The Voice of The Advertiser — A kind word

It is appropriate to stop to say a kind word about the fire department.

Only too often one hears "our department never lost a foundation" or some such.

A fire department is just as good or as bad as its equipment and its personnel.

While the local concept of a volunteer is hardly the classical one, the men and women of the Plymouth department devote many hours to the servicing of their vehicles, hose and impediments and to additional training without being paid.

Purpose of the festival that begins Saturday and closes Sunday is to raise money to pay for new equipment that can't be paid for from official funds, for the main reason that there aren't enough of them to go around.

The entertainment is wholesome and the cast is wholly local. The food and drink have been locally prepared and/or purchased. Some young women of the community are in a friendly competition to be chosen queen of the department. The parade on Saturday, God willing and if the creek doesn't rise, shapes up as a splendid one.

It is to be hoped that strong support will be accorded the fire department in this venture.

Where do we stand, so far as fire protection goes?

We have approved a three mill levy to run for five years so we'll have enough money to buy a new pumper.

The fire chief has submitted a request for funds that probably can't be honored right now but shows what we need to replace and update equipment now on hand.

The department is staffed. There are no vacancies in its authorized manpower.

Our ambulance service is second to none anywhere around here. Its personnel are, for the most part, firemen as well. It is housed in the fire station and shares a common communications system.

The service that the local department renders to outlying areas to which it is under contract is better than it used to be because there is a better portable water supply.

Short of complete reorganization of the water system, to provide for the installation of loops in some sectors of the village, which would probably lead to a lower insurance classification, what we can do is to replace outmoded equipment, update other equipment and insist on recurrent training.

What the firemen are up to this weekend is to deal with the first two of these aims.

They're entitled to support.

Pay raise approved for village employees

Tentative agreement was reached to raise salaries of the utility and police departments Tuesday night.

The approximate annual cost for the police is about \$6,337 and for the utility employees \$6,400. The raises will be retroactive to June 1.

The council recessed until Wednesday night, when it will study the other sections of the ordinance, such as uniform allowances, vacation time, sick leave and such.

Councilmen Michael Taylor, Ervin and David Howard and Edward O. Ramsey met in a special session July 25 and determined that each employee would be considered individually, rather than accord a flat across-the-board raise.

Councilmen G. Thomas Moore and James L. Jacobs, Sr., and Mayor Elizabeth C. Paddock agreed with their proposal.

Superintendent of the sewer plant and assistant to the village administrator will be increased from \$5,22 to \$6 an hour. The position is now held by James Neely.

Electric superintendent, Terry Jung, goes from \$410 to \$490 an

hour; water superintendent, James Holoman, from \$410 to \$490 and street superintendent, Theodore Brown, from \$350 to \$420.

The utility clerk, Mrs. William Wheeler, will be increased from \$2,60 to \$2,85 and the meter reader, Donald Vanderpool, ambulance chief, will be increased from \$100 a year to \$250.

Police Chief W. Robert Seel will receive \$10,890. The present rate is \$9,445.

Patrolmen serving their probationary period will go from \$6,850 to \$7,855, regular patrolmen from \$8,360 to \$9,615 and part-time patrolmen from \$3,50 to \$4,25 an hour.

The position of cemetery sexton was increased from \$2,750 to \$3,000. It is held by Burton Forquer, who will retire Oct. 12.

AFTER AN HOUR OF discussion, the council followed Ramsey's proposal to Columbia Gas of Ohio, Inc.

The company, with whom the village contract expires in October, has presented the council with a new two-year contract with two rate increases, 2.8 per cent for the first year and 7.8 per cent for the second.

Robert Simmers, Mansfield, who represents the utility, was given five conditions. They are:

1. A three-year contract instead of a two-year one as a compromise.

2. The first year rates would remain the same as under the present contract.

3. An increase of 2.8 per cent for the second year.

She is the daughter of the James Depinets, Plymouth route 1. He is a son of the Frank A. Kieffers, 233 Riggs street.

Blue and pink cascading daisies and baby's breath decorated the altar, which was lighted by two seven-branched candelabra. Music was by Carol Studer, Andrea Robinson, Gail and Lynne McKown and Valerie Parkinson, vocalists, accompanied by the Misses Studer and Gail McKown on the guitar.

A cap of Venise lace supported the elbow-length veil of illusion, which was outlined with Venise lace.

She carried pink sweetheart roses, baby's breath and blue daisies. Miss Karen Stephens, Willard, maid of honor, wore a pink floral gown of dacron organza over taffeta. A wide collar formed a cape effect over the bodice. Two wide ruffles marked the skirt. She wore a white picture hat. Her flowers were blue

daisies, pink sweetheart roses and baby's breath. The Misses Michele Depinet, sister of the bride; Deborah Depinet, cousin of the bride; Clyde; Lyn Plar, cousin of the bride; Mr. Vernon; Kim Chiblers; Patty Garcia and Beverly Willis, Willard, bridesmaids, wore floral printed gowns of blue dacron organza over taffeta, styled similarly to that of the maid of honor. All of our jobs, as well as the basic quality of our lives, depend, in part, on a stable supply of electric power.

But the price of electricity has been going up. And a lot of people are worrying about the possibility of shortages in a few years.

These are serious problems. Not just for you. For all of us.

Because without electricity, machines stop. Work stops. Paychecks stop. The economy suffers. And progress stops.

So, how do we deal with this? By working together.

At the power company, we're continuing to expand our search for economical fuel sources. Planning for new facilities that will be needed in the future. And, we're continuing our efforts to hold our operating costs in line so we can efficiently provide the electricity that helps all of us get our jobs done.

How can you help? By using electricity wisely. On the job. And at home, too.

You can also help by understanding and sharing the joint responsibility we have in assuring our electric supply.

And working together offers the best chance for all of us to get the job done.

The power company's job is to help you with your job.

Ohio Power Company Working together is the only way.
