Armory to go up in spring

A new armory for use by Army Reserve units will be constructed in the Armbruster property in Sandusky street at a cost of about \$80,000, Rep. J. Harry McGregor, 17th Ohio District Congressman, reported late last week.

THE ARMORY HAS BEEN under discussion and negotiation for several months. Chamber of Commerce officials have met several times with Army authorities to pave the way for the construction.

The site, a 300x650-foot plot in the west side of Rt. 61 at the north edge of the village, will be acquired by negotiated purchase through nearly a dozen heirs, most of them located in Kansas, or by condemnation.

REP. A. D. BAUMHART, Jr., 13th District Congressman, is the representative of record. There is no explanation of why he did not make the announcement.

The armory, which would not contribute to an increase in tax assessment for the village, since federal property is exempt from state taxation, would be used for engineer units as part of the Army Reserve program for this district.

By Phineas Whittleseed

It was a real thrill to sit Nov. 9, with 76-odd thousand other football enthusiasts, the largest assemblage ever gathered in Spartan stadium at East Lansing, to watch Michigan State university wallop the pants off Notre Dame.

It was a thrill because we had come many miles, at some expense of time and money and inconvenience to ourselves and others, to see this defeat is good for Notre Dame for 10 these many years, and particularly since Nile Kinick, Al Coupee, Ray Murphy, Mike Elich, Jim Walker, Erwin Prasse, Dick Evans et al toppled the Irish from the undefeated ranks on Armistice day, 1939.

AND IT WAS A THRILL, TOO, TO SEE for ourselves what has happened on the East Lansing campus in the 16-odd years since we were there last. The people of Michigan have gone to great lengths to provide the accoutrements of a fine education at public expense to the young men and women of that state. There may have been a time when the so-called "cow college" had to take a back seat to that citadel of snobism at Ann Arbor. But no more.

FINALLY, IT WAS A THRILL TO KNOW that a Plymouth boy (who proved that in the 23 years since he was awarded his varsity A by his alma mater, Ashland college, he has expanded in the chest, not below it, by putting on his old sweater) is a part of the progress being made at MSU.

Raymond N. Hatch, whose distinguished features graced these pages last week, kindly invited us out to his diggings in a pleasant suburb of East Lansing, where we were greeted by his charming wife, the former Grace Norris, whose mother lives across the street from The Advertiser, and his young son, Dave.

The Hatches have, save for two backboards and the required baskets, the only fireplace-heated, tile-floored basement basketball floor in Michigan, it's that big.

From page one —

asked the council why his wife had been "refused twice in four years a raise she deserves." He was told the matter is due for the Board of Public Affairs and advised to take it up there.

She draws \$190 a month now, \$40 from the council for administering the sewer service fund, \$150 from the electric and water departments.

Ellis said he takes credit for "breaking in Moser and figure 1 am entitled to a raise."

NEW HAVEN NOTES —

Mr. and Mrs. Ralph Moore were Sunday guests of Mr. and Mrs. R. A. Lumbert at Belleville.

Mr. and Mrs. Bert Snow spent Sunday evening at Willard with Mr. and Mrs. Dick Mitchell.

VISIT AS WE DID WITH KINDRED spirits, and you pick up incidental intelligence of a strange character.

Consider the fact that the Hatches guests were the Walter Johnsons. Time was, when Dr. Johnson's skull was less made and his walking less obese, that he was a classmate and acquaintance of The Battle Ace. They hashed over old times and faces for longer than was polite.

And consider that the haircut which is in popular vogue in central Michigan among boys of Dave Hatch's age is called the "boggie" (sic), which is pronounced "boo-gee". It costs, says his father, a dollar and seventy-five cents, as compared with the regular dollar and a half. It looks, says Mrs. Johnson, who has one of her own (on her son, of course) to look at, "positively awful."

It's fashioned straight across on top, in a parallel plane with the floor. And it carries out beyond the natural contour of the skull until it cuts sharply back toward the ears, and gives a semblance of the top fourth of the Iron Cross.

