

# J. A. Morrison found dead in station

Judson A. Morrison, veteran gasoline dealer here and former school board president and fire chief, was found dead of gunshot wounds in his station at Sandusky and Brazilian streets Tuesday about 10:30 a. m.

He had an hour earlier conversed with the editor of The Advertiser in Bob's cafe.

Randy Dillman, a customer, entered the station and, not finding the proprietor, looked into the bay door. The crumpled body of the sexagenarian businessman lay in a pool of blood.

Huron County Coroner Dr. William Holman was not ruled on the cause of death when The Advertiser went to press.

An ambulance was summoned at once and Plymouth Ambulance service reported to the station immediately.

None of the neighbors of the station recalls that he heard any shots. Jeffrey Beasly, a college student, Transylvania university, Lexington, Ky., who with his parents for a brief recess, was in the family home across the street. He told The Advertiser "I live just about 50 or 60 feet across the road and I didn't hear any shots."

A neighbor to the south, John Ganzhorn, came at once to the scene. But not

# Mayor to resign during May

Mayor Eric J. Akers will resign his post this month, perhaps on Thursday night, he confirmed this week.

Akers said his decision to resign is brought about by economic forces. He can't afford, he said, to take the time to complete his mayoral duties from his law practice. He is also a professor of business law in Ashland college.

He earlier said he found the burden of completing the paper-

work incident to obtaining a Farmers Home administration loan onerous and time-consuming.

In his brief service as mayor, he fired an elected clerk, Raymond L. Brooks; appointed two clerks who resigned, Todd Fackler and Mrs. Bobbie M. Montgomery, and appointed a councilman, D. Douglas Brumback.

He forced the village into receivership by opting to obtain the benefits of a new state law that provides for state surveillance of municipal funds. Ernst & Whinney, Cleveland accountants, were chosen as the overseer of village funds, under the control of a village

financial planning commission, of which Akers is an ex officio member. Akers said Monday he thinks the state of receivership may be over by Dec. 31 "if receipts from the village income tax continue at the present rate". The receivership is costing the state \$157,000.

When Akers resigns, his successor will be Dean A. Cline, now president pro tempore of the council. Cline was elected in November, 1979, to a four year term.

His father is president pro tempore of the council at Shiloh. His uncle, Henry, is in his final term as mayor of Shelby.

# Mrs. Nesbitt succumbs at 88 at Willard

Mrs. Harland R. Nesbitt, 88, 17 Mills avenue, died Monday in Quality Care Nursing home, Willard, of a lengthy illness.

Born Mary Ethyl Westfall to Martin Van Buren and Susan Sleppy Westfall in Gettysburg Feb. 6, 1893, she lived most of her life in Shiloh and Plymouth.

She was a member of Shiloh United Methodist church and of its WCSS, of the auxiliary unit of Garrett-Riest Post 503, American Legion, Shiloh; of Richland County Salon 5, 40, and of Plymouth Golden Agers.

She is survived by three daughters, Mrs. Bernita Goff, with whom she resided; Jane, now Mrs. Floyd Duffey, Tiro, and Patricia, now Mrs. Kirby Buckler, Tiro; two sons, Charles and Delmar, Shiloh; a sister, Mrs. Esther Plagman, Ft. Myers, Fla.; two brothers, LeRoy Westfall, Fremont, and Edwin Westfall, Sandusky; 10 grandchildren and four great-grandchildren.

Her minister, the Rev. William Carter, will conduct services from the church today at 11 a. m. Burial by McQuate-Secor Funeral home will be in Mt. Hope cemetery, Cass township.

# Trustees award two bids for mowing

Six cemetery bids were received by Bloominggrove township trustees for 1981 township cemetery mowing.

Two bids were rejected because no name of bidder was given.

Bids accepted were David G. Cline for Shenandoah cemeteries, \$1,265 and Nancy Lewis for Ganges and Rome cemeteries, \$2,000.

Action was taken by township trustees on township cemetery lot purchases. Two options for purchases are full payment when lot is purchased or have cemetery lot cost to be included in funeral director's expense with full payment directly. No cemetery deed will be prepared or issued until full payment is received. This action was caused by people neglecting to pay for lots purchased.

Bloominggrove township will be cleaned. A petition from the county engineer's office was signed by the township trustees.

# 'Jaws of Life' fund up

## Want to steal? Look for bees!

By AUNT LIZ  
Never did I think I would stoop to suggesting the perfect crime.

