

First step in direct distance dial coming Sunday: new numbers

After 2 a.m. Sunday, telephone subscribers will use a new system of placing local calls.

First step in Northern Ohio Telephone Co.'s change to direct distance dialing, the new system involves seven digits instead of five currently in force.

Plymouth subscribers will henceforward (after 2 a.m. Sunday, that is) prefix all numbers thus:

The next four digits which the user must dial are those which will connect him with the number he is calling.

For example, to call The Advertiser editorial and business office, a subscriber should:

1. Raise the instrument.
2. Listen for the dial tone.
3. Dial 6, then 8, then 7, and then

Slain cat makes Richard Webber maddest in county

Maddest man in Huron county is a Plymouth route 1 chap, Richard Webber.

On May 29, while he was milking a cow, he heard a shot. Shortly thereafter, when he had all but ignored the noise, there was another report. He had to pay mind to this one, because the cow did: she jumped into his lap.

As he made it out around the barn, he saw a 1959 Pontiac, with a man and a woman passenger, lazing along in the adjoining road. When they saw him, they scooted.

Investigation showed they had fired one round in the vicinity of the house, narrowly missing his mother, Mrs. Dora V. Webber. Another struck the family cat, recently delivered of kittens, and killed her.

"The Huron county sheriff's department," says Webber, "tells me the next time I'm to call them right away. This time they say they could not find the auditor manages to find me a twice a year with my tax bill!"

Golden Agers set dinner Tuesday

F. H. Root will show old films from his collection to Plymouth Golden Agers Tuesday night.

A pot luck supper will be served at 5:30 p.m. in First Presbyterian church. Guests are asked to bring their own table service and a covered dish. Coffee will be provided by the committee headed by Mrs. Roy Hatch, the Luther R. Fetterses, Maurice Bachrach, George Ellis and Thorr Woodworth. They will be assisted by women of the church in arranging tables.

All Plymouth Golden Agers are invited to attend.

Three '60 grads Join armed units

Three recent graduates of Plymouth High school are learning the modern equivalent of "hayfoot, strawfoot" this week.

Vincent Garber, son of the Frank Garbers, flew from Columbus to Lackland Air Force base, Tex., Friday, a recruit in the Air Force.

Donald McQuate, younger son of the R. Earl McQuates, reported Monday in Cleveland for transfer to Parris Island, S. C., a boot in the U. S. Marine Corps.

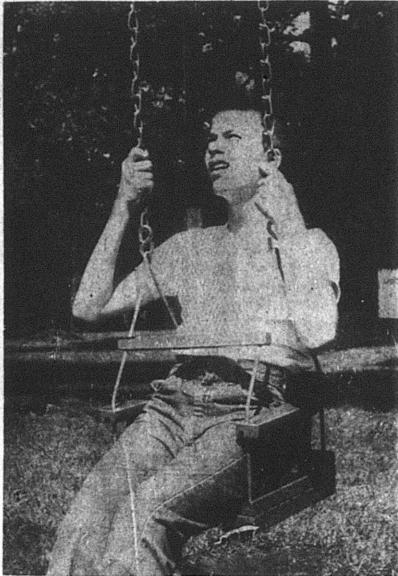

William Taylor, younger son of the Vincent Taylors, is reporting this week to Great Lakes Naval Training station, a boot in the Navy.

4. Dial 5511. After Aug. 7, when direct distance dialing is in force, local subscribers wishing to telephone long distance will use DDD code 160. Northern Ohio officials said Tuesday they will "blanket all subscribers with instructions in time to make all this clear, but the nub of it is that the number or code 160 means Plymouth, and to dial direct to a Norwalk number, for instance, the subscriber will dial 160, then the seven digits in the Norwalk number."

The Advertiser will be closed from 10 a.m. to 12 noon tomorrow, Friday, for installation of special newspaper equipment.

Subscribers wishing to pay telephone bills should NOT visit the business office of The Advertiser until after 12 noon.

The staff of The Advertiser will be available in the office until 5 p.m. Friday and until noon on Saturday to explain detail of the new dialing system.

"BUSINESS ISN'T SO HOT in Mary Fate park," says Eric Akers, but will get better when rains halt. They did so long enough Tuesday for Eric to try new swing (for cameraman only).

Will rain cramp style of band festival?

Annual summer band festival will be staged on the elementary school lawn at 5 p.m.

In event of rain, the festival will move indoors. Sponsored by the Band Mothers club whose first president was Mrs. Clarence O. Cramer, the festival has been an annual event since 1954. Sam Gilbert was band director then. Because the 33-piece outfit had no uniforms, mothers of musicians organized to raise money to buy outfits.

