## Council peeved, seeks upset of petition

Petitioners for a referendum to decide whether the village should buy the Hubach property at 23 Sandusky street poked their pens in to a hornet's nest.

Because the village council is hopping mad.

## Farm census starts Saturday morning

Census of agriculture begins Saturday, Gerald Stanley, Plymouth school board member who is Richland county crew-leader, announced today.

A training course for census takers began Tuesday.

Census takers in the northern tier of townships are Mrs. Robert Wagner, Cass township; Mrs. Chester Jones, Plymouth township; Mrs. Woodrow Huston, Bloominggrove township, and Mrs. LaVaughn Oswald, Butler township.

Mrs. Arthur Henry, wife of the 13th Congressional district's Republican central committee man, will direct the Huron county agricultural census. She has 11 persons in her crew: Mrs. Ouida Young, Mrs. Mary Hofstatter, William Daniel, Mrs. Anita Brinson, Clarence Hindley, Mrs. Florence Stackhouse, Mrs. Olive Lucal, Mrs. Gladys Cooley, Mrs. Ruby Gravenhorst, Walter Barre and Donald Farr.

Some of its members regard the petition as a personal affront, which some steersmen for the petition labelled "an example of stupidity, because there is nothing in the petition nor in the petitioners' intent that reflects or is intended to reflect upon the character of any member of the council."

Nevertheless, the four hold-over councilmen have been at pains to upset the petition if they can. Some of them claim the contents of the petition were misrepresented by the steersmen.

Arbitrary and unlawful removal of at least one signature on the petitions touched off a disputatious conversation between Council President John T. Dick and Solicitor Joseph F. Dush.

Dick said Dush was stalling when he told the council that no petitioner could remove his name by lining it out. Dush denied this. He said his sole interest is to advise the council as to what's lawful and what's unlawful — "I leave policy to you people, that's not my job" — but that removal of names from the petition must be undertaken in a lawful manner.

The name in question was that of Police Chief Robert L. Meiser, giving rise to the suspicion among some steersmen for the petitions that the council was beginning to ap-

ply pressure. There was, however, no sign of this elsewhere and the conclusion is that Meiser's wish to remove his name is coincidental with the fact he is police chief.

At any rate, a petition is in circulation. But signatures to it are few.

## Pinched! Pay fine in county court!

If you're arrested for speeding outside a village corporation, you'll have to plead your case in a county court.

A new law which went into effect last week deprives municipalities of the jurisdiction — and revenues — of cases initiated by the state highway patrol within its jurisdiction outside of municipal corporations.

Locally, the courts are those of Judge Robert A. Wiedemann at Willard and of Municipal Judge William Morris at Shelby.

Clarence G. Barnes, 46, Plymouth, apprehended for speeding, and Marion L. Devlin, 28, New Haven, were Judge Wiedemann's first customers under the new law. Devlin was charged with operation of a motor vehicle without a license.

# Caravan to follow underdogs to Butler

Plymouth's Big Red puts its longest winning streak in three seasons on the line at Butler tomorrow, underdogs by two touchdowns in the season's finale.

Despite a sound trouncing at Bellville Saturday, the Bulldogs rate a clear 14-point favorite to win this one and close out their 1959 schedule with six wins and three losses.

Plymouth fans will follow their team in caravan. Coach L. J. Petit asks drivers and fans to meet in the Public

Square at 5:45 p.m. tomorrow to follow the buses. The Big Red marching band will accompany the eleven.

Butler's record this season, against opposition a cut above that which faced the Big Red, shows the Bulldogs are soundly coached; can move, may be weak on pass defense, and have an outstanding schoolboy back in Don Bowman.

As a counter to Bowman and the Bulldog offense, Pettit will offer Duane (Butch) Baker, a doughty senior speedster

whose play in the past three games has been the spark of the Big Red victories.

"We'll be at full strength except for Junior Sammons, who's gone to Florida, and Phil Ramey, who was hurt in the Lodi game and then hurt again against Milan," Pettit said Monday.

