# Schools to observe national holiday on May 28, not 30!

Blames the General Assembly for the confusion that will prevail the last week in May.

Ft. Wayne Board of Education did so Monday night and it's not in agreement with the Assembly.

Ohio is officially observing Memorial day on the classic day, May 30.

The federal government has chosen May 28, which makes a three day holiday.

Monday night the board opted to close down on that Monday.

Its decision was prompted by a request from Theodore Ross, commander of Ehret-Parrel Post 447, American Legion, to make the change.

Supt. Douglas Stagg, said his office made a check of the various industries where parents work and discovered that only one in the area, R. R. Donnelley and Sons Co., Willard, is observing May 30.

So far the Shelby schools and Buckeye Central will be closed May 28, but Pioneer Joint Vocational school has chosen May 30.

Stagg said that possibly changes will be forthcoming to make the holiday locally conform to the majority.

Contracts were authorized for 13 teachers.

Continuing contracts were authorized for Judith Mawhor, Dorothy Olevier and S. Michael Tracey.

Four year contracts will be offered to Mollie Gistoff and John Volrdich. Three year contracts will be offered to Cynthia Hornick, Carole Kirkpatrick and Denise Thompson.

Linda Bevier, who teaches part-time; Karen Muhring and Mrs. Lawrence J. Root have two year contracts.

# What's fair?

Hind sight is always 20/20. Foresight is a gift of Him alone. Him and experience.

Experience should have taught the powers-that-be at Mansfield not to go off half-cocked in the matter of Roy Brown, who lives south of here.

He has been crucified in the news media — but not here — by some whose motives are a bit suspect, now or at any time. There are those who call them bleeding hearts, which is what they may be. It's still a fact that the life of a dog is certainly less precious than a human life. If a dog is not cared for, if he is unwanted, society needs to deal with that animal. The dog warden and the county pound are the means by which our society does that. And euthanasia, whether at county expense or later, is usually how it is effected.

What Brown did, and has done for a long time, under license, it now turns out, is to buy animals from the pound and sell them to a Pennsylvania concern that markets them to laboratories for experimental purposes.

So far as we can determine, there has never been any accusation that Brown or his customer abuses these animals or mistreats them in any way. Save, at last, to subject them to any injections, vivisection, testing — whatever, in the interests of science.

The controls now applied by Huron county will, we think, in the long run drive Brown out of business. Certainly neighboring counties will pick up the idea and apply it themselves. Brown certainly cannot afford to drive great distances to purchase animals.

It wasn't fair or decent for those who flailed Brown to make him out to be some kind of blackguard when what he was doing was and is properly licensed by the Department of Agriculture.

## Council sweetens industrial park package offer

First step was taken Tuesday night by village council to make

Plymouth's industrial park tempting.

### Enrollment extended by PML

Players wishing to participate in T-ball, PML or Lou Gehrig competition may register with Larry Taylor in Miller's Hardware weekdays during business hours. Registration Tuesday night was disappointingly low.

Councilman Keith Hebb's motion to deed land to a prospective industry for \$1, no matter what its size would be, and that the village will tap municipal utilities into the property at no cost, was passed.

This will be included in the brochure that the village will distribute among prospective industries.

Councilman Roy Barber said no response has been received from the Farmer's Home administration since the last required information concerning the financial situation of Mary Fae Park Pool was sent to it in Wooster.

Mrs. Terry Jump inquired about the selling of the water tanker which was suggested by Fire Chief Wayne E. Strine. Barber said it will not be sold until a new one is purchased and satisfactorily installed for use.

# Brown sues for \$300,000; Harnly girls sue father

A Route 98 man seeks in Richland county common plea court \$300,000 in damages from a berkeper in Mansfield.

Charles Brown claims in his suit that he lost sight of his left eye when he was struck by a beer bottle wielded by Dale Estill, a customer of the Ole Silver Slipper, a bar owner and operated by David Walker, former member of the county board of elections, at 25 East Fourth street, Mansfield.

Brown says Walker's employees were negligent in serving several beers to Estill when he already evidently was intoxicated and had earlier assaulted a female customer and used loud and abusive language.

George R. Keyser, a Mansfield attorney, represents Brown. Judge James Henson will hear the case.

He will also preside over a jury trial demanded by plaintiff against

Donald Harnly, Siliman road, that seeks \$150,000 as administrator of the estate of Harnly's wife, Marsha, killed in December when the car he was driving struck a ditch in Route 61 south of here when he sought to avoid a deer.

James Kellman, administrator of Mrs. Harnly's estate, claims Harnly was negligent.

# At Norwalk — Riley quits candidacy for engineer

A GOP candidate for Huron county engineer has withdrawn his candidacy because he is not qualified under law.

Timothy Riley, Norwalk, now working in Saudi Arabia, directed his brother, John, Norwalk, to remove his name from the ballot because Timothy Riley is not registered with Ohio as both engineer and a surveyor.