But I have found it. Do not bother stealing ordinary things like TV's, stereos, silver, coins — the list can be endless. They can usually be traced back to their owners.

Just a few weeks ago a going B & E ring was broken up and about \$80,000 recovered in five counties. This included a large grandfather clock, which must have been a tricky thing to snatch. They are large and heavy.

What you really want to go after is a bee hive. Granted this takes real courage and anyone who does it needs to have his head really examined.

The thing about the bees is that they do not wear name tags and are impossible to identify, so you are home free.

Minnesota had a rash of such stealing last summer, which ended up in a loss of thousands.

The happy bees, if they like you, not only produce good honey, which is in great demand because of the price of sugar, so it has zoomed up in price, they also do beeswax for candles, which many, many churches across the countryside use, and that is a very profitable business.

Should you take up my suggestion, be sure you do not have one bee bite on your body. That is pure evidence.

Most people steal for the pure moola it can result in, which is really very ordinary. Once I really wanted to snitch two paintings out of

the National Gallery in Washington. They were pure beauty and I was deadly serious. No way, if I had been successful, would I have sold them. I would have hoarded them up to just look at. It was during my days in the Marine Corps. And they covered a lot of ground in those six weeks of boot camp; what they missed out on, they gave to you in meat duty, where they taught you how to clean 10 million chickens for Sunday dinner. What they did not cover was how to "acquire" something you really wanted.

Those pictures, I am dead sure, are in a museum in this country, and once I find them, maybe! At least there will be no bee stings.

And while you are plotting some dire move, you need a little nourishment. Start out with about eight pieces of a

cut-up chicken. Put it skin side up in a pan, turn the oven on to 400. Then have ready a stick of margarine, a smallish can of pineapple in heavy syrup, about 14 oz., which you drain and save the juice, a fourth of a cup of light corn syrup, two tablespoons of lemon juice, one teaspoon of soy sauce, a teaspoon each of ginger and salt, and a half teaspoon of pepper.

Melt it all together and gingerly pour it over the chicken as it bakes.

When the chicken is done, drain it and keep it warm, and use the liquid with one and a half tablespoons of cornstarch, which will thicken it all. Just cook this for a few minutes. Pour it over the chicken pieces.

It can be simply served bare as chicken or spooned over a little rice.

## As uncommon as they are, natural gas leaks have some common signs.

### Can you recognize them?

Columbia Gas keeps close watch on its pipelines and facilities to assure safe operation. And, although leaks are uncommon, they sometimes do occur. We feel it important that you know how to recognize a leak and what to do if you should spot one.

Common signs include a smell of gas, inside or outside; a hissing noise; blowing dirt; or bubbling water over a submerged pipe.

In or around your home or building, if you smell gas, first check to see if a pilot light or burner may be out. If not, and you still sense a leak, call us. Be aware the source of a gas odor could be external—gas from service lines or street mains that could migrate into your premises through walls or drain lines.

If the odor is strong, open doors and windows. Shut off gas appliance valves or meter valve. Don't use matches, electric switches or appliances. Leave the house and call your gas company from nearby and stay there until a representative arrives.

If you are outside in an open area, eliminate, if possible, potential sources of ignition and leave the area. Call your gas company from another location.

We're proud that calls reporting leaks are few. But you should make them, even if you only suspect a leak.

Columbia Gas is concerned about safety. And with your cooperation, we'll keep your natural gas service efficient and dependable.

**DID YOU KNOW:** It is possible to paint a vapor barrier on the interior walls of your home which will prevent moisture vapor from penetrating into the space between interior and exterior walls. A normal family will generate several gallons of moisture a day through cooking, showering, washing clothes, etc. In cold weather, the warm, humid air inside the house will, in the absence of a vapor barrier, actually pass through the walls as it tries to reach equilibrium with the cold, dry air outside. This moisture vapor will condense in the stud space between interior and exterior walls and can eventually lead to rotting of the siding or peeling of the exterior paint. This is due to the fact that warm air can hold considerably more moisture than cold air. In freezing weather, this condensation may turn to ice crystals, melting later to saturate the siding. Insulation, installed without a vapor barrier, will not prevent this condition. The moisture vapor will condense in the stud space and saturate the insulation. Since wet insulation conducts heat more rapidly than dry insulation, the efficiency of the insulation is drastically reduced.

There is every indication that diminishing energy supplies and the resulting higher costs will place greater emphasis on all known methods of conservation. To this end, the benefits provided by vapor barrier coatings should be given serious consideration.