In the first year, enthusiasm was so high (and uniforms cost

less than) the club paid for all uniforms and bought a bass drum. Since that time, outlays approximating \$9,200 have been earned by the club and applied to the music program.

"We hope it won't rain," says the club president, Mrs. J. Harris Postema, who was the first vice-president six years ago.

She wasn't the only one expressing that hope. Farmers were this week offering up silent prayers, imprecating

CONTRACTS AMOUNT TO \$128,906

No rehabilitation likely from Greenfield issue

After long soul-searching, Huron Valley Board of Education soundly, its certain call Monday, night by approving contracts for construction of the Greenfield school addition without provision for rehabilitation of other buildings in the system.

Contracts totalling \$116,218 were approved thus:

Oney Construction Co., Upper Sandusky, general construction, \$77,450; Immele Bros., Tiffin, plumbing and sewerage and heating and ventilating, \$25,067; Seltzer Electric, Shelby, electrical, \$10,416; Steger Showel Co., Toledo, kitchen equipment, \$2,485.

With other commitments, including architect's supervision fees, the total comes to \$128,906.14. Total available

from the bond issue, including premium of \$2,000 and accumulated interest, is \$127,746.60.

It was patent the approval of Architect Thurman J. Peabody's recommendation would allow for no rehabilitation of existing buildings, notably the New Haven junior high school structure. But board members said they believe it is wiser to "do this job right, even though it takes all the money available, than to skimp and have a poor job when we're all through."

Earnings of interest between now and completion date of the contract are expected to cover the roughly \$860 by which the contracts exceed moneys available in the building fund.

Misses Hawk, Dyer to go to Girls' State on Capital campus

Shirley Hawk, daughter of the Kenneth Hawks, Plymouth route 1, and Joan Dyer, daughter of the Kermit Dyers, Shiloh route 2, are among nearly 1,000 high school girls who'll register Saturday for the 14th and largest session of the Buckeye Girls' State sponsored annually by the American Legion auxiliary.

The nine-day workshop in practical government will again convene on the campus of Capital University, Columbus. All have just completed their junior year in high school and are sponsored by local American Legion auxiliary units or by other community organizations through the auxiliary.

The program in which these girls will participate is designed to teach, through practical participation, the rights and responsibilities of American citizenship as well as the functions and problems of government. Upon arrival at the university, the girls will be assigned to one of 18 cities and two counties; all are citizens of the mythical "state".

Four ex-residents re-visit old haunts

Mr. and Mrs. Willard Caldwell of Oxnard, Cal., will arrive Saturday to visit the Harry Aumens. This is the Caldwells' first visit to Plymouth since 1948.

Former Plymouth resident, the Joseph Pasqualls, who transferred to Warner-Robins, Ga., visited the Luther R. Fetterses Tuesday night.

McKowns' kin dies of brain tumor

Full military honors will be accorded in Arlington National cemetery today for Capt. Joseph Sherman, 38, son-in-law of the John T. McKowns, who died Sunday at 2 a.m. at Maxwell AF base, Ala., of a brain tumor.

Captain Sherman, married to the former Natalie McKown submitted to surgery June 7. He had complained of an eye ailment. The optic nerve was found to be involved and exploratory surgery revealed the tumor.

A native of Harrison, N. Y., Captain Sherman was a graduate of Kent State university. Married in St. Joseph's Roman Catholic church here 10 years ago, Captain Sherman was professor of military science and tactics in the ROTC unit of Springhill college, Mobile, Ala. He was an infantry officer.

The Shermans had no children.

Gain 2.2% below Ohio's

Gain of 19.8 per cent in population recorded here during the 1950-59 decade is 2.2 per cent below the state average. U.S. Census bureau officials reported this week.

Ohio grew by 22 per cent to 9,636,224 persons, the bureau reported.

The net gain was 1,689,607 over the 1950 population.

Operating funds sought for schools: 9.5 mills expiring

Renewal of 9.5 mills of operating levy and an additional half mill of fresh funds will be sought in the general election Nov. 8 by Plymouth Board of Education.

Proceeds of the two levies will amount to \$100,000, the board noted. "Without it, we simply cannot continue to operate," it said.

Because economic conditions locally have tended to worsen, the board was at pains to make these facts clear:

1. By far the greatest part of the request is for retention

of an existing tax; 9.5 mills of the 10-mill request is a renewal, not a new tax.