Young Dave seems interested in automotive mechanics to an extent unmatched by boys his age locally. We found that true with another lad named Dave, our host's son, in Detroit.

He told us of ambitious plans to remodel the pickup sedan which from his description we concluded must have been a pre-Korean bus of some vintage and not much power. Imagine our consternation when the youth threw open the door to the garage and there sat a sedan that has but a few weeks of wear on it, with more horses under its hood than you can find in all Richland county these days.

THE PREOCCUPATION WITH AUTOMOBILES, that we found in Michigan is, we suppose, natural, since the state's vast industrial empire is based almost entirely upon the manufacture of cars, trucks and buses. Matter of fact, five of every 11 hourly wage earners in America depend upon the automotive industry.

The talk in Detroit is that this year new models should sell better than last year. New car buyers of 1956 have siphoned off their debts enough so they can swing a new one.

Style wise, most of the industry leaders are bringing out new and more attractive models. Buick is pushing hard to regain No. 3 position which it lost to Plymouth last year, and the Chrysler people don't intend to give up easily.

The man on the street is pretty well convinced that Edsel is a flop. Matter of fact, the talk is they plan to change it's name.

For the reasons therefore, we suggest you consult with Harry Aumend.

Last minute dilemmas from Shiloh —

Gloyd (Dyker) Russell of Prospect street is the new "Tooner-ville trolley that meets all the trains" (mail trains, that is) in Shiloh.

He succeeds Roland McBride as mail carrier between the N. Y. C. railroad and the post office. He assumed his new duties Saturday.

Myron (Bill) Guthrie returned early Nov. 12 to his employment at Middletown, Pa., after spending a Veteran's day weekend with his family here.

Mrs. Kenneth Shafer left Sunday afternoon for Los Angeles, Cal., to rejoin her husband, who is stationed with the Navy there.

Miss Ina Brumbach was admitted to Shelby Memorial hospital Sunday.

Cass township justice of the peace Wood Arnold performed another wedding ceremony Nov. 5 at his home in Route 178.

At noon that day Mercer Turner of Willard and Miss Elizabeth Ann Sexton of Shelby were united in marriage in a ceremony witnessed by Mr. and Mrs. Andrew Ballitch, neighbors of Arnold.

Mrs. Eugene Beecing visited with Mrs. Richard Kerr and Mrs. Paul Reed in Shelby Sunday.

Mr. and Mrs. Maurice Bachrach attended last week the funeral of Mrs. Bachrach's sister-in-law, Mrs. Cora Mayer. Mrs. Mayer, 80, succumbed after a short stay in a hospital where she was being treated for a fractured hip.

Mr. and Mrs. John Armstrong and daughter spent Saturday in Cleveland.

Being human, it is a little difficult to disassociate Thanksgiving from Turkey, dressing, and mince pie. It really is the time to give thought to what we are really grateful and thankful for.

First of all, we are grateful that we can have turkey, dressing, and mince pie for dinner. Even though we must cook it ourselves. We are very grateful that Ohio State is going to the Rose Bowl. Mostly because the heat Iowa. Because we are of Minnesota, and Minnesota has never liked Iowa.

We are very grateful that we have a warm house in which to live. What goes on inside is another matter. We are not grateful nor happy about wet bath towels left on the beds nor shoes and socks dropped wherever they drop. It gives our happy home too much of that "house that is really lived in" look.

WE ARE VERY GRATEFUL for the people who inhabit our house, too. They are growing up, learning right from wrong, we hope. Not long ago the younger showed that those Sunday mornings have not been wasted. During a big neighborhood battle, our voice screaming over the treetsops "Do unto others as you would have others do unto you". That really stopped the battle cold.

We are pleased as punch that our cats like us now. So much so, they follow us from room to room. A dear friend who is an authority on cats has assured us that cats do not like just any old person. Those class marks which we wear occasionally show the deepest possible affection, no doubt.

THE MOST IMPORTANT thing we are grateful for is having nice friends. Years ago a young man we knew that was

blessed with six female cousins whom he disliked intensely said "God gave you your relatives, but thank God, you can choose your friends." He was right. We have always had wonderful friends. As you move around the world, you make and lose them, but there are always a few you will always know.