Dollar for dollar there is no better buy than a professional painting contractor. He has the experience and knowledge to apply all paints professionally. Beautify the interior of your home this spring by contracting me, your professional painting contractor.

## Miss Lynch wed here

Miss Juanita Louise Lynch became the bride of Ray Anthony Phillips Apr. 25 in an early afternoon ceremony in St. Joseph's Roman Catholic church.

She is the daughter of Mr. and Mrs. Louis Lynch, Jr., Scott road.

He is the son of Mr. and Mrs. Clyde Phillips, New Haven.

The Rev. Frank Eckart was celebrant.

Pink azalea plants decorated the altar and the family pews were marked with white satin bows and those of the attendants with pink bows.

A selection of nuptial music was played by Patricia Kanney, Rosanna King, Shelby; Ruth Blum, Columbus, and Nelly Kanney, New Washington. Mrs. Wilma Niedermier was the soloist and Rebecca Young, New Washington, was organist.

The bride was given in marriage by her parents. She wore a gown of white tana knit fashioned with a full bodice, full bishop veil, sheer sleeves trimmed in lace. The bodice was styled with stand-up collar and lace yoke trimmed with a lace ruffle.

Tiny pearl buttons extended down the front and on the cuffs of the sleeves. The A-line skirt with an overlay of sheer material featured two pleats in the back. A lace ruffle edged the hemline and the chapel train.

The bride designed her gown and her mother made it.

A double layered veil fell from a pearl trimmed cap and she carried a long stemmed white silk rose with green leaves tied with white and pink bow with streamers.

Mrs. Janell Benner, New Washington, was matron of honor.

Her gown was light pink with a darker pink and white small flower print. The bodice was styled with a white lace collar and small pearl buttons down the front to the waist. The skirt was ruffled to the floor.

She carried a long stemmed pink silk rose with green leaves accented with white, pink and blue satin bow with streamers.

Judy Laser, sister of the bride, Tiro; Andrea Phillips, Harrisonburg, Va.; Mrs. Cynthia Lynch, Sandusky, and Marianne Phillips, all sisters of the bridegroom, and Evon Lynch, Bloomville, the bride's cousin, were bridesmaids.

Their gowns were similar to that of the honor attendant save in light blue with small dark blue and white floral pattern.

They carried a long stemmed blue rose.

Jody Laser, Tiro, the bride's niece, was the flower girl. She wore a pink gown designed as that of the honor attendant. She scattered silk rose petals.

Robert Brooks was best man. Christopher and David Phillips, brothers of the bridegroom; Edwin Lynch, New Washington, and Louis Lynch, Sandusky, brothers of the bride, Rodney Lynch, Bloomville, and Ed Zirie, Willard, ushered.

A reception took place in the social hall of the church. The pastel colors were carried out in the table decorations and the three tiered bride's cake.

# Mowry pitches tourney win

Steve Mowry pitched Plymouth to a 5 to 4 victory over New London in the Class A tourney at Wynford Monday.

Plymouth scored twice in the first inning on Steve Tackett's single after Mowry reached when hit by a pitched ball and Marty Carty walked.

The Big Red got two more in the third. With one out, Mowry drew a pass, Carty singled and Bill Hudson singled.

What proved to be the winning run came across in the seventh.

With one down, Mowry singled. So did Carty. Hudson's safety scored Mowry.

The Wildcats got a single run in the third and three in the fourth.

A walk and three singles produced the big inning.

Mowry allowed six hits. He fanned four and walked two.

Plymouth collected eight hits, two each by Mowry, Carty and Hudson.

# Girls overcome Chieftains, 12 to 4

Plymouth girls advanced to the second round of the Class A softball tourney at Bettaville Saturday with a 12 to 4 win over Hopewell-Loudon.

The Chieftains took an early lead with a run in the first inning. Plymouth came back with two in the second, whereupon Hopewell-Loudon tied it in its half. Two more Big Red scores in the fourth and a big five run fifth put it away for Plymouth.

Renee Taylor had three safeties for the winners, Mary Lou Briner, Barb Shaver and Tammey Tackett two apiece. Debbie Owens allowed the Chieftains just three hits.

# You don't need to be a weather expert to predict your electric bill.

Every month you get an electric bill. And every month it's different. Because your electric usage varies with the changing seasons. Usually, it's up in the winter, down in spring, up again in air conditioning season, and down again in fall.

So how can you put together an intelligent household budget if you can't predict what your electric bills will be?