2. About 49 per cent of the total funds on which the schools operate derive from these taxes.

Faculty members engaged in extra-curricular activities will be reimbursed on a percentage of their salary basis, thus:

- High school principal, 30 per cent;
- Elementary principal, 20 per cent;
- Head football coach, 10 per cent;
- Head basketball coach, 10 per cent;
- Head baseball coach, five per cent;
- Head track coach, five per cent;
- Assistant football, basketball, junior high football, junior high basketball, coaches, five per cent;
- Junior high track coach, 2 1/2 per cent;
- Tennis coach, five per cent;
- Athletic director, five per cent.

Band director will receive a 10-month salary plus \$200. Honoraria of \$100 annually will be paid to the girls' athletic association director, junior and senior play directors, cheer leader, sponsor and yearbook adviser.

Contract of Frank Garber, industrial arts teacher and guidance director, was extended by 30 days to 10 months.

A contract was offered to Paul Fazzini, brother of Elementary Principal John Fazzini, to teach in Shiloh Junior High school. Now underasking graduate work in the University of West Virginia at Morgantown, he is a graduate of Fairmont W. Va., State Teachers college.

Acceptance by Philip A. Workman, Shelby, recent graduate of A-land college, of a contract to teach commercial subjects in the high school leaves one vacancy in the faculty — a mathematics teacher in Shiloh Junior High school.

Offices of Supt. Maynard J. Coon and Principal Wayne H. Strine are closed this week to permit employees their annual leave. They will reopen Monday morning.

Shiloh's headache boosted by suit

Installation of a sanitary sewer system and treatment plant, one headache after another, has produced a four-aspirin pain.

Mayor Glenn Swanger announced June 8 that the village is being sued by the contractor Hanagan Construction Co., Urbana, for \$16,451.62, claimed to be due for constructing two lift stations and a sewage disposal plant.

Swanger said most of the claim cover, moneys held back by the village to guarantee completion of the work.

Braves, Reds top PML race

Billy Southworth won a pennant in Boston once on the slogan of "Spain, Sain — and pray for rain!"

President George L. Lesko of Plymouth Mid league has no Warren Spahn nor Johnny Sain. And he's NOT going to pray for rain.

"We've got a surfeit of it," says the toly-toxy prexy. Despite inclement weather, which cost Dick Lahmon a chance to even his hurling record Saturday afternoon, when POOM Giants went down to their second defeat in a rain-shortened contest, the green-clad entry holds second place.

Legion-Firemen Reds and Bachrach Co. - New Haven Supply Braves lead the league with two wins and a single loss. F-R-H Cubs are in the cellar, two games off the pace. Tommy Adams bested Lahmon in the three and a half inning struggle Saturday, make-up of the postponement on Memorial day. Braves won, 4 to 3.

Earlier, despite the first legitimate homer of this season, a blast by Eric Akers that cleared the fence, Norm Howard hurled the Reds to a 5 to 4 win over Akers and the Cubs. Jim Broderick also pitched for the losers.

On Friday, Reds showed the Cubs how it's done with a 12 to 8 victory, highest scoring total so far this season.

Chip Paddock pitched and batted his way to victory in the first game he ever hurled in PML stadium Thursday night.

He allowed the Braves only two hits and scored the win-

ter tripling as lead-off man. He scamped home on a passed ball.

The Braves got to the opening frame and added two in the third. Giants rallied for four in the fourth to tie it up and set the stage for Chip's blow in the fifth.

Prizes will be awarded each hour.

They include five baseball gloves, five electric toasters, five portable hand electric mixers, three transistor radios, rod and reel, a 16 gauge shotgun, a boy's 26-inch bicycle, a set of Arnel Palmer golf clubs (five irons, two woods and bag), a 5 1/2 horsepower Evinrude outboard motor and a Gopher Go-Kart racer.

Kenneth Echeberry and Mrs. W. H. (Pete) Ruckman are accepting offers by volunteers to work during the carnival.

Specially priced tickets for the rides can be purchased at the rate of six for \$1, but only Tuesday and Wednesday nights, June 20, 21 and 22.

Old Timer grieves for Sugar that was

The pathetic part of it all is that he was plainly over the hill.

The tiger's claws had been blunted by time. His murderous attack was but a mirage. And he took humiliating defeat.

It wasn't much of a fight, the Pender-Sugar Ray setto, and such as he saw of it left the O. T. with the conviction Pender is no more than a second-rater.

If he waits long enough, Archie Moore may be feeble enough to drop the duke to the Massachusetts fireman.