For the Pettitmen, it'll be the final schoolboy contest for Billy Strine, Tommy Myers, Duane Baker, Jack Webber, Doug McQuate, Dick Bookwalter and Jay Baker.

Each is slated to see heavy

action. Webber's play on defense has improved substantially in the past month and he is regarded as the anchor of the Plymouth secondary.

To benefit the athletic fund, Gerald Lillo is organizing a "policemen-firemen" game for 8 p.m. Nov. 21 in Mary Fete park.

Volunteers, he says, must be at least 21 years of age. Uniforms will be issued in the high school athletic rooms at 2 p.m. Nov. 21.

Admission is \$1 for adults, 50 cents for children under 15.

## Schneider brother dies after injury

Brother of Jacob F. Schneider, Edward F. Schneider died Nov. 3 in New Philadelphia after a freak accident in his home the previous night.

Mr. Schneider had been changing the wall covering in his bathroom. Needing a crowbar, he hurried to a small tool shed near his house. He pushed the door briskly, forgetting that he had installed a new lock in the door. The door resisted his push, he bumped his head against the glass panel, shattered it, and received severe cuts on his head and neck.

Physicians said he died of shock and complications which set in after the injury.

Funeral services were conducted in New Philadelphia Thursday.

## 14 CANDIDATES NEEDED

# Chamber to nominate

A three-member nominating committee was announced by President Franklin W. McCormick at Tuesday's Chamber of Commerce meeting in the Reserve Training Center.

E. Beryl Miller, E. Earl McQuate, and Don Vanderpool will be responsible for selecting a slate of 14 candidates to fill seven chamber offices for elections in January.

Luther R. Fetters was named a one-man committee to prepare Christmas tree in the Square. Other members suggested all available lights be put on the tree rather than be strung up around the Square. John Kleer and Mrs. A. L. Paddock, Jr., will ask merchants to decorate the Square.

Mr. Miller will canvass business houses on Christmas shopping hours.

Mrs. Harold Ross has been chosen chairman of the welcome wagon.

Preceding the meeting Councilman John T. Dick spoke briefly on "drawbacks of the Hubach property for a fire house and village building site." He said the petition which has been circulated preventing the council from going ahead with the purchase and development of the theater property leaves the village without adequate housing for fire vehicles for the next year.

Next Chamber meeting will be a 12:30 p.m. Christmas luncheon Dec. 7.

OHIO in the CIVIL WAR

The Ohio State Capitol Building

Out of all proportion to its size, its population and its wealth, the State of Ohio supplied a vast amount of manpower and top leadership for the Union Armies in the Civil War, 1861-1865. Two hundred and thirty-two regiments and 29 companies of infantry and cavalry as well as 27 batteries of the great War Between the States. Twenty-four Ohio men attained the rank of major general in that war and five Ohio officers in the Union Armies came back home to eventually fill the office of President of

the United States. They were Lt. Gen. Ulysses S. Grant, Maj. Gen. Rutherford B. Hayes, Maj. Gen. James A. Garfield, Brig. Gen. Benjamin Harrison and Maj. William McKinley. Beginning with the lawn of the State House in Columbus, the entire State of Ohio is dotted with monuments and memorials to the officers and men who served in the Union forces a century ago in the Civil War. The homes of a number of Ohio's heroes are today maintained as museums by the Ohio Historical Society and other organizations.

When the leaves are turning, few sights are so pretty as the rolling countryside of Richland county. And an unique sight is near Rome, where may be seen the last covered bridge in this region. Chester Craley, Bloomdale, took this picture, loaned by Benjamin W. Strange.

Forecasting the weather is a business, a sport and a television program.

People like to brag about how well they can tell what kind of weather we will have tomorrow or the day after. Even Pop thinks he knows when it's going to storm. He says when his bum knee acts up, he can feel the storm coming.

Well, maybe it's so. But I think there ought to be some better way of telling what the weather will be than just by feeling aches and pains.

**THE FIRST RELIABLE** weather forecaster was a Frenchman named Quatremere Disjovnal, who went to Holland and to serve as adjutant-general. He joined the Dutch patriots when they revolted against the Stadholder.

