".

There follows a review of Larry's school and athletic career, and his experience as a pro-baseball player with the Pittsburgh Pirates, and his successful season at Mayfield, Kentucky, how his amateur status was reinstated so that he could accept an athletic scholarship at Bowling Green, where he played on the football team.

The column continues "While with (Six), Larry has been assigned various jobs. At Gimmo (Newfoundland) he handled the requests for schools and shore duty, doing a commendable job, until he was transferred to his present job of instructions and Plan of the Day. Larry has also a fine record in battalion affairs, being a member of the basketball team where he "shined," and a member of the fine "H" company interbattalion softball team. He is also a regular on the present battalion baseball team. His future plans now are indefinite, but he will follow one of the two paths, back to college, or pro-baseball."

ON BOARD SHIP
A comment in the battalion's news sheet was interesting to us, so we pass it along to you. "This voyage is nearly completed. As we approach the coast of Africa we think of the other coasts we have visited and other ships we have been on. In the past as we made our landfall, there was uncertainty and wonder in our minds, because the new always is parent to some doubt. There were friends, and as such did their best to help guide and make us enjoy ourselves. — to the USS Sanborn — The Battalion is deeply appreciative of the kindness shown us by the Sanborn. Thank you for a very pleasant trip and may you always have calm seas."

FOREIGN SHORES
We hadn't thought about it before, but now can see that it would be very necessary for the Navy men to be given a brief course on the historical, political, and social set-up of the foreign shore they were approaching.

The memorandum on Lyauyte and Casablanca was very enlightening to us, and we sure hope it helped the poor sailors out on their first visit ashore!

One of the points stressed was that we, the U. S. visitors, are the Foreigners on this visit, and as so give an impression to the natives as to what the U.S. is like. The sailor is evidently not just turned loose in another port, but given a very definite guide for restaurants, safe eating places, transportation facilities, places of interest, churches, athletic facilities, such as pools, stadium, etc. clubs and hotels, beaches, warnings as to what to eat and drink, etc.

PLEASE COOPERATE!
When in Moslem countries there are several (Hal) rules which should be observed:
Don't spit or smoke.
Never smoke or spit in front of a mosque.
If you come near a mosque, keep moving and don't loiter.
Keep silent when Moslems are praying, and don't stare.
Discuss something else — never religion or women — with a Moslem.

WHERE NEXT?
Larry is still located in Africa, but no matter where he may be assigned next, we have a feeling that he will enjoy his "visit," as well as all of our commendable Navy work. We'll be glad to hear from him again.

ATICA SCHOOLS HAVE LARGE ENROLLMENT
G. R. Dennis, superintendent of Attica School, formerly of Plymouth, has announced that the staff of the local school has been completed for the 1953-54 term. Dennis added that there will be an enrollment of approximately 620 pupils in the 12 grades, largest in the school's history. Opening day of school will be Sept. 8.

Bread to the Moslems is holy. Don't throw it about, or let scraps of it fall on the floor.

Leave some food in the bowls; what you leave goes to the women and children.

Eat only part of the first course — there may be four or five courses.

Don't give Moslems food containing pork, bacon or lard, or anything cooked in pork products.

Don't eat pork or pork products in front of Moslems.

Drink liquor elsewhere, never in drinks. They don't.

Dring liquor elsewhere, never in the presence of Moslems.

Knock before entering a house. If a woman answers wait until she has had a chance to retire before entering.

Follow the rule of your host. If he takes off his shoes, do the same.

If you are required to sit on the floor, cross your legs when doing so.

When visiting, don't overstay your welcome. The third glass of tea or coffee is a sign it's time to go.

Don't bring a dog into the house.

Avoid any expression of racial prejudice.

Talk Arabic (or for that matter, talk the language of any country where you may be) if you can. No matter how badly you do it, they like it.

On meeting a Moslem, be sure to inquire after his health.

Francis Burrer Nancy Miller Iva Gleason Larry Shield Marvin Ray Miles Christian Chris Sheely

Bargain on prices, but always be polite.

The Arab costume (including the fez, the tarboosh and the djelbaba) is a religious one not to be taken amiss. Consequently, there is no objection to the purchase of these items, but Do Not Wear Them.

This new electric power plant in West Virginia is

GOOD NEWS for **Ohio**

Towns grow and prosper as electric power becomes more plentiful. That's been true a long time—but quite frequently the benefits of a new power plant were felt only in the immediate area where the plant was located.

But for customers of The Ohio Power Company it's different... and better. The new Kanawha River Plant of a company in West Virginia helps make living better and jobs more productive right here in Ohio.

The reason? Kanawha River Plant is a unit in the American Gas and Electric Company's integrated system, of which this company also is a part.

In an integrated system like the ACE System all plants are inter-connected. So, when Kanawha

River Plant adds 200,000 more kilowatts to the System's capacity and when the four more generating units, now under construction are completed, a million new kilowatts, all told, will be available for all of the 2,290 communities in the seven-state area the system serves—1,000,000 kilowatts to grow and thrive on.

With the integrated system, pioneered by ACE, it is possible to locate power plants where coal and water are most accessible, where power can be generated most efficiently. The integrated system brings the same abundant, dependable, and low-cost electric service to city and rural areas alike. Kanawha River Plant—remote from Ohio though it may be—makes an important contribution to this community's well being today and tomorrow.

CUB SCOUT SPORT CARNIVAL

Don't forget the Cub Scout Sports Carnival to be held at the Mary Fate Park Thursday, August 27th at 6:30 p. m.

A family picnic was originally scheduled before the events but has been cancelled due to the shortness of the evenings. Instead a special treat will be provided after the contests for all cubs, parents and friends.

So great a variety of events has been arranged by Miles Christian, the August chairman, that all contestants are urged to assemble promptly in order to complete the entire program before dusk.

Each den has held tryouts at their weekly meetings and tentatively selected their representatives. However so great has been the rivalry amongst the boys themselves that each week a new star is found and the entire shifted.

It is rumored that Den 2 although smaller in membership being composed of older boys will hold the edge in the racing contests. However Den 1 with their "bee" should make quite a showing in the tug of war and other feats of strength. The honors being about even in the events requiring various feats of skill.

Miles Christian will be the official starter of the contests and John Dick the judge. Each even will have its winners placed on a point system with Don Markley keeping the records. Ribbons will be given to the 1st, 2nd and 3rd place winners while the den obtaining the most points will be presented with a small trophy.

A short business meeting will be held by Roy Craetr, Cubmaster, in the scout hut at the conclusion of the carnival. Badges will be presented for advancement during the month. Plans will be made for the September meeting as well as arrangements started for the renewing of the charter with the national organization for the coming year.

Don't forget the time and date for everyone of the community interested in an active boys program is invited to attend and watch the future athletes of Plymouth go thru their paces.

News And Views Of A Pretty Penny

May we put on the turban and try our hand at forecasting the future a little? Of course, we have pretty good material to work with, so we have a chance of being rather accurate.

If you readers read the Cleveland Press, you no doubt, like we did, noticed a very pretty young lady glamorizing the picture of a dehumidifier for the Viking Air Conditioning Co. Did she seem familiar to you?

It was Penny Christian, and it was a very nice picture of a very cute little gal. With Penny's attractive features and figure, which are photogenic, we would say, and a name that would please even the Hollywood namechangers, we venture to predict that Penny could go away up in the world of Publicity or Show Business. Give it a try, anyway. Penny, and we'll forecast you could get places, as they say.

Right now, Penny is headed in the right direction, for she is going to enter Kent State for her freshman year, and will major in English and Dramatics. She is the daughter of Mr. and Mrs. Miles Christian, West Broadway, and has been living in Cleveland, where she was employed by the National Screw and Mfg. Co., and for the Detroit Studios. She is home now for a short visit in Plymouth, before leaving for college.

PLYMOUTH GRANGE NEWS AND ANNOUNCEMENTS

On last Friday evening the Plymouth Grange gave the First and Second Degree work to a number of candidates from various Granges, and also to two new couples from the Plymouth vicinity, Mr. and Mrs. Carl Dinsinger and Mr. and Mrs. Salvatore Glorioso.

The Degree work was inspected by Deputy Master Charles Oberlin of Greenwich. Following the evening's program, ice cream and home-made cake were served to all present.

The next meeting will be held Friday, Aug. 21, at the Grange Hall, with a pot-luck supper to follow the adjournment of the meeting.

We Hear From Our Subscribers

It isn't that we don't love to hear from you, but it's the lack of space in these eight pages that keep us from answering your nice letters and renewals each week. Sort of a family affair is the Advertiser for Richard Major,

Chosen For Fair Church Services

Dr. Norman Vincent Peale

As preacher for Protestant services during the Sesquicentennial year of the Ohio State Fair, Dr. Norman Vincent Peale has been chosen to return to his native state.

