## Lutherans to fete 'Pat' Paetznick, legend in own time

How do you spell "legend"? In Plymouth it is "P-A-T". Those letters stand for M. P. Paetznick. (And the M stands for Melancthon.)

Although he served as pastor of First Evangelical Lutheran church for three years, between 1946 and 1949, he is one of the most beloved of all the pastors who have served in the community.

He will be honored at a church dinner Sunday after the 10:30 a. m. service, which he will conduct to mark his 50th year as a Lutheran minister.

He is a 1926 graduate of Paduch High school in Kentucky and of Wittenberg university, Springfield, where he received a bachelor's degree.

He went on to the Hanna Divinity school of the university and graduated there in 1933.

His first assignment was as an assistant to the late Rev. Dr. Bruce Young, pastor of First Lutheran church, Shelby. He served until 1939, when he was assigned as pastor of

St. Paul's and Pleasant Valley Lutheran churches, Carey, and served until 1943, when he entered the U. S. Naval Reserve. He served as a chaplain with the U. S. Marine Corps in the South Pacific for two years.

Plymouth was his next charge. He began here Mar. 31, 1946.

From here he went to First Lutheran church, Bucyrus, and remained as its pastor until he retired last year.

While living here, he was a member of Ebert-Parsell Post 447, American Legion, and served as its chaplain, the same office he has held with the Bucyrus post for many years.

Married to the former Ruth Tindale of Shelby, he is the parent of two sons, John, Canton, and Rick, Shelby.

Although he has been officially gone from Plymouth for a generation, he has offered his services to the local church whenever he was asked, and the congregation is saying, "Thank you."

## Chimney afire at Hale house

Firemen answered a call Sunday night to the William Hale home in center road.

The chimney caught fire, but there was no damage.

## Mrs. Lawrence, sister of villager, dies at Willard

Sister of Joe Thornberry, Plymouth, and of Charles Thornberry, New Haven, Mrs. Willis Lawrence, 51 Willard route 4, died Friday of a lengthy illness.

Born Gladys Thornberry in Knott county, Ky., Sept. 14, 1933, she lived in Willard 37 years. She was formerly employed by Wiers Bros., Celeryville. She was a member of Freewill Baptist church.

Her husband, three daughters, Vernice Thornberry and Mrs. Lisa Harvey, Willard, and Vona Lawrence, Boston, Mass.; a son, Danny Bays, Greenwich; a stepdaughter, Sharon Fox, Tiffin; two daughters, Mrs. Sadie Wicker, St. Marys, and Mrs. Dixie Fritchie, in Nebraska; three brothers, Sterling, Hubert and Corbet Thornberry, all in Kentucky, and 10 grandchildren also survive.

Fire chief seeks 'to clear name' —

## Suspension of Strine vetoed by council

A dramatic move by Fire Chief Wayne E. Strine, who sought to be suspended as fire chief, which would then investigate charges made in a letter to the village by a disgruntled prospective bidder on the fire pumper, was thwarted by village council Mar. 12.

It declined to approve such action. It said there is no need to investigate Strine's conduct in the matter of bidding and purchase of a new pumper.

Solicitor Richard P. Wolfe, 2nd, said he could find no evidence of conflict of interest by Strine. Mayor Dean A. Cline repeated these sentiments. On motion of Councilman Keith Hebble, a vote of confidence in Strine's performance was unanimously approved.

It declined to accept to the council said "Charges of conflict of interest and irregularities should be investigated. The only way I have to clear my name and reputation as fire chief is to ask you to suspend me from my duties and investigate these charges. When these charges have been proved false, if you so desire, and it is the wish of the Firefighters association, I would be more than happy to resume the duties of fire chief."

Strine said The Advertiser "carelessly cast charges."

What The Advertiser said on page 1 in its issue of Feb. 28 is that Edwin L. Ott, president of Warren Fire Equipment Co., Warren, under date of Jan. 7 told the mayor and council his firm would not participate in the bidding "because an analysis of the specifications clearly details a Grumman pumper." He asserted "the chief has been patronizing Grumman for a number of years. He would like a Grumman truck."

Editorially The Advertiser called upon the mayor to investigate the accusations. "The claims made in writing at least warrant official investigation."

## PUCO 'recommends' flashers at crossing

Flashers at the Peru Center road railroad crossing are recommended by the PUCO in a report dated Mar. 4.

Its final paragraph says "automatic train activated flashers and gates (should) be installed at Peru Center Road No. 45."

That's what the certified federal railroad track inspector recommended to the PUCO, says Lawrence Heit, Huron county engineer. "This recommendation will undoubtedly heavily influence the PUCO at an upcoming hearing, and it confirms the initial thinking of Representative Richard Rensch and myself." According to Heit, both he and Rensch contended that evaluation made earlier (of the crossing) by the Ohio

Department of Transportation "did not sufficiently evaluate all the factors evident in the approaches and at the crossing site."

Heit cautioned that the investigation and resulting recommendations do not mean that the crossing will automatically get lights and gates. "As we understand the procedure, the report is forwarded to the commission and is used by them, along with other data presented at a hearing, to determine if the crossing warrants the installation of lights or other devices." However, Heit was confident that, armed with the investigator's recommendations and the data gathered locally, the PUCO would be able to make a

## Car burns after collision near Shelby

Plymouth and Shiloh firemen responded Mar. 13 to an alarm in London West road west of Plymouth Springsmill road, where a single vehicle collision resulted in a fire.

Shelby apparatus also responded. Rose M. Lopez, 18, Shelby, eastbound in London West road, lost control of her car on a curve. It slid off the roadway and struck a ditch, where it burned.

The driver and her passenger, Jennifer J. Weber, 14, Shelby, escaped before flames engulfed the car.

Miss Weber was unharmed. Miss Lopez was taken to Shelby Memorial hospital by Shiloh's ambulance, treated and released.

At Shiloh —

## Hockley to leave town, council seat vacant

Councilman Dan Hockley has sold his home in Shiloh and will move from the village, which requires him to resign as a member of the village council there Mar. 13. Mayor Francis Govitzka is looking into whether a warrant has been served on a resident who improperly connected to the electric distribution system.

Should a time clock be installed in the village hall and employees be required to punch in and out? The council discussed the proposal but made no decision.

Appropriations of \$486,338 for 1985 were approved.

A new sewerage contract will take effect Monday at 6 p.m., when Robert Bowman, Shelby, will succeed W. F. Armstrong, Willard. Rates are \$4 for residential service

and \$5.25 for commercial service. George Shepherd, 27 High street, was accorded permission to use an alley beside his house as a driveway, on the proviso that a vehicle shall be parked in the alley. Cathy Burton, an evangelist, seeks to use the Scout hut as an

## \$303 for each citizen on deposit at Shiloh

A bank balance of \$71,542 and investments of \$100,000 added to cash on hand of \$19,299 was offset by outstanding checks of \$1,841 at Shiloh as of Dec. 31. Mrs. C. Richard Reeder, clerk-treasurer, says in her annual report. Balance as of Jan. 1 was therefore \$268,984, equal to \$302.

assembly place for church meetings. She said she and her family can perform maintenance work there. The park commission, Councilman G. Richard Reeder, Richard Tallman and Mrs. Ronald Powers, will look into the matter and notify the inquirer.

Property taxes last year provided only \$28,598. Mayor's court produced \$1,753. The village owes \$49,000 in general obligation bonds and \$9,375 in anticipatory notes.

The voice of The Advertiser —

Let's hear it, all together!

There is one time, and perhaps only one time, in a given year that an editorialist is right. (In the case of this one, in this market, the statement may be too ambitious).

When a pupil-athlete is singled out for recognition, whether broad or narrow, as a student-athlete, and a first team one, to boot, all that the editorialist has been saying from his by now encrusted pupil for three decades comes down as right. Correct. Proper. Meet. Right on the nose.

One may write this down in little black book, yea, even on the flyleaf of his Bible: academic achievement is what it's all about. To excel in athletics is all very well, rewarding to some, even richly rewarding to a few. What counts is how well one develops his intellect. Man rises above animal because he thinks.

That a cager and a wrestler made the first all-academic team of the Firelands conference should give them, their families, their friends, their school, their team and their community cause for great pride. That another, not blessed with great size, save inside, but gifted with special skills that make him an exceptional player, made honorable mention, only a whicker below the older, taller, more experienced players, is frosting on the cake.

Nirvana is when our team wins 'em all and each player make the all-academic team. He who settles for less has our pity.

# Roller skates sure harbinger spring's sprung

By AUNT LIZ  
There are all sorts of little things happening now that indicate that spring is coming.  
And there might be an official day that it has arrived.  
None of it is quite right, though. There is only one way to really know that it is here: That's when you hear kids roller skating past your house.  
And roller skating brings up another little point of our civilization being kind of faulty.

Books are filled with names of people who have done wonderful things for the world or even a little bit of the world. They go down in history.  
But there is one name you would have to spend a long time finding. Who knows who James Plimpton was?

There is hope for him, though. The Trivia game people will eventually find him.  
He was a salesman who had a lot of hobbies. Call him the "father of roller skates". Such things had existed, but they went in a straight line. He figured out how to make them move around.