Switch to our Equal Payment Plan. With the Equal Payment Plan, we'll bill you a fixed amount each month based on your average yearly electric usage.

Your account will be reviewed every six months to see that your budget payment is still as close as possible to your average use. And, at the end of the twelfth month, you'll receive a settle-up bill or a credit.

Want to smooth out the ups and downs in your electric bill and take the guesswork out of your budget? Get on the Equal Payment Plan.

# Here's text of Willard contract

(Ed. Note: Because of the overriding public interest in the terms of the village's contract with Willard to supply potable water, The Advertiser publishes in entirety the agreement entered into May 1 between the two municipalities.)

## WATER PURCHASE CONTRACT

This contract for the sale and purchase of water in entered into as of the 1st day of May, 1981, by and between the City of Willard, 2 South Myrtle Avenue, Willard, Ohio 44880, hereinafter referred to as the "Seller and/or City", and the Village of Plymouth, Ohio, 25 Sandusky Street, Plymouth, Ohio 44865, hereinafter referred to as "Purchaser and/or Village";

### WITNESSETH:

WHEREAS, the Purchaser is organized and established under the provisions of Title 7 of the Ohio Revised Code, and is empowered to construct and operate a water supply distribution system serving water users within the area described in plans now on file in the office of the Purchaser, and to accomplish this, the Purchaser requires a supply of treated potable water;

WHEREAS, the Seller owns and operates a water supply distribution system and water treatment plant with a capacity capable of serving the present customers of the Seller's system and the number of water users served by the said Purchaser; and the plans of the Purchaser now on file in the office of the Purchaser, and an amount, not to exceed, on the average, 700,000 gallons per day, which includes the usage of the number of water users now served by the said purchaser and a reasonable amount for expanded use by any renewal or extension thereof, potable treated water meeting applicable purity standards of the Ohio Environmental Protection Agency; or its successor, in such quantity as may be required by the Purchaser, not to exceed 21,000,000 gallons per 30 day month, or a daily average use of 700,000 gallons per day;

WHEREAS, the ordinance enacted on the 20th day of April, 1981, by the Seller, the sale of water to the Purchaser in accordance with the provisions of the said ordinance was approved, and the execution of this contract carrying out the said motion of the City Manager and attested by the Council Water Committee was duly authorized, a copy of said Ordinance being attached hereto, marked "Exhibit A" and incorporated herein by reference, and

WHEREAS, by ordinance enacted on the 27th day of April, 1981, by the Purchaser, the purchase of water from the Seller in accordance with the terms set forth in the said Ordinance was approved, and the execution of this contract by the Mayor, Village Administrator, and attested by the Clerk/Treasurer was duly authorized, a copy of said Ordinance being attached hereto, marked "Exhibit B" and incorporated herein by reference;

NOW, THEREFORE, in consideration of the foregoing and the mutual agreements hereinafter set forth,

### A. THE SELLER AGREES:

1. (Quality and Quantity) To furnish the Purchase at the point of delivery hereinafter specified, during the term of this contract or any renewal or extension thereof, potable treated water meeting applicable purity standards of the Ohio Environmental Protection Agency; or its successor, in such quantity as may be required by the Purchaser, not to exceed 21,000,000 gallons per 30 day month, or a daily average use of 700,000 gallons per day;

2. (Point of Delivery and Pressure) That water will be furnished at a reasonable constant pressure calculated at 20 psi or greater from a new ten inch main supply at a point located and agreed upon by City and Village at the intersection of State Route 61 and Skinner Road in the Township of New Haven, County of Huron and State of Ohio. If greater pressure than that normally available at the point of delivery is required by the Purchaser, the cost of providing such greater pressure shall be borne by the Purchaser. Emergency failures of pressure or supply due to main supply line breaks, power failure, flood, fire and use of water to fight fire, earthquake or other catastrophe shall excuse the Seller from this provision for such reasonable period of time as may be necessary to restore service. Cost for flushing of lines or testing of water, due to emergency failure of pressure or supply North of the meter, shall be borne by Seller.

