

Hats off to girls, conference champs!

The record of the Big Red girls' basketball team is not the best ever turned in by a Plymouth team and it is far from the worst.

That it won the third straight year the championship of the Black Fork Valley conference is a feather in its cap. Let it be said that here the girls received some of the praise they deserve.

They and their coach are entitled to commendation, which everybody ought to extend to them. It's nice to win; it's better to win and be nice. Which is how we have found the entire squad, from coach to mere substitute.

If vacancy occurs, how to fill it?

From time to time, public officeholders deem it proper to resign. It then falls upon the body to which they were elected or appointed to seek out a replacement.

How should a replacement be chosen?

There is, in our opinion, only one fair way to do it.

It is to show preference to those who in the past have circulated nominating petitions, have sworn to their validity and have paid the nominating fee to the county board of elections.

There has been for some time an argument hereabouts that if, say, John or Mary Doe seeks office and fails to receive enough votes to win, this should be taken as a sign that his or her friends and neighbors don't want him or her in the job.

Nothing could be farther from the truth.

The truth is that at the time that John or Mary Doe sought office, another candidate, or candidates, obtained the preference of the electorate.

When the manager looks for a competent pinch hitter, he chooses the player most likely, at that time, to produce what he's looking for - a base hit. He chooses a Ruth over a Durocher, a Rose over a Geronimo, a McBride over a Manning. Which is not to say that Durocher, or Geronimo, or Manning may not be a very competent player who, in other circumstances, such as when there is no Ruth nor Rose nor McBride available, for whatever reason, may very well produce what the manager seeks.

It is the same way with political office.

Timing of one's candidacy is all important. Because a candidate errs in judging his appeal to the public at a particular time is no reason to conclude that at another time he may not be entirely suitable for the vacancy.

It would be wise for all public bodies hereabouts to consider the merits of this argument and to seek to make replacements to their ranks by choosing those who have submitted their names to the public.

It may very well be that, as one defeated candidate said recently, "Once is enough! Wild horses couldn't drag me to accept appointment now!"

If this is the case, then the appointing authority may proceed to the next likely candidate.

And if there is none who has previously sought office unsuccessfully willing to accept appointment now, then it is time to seek out others to accept the appointment.

For the information of those who may be called upon to appoint, this newspaper maintains a roster of all candidates for all local offices for the past 25 years. It may be examined during normal office hours.

Roger Winemiller was at one appointed to fill Jacob's vacancy but he was later disqualified because he did not have sufficient tenure of residence in the ward.

It's hard to match socks, even with a college degree!

By AUNT LIZ

Ice and snow you can really blame on the elements and our good Lord.

None of it is of our making nor our fault.

But when you try to match up a bunch of socks in various hues of blues and browns and grays, it is our fault.

Mostly because we bought the darn things for a present that was needed.

You learn the hard way. Never, never buy several shades of any color of sock. If you want to get into colors, stick to what you can see like bright red, green and blue, but never let those darker shades catch you.

I get them all laid out on the dining room table to match up and can go great guns for three pairs, then I am stuck with three odd balls who do not speak to each other. Sometimes I can recoup one in the middle of the living room floor, since we have a pup who thinks socks are great, but that still leaves me with two who still are not speaking.

The only thing which I can recommend to anyone is that the next time you have guests or are even feeding your own family, just go out and buy a good jar of chocolate fudge sauce; you could also make it, but that takes too long. Heat the jar in a pan of water, and serve hot fudge sundae.

There is not one blessed age in this world from the smallest to the oldest who doesn't like that.

A 9 lb. 8 oz. daughter, Heather Janel, their first child, was born Sunday in Willard Area hospital to the Earl Strines, The Stanley Henaleys, Shelby, are the maternal grandparents. The Wayne H. Strines are the paternal grandparents. The girl is their eighth grandchild.

A daughter, Erin Nicole, weighing 8 lb. 2 oz., was born Thursday morning in Willard Area hospital to Mr. and Mrs. Frank Hodge. Mr. and Mrs. Marvin Montgomery, Willard, are the maternal grandparents. Mrs. Lucille Hodge, Willard, is the paternal grandmother.

An 11 lb. 1/2 oz. daughter,

This is really sad, but somehow there is always something to perk it all up and the dumb socks can wait until a mate surfaces out of the dryer.

Can you believe that a small resort hotel in New York state had a whole weekend devoted to eating chocolate?

I heard this on the radio. The people who ran the place were all sitting around one day and realized they were all munching on something chocolatey, and decided ever since, and decided others might like it.

They planned a whole weekend to devote to the stuff and everyone who came loved it. They did serve ordinary food, but each meal was spiced up with a chocolate dish.

They brought in pounds of the stuff, which has now become very expensive, but they weekend really was n't. I think they said it was about \$200 for four nights and three days, which is not bad for rooms and meals.

What intrigued me about it all is that they served chocolate chili.

This is hard for me to imagine. You'll have the beans, hamburger and all the good stuff with the chocolate in it.

One person who had been there said that you could detect a rather bitter-like taste of chocolate, which sounded like kind of a spice in it all.

This recipe apparently exists. It was said that the hotel people found it in a cookbook.

We have a bunch of cookbooks that apparently are outmoded for such things.

If anyone can come up with this recipe, I will try it and ask him to dinner.

And then there is the miserably, but really good tasty chili sauce I spent an afternoon making last summer. It is pure soup but works like a dream on spaghetti as a sauce.
