HISTORICAL DATA

By 1939, most of the following rural schools in Cass, Plymouth and Bloominggrove Townships were incorporated into the villages of Shiloh and Plymouth. Most of these rural schools have been listed and are as follows, Plymouth Township: Trauger, North, Griffith, Marsh Run, Kuhn, Hazelgrove, Faulkner and Plymouth. In Bloominggrove Township: Rome, Ganges, Whitehall, Paradise, Hogback, Amstutz Road and Shenandoah, that was assigned to Weller Township. In Cass Township: Shiloh, London, Beechgrove, Center, Cranberry and Planktown.

In the 1950's the state of Ohio was encouraging consolidation of all school districts that had an inadequate tax base or enrollment to support the trends in education toward vocational training and more specialized course offerings in the public high schools. General costs such as books, classroom equipment, salaries and buildings were rising and consolidation was considered to be one of the answers to cope with the increased costs.

In the middle 1950's Shiloh, Greenwich and North Fairfield were consolidated into the Iroquois School District. Plymouth Local School District and New Haven School District joined to form the Huron Valley School District. Both of these school district organizations were across the Richland - Huron county line and after court cases were filed protesting these transfers, they were ruled invalid by the court.

After the ruling the Richland County Board of Education assigned Shiloh Schools to the Plymouth district and the two districts became Plymouth Local Schools.

Since that time all high school students attend Plymouth High School and all the present Fifth, Sixth, Seventh and Eighth grade students in the district attend Shiloh School along with the respective Kindergarten through Fourth Grade.

The present Plymouth Elementary School building in Plymouth was built in two parts. The first part was completed about 1950, the second after 1952. This building presently houses grades Kindergarten through Fourth.

The Plymouth High School building has been added to since it was built in the middle 1920's. The front addition was built in 1959-60. The new gym, music room and shop area were added in 1970. The building presently houses all the ninth through twelfth graders in the district.

In 1968, Pioneer Joint Vocational school opened at Shelby and any Junior or Senior student in the district who was interested in a vocational program were encouraged to attend.

We are extremely fortunate in our school district to have the support of the people who live in the district who provide the money to build, staff and maintain the present facilities. Today, with rising prices for everything we hope we will be able to continue to maintain the high standards for our students that we have in the past.

ABOUT THE COVER

Shown on the cover are pictures of the 1875 - 1878 Shiloh building that was completely torn down. Also shown is the 1959 - 1960 Elementary with a two story portion added in 1970.

At the extreme left of the new Shiloh building in the center, is the one story part added in 1951 - 1953. A shop building, built in the late 1930's was removed at the time this part was added. The present new building is built directly across the Ferrell Athletic Field. The stone marker that was originally at the top of the hill is now relocated at the lower corner of the Shiloh School drive. There were no pictures available at the time of printing of the old baseball backstop that overlooked Ferrell Field. It was removed in 1956 - 1957.
