

A big success . . . but why?

The splendid record of the March of Dimes campaign locally affords all of us a good chance to examine why it worked out so well.

Why is it important to learn why it worked well? Anybody can see that community support of worthwhile aims is a desirable end in itself. When those aims are of paramount importance to the common weal, particularly when the common weal isn't wealing very well, there must be some way to obtain community financial support quickly, easily and abundantly.

Plymouth's contribution amounted to about 70 cents a family. If the whole program of the National Foundation were supported as well, there would be little cause for worry.

So why was the local drive so successful? It seems to us these findings are worth nothing:

1. The campaign had ideas. Not all of them were world-beaters, but it was plain from the beginning that the campaign would be refreshingly different from so many others because it was freshly conceived.

2. Its director has access to ready manpower of a faithful and diligent character available at his beck and call. Sure, it was captive manpower. But there's a lesson to be gotten from this: he had manpower he could lay on at the snap of his finger, and it was obedient.

3. Civic and patriotic organizations which cooperated did so largely because they are this year led by persons who are energetic and community-minded. Activities by these individuals resulted in contributions of nearly \$135 that weren't obtained in the past.

4. The man who ran the campaign was a busy man. It seems to be a truism that busy people always can handle one more job, and they generally do it well.

Roundball pays PHS's sports freight

What does the high school athletic program cost?

How is it financed?

Light on these questions was thrown Feb. 14 when Athletic Director William Flaherty's financial report for the last complete athletic year — 1960-61 — was submitted to the board of education.

If anybody had any doubts that basketball pays the freight, Flaherty's figures will dispel that notion.

In the season immediately past, basketball produced a net profit of \$1,226.02 on a gross of \$3,683.62. Expenses were \$2,457.60.

PROCEEDS OF THE CAGE

program derived from gate receipts at 10 home games and the Richland county tourney. The Norwalk contest here produced the biggest gate revenue of \$286.60. Total gate revenue including the tourney was \$2,092.70. Sale of programs produced \$70.77. Concessions proceeds were \$558.65.

Program advertising amounted to \$444. Sale of reserved seats produced \$517.50.

Basketball expense was spread over 37 items. Principal items were pay of officials, \$324; program printing, \$249.20; mileage and pay of basketball help, \$259.05; equipment and uniforms, \$113.40; equipment \$1,593, of-

\$945.27; guarantee to Col. Crawford, \$100.

Football receipts of the 1960 season were \$2,123.93 at the gate, \$688.38 in concessions, \$99.53 for programs.

Biggest gate was the Butler contest, totalling \$697.25. Total gross of the football program was \$3,546.34, which included program advertising \$212.50, sale of programs \$99.53, player insurance \$222, season tickets \$160.

Expense of the grid program amounted to \$3,937.81, resulting in a deficit of \$391.47.

Principal items of expense were insurance \$570, film \$113.40, equipment \$1,593, of-

ficials \$360, lights \$80, stadium repair \$161.50, program printing \$119.05.

TRACK AND BASEBALL to transport athletes will do to the budget isn't yet clear. But Flaherty expects to gross \$3,955 in the 1962-63 season and to spend that much.

What the charge of 10 cents a mile for use of school buses to transport athletes will do to the budget isn't yet clear. But Flaherty expects to gross \$3,955 in the 1962-63 season and to spend that much.

Sir:

I have a gripe and there is no better place to put it than in print in The Advertiser for people to read. This particular subject is the Plymouth Mothers' club.

I have been to many of the meetings and it is a shame that more mothers do not turn out for them. It is a good organization working for the good of the children, getting some of the things the school couldn't get. If some of you mothers would think of what good it has done for the school, I'm sure you would want to take part in it.

They have babysitters for the mothers who have little ones, also refreshments and a door prize and a nice program. Where else could you get all that for just one hour of your time? A good hour at that, too!

Just to show you what the Mothers' club has done, go back in your mind through the past five years. It filled up the places in the auditorium for the tables and benches, bought stage equipment, helped the school board blacktop the playground, bookcases, projector screen and cart; tumblers for the kitchen, window blinds, stage curtains, traverse rods, cafeteria carts and more too numerous to mention. This year from the turkey supper it cleared over \$500. So, won't you mothers come to the meetings and voice your opinions on what to buy this year?

Can't the mothers, or won't they, give one hour of their time, once a month, for the good of their children, their school and their community? After all, when you stop and think about it, they aren't asking too much.

So, come out, let's liven up the meetings with a friendly chat among the mothers and teachers with a lot of good ideas and opinions and maybe we can close the meetings by doing the Twist.

Thank you.

A Mom

Tax collections high

Settlement has been made with the Huron county auditor for the collection of first half 1961 real estate tax, reports Treasurer Harold B. Collier. It was the largest collection of half tax in history.

Total payments are \$1,524,113.89. In addition to this, \$72,937.19 was paid in advance June payments. While percentage of unpaid taxes was lower than usual, they total \$71,101.43.

There were many more special assessments this year than usual, Collier says.

Total amount paid in this category is \$15,684.46. This brings the total collection in settlements with the auditor to \$1,613,209.97.

"If this is any criterion of the condition of times, things are not so bad as they have been made out to be in some respects," Collier remarked.

Final date for payment was Jan. 31, after which the mandatory 10 per cent applies. He assumes that much of the unpaid taxes is an oversight. His office is now sending reminder notices to those who have not yet paid.

Allen sues for divorce