3. (Metering Equipment) To furnish, install, operate and maintain at its own expense at the point of delivery, the necessary metering equipment including a meter house or pit, and required devices of standard type for properly measuring the quantity of water delivered to the Purchaser and to calibrate the metering equipment, at Seller's expense if required to as the result of an emergency failure of pressure or supply rectified and set forth in A. 2. (Point of Delivery and Pressure) above, or whenever requested by Purchaser, based on reasonable cause, but not more frequently than twice every twelve (12) months, at Seller's costs. A meter reading taken above or below the test result shall be deemed to be accurate. The previous readings of any meter disclosed by test to be inaccurate shall be corrected for the maximum of six (6) months previous to such test in accordance with the percentage of inaccuracy found by such tests. If any meter fails to register for any period, the amount of water furnished during such period shall be deemed to be the amount of water delivered in the corresponding period immediately prior to the failure, unless Seller and Purchaser shall agree upon a different amount. The metering equipment shall be read bi-monthly on or about the 15th day of the month of reading. An appropriate official of the Purchaser at all reasonable times shall have access to the meter for the purpose of verifying its readings.

4. (Billing Procedure) To furnish the Purchaser at the above address not later than the 1st day of each month after the meter reading, with an itemized statement of the amount of water furnished the Purchaser during the preceding two month period.

5. (Connection Fee) To waive the cost of any connection fee for connection to the Seller's system.

6. (Water Credit) To provide water credit to the Purchaser over a ten year period in the amount of \$100,000.00 plus interest equal in percentage rate to the rate of interest the Village must pay for monies borrowed for construction of the water main line.

### B. THE PURCHASER AGREES:

1. (Rates and Payment Date) To pay the Seller, not later than the 15th day of each month following receipt of billings, for water delivered, in accordance with the following schedule. The water meter shall be read every two months. The total usage in any two month period shall be divided by the number of days in said period, to calculate an average daily usage, and that average daily usage shall be billed on the following basis:

a. \$1.29 per 1,000 gallons of water used, for the first 175,000 gallons of water per day. However, there shall be a minimum average daily usage charge equal to \$1.29 per 1,000 gallons for 150,000 gallons per day, whether that amount of water is used or not by purchaser.

b. \$1.15 per 1,000 gallons of water used in excess of 175,000 gallons per day but less than 200,000 gallons per day.

c. \$0.90 per 1,000 gallons of water used in excess of 200,000 gallons per day.

2. (Construction of Transmission Main) To construct a combination 8 and 10 inch finished water transmission main. Said main will connect to the existing Willard ten

inch main at Neal Zick Road near the eastern City Limits and extend easterly to State Route 598, thence southerly on State Route 598 and State Route 61 to the State Route 61 and Skinner Road intersection; whereas the City will construct the identified meter pit and install the meter and connecting point for the boost pump. The Village will continue construction of the boost pump and station whereas the transmission line will be continued as an 8 inch line southerly along State Route 61 to the northern termini of the Village main and hydrant within the State Route 61 right of way. All line construction will be within the highway right of way.

3. (Transmission Ownership) To transfer to Seller total ownership, control and authority for the water transmission main between the city and the State Route 61-Skinner Road junction at such time as the water line has been completed to the satisfaction of the City Engineer.

C. IT IS FURTHER MUTUALLY AGREED BETWEEN THE SELLER AND THE PURCHASER AS FOLLOWS:

1. (Term of Contract) That this contract shall extend for a term of 20 years from the date of the initial delivery of any water as shown by the first bill submitted by the Seller to the Purchaser and, thereafter, may be renewed or extended for such term, or terms, as may be agreed upon by the Seller and Purchaser.

2. (Delivery of Water) That 15 days prior to the estimated date of completion of construction of the Purchaser's water supply distribution system, the Purchaser will notify the Seller in writing of the date for the initial delivery of water.

3. (Water for Testing) When requested by the Purchaser, the Seller will make available to the contractor at the point of delivery, or other point reasonably close thereto, water sufficient for testing, flushing, and trench filling the system of the Purchaser during construction, irrespective of whether the metering equipment has been installed at the time, at a flat charge of \$1.29 per 1,000 gallons estimated, which will be paid by the contractor, or, on his failure to pay, by the Purchaser.

4. (Failure to Deliver) That the Seller will, at all times, operate and maintain its system in an efficient manner and will take such action as may be necessary to furnish the Purchaser with quantities of water required by the Purchaser. Temporary or partial failure to deliver water shall be remedied with all possible dispatch. The City shall seasonably notify the Village of any failure of supply of water. In the event of an extended shortage of water, or the supply of water available to the Seller is otherwise diminished over an extended period of time, the supply of water to Purchaser's consumers shall be reduced or diminished in the same ratio or proportion as the supply to Seller's local consumers is reduced or diminished. The daily minimum charge set forth in Paragraph B (1) (a) shall not apply if the supply of water is not delivered. The daily minimum charge shall be proportionately abated if the minimum daily supply is fractionately delivered.