It all happened when his doctor told him about 1860, to take up ice skating, which he did. But spring came, and his ice skating days came to an end. So he simply figured out how to do about the same thing without ice.

By 1863 he had it down pat and patented his idea. Then as an enterprising young man he sold it to

the best market he could find, the happy idle rich of his day, who made it fashionable.

Now it is part of our lives, year round. Still there is nothing like skating down a curvy hill, such as we had in our neighborhood when I was old enough to stand up on them. We were demons on those things until our mothers cautioned to how dangerous that lovely hill was.

Spring also brings out jumping ropes, but you hardly see that anymore. What happened? That took skill, and there was a time when status in the third grade was based on how tricky you could be with almost ball-like steps to keep from hitting the rope as it swung around.

Now-I would probably break both legs trying it all.  
This will replace those lost calories and is tasty and economical.

Beat four eggs, add a pound can of creamed corn with some pepper, some minced onion and about two teaspoons of cracker meal.

Then heat a 13 oz. can of evaporated milk with a fourth of a cup of water and two tablespoons of margarine until it is scalding.

Mix it with the corn mixture in a baking dish. Put it in a pan of water and bake at 300 degrees for about an hour. After that, turn the oven up to 400 degrees for a while until it browns and sets.

It can be sprinkled with paprika or parsley.

## CHURCH NEWS

**Presbyterians** . . .  
Annual bake sale of Women's association, First United Presbyterian church, will be conducted Apr. 6 from 9 a. m. to 12:30 p. m. in Miller's hardware.  
Colored eggs may be ordered by Mrs. Donald L. Brooks at 687-6404 or Mrs. Charles Williams at 687-7819.

**Lutherans** . . .  
Keith Coble, Oesterlin Home for Youth, will be the guest speaker Wednesday during the weekly Lenten service in First Evangelical Lutheran church at 7:30 p. m.

**Roman Catholics** . . .  
A charismatic mass and healing service will be conducted Monday at 7:30 p. m. in St. Joseph's Roman Catholic church for parishioners of the Mansfield deanery.  
The Rev. Carl Recker, liaison to the Catholic charismatic renewal of the Diocese of Toledo, will be celebrant. A healing service will follow.  
The charismatic renewal is a movement in several Christian churches. It seeks to establish the charisma of tongues, prophecy and healing.  
Some priests and deacons of the deanery will assist Father Recker, who during the healing service will lead the assembly in prayer for healing. Those who wish may be anointed with oil and receive the laying on of hands with prayer. This differs from the Roman Catholic sacrament of the anointment of the sick. It is a simple anointment with blessed oil.  
Public is welcome. Sister Mary Kuhlman at 687-4611 has further information.

## Friendly persuasion.

What would it take to persuade you to join the Payroll Savings Plan and buy S. Savings Bonds? We could appeal to your patriotism. Or we could point out the dangers of not preparing for the future.  
Instead, we'll just point out in a very friendly way that Bonds are one of the easiest ways to save. Even if saving has always been difficult for you. The Payroll Savings Plan sets aside a little from each paycheck toward Savings Bonds. And that's a nice way of saving, because you'll hardly miss it. But if you need it, it'll be there. Just like a friend.

Take stock in America.

## Tomorrow's the day for Jeff Lasch

Jeff Lasch was chosen King of Hearts and he expected the ruffles and flourishes customary for royalty in February.

But deep snow apparently interfered with the peregrinations of the god Amor and his ladykin, Eros, and he wasn't crowned.

This will be rectified Saturday at 7 p. m., when the King of Hearts dance takes place in the auditorium, rain or shine.

## How to predict your electric bill in an unpredictable world.

Your electric bill is different every month because it varies with the changing seasons. Usually it's up in the winter, down in spring, up again in the summer and down again in the fall. But the weather is even more unpredictable with cold fronts and heat waves coming and going all year round.

The Equal Payment Plan can make your electric bill predictable. With it, you pay the same amount every month. You know in advance what your monthly payment will be and your bill won't

change with the seasons. Your monthly bill is based on your average yearly usage. Your account is reviewed every six months to make sure that your budget payment is still as close as possible to your average use. At the end of the twelfth month, you'll receive a settle-up bill or a credit.

If taking the surprise out of your electric bill sounds like a good idea, give us a call. We'll take it from there.

## ON THE FRONT LINE...

Dr. Everett Anderson  
Professor of Anatomy  
Harvard Medical School

A March of Dimes research  
grantee, Dr. Anderson studies  
the very beginnings of  
life before birth when so  
many things can go wrong.  
His work reflects the deep  
concern of the March of  
Dimes in its fight against  
birth defects. This kind of  
basic research is top priority,  
and points the way to the  
day when good health at  
birth will be the right of  
every child.