Born in tiny Bowersville, near Xenia, Greene County, the son of a Methodist minister, Dr. Peale was graduated from Ohio Wesleyan University and worked as a reporter on the Morning Republican, Findlay, before entering the ministry.

After obtaining M. A. and Bachelor of Sacred Theology degrees from Boston University, he served pastorates in Berkeley, R. I. and Syracuse, N. Y. before going to Marble Collegiate Church, New York. There he has built up attendance from 400 to the present two-service total of about 4,000.

Noted for his religio-psychiatric clinic, Dr. Peale writes a weekly newspaper column, *Confident Living*, carried by 90 metropolitan newspapers. His radio program, *The Art of Living*, is heard over the NBC network.

The State Fair service is scheduled for 10 a.m. Sunday, Aug. 30 in the Coliseum. The Ohio Council of Churches is in charge.

Catholic services will be held at 8:30 and 10:30 a.m. that day in Music Hall Building, Monsignor Anthony Schlermitzauer, St. Peters Church, Columbus, will officiate, with St. Peters Girls Choir providing music.

Professor Evans Judges Contest

Prof. Jack O. Evans, director of Ohio State University's marching band, will be chief judge of the fourth annual Baton Twirling Contest at the 1953 Ohio State Fair Aug. 28-Sept. 4.

Boys and girls between the ages of 6 and 21 years will compete in 10 classes of five divisions: two intermediate, four junior and four senior. Junior and senior champions will be crowned, in addition to the Ohio State Fair Grand Champion of Ohio. Teams from junior or senior high schools will compete also.

Be On Time!

Every year people with interesting exhibits fail to show at the Ohio State Fair because they do not heed the entry closing date.

All entries close August 1. There will be no exceptions, according to Manager H. S. Foust.

Entry blanks may be obtained from the Ohio State Fair Manager, Administration Building, Fair Grounds, Columbus 3, O. Horse Show and Senior Fair entries may be mailed to the address given above, while Junior Fair entries may be sent to D. Robert Jones, assistant fair manager, Ohio State Fairgrounds, Columbus 3, Ohio.

Entrance to the Junior Division is free. Each exhibitor in the Senior Division must purchase 73 exhibitors' ticket.

Mrs. Mattie Major, and Mrs. Scott Reynolds, and their renewals are duly entered. Respectively, the weekly home paper goes to their residences in Parma, Plymouth, and Crestline, Ohio.

A brief note informs us that Miss Ada Gedney is in the hospital at the Elyria Methodist Home. We hope that she soon improves and is able to be back in her own room at the Home for the Aged.

H. C. Sourwine at Nova sends us the happy word that "it is a pleasure to renew my subscription for another year. Receiving the Advertiser is just like buying a new automobile. It brings joy and happiness right home." Thank you, H. C.

A change of address comes from Jane Martin Trotter, in Toledo, but it's the same old weekly she'll be reading each week end, and finding out all about Plymouth folks.

Mrs. C. D. Nelson, from Mansfield, writes that "I couldn't keep house without the Advertiser. I look forward eagerly every Friday for the paper so that I can keep up with the happenings around Shiloh and Plymouth." Friends of Mrs. Nelson must remember now to send in the account of their "happenings" so that she can always find plenty of interesting items in the Advertiser.

Mrs. Grace Harnley, down in Columbus, says that she "really

misses it when it does not come." So we'll send her the Advertiser for another year, to keep her company.

When the weekly paper goes down south to Daytona Beach, Fla., Mrs. Leola Cox welcomes it and takes time out to read the news and keep in touch with the many friends back home in Shiloh and Plymouth. By the way, it's Monday morning when she reads it down there.

Mrs. Ruth Rowalt Lanehart sends us her renewal check for the Advertiser for another year, and tries to make us feel warm by sending the temperature reading also. It was 98 the day she wrote to us. Let's hope she has air conditioning or a good electric fan.

Martha Jane Lofland Clark, who lives over in Marion now, receives her Advertiser on Friday. Mrs. Clark kindly sends us some additional names for our Birthday List, and also the compliment that "Everything waits while I read every line of the Advertiser. Boy, do I have old home week!"