The Duke of Brunswick was the general of the Prussian army. When the Prussians captured the patriots, Disjovnal was tried and sentenced to 25 years in prison at Utrecht, where he was kept in a dungeon.

**A FAMILY OF SPIDERS** lived in the dungeon with Disjovnal. He had nothing to do so he studied the spiders. He noticed that when he had a bad pain on one side of his head, the spiders disappeared. Soon after the weather was bad. He concluded that the two signs meant bad weather.

So he studied what the spider did for a long time, eight whole years. He saw that the spiders went into their hiding places a few days before the weather was nasty, and he learned to tell from their webs how they would behave in the next few days.

He learned to do weather forecasts from 10 to 15 days ahead.

In 1794, French soldiers invaded Holland to throw out the Prussians. But it was in December, and a warm wind from the ocean caused the ground to thaw and the ice to melt on the rivers and canals. The French army couldn't march because the mud was too deep.

Disjovnal learned about this in his dungeon and he sent a secret message to the French general, saying he could promise them they would be good marching late in January of 1795. He had been watching his spiders. He knew there would be a hard freeze in 14 days. He told the French this.

**THEY MARCHED INTO** Utrecht on Jan. 28, 1795, and caught the Prussians with their pants down.

The French let Quatremere Disjovnal out of prison because he was so helpful.

Anyway, it was spiders behind all this weather forecasting.

From what he has seen on the idiot box, Pop says they might just as well go back to spiders, because most of the time they're crazy. Like last week, when it was so nice we could go without jackets, and they said it would snow.

Snow my eye! I didn't see any.

## Here's infernal device that dissuades driver from speeding

### Council agrees to purchase radar speed detection device

Village council Tuesday night agreed to purchase the radar device which has been in use two weeks. Cost: just under \$1,000 with allowance for rental of \$100. Councilmen said the device has materially cut speed level throughout the village.

Radar device differs from electric timing system in that no cables need be laid. Range of radar is such that operator can detect violations at 300 yards.

Only visible evidence of its presence is object indicated by Chief Robert L. Meiser above — a two-pronged searcher which is mounted outside vehicle. Inside, as shown at upper right, a meter records speed. And the only warning you get is that sign erected at corporation limit.

Meiser says he's issued a number of warning tickets, but hasn't been summoning drivers much. Councilmen made clear they won't tolerate use of radar as speed trap.

# "42 years with chalk on my sleeve"

The story of a man who was a national hero for 42 years and never knew it!

"I've been a schoolteacher for 42 years. Now they're trying to tell me that I'm a hero, too - me, a national hero, for teaching geometry!"

"Lately, there's a lot of talk about education being America's best defense. All of a sudden, we teachers are in the spotlight - 'heroes of America's future security' someone called us the other day. It really makes you stop and think.

"Frankly, I've never felt much like a hero. Certainly there were times when I didn't act like one - times when I almost quit teaching for a job with more money or position. But each time I started to dream about the extra things I'd be able to give my own children, I'd remember the other young folks in our town - the slow child who needed help after class... the quick one who needed encouragement to compete for a scholarship... the typical student who had to be shown how exciting learning can be. I guess

I knew all along I could never really leave them.

"That's why it's so hard to think about retiring - especially now, when America needs good schooling more than ever. Luckily, I know I'll still be able to play an important part in the fight for better education. You don't have to be a teacher or even a parent to work for revised curricula, higher standards of student achievement or improved status, prestige and training for teachers. People just like you and me are working toward these goals all over the country."

We must have first-rate schools, not only to prepare our children for all branches of higher learning, formal and informal, but also to make them well-informed adult citizens. An educated America is a free America.

For full details on how you and your community can help, write to "BETTER SCHOOLS," 9 EAST 40th STREET, NEW YORK 16, N. Y.

2 Do our schools provide for the early recognition of each child's capacities, with the necessary guidance counseling to insure his performance to the limit of his capabilities?	<input type="checkbox"/>	<input type="checkbox"/>
3 Are the necessary courses of study, including essential laboratory facilities and up-to-date textbooks, available to our students? Are science and math courses given proper emphasis in our curriculum?	<input type="checkbox"/>	<input type="checkbox"/>
4 Do our schools make provision for exceptional children, both the extremely bright and the slow learners?	<input type="checkbox"/>	<input type="checkbox"/>
5 Are our students being accepted scholastically by colleges with high entrance requirements, and are they doing well in college?	<input type="checkbox"/>	<input type="checkbox"/>
6 Are the students who do not go on to college receiving the kind of education that makes them more valuable employees and better citizens of our community?	<input type="checkbox"/>	<input type="checkbox"/>
7 Are our children attending full-time sessions in classes small enough for the teacher to give proper attention to each pupil?	<input type="checkbox"/>	<input type="checkbox"/>

# On the Sidelines

By THE OLD TIMER

Lodi's victory over Westfield in as bloody a Donnybrook as the league has seen this year means confirmed what the O. T. has been saying all season: that the Tigers were loaded, would probably go undefeated, and that Westfield was a second division club.

And the final standings looked like this:

W	L	T	P	OP
Lodi	7	0	0	264 40
Seville	5	2	0	184 74
Berlin Hts.	4	2	1	140 74
Plymouth	4	3	0	100 182
West. Res.	3	4	0	106 96
Westfield	3	4	0	100 88
Black River	1	5	1	62 106
Milan	0	7	0	54 356

Aside from the fact Berlin Heights finished a step above Plymouth, the loop standings were exactly as the O. T. predicted in early September.

There were some developments the O. T. didn't predict, although if pressed he would have been able to do so. Among these were that one team in particular — let's face it, Lodi — would be set upon by opposition from time to time with the specific purpose of maiming Lodi players.

The identity of some of the teams that would do such a thing wasn't entirely a secret. Because after a few seasons a newspaperman gets to know the coaches.

After nearly 25 years of covering schoolboy football games, the O. T. knows this: a team doesn't play dirty unless its coach has lost control of his players, which proves the coach isn't much of a teacher and even less of a man.

The regrettable fact is that coaches of this stripe are permitted to continue in the game year after year, teaching nothing, faking money under false pretense, contributing nothing to the fine sport they're supposed to promote and develop.

# Red hangs on against second half rally, downs Western Reserve for fourth win

The last, they say, shall be first and the first last.

And that's how it is with Plymouth's Big Red football team, whose defense held up again Friday night while the offense sputtered and skidded.

That defense, criticized and derided all season long, in the press and by word of mouth, rose up again and outshone the offense as Plymouth evened its season record at four-and-four by eking out a 16 to 14 decision over Western Reserve.

The results of the weekend's games were:

Lodi 22, Westfield 14  
Seville 62, Milan 12  
Berlin Hts. 14, Black River 14

Plymouth got off to a 16-point lead in the first half but then was hard put to hang on to it in the second half.

Duane Baker led the Big Red to its well-earned victory. He scampered 52 yards in the first period for the first Plymouth score, after an amazing bit of deception as has been seen on the Mary Fate park gridiron in many seasons. He hit right guard, seemed to be stopped, whirled twice and broke into the open with Fate Christian in the van. Down the north sideline he sped. Christian cut down the last visiting tackler and Baker was home

free. He took a pitchout at the last instant from Billy Strine and went in for the PAT's that were, eventually, to mean victory for Plymouth.

**IN THE SECOND PERIOD,** Strine began to throw. He hit Kenny Van Loo for 34 yards, only to have the play recalled for assessment of a five-yard offside penalty. So he did it again, this time threading the needle to Baker in the left flat. The play carried for 48 yards to the Western Reserve 13. After Danny Carter dropped a TD pass, Baker darted in for the score. Strine passed to Dayton Reed for the PAT's.

Western Reserve was a vastly different ball club after the half time recess.

Had the Roughriders from Wakeman played the first half as the second, they would surely have won by three or four scores.

Coach Tony Aiello's crew played a ball control game and nearly pulled off a victory. Of the 62 plays in the second half, Western Reserve initiated 48 of them, ripped off seven first-downs and scored three touchdowns but lost one by penalty.

**LARRY NOSACK, A BUR-**ly Junior fullback, was the principal villain of the piece. He is cut out for the job. He

tore the Plymouth line to shreds with bull-like rushes of tackle and outside end to score two TD's and the PAT's. Paul Adams, the lithe Western quarterback, was a superb play caller in the last half.

After a Plymouth offensive petered out on the Western 25 when Strine's fourth-down pass for Carter was not good, Western marched to a score in 11 plays. Nosack went the last 22 over his own right guard. Dave Eungard failed to make the PAT's.

Eleven plays later, the visitors were into pay dirt again. A poor punt by Strine, which carried only 12 yards from scrimmage, skittered out of bounds on the Plymouth 27. Nosack and Adams collaborated in the final march, the former bucking in from a foot out for the second TD. Nosack added the PAT's.

**ON THE ENSUING KICK-**off, a straight boot bounded off the pads of a Plymouth lineman and was recovered by Western on the Big Red 41. Plymouth lost 15 on a holding penalty. Nosack cracked to the 22 and then to the 18, whereupon Eungard faked the entire Plymouth eleven out of its shoes to scoot over his right tackle untouched for the score. But a Rough Rider was detected

in a holding offense. From this the visitors never recovered, although they stormed the gates once more, reaching the Plymouth 26 before Nosack fumbled away the last good chance.

Western died on four passes from its 41.

It was a bitterly cold night and the wonder is that only two fumbles were recorded.

**Hunt quail in legal spots**

Bobwhite quail hunters are cautioned by Tom Hennessy, Huron county game protector, Ohio Division of Wildlife, to be sure they are on land that can be legally hunted. The season opens Monday.

Quail can be legally hunted, he says, only on areas of land owned by the state, under lease to the state, licensed shooting preserves and such other lands as are controlled under formal easements, licenses or agreements with the Department of Natural Resources. In this classification are approximately 500,000 acres of pooled farmland in 39 counties. This latter acreage is controlled under an agree-

ment with the Ohio Wildlife council.

No owners or other occupants of private property may hunt quail on their lands unless they are part of a unit approved by the state. Even after the land is under contract, permission to hunt must be obtained from the owners or the agent representing them.

Rabbits, Hungarian partridges and pheasants may also be hunted beginning Monday, but in these cases there is no limit as to area.

Public hunting areas in Huron county are Willard Marsh Wildlife area and Milan Racon Farm Wildlife area.

# 3 3/4% INTEREST ON NEW U.S. SAVINGS BONDS NOW IN EFFECT

*Congress makes the Bonds you buy and Bonds you already own better than ever!*

Now U.S. Savings Bonds are a better buy than ever in three important ways:

- All Series E and H Bonds bought since June 1, 1959 now earn 3 3/4% interest when held to maturity.
- Older Bonds will also pay more—an extra 1/2%, from June 1 on, if you hold them to maturity.
- All Series E Bonds, old or new, now carry an automatic extension privilege; they'll keep paying liberal interest for 10 years beyond maturity.

Three big new dollar benefits that make it smart to buy new Bonds—and hang on to the ones you have!

40 million Americans now own Bonds

But a good return isn't the only reason so many people buy Bonds. They've discovered that there's no easier, safer, more American way to save.

You can buy Bonds automatically, through the Payroll Savings Plan where you work; you can buy them where you

bank; your youngsters can even buy them at school, through the School Savings Plan for U.S. Savings Stamps.

The U.S. Government guarantees that the cash value of your Bonds cannot drop; it can only grow. And if your Bonds should be lost, stolen, or destroyed, the Treasury will replace them free.

Finally, every Bond you buy does a big job for America. Because today peace costs money—money for military strength and for science; and money saved by individuals to keep our economy sound.

Your Bonds help provide this money—help America keep the peace. So, to build a brighter future for yourself and your family—and to protect it—save with U.S. Savings Bonds. They're better than ever.

**YOUR MONEY GROWS 3 3/4% IN JUST 7 YEARS AND 9 MONTHS WITH NEW SERIES E BONDS!**