Assuming, of course, that Ancient Archie is able to shed that ponderous weight sufficiently to make the 175-pound limit and defeat the energetic German at Toronto to retain the light heavy title.

Robinson claimed he can fight forever because he drinks three cups of raw beef blood daily. Moore has said he has a secret formula for losing 40-

odd pounds in a short time, without sacrificing his strengtr. What's with this secer gimmi-k?

It would be pitiful for Archie, great scrapper that he is and has been, to lose to such humpty-dumpties as the German or Pender.

MICKEY MANTLE MAKES it official: the Yankees think Cleveland will furnish their strongest opposition.

He said so to a nation-wide audience: Baltimore, the New York slugger opened, hasn't the run-scoring ability of the Indians, although the Orioles' young hurlers have astonished the Yankees as well.

That Chicago isn't regarded as having more than a brief look-in comes as something of a surprise, although mature baseball men have said for several months that Willie Veeck is making the supreme gamble — loading up with older stars for one big rhot at the flag.

Loading up with such as

Wynn, Minoso, Torgeson, Pierce, Lollar, Sievers and co-horts might produce a pennant, for the Pale Horse, although signs now are that it won't.

Five firsts fall to HV Bowmen

Huron Valley Bowmen walked off with five first prizes, two seconds, and three thirds in the invitational meet Sunday in Marion.

First place winners were Francis Dorion, 325 class; Ronald Lofland, 250 class; Clayton Demick of Wakeman, 100 class, Mrs. John Lafferty, 275 class for women, and Mrs. Harvey Robinson, 75 class. A shootout between Mrs. Robinson and Mrs. Robert Kennedy, who tied for first place in their class, put the latter in second place.

Kyle Keyser placed second in the 100 class.

Third place winners were Mrs. Paul Kale in the 225 class and Donald Pyers in the junior division.

Sunday local Bowmen will be hosts at a 28-target field.

Now is the time to speak on issues

Governor Rockefeller's views expressed on the "Meet the Press" program coincide with ours.

To the extent, that is, that it is the function of a democracy to provide each citizen with a full and fair discussion of the issues of the hour before he is called upon to express his opinion.

We do not think the Republican party will suffer much, if any, damage were its single candidate to rise now to speak his mind on questions to which every American, whether Republican or Democrat, seeks a sensible answer.

We agree with the dynamic Rockefeller that full discussion after the party convention will deprive its members of the opportunity to influence the party platform in that direction most consonant with their needs and desires.

We very much doubt that more than a handful of Americans can recall the reasons advanced by President Eisenhower, in his Colorado speech nearly a year ago, why a young woman who inquired of him whether she should register as a Republican should in fact do so.

It's a fact she did register in his party, but she says she did so for other reasons.

The stakes in the coming presidential election are too high for anyone to consider them lightly. We think it would be wise for the candidates of each party to begin to speak now on issues as they see and understand them. Because it's vitally important that a Republican, or a Democrat, should know what his candidate stands for, particularly since no successful candidate for over two decades has pursued the platform officially approved by his party.

And while we're about it, why shouldn't local candidates—at the county level—be compelled to state their views on the issues of the day.

What issues? For one, the question of what're we going to do about a fantastically high outlay for public education, producing a large quantity of graduates, of whom only a small portion settle and make their livelihoods in the taxing district which footed the bill.

It wouldn't be so bad if there were a replacement, on a man-for-man or woman-for-woman basis, more or less, of those who depart from the taxing district to seek their livings, thus allowing some other district to reap the harvest we have sown.

This depletion of our richest resource needs to be halted. And we think it's up to local government to do it.

First uniformed band was this outfit, pictured in 1954, when Band Mothers club was begun. If weather is fair to-night, club hopes to net a sum large enough to purchase new gear. (Held over from last week by popular request — the author's — Ed Note)

Saturday we went to the ball game. It was only the second time I have been there. Pop thinks it is a waste of time to take a girl to a ball game if she doesn't know what's going on.

I was disappointed. I am for Cleveland. But Detroit won. And the Detroit player who used to be on the Cleveland side was the one who won it for Detroit. This pleased my brother and a few of the people who were there.

The mayor fumbled a ball and lost it. My friend Mike got a ball that was hit into the seats. And some person near us was whacked on the head by a ball hit by Kaline of Detroit and it split his head open. Then everybody was buying a plastic helmet to protect his head.

I just wish we were closer to the ball park. I would go more often.

And I would root for Cleveland, too.