Earlier, after a protest was lodged with the county board of elections, the board declined to act on removal of Riley from the primary ballot.

The incumbent, Lawrence Heit, completing a first term, seeks reelection. He is a Democrat.

If Richard Mutz, a write-in candidate, receives 50 votes in the primary election, he will be certified to run against Heit in November.

## Recipes next — First graders' 'nature day' set tomorrow

First graders in Plymouth Elementary school have been doing their own planning for special events on Friday.

The first was a "tooth day" with a visiting dentist. During the "poetry day" they composed their own poems and read others, and for "ecology day," they picked up litter on the school grounds along with learning what it meant.

Tomorrow they will have a "nature day".

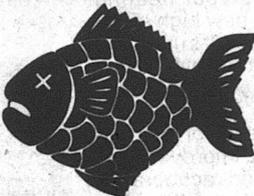

On Apr. 27 "sports day" is planned.

During May they will have a recipe writing session and a bake sale, entertain their mothers at a tea and have a special program in appreciation for the mothers who have worked as aides during the school year.

Among these regulations are one: requiring all persons to visibly wear a hat, cap, vest or jacket colored hunter orange while deer hunting during the deer gun season, early primitive weapons deer season and the statewide primitive weapons deer season.

— permitting deer hunts at the Ravenna arsenal in Portage county with longbow or crossbow on Oct. 5, 13, 20 and 27 and Nov. 3, 10, and with gun on Dec. 8 and 15, and Jan. 5, 12, and 19, 1985.

## Newsy notes . . .

Only one person was scheduled to appear in mayor's court Tuesday night.

A bench warrant has been issued for his appearance.

# Council sweetens —

An ordinance regulating parades, processions and assemblies was approved as an emergency measure after Councilman Terry Hopkins arrived, so that there were five members present, which is necessary when councilmatic rules are suspended to pass an ordinance in its three readings at one meeting, rather than at three separate meetings.

The council had a short discussion concerning it before Hopkins arrived. Barber said an ordinance is not necessary since parades have been conducted for years in the village with no problems. Hebble and the village solicitor, Richard Wolfe, 2nd, did not agree. They said there should be some kind of uniform regulation that will govern all such events.

Another ordinance passed as an emergency now officially calls for one scheduled council meeting a month, on the second Tuesday. When needed, special meetings may be called.

The council had considered an ordinance prohibiting open burning, based on the state law. It was found, however, that even though it has never been passed as a village ordinance, it was included in the codification of ordinances seven years ago.

# Detectives eat well!

By AUNT LIZ  
 There was a time, a long while ago, when I considered myself really on top of it all.

That was back in the days when if a book became a best seller, I read it. I know why. It was just to keep up with everyone and be fashionable.

Then one day after polishing off a book — I have forgotten the author and the title — I thought, "Why?"

All they were doing was climbing in and out of bed at all hours of the day, and not their own beds, at that!

I have always mixed mysteries in with it all, and now I have decided I stick with them. You do get some nice juicy little puzzles to figure out, with assorted bodies here and there. It is more fun.

The true classical mystery writers, who for the most part were sedate older English women, started it all. Their plots are terrific and they wrote in English the way it should be written. It has changed today, for the reason readers want it spiced up a little.

Not so long ago I finished a really good book that made me think a little. There had to have been quite a

bit of historical research by the young man who wrote it. In a way it was a social commentary on our country.

The plot centered on what happened to the Japanese-Americans in World War II. What our country did to them, people who were American citizens and had lived here for generations, is a true disgrace. They were put into camps, lost what they possessed, just like Germany did. At least we did not gas them. I am willing to be that no average American who lived through the war knew it. I know I hardly knew it, and California was a long way from Minnesota so it didn't mean much.

So here I sit in 1984 with a book that is certainly not on the top of the intellectual heap and read about what happened in 1942. One of these days I am going to check high school history books for that period, and see if it's even mentioned.

I will bet a cup of coffee it isn't. This, of course, means that the writers of American history books that our children are studying are not quite true to actual facts. As an old, out-dated history teacher, this is bad, bad, bad.

Maybe I ought to quit reading, but then on a happier note, the very best study joks I have heard in years came out of a good American mystery. It is unprintable here, but I will tell it. Just ask about the young painter.

Another thing I do get out of mysteries is some darn good ideas of food. Those "private eyes" eat better than most of us.

The one who really feasted was Nero Wolfe and his lucky sidekick, Archie Goodwin. They had a guy named Fritz who cooks like mad for them and their assorted murderers. They were great hosts.

This is one of their recipes, and it is timely. It is for rhubarb, tart Frankly, it can even be made into a pie.

Have four cups of chopped rhubarb ready. Combine it with a half cup of dry white wine and one and two-thirds cups of sugar. Bring it to a boil, then simmer until the fruit is tender. Then add a mixture of two tablespoons of cornstarch with a fourth of a cup of orange juice.