From the Bay city, Sandusky, Lenna F. Beaver sends us a nice letter. "You will find enclosed my check for three dollars for which I wish to have the paper continued to the same address. I live in Sandusky six days a week, but on Friday I feel that I am again in Plymouth, thanks for your interesting manner of relating the home town news.

Hey, you know what? We believe Eleanor really likes to come to Plymouth once in awhile. A note from Sabatis, New York reads, "Greetings from the Adirondacks. We're enjoying the fishing and camping though it's cold. We shiver nicely when we swim, but it will soon get warmer — we hope. Thanks for the nice note you had in the Ad. after my singing with the band and at the church. You know how much dear little Plymouth means to me, with all the wonderful, sincere, honest folk. — "In case you are not acquainted with her comings and goings, it's Eleanor Searle Whitney that we are talking about. She also sent along a whiff of pine needles in the envelope, which is probably as much of the Adirondacks as we'll ever whiff!"

Buy Auto Auction Firm Near Mansfield

Car dealers in this area will find it convenient to attend the Mansfield Auto Auction located in the rear of the Blue Goose, Rt. 30 North, every Wednesday commencing at 1:30.

Harold Penwell of New Haven and Harold R. Stacklin of Shelby, who has been associated with Mr. Penwell since last November are the managers. They have been quite busy making all the preliminary arrangements and state it will be worth dealers time to attend these auctions.

HOSPITAL FOR ARTHRITIS VICTIMS AT FITCHVILLE

A hospital for chronic arthritis patients will be located at Fitchville, on route 250, it was announced by E. H. Woods of Norwalk. Woods will be associated with his brother, Hilton Woods, and mother, Norma Woods, in the work, and states that it will be the only one of its type in Ohio.

Not only will arthritis patients be cared for, but a training program for practical nurses will be given. The hospital expects to open in September, with 50 beds available.

OFF TO CALIFORNIA

Mr. and Mrs. Marion Frank and family of Shelby and Mrs. Moody Sponseller of Shelby Route accompanied Robert Sponseller to the Cleveland Airport on Thursday, where Robert boarded an Eastern Airlines plane for Oakland, California. Here he was met by his brother Carl and wife (the former Miss Jeffrey, Plymouth high school faculty member) for a vacation at their recently purchased home in El Cerrita.

Carl has arranged to have his vacation at this time and the boys plan on seeing the sights.

Get Your Gas Furnace Ready for Winter Now!

Call your heating contractor or dealer early... ask him to check these 12 points so your gas furnace will be ready for the winter ahead.

1. Examine flue pipe to see that it is adequately supported and free of holes and rust spots.
2. Examine the chimney to see if it is free of soot and rubble.
3. Inspect the interior of the furnace to (a) make sure the burner head is clean (b) make sure the firepot or combustion chamber is free of cracks or open joints.
4. Check the water level on boilers.
5. Inspect filters in forced air systems. Clogged filters are the greatest single source of high gas bills and insufficient heat. Remove all filters from hot air registers. Steel wool or cheesecloth filters should never be used in registers... they prevent free circulation of air and waste a large amount of heat by blocking its flow, thus causing basement and furnace to overheat.
6. Oil all fan and pump motors, control motors, and other moving parts that require oil. Correct lubrication, according to manufacturer's specifications, is important.
7. Inspect the burner and draft controls to make sure they are adjusted for economical operation.
8. Make sure that the safety pilot is adjusted properly and tested. It is one of the most essential controls in safe operation.
9. Check all furnace controls, including automatic gas valve, etc. to make sure they function properly.
10. Inspect thermostat to make sure it is not influenced by warm air registers, lamps, etc.
11. Check for leaks that can rust the furnace, and clean off accumulated rust and scale where furnace is equipped with a humidifier.
12. For further gas economy, why not consider insulation, weather-stripping, storm sash and doors, and other conservation practices.

Call a reliable heating contractor or dealer today, and ask him to put your furnace on his schedule.

Get your request in now to have the pilot on your gas furnace lighted. The requests for pilot lighting and servicing of gas furnaces are so great, that you must make arrangements now, to be certain you will have the heat you want at the first cold snap.

Periodic check-ups on your gas heating plant insure continuous, efficient, economical operation. Like any piece

of mechanical equipment, gas furnaces can deliver top performance only if they are given proper maintenance and adjustment.

See the Yellow Pages of your phone book for a list of heating contractors and dealers.