(Ed. Note. And over the years, dear, you would lose money.)

THOUGHT HE WAS smart at the ball game. When one of the Cleveland players came up, Chip said he was a three-way hitter — right-handed left-handed and seldom.

I think he stole that somewhere, but I have to admit it was funny. When somebody said it took a lot of money to run the baseball team, Chip said money isn't everything. It isn't plentiful, for instance.

MOM SAYS SHE WILL let me go to ball games again except that she wishes I wouldn't lose things there. I told her I didn't lose anything except my appetite, and she said, "That's what I mean!"

There was this wedding. The bridegroom was all spiffed up and right after the ceremony he was standing with the bride to shake hands with everybody.

The family dog, an impossible dog with the impossible name of Charley, ran up. Everybody tried to catch him but he was jumping up and down on the fancy dogs.

The bridegroom caught him. He had no collar on. The dog, that is. And they couldn't find any rope. So the bridegroom took his belt off and put it around the dog's neck so he could be led home.

But when they were cutting the cake, the bridegroom's pants fell off.

The moral of this story is never cut a cake without a belt on.

Shelby hospital to dedicate addition

Shelby Memorial hospital's new addition will be opened to the public for its inspection Saturday from 1 to 9 p. m. The new 82-bed structure was begun in September, 1958, after a successful money-raising campaign. Cost was

approximately \$2 million, of which two-thirds was by public subscription and one-third from Hill-Burton act funds. Completely new surgery and X-ray facilities have been installed. When time arises, additional 30 beds can be added.

First Shelby hospital was a 12-bed unit opened in 1918. Next year, it moved to present site. In 1942, a brick fireproof wing was added. This will be moved next month to join the new structure. Original building will be razed.

Cruise waters wash Ohio, no kidding!

If you can't afford a winter cruise in the Caribbean, you'll find that a voyage on an Ohio-based vessel can be just as enjoyable, educational and much more economical.

There's a good choice of water-borne travel from your own back yard, or almost. If you still think that Ohio is a landlocked mid-western state, your education is incomplete. For all intents and purposes Ohio has two seacoasts. The Ohio river leads to the Mississippi, the Gulf of Mexico, Atlantic ocean, Caribbean or anywhere else on earth where there is navigable water. From any port on Lake Erie you also have access to the waterways of the world.

If you yearn to relive the days of Tom Sawyer exploring the mysteries of the Mississippi, you'll find the Delta Queen is the boat of your dreams. The stately steamer is about the last link between this century and the days when the paddlewheels provided the only means of luxurious transportation. The Delta Queen is as modern as tomorrow, but the old-time atmosphere has been discreetly preserved.

On the Delta Queen, which is operated by the Green Line, Cincinnati, you may take trips to New Orleans, stopping at historic towns enroute. There are shorter cruises on the Ohio and its tributaries.

For a cruise on the wide wa-

ters of the Great Lakes you can book passage on one of the palatial liners of the Georgian Bay lines, through its offices in Cleveland. The two big ships, The North American, and South American, have all of the facilities found on ocean-going vessels. You can live two weeks in the cool refreshing air of the north country, see the romantic land of Hiawatha, touch in at the bustling ports like Buffalo, Detroit, Chicago, Saulte Ste. Marie.

There are other huge watercraft available in Ohio like the S. S. Aquarama, a five-deck floating palace that plies between Cleveland and Detroit, and offers wonderful things for those who want something beyond the commonplace.

Followers of the summer theatre programs will find much to their liking in Ohio. There are approximately two dozen major playhouses sprinkled across the Buckeye State.

Followers of the summer theatre programs will find much to their liking in Ohio. There are approximately two dozen major playhouses sprinkled across the Buckeye State.

The only Shakespeare Festival in Ohio is flittingly scheduled for the terrace of Stan Hywet, the mammoth 65-room English Tudor Manor house at Akron. A New York Equity team will present Richard III, Henry IV, Parts I and II, and Henry V, beginning July 5 and continuing four weeks.