5. (Modification of Contract) That the provisions of this contract pertaining to the schedule of rates to be paid by the Purchaser for water delivered are subject to modification at the end of every one year period. Any increase or decrease in rates shall be based on a demonstrable increase or decrease in the costs of performance hereunder, but such costs shall not include increased capitalization of the Seller's system. Other provisions of this contract may be modified or altered by mutual agreement, in writing.

6. (Regulatory Agencies) That this contract is subject to such rules, regulations, or laws as may be applicable to similar agreements in this State and the Seller and Purchaser will cooperate in obtaining such permits, certificates or the like, as may be required to comply therewith.

7. (Miscellaneous) That the construction of the water supply distribution system by the Purchaser is being

partially financed by a loan made or insured by, and/or grant form, the United States of America, acting through the Farmers Home Administration of the United States Department of Agriculture, and the provisions hereof pertaining to the undertakings of the Purchaser are conditioned upon the approval, in writing, of the State Director of the Farmers Home Administration.

8. (Successor to the Purchaser) That in the event of any occurrence rendering the Purchaser incapable of performing under this contract, any successor of the Purchaser, whether the result of legal process, assignment, or otherwise, shall succeed to the rights of the Purchaser hereunder.

IN WITNESS WHEREOF, the parties have hereunto executed their signature this 1st day of May, 1981:

**ORDINANCE NO. 14-81**  
**AN ORDINANCE OF THE VILLAGE OF PLYMOUTH, RICHLAND HURON COUNTIES, OHIO, AUTHORIZING THE MAYOR, VILLAGE ADMINISTRATOR, AND CLERK/TREASURER OF THE VILLAGE TO ENTER INTO A CONTRACT WITH THE CITY OF WILLARD, HURON COUNTY, OHIO FOR THE PURCHASE OF WATER FROM SAID CITY AND DECLARING AN EMERGENCY.**

**SEALED BIDS** for furnishing all materials, labor, equipment, and services necessary for and incidental to construction for: Window Replacement, Plymouth High School, Sandusky Street, Plymouth, Ohio 44866 will be received by the Board of Education of the Plymouth Local School District at the Administrative Office, 365 Sandusky Street, Plymouth, Ohio 44866, until 12:00 noon EIT May 8, 1981, where said bids will at that time and place be publicly opened and read aloud, tabulated, and a report thereon made to the Board, at its next regular meeting.

WHEREAS, the Village of Plymouth, Richland-Huron Counties, Ohio (hereinafter referred to as Village) presently has a supply of water not capable of meeting the needs of the residents of the Village; and, WHEREAS, the City of Willard, Huron County, Ohio (hereinafter referred to as City) owns and operates a water treatment plant and distribution system capable of serving the needs of the residents of the Village; and, WHEREAS, it is necessary to have executed, on behalf of the village, a water purchase contract setting forth the terms and conditions by which the City shall sell and the Village shall buy said water; and, WHEREAS, because it is immediately necessary for the peace, health and preservation of the public safety, for the reason that the assured adequate supply of water must be maintained to the needs of the residents of the Village; and, WHEREAS, it is hereby declared to be an emergency measure, NOW THEREFORE be it ordained by the council of the Village of Plymouth, 5 members thereto concurring, Section 1. That the Mayor, Village Administrator, and Clerk/Treasurer of the Village be and are hereby authorized to enter into a water purchase contract with the City, said contract setting forth the terms and conditions upon which the City shall sell and the Village shall purchase said water.

Section 2. That, because it is immediately necessary for the peace, health and preservation of the public safety, for the reason that the assured adequate supply of water must be maintained to meet the needs of the residents of the Village, this Ordinance is hereby declared to be an emergency measure. Section 3. That this Ordinance shall take effect and be enforced from and after the earliest period allowed by law. Eric J. Akers, Mayor Attest: Diane Ream, Clerk/Treasurer 7,14c

Attention is called to the Special Requirements relative to Wage Rates and Hours of Employment. Bonds or No bid may be withdrawn for a period of thirty (30) days after the scheduled closing time for receipt of bids. The Board of Education reserves the right to reject any or all bids not responsive to the specifications and accept any bid deemed most favorable to Plymouth Local Schools. Plymouth Board of Education Arthur H. Hamman, President Jean Rish, Treasurer 16,23,30,7c