We like them all, although sometimes we show a great preference for those who go hunting and come home with extra ducks and give them to us.

WE ARE VERY LUCKY people. It is only fair to say, too, that there is much we don't like. We don't like people being petty and nasty. We don't like people making dumb decisions about important things, but we make them, too. We don't like to hear people say they haven't time to do things. There is all of the time in the world. If you become very pressed for time, that's when you have bacon, lettuce, and tomato sandwiches for dinner. A good tasty sandwich is good for you once in a while, and a nice change from a whole dinner. With carrot and celery sticks and a rich pie, you have it made.

FOR THE PIE, BAKE A PIE shell ahead of time. At the last minute if you haven't had time before, start with a can of sweetened condensed milk, add 1/2 cup lemon juice, two egg yolks, a little lemon rind, and mix well. Pour into the shell, and top with the two egg whites beaten with sugar. Brown it in a minute in the oven. A small piece of this goes a long way. (It goes to waste. Ask us, we know. — Ed.)

Eagles open play in H-E loop here

Monroeville's defending champion Eagles, with two lettermen returning, open the 1957-58 cage season here tomorrow as Huron Valley's Warriors make their first venture into the Huron-Erie League.

Coach Al Bohus of the up-country entry has Dick Rosswarm and Dick Schwan, both seniors, as his two monogram winners in this year's edition of the Monroeville club.

OTHERS ON THE SQUAD are John Gravenhorst, Dave Colahan, John Wachtel and Bob Schwan, juniors; Phil Colahan, Gary Bliss and Jim Lamb, sophoms, and Dave Farris, Bob Holm and Oliver Floehr, frosh.

The Eagles have played one game this season, having defeated York three Friday night.

COACH LEW PETIT HASN'T much to build with this season. The Warriors haven't much height and lack great speed to compensate for the shortage of height.

Ed Taylor will doubtless be sure of a starter's job in the pivot. He will have to do most of the rebounding.

Ted Fox will be looked upon for the principal scoring effort and if he can keep from fouling out early, was his worst last year, he should go far in this league.

RAY EENSEL, WHEN HIS appendectomy wound heals, will be available for back court duty. A letter winner with a good set shot, he is an experienced floorman.

Mickey Hampton has experience as a center and guard and as a southpaw has a deceptive approach to layups. He is big enough to battle under the bucket for rebounds.

For the rest of his starters,

FARM NOTES

Pilgrim's progress

Since the first Thanksgiving ... the essence of our progress has been an improving ability to communicate. To share ideas and events instantly.

Today, independent telephone companies provide this indispensable service throughout two-thirds of the entire area of the nation ... look ahead to an expanding future built on enterprise.

One of America's 4,400 Independent Telephone Companies

NORTHERN OHIO TELEPHONE COMPANY

60 years of Independent Telephony 1897-1957

God must speak to men. Despite the barriers of language and dialect which separate nation from nation, tribe from tribe—God must speak to men!

This conviction has long inspired the American Bible Society in its stupendous task ... to translate God's word into every tongue ... to place the Bible in every hand.

Now in 1,100 tongues God has spoken to men through inspired Scripture. In marble cathedrals and mud huts the same timeless truths are read, heard, taught and discussed in the words men know. And millions of Bibles, Testaments, and portions of Scripture are being placed in eager hands.

This is our triumph ... and our continuing challenge ... the countless Christians who, individually and through our churches, make possible the work of the American Bible Society. Thank God! Carry on!

THE CHURCH FOR ALL ... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

US OK's grant for sewer project

Federal approval of a \$29,640 grant to assist in financing a trickling filter sewer plant at Shiloh was announced Saturday by Rep. J. Harry McGregor, 17th District Congressman.

Department of Health, Education and Welfare told the Congressman its consulting engineer, John J. Cuning, has approved the final plans for the plant, which will cost \$127,500. Federal contributions to the cost amount to just under 25 per cent, McGregor said.

Legionnaires see game

Twenty-five members of Garrett-Riest post 503, American Legion, were among spectators at the Cleveland Browns - Pittsburgh Steelers game in Cleveland Nov. 10.