Other theatres are located thus: Ohio Valley Summer theatre, Canal Fulton, 38 miles south of Cleveland; Cincinnati Summer theatre, located on the grounds of the Fox and Crow restaurant on Montgomery road;

Cain Park amphitheatre, Superior avenue at Lee road, Cleveland; Stadium theatre, in Ohio State university's football stadium, Columbus, entrance through Gate 10; Dayton Theatre festival, Memorial auditorium; Denison university Summer theatre, at Toledo Zoo, "Stratford Theatre", 2700 Broadway, Toledo;

The Trotwood-Madison Circle theatre, Union road and Old Dayton road, Trotwood; Kenley Players, Packard Music hall, Warren; Lake White Barn Theatre, Lake White near Waverly; Wilmington College Summer theatre, Boyd auditorium, Wilmington; Playhouse-on-the-Grain, tent located in Route 23, four miles north of Worthington; Antioch College Summer festival, on lawn, corner of Cory and Allen streets, Yellow Springs; Huron Summer theatre, Huron on High school, Huron. New Carlisle will observe its sesquicentennial Aug. 7-14. Bay Village plans to celebrate its 150th birthday Oct. 10. Historic Blennerhassett Island, where Aaron Burr planned his conspiracy, has been sold to a gun club and will become a pleasant preserve.

Being a periodic, but irregular, presentation of human interest stories that come to the staff's attention yet seem for one reason or another not suitable for treatment elsewhere in the paper.

Ohio Power Co. will buy Willard's municipally-owned electric system, including power plant buildings, generating equipment, distribution system and street lighting facilities, for \$1,036,200.

The offer was presented to Willard's council June 6 night by E. W. Schmidt, manager of the Ohio Power district office in Tiffin. Also present representing Ohio Power were D. M. Conn, Luma, manager of the company's western division, and C. D. Albright, Bucyrus district manager.

Ohio Power would furnish electric energy to Willard consumers at rates which are uniform throughout its 53-county service area. Schmidt made a flip-chart presentation in which he explained the results of an Ohio Power study of the city's complete system.

Under Ohio Power rates, the average residential customer in Willard would pay nearly 18 per cent less for electric service, Mr. Schmidt explained. This would represent an annual savings of approximately \$27,800 for the city's 1,868 domestic users.

WHAT MADE THE EGG hit the fan was the revelation — which Ohio Power diplomatically kept out of its press release — that Willard's water plant has been regularly charged for every fifth carload of coal AND has been paying about \$23,800 a year for electricity to pump water.

Proponents of sale seized upon this fact to reassert their contention the electric plant has been consistently losing money for the town.

Opponents of sale cried "steamroller tactics" when one councilman sought to schedule a public meeting this week so that Schmidt could make his pitch to the whole town. And that's where it is now. Willard's city council will undertake an "independent" survey — it hasn't said who's independent and who isn't — to see if Ohio Power's claims are justified.

ON THE HEELS OF THIS development was a piece in the influential "Ohio Cities and Villages", a monthly publication of the Ohio Municipal league, which delineates responsibilities of municipal officials.

Quoting from page 180: "Boards of Public Affairs have some aspects of policy formulation. They are responsible more for administration than for legislation and when legislation is needed they go to councils to get it. The operation of a utility plant is the sort of thing that needs to be done by an expert, not a committee. . . . The reason we have them in villages, I think, is because councils realized they were not capable of handling administrative matters, particularly in a professional or a technical job. So, really, the boards were set up as boards of trustees who would then arrange for technical help as needed to operate the utility The Board of Public Affairs that tries to tell the superintendent of the water or light plant (if you have a competent one, and if you don't, you ought to get one) how to operate his plant is overstepping proper boundaries. . . . It seems to me the Board of Public Affairs is mainly a group of trustees."

What most power plant and water plant managers don't do, or don't care to do, is make re-

ORDINANCE NO. 15-60
AN ORDINANCE OF THE COUNCIL, VILLAGE OF PLYMOUTH, OHIO ACCEPTING THE CONTRACT BID OF FOCHT BROS. FOR THE GENERAL CONTRACT FOR BUILDING THE NEW FIRE HOUSE, IN THE AMOUNT OF \$30,400.00 AND DECLARING AN EMERGENCY.

BE IT ORDAINED BY THE COUNCIL, VILLAGE OF PLYMOUTH, OHIO, THAT: SECTION 1. The bid of Focht Bros., for the general contract for the building of the new fire house in the amount of \$30,400.00 is accepted, the offer to contract on the part of the Village to McFarland and McDougall, and the ordinance previously enacted awarding the contract to the said McFarland and McDougall is hereby repealed.

SECTION 2. The mayor and the clerk are authorized and directed to execute a contract with the said Focht Bros. for their contract on behalf of the municipality.

SECTION 3. This ordinance is an emergency measure necessary for the immediate preservation of the public peace, health, welfare and safety and shall go into immediate effect, the reason for this emergency being that the building of the fire house at this time is necessary to protect the lives and health of the people of the Village.