Blend this in over a low heat until it thickens. Then add a fourth of a teaspoon of nutmeg. Cool, then fill the little tarts or baked pie crust.

Ohio dog law within 36 months of his application to adopt or buy a dog may be accommodated.

6. No person with a history of causing bodily injury or harm to human or animals will be accommodated.

Brown had "adopted" hundreds of Huron county pound animals over the past several years. He has housing accommodations for perhaps 150 dogs at his premises, beside the Chesapeake & Ohio tracks in Plymouth township.

Earlier, Richland county commissioners were seized of the question and wrestled with it for some time, before tabling the matter, after more arguments con than pro.

Taking Huron county's lead, Richland county may opt for limitation of the number of animals that may be obtained from its pound by one individual, Prosecutor John Allen says.

Brown has been acting as a research business licensed by the U.S. Department of Agriculture to deal with animals, an investigator of the Humane Society of the United States, Steven Putnam, has said in a letter to Commissioner Joan Thompson.

1. No dog shall be sold to anyone engaged in the business of buying or selling dogs.

2. No person shall adopt more than two dogs in any 12-month period. Exceptions must be approved in writing by the commissioners.

3. No dog shall be sold for research purposes or for resale to firms engaged in research.

Huron county commissioners Thursday decided, after having the county prosecutor, Richard B. Hauser, research the matter, as follows:

1. No dog shall be sold to anyone engaged in the business of buying or selling dogs.

2. No person shall adopt more than two dogs in any 12-month period. Exceptions must be approved in writing by the commissioners.

3. No dog shall be sold for research purposes or for resale to firms engaged in research.

Sir:  
 This past week I had the pleasure in participating in the production of Plymouth High school's musical, "Guys and Dolls." I was able to see first-hand how much work is involved in putting on such a production by the cast, crew and director. All of these people should be admired for their dedication.

However, I was appalled by the lack of support by the community, especially, the school staff and the fellow pupils. These people missed a great show which enhanced by the talent and wit of the cast. It is a shame to see so much hard work go unappreciated.

To the "Guys and Dolls" of Plymouth High school, "Thanks, I had a ball!"

Sir:  
 Upon reading about the death of a three-year-old girl in Mansfield I was appalled. It seems children are not protected anymore from society or should I say the "unstable."

Every day children are abducted, molested or even murdered. What kind of society are we living in? Children are supposed to lead happy lives with the future of the world all around them. Instead, in some cases they live in constant fear.

The movie "Adam" said a lot about child kidnappings. A group called "Child Find" has been formed to help find missing children.

That's an excellent idea but as the class needs clear "heads" you children should be wary of strangers.

Here are a few other suggestions I have found and I would like to pass them on to you.

1. Teach your child a "code-word" Close friend of the child should know the code word while strangers will not. This will help the child to distinguish between friends and strangers.

2. Remember each day what your child is wearing and exactly where he has gone.

3. If the child is old enough, teach him to use the telephone.

4. Point out people than can help him, such as a policeman, fireman and the like.

It's a shame there are people like Beulah Albanese. And these suggestions probably would not have helped that little girl, but I hope to alert others to this horrifying problem involving our children.

Don't be afraid to get involved if you know something about a child. Remember each day what your child is wearing and exactly where he has gone.

6. If the child is old enough, teach him to use the telephone.

7. Point out people than can help him, such as a policeman, fireman and the like.

Thank you for printing this letter. I just wanted to express my feelings on these problems facing many of our children. I hope others will agree.

# OHIO NATURALLY

**T**wo new accounts funded solely by contributions from Ohio's taxpayers will allow the Ohio Department of Natural Resources to become involved in additional preservation and management activities. Ohioans are now able to donate all or a portion of their personal state income tax return to these special accounts.

Created by law, a Natural Areas and Preserves Special Account and a Nongame and Endangered Wildlife Special Account will generate money for vital conservation programs. Money contributed to these accounts will not supplement or replace budget appropriations, but will be designated for innovative projects which have not been undertaken due to funding shortages.

Making a donation is simple. Contributors designate the amounts and the funds they wish to support on lines 20 and 21 of the state income tax form. Then, these amounts are deducted from the total refund. Contributions can be made to one or both funds.

The Natural Areas and Preserves account will help protect the habitats of endangered plants and animals, and the state's nature preserves and scenic rivers. Donations will be used to

develop visitor facilities, provide workshops and educational programs, and help to locate and preserve the last and best remaining natural areas in Ohio.

More than 1,000 species of wildlife not taken for sport or commercial purposes will be protected by the Nongame and Endangered Wildlife Fund. The money will assist in the restoration of endangered wildlife populations and the reintroduction of species once extirpated from Ohio.

Ohioans not receiving a state income tax return can contribute to the funds by sending a check to:
