

## Council Approves \$29,864 Budget, Up \$2,800 Over Last Year

A 1955-56 budget of \$29,864, representing an increase of \$2,800 over last year's, was approved by the village council Tuesday night.

Citing "personal reasons", Councilman Royal W. Eckstein, Sr., handed in his resignation, but the council voted unanimously to reject it. It was understood Mr. Eckstein felt that he should show good faith in offering to resign after examiners from the state auditor's office had found him involved in illegal purchases by the former superintendent of light and power, Lincoln Sprowles. The council told Mr. Eckstein it understood his position, did not in the slightest consider him guilty of misfeasance and chose to stand by his reputation for honesty and good citizenship.

The budget, drafted by Clerk Carl V. Ellis, presupposes a renewal of the one-mill levy for general operating purposes, but which is habitually applied to expenses of operating Greenlawn cemetery. This levy, together with the three-mill levy which the Board of Education plans to ask for, will bring to four mills the amount requested by public bodies on the November ballot.

The \$2,800 increase is principally swallowed up by a \$1,000 auditor's fee, which is anticipated to be due after the regular biennial state examination of the village books is completed. Other increases built into the budget are \$100 for the village solicitor, \$600 for the street commissioner (he, in fact, is already drawing this increase in salary), \$410 for parks, \$468 for the cemeteries, \$100 for legal advertising and \$200 additional workmen's compensation.

## Mullins Fined \$50

William Mullins was fined \$50 by Mayor Glenn West over the weekend on a charge of unsafe driving. Mr. Mullins was the driver of a car which struck the rear of one driven by Theodore Ross as he was turning into Fenner road from Base line road early Sunday morning.

Claude Mullins, a passenger in the offending car, was taken to Willard Municipal hospital, where he was treated for lacerations of the face. None of the others as injured, although both cars were severely damaged.

## Examiners Hold \$1,226 Due Board by Sprowles; Officials Cited for Breach of Public Trust

Findings for recovery of \$1,226.42, in addition to the amount of \$716.50 involved in his forfeitures, have been returned by a special examiners' report on Board of Public Affairs accounts against Lincoln Sprowles, deposed light and water superintendent.

In addition, the examiners wrote, "the transactions (with Plymouth Hardware) were in violation of the Revised Code, Section 133.78, and disclosed a deliberate circumvention of said statute. The handling of such transactions in the manner outlined is certainly a betrayal of a public trust and a gross abuse of discretion, and deserves severe criticism."

"However, we are not returning findings for recovery in connection with the above transactions, but will leave to the discretion of the village officials or private citizens any action for recovery and the removal from office of the officials who violated the foregoing section of the Revised Code."

## Band to Conduct Tag Day Saturday To Raise \$300 More

Plymouth High school band members will stage a tag day Saturday to raise funds to purchase six new uniforms, which cost \$60 each, and to pay a benefactor the value of a loan made to the band to acquire a new instrument.

Band members canvassed merchants of the village this week and are reported to have collected \$300 as a contribution to the annual series of concerts on the Square.

Members of the Band Mothers' club met Monday at the high school and decided on Aug. 4 as the date for the annual summer band festival. Robert L. Dubbert, who has resigned as instructor of the band to accept a similar post at Lancaster high school, was entertained by the group Monday.

Saturday's tag day will comprise both a house-to-house and a business section canvass.

Among returning graduates of Medina High school on Memorial day were P. H. and John A. Root, shown in this photo by Jim Baldwin with seven other long-time graduates of the school in a Medina restaurant before the homecoming luncheon. They include, seated, Neal Kellogg, Medina; William Gower, Mt. Vernon; Austin Witter, Medina (he used to call here selling suitings); Franklin Austin, Akron; Dr. Clarence Beane, Akron; Dr. Will Nichols, Medina; other graduate standing is Ernest Newton, Medina.

## Death Takes Three Local Women, All In Octogenarian Age

Mrs. Anna C. Ross, 89, Long a Resident Here

Last rites for Mrs. Anna Ross were conducted Tuesday at the McQuate Funeral home by the Rev. T. M. Sheeley.

Mrs. Ross, 89, died Sunday at Norwood Rest home in Findlay. She had been ill for some time.

Born a Crestline, Aug. 14, 1866, her life was spent near here. She was the widow of A. A. Ross, who died in 1948. For some years Mrs. Ross made her home with her son, Ira. She was a member of the Plymouth Methodist church. She is also survived by a daughter, Mrs. Mary Fralick of Shelby. There are four grandchildren and three great-grandchildren.

Burial was in Greenlawn cemetery.

Mrs. Miller Dies

One of Plymouth's oldest residents, Mrs. Louise Miller, died Thursday in Lodi hospital. Mrs. Miller was 85, and had been in failing health for some time. She had spent the last six months with her daughter, Mrs. Melvin Waltz, in Spencer.