The Legionnaires commuted to the game in a special chartered bus. The trip is an annual event for the Legion.

Careless hunter shot in lower leg

First injury of the week-old hunting season occurred about 10 a.m. Saturday because a hunter failed to obtain permission to shoot on the land of Henry Falk. Clarence Bailey, Euclid street, Shiloh, was treated by Dr. C. O. Butler for penetration wounds of the lower right leg when he was accidentally shot by Ray Ross, Mansfield.

Falk said he and Ross and the latter's father-in-law, Wayne Reed, Mansfield, were hunting in the Falk woodlot. Bailey was hunting with George Shepherd, to whom Falk talked when he discovered Shepherd in the hunting area without permission.

Suffers move

Mr. and Mrs. Robert Sutter moved Nov. 8 into their newly purchased property at the corner of West Main and Prospect streets. The property formerly belonged to the late Harry Koethsberger.

Mrs. Miller feted

White Hall farm womens' club held a farewell party for Mr. Fred Miller of the Noble road Nov. 6, at the home of Mrs. Hugh Boyce.

Mrs. Miller is leaving shortly for England, to visit her-parents there.

FALK SAID HE TOLD Shepherd he preferred to have hunters inquire at his house, so that he could have advance knowledge of where and with whom hunters were courting his lot.

Shepherd acknowledged the admonition but did not say that Bailey was with him.

Ross fired at a rabbit. The pellets struck Bailey's leg, covered by a rubber boot of hip length.

Miss Ballitch wins essay contest

An essay submitted by Nancy Ballitch, Shiloh High school, won first prize in the "Importance of One Vote" contest staged by the Huron County Young Republican club.

Second prize went to Marianne Stang, Monroeville High school. Prizes of \$10 and \$5 were awarded the two winners.

Miss Ballitch's essay: "Governments do not preserve themselves. They can be preserved only by the constant effort of those to whose guardianship they have been committed. Upon us, as citizens of America, rests a responsibility which cannot be shirked without danger to our country."

"We choose the people who represent us in the regular elections. To be a qualified voter is most important and brings the responsibility to us of choosing the best men and women to represent us. It is our duty to vote, and to learn all we can about the people for whom we are to vote."

"The form of government of this nation gives to the citizens of the United States greater freedom and prosperity than are given to any other people on the earth. Sovereignty belongs to the people themselves, and no matter what political party may be in control in Washington or other

posts in the forty-eight states, we, the people, have the power to put all of these persons out of office. Our individual votes cast at election time can, added together, bring an entirely new group into office. If the majority of the citizens is not satisfied with their public officials, but do nothing about it when they have a chance, the blame of bad conditions belongs to them and to no one else."

"The influence of one person's voting may inspire other citizens to be more conscientious about their duty, which is really a privilege as a citizen of a nation where the flag of freedom floats over all. When a body of people is disciplined and united by oppression, the test of time will reveal that such a society cannot compare to self-governing men in power or creativeness."

"We should remember that we must also take an active interest in lesser elections than the presidency of the United States. Such local matters as school consolidation and conditions, drainage and sewage problems, and highway construction and building plans require our attention also. Good citizenship begins in the home and community, and a strong democracy must have a solid foundation."

"From the very beginning of this nation, there have been groups that have tried to change the form of government. In order to prevent such a disaster, it is necessary to understand what the government of the United States has to offer its people, and compare this with some other forms of government, such as Communism, Socialism, and Nazism. Each of these is the result of defeat, and all would put an end to the liberties of the people."

"This is our government, created by us and for our own welfare. All power of government comes from us. This makes it very important that we know the kind of government we possess, what its purposes are, what our individual responsibilities to that are; and how we are going to keep it. Our government is a government of, by, and for every individual, but conducted through those we elect to represent us."

"Every voter should remember that his vote could very well decide the future of him, his family, and millions of others. He is entrusted with the task of keeping this nation free from all 'isms' that may threaten the form of government that has brought more freedom to its people than could have been found under any other system in the world."