She was the widow of Charles Miller, who owned and operated the Miller Furniture and Funeral home for many years. It was the predecessor of the McQuate Furniture Store and Funeral home.

Mrs. Miller died on the 24th anniversary of her husband's decease. Mrs. Miller was a member of the First Evangelical Lutheran church here, the Alpha Guild, and the Eastern Star. She is survived by her daughter and four grandchildren.

A memorial service was held Friday evening by members of the Eastern Star, and funeral services were conducted Saturday afternoon at the McQuate Funeral home by the Rev. Richard Wolf of Oberlin. Burial was in Oakland cemetery, Sandusky.

Mrs. Addie Dailey

Mother of Mrs. Mary Penrose of New Haven, Mrs. Addie E. Dailey, 85, died at Willard Municipal hospital Sunday after a long illness. A lifelong resident of this vicinity, she was born in Centerton and lived most of her life in Willard, where she was a member of the Miller Brothers Hardware store.

Besides Mrs. Penrose, she leaves a son, Harry, of Willard, two brothers, Alvo Trimmer of Willard and Harry Trimmer of Bellevue, and a sister, Mrs. Alma Cox of Centerton.

Services were conducted at the Fink Funeral home in Willard by the Rev. John Heister. Burial was in Greenlawn cemetery, Willard.

## New Havenites Favor Consolidation: Where?

Sixty electors of New Haven Local School district met Monday night in the school auditorium to discuss school problems, and after three hours of debate, concluded that they can't conclude anything.

Although more than 80 per cent of the group indicated a preference for consolidation of the high school, the assembly was firmly in favor of retaining the elementary center in the village - there was no show of strength for any particular consolidation.

Frank Hopkins, the Ripley township representative of the Huron County Board of Education, told the group that any representation on the board of the newly constituted but not yet legal District X would hinge on the terms under which adherence to the district is concluded. If New Haven joins now, its representation is likely; if New Haven joins after the county board has rescinded its resolution and declares New Haven a part of a new five-district consolidation, New Haven has as good a chance as the others to obtain representation.

How much school consolidation would cost was suggested by Ralph Brown, county school superintendent. Adherence to District X would mean a tax rate of 17.6 mills to provide for a new high school and a new elementary school in Ripley township. This is based on a tax valuation of \$13.42 million and a tax revenue for school purposes of \$195,745.

Consolidation with Willard, adding Richmond and Greenfield townships, would mean a tax rate of 17 mills, based on a tax valuation of \$15.83 million and tax revenues of \$268,749. Willard school board has already made overtures to New Haven. President

of the school board, Mr. J. M. J. Coon has informed Richland County School Supt. Dale Hobson, mathematics instructor for the past year in Plymouth High school, submitted his resignation Monday.

He will report in September to teach at Bexley, a prosperous suburb of Columbus.

Supt. M. J. Coon has informed Richland County School Supt. Dale Hobson, mathematics instructor for the past year in Plymouth mathematics instructor, and an English teacher.

Mrs. John Lanjus has informed the system here that it should engage a replacement for her post, which she vacated on leave of absence last year, and if she returns to Plymouth, she will apply for whatever post may be open in the system.

Cashman Elected By Bankers' Group

Earl C. Cashman, cashier of Peoples National bank, was elected president of the Huron County Bankers association June 15 at the annual organization meeting in Norwalk. County club members were present.

He succeeded Frank Chapman, Greenwich banker.

In addition to Mr. and Mrs. Cashman, other guests included Mr. and Mrs. J. E. Nimmons, Mr. and Mrs. Carl M. Lofland, and Mr. and Mrs. James Davis, all of the local bank.

## Midget Softballers Start Today

Midget league softball for boys eight to 14 years old will open in heavy rain tonight.

Four teams will open the first half of the 1955 schedule. Five games are carded for the first half, another five for the last half. Winners of each half will meet in a "World Series" prior to the opening of school in September.

Coaches of the four teams are James Davis, Cubs; Guy Cunningham, Cardinals; Donald Akers, Reds, and James Ryan, Pirates.

Tonight's games will find the Cubs versus the Cardinals. The

openers and the Reds versus the Pirates in the second contest. Each game will be of five innings' duration.

Plans are to play under the lights at 8 p.m., but the league commissioner was unable to say yesterday whether the lights will be ready for tonight's game. In the event they are not, play will commence at 6:30 p.m., before the bleachers on the football field.

Rules of official softball will prevail, except for such changes as have been approved by the league. Among these is the provision that a

coach may request the umpire to halt play at any time to enable him to instruct a player. The umpire is required to approve the request.

Players must have been born after Sept. 1, 1940, and before Sept. 1, 1947, the league announces. Permission of parent or guardian in writing is required before a player may participate.

A few vacancies exist on some teams, the league says, and players may sign up before today at 3 p.m. They will be assigned to teams.

Royal W. Eckstein, Sr., proprietor of Plymouth Hardware while acknowledging that he did in fact deliver the items cited to Sprowles, told the examiners he did not profit by them. Rather, he said, he lost \$50, by selling at a discount. Nevertheless, since he felt bound by the examiners' report, he submitted his resignation, which the council turned down.

The examiners' report reveals that the initial tip that all was not right in the light and water department came from a former employee, whose name is not specified.

The finding of \$1,226.42 against Sprowles is in favor of the Board. Unpaid balance of claims against Sprowles is thus \$44 unpaid in the matter of checks forged plus the \$1,226.42, or \$1,270.42.

The finding covers such items as material and truck used in a private contract, \$133.20; 357 feet of galvanized pipe sold to a local businessman, \$103.69; a Columbian vise, \$10.76; a Homecraft drill press, \$55.94; 1/2 horsepower Century motor, \$43.69; one horsepower used motor, \$35; a thermos jug, \$9.45; various lengths and sizes of electric wire and cable.

## Fox Gets Foxy: He Wants More Men

Candidates for the Plymouth Merchants softball nine are still welcome to try out, Manager Richard Fox reports.

The Merchants have played two games in the Willard league so far, winning only one. They whipped Steinmetz Elevator nine, 8 to 0. Their loss was to Emminger's of Havana, 9 to 4.

Manager Fox, who plays shortstop for the Merchants, lists his players as Larry Root, first base; Louis Root, second base; John Fox, third base; Dean Grabach, left field; Ron Cline, center, and Ron Taubee, right field.

Larry Hampton is the catcher and Thurman Ford, Hank Vander Bilt and Fred Rader of Shiloh are doing the pitching.

\$1666.25, \$280, \$92.28, \$112.15, and \$72.

Sprowles admitted to the examiners he had converted these items purchased on the Board's credit and paid for by it to his own use.

Only a small part of them were purchased from Plymouth Hardware.

No bond was ever obtained for Sprowles' employment and no surety company can be joined together with him to make good the defalcations, the examiners said.

## Council to Hold Hearing On Budget July 9

A public hearing on the budget will be held in the office of the clerk July 9 at 11 a.m., after 10 days' legal notice is given.

## Pupils Report Friday For Second Polio Shot

Second in the series of inoculations against poliomyelitis, using the controversial Salk vaccine, will be given in the elementary school tomorrow by Drs. Charles L. Hannum and Darrell B. Faust.

Despite assurances from President Eisenhower on down that the vaccine is now rendered harmless, while maintaining its preventive powers, there are signs that a substantial number of parents whose children received the first shot will not allow the second one to be given.

Just how many these may total could not be accurately ascertained by The Advertiser yesterday. A reporter produced 11 "changes of mind" among 35 telephone calls, representing a total of 23 children who will not submit to the second inoculation unless there is another change of heart between now and tomorrow.

The school will open at 8:30 a.m. to receive youngsters who are eligible to receive the inoculations. Supt. M. J. Coon says. Inoculations will commence at 9 a.m.

E. Archer residence also in West Broadway.

# Now Is the Time for All Good Men---

The public meeting in New Haven auditorium Monday night was a good example of good citizenship, despite the fact that only a portion of the electors of the school district were present. The results — if we dare call them that — showed that electors of the district are divided in their opinions of which consolidation would be desirable: Celeryville electors naturally prefer Willard, those who live in New Haven and vicinity tend to favor Plymouth, and others elsewhere like District "X".

But it was good to see that consolidation as a way out of the dilemma of the high school is favored by a majority, and that further, the cost of consolidating is about the same in each instance. That is, if consolidation is had with District X, Plymouth or Willard, the tax rate for school operating and bonded indebtedness settlement purposes will be more or less the same.

We think this is a fine opportunity for the appropriate officers of the people to get their heads together and work for a solution that, in our opinion, will result in mutual benefit to Plymouth and New Haven school districts.

We have heard no convincing argument that a New Haven consolidation with either District "X" or with Willard will materially benefit either school. Certainly it will benefit New Haven. But we regard a consolidation as something like a marriage: both parties to the contract should benefit from it.

Plymouth needs New Haven. Only a blind fool would say that we could not improve what we have in New Haven were joined to us. And New Haven needs somebody, and we think it might as well be Plymouth. The New Haven electors seemed concerned that if they were to consolidate with either Willard or District "X" — or Plymouth, for that matter — they would not retain representation upon the board. We invite the notice of our New Haven friends to the fact that when rural areas were added to our school district, we committed ourselves to rural representation, and we have faithfully kept that promise.

Anybody who will take the time to listen to Mr. Cashman or Mr. Coon will soon be aware that we need more money to do even a satisfactory job. The chances of getting it are slim unless we consolidate.

We feel sure the electors of the Plymouth school district will be fair and honest with our New Haven friends, and we think it would be a good idea if negotiations leading toward consolidation are undertaken at once.

# Around The Square with Phineas Whittleseed

Robt' Haas and family have some puppies. They've been reported as naming one Black, because he's the blackest; another, Whitley, 'cause he's the whitest, and another, Liberty.

And the call from Mr. H was the first one we've had in a long time requesting obituary advice. Once we used to be regarded as an expert, having attended when one came into this world, but it just shows how your reputation goes to pot when you don't advertise it. Trouble with that kind of advertising is it makes more mouths to feed, and we're in enough trouble as it is.

Of all the things in my rich life, The two that cause most woe Are the smoking of my wife And a sandwich: Sloppy Joe.

T. Marvin claims that a blind date is when a young blade anticipates meeting a vision and she turns out to be a sight. Whad'dya think of that, Number 10?

Bob Hope, whose brother runs a place near Johnsville and whose presence in this state is often chronicled in the prints, is a heavy investor in the baseball club in Cleveland. His frau was asked how come, and she replied, "There are three reasons why Bob has bought into the Indians: first, it's good for America; No. 1 comes to do and are trying to do) and make more work for them, so they could pound on the desks of the higher-ups and get more help, all we can do is pay tribute once again for their yeoman service."

The boys at the post office, in whose debt we continually are, got their raise, and to hear 'em tell it, they've already got it spent. We made no bones about the fact we were opposed to the raise (and we think the second class mailing rates should be adjusted upward, so there!) and we told the boys so. But we've always felt they personally were entitled to more, and short of enlarging our subscription list (which we would dearly love to do and are trying to do) and make more work for them, so they could pound on the desks of the higher-ups and get more help, all we can do is pay tribute once again for their yeoman service.

Mrs. Steele, up in Elyria, has been a subscriber for yea, who knows how long, and she protested - we think rightly - that her paper was coming in six days late. Frankly, one could walk to Elyria faster than the post office was delivering it.

Investigation and cooperation of Sourwine, Emsel & Co. produced results, and now Mrs. S. gets her paper on time. But pull-lease, boys, leave us in on the secret of what it takes three days to get the paper to Lodi, for example, or to Evanston, Ill.

You'd be surprised at how folks recognized the identities of the folks at the fountain. Lucky identifiers are due to a drink of some common stuff that, unfortunately, doesn't flow from the fountains on the square (you wouldn't want it, it's dreadfully fattening), if they'll call in our office.

G. C. says as how there's no need to read The Advertiser because all the news around the square is old hat by the time the paper comes out. Mebbe so. Come to think of it, it's been a long time since we have had a story that was a "scop" to all that read it. And we submit it's that way in a small town: great minds talk about ideas, average minds talk about events, small minds talk about people and what they are doing or not doing.

Anyway, that's what I says on a calendar sent a few months ago by a friendly bank. Small town bank, too.

Two distinguished gentlemen from a large city in the state spent a goodly period of time with us the other day discussing the problems of the weekly newspaper. "The trouble with our country is," one of them said, "that we've a drink of some good stuff, but a system of government that is the most difficult in the world to operate, because it presupposes the people's interest. And in that sense it runs counter to human experience, because people basically aren't interested. It's the editor's job to make 'em interested, and he's got to tailor his display of the news and the space he gives to one story or another (only the display and the length, not the facts, mind you) so that he will be serving that all the time. And if an editor is popular, he isn't doing a good job."

Now there's a man who knows what he's talking about.

We're sorry the Bible school is closed. Our kids were singing something new and catchy for a while, instead of that inevitable, infernal, insinuating "Davey Crockett."

The inauguration of a new service at the post office almost slipped our notice, and it should not have, particularly because our better half was the first purchaser of same in the local station.

It's called certified mail; when you do it pay 15 cents for a receipt from the post office and a receipt from the addressee costs another seven cents. It beats registry, because it provides cheaper service for letters containing documents but no money value.

For the first time in our lives, we caught ourselves studying the license tag of another machine on the highway last week. It was XL100, and as we are that rare kind of bird that wouldn't know a Chevrolet from a Ford unless we looked on the hub cap, we couldn't for the life of us figure out who 'twas ahead of us. The folks even turned in their seats and waved to us. First we thought it was Parson Stessley, but when we got close enough (too close for the state highway laws) we found it was one of 'em, Thor Woodworth, Cleveland bound for a day in the hot, hot sun.

The red demon is distinguishable everywhere, and folks root us a mile off. Sorry we can't do the same; we're just stupid.
